Chapter 3999

“Five Elements Divine Stone?” Ming Yu frowned slightly, obviously, did not have much understanding: “Ashamed to say, Mingyu Yu has lived in the sea for a long time, and doesn’t know much about land, so he has only recently entered the Demon Land, so he has learned a little bit, and I would like to ask Patriarch Pei to give me some advice.”

Patriarch Pei smiled helplessly: “Elder Shenlong is too polite, this The Five Elements Divine Stone is a mythical object in the legend, not to mention that you don’t know much about it, even many people on this continent are completely unaware of it.”

“Legend, after the first opening of the world, it was full of chaotic energy, and since Pangu opened the sky. , then the upper purity transforms the three qi, and the lower turbidity becomes the five elements. And the power of these five elements is metal, wood, water, fire, and earth.”

“Therefore, in the realm of the earth, all powers are derived from the five elements.”

“The five elements Each of the powers has its own master, exert it to the extreme and become its own self, the god of fire, the god of earth, and so on.”

“But later

, for some reason, all the five gods died.”

“To take care of themselves, they each They have injected their own blood into the strange stones to which they belonged. Therefore, there are five stones: the gold stone, the flint stone, the earth stone, the gold stone, and the water stone.”

“Each stone has its own special properties, and whoever obtains it gains Its power.”

Ming Yu heard the words and frowned: “According to Patriarch Pei, the Five Elements Divine Stones are five stones, and each stone has its own characteristics, but from George Han’s side, this fiery fire and rainstorm, The earth is shaking, it seems...”

“It doesn’t seem that a certain stone can complete it.”

“But now George Han has only one stone in his hand, it seems... it doesn’t seem to match.”

Pei Guku With a bitter smile: “From what I said just now, it’s natural to correspond to George Han’s current situation. But this old man is not finished.”

Ming Yu frowned: “Not finished

?”

“Exactly.” Pei Gu smiled and looked at Ming Yu: “No matter how strong a single person is, what should he do? Isn’t there a Holy Master above Elder Shenlong?”

Ming Yu fell down Not angry, he carefully pondered Pei Gu’s words: “Patriarch Pei means...”

“All generals have their own masters, this is the law of heaven and earth, and the gods of the five elements naturally also have supreme gods who can control them.”

” When you and I were children, someone told you and me that a chopstick was broken, but a bundle of chopsticks kept breaking. The power of the five elements is originally a turbid force. Naturally, even if there is no supreme god To rule them, their origins should also be integrated.”

“There is a stone, which is the Stone of Destiny.”

“In legend, this stone is of special material, and it smells like the heart of the supreme god. In short, it is difficult to explain all kinds of things, but

one thing is certain, that is, no matter what kind of statement, there is only one purpose in the end, and that is the Stone of Destiny. , is extremely unusual.”

“As long as you get this Stone of Destiny, you can collect the Stone of the Five Elements, and finally complete the unification, planning, and become a real Stone of the Five Elements.”

Ming Yu finally understood and was a little surprised. “What do you mean, the stone in George Han’s hands is most likely the so-called Stone of Destiny, or is it the real stone of the Five Elements?”

“The Stone of the Five Elements has been scattered all over the world. The stone of the Five Elements has not been seen for ten thousand years, because the appearance of the Stone of the Five Elements is too ordinary, and the person who obtains it may not always exert its greatest effect due to attributes, numerology and other reasons. Therefore, the situation of the Stone of the Five Elements has been unknown. To find them, it basically depends on everything.”

“And under such

circumstances, it is even more absurd to collect five at a time? If the Stone of Destiny cannot gather the power of the Stone of the Five Elements, although it can also be used. , but in fact the performance is not worth the shock of the world.”

“After all, the power of the five elements itself is the mutual generation and derivation of the five elements, and one is indispensable.” Ming Yu nodded: “But what if it is collected?”

The bedding side is self-sufficient.” Pei Gu said softly.

These, he did not have the slightest falsehood, but the truth.

Ming Yu didn’t speak for a long time, staring at the stone in George Han’s hand above her head, silent for a long time, then she shook her head: “Ming Yu has a question of her own, then Ruo George Han’s hand is really the awakened Five Elements. God Stone, then...”

“How does it compare to the Pangu Axe?”
