

His True Colors Novel Chapter 2942 - 2943

Chapter 2942

Because at this time, they suddenly felt severe pain in their abdomen, and the degree of this pain even far exceeded the degree of poisoning.

The two looked at each other hesitantly, and the Turtleman hurriedly said: "The antidote."

Toad didn't dare to neglect, and when his hand shook, it was two pills. After throwing one to the Turtleman, he raised his head and swallowed it directly. Pieces.

The two felt at ease, but this lasted only a moment, and the pain in the abdomen quickly brought them back to reality.

Even, compared to before, the pain in this meeting was even more intense.

The two of them frowned, looked down at their abdomen, and couldn't help feeling dumbfounded.

At this moment, the abdomen of the two of them somehow, the black liquid was slowly soaking out through the waistband between the trousers. The two touched slightly with their hands, and the liquid remained in the hands. It turned out to be black with red, faintly. The stench keeps coming.

"This...this is?" Turtleman looked at the toad aside in shock.

But the other side of the toad was also shocked, so how could there be any leisure for him.

"Bang!"

Suddenly, at this moment, with two muffled noises, the two of them fell heavily to the ground. When looking back, they saw white smoke billowing from their feet. , The two people's legs began to turn into the kind of black liquid just now. Naturally, the two people were horrified to find that their feet were completely out of control because of this, and they didn't listen.

The severe pain still penetrated into their brains, but at this time they had even forgotten to scream, and there was only panic in their eyes!

How could this be? !

How could this be?

Their bodies began to decompose into black water, from the abdomen to their feet...

“No...no...no.”

As the corrosion continued to rise, their chests began to disappear, their arms began to disappear, and even continued to corrode upwards.

At this time, the two people did not have the slightest arrogance, they just yelled in terror, feared, and even trembled...

Not only them, but all the monsters present were also dumbfounded. The scene before them was beyond their imagination. , Shocked their hearts.

A group of people retreated for a few steps, for fear of being encumbered by the tortoise man and the toad, but at the same time they felt a severe tingling of their scalp, because now it is not only what George Han just said, but what is even more terrifying is the tragedy at the scene. They were murderous, and they couldn't look directly at them. “It hurts... It hurts... It hurts, it hurts.” The turtle screamed in pain, and the pupils of his eyes kept describing how scared he was at this time.

Watching his body helplessly, little by little, is there anything more hairy and scary in this world?

He regrets very much now, regretting to provoke the great god George Han.

He is so, why not toad?

The fear is deep, and the regret is deep. Especially, George Han once gave him a chance, but he didn't cherish it.

On the side, Su Ziwu, who had not yet completely walked away, also saw the fate of Toad and Turtleman.

He staggered and slammed into the counter, looking at the scene before him in disbelief.

Hearing the movement behind him, Qinglong, who had followed George Han and others to the stairwell, turned his head weirdly.

Seeing Su Ziwu's appearance, Qinglong had a premonition that something was wrong, so he rushed downstairs in a hurry.

When he came downstairs and looked back, he was also stupid at the scene.

Toads and tortoises, like giants, were no longer in the field at this time. Some were just two heads and the two pools of black liquid next to their heads...

“Why... how could this be?” Even Qinglong At this time, he was also shocked and stood silly on the spot.

It's really the same as what George Han said!

Their bodies turned into black blood, leaving only one head? !

And just relying on it, is it just a drop of blood shed on that fellow George Han? !

What's the origin of this guy? !

Thinking of this, he turned his head indifferently, looking at George Han who had already stepped on the second floor, and had mixed feelings for a while.

At this moment, there was a sudden loud noise in the field...

Chapter 2943

I saw one of the monsters closer to the toad and the tortoise, with sweat on his face, and countless panic in his pupils!

He slammed the weapon in his hand, and then he shouted in despair, “I'm not playing anymore.”

Then, Sa Yazi fled like a desperate one.

If there is one, there will be two.

As the goods ran away, the other monsters onlookers were quickly awakened, and ran toward the outside desperately one after another.

Before, how lively this room was, and how quiet it was in the blink of an eye.

Even the clay figure at the counter, who had been expressionless, frowned slowly at this time.

Weirdly glanced at the ceiling, although, George Han upstairs could not be seen at all.

On the second floor, unlike restaurants in the Central Plains area, almost every room on the second floor is very large, even the central aisle is about three times larger than the Central Plains area.

There are many rooms, very old and dilapidated, but you can get a glimpse of the prosperity here.

Above the aisle, there were a few monsters faintly lying on the ground drunk, or hugging and kissing ugly opposite sex.

“I said, three thousand, those two guys will really turn into blood as you said?” Every time the pangolin took a few steps, he couldn’t wait to look back, even if he couldn’t see what was happening downstairs.

But Qinglong didn’t follow, and Su Ziwu didn’t follow, still making him want to turn around and see.

Su Yan and Luzhu were also worried. After all, Su Ziwu was from their Su family. They had all gone upstairs. Normally, they should follow suit.

But George Han had been walking in the aisle, and they were helpless not only to follow George Han, but also to go back to see the situation.

“Don’t worry, they are okay.” George Han stopped and turned to look at the surrounding rooms: “It should be here.”

Although they are all rooms in the aisle, it is obvious that George Han The seven rooms waiting for someone to get should be the most tattered room they had seen when they walked along the way. , there are even two rooms that don’t even have a door, or in other words, only the door frame is hung on the door.

At the door of several houses, all kinds of weird and disgusting garbage were thrown away, and the smell was so foul that people couldn’t help but pinch their noses.

Naturally, George Han didn’t care about this kind of place, but he was naturally dissatisfied with allowing his wife and daughter to live in this kind of place.

Obviously, even if Su Ziwu has been here all year round, in the eyes of these monsters, I am afraid that he is not a normal person, but is classified as a low-level person, so even the room is so rubbish.

Almost at this time, a few hurried running sounds hit, and a few people glanced back, Su Ziwu and Qinglong were not old-fashioned, neither was stable, with a smile on their faces, hehe ran over. .

“Cow, cow, they all say that the back waves of the Yangtze River push the front waves. I wanted to get the back waves to die on the beach, but I never thought that the back waves would die so miserably, and the front waves would push so fiercely. I’ve hit the back wave into our desert world.” Su Ziwu didn’t have half the doubts and dislikes before, looking at George Han full of endless love.

Qinglong also smiled slightly and looked in front of George Han, full of admiration.

“Why do you still live in such a shabby place? Go up to the third floor. The old monster specially gave us a free third floor. I said George Han. You really gave us a face, this third floor. , It’s always the high-ranking people in Youming City who are qualified to live. People here, haha, let’s tell you, it’s amazing to be able to live in a good room on the

second floor, let alone live on the third floor. , It's free!" Su Ziwu was in a good mood and couldn't help boasting.

George Han looked at Amelia Su and the others, smiled helplessly, and followed Su Ziwu toward the third floor.

However, at this moment, there was a person in this room who did not escape like a frightened bird. Instead, he came quietly outside the house and glanced at the third floor. There was a trace of cruelty in his eyes, and then he turned towards A dark cloud in the city ran to a room.
