Chapter 3124

three of them subconsciously looked back at the giant fish, only to see that after swallowing George Han, the giant fish just hovered in midair, and it was clear that there was no explosion.

So, what happened to the explosion above the head?

The three of them dazzled around, but they didn't see any enemies around. For a while, they looked at each other and didn't know what to say.

"Brother Pangolin, what should I do now?" Xia Wei said with great worry at this time holding the jade sword left by George Han.

The pangolin gritted his teeth slightly, and he didn't know. Right now George Han was swallowed, and he was desperate, but other strange things sounded around him. If there is an enemy coming, it would be even worse.

But unlike the pangolin and others' anxiety, at this time, at another edge of the snowy land, in a dilapidated cave.

This cave is located on the top of the mountain, and this mountain is also significantly higher than the other mountains.

At this time, a black air quickly drifted from the outside into the cave. After that, he transformed into a figure and knelt on the ground slightly.

"How's everything going?" A nice voice suddenly floated out.

However, in the cave, only the sound is heard but no one is seen.

The black shadow didn't seem surprised, but just nodded slightly: "I have lit a wolf fire in the sky above the snowy land as you ordered. The people who chased him have already known that they have already set off to go."

“Good job. .” “

under do not understand, those people are all vicious person, you do not say you are not afraid of three thousand Han could not withstand?” “

labor of their bones, depletion of their body, in order to become human Master, if he is so easy to die, can he still be George Han?”

“Subordinates understand.” The shadow fell, and his body dissipated, turning into a black air and floating out of the cave.

And at this time, if there are peerless masters in the cave, it is bound to be vaguely discovered that the air here is actually slightly deformed, and those who cause the deformation are clearly the people in the air.

...

On the other side, George Han was wondering what to turn this little black stick into, and suddenly he saw that the gourd had already become some strange object.

And this strange object was almost exactly the same as the mess he thought about when he finally got irritated.

“I understand.” George Han was suddenly overjoyed. It turned out that the change of the little black stick was not by shouting, but by thinking control.

Thinking of this, George Han suddenly thought of the blood-red armor at the time.

“Wow!”

Sure enough!

When George Han just thought about that, George Han’s body was instantly clothed with that mighty and domineering armor.

Thinking about it again, a dark black suit was instantly on him.

Thinking about it again, the suit was gone, and he even held a weapon in his hand that should only be the earth.

George Han felt a little excited, and with a slight movement in his hand, he heard a “bang” sound, and a bullet slid out.

boom!

A small hole was punched out of the blue-grey stone-like flesh wall.

“So fierce?” George Han couldn’t believe it and looked at the small black stick after the neutralization.

Looking back at the small hole in the blue limestone flesh wall, suddenly there was an extremely bold idea.

“Hehe.” Thinking of this, George Han showed an extremely triumphant smile on his face: “I didn’t believe in God’s will in the past. Now, I still have to believe this.”

“You guy is good at not wasting. I spent so long on you.”

“Next, it’s up to you.”

When the words fell, George Han flipped through his hand, and the small dagger appeared in George Han’s hand again. Then, the small dagger revolved quickly, and directly cut a hole in his hand with a chuckle.

“Either I am bleeding heavily today, or it is this guy.” Looking at the blood flowing out, George Han raised his eyes to look at the sapphire-like fleshy wall, with a sneer at the corner of his mouth.

When the words fell, George Han suddenly picked up the little black stick, and then pointed it directly at his wound.

When the little black stick came into contact with the blood from the wound, first the little black stick slowly absorbed some blood. Then, it seemed that it also noticed a lot of blood. After stopping the absorption for a while, suddenly, it was in contact with the blood. A huge glow suddenly appeared in the place.

Accompanied by it, the little black stick also shone like this!

The corners of George Han's sneered mouth suddenly moved, and the painful and ferocious words were suddenly written on his face.

He tried to cover the wound forcibly, but the intense pain still made him scream: "Ah!!!"
