Chapter 2874

It

was a nearly dry corpse, as if it were hung on the wall to air dry after death, with no muscles all over, only dry yellow flesh attached to the bones.

The head was almost like a skull, but his face was as pale as paper, with purple lips, black eyes, sunken pupils, and it looked quite huge, which made people feel creepy no matter how they looked.

George Han looked directly at him coldly, and said with disdain: "Old monster, it turns out that you are doing a ghost."

If it weren't for the sky fire moon wheel attacking beside the group of people in a magical way, the magical energy that was triggered would shine in the electric light flint. It illuminates the surroundings of the group of people, and because of the light problem, George Han vaguely sees the long line of stars shining behind them. I am afraid that George Han is half tired by now, and he does not know the enemy he faces. , What is it in the end.

"It's easy to talk about." He smiled slightly, his eyes almost narrowed into a gap, almost without him saying more, he could already detect from his expression, this kind of person is either evil or evil.

"But they are all the bronze armor and iron corpses trained by old

men . They are not that good." George Han smiled coldly. No wonder these guys have no feelings at all in the heat that is hard to resist, let alone tiredness. , After doing it for a long time, it turned out that he was not a living person at all.

However, in any case, George Han could not face such a strange trick with caution, looked at him coldly, and said: "What else is there, just use it!"

"En..." The ghastly man nodded his head. He touched his chin with his barely boned hand, and thought about it. After a while, he raised his head slightly: "To be honest, although my bronze armor and iron corpse are not capable, but the master who died in their hands, It is everywhere."

"But today, it is defeated by you, the old man has to sigh, young man, you are very capable."

"This is my ultimate move. I lose the bronze armor and iron corpse. The old man is like a waste. So, to tell you frankly, the old man has no tricks. If you want to kill, you have to slash.

After speaking, the old guy actually dropped his hands and closed his eyes, as if waiting for George Han to kill him.

George Han frowned and didn't do anything. Naturally, he wouldn't care to the point where he would kill if he wanted to kill. He would attack him if he attacked, or if he would admit defeat? Is it so sloppy? Even a rabbit has to kick twice before dying.

"Don't play tricks, let's talk, who let you come." George Han took the jade sword, but the sky fire moon wheel appeared behind George Han in time, faintly attacking.

Hearing George Han talking without doing anything, he smiled ghastly and opened his eyes: "Take people's money and help them eliminate calamities. It's the rules of the world."

"So you won't say the buyer?"

"Self-righteous." He smiled softly.

"If this is the case, then I will send you to the west." George Han's expression became cold, and the next second, the sky fire moon wheel rushed directly towards the gloomy person.

boom!

The sky fire moon wheel almost jumped, and directly penetrated through his body, and immediately pierced it directly, followed by a huge explosion, but the eerie and weird guy exploded into white dust in an instant, splashing. land!

Looking at the flour-like powder, George Han's complexion sank, and he was about to fly to chase his Huazhou, but suddenly realized that his body had become a little stiff!

And almost at the same time, the whole sky also burst into vicious laughter.

"Haha, hahahaha, immature boy, do you want to kill me? Isn't it that easy?"

George Han stared blankly at the white ash stained on his hands. These white ash is poisonous?

But in the next second, George Han ruled out this possibility. With his current body, it is only right that all poisons are not invaded. How can he be poisoned?

"My name is Han, I dare to trouble you, do you think you came here casually? I know you are not afraid of highly poisonous, but these stone powders are definitely not poison!"

"They will only dry up on your skin , Petrochemical, thus affecting your actions."

“Of course, with your George Han’s ability, I know that I’m stuck with you soon, at most a few seconds, but for me, a few seconds is enough.” As

soon as the voice fell, a dark shadow slowly followed From the yellow sand in the other direction came out, under the hideous appearance, there were bursts of dark smiles...

Chapter 2875

“The one just now was a fake!”

George Han’s pupils were slightly opened. Obviously, he knew that he had just won the trick. From start to finish, the ghastly man who was blown out by himself was not his at all. The entity, he is just a replay of the old skills, still using the wire to control a so-called iron armored bronze corpse...

However, this bronze armored iron corpse may not have any attack power than the others, but he is more realistic and more human-like. Therefore, even I was negligent for a while, completely ignoring the truth hidden inside!

This is basically a trap, and the purpose is to lead oneself to kill the fake body, so that the so-called stone powder in the fake body will directly explode!

Han three thousand sound cold smile, even if trapped, but he still has no Ju Yi, a touch of looked at the guy, disdain hum: “Do not say a few seconds, even give you ten seconds you can they do?”

While saying At the same time, George Han was also secretly working hard, trying to restore his stiff body to normal.

“I know your ability in the desert city, hehe, the enemy of ten thousand people, even Xiantian Liuhe can’t help you.” He smiled sullenly: “So, how can you say this from your mouth? The old man is convinced. of. ” “

However, surnamed Han, the old lady dare to embrace these porcelain live, you will be true when the old lady is no diamond? “

After saying that, he suddenly hands slightly shaking, Dayton time, those present had fell and piled up a mountain, and or The dozens of people in black who had plunged into the soil suddenly returned to normal, and instantly stood around George Han.

Then, as the ground shook slightly, the huge millipede worm suddenly stood up again.

“Time is running out.” Chong George Han smiled gloomily, and pressed his hands together.

boom!

Dozens of people in black pulled up their swords instantly and headed straight for George Han, followed by that millipede weird worm!

“kill!”

Several people struck!

George Han frowned, and when he was about to leave, the men in black rushing in front had already surrounded him, tightly, as the millipede worm jumped into the air and charged straight down.

Almost three sides inside and outside, surrounded George Han. “Blast!”

Suddenly, when George Han was about to resist, he only heard the ghastly roar suddenly.

boom!

Dozens of people in black, together with the millipede worms swooping from above, suddenly exploded like a bomb, and then connected to each other to make a bigger explosion.

Hum!

The whole desert can't help but shake!

The huge explosion flame even rushed all the way from the original place to the nine heavens, and it just reflected the moonless night like day.

Even on the flower boat that had traveled far ahead, the hull of the ship was swayed by the aftermath of this huge explosion, but what disturbed the people in the ship the most was the flames that suddenly burst into the sky at this time in the distance.

“Three thousand!”

Seeing this flame, Amelia Su couldn't help it anymore, and ran frantically from the second floor of the cabin to the deck. When he saw the skyrocketing flames rising in the distance, Amelia Su was almost anxious. Heart attack!

She knew that that place was exactly where George Han got off the ship. Now, the fire there was so full that it meant that George Han was in danger at this time.

She believed in George Han's ability, but such a shocking explosion in the distance made her belief almost vanished!

Qin Shuang hurriedly grabbed Amelia Su, but at this time she did not speak any more, because even she knew at this time that George Han might be in danger.

Su Yan followed closely, and almost rushed up with the green beads at the time of the explosion. When she first arrived on the second floor, she saw Amelia Su rush out of the house and ordered the green beads to take care of the single Han Nianhou. , She also rushed up.

Only when she arrived at the door and watched the astonishing explosion, she couldn't help being stunned!

The next second, Su Yan turned back and ran towards the bottom. At this time, the only thing she could do was to speed up Huazhou away!

“Three thousand!”

On the deck, Amelia Su, who was dragged by Qin Shuang, looked decadently at the distant flames soaring into the sky,

she couldn't help but tears... and in the flames...
