

His True Colors Novel Chapter 2842 - 2843

Chapter 2842

Fang Biao did not immediately answer, but his eyes had begun to become more greedy. After waiting for a long time, he finally nodded.

Given the opportunity, why is it uncomfortable? Even if the relationship between Bing Shen and himself is good, it is an outsider, but if it is his own son, it is different.

At that time, his Fang family was holding hands tightly now and in the future, and there was no need to look at anyone's face in this desert world.

However, unlike Liu Tao, Fang Biao has a two-handed preparation. Before he really decides the victory or defeat, he will never choose the side to stand, instead he slightly becomes an audience.

At this moment, George Han in midair stood slightly, looking back at Fang Kun coldly, killing Taotian in his eyes.

Fang Kun looked at George Han with blood on the corners of his mouth, and smiled grimly: "What? Didn't you just be fierce? Why did you stop suddenly?"

"Is it right? I feel familiar with something."

George Han Gently wiped the powder on his face, and said: "What kind of poison is yours again?"

Fang Kun smiled coldly: "Last time in prison, the killer was not allowed to kill you, so you were lucky enough to find it. My dad and Mr. Chai, it's okay, let you revisit it now, how do you feel now?"

Fang Kun is naturally very confident of Qi Du San. After all, Fang Kun has seen George Han suppressed by this kind of poison with his own eyes. Was tortured by himself.

In the sky prison, I could humiliate him once, and today, I can humiliate him a second time in front of all these people.

Thinking of this, Fang Kun's sneer became even more hideous.

George Han didn't say a word, just the next second, he directly told him how he felt with his actions.

Moving like a rabbit, then, like an eagle hitting the sky, it went straight for thousands of miles and struck in a flash.

“what?!”

“What?!”

Almost at the same time, from mid-air to the ground, from Fang’s father and son, even to Liu Tao, and Chai Rong next to him, all of them opened their mouths in surprise.

The Fang family and Liu family knew the strange poison, as a legendary senior in the desert world, how could Chai Rong not know? Although he hadn’t heard anything from Liu Tao and Fang Biao talking about it from the beginning, people like him who had eaten more salt than many people walked could almost know what they were talking about at a glance. he also wanted to stop the battle for the first time, and even gave a severe lesson to this kid, Xiaokun, to let this kid know what respect is, but with Fang Biao and Liu Kun’s eyes, he also He noticed that the powder on George Han’s body was strangely poisonous.

He knew how powerful this poison was. Even if he accidentally got it on it, it would be like a tiger with its claws and a lion’s teeth removed. At that time, he rashly shot it, but it was tantamount to putting himself in danger.

This is the site of the Fang family, and the Liu family looks at it, once trapped, it is like a trapped lion. It doesn’t matter if you are defeated, together with your own supreme legendary position in the desert world.

Therefore, he also decided to observe the situation.

But where I wanted to be, it was not a moment after this idea came up, but George Han on the other end had already broken out of the enemy.

“Bang!”

“Medium!”

Almost these people were shocked while George Han was poisoned and still moved freely, George Han on the other end had already punched Fang Kun in front of him, even though Fang Kun had already released his energy. withstand.

But under George Han’s ruthless punch, Fang Kun’s resistance instantly melted away like a piece of paper, and then he felt a depression in his stomach, and his whole person almost fell from the sky in a folded shape.

boom! ! !

As if a meteor fell to the ground, Fang Kun’s body slammed heavily into the corner of the stone hall next to the main hall. For a time, the stone hall and pillars cast by the stone exploded directly, transforming into countless thin west and flying everywhere.

The whole scene was silent and deadly silent.

Su Yan and Lu Zhu stayed almost completely where they were, and their eyes didn't even blink. They looked dumbfounded, but also dumb.

Only Amelia Su looked at George Han above the air with tears of tears. In this scene, she was naturally worried about George Han, but George Han's performance did not know how many times she appeared in front of her.

At almost the same time, thousands of guards arranged by Kun on the ground also suddenly appeared, and began to compile and form...

Chapter 2843

"Someone snatches relatives, idles others, etc., quickly get out."

Fang Kun had already found an excuse, so this group of people shouted as soon as they came up, so that many people who didn't know the truth hurriedly hurry up. Back down.

According to Fang Kun's plan, if Fang Kun had any mistakes or failure to pay, they would immediately support it.

Although they didn't expect Fang Kun to lose so quickly, what should be executed must still be executed.

Fang Biao didn't say a word, he suddenly had an inexplicable premonition in his heart, or in other words, it was a shame!

It was said that he would challenge the Ice God and fight for the opportunity of this world-shaking battle, but now it seems like a foolish dream!

With a punch, you will be killed directly!

What kind of perverted strength is this?

But when he just wanted to take action, the elite group of thousands of soldiers had already assembled, and a team of hundreds of people encircled George Han and left. At the same time, the people who remained on the ground were directly clothed in human form. Into a big array.

"Xiantian Six

Formations!" Fang Biao frowned almost immediately when he saw the formation. This was one of the four banned formations of his Fang family, and at the same time, it was also the strongest ultimate move used by the Fang family to establish the prestige of the four major families in one fell swoop.

Since ancient times, there have been words in the Fang family, Liuhe opens in one, and everything is annihilated. The power of the Liuhe big formation can be imagined. However, it is also because the power is too powerful, the murder is too fierce and the hostility is too heavy, so after the Fang family became famous, gradually The formation is included in the forbidden formation.

“But this stinky boy, his own people actually learned this formation?” Fang Biao frowned. Even he didn’t know how to use this formation.

The master of the forbidden law is generally the Patriarch of each Patriarch, but the Patriarch of each Patriarch may not give all the skills they hold. They will select some suitable methods from them and give them to the next Patriarch.

Therefore, the old man did not pass the ban on the Xiantian Liuhe formation to himself, but what he did not expect was that the old man passed it to his son.

“It’s really a kiss from another generation.” Fang Biao was surprised, but also extremely bitter.

And in the field at this time, facing the hundreds of people who rushed forward, George Han did not talk nonsense. He had great luck in his hands. For a moment, the sky and clouds roared. , A huge black gold energy ball also slowly emerged. , there were thousands of people sitting on the ground, sitting cross-legged, their hands were neatly and uniformly gestured in the form of Liuhe, and each gesture was a mirror. When the Liuhe was opened, the six-sided mirror of the void suddenly For a flash, immediately after leaving the Void Essence to form a strange hexagon, these guys suddenly came out together.

It can be folded and reflected continuously in the six-sided mirror, and finally gathered in the last big mirror, suddenly a thick golden light of the arm rushed towards the sky.

This is true for one person, and the same is true for thousands of people in the array. When the thick golden light of thousands of arms gathers together, it is like an Optimus Pillar rushing from the ground to George Han.

The ground trembles, torn in midair, and the huge golden pillar is obviously with the potential to destroy the world.

Adding to the fact that there are a hundred-member team to hold George Han steadily, Fang Kun’s arrangement cannot be described as imprecise.

Lao Chai’s eyes shrank slightly, his head lightly lifted, and he couldn’t help feeling a little sad. Even if he was under the siege of such a large array and many masters, it was absolutely inevitable.

Fang Biao clenched his fists, his expression tense, and even a trace of sweat ran down his forehead, so rebellious, success or failure would be repeated.

Liu Tao also had a vicious look in his eyes, and he wished that George Han would be wiped out by Liuhe's forbidden formation, in order to relieve his hatred and restore the power of his Liu family's four big families.

Su Yan glanced at the same nervous Lu Zhu, but inadvertently turned his eyes to Amelia Su over there.

Another thing she felt unbelievable was that even though Amelia Su's eyes were worrisome at this time, what was even more uncoverable was the indifference on Amelia Su's face.

It seems that she... she is not worried about George Han at all? !

And George Han, who was at the center, looked at the Jin Zhu who almost illuminated his face as golden light and the hundreds of people besieged around him. He didn't have the slightest timidity. On the contrary, he had only the intent to fight.

"Die all to me!",

On George Han's body, the light of black gold began to faintly appear all over the body...
