

I Am Loaded 1021

## **Chapter 1021: Law Enforcer Xu Xiaoshou! 2**

“The second is an expert who is proficient in the power of time and space. He brought Wang Chao directly back here. Through time and space retrogression, he can see us.

“The third is a demi-saint.”

After hearing this, Xu Xiaoshou smiled faintly. He said in peace,

“No need to worry about that. As far as I know, the Yunlun Mountain Range does not have any red-clothed people you mentioned just now.

“Yi is already dead. The remaining people aren’t proficient in the path of spirit or soul. They only have a rough grasp of it. However, their strength is low, and they have not reached higher void state.”

“Besides, Rao Yaoyao doesn’t seem to know the power of time and space.”

“As for demi-saint... Hehe, it’s even more impossible.”

“If there is such a person who’s intentionally looking for us, the result will be the same if we take Wang Chao’s communication device or not.” Xu Xiaoshou shrugged.

Lei Xi’er tilted her head and stared at the face in front of her. When she heard these methodical words, surprise flashed in her eyes.

It was hard for her to imagine how Xu Xiaoshou could have obtained so much information in such a short time just now.

She had never seen Xu Xiaoshou have such an ability when she was “Mu Zixi”?

“What spiritual technique are you using?” Lei Xi’er could not help but ask as if she was curious about something.

However, the moment she finished speaking, she realized that she had been influenced by her past self again. She immediately regained her indifference and said, “You don’t have to tell me if you don’t want to.”

Xu Xiaoshou did not stop doubting her. He smiled and said, “Soul Reading. You can understand it as an enhanced version of spiritual senses. You can sense the other party’s spiritual memories.”

Xi’er’s eyes moved slightly.

This ability...

Xu Xiaoshou said it casually, but she knew that it was definitely Xu Xiaoshou’s trump card!

But why did he tell her right away?

Lei Xi’er’s eyes suddenly became complicated. She knew that Xu Xiaoshou still regarded her as his junior sister subjectively.

However, when she thought of the things she would face in the future after she woke up...

“Hu”

Lei Xi'er suddenly exhaled softly and suppressed her thoughts. She no longer let her imagination run wild.

At the very least, she would accompany him on this journey first.

...

“The Nine Dragon Range, which is near the direction we are heading, has a law enforcer of Cutting Path stage and seven people of Sovereign stage. All of them belong to Wang Chao's team. The one from of Cutting Path stage is the team leader.”

“I know their general location. As we move forward, we just need to avoid them.”

“According to Wang Chao's memory, the captain will give an order in about half a day to confirm the safety of the team members. At the same time, it's the same frequency. They can find at least one stowaway and need to start gathering.

“We don't have much time, so we'll rush to the Nine Dragon Range first to see what's waiting for me there.”

Xu Xiaoshou flew at high speed as he told Lei Xi'er the information he had obtained through Soul Reading.

Greedy the Cat Spirit, “Meow!”

Received!

Aje suddenly said, “Ma Ma...”

Received...

Lei Xi'er nodded slightly and pondered for a moment, “So you taking his battle communicator. Is this also your plan?”

“Sort of.” Xu Xiaoshou did not know what Bazhun'an would give him, but he did not forget his job.

The aftermath of Yi's death was still brewing. Only by getting red-clothed people's internal information could he better understand the enemy.

Knowing yourself and your enemy, you would win every battle. It was nothing more than that.

As for the battle communicator, it was just an unexpected gain after attacking a red-clothed member.

At this moment.

“Beep.”

The battle communicator that had not moved for a long time suddenly vibrated, and then a steady voice was heard, “Area 42, there are signs of a suspected stowaway. Everyone, gather at once.”

Xu Xiaoshou immediately recognized that it was Wang Chao's captain, Murong Ying. The area 42 that the other party mentioned was the special name used by the red-clothed people.

Actually, it was the place where he was heading, near the Nine Dragon Range!

Was there a stowaway who got there first?

Xu Xiaoshou had originally speculated that Bazhun'an had left a good thing left for him near area 42. Perhaps, the Devil Sword had flown there.

That was a famed sword!

Even if it could not reach his hands, it must not fall into the hands of the Holy Divine Palace. Otherwise, someone might use this Devil Sword to cut his Hidden Bitter in the future.

Xu Xiaoshou had seen the power of the Devil Sword. It was a good thing that could destroy the arrow Evil Sin Bow after a few strikes!

If he had the famed sword earlier, Elder Sang would not have been sent to the Holy Mountain Prison.

"There's movement."

Xu Xiaoshou turned his head and pointed at the communication device by his ear. He said to Lei Xi'er, "Straight ahead, we'll rush there immediately."

Lei Xi'er looked up and down and said uncertainly, "You don't want to sneak in there?"

Xu Xiaoshou was amused. "Of course not!"

He cast the vanishing technique as he flew.

When his figure appeared once again, he had already transformed into Wang Chao's appearance. Even his clothes had the pure taste of Wang Chao himself.

"I'll gather with the 'captain'. When you become a law enforcer, you will still be an ordinary trial-taker. You can get close, but don't get too close. You can control your limits." Xu Xiaoshou stuffed Greedy the Cat Spirit into Lei Xi'er's embrace.

The little white cat greedily inhaled two mouthfuls of Lei Xi'er's fragrance of life.

It had not followed Xu Xiaoshou for long. Instead, it had spent more time with Mu Zixi when they were in the Yuan Mansion World.

At that moment, it naturally did not mind changing the owner to absorb the vitality breath. After all, the male owner and female owner's vitality breath were very rich.

Lei Xi'er lowered her eyes to look at Greedy the Cat Spirit who was stuffed into her arms without any explanation. She frowned slightly but did not say anything.

"Be careful." She said in a low voice. Then, she descended and changed to flying on foot.

Xu Xiaoshou watched Lei Xi'er leave and then lowered his head to caress his black clothes. He suddenly felt an inexplicable excitement.

Imitators were too useful!

Combined with “Soul Reading”, the two were simply perfect cloning technology. It could allow him to seamlessly transform into a law enforcer. He could participate in the red-clothed people’s internal operations. Then, he could cause all kinds of trouble.

“I’m just a Saint Servant of the dark faction, Xu Xiaoshou...” Xu Xiaoshou chuckled. He was about to fly to the target location of the mission, but his heart suddenly palpitated. He tried to calm down slightly.

“That’s not right”

“Since they dared to attack in the Yunlun Mountain Range and was discovered by Captain Murong Ying, they must be a fellow higher the Sovereign stage.

“If they make a move, they are either an idiot or have absolute confidence that they are not afraid of Rao Yaoyao’s investigation.”

“And a stowaway that can survive to this trying day, they can’t be an idiot”

Xu Xiaoshou was deep in thought. He felt that he couldn’t ignore this whim. This trip might be full of great risk, so he had to make second-hand preparations.

Swish.

He stopped in mid-air and brought out the Bazhun’an clone from the Yuan Mansion World.

“If there’s a special situation, I just need to bring this Bazhun’an clone over to help. With just this Bazhun’an clone’s face, I’ll be able to solve 90% of the difficult problems with both black and white...”

Xu Xiaoshou pondered for a moment, but he still felt uneasy.

His life was important. He also transferred the portrait clone, Rao Yaoyao, from the Yuan Mansion World. He even had a replica of the Cang Godhood Sword.

“If I meet other law enforcers, or if my identity is suspected, I’ll bring Rao Yaoyao over. I could suppress all the potential accidents caused by the red-clothed people.”

Touching his nose, Xu Xiaoshou thought that perhaps he was overthinking things.

He was still unclear about most of Rao Yaoyao’s abilities, so he could not imitate her. He only had a fake face and a fake Cang Godhood Sword, something bad would happen if he were careless.

For example, when this portrait clone appeared, the red-clothed would shock. They felt that the situation was serious, and they immediately gathered together. They even alarmed Rao Yaoyao herself. What should he do then?

“Rao Yaoyao’s portrait clone isn’t very useful. It’s better to save it and leave it for other situations.”

Xu Xiaoshou pondered and kept Rao Yaoyao’s portrait clone. He called out the red-clothed night guardian.

“Mm, the night guardian’s position is a little low. It won’t alarm the upper echelons. However, he is also a Cutting Path. He is on the same level as Captain Murong Ying. His strength is a little higher, and he has the right to speak. It should be enough for him to use it at this time.

“Very good, let’s do it!”

Thus, with one hand, Bazhun’an, and the other night guardian.

After making second-hand preparations for the black and white paths, he dismissed the two portrait clones and flew to the meeting point alone.

Because he was “guided” by Bazhun’an, Xu Xiaoshou was very close to the meeting point.

Not long after, he arrived at the mission’s location.

“Wang Chao!”

In the wilderness behind the rocks, a black-clothed figure was hiding in the Way of the Heavens. He revealed his true form when he saw his team members coming over and calling for the first team member.

Xu Xiaoshou suppressed his palpitating heart and walked up to the black-clothed man without making a sound. He lowered his head and said respectfully,

“Greetings, Captain!”

#### **Chapter 1022: Captain, There’s a Bazhun’an! 1**

“Greetings, Captain!”

Xu Xiaoshou mimicked Wang Chao’s usual behavior in “Soul Reading”. However, he was still worried about the effect of the Imitator. He even used “Transformation” to imitate Wang Chao’s tone and voice, not revealing the slightest flaw.

Of course, at this time, the battle communicator had also been moved to an obvious earlobe, so no one would notice anything strange.

Murong Ying was an extremely tall man. His eyes were long and narrow, and his cheekbones were on the high side. He gave out a dark and gloomy aura.

Seeing that his team members had arrived, Murong Ying did not doubt him. She pointed at the spatial fluctuation not far away and said straightforwardly,

“There are two stowaways. Currently, they are both trapped in their Sovereign domain. I haven’t made a move yet, nor have I been exposed.

“According to the spatial fluctuation in the bounded domain and the realm level, they are at least above the Cutting Path. Therefore, this operation is extremely troublesome. I’ve already contacted the higher-ups. Soon, Sword Deity Rao will send more people over.”

“You wait for the rest of our team to arrive, then get into formation. Otherwise, I’m afraid your life is in danger.”

Cutting Path?

Xu Xiaoshou was speechless. Did these stowaways want to die?

They were just Cutting Path, but they still dared to reveal their tracks in the Yunlun Mountain Range and expose their cultivation level. Were they not afraid of Rao Yaoyao? Were they tired of living?

Captain Murong Ying's words were filled with worry, and the information he gave was very little.

He had no way to cross the bounded domain and pry into the situation inside.

Xu Xiaoshou replied with a simple "yes" and looked over.

Based on his previous understanding of the way of space, he dissected this bounded domain. He discovered that this bounded domain was even more exaggerated than the bounded domain that he had observed previously.

It was densely packed with space nodes without a single gap!

"This?" Xu Xiaoshou's heart trembled.

A Sovereign's bounded domain might only have a few nodes when dissected from the perspective of the space node. Using this as the foundation, it formed a space boundary that blocked the external forces and summoned a domain that belonged to the Sovereign.

Cutting Path could condense more space nodes. While consolidating the bounded domain, it was easier to form the special and stronger power of the master of the bounded domain.

As for the higher void's bounded domain, Xu Xiaoshou had seen Yi's bounded domain in the past.

Indestructible!

Other than using super-strong external forces, such as the Fourth Sword, and understanding space to find a small gap between the extremely dense space node, there was no other way to force his way in.

Previously, Xu Xiaoshou had been able to break into the bounded domain of Yi. He had the Fourth Sword in his hand, and he had a basic understanding of the path principles of space.

Otherwise, if it was any other higher void, it would have been difficult to force his way in.

After all, that was the bounded domain of Yi, the chief of the Transformation Division!

But now...

What Xu Xiaoshou saw with his "Perception" was that the bounded domain in front of him was made up of endless space nodes, like a solid fortress made of space crystals.

Not to mention "airtight", there was not even a single gap between the space nodes.

It was seamless!

It was unassailable!

"This is the bounded domain of the Cutting Path?" Xu Xiaoshou fell into deep doubt. For a moment, he felt that his captain, Murong Ying, was blind.

Yi's bounded domain was not even as perfect as the one in front of him. It was pleasing to the eye!

“This is definitely a higher void bounded domain. Its strength is probably even more terrifying than Yi’s!”  
Xu Xiaoshou speculated.

But very quickly, he overturned his unrealistic thoughts.

More powerful than Yi’s?

How was that possible?

Yi was the chief of the Transformation Division. How could there be someone more powerful than Yi among the stowaway?

If there was stronger than Yi, how could they be trapped in a place like the Yunlun Mountain Range? Why would they use the Sovereign domain to expose their existence?

“Perhaps, it’s not the higher void...”

Xu Xiaoshou suddenly thought of a possibility. Even the higher void stage Yi could not form such a perfect bounded domain.

Perhaps, not far away, the one who was forced out of the bounded domain was a space attributes Sovereign and above expert. His comprehension of the path principles was very powerful, but his cultivation level was not very high.

“Who could it be?”

Xu Xiaoshou’s curiosity rose.

His Sovereign level “Perception” could already break through an ordinary bounded domain, but it was very difficult to break through the higher void bounded domain. This required a lot of time.

The last time he encountered Yi’s bounded domain isolation, he did not have much time, so he could only use the Fourth Sword to forcefully break through.

But this time, he had plenty of time.

“Let’s give it a try!”

He focused his attention on one point, and the “Perception” range was converged, continuously penetrating the gaps between the space nodes.

This method was very difficult because theoretically, there was a gap in the bounded domain in front of him, but that gap was almost negligible!

However, Xu Xiaoshou was not discouraged.

It was usually very difficult to pass through a space node with normal abilities, but “Perception” and power of space were not on the same channel.

Perhaps with the help of the “Nothingness” characteristic of “Perception”, this could be achieved.

Thus, the range of “Perception” covering a radius of 100 li continued to shrink under Xu Xiaoshou’s concentration.

From 100 li, to 10 li, to 1 li...

Then to 100 zhang, 30 zhang, 10 zhang...

This was the first time Xu Xiaoshou tried to compress the range of "Perception" like this.

He felt that his head was starting to hurt, and his temples were starting to swell.

After this compression, it could almost condense into a physical "mental channel" to smash people, and it could even destroy a person's mental strength.

But even so, it was still unable to pass through the gap between the two space nodes!

"This is too difficult. How can this bounded domain be so solid?" Xu Xiaoshou's heart was cold.

### **Chapter 1023: Captain, There's a Bazhun'an! 2**

He was surprised by this incredible bounded domain. He could not imagine how strong the owner of this bounded domain was.

However, he became even more unwilling. He wanted to see through the bounded domain eagerly.

After all, he was currently a law enforcer. He had someone to back him up now. If he didn't try it now, he might not have the chance to do so in the future.

Compress!

Continue to compress!

Until his head buzzed and went blank. The 'mental passageway' formed by 'Perception' was finally compressed by Xu Xiaoshou to the size of a needle for the first time!

Sizzle!

A slight sound.

The needle-sized 'Perception' channel, which was condensed with surging mental strength, finally pierced through the gap between space nodes.

This was like a flood bursting through a dam. Xu Xiaoshou could not suppress the high-intensity eruption of mental strength that he had endured crazily. As soon as the Perception passed through the space node, it shot out in a radial form. In an instant, it spread throughout the entire bounded domain.

"This is?"

The situation in the bounded domain finally appeared in his mind, but Xu Xiaoshou was stunned for a moment.

Four people!

One of them had an unfamiliar face, but his appearance, hair color, and height were similar to the dean of Tiansang Spirit Palace, Ye Xiaotian. He was covered in blood as he used a spatial barrier to parry the attack from the other side.

Opposite him was a masked man wearing a gold robe and carrying a sword on his back. He was using space power with a single hand to exchange blows with the short white-haired youth.

As for the other familiar face, he seemed to be one of Yama's Nine Serenities Ghost Child. Then, there was one unfamiliar face.

There were three familiar faces out of the four people!

"Yama's boss, Huang Quan, the Nine Serenities Ghost Child who seems to have grasped the Upanishad of the metal attribute, and an unfamiliar guy..."

"But the key thing is, that short white-haired young man... He must be the Dean!"

Xu Xiaoshou felt that this world had gone to Hell.

Why would Ye Xiaotian come here?

Shouldn't he have escorted the inner yard disciples of Tiansang Spirit Palace to the Imperial City Trial and gone home to feed the geese?

Why would he fight with Yama's boss, Huang Quan, who had mastered the power of time and space?

"Boom!"

Just as he was thinking, the interior of the bounded domain once again exploded with an explosion. The spatial barrier of the short white-haired youth, who was suspected to be Ye Xiaotian, was forcefully shattered by Huang Quan.

Xu Xiaoshou's brows twitched wildly.

The clash of the two space power was too violent!

At this moment, he saw the white-haired short youth suddenly jump up and thrust his hand into the void. He tore off a piece of the sky and smashed it fiercely towards Huang Quan's direction.

"Hand of Ripping Heaven!"

Xu Xiaoshou's pupils constricted. It was the Dean's famous ultimate skill. How could he not recognize it?

Ye Xiaotian tore down a piece of the sky. At this moment, his blood-stained white robe fluttered in the wind. A familiar Power Upanishad Formation appeared under his feet. It had only appeared on Yu Lingdi and the Nine Serenities Ghost Child.

With the support of the space power, the broken pieces of the sky were thrown fiercely towards Huang Quan.

"Dean, has your Space Upanishad reached the final stage?" Xu Xiaoshou's scalp went numb.

This was the real fierce man, right?

Keeping a low profile, he had become the next person in the world to grasp the attribute Upanishad after Yu Lingdi without anyone noticing.

Thinking of the Attribute Upanishad, Xu Xiaoshou reached out to the Nine Serenities Ghost Child.

This guy was also very young, but he had also grasped the attribute Upanishad.

However, in a real battle, Xu Xiaoshou felt that he was not as strong and invincible as Yu Lingdi and the Dean.

“As expected, you have mastered the Space Upanishad...”

Inside the bounded domain, Huang Quan’s ethereal voice sounded at the right time. His eyes hidden under the mask were filled with admiration as he said slowly, “The Space Upanishad is the power that many people dream of!”

“Although I have mastered the power of space and time, I have no chance of mastering the Upanishad in this lifetime.”

“I didn’t expect that you could reach the peak in just a few decades...”

He praised and spoke like an old elder lamenting that the young man had achieved an incredible achievement, but he didn’t care about the sky fragments above his head.

Soon, the sky fragments appeared, and Huang Quan waved his sleeve.

Boom!

The world suddenly shook.

At this moment, Xu Xiaoshou felt that his thoughts were sluggish.

He watched as the sky fragment was slowed down thousands of times in mid-air in front of Huang Quan. Then, it seemed to have undergone an evolution, aging and dying.

Space fragments also had a lifespan?

Xu Xiaoshou suddenly had enlightenment.

It was the power of time!

As the sky fragment moved forward, time was accelerated. All of its power disappeared into the river of time.

“It’s so terrifying!”

Xu Xiaoshou’s heart trembled. He couldn’t imagine how he could resist such a powerful force.

No wonder the Dean, who had reached the final stage of Space Upanishad, was beaten badly by Huang Quan.

Swoosh!

After a sudden sound, his mind recovered from its sluggish state. He was even accelerated to extreme agility.

After Xu Xiaoshou saw the sky fragment disappear, it seemed to have been reversed by time. It was resurrected and condensed in the sky again.

However, it was no longer controlled by Ye Xiaotian. Instead, Huang Quan controlled the sky fragment and used it to attack Ye Xiaotian.

“Who the hell are you? !” Ye Xiaotian’s eyes were about to burst as he roared.

After his Space Upanishad had reached the final stage, he could even play with the higher void as he pleased.

However, in this successful first battle, he encountered a person whose face he could not even see clearly. In front of this guy, Ye Xiaotian was as helpless as a fish on a chopping board.

### **Chapter 1024: Captain, There’s a Bazhun’an! 3**

This was too devastating.

“Shatter!”

Ye Xiaotian’s heart turned cold as he faced the incoming sky fragments. However, he could only reach out his hand. He wanted to completely disintegrate the ultimate crystal of the power of space.

Just like every single time he fought back, Ye Xiaotian called out.

However, after the Way of the Heavens responded, all of his targets seemed to have landed on another sky fragment in a parallel space-time continuum.

The fake one was gone.

The real one was still attacking him.

“Bang!”

There was an explosion, and blood splattered everywhere.

Even though Ye Xiaotian had already placed himself into the great path of space, his opponent also had space attributes, so he was still able to hit him.

The sky fragment hit his body, and Ye Xiaotian was thrown out of the Way of the Heavens. He crashed heavily into the wall of the bounded domain and slowly slid down. He was in the blink of death.

Xu Xiaoshou, who was watching from the outside, sucked in a breath of cold air. He unconsciously clenched his fists.

This was the difference between heaven and earth, the difference between clouds and mud!

Inside the bounded domain, Huang Quan looked at Ye Xiaotian, who was on his last breath and had no strength to struggle. Huang Quan slowly said, “Ye Xiaotian, don’t be discouraged. Your Space Upanishad is unrivaled in the world, and you can even kill the higher void. It’s a pity that you’ve met me this time.”

“Originally, we only wanted to take the Saint Origin Crystal in your hands, but after seeing your ability, I have to say that I admire you very much.

“Join Yama. I need your strength!”

Huang Quan invited him seriously, but Ye Xiaotian, who was on the ground, still didn’t reply.

“You have a backbone.”

Huang Quan praised. He turned around and said to the Nine Serenities Ghost Child and Reborn Lily, who were far behind him, “See? This is the combat strength that you should have after reaching the final stage of the Attribute Upanishad.”

“I can give you two the inheritance of the Upanishad. However, you can’t just learn the knowledge from the books. You lack battle experience with your opponents. The current you are not even one-tenth of Yu Lingdi and Ye Xiaotian’s strength.

“Just like the Nine Serenities...”

As Huang Quan spoke, he looked at the Nine Serenities Ghost Child who was trembling in fear, and said with a smile, “Last time, you said that it was the Saint Servant, Xu Xiaoshou defeated you because he had Fourth Sword and also the Divine Puppet.”

“However, if you truly grasped the power of the ‘Iron Upanishad’, not to mention the Fourth Sword and the Divine Puppet, even a hundred Xu Xiaoshou would not be a match for you.

“At the very least, the possessor of the attribute Upanishad would always be in an invincible position, just like Ye Xiaotian...”

He paused for a moment, then pointed his finger behind him.

Ye Xiaotian was on his last breath, but he still made some moves in the dark. He wanted to use the bounded domain to transform himself and then escape from this place. However, he was sealed by Huang Quan’s space-time power and completely lost the chance to escape.

“Upanishad is the strongest power in this world.”

“The ways of the sword are innumerable. It’s really complicated. In thousands of years, only one Bazhun’an has been born to master it.”

“Spiritual cultivation is different. It’s one of the 3,000 great paths. Anyone who masters it can grasp the power of Upanishad, so it’s more suitable for this mediocre world.”

“This is also why the era of spiritual cultivation can replace the era of the way of the sword!”

Huang Quan’s words shook the deaf and enlightened.

After he finished speaking, his gaze landed on the two fresh blood in the organization. He sighed and said, “The two of you still need to continue training...”

Nine Serenities Ghost Child and Reborn Lily didn’t even dare to refute him. They nodded their heads in agreement as if they were little chickens.

Xu Xiaoshou recalled Huang Quan’s thought-provoking words in his heart, but he didn’t think too much about it at this moment.

He couldn’t stand it anymore, and he couldn’t wait any longer.

He knew that the Dean wouldn’t surrender. At this rate, he would only die in battle.

Huang Quan's strength wasn't ordinary, but he was clearly not a demi-saint. Otherwise, he wouldn't be unable to sense the situation outside from within the bounded domain.

Of course, this could also be because Ye Xiaotian's bounded domain was too powerful.

No matter what, the Dean had already revealed his bounded domain and asked the red-clothed for help.

He had to think of a way.

Xu Xiaoshou turned his head to look at Murong Ying. He couldn't help but ask, "Captain, the other team members haven't arrived yet? Are we just going to wait like this?"

"What's the rush?" Murong Ying turned his head and said, "The two stowaways inside must have gotten into a fight before they opened up their bounded domain. Looking at this bounded domain, the people inside are at most capable of Cutting Path. When both of them are injured and come out, our team members will arrive just in time to take them down."

"When Huang Quan comes out on his own initiative, you won't even be able to touch his shadow! Most importantly, Ye Xiaotian, you, me, and that team member who hasn't arrived yet might all die!" Xu Xiaoshou cursed in his heart.

Xu Xiaoshou was anxious. Then, he suddenly thought of a plan.

He looked into the distance, towards the direction above the bounded domain. Pointing with a finger, he said with a terrified expression, "Captain, look, there's a Bazhun'an over there!"

## **Chapter 1025: The Favor that Bazhun'an Owed in Those Years... 1**

Bazhun'an?

Murong Ying didn't know who Bazhun'an was at first.

But soon, he noticed the figure standing on the bounded domain. His face changed and his pupils shrank.

Eighth Sword Deity?

Wang Chao, where did you get the courage to call the Eighth Sword Deity by his name?

"Calm down!"

Murong Ying immediately shouted. Then, he leaned down and continued telepathic communication with Wang Chao, "Stay calm. Don't act rashly. We can't deal with the Eighth Sword Deity."

"H-how did he appear here?"

Xu Xiaoshou squatted down and silently glanced at the captain, who was suddenly in a daze. He thought to himself, "I am very calm, but you seem to be very nervous. It's just a clone portrait. Why are you so scared of it? You are the Cutting Path!"

"Captain, there is something strange about this place. The Eighth Sword Deity has appeared here. Perhaps, his people are within the bounded domain?" Xu Xiaoshou used Wang Chao's telepathic communication to ask.

Murong Ying had not yet calmed down. His face was slightly pale, and he did not respond.

Xu Xiaoshou had seen Bazhun'an's face. How much mental damage could it bring to people like red-clothed who belonged to the Holy Divine Palace?

With a thought, he pointed at Bazhun'an in panic and said, "Captain, look, he, he seems to have found our location!"

Bazhun'an's clone moved on the bounded domain and glanced at the big rock.

With just a casual glance, Xu Xiaoshou could feel that the breathing of Murong Ying had stopped.

What rang in his ears was the sound of his heart beating wildly.

"..." Murong Ying could not say a word for a long time.

Murong Ying pretended he did not hear Xu Xiaoshou

Xu Xiaoshou was dumbfounded by Murong Ying.

Xu Xiaoshou thought to himself, "Night Guardian and you are both in the Cutting Path, but I've never seen him be timid as you did. He met the Storyteller and instantly chase after him to fight. You only met Bazhun'an, but you are immediately frightened."

"At this time, shouldn't you display your calm judgment like a leader of the red-clothed squad and immediately send a message to Rao Yaoyao about the danger?"

When Xu Xiaoshou saw that Murong Ying still did not react, he could only let Bazhun'an's clone take a cold glance.

Bazhun'an's eyes were saying the two people hidden under the big rock were ants and were not worth being afraid of.

The portrait clone retracted his gaze and looked back at the bounded domain under his feet.

He clearly couldn't see anything, but at this moment, a smile appeared on the corner of his mouth as he muttered, "Huang Quan?"

At the same time.

Xu Xiaoshou's "Perception" could detect that Huang Quan, who was approaching Ye Xiaotian from within the bounded domain, suddenly stopped in his tracks.

He raised his head, and a look of astonishment flashed across his eyes under the mask.

"He can see!" At this moment, Xu Xiaoshou's scalp went numb, and his heartbeat accelerated.

Huang Quan could see the situation outside from within Ye Xiaotian's bounded domain!

In other words, when he and the captain arrived and waited for the camera, this fellow could see everything.

However, he was just like the attitude of Bazhun'an's clone at this moment.

They were all ants and trash, nothing to be afraid of. He couldn't even be bothered to look at them!

"Clone of Will?" Within the bounded domain, Huang Quan exclaimed in surprise. His voice was filled with doubt.

Xu Xiaoshou could immediately understand the meaning behind it.

Huang Quan had also seen the appearance of Bazhun'an's clone earlier, but he didn't pay any attention to it. This was because he could sense the roughness of this portrait clone. For example...

It had no life force at all!

He should immediately determine that this was a fake Bazhun'an.

However, this fake Bazhun'an suddenly spoke up. With a single glance, he saw through Ye Xiaotian's incomparably solid bounded domain and revealed his identity. This caused Huang Quan to be puzzled.

A fake person couldn't have the ability to see through a bounded domain with a single glance.

As such, Huang Quan's conjecture was: Even if this person who stood above the bounded domain was not Bazhun'an's main body, he was still a crude clone of his will?

"My god..."

When Xu Xiaoshou thought of this, his back was drenched in a cold sweat.

This Huang Quan was too terrifying, and his self-confidence was too high. When he fought with such a person across space, he didn't dare lower his guard.

Instantly, after Huang Quan's shout, Xu Xiaoshou suppressed the fear in his heart and controlled the Bazhun'an's clone to shake his head slightly. Then, the corners of his lips curled up as he said,

"Interesting..."

"Even Yama has appeared in the mortal world. Looks like it's a wise choice to throw away my foundational roots of Saint Ascension."

He said a few sentences and didn't dare to say anything more.

If he said more, he would make more mistakes.

He left behind a vague message and left it to Huang Quan and the law enforcer to think about it!

Hiding behind the big rock, Murong Ying had already recovered from the state of fear. He was trying to inform the higher-ups about this place. However, he immediately became panicked upon hearing the voice.

"Yama, Yama?" He repeated unconsciously.

The Eighth Sword Deity said the word "Yama". It should be the mysterious dark faction "Yama" faction, right?

Coupled with the "Huang Quan" just now, Yama's boss, Huang Quan was in this bounded domain?

Murong Ying's state of mind collapsed.

He had just entered the Cutting Path and had not been a team leader for long. He had heard about the legends of the dark faction's bosses while cultivating and growing.

### **Chapter 1026: The Favor that Bazhun'an Owed in Those Years... 2**

Now, two people have gathered in front of him?

Murong Ying's initial plan was to wait until both sides were heavily injured in the bounded domain, then he would lead a small team to rush out and kill the boss of Yama, Huang Quan.

As Murong Ying thought of this plan, his lips started to tremble.

His remaining rationality kept telling him that he shouldn't delay and he had to immediately send a message to the higher-ups.

He raised his hand towards the battle communicator. Murong Ying did not even say a word when he touched it three times and activated the highest level of danger alert.

Simultaneously, all the law enforcers' battle communicators within a radius of a hundred miles vibrated.

"Beep beep beep!"

"The highest alert. The coordinates are as shown on the map. All nearby law enforcers' teams, please come to support immediately. You must delay the enemy and buy time."

Xu Xiaoshou also received the mechanical voice of the battle communicator. At the same time, he received a mental map that was injected into his mind.

The coordinates marked on the map were where he was at the moment.

According to Wang Chao's memory, at this time, there would be an overwhelming number of law enforcers who were close to him.

Those who were far away would continue to touch the communicator three times to carry out the highest alert until the message reached Rao Yaoyao's ears.

In theory, this process would not take more than three breaths!

In three breaths, Rao Yaoyao would receive the message and begin to react!

Within the bounded domain.

At the same time that Murong Ying activated his communicator three times, Huang Quan looked over. The position he was looking at was in the direction of the big rock outside the bounded domain.

His face that was hidden under the mask was calm. However, his impulsiveness told him that Yama and the others would be in danger soon.

Originally, even if Ye Xiaotian used the bounded domain, he would still attract the attention of the law enforcers.

However, according to Huang Quan's plan, the fluctuations of Ye Xiaotian's bounded domain that the outsiders had detected were at most at the sovereign stage or cutting path stage. Therefore, it would not attract too much danger.

He had not expected that there would suddenly be an existence that seemed to be a Bazhun'an clone. He had exposed his identity with a single sentence and instantly raised the danger level of this place.

"Bazhun'an, what do you want?"

Huang Quan thought for a moment and got his answer.

Bazhun'an belonged to the saint servant. The second-in-command saint servant was Sleeveless and his original name was Sang Qiye. He was previously the vice dean of Tiansang Spirit Palace and had a relationship with Ye Xiaotian.

So, he appeared just to help Ye Xiaotian out of trouble?

While Huan Quan was thinking, Ye Xiaotian, who was already seriously injured, grasped the gap between Huang Quan's attack and immediately released his bounded domain. He turned around and flew up, trying to escape from this place.

However, the moment his bounded domain was released and he flew up, he unexpectedly brushed past Bazhun'an above him...

"This is?"

The moment Ye Xiaotian's eyes met, he was unable to shift his gaze away from this face. He recognized this person at a glance.

The last time they met, the other party was still disguised as a masked man. During the night battle in Tiansang Spirit Palace, Ye Xiaotian had lost an arm to him.

After that, Ye Xiaotian gathered all the information about the Eighth Sword Deity.

Therefore, even if the person, who brushed past him this time, took off all the clothes covering his head and face, and revealed his true appearance, Ye Xiaotian could immediately recognize that this was Bazhun'an!

"So, what Huang Quan saw in the bounded domain was this person?"

Ye Xiaotian suddenly came to a realization. Just now, Huang Quan had stopped in front of him and said something that he did not know the meaning of. The "Clone of Will." Where did it originate from?

He did not stop moving. He kept his distance from Bazhun'an while using his spiritual senses to observe the situation here.

Two law enforcers were standing under the big rock.

In the distance, there were also countless auras that were rapidly coming over.

"This is extremely dangerous!"

However, even in such a dangerous situation, Huang Quan was still calm. He calmly looked at Bazhun'an who was standing in the air, pointed at Ye Xiaotian, and said in a soft voice, "You want this person?"

No one was able to sense the cultivation level of Bazhun'an, who was standing in the air, at all. He did not even leak a single bit of his vitality breath. In normal circumstances, one would think he was a fake.

However, Huang Quan knew that Bazhun'an was currently hiding his sword. The more ordinary his Clone of Will was, the more he could not be underestimated.

Bazhun'an appeared very relaxed in the face of being interrogated. He ignored the great danger that was about to come and only said with a smile, "Give me some respect, how about it?"

When he said those words casually, Xu Xiaoshou, who was still hiding under the big rock, was already sweating profusely like his captain, Murong Ying.

He had once heard Bazhun'an say that in this world if anything were to happen to him, he only needed to state his name. The younger generation wasn't sensible, so they might not give him respect.

However, any big shot who understood the meaning behind the name "Bazhun'an" would support him in the arena.

Now, he didn't know whether or not Huang Quan would give Bazhun'an any respect.

"Dean, I have done my best. If I can help you get out of this mess, you will have to use ten plates of roast goose to repay me when we return to Tiansang Spirit Palace!"

Xu Xiaoshou's thoughts ran wild.

On the other side.

Respect...

Huang Quan, who was still on the ground, felt a surge of anger in his heart when he heard this.

He thought silently, "If you want respect, I can give it to you. However, we are both traitors in the dark. Why would I show my existence here to the red-clothed?"

"What if I don't give him to you?" Huang Quan, who was hiding under the mask, retracted his gaze. He stretched out his hand and clenched it lightly in the air.

Buzz!

The world seemed to be locked down.

At this moment, Ye Xiaotian, who was still running at high speed, felt that everything in the world was accelerating.

No.

He was the one who had slowed down...

Everything in the world was moving normally. Only him, Ye Xiaotian, had become the goods that had been traded. Before the conversation between the two parties came to an end, he could not move.

Ye Xiaotian felt a strong sense of powerlessness in his heart.

At this moment, he vaguely understood what Elder Sang had said to him, Qiao Qianzhi, and Xiao Qixiu in the past.

Hiding in the corner of Tiansang Spirit Palace and staying out of the mortal world for a long time did not mean that they could escape from it. It could only be said that all of them were trapped by the Tiansang Spirit Palace.

Ye Xiaotian hated himself for being powerless in this situation.

He had clearly mastered Space Upanishad, but in front of a true almighty, he was still like an ant, at the mercy of others.

In the air, Bazhun'an was unmoved. He did not even glance at Ye Xiaotian from the side. He was looking down at the world as if everything was under his control.

Behind the big rock, Xu Xiaoshou was sighing in his heart that Bazhun'an's face was really useful.

At this moment, Huang Quan only used the power of time freeze on Ye Xiaotian. He did not dare to test Bazhun'an.

On the other hand, Xu Xiaoshou controlled the Bazhun'an, who was not affected by the time freeze, to smirk and say,

"You don't have to give me respect, but I can leave after 10 or 30 breaths. You can leave too, however it'll be difficult for the people behind you to leave."

As he spoke, he looked at the Nine Serenities Ghost Child and Spider Lily.

Although there was no murderous intent in his eyes, Nine Serenities Ghost Child and Spider Lily felt a great pressure on them. They could not even lift their eyes to look at Bazhun'an.

Huang Quan was silent.

He seemed to be in a dilemma.

Should he forcefully take away Ye Xiaotian, including the Saint Origin Crystal that he had hidden?

Or should he give the Bazhun'an respect and take advantage of the fact that Rao Yaoyao had yet to arrive to hide in the darkness with those under Yama?

In his spiritual senses, he could sense that the auras of cutting paths and higher voids were rapidly approaching.

As for the sovereigns...

In the outer circle of the land realm, there were already many law enforcers at the sovereign stage surrounding the area. However these people didn't dare to come over at all.

They didn't recognize Huang Quan.

But they recognized the fearless Eighth Sword Deity who stood in the void.

The only man who can hold out against ten thousand!

“Lord Huang Quan...”

Nine Serenities Ghost Child wanted to say something. As a member of Yama, he wouldn't make things difficult for Lord Huang Quan just because of his existence.

If necessary, he would sacrifice himself to protect the secrets of Yama. Both he and Spider Lily were prepared for this.

However, just as he said that Huang Quan waved his sleeve, and the two space-time vortexes spun and swallowed the two of them up.

Huang Quan had not left yet.

He stayed until the very end, wiping away the traces of the space-time vortexes that had appeared just now. Then, he looked at Bazhun'an and said solemnly,

“Today, I will give you, Bazhun'an, some respect. Remember, you owe me a favor.”

After saying that, he turned his head to look at the aura of the law enforcers that were approaching from behind him. With a cold snort, his body disintegrated and turned into golden spots, disappearing into the intangible.

#### **Chapter 1027: Captain, How Do You Plan to Pursue Him? 1**

Xu Xiaoshou landed behind a huge rock and heaved a heavy sigh of relief.

Bazhun'an was so highly regarded!

His dignity was really useful!

As for favors and whatnot... Xu Xiaoshou felt sorry if Bazhun'an and Huang Quan were to fight because of this. However, it definitely wouldn't have anything to do with him, Xu Xiaoshou.

No matter what, he would apologize to Bazhun'an first...

“I'm sorry!”

As Xu Xiaoshou was thinking about this, he suddenly jumped out from behind the big rock and pointed in the direction Huang Quan had escaped. He flew over and shouted,

“Traitor, don't leave. Watch how I, Wang Chao, will deal with you!”

Murong Ying was confused.

At this moment, his little heart almost jumped out of his throat.

Was Wang Chao going crazy?

However, as soon as he jumped out of the stone, he saw Wang Chao propping himself up on his knees in front of him and letting out a long sigh. “Damn it, he ran away...”

Murong Ying went silent.

“Startled, passive points + 62.”

“Impressed, passive points + 33.”

Taking advantage of the fact that everyone was distracted by his loud shout, Xu Xiaoshou, while pretending to be helpless, secretly removed the portrait clone of Bazhun’an.

“Your mission is complete, it’s time for you to disappear...” Xu Xiaoshou thought.

At the same time, Ye Xiaotian, who had lost the restraints of Huang Quan, was like a dragon returning to the sea, gaining his freedom.

There were dozens of sovereigns watching him like a tiger watching its prey. In the distance, there were even several auras of cutting paths coming at him. However, Ye Xiaotian did not put these people in his eyes.

He took a deep look in the direction where Bazhun’an’s figure had disappeared. With a sway of his body, he stepped into the spatial passageway and disappeared without a trace.

They all ran away!

Xu Xiaoshou seemed to have just realized this point. He pointed in the direction where the three parties had left and said, “Captain, I think we need to immediately track their traces. Otherwise, I’m afraid we won’t be able to answer to the higher-ups afterward.”

The highest alarm on the communicator had already been sent out.

But this time, the law enforcers were facing two spiritual cultivators with space attributes and the Eighth Sword Deity, who was nowhere to be seen.

The higher-ups could understand why they couldn’t take these people down.

However, if they couldn’t even record the spatial fluctuation in the direction they left and ended up making it impossible to trace them... when Rao Yaoyao and her men arrived, Murong Ying and the rest wouldn’t be able to give their answers to them.

Murong Ying dismissed the pressure of being the leader and regained his calm. He immediately shouted, “Black Shadow squad, gather!”

Seven figures flew out from the surrounding sovereigns.

These were Murong Ying’s team members, who were also former teammates of Wang Chao. Xu Xiaoshou could recognize their faces.

Murong Ying began to act, and his words became orderly. He took the lead to instruct all the spectating sovereigns.

“Everyone, immediately contact your captain. As for those at the sovereign stage, if you don’t have a life-saving spiritual technique, I don’t recommend you to participate in this operation. However, you must call your captain over. This is an urgent matter!”

The numerous law enforcers acted as soon as they heard the command.

Some used flying arrows to send messages, and some used telepathic communication that could work even a thousand miles away. The others used the spiritual technique of communication that their team had agreed on in advance to call for the members and leaders who had not rushed over.

Murong Ying looked around, but he was unable to find the second cutting path who was present.

He knew that cutting paths were an extremely rare existence among the law enforcers. Usually, each cutting path was responsible for a large area, so they were unable to arrive in such a short time.

Murong Ying didn't hesitate. After instructing the other members of the team of law enforcers, he immediately looked at his own team and said in a deep voice,

"Zhu Mi'er, immediately record the spatial information of these three directions. After this, prepare all the information that Sword Deity Rao needs."

A woman in a black robe walked out from the Black Eagle team. She had a beautiful appearance and a medium build. She held an array wheel that was emitting magical brilliance.

Xu Xiaoshou looked over. According to Wang Chao's soul memory, he recognized that it was the 'inter-spatial wheel'. It was a tracking treasure that could record all the fluctuations, information, and spatial traces of the battle at the scene.

It was a commonly used item in the white-clothed organization of the Holy Divine Palace.

Rao Yaoyao had borrowed a lot of them in preparation for the battle in the Yunlun mountain range. She had distributed them to the team of law enforcers because even though the wheel was useless in finding the ghost beast, it was very powerful at finding people.

Zhu Mi'er injected her spiritual source into the inter-spatial wheel and took the lead to record all traces of the battle.

Then, she began to search for traces.

The first place she landed was the location where Yama, Huang Quan, and the other two had left. Zhu Mi'er wanted to search for traces of the three escaping through the spatial passageway but at the same time, she was also looking for traces that showed the possibility that they might still be in the scene.

But soon, a regretful expression appeared on her face.

"Captain, Yama's boss, Huang Quan, including the other two masked men, didn't leave behind any traces. The inter-spatial wheel can't lock onto their location at all."

As expected... Murong Ying's eyes narrowed, and he didn't say anything more as he looked at the position where the Eighth Sword Deity had stood before.

Zhu Mi'er nodded her head, and with a tacit understanding, she floated away and landed at that place.

But soon, a look of disappointment appeared on her face, mixed with a little surprise.

"Captain..."

"There's still no trace?" Murong Ying asked with a premonition.

“Yes.” Zhu Mi’er nodded slightly and then said with her lips and teeth moving, “There’s no spatial fluctuation in the position of the Eighth Sword Deity. I wonder how he left... the way he disappeared is even more bizarre than Huang Quan’s!”

Many people present had their attention diverted because of Wang Chao’s shout. However, even though most of their attention was not on the Eighth Sword Deity, it did not mean that their spiritual senses had also been diverted from the Eighth Sword Deity at that time.

### **Chapter 1028: Captain, How Do You Plan to Pursue Him? 2**

Someone saw from the corner of his eyes that the Eighth Sword Deity’s way of leaving was to “Disintegrate”.

A living person, without any spiritual source fluctuation, instantly turned into powder and disappeared in front of all the sovereigns and cutting paths.

It had to be said that this was very strange.

“Perhaps it’s an escape technique from the way of the sword...” Murong Ying speculated. He didn’t understand the ancient sword technique, but he knew that to the Eighth Sword Deity, the spiritual source wasn’t his only choice.

His strongest sword move didn’t even need him to use a bit of spiritual source. He could perform it with a mortal body.

So if he wanted to escape, how could he be limited by the lack of spiritual cultivation techniques?

Xu Xiaoshou used his “Perception” to spy on everyone’s reactions. Seeing that everyone didn’t suspect the Eighth Sword Deity’s “Departure”... or rather, “Death”, he was relieved.

Very good. As expected of an ignorant person, they would always use all sorts of reasons to make up for their ignorance.

The “Eighth Sword Deity” had not left, but had “Died”...

Everyone had clearly seen it with their naked eyes...

However, there were dozens of sovereigns present, but no one dared to believe that they had seen it with their own eyes.

Tsk tsk... the corners of Xu Xiaoshou’s lips curled up slightly. He felt that this was too interesting, so he quickly concealed his emotions and did not show them to the others.

“There’s still one more.” Murong Ying looked in the direction of Ye Xiaotian and pursed his lips slightly.

Zhu Mi’er set off again and flew to record the spatial traces left behind by the short white-haired young man. In just three breaths’ time, a look of astonishment appeared on her face.

“What? Even him didn’t leave behind any traces?” Murong Ying flew over, somewhat unconvinced.

The members of the Black Shadow team followed.

Xu Xiaoshou followed as well, staring at the 'inter-spatial wheel' with great curiosity, wanting to see what it was.

The battle scene of the dean in the bounded domain wasn't visible to outsiders, but he had seen it clearly.

Perfect mastery of space upanishad... such a shocking talent, even if Ye Xiaotian was only a sovereign, Xu Xiaoshou reckoned that it wasn't something that the 'inter-spatial wheel' could find a trace of.

Perhaps the creation of the inter-spatial wheel required the assistance of a spiritual cultivator with space attributes.

But since this wheel could be mass-produced, it meant that the person who assisted in the creation of the inter-spatial wheel... was very idle!

Which idle person could have higher attainment in the path of space than Ye Xiaotian?

And the truly powerful ones couldn't even handle the big matters, so why would they help the white-clothed create the inter-spatial wheel?

Zhu Mi'er stared at the traces of the 'inter-spatial wheel' and tried her best to calm herself down. She said, "Captain, it's not that the 'inter-spatial wheel' didn't find any traces of the white-haired man. On the contrary, it found too many traces."

"Too many?" Murong Ying raised his eyebrows.

"Yes." Zhu Mi'er caressed the 'inter-spatial wheel' and said hesitantly, "At the very least, I found more than three hundred traces of the path that he left... well, to put it another way, there was only one entrance to the spatial passageway when he left, but there were more than three hundred exits."

Murong Ying was confused, alongside the members of the Black Shadow Team.

"More than 300?"

Everyone was shocked.

How was this possible? It was already very difficult for a spatial passageway to only maintain the connection between the two.

In this world, other than demi-saint, who else could use a spatial passageway to connect more than 300 exits, and they were all real passageways?

All the members of the Black Eagle squad knew that the 'inter-spatial wheel' would automatically eliminate fake spatial traces. This was the effect of the divine array of the path division.

And after eliminating these, the fact that the 'inter-spatial wheel' could still leave behind more than 300 spatial traces could only mean...

That they were all real!

"Space attributes..." Murong Ying muttered as he thought of a possibility that almost left him dumbstruck.

Xu Xiaoshou blurted out his thoughts on behalf of the captain. His voice was filled with shock and disbelief, as well as a little guidance.

“That shorty, could it be that he has reached the final stage of space attributes? Is he the same existence as chief Yu Lingdi? Uh, but why was he beaten to such a ghastly state, covered in blood?”

Murong Ying could not help but turn around and look at Wang Chao.

While these words were swirling in his mind, he felt that it was possible.

However, when they came out of Wang Chao’s mouth with the implication of the short white-haired young man who was covered in blood when he appeared...

Murong Ying immediately felt that it was a little unrealistic.

“Impossible.”

“At the consummate stage of space attributes, the combat strength that he possesses is something that none of you can imagine. Chief Yu Lingdi was able to defeat a higher void by himself.

“If what Wang Chao said is true... Huang Quan of Yama is obviously not at the saint stage. Under such circumstances, even if Chief Yu Lingdi came, he would not have suffered such a crushing defeat, let alone the possessor of the Spatial Upanishad.”

Murong Ying looked at his team member and said solemnly, “That guy definitely would not have grasped the Spatial Upanishad. The Spirit Division has been researching for so many years and only managed to nurture one Yu Lingdi.”

The team members nodded.

Xu Xiaoshou also nodded, but he was sneering in his heart.

“You’re just a mere cutting path. How much do you know?”

The people in the Holy Divine Palace knew more than the people outside, not to mention Huang Quan’s combat strength...

Is this something he can imagine?

Xu Xiaoshou couldn’t describe the pressure he felt when he saw Huang Quan’s attack on the Ye Xiaotian’s bounded domain with his “Perception”.

Even if that kind of existence hadn’t grasped the Spatial Upanishad yet, he wasn’t far from it.

Moreover, Huang Quan’s strongest attribute wasn’t space attributes, but time...

No!

Besides the space attributes, that guy had too many trump cards.

For example, he had collected a lot of Lei Family’s Eyes.

The Visitor from the Netherworld, the Hundred Ghost Night Walk, and the Nine Serenities Ghost Child each had a pair.

Xu Xiaoshou didn't know if there were other Yama members, but since the other Yama members were like this, as the leader, would he have one?

Or for example, the saber and sword on Huang Quan's back!

Xu Xiaoshou could only 'sense' that the saber and sword were wrapped by the sealing belt and didn't reveal the slightest bit of power.

However, after experiencing the battle in the Heaven Prayer Forest and witnessing the reaction of the Visitor from the Netherworld, he already knew that those were Shang Xuan Sword and Hun Che!

Two of the nine supreme divine weapons!

The one that was placed on the same list as these two great weapons, and known by everyone, was Ai Cangsheng's Evil Sin Bow!

Therefore...

How would a mere Murong Ying dare to make assumptions about someone like Huang Quan?

Xu Xiaoshou could not help but laugh in his heart, but similarly, after laughing, he began to laugh bitterly.

So strong...

If he was to go against Huang Quan in the future, how would he fight him?

In the past, he was young and frivolous. Now that he thought about it, he did not know if the sincere invitation from Huang Quan, which the Visitor from the Netherworld in the Heaven Prayer Forest had used the voice drop to play, "Do you want to join the King of Yama?", had already expired... Xu Xiaoshou's thoughts drifted into the distance.

"Everyone!"

Just as he was thinking, Murong Ying's words interrupted Xu Xiaoshou's thoughts. He said with a solemn face,

"We don't have the right to track down Yama and the whereabouts of the Eighth Sword Deity. We can only wait for reinforcements. However, we can not let this stowaway escape." As he spoke, he pointed toward the ground.

The members of the Black Shadow team were all shocked. Xu Xiaoshou was also shocked.

He wanted to chase after the headmaster?

They were afraid he was looking for death!

The headmaster might not be able to defeat Huang Quan, but if the Spatial Upanishad were to hit him, a cutting path, wouldn't it directly blow his head off?

According to Wang Chao's memories, Xu Xiaoshou knew that although Murong Ying was the leader, he had not been a cutting path for long, and he had not even survived the Nine Death Thunder Calamity.

His combat strength could not even be compared to the night guardian, so how could he possibly defeat Ye Xiaotian?

The past Ye Xiaotian might find it a little difficult to deal with him.

But now that his Spatial Upanishad had reached the final stage, he was another complete Yu Lingdi!

Ye Xiaotian was not a good-for-nothing. He was born in the Holy Palace and had extraordinary talent. He was not an 'Upanishad inheritor' like the Nine Serenities Ghost Child or Spider Lily. He did not comprehend his own Upanishad, instead, Huang Quan had bestowed it to him.

His combat power was now almost at the higher void level. If it was not for Huang Quan's aggressive attack, Ye Xiaotian would not have been exposed!

"Are you going to chase after him?" Xu Xiaoshou looked at the captain and then looked at the inter-spatial wheel in Zhu Mi'er's hand. He counted the coordinates above and said hesitantly, "362 possibilities. Captain, how do you plan to chase after him?"

The members of the Black Eagle team were also filled with fear.

To be able to exchange blows with Huang Quan and leave behind so many fake traces in addition to having space attributes, these weren't things that an ordinary sovereign could do.

If they were to follow him, they might not even know how they would die.

### **Chapter 1029: Wang Chao, Come With Me! 1**

"You don't have to come with me..."

Murong Ying shook his head slightly and didn't say anything more. He looked at Zhu Mi'er and said, "Show me all the possible locations of the stowaway. I want to search for him immediately!"

No one wanted to chase after him. Murong Ying was the only one who had difficulties and had no choice but to chase after him.

He knew that it was his credit for being the first to discover the battle situation here.

However, after mobilizing so many people, he didn't even manage to find a single trace of them before they all ran away.

When the time came, Sword Deity Rao would blame them. It would be a great blessing if the merits and faults were offset. However, if the faults were greater than the merits, then everything would be over.

Most importantly, Murong Ying had the duty of a law enforcer. He could choose not to go because he was afraid of the Eighth Sword Deity and Huang Quan. However, if he didn't even chase after an ordinary stowaway, then he would just be neglecting his duties.

Now, he had no choice but to chase after Ye Xiaotian!

Zhu Mi'er had no choice but to use the inter-spatial wheel to display all the spatial coordinates.

These spatial coordinates were marked with the code names of the law enforcers and were all displayed in digital form.

If it were in the past, Xu Xiaoshou wouldn't have been able to understand them. However, with Wang Chao's soul memory, he could understand them at a glance.

With just a glance, the powerful memory brought by his "Perception" had allowed Xu Xiaoshou to memorize everything.

Murong Ying received the coordinates and did not hesitate. His spiritual source in his entire body shook, and the shadow under his feet squirmed as if it had become a living body. Very quickly, the surrounding space was eroded, and a black spatial passageway was formed.

What appeared in the spatial passageway was only the spatial fragment that hid an unknown fear. It was pitch black, and ordinary people were completely unable to figure out the direction.

"Shadow Pursuit Technique?" Xu Xiaoshou looked at his captain's actions, deep in thought.

In Wang Chao's soul memories, his captain Murong Ying had a unique skill. He could send his spiritual senses into the shadow and turn it into a clone that could be abandoned at any time. It did not have any combat power, but it was very suitable for finding out what was ahead.

At the same time, Murong Ying could only send a clone to trace 30 spatial passageways at most.

However, as long as there was enough time, he could follow the map and find the exits without any trace of heavens fluctuations. This would mean that Ye Xiaotian had not gone to that exit.

Thus, after using the Shadow Pursuit Technique repeatedly, Murong Ying should be able to trace Ye Xiaotian to which of the 362 spatial exits he had escaped to.

As for why he was able to lock onto Ye Xiaotian's tracks...

Xu Xiaoshou could also understand this point.

It was very simple. Based on cultivation level alone, Murong Ying was in the cutting path stage, Ye Xiaotian was in the Dao realm, and the three realms of the Sovereign (Dao realm, Cutting path stage, and higher void stage) all comprehended the way of the heavens.

Regardless of whether Ye Xiaotian had grasped the Spatial Upanishad or not, as long as Murong Ying set out from the way of the heavens' traces, his realm would forever be one level higher than Ye Xiaotian's. Naturally, he could use this to lock onto Ye Xiaotian's way of the heavens' traces.

"Very impressive..."

Xu Xiaoshou could not help but sigh. When Murong Ying calmed down, he was actually quite a capable person.

As he thought, he also used his "Perception" to flow into the spatial passageway that Murong Ying had opened. He wanted to use his own method to track down the headmaster's whereabouts.

Xu Xiaoshou had a certain understanding of the way of space. With the help of the coordinates of the "inter-spatial wheel", in the spatial fragment, it was equivalent to having a guiding light. Thus, he would not get lost.

As for whether Murong Ying would notice anything strange when his perception flowed into the spatial passageway, Xu Xiaoshou was not worried at all.

He could use his perception to eavesdrop on the conversation between Rao Yaoyao and Mei Siren in the night sky, and he could also eavesdrop on all movements of Huang Quan within the Ye Xiaotian's bounded domain without being noticed.

This meant that using the sovereign level perception to observe people and things from the bird's eye view was theoretically difficult for a spiritual cultivator who belonged to the three realms of the sovereign stage to notice anything strange.

Unless he used his perception to pry into the secrets of a mighty figure, such as focusing on a single point to invade Huang Quan's body secrets and take a look at his body structure...

Tracking in space was very fast.

Xu Xiaoshou knew the coordinates in advance, and based on his understanding of the way of space, he used the spatial node to track it.

In less than three breaths time, he found the exit of a certain spatial passageway, and there was something unusual about it.

"It's so obvious..."

After getting the result, Xu Xiaoshou's first reaction was not surprised but shock.

Ye Xiaotian had reached the final stage of Spatial Upanishad. He could have erased all traces of it after escaping.

Why did he still leave these 362 openings for others to trace him?

Wasn't this an unnecessary move?

"That's not right. The headmaster must have left this behind on purpose.

"He could have erased all traces of the spatial passageway and made it impossible for others to find it, or he could have left behind a spatial passageway as a cover.

"But there was only one spatial passageway, and it seemed to have been intentionally left behind, making it impossible for others to believe that a space attributes expert, who could make Huang Quan do the job himself, would be unable to erase all traces of the spatial passageway and leave behind a small tail.

"Thus, he left behind more than three hundred spatial passageway exits for..."

"Humans will not believe information that is simply obtained. On the contrary, through their own hard work, they would be more willing to believe the information that they have obtained through breaking through all difficulties, even if it is wrong. This is especially so for intelligent people."

Xu Xiaoshou had been enlightened greatly in an instant.

The headmaster was also an old fox, incomparably cunning!

Just as Xu Xiaoshou had found the “only truth”, another ten breaths of time had passed, and Murong Ying’s painstaking but flattering traversal method had finally concluded.

Without the comprehension of the way of space, Murong Ying had spent a lot of energy completing the battle against the spatial fragment.

### **Chapter 1030: Wang Chao, Come With Me! 2**

At this moment, beads of sweat were already dripping down from his forehead, but his eyes were shining with excitement, and his voice was filled with joy.

“Found it!”

Xu Xiaoshou was momentarily moved.

So fast?

As expected of a cutting path. Even though Murong Ying had been scared out of his wits by Bazhun’an’s gaze and he did not have the foundation of the space path, he was still very powerful when he used his own ability.

After Murong Ying found traces of the way of the heavens left behind by the stowaway, he immediately ordered the people around him.

“Zhu Mi’er, you will stay here. When Sword Deity Rao or other higher-ups arrived, tell them everything that happened in this place and the results of the inter-spatial wheel.”

“The rest of the team members will remain here as well. Search the surroundings thoroughly. Don’t let go of any possibility.”

“Why did these people appear here? Why did they fight? What else did they leave behind...”

“If you can find these before Sword Deity Rao arrives, it will be a great achievement!”

The members of the team immediately nodded, their eyes filled with excitement. They immediately dispersed and began their search.

After Murong Ying finished instructing them, he also instructed the other teams not to waste any time and to start a thorough search as well.

Subsequently, he retracted his gaze and glanced at his team member, Wang Chao, with slight hesitation.

Even if Xu Xiaoshou had found traces of the headmaster, he did not want to follow Murong Ying.

He felt that with the headmaster’s craftiness, the “only truth” might also be fake. Ye Xiaotian must have gone somewhere else.

Xu Xiaoshou had planned to follow Zhu Mi’er and the others and then take the opportunity to escape from the team of law enforcers.

Because the longer he took, the more danger he would be in!

It must be known that the real Wang Chao was only muddle-headed from the three spiritual attacks and the interrogation. With the strength of a sovereign's soul, he should be waking up very soon.

Even if Wang Chao had lost his battle communicator, it would still take some time before he could find out about the situation here.

Xu Xiaoshou also knew that he could no longer move together with the law enforcers.

His original intention was only to disguise himself as a law enforcer and sneak around for a while. He did not want to completely integrate into the system of the Holy Divine Palace.

Otherwise, he would not have just knocked Wang Chao out. Instead, he would have moved him to the Yuan Mansion and have him tied up.

However, at present, Murong Ying had just finished giving out instructions. He then looked at Xu Xiaoshou.

"Wang Chao, come with me!"

Xu Xiaoshou was stunned when he heard that.

"Me?" He pointed at himself and was slightly stunned. His surprise was both a disguise and a true expression.

"Yes, you." Murong Ying looked left and right a few times. At this moment, he had lost the expression of a wise man with authority. On the contrary, there was a trace of guilt in his eyes, "You come with me!"

Xu Xiaoshou's eyes widened, "Captain, I'm only at the sovereign stage..."

What he meant was, "I'm only at the sovereign stage, yet you want me to die with you? Are you crazy?"

Murong Ying rolled his eyes and raised his hand towards Xu Xiaoshou, "Cut the crap, I have something important to tell you."

Xu Xiaoshou reacted quickly and dodged his slap.

Although he was using the Imitator, he did not throw away his passive skills.

If he had been caught off guard and received the slap from Murong Ying, his entire arm would have been sent flying, with blood splattered on the spot.

That scene might be little comical and it would be hard for him to clean up...

"Captain, If you have something to say, can't you tell me now? I don't think we have any secrets, right?" Xu Xiaoshou changed the topic.

Murong Ying grinned. He was a little displeased that Wang Chao had dodged his slap, but he did not doubt Wang Chao. He only lowered his voice and said, "There are too many eyes and ears here. Come with me first."

"Oh, okay then." Xu Xiaoshou did not know the situation at all, so he could only reluctantly agree.

He frowned slightly and searched Wang Chao's soul memories again, but he did not find anything wrong.

Wang Chao and Murong Ying usually did not have much interaction apart from their mission. Why was Murong Ying acting like this now...

What exactly was Murong Ying trying to do?

Could it be that he noticed his little 'perception' move just now?

Perhaps, Murong Ying is actually a hidden big shot?

This was the first time Xu Xiaoshou was panicking because he couldn't predict the enemy's next move.

He knew that although Murong Ying couldn't be compared to Huang Quan and Ye Xiaotian, he was still at the cutting path stage.

As the saying goes, regardless of whether the camel is scrawny or not, it is still bigger and stronger than a horse. Not to mention that he, Xu Xiaoshou, was only a master. Even his current Sovereign stage was imitated using an imitator.

"Let's leave this place first."

Murong Ying waved his hand and took out an array wheel that contained spatial fluctuation.

He used spiritual source to wrap around his team member, Wang Chao, and said, "Don't resist. We'll enter the spatial fragment first. You're only at the sovereign stage. The spatial fragment is very dangerous to you, so I don't plan to take you there by force."

After a pause, he raised the array wheel in his hand and gestured, "Anyway, we have the spatial coordinates. After entering the spatial fragment, we'll use the teleportation portal."

Xu Xiaoshou suddenly felt uncomfortable. It was as if he knew that there was a tiger on the mountain but was forced to head towards the same mountain. Despite that, he did not resist.

He had Aje, Flame Python, Fourth Sword, passive skills, Lei Shuangxing, and the "Communication talisman" and "Killing talisman" that he didn't know how to use, as well as the protection from the wills of various big shots...

If Murong Ying really noticed his abnormality and recognized him as the saint servant, Xu Xiaoshou..

The spatial fragment might be a good place to kill him and bury his corpse...

With this thought in mind, without resisting, Murong Ying easily pulled him into the spatial fragment.
