

His True Colors Novel Chapter 2359 - 2361

Chapter 2359

“Sleepy...the sleepy fairy valley is gone...”

When everyone looked at Qingzhou Green Water was gone, leaving only the devastated scorched earth and debris, they couldn't help but stand blankly.

“Why... how could this be?” A

group of people looked at each other, but obviously, Tiandi and here would not give them any time to surprise and reflect. When the golden light flashed, the fierce earthquake also followed.

Boom!

The entire ground was directly wrinkled like a wave. A group of people were knocked to the ground by the earthquake before they reflected it. However, Yidan fell and wanted to stand up again when the ground was so shaken, it was obviously Biden. It's still hard.

Obviously, with the cultivation base of Dao Twelve and Mo Yang, it is also difficult to escape the earthquake, but fortunately, George reacted extremely quickly, and he could instantly wrap the three of them, and then quickly leave the ground and fly. To the air.

Many masters in the three major families and the Sanren Alliance also reacted quickly. While flying quickly into the air, they also took away a group of men or followers beside them.

Those who have a low level of cultivation or slow response and no one can help, but they are miserable. For a while, they only hear the screams and cries on the ground, and the phenomenon of people stepping on people on the ground is endless. .

“How could this happen? How could such a big earthquake suddenly occur in Kuxian Valley?”

“Judging from the impact of this kind of earthquake, it is too rare to see it?”

Many people have lingering fears, looking at the land below like ocean waves. Rolling, a group of people were pale and completely shocked.

“d@mn, what happened?” Although Dao Twelve was safe under the protection of George, the sudden earthquake still frightened him.

“It's at least a magnitude twelve earthquake, right? The ground is like a sea tide, the waves are turbulent!” Mo Yang couldn't help but fear.

“It’s just too scary. Even a magnitude twelve earthquake is far less terrifying.” Liu Fang denied gently.

The sight in front of them, almost certainly, completely exceeded the scope of their knowledge, and it was frightening.

George frowned at the same time, staring at the ground stubbornly, shocked for a while.

Sleepy Immortal Valley suddenly disappeared, and turned into what it looks like right now. What is it because of it is really curious.

“Look!”

Suddenly, someone yelled in surprise, and everyone suddenly couldn’t help looking at the person who was screaming. From a distance, I saw the most central part of the entire trapped fairy valley. The green suddenly released a strong green light.

From the distance of their naked eyes, it may be difficult to see the green at the center point in this place, but with the green light erupting from the center point, it is impossible for everyone to not see it.

“There is...”

“Why is there green light there?”

“What’s the matter with those green lights?”

Om!

The most central green light suddenly released from the most central position, and then spread out directly with a sigh.

The whole world was once again shrouded in a green light... and

then, quiet, as quiet as death.

The wind stopped, the ground stopped, all the anti-buddhas entered a state of stagnant water, and each other could even hear each other’s breathing.

“What happened?” For

a long time, someone regained their sanity from the green light, and carefully checked every part of their body. After finding that everything was normal, they raised their head slightly, but they were enveloped in an extremely strange atmosphere in the sky and the earth. In the situation that he couldn’t explain it again, he couldn’t help but whispered.

With his voice, more and more people also recovered their senses, looking up and surrounding them.

Here, almost the same as most of the land of the trapped dragon, the scorched earth is vertical and horizontal, continuous, and the world is also shrouded in this black and red like magma.

If it hadn't been for the green mountains and green waters of the immortal valley that day were still clearly remembered in everyone's minds, I am afraid that people would not remember the strange place they are now in.

"Does anyone know, this...what the hell is going on here? Sleepy...what about sleepy fairy valley?"

"d@mn, this is too exaggerated? Did sleepy fairy valley disappear in the earthquake like this?"

Yes, is it because the magic dragon is gone, so the land of the trapped dragon is also falling apart?" The

crowd was very surprised and wondered.

George stared directly at the center of the sleepy fairy valley in the distance. After the green light broke out, there was a dead silence there.

But even so, George still vaguely felt that this matter was definitely not that simple.

There seemed to be something staring at him, but in fact nothing was clearly visible.

"George, what's the matter with you?" Mo Yang couldn't help but wonder at this moment when he discovered George's situation.

"I don't know, I always feel that there seems to be something staring at me there." George frowned slightly and said softly.

Hearing this, the Mo Yang trio immediately locked their eyes to the spot of green light just now, but no matter how they watched, there was already a dead silence there. It seemed like something was alive, let alone. Said to stare at George.

However, unlike others, even though Mo Yang and Dao Twelve could not see much, they had absolute trust in George.

"We can't see anything, three thousand, what do you see?" Mo Yang frowned.

"I don't know, I can't see anything, it's just an intuition." George said.

Knife Twelve took a lot of effort to open his eyes and look over there, but still there was no gain. He couldn't help but said, "d@mn, can you see intuition? I really can't see anything. Brother, am I too culinary?"

George shook his head. Judging from the reactions of everyone on the scene, it was obviously not the twelve knives, but there was really nothing there.

Although, from a certain point of view, the cultivation base of the Twelve Blades is indeed a vegetable among this group of people.

“Grandpa, what the hell is going on?” On the other end, Lu Ruoxuan and others were also very strange. Seeing that Lu Wushen was like George at this time, his eyes were staring at the center of the original green light, but Lu Ruoxuan I looked there, but I couldn't see anything.

Lu Wushen didn't answer, just stared at it, motionless.

Ao Shane's situation was basically the same as Lu Wushen's situation, and he stared at the place where the green light was originally released, motionless.

Ye Gucheng and the others were suddenly curious and angry. They wanted to see but couldn't see anything. But if you didn't, it seemed that the two true gods were also watching George. If they didn't watch it, they seemed to be out of grade.

All of a sudden, this group of people was emotionally embarrassed, and neither did it, nor did it not.

“George, this bltch, is fooling around with mystery, I don't understand, what's so beautiful there.” Ye Gucheng roared angrily.

“Shut up!” At this moment...

Chapter 2360

Ao Shane sneered coldly, looking extremely impatient.

“There really is something.” In the next second, Ao Shane frowned suddenly.

Even though he couldn't see anything, Ao Shane also suddenly sensed a certain change in the center at a certain moment.

“There is something under this ground!”

Suddenly, Ao Shane was shocked, and the whole person suddenly looked at the ground under his feet with nervous eyes.

At almost the same time, George and Lu Wushen also moved.

Ye Gucheng resisted his anger and looked to the ground, except for the familiar scorched earth in the land of the trapped dragon, where is there anything strange? !

Obviously, it is a mystery.

What's ridiculous is that Lu Wushen and Ao Shane actually regarded them as the same thing.

"I think Ao Shane is now afraid of being beaten by George, so he has become a bird of fright now." Ye Gucheng gritted his teeth and vented his depression to Wu Yan and others next to him.

It is not so much depressed, but rather the sourness of finding that he is inferior to Georgeshi.

"That's right, under this ground, it's just a piece of scorched earth, which caused an earthquake, and it can be said to be like this. They really don't have anyone." Wu Yan naturally followed Ye Gucheng's words, and he also I really don't see anything wrong.

While a group of mediocrities were comforting themselves, George's eyes were staring tightly at the ground.

Ao Shane's words are not wrong, at least George who is far here also feels the unusualness of the ground.

If you guess right, there is indeed a giant under the ground, although George doesn't know how huge it is.

"Elder Ao, don't care if he has anything. When the situation is chaotic, it's when we started. You have just seen it. George is obviously used by Lu Ruoxin. In the future, he will belong to the Immortal Sea and Yaoshen Pavilion. It's a big trouble. He is running out of energy while we are crowded. Let's stop doing it." Wang Xiaozhi said to Ao Shane what he had always wanted to say, and at the same time he wiped himself with his hand. The meaning of his neck couldn't be more obvious.

"Yes, Elder Ao, Lord Wang is right. Right now, Lu Wushen is also seriously injured. He can't find anything to help George. If we launch an attack at this time, George is what we hold. "

"Why don't let the tiger go back to the mountain."

Wang Xiaoyi said , and a group of his subordinates hurriedly persuaded Ao Shane.

In some respects, they did consider the future of the Immortal Sea, but on the other hand, they were also to protect their lives. After all, everyone knew what the Immortal Sea had done to George.

Once George makes a comeback one day in the future, none of these people will want to live well.

Therefore, at this critical moment, the people of Yaoshen Pavilion are surprisingly united.

Even the leaders of Chen Datong and Ye Gucheng, who had always been at odds, had rarely reached an agreement.

Ao Shane's brows frowned. Obviously, he hadn't thought about this kind of thinking, even when George succumbed to Lu Ruoxin, he was settled.

The worst situation that Ao Shane can accept is that George is alone and does not belong to any forces.

But obviously, it was not the case in the end. Whether George was willing or not, he helped Blue Mountain Peak to do things, it was his own threat. If it was a threat, the sooner it was to be eliminated, the better.

It's just that the open killing of George is equivalent to a head-on battle with the Blue Mountain Peak. Both are big families and both have true gods. Ao Shane is obviously unwilling to do this before he is fully sure.

Therefore, even if it is the best time to kill George, it needs a reason.

Need a reason to block the top of the Blue Mountain.

"Grandpa, are you worried that our teacher will be unknown? Isn't it just a change in the world? We can completely throw the change in the land of the trapped dragon on George." Aside, Gu You suddenly said.

These words were in the heart of Ao Shane's heart, causing him to look slightly, and ask Gu You: "What do you mean?"

"George sucked the blood of the devil dragon, and it has become a fact that the trapped fairy valley has disappeared. It can be said that it was because his devilish energy swallowed this place, and instead told everyone in the world that today this is the disappearance of the sleepy fairy valley, then tomorrow it may disappear elsewhere." Gu You said with a light smile.

On the outside, she seemed pure desire, but her heart was very sinister. From this point of view, Lu Ruoxin couldn't compare to her.

"They are all from the Ao family, Ye Gucheng, you have to study hard." Ao Shane glanced at Ye Gucheng coldly, obviously quite satisfied with Gu You's words.

"Since this is the case, kill George." After

Ao Shane finished speaking, he shouted coldly, and everyone took his orders.

“The disappearance of the Sleepy Immortal Valley must be related to George who swallowed the blood of the devil dragon. This son has become a demon and has endangered my generation before reaching the world. Today, the Immortal Sea Territory and the Medicine God Pavilion will kill demons and exorcise demons from the world!

As Wang Su shouted loudly, the entire Yaoshen Pavilion and the people in the Immortal Sea immediately moved.

“Three thousand, they attacked.” Mo Yang rushed to Han three thousand.

But at this time, George heard it but didn't make any response at all, staring at the ground stubbornly: “It moved.”

Chapter 2361

“Move it?” Mo Yang was taken aback, looked at the ground but found that nothing happened. Instead, the Yaoshen Pavilion and the immortal sea area behind him were already close.

“Three thousand, I don't know if the underground is moving, I only know that we have to move, the army behind has already been killed.” Mo Yang shouted anxiously.

Right now, 10,000 people have attacked, but George doesn't move. He doesn't want to fight back, but at least you have to run. How could he stare motionlessly at the ground below.

Even if you trust George again, the current situation really makes Mo Yang and the others anxious.

At the top of the Blue Mountain, seeing the Yaoshen Pavilion and the Immortal Sea suddenly gather troops to rush towards George, Lu Ruoxuan and the others were immediately anxious and reported the situation to Lu Wushen.

Sometimes things in the world are so complicated and simple. The top of the Blue Mountains can't wait to kill George to relieve his hatred in the last second, and in the next second, he may be regarded as his own person, everything is just for profit.

Obviously, the current George belongs to the latter to the top of the Blue Mountain.

If it were in the past, relying on the strength of the strongest of the three families at the top of the Blue Mountain, it is bound to be able to tear his face with the immortal sea on the basis of having George, but now, the strongest is the immortal who owns the dogleg medicine god pavilion. Sea area.

Turning his face openly was naturally something that Lu Wushen didn't want to see. Besides, the excuse that Ao's family found to attack George was at least well-known as a teacher.

What can Lu Wushen do?

“Grandpa, if it were not for George, the situation would be the same as some time ago, and we will gradually lose the advantage of our first family at the top of the Blue Mountains.” Lu Ruoxin hurriedly persuaded at this time.

“That’s right, grandpa, since George can be controlled by us, he is naturally our helper. Dogs in the immortal waters must also be hit by the owner. They do this. If we don’t have any response, the majesty of the Blue Mountain Peak Will be greatly challenged and insulted.” Lu Ruoxuan also said anxiously.

What they said, is Lu Wushen not clear?

The question is, the immortal sea area teacher is famous, what excuse should the Blue Mountain top use to intervene in it? !

Openly helping George, isn’t that the same as giving Immortal Sea the opportunity to tag himself? !

But at the moment of embarrassment, Lu Wushen was stunned to discover that even at such a critical juncture, George on the opposite side seemed not to panic at all. He remained motionless and looked at the ground with concentration.

This caused Lu Wushen to laugh bitterly: “The emperor is in no hurry, the eunuch is in a hurry, look, what is George doing?”

“This guy seems to have been staring in a daze since the green light passed. What did this guy see? Or was this guy just being beaten up, tired, and simply playing mystery?” Lu Ruoxuan was also very puzzled. He had seen all the places, but everything was normal, except for the talented ones. The earthquake is strange, nothing else.

“Grandpa, you just watched, did you see anything?” Lu Ruoxin asked.

Lu Wushen shook his head helplessly: “It seems that I can sense something moving underground, but there seems to be nothing. To be honest, I can’t see through.” The

two were shocked, but then Lu Ruoxuan became a little depressed. Head: “Since your old man can’t see if something is moving, then George really seems to be making mysticism.”

“But one thing is worth affirmation. At least George can really know something underground. One point, it has been proved that he is indeed extraordinary.” Lu Ruoxin naturally did not want his puppet to be despised by others, and hurriedly said.

Lu Wushen nodded without denying: “Although this son has sucked the blood of the dragon and has fallen into the magic way, the old man must also admit that this son has a bright future. Xiner, you have done well, and the future of the blue mountain will be headed. The highest brilliance must have half your credit.” How did the

two of them know that Lu Wushen and Ao Shane could not see things that George could see clearly than them. Although both of them are true gods, George's Sky Eye Talisman and the blood of the inner dragon are far more empathetic than them.

Although Lu Ruoxin smiled on her face, she was not really happy. She pretended to be humble and said, "Thank you, grandpa. However, what should we do if George is like this?"

"What should we do? Since we can't make a rash move, George again Don't be irritable, just look at what he sells."

Lu Ruoxin had no choice but to nodded dryly, but while worried about George in his heart, he was also very curious about what this guy was doing. what? !

"Three thousand, we won't be late if we don't leave." On this end, Mo Yang was already worried and sweating profusely.

Such a large army is crushed, and even if he does not die, he will have to be disabled, but George is constantly wasting the opportunity to escape.

Sword Twelve directly raised his figure and stood behind everyone, saying: "Lao Mo, you take them first and I will come to the back of the palace. Although I can't fight, there is no way to do it."

At this time, George glanced back at the army behind him, then looked at the ground: "The time is almost up, ten, nine... three, two, one!"
