

HTC 3998

Chapter 3998

Pei Gu heard the words, looked up, and was surprised.

Among the five colors, the golden light gradually rises, like the early sun rising directly to the clouds.

In the golden light, there seems to be a person and a god.

descend slowly.

“Look, look. There is a golden circle in the vision, and there seems to be a person in the golden circle. Is that person, that person is the true god in the legend?”

“Okay... such a dazzling light, such a powerful pressure .” Wherever the golden light arrives, it is like a divine light descending upon the earth.

Everyone bathed in it, and everyone was intoxicated by it.

Only Ming Yu and Pei Gu frowned, their eyes staring at the golden light, as if they wanted to see the person inside clearly through the golden light.

Could it be George Han? !

“Thunderbolts, listen to my orders, the art of the five elements, destroy the world !”

“Give it to me!”

Boom! !

With a loud shout in the air, the next second, the color of the world changed.

The five lights in the air began to deform, and Huohong took the lead in breaking away, turning into a huge fire, and falling straight into the world.

After that, the Anti-Buddha Heavenly River opened wide, and countless waters flowed down from the sky.

Above the ground, an unknown gust of wind blew up, followed by an earthquake, the scorching sun above the head, and the temperature rose sharply.

In an instant, the people on the ground were like falling into hell. Some were scorched by the fire like a fireball, and some were washed away by the sky water and swept away in the water.

Some people fell over in the earthquake, fell into the crack of the earthquake, and fell into the abyss forever.

And even if they can stabilize their bodies, many of them are festered by the golden sun-baked skin, which is very uncomfortable.

“This...what’s the matter?”

Ye Shijun was shocked.

Among the more than 200,000 troops, the wailing and screaming continued.

In addition, he is also in dire straits now, and his emotions are naturally difficult for a while.

However, the dazzling surroundings made him feel terrified and amazed that at this moment, not far from the opposite side, the army that should have fallen to the city stood firmly on the field, protected from the sun, fire, and all things. harm.

“George Han, it really is George Han!”

Ming Yu suddenly screamed.

Yes, other than George Han, who else could the figure in the golden light be? !

“How could it be George Han?” Although Pei Gu had already expected it, when he really saw that the figure was George Han, those mental preparations collapsed in an instant.

He didn’t understand, and he didn’t understand,

what kind of secret technique George Han used to cause this great change in the world.

He didn’t even know why he was just a mere mortal, so how could he be so powerful.

“What the hell... what is going on?” Pei Gu was completely puzzled.

Mingyu doesn’t know, some things are beyond her understanding.

Suddenly, Pei Gu’s eyes were fixed, and he stared at the stone in George Han’s hand. Seeing that it was carrying energy on it, and it was releasing five kinds of rays of light, he murmured in shock: “No... no way. ?”

Seeing this, Ming Yu looked at Pei Gu in confusion: “Patriarch Pei, what’s wrong? Could it be that Patriarch Pei found something?”

Pei Gu didn’t speak, his eyes still stared at the small stone in George Han’s hands. After a while, he suddenly shook his head:

“Impossible, absolutely impossible.”

“It’s impossible!”

At the end, he said, There was even a little hysteria in the words, which was very close to madness.

Yeah, that’s simply impossible.

Even though Ming Yu just told herself just now, nothing is impossible for George Han. But there are always exceptions to many things.

And Pei Gu firmly believes that what he sees and what he thinks must be excluded, or they can only be two things.

It was my own mistake!

“Patriarch Pei, what are you talking about, what exactly did you see?” Ming Yu was very anxious.

Patriarch Pei came back to his senses, looked at the anxious Mingyu, and suddenly smiled bitterly: “Have you heard of...the Five Elements Divine Stone?”
