

I Am Loaded 1141

## **Chapter 1141: Break!**

Xu Xiaoshou felt that there was no need to skip the memories that he had skipped out of caution.

This was because Golden Foot had indeed seen a demi-saint in her life, but she had seen them from afar. She had never interacted with a demi-saint in person.

Xu Xiaoshou thought, "She is a weak woman with no background and likes the affairs of men and women, but she is also lonely and pitiful. However, she is indeed a person who deserves to die. She has sucked up too many innocent people for the sake of her desires..."

After reading through Golden Foot's soul memories, Xu Xiaoshou gave his judgment and cut off the Soul Reading at the same time.

Golden Foot grunted.

It seemed that she was about to wake up.

However, she wasn't Yi, and she wasn't familiar with mental strength and soul power.

That special charm power was only a side effect of the Book of Heaven.

Moreover, in the deep sea, there was a Spell Forbidden Barrier, so Golden Foot's spiritual source couldn't be used at all. Naturally, it couldn't help a Spiritual Cultivator like her recover even a little from her weakened state.

Xu Xiaoshou thought, "Still not awake?"

He waited for a while, but Golden Foot was still in a daze.

He smiled.

Should it be that Spell Forbidden Barrier was too strong, or that the higher void level person, Golden Foot, was too weak?

Xu Xiaoshou thought, "Let's end this!"

After obtaining all the information he wanted and knowing who was chasing after him, Xu Xiaoshou did not want to waste any more time with Golden Foot.

He did not even have the thought of taking pity on her, and his hands began to flip.

In the deep sea, spatial fluctuation rippled slightly.

It seemed to be because of a Spiritual Cultivator's keen sense of smell that made Golden Foot sense that something was wrong, or perhaps because of the crisis of death, she returned her consciousness to her body in the nick of time.

Golden Foot thought, "This is..."

Through the water ball, the moment Golden Foot regained consciousness, she could clearly see the spatial fluctuation in Xu Xiaoshou's body.

She was scared out of her wits.

She thought, "Isn't he inside Spell Forbidden Barrier?"

"How could Xu Xiaoshou be able to transcend?"

While she was in shock, Golden Foot had no time to defend herself.

Her Heart of Marrow Absorption fell onto the water ball wall below.

Normally, she could easily get it in such a short distance. Now that the spiritual source was unable to be controlled due to Spell Forbidden Barrier, if she wanted to retrieve Heart of Marrow Absorption, she had to bend down and pick it up.

There was no time.

Golden Foot did not even try. She was afraid that her actions would speed up Xu Xiaoshou's execution.

She cried out in fear, "Let Me Go!"

"Xu Xiaoshou, I beg you. Let me go..."

"I can give you anything. As long as you want, I can even be your slave..."

"Tempted, Passive Points, + 1."

A message popped up in the Information Bar, and Spirit Awakening was triggered again.

Xu Xiaoshou was not tempted at all. He waved his palms across the air.

Then he said softly, "Break!"

With a sizzling sound, a spatial crack appeared in the space where the water ball wall was.

The moment the space attributes power appeared, Spell Forbidden Barrier was activated, and all the abilities were destroyed.

However, the spatial crack had appeared before.

The water ball wall that Golden Foot was on happened to be on top of this spatial crack. It was immediately cut open by the intersecting space.

Golden Foot said, "No!"

She screamed.

However, her hysterical scream only lasted for a short moment.

Bomb!

A muffled sound rang out.

The moment the water ball broke, the pressure difference pushed the deep-sea water towards Golden Foot. The terrifying water pressure instantly crushed Golden Foot into powder.

She was gone.

Splash.

The sudden movement of the deep-sea water brought along a faint sound of water. Then, it took away the trace of scarlet from where Golden Foot was.

Under the sea, peace returned.

Xu Xiaoshou thought, "Dead?"

His Perception was very vigilant as he observed the surroundings, preventing Golden Foot from acting like Yi that even if the body was shattered, there would still be a soul and that even if the soul was damaged, there would still be a mental will.

However, he was worrying too much.

Not every higher void person was as difficult to kill as the ever-changing Yi.

Moreover, they were now in Spell Forbidden Barrier. Under the circumstances where the spiritual source could not be used, all the special things like the regeneration of broken limbs and the creation of new ones were all turned into foam phantoms.

The silence continued.

Xu Xiaoshou stayed silently in the water ball.

He thought, "She's really dead!"

After a long time, he stared at the Information Bar cautiously. Xu Xiaoshou did not see any signs of "Resented" or "Missed", so he was relieved.

Golden Foot was completely dead.

Even if she still had some way to survive and was nearby, it was impossible for her to not be angry about the situation where her body was crushed by the water ball.

Naturally, it was also impossible for her not to feel resentment towards Xu Xiaoshou.

But Xu Xiaoshou did not see any message from the Information Bar.

This was a reverse verification. The dignified higher void, the dignified gold hunting token killer, had really died so easily in this deep sea.

Xu Xiaoshou thought, "This is too strange..."

It was only until now that Xu Xiaoshou completely relaxed his mind. He felt that everything that had happened was like a dream.

He asked himself, "I killed a higher void with my own hands?"

“I... became stronger?”

No!

He did not become stronger.

It was because Spell Forbidden Barrier was too terrifying.

Spell Forbidden Barrier could greatly weaken the strength of a Spiritual Cultivator.

Xu Xiaoshou was an ancient swordsman, and he was considered a half-physique cultivator, so he didn't feel the power of Spell Forbidden Barrier directly.

However, after reading Golden Foot's soul and putting himself in her emotion, he could experience the fear that even a higher void felt toward the deep sea.

He couldn't withstand it at all.

If anything unexpected happened, the water ball would break, and the water pressure would roll over.

Almost no one below the demi-saint level could escape unscathed except for physique cultivators.

Xu Xiaoshou thought, “Spell Forbidden Barrier is a bit disgusting...”

He suddenly thought of Elder Sang.

If nothing went wrong, this old man should still be in Sacred Mountain Prison.

According to Ye Xiaotian, Sacred Mountain Prison's original name was “Dead Sea”. There was a Spell Forbidden Barrier and a sea... Wasn't this his current situation?

No!

There were stronger people imprisoned in the Dead Sea.

Elder Sang's current situation was definitely more difficult than what Xu Xiaoshou was experiencing.

Xu Xiaoshou let out a breath.

Forcing himself to calm down and not to think about things that he could not do, Xu Xiaoshou refocused his attention on the death of Golden Foot.

The water ball of Golden Foot broke, and the spatial ring was crushed.

Everything she carried was turned into dust, but under the pressure of the water, there was still something that did not shatter.

It was the Heart of Marrow Absorption that Golden Foot had lost.

Without hesitation, Xu Xiaoshou took Heart of Marrow Absorption in his hand with spatial displacement.

With Golden Foot's memory, he naturally knew the origin of the thing in his hand.

Among the top ten Great Psionic Weapons, there was one called Nine Marrow Corpse King.

Golden Foot had never seen it before, but she guessed that Nine Marrow Corpse King was something similar to the zombie in Xu Xiaoshou's memory.

Nine Marrow Corpse King had nine Heart of Marrow Absorption, and Golden Foot had gotten one of them.

And this was also the only thing that she could use in Spell Forbidden Barrier.

Xu Xiaoshou thought, "The top ten Great Psionic Weapons again..."

He pinched the Heart of Marrow Absorption and frowned slightly. He felt as if he had touched on some secret.

He thought, "If I remember correctly, Water Ghost can also use water-type ability even in Spell Forbidden Barrier.

"Yes, he can even summon the sea that almost drown Yunlun Mountain Range. They are both in the higher void level, but the difference between Water Ghost and Golden Foot is so huge! How ridiculous!

"And he can do all of this because he has Sea God's Trident, which is also one of the top ten Great Psionic Weapons..."

Thinking of this, Xu Xiaoshou stopped his thoughts and looked at the Heart of Marrow Absorption in his palm.

He thought, "Golden foot can also use some abilities, but Heart of Marrow Absorption doesn't have any attributes, so she can only use the Marrow Absorption Technique that comes with it.

"As for all the abilities related to her as a Spiritual Cultivator, including the bounded domain, the higher void world, and so on, she can't even use them before she dies.

"Oh, other than Heart of Marrow Absorption in her memories, she really can't use any other abilities..."

Xu Xiaoshou patted his forehead, and a smile appeared on his lips.

He thought, "So, the limitation of Spell Forbidden Barrier is that it can only block the Spiritual Cultivator's abilities, but not the spiritual weapon... No! Or rather, it can't block the spiritual weapon of the level of the top ten Great Psionic Weapons.

"That's right, Spell Forbidden Barrier is the final product of Way of Spirit Array, and Way of Spirit Array only began to flourish in the era of spiritual cultivation.

"The top ten Great Psionic Weapons are on par with the Nine Supreme Divine Weapons and the Five Great Divine Instruments of Chaos, and the degree of strangeness is even higher.

"These are almost all things from ancient times. How could their power be restricted by the products of an array of the era of spiritual cultivation?

"?hen the answer is obvious..."

Xu Xiaoshou stroked his chin and looked down at his hands. He finally got the answer to the question he had been slightly puzzled about.

He thought, "I can use the space attributes because of the power of the Imitator?"

### **Chapter 1142: Hunting (1)**

This answer suddenly gave Xu Xiaoshou a feeling of invincibility.

Previously, he had used the space attributes to successfully exchange Elixirs for Night Guardian, but he had not been suppressed by Spell Forbidden Barrier.

In other words, Spell Forbidden Barrier was activated the moment the space ability was activated, but Xu Xiaoshou had already passed the thing to Night Guardian.

As for the subsequent abilities, it was okay if they were disabled. It was not a big deal.

But at that time, Xu Xiaoshou did not think much of it. He thought that the suppression of Spell Forbidden Barrier on him was very weak because of Water Ghost's special care.

After all, the other party was also one of Saint Servant Nine Thrones. It was normal for him to take care of people on his side.

But now, it seemed that Water Ghost had not taken care of him.

The reason why Xu Xiaoshou could use his ability in Spell Forbidden Barrier was because of the strength of the Imitator.

"Perhaps my spiritual cultivation ability can not be used in Spell Forbidden Barrier, but through the Imitator, I can break the rule of Spell Forbidden Barrier." Xu Xiaoshou's thoughts drifted far away.

He did as he thought.

He did not hesitate to use the infernal white flame, trying to make the seawater ten feet away evaporate through his eyes.

But he failed.

The spiritual resource in his energy reserve could not be used at all, so Xu Xiaoshou naturally could not use his Infernal Energy.

Xu Xiaoshou thought, "As expected..."

Failure did not make him discouraged. On the contrary, he was even more excited.

He thought, "Let's try the Imitator again..."

"Imitate my Infernal Energy through the Imitator. If this can work..."

"Haha!"

Xu Xiaoshou suppressed the excitement in his heart. He linked his spiritual senses to the Imitator in the Yuan Mansion and began to "duplicate" his ability.

If it was asked who was the easiest to be imitated in the world with the Imitator, then without a doubt, the answer was “oneself”.

Xu Xiaoshou had almost completely imitated his spiritual cultivation ability, and through the Imitator, this ability could even be slightly strengthened.

He shouted, “Infernal Heavens!”

With a glance, Xu Xiaoshou, who had relied on the Imitator to cross the restriction of Spell Forbidden Barrier, suddenly saw a white flame blooming in the deep sea.

Then there came a slight sound.

But the sound only lasted for less than a breath.

Spell Forbidden Barrier was activated, and the flower of white flame was crushed and turned into nothingness.

Xu Xiaoshou thought, “It’s done!”

Even though the white flame disappeared in a flash.

However, Xu Xiaoshou, who had verified the success, had a bright light in his eyes.

He didn’t hesitate to use the power of the Imitator again. With a wave of his hands, a scorching aura appeared around him.

He said, “Dragon Melting Realm!”

Under the deep sea, within a radius of hundreds of feet, the white flame in a continuous circle suddenly rose up from the ground, trying to form a perfect domain-form spiritual technique between the two closed cages at the top and bottom.

This kind of interweaving of fire under the water, the combination of hot and cold, blossomed with a demonic beauty in the deep sea.

Unfortunately, apart from the extremely excited Xu Xiaoshou, no other audience could see this unbelievable scene.

It didn’t take long.

The fire-type energy appeared, but Dragon Melting Realm wasn’t able to close, and Spell Forbidden Barrier was activated again, so everything was destroyed.

However, that short-lived burst of brilliant deep-sea white flame made Xu Xiaoshou feel excited, and he couldn’t calm down for a long time.

He thought, “With Spell Forbidden Barrier, even if I can use the continuous spiritual cultivation ability, it would be destroyed at the first moment.

“However, an ability like ‘spatial displacement’ that explodes in an instant and then disappears will not be affected.

“Because after using the Imitator to forcefully break through the barriers, by the time Spell Forbidden Barrier reacts, my has already used my ability...”

Xu Xiaoshou continued to refine the thoughts in his heart, and the answer he got was even more perfect.

He thought, “So, as long as I imitate myself and only use the instantaneous burst-type spiritual cultivation ability, I can almost use... all the spiritual cultivation abilities in my peak condition under the deep sea.

“Oh my! Amazing!

“If I’m so strong, how can others live?”

Xu Xiaoshou gasped. He finally understood why Water Ghost could hide under Lone Cliff and kill so many higher void level ones, including Rao Yaoyao.

With Sea God’s Trident, one of the ten top Great Psionic Weapons, Water Ghost was equivalent to being able to use water-type energy wantonly in Spell Forbidden Barrier.

And Water Ghost himself was the controller of Water-type Upanishad.

If he wasn’t strong enough, what else could be considered “Strong” in this world?

Xu Xiaoshou thought, “Sea God’s Trident only has a single water attribute, yet it’s already so powerful.

“If my Imitator was still in Yi’s body, I reckon that if he were to fall into the water, the ability that he imitated wouldn’t be very good either, because it would be destroyed by Spell Forbidden Barrier.

“But I’m different!

“I have all attributes!”

Xu Xiaoshou clenched his fists in excitement and was overwhelmed with emotion. He thought, “Imitator is in my body, so it means that Spell Forbidden Barrier is completely ineffective to me!”

What did this mean?

It meant that in this deep sea, everyone’s ability had dropped to less than 10%, but Xu Xiaoshou could exert more than 100% of his strength.

He began to think of the killers who wanted to kill him like Golden Foot...

He thought of Ye Xiao, the initiator who issued the Black Gold Bounty of Three Incenses...

He thought of Rao Yaoyao, who had almost forced him to lose his life on Lone Cliff...

At this moment, they were all in the deep sea. They were all restricted by Spell Forbidden Barrier.

“Hahahahaha...”

Xu Xiaoshou suddenly laughed maniacally.

It had been a long time since he had been so happy.

The enemies were all in the higher void level, so it was only right for him, who was only in the master stage, to hide from them.

## **Chapter 1143: Hunting (2)**

But now that there was such a good opportunity, what other reason did he have to hide from them?

Among his opponents, he didn't have to be afraid of anyone else except Rao Yaoyao, who had the ability of the ancient swordsman.

Then he stopped laughing.

Xu Xiaoshou's expression also changed, and his murderous intent was released without restraint.

The corner of his lips curled into a sick smile as if he was a clown. He was no longer satisfied with letting the water ball fall on its initiative. Instead, he continued to rely on the recoil force to make his water ball swim rapidly under the deep sea.

He thought, "The hunting operation begins now!"

...

There was a falling water ball somewhere unknown in the deep sea.

A little boy with a round head and big eyes lay limp in the water ball in a shriveled, weak to the core state.

The boy thought, "I'm so tired. When will I be able to leave this situation?"

"Fortunately, I have enough metals with me. Hopefully, I can hold on until the 'turning point' appears..."

Little Ninja, one of the five top gold hunting token killers, finally realized that the suppression of Spell Forbidden Barrier on Spiritual Cultivators was all-sided.

He gave up struggling and let his body relax. He stuck to the side of the water ball and used it to reduce the consumption of his physical strength to deal with the unknown danger.

A large number of metals that had lost their spiritual quality floated in front of him. They were colorful.

The suppression of Spell Forbidden Barrier on a metal-type higher void one was too powerful.

Other than being able to swallow metal to maintain his life force, Little Ninja could not use any other ability.

Suddenly, as the water ball was falling, a special power fluctuation seemed to come from afar.

Little Ninja thought, "This is..."

"Fire-type energy?"

"How can there be fire-type energy in Spell Forbidden Barrier under the deep sea?"

Little Ninja couldn't help but think of the two messengers of the Holy Palace who were hiding in the Way of the Heavens on Lone Cliff like him.

If nothing went wrong, only an expert at Mu Ling's level could use fire-type energy in Spell Forbidden Barrier.

Perhaps, the other party had some divine object given by Demi-Saint Infernal, Long Rongzhi, which could temporarily block the restriction of Spell Forbidden Barrier.

He thought, "But why did he use fire-type energy?"

"Did he encounter danger?"

"There is indeed danger in the deep sea!"

Little Ninja, who was completely exhausted, thought of this. He sat up straight and looked around vigilantly.

He was afraid that when he was completely weak, some enemy would suddenly appear and want to target him.

This was unlikely to happen.

Because when he acted as an assassin, all the enemies were dead. And Little Ninja naturally did not feel that his identity had been exposed.

But it was better to avoid unnecessary trouble.

Little Ninja drew a few more pieces of high-rank metal. He felt that the spiritual source in his energy reserve, which had almost been drained dry, had recovered some. He immediately borrowed the strength of his physical body and rebounded the water ball, trying to stay away from the place where the fire-type energy exploded.

He thought, "I hope the one won't come over..."

The water ball headed for a place away from the danger.

But at the same time, it was still falling at a high speed.

Little Ninja was uneasy. The whim of the higher void made him feel that he might have been targeted by someone.

Blessings never came in pairs, and misfortunes never came singly.

When a person was unlucky, even drinking water could cause trouble, and the thing they were most afraid of would often happen.

Then a short time passed.

The water ball was still not far away from the dangerous place. Through the blurry water ball wall, Little Ninja, whose spiritual senses had lost their effect, could vaguely see a figure speeding over from the deep sea in the distance with the naked eye.

The figure was facing his direction.

Little Ninja's heart went pit-a-pat.

He was nervous.

His heart began to beat faster.

Fear appeared on Little Ninja's face, and he was already cursing in his heart.

But he couldn't stop the opponent from moving.

Soon, the figure got closer. The figure was dozens of feet away, and the speed of his side movement and falling was the same as that of his water ball.

The figure and the water ball entered a state of relative stillness.

Little Ninja shouted, "It's You!"

Seeing the face of the figure, his face changed as he cried out in surprise.

Outside the water ball, the intruder was the Water-type Upanishad controller who was holding a big trident and wearing half of a golden beast mask.

He was the one who smashed everyone on Lone Cliff into the deep sea.

But his identity was unknown.

Little Ninja asked, "Who are you?"

He looked at the malicious smile on the other party's mouth and couldn't help but ask first. He guessed that Mu Ling had met this person and thus used his fire-type energy.

The power of the other party seemed to have been restricted by Spell Forbidden Barrier. He didn't show any of it. Even the trident in his hand didn't show any spiritual source.

However, regardless of strength, the appearance of the trident was the Sea God's Trident.

And the king of the sea who held the trident didn't have a water ball protecting his body, but he could withstand the heavy pressure under the deep sea with his body. Without a doubt, this person could use his ability within Spell Forbidden Barrier.

Little Ninja asked, "Hey, my friend, I haven't offended you before, right?"

Seeing that the other side still did not say anything, Little Ninja narrowed his eyes. He knew that his current condition was not good, and the other party probably knew this as well... So he kindly said, "In this world, you should leave yourself a way out. We don't interfere with each other's business. If you let me off today, I will repay you in the future!"

The man with the golden beast mask who was holding Sea God's Trident laughed in a low voice.

His slightly bright eyes looked over, and he tilted his head and asked, "How can you repay me?"

“I’ll repay you with my life!” Little Ninja could tell that the other party intended to let him off. He said without hesitation, “If you let me go today, it’s equivalent to saving my life... So I can only repay you with my life!”

The man said, “However, it seems that I only let you go when you are helpless. How can this be considered saving your life?”

### **Chapter 1144: Hunting (3)**

The Man with the golden beast mask smiled and continued, “If you won’t remember my kindness but remember my unusual debt of gratitude when you go out, and even go back on your words and accuse me instead... won’t my gains not make up for my losses?”

Little Ninja shook his head and said resolutely, “Impossible!

“My friend, to tell you the truth, I’m the gold hunting token killer of Three Incenses. I’m only here for an unimportant saint servant, Xu Xiaoshou.

“You and I don’t know each other, and we don’t have any old grudges. If I’m still alive, with my identity, I’ll be able to bring you considerable benefit in the future. You...

“Think twice before you act!” Little Ninja suddenly realized that if he spoke more, he might annoy the other party, so he did not dare to say anything more.

“To be honest, I am Xu Xiaoshou, and before I act, I have already thought carefully...” Xu Xiaoshou mocked in his heart.

He disguised himself as Water Ghost with the Imitator. Sea God’s Trident was only a preliminary manifestation of the water-type energy, and it didn’t possess the true power of the top ten Great Psionic Weapons.

But all of this wasn’t important.

The most important thing was that after imitating Water Ghost, even if he couldn’t master Water-type Upanishad for the time being, Xu Xiaoshou could remove the restriction of the water ball with a little comprehension.

After removing the restriction of the water ball, in the deep sea, the scene of a big shot who had left a deep impression on everyone holding a trident and wantonly doing whatever he wanted underwater was enough to stop everyone from acting rashly.

Moreover, everyone was restricted by Spell Forbidden Barrier. Strictly speaking, they didn’t have any thoughts of resisting.

This was also true.

Up until now, the Information Bar only had messages such as ‘Feared’ and ‘Begged’, but there wasn’t ‘Doubted’ or ‘Conjecture’.

This meant that the assassin, Little Ninja, didn’t have any doubts about his identity.

“What if I say that I must kill you?” Xu Xiaoshou snorted and waved his fake Sea God’s Trident. His aura of confidence was amplified under the effect of Swallow the Mountains and Rivers.

“You don’t have to!” Little Ninja was so scared that his face turned pale. He hurriedly shook his head and retreated, but there was no way for him to retreat.

He pressed one hand on the water ball wall behind him and the other on his chest. He was extremely vigilant and tried to persuade Xu Xiaoshou, “If I’m alive, I can bring more help to you...”

Xu Xiaoshou said, “Stop!”

He impatiently put the Sea God’s Trident in his hand forward and interrupted, “Three choices!”

Little Ninja’s face froze.

However, there were three choices. He could tell that he could survive, so he quickly bowed and said, “Please tell me, my friend.”

Xu Xiaoshou said calmly, “One, I will kill you.”

“I give up this option!” Little Ninja shook his head and refused without saying anything. He followed the special hobby of the opposite side and asked, “What’s the second choice?”

Xu Xiaoshou said, “Two, I never kill the weak. You can use all your means to call for help from the outside world, or even expose my identity. As long as you can get help... Then, I will kill all of you.”

Little Ninja was stunned.

What kind of option was this?

This option also led to death.

Ignoring the result first, Little Ninja took the opportunity to ask, “May I know your identity, my friend?”

Xu Xiaoshou could not help but laugh.

He said, “You are going to die, but you still don’t know my identity. How funny!”

He tilted Sea God’s Trident downward, creating ripples in the water. His chest straightened slightly, and an aura that could swallow rivers and seas instantly rose in the deep sea.

After doing all this, Xu Xiaoshou looked at Little Ninja with disdain.

Then he said coldly, “Water Ghost from Yama!”

### **Chapter 1145: Dragon Rider (1)**

“Yama?”

“This guy is actually Yama’s subordinate?”

“He’s the subordinate of that Huang Quan who has the space-time attributes?”

Little Ninja's eyes widened. As an assassin of one of the dark factions, Three Incenses, no matter how much information he had, he had never heard of the name Water Ghost before.

However, how could he not know the name of Yama, Huang Quan?

This was a guy who was almost as famous as the first-in-command saint servant!

Because Three Incenses was controlled by Holy Divine Palace, even if there was an assassination mission, it would not disrupt the order of the justice forces.

However, true dark organizations such as Saint Servant and Yama were either against the order of the world or the rules of the continent. They were not the same.

The former had declared war with Holy Divine Palace on the surface, and this time, they even fought openly and secretly with the help of the saint in Yunlun Mountain Range.

Although the latter wasn't obvious, according to Little Ninja's knowledge, Yama had been longing for Lei Family's Eyes all these years.

These things were related to the Lei family's tragedy.

According to rumors, there were even traces of Emperor Control Bureau in the Lei family's tragedy.

A guy from such a terrifying dark faction.

"No wonder he's so strong, and he even mastered Water-type Upanishad!" Little Ninja suddenly got really upset. They were both of Higher Void State but he was so desperate that he couldn't even muster the will to resist.

His thoughts quickly returned to the main topic from the other party's identity.

Little Ninja didn't forget that Water Ghost was willing to expose his identity because of his weird habit.

The second option that this guy gave was obviously arrogant. However, Little Ninja did not have any way to resist at this moment. He could only sigh.

"Senior, don't fool me. There's no need to try."

"You know, in Spell Forbidden Barrier, I can't even use my spiritual source, let alone send a message to the outside world and find someone to be the scapegoat."

Just a moment ago, Little Ninja was calling him a friend, but now Little Ninja was calling him Senior.

Xu Xiaoshou laughed and shook his head. "You've misunderstood me. What I meant was not to ask you to find a scapegoat, but to ask you to call someone to die with you. In this way, you will have a companion on your journey."

Little Ninja was stunned.

How could this fellow say such cruel words with a calm face?

Moreover, he just told Little Ninja what he exactly meant.

Little Ninja took a deep breath. "Senior, I want to hear the third option."

“So, you’re planning to give up the second option?” Xu Xiaoshou smiled.

“No, I just want to hear it first...” Before Little Ninja finished his sentence, he saw that Water Ghost got kind of serious now. Little Ninja hurriedly stopped.

What?

Was he offering options?

He was clearly trying to give the restrictions one by one and then push Little Ninja towards the abyss step by step.

Little Ninja cursed silently, and he said something to give it a try. “Yes, Senior, I reject the second option. I want to hear the third option.”

“If you reject the first and second options, then you can only accept the third option,” Xu Xiaoshou said without any hesitation. He even lightly wielded the fake Sea God’s Trident in his hand.

There came some ripples in the sea. The atmosphere suddenly got tense with his words.

Little Ninja’s face was pale, and his eyelids twitched wildly. He suppressed his anger and said kindly, “Senior, then do I have the right to know the content of the third choice?”

“You do.”

Xu Xiaoshou looked at him with a smile, like a benevolent bodhisattva.

“The third option is that I will give you ten breaths to escape.”

“During this period of time, you can use any ability you can. As long as you run out of my sight, your escape will be considered successful. I will not kill you again.”

“However, if you fail to escape my sight after ten breaths of time, then I will have to kill another man with my Sea God’s Trident.”

Xu Xiaoshou fiddled with Sea God’s Trident in his hand. As he moved, the water rippled again.

Little Ninja seemed to have grabbed onto the last life-saving straw. He stared at Sea God’s Trident and asked, “Senior, do you mean that I can use anything within the time for ten breaths and the barrier won’t suppress me anymore?”

What?

Xu Xiaoshou looked up in surprise. “You’re dreaming.”

Little Ninja was speechless

If the barrier was still there, what could he use to escape?

In that case, Little Ninja would never be able to escape from the king of the sea!

“Condemned, Passive Points, +1.”

Xu Xiaoshou shifted his attention away from the information bar and smiled.

“I forgot something. You can’t find help from the outside world, but there are still good people in the deep sea.”

“Within ten breaths, no matter what method you use, as long as you can find someone and get them to respond to you, with one person’s response you can increase your escape time by ten breaths!”

“I believe that the group of sanctimonious spiritual cultivators in the Holy Divine Palace will help a pitiful person”

“And by analogy, how well-connected you are and how many spiritual cultivators there are in the deep sea will respond to you will determine how long you will live in the future.”

Xu Xiaoshou spread out his hands and declared casually, as if he was a god who controlled the fate of all living beings.

Little Ninja was going crazy while listening to him.

What kind of game rule was this?

How could he play people like this?

Little Ninja was higher void, not a pig that Xu Xiaoshou could play with as he wanted.

At a certain moment, Little Ninja even decided to make a move. With lightning speed, he wanted to use his last power and kill Water Ghost in front of him.

However, the scene of Water Ghost controlling the waves in Yunlun and destroying the arrows from the Evil Sin Bow was still vivid in his mind.

### **Chapter 1146: Dragon Rider (2)**

With the abyss of the deep sea and Spell Forbidden Barrier, the courage of a higher void was long gone.

Little Ninja resisted the urge to attack.

He felt that this would undoubtedly speed up his death.

Suppressing his anger, he could not suppress his gnashing teeth. Little Ninja forced an ugly smile and asked, “May I ask, Senior, since you and I have no enmity, why are you not willing to let me go?”

Xu Xiaoshou laughed.

No enmity?

Little Ninja even wanted to exchange Xu Xiaoshou’s head for a reward. He actually said that they had no enmity.

Speaking of that, Xu Xiaoshou was the most innocent one. Why could everyone take his head and exchange it for cultivation resources? However, he could only sit and wait for death.

Xu Xiaoshou laughed silently.

After laughing for a long time, until Little Ninja's scalp went numb, he calmed down all the emotions on his face and put on an indifferent face.

He then said coldly, "Anyone who is bitten by a dog on the road will be in a bad mood, right I'm in a bad mood today, and I want to kill someone to cheer me up. Are you satisfied with this explanation?"

The sudden change in killing intent was so cold that it seemed to be able to freeze all the cold currents under the deep sea.

Looking at the indifferent look of Water Ghost and Golden Beast Mask, Little Ninja got so angry that his whole body was trembling.

Just because of that?

"There must be something that provoked this guy."

"And I'm just an innocent person. I'm just passing by. Why should I bear all of this for that thing?"

Little Ninja was roaring inside. He was angry at Water Ghost and the unknown guy who provoked Water Ghost.

Why did the guy provoke this pervert for no reason? He was totally sick!

"I. . ." Little Ninja hesitated and couldn't make a decision for a long time.

"Stop! I've chosen the third option for you!" Xu Xiaoshou said indifferently. He paused for a moment as if he had remembered the most important thing.

Then he said, "Remember, during the escape, you can still use any means you can, including exposing my identity and transferring hatred."

"And now, there's not much time left. I'm going to start counting."

Little Ninja raised his eyes in shock. Before he could figure out the meaning of his words, he had no time to say anything else.

"Ten!"

The countdown for Xu Xiaoshou's death began.

With a thud, Little Ninja's heart was hit hard. He felt the suction force of the water ball increase in an instant, and his entire body became weak.

"Nine!"

The Death God's voice did not slow down at all as it continued to appear.

At this moment, Little Ninja only felt that the man with a golden beast mask holding Sea God's Trident in front of him had become as tall as the sky, as if he was possessed by the sea god.

He originally wanted to fight to the death, to fight his way out.

However, after such a long time, for some baffling reason, the opponent's aura completely suppressed him.

At this moment, Little Ninja didn't even have the slightest intention to make a move. It was as if he had completely lost the will to make a move.

"Eight!"

Three breaths had passed.

Little Ninja finally realized that he was afraid. He didn't dare.

He didn't dare at all!

Since that was the case, he might as well follow the rules of the game and find someone to respond to him in order to extend his lifespan.

"As long as I can escape from his sight, as long as I leave this place..."

"Then I can live!"

Little Ninja muttered to himself silently. He was afraid that he would waste time so he turned his head around. With a shake of his body, golden light bloomed all over his body.

Roar!

A loud and clear dragon's roar echoed in the deep sea.

Immediately after, the water ball around Little Ninja cracked open.

Horns grew out of his head, Golden Dragon Scales grew out of his skin, and his body was rapidly growing.

In just a blink of an eye, a small boy with a round head and big eyes transformed into a ferocious dragon that was a thousand feet long, with four claws on the bottom and golden horns on the top of his head.

"Gold-swallowing Dragon!"

Xu Xiaoshou looked at the mysterious scene under the deep sea and felt that the dragon's aura around him could almost blow away his condescending aura.

He was almost pushed back by this terrifying aura.

Fortunately, Xu Xiaoshou was prepared. Even though his legs and stomach were trembling from the dragon's aura, he didn't show it at all.

According to the information from Golden Foot's soul, Little Ninja's original body was a Gold-swallowing Dragon!

This was almost a natural-born sacred physique with a sovereign physique. It had the special ability to swallow metal to grow, and the toughness of the body far surpassed that of an ordinary sovereign physique.

Golden Foot also understood more than half of Little Ninja's other abilities.

However, it seemed that none of them could be used in the forbidden barrier.

Xu Xiaoshou didn't know if Little Ninja still had a trump card that no one knew about.

However, no matter what, when Little Ninja was pushed to the limit, he could disregard everything. Even if he had to burst through the water ball, he would return to his original form.

The physical strength of Gold-swallowing Dragon was enough to support it in the deep sea. It could withstand the heavy pressure and stay out for a long time before killing Xu Xiaoshou as a master.

This was also the reason why Xu Xiaoshou didn't take the initiative to kill.

He had many killing methods in the deep sea.

But in order to kill a higher void, perhaps the only way was to use the water ball to kill someone with water pressure.

Obviously, this wasn't suitable for Little Ninja.

To be exact, the reason was that Xu Xiaoshou's instantaneous explosive strength wasn't enough, so he could only use the water pressure to grind it to death!

Every higher void had a trump card.

Just like Golden Foot's Heart of marrow absorption and Little Ninja's original body Gold-swallowing Dragon.

If Xu Xiaoshou wanted to solve the problem, he had to be careful. Otherwise, he knew that he would be the problem to be solved.

### **Chapter 1147: Dragon Rider (3)**

"Remember what you said!"

Just as he was roaring, Gold-swallowing Dragon, whose body was slightly twitching due to the pressure, suddenly looked back. Its two dragon eyes, which were bigger than a human body, flickered with dim golden light. Its words sounded like it was still extremely fearful.

Water Ghost was really strong. Xu Xiaoshou could not help but sigh at himself. If it were not for the face of Water Ghost and Status Passive Skill of Swallow the Mountains and Rivers.

His stratagem of the empty city would probably be seen through by Little Ninja and he would be swallowed up on the spot.

"Seven!"

Xu Xiaoshou, who was still as calm as if he was seeing the huge dragon as an ant, continued to count.

In fact, because of the shock, his count was delayed for three breaths.

Little Ninja turned his dragon body around and saw the calm figure of Water Ghost holding Sea God's Trident. He felt even more despair.

Even Gold-swallowing Dragon couldn't withstand the pressure of the deep sea, but Water Ghost was able to be so calm. How could anyone resist him?

Little Ninja didn't even want to waste time taking another look. He didn't care that with his thousand-foot-tall body he was scared by an ant-shaped human and didn't dare to make a move.

After a roar, he turned around and ran.

Roar!

As the dragon's roar resounded, Gold-swallowing Dragon started moving fast in the water.

Even in the deep sea, where the water pressure was extremely strong, its speed was faster than the speed of a normal water ball falling.

This was almost comparable to the speed of a Dao realm expert of Sovereign Stage on land, but in Xu Xiaoshou's eyes, it was nothing.

The basic ability brought by Imitator was that after he transformed into Water Ghost, he could move more freely underwater than on land.

"Come on!"

"New achievement unlocked. Dragon Rider!"

With an inexplicable smile, Xu Xiaoshou waved the fake Sea God's Trident in his hand, and with a stomp of his feet, he easily caught up with the speed of Gold-swallowing Dragon like a sea god.

Little Ninja now knew he could not leave Water Ghost behind.

Because spiritual senses couldn't be used, Little Ninja in Gold-swallowing Dragon form would take some time to look back.

However, every time he looked back, there was a ghost-like figure following closely behind him.

Little Ninja was in despair.

He finally understood why this subordinate of Yama was codenamed Water Ghost.

This was really the underwater Yama. His temperament was like a ghost, and his words and actions revealed an inhuman pervert.

"D\*mn it!"

Little Ninja cursed inside, but he couldn't help but listen to the counting sounds behind him. It changed from 7 to 5, and very quickly to 3.

"Three breaths!"

"There's no time left!"

"I only have three breaths of time left in my life!"

Little Ninja suddenly had tears in his dragon eyes.

He felt so humiliated!

He was clearly a higher void, and he clearly had the incomparably powerful and indestructible gold attribute.

Just because of this ghost-like man, just because of Spell Forbidden Barrier under the deep sea, everything would disappear!

Other than transforming into the dragon form and escaping with a heavy burden, he could do nothing else!

He even had to curse with dragon's roars that the man behind him should not be able to understand. How pathetic it was!

"I have to find someone. I have to find someone! I haven't lived long enough. I'm still so young, I haven't killed Xu Xiaoshou."

"I don't want to die. I don't want to die!"

Little Ninja suddenly wanted to cry.

To the long lifespan of Gold-swallowing Dragon, he was still a child. he should not have to endure all this.

"One!"

While his thoughts were running wild, the number behind him actually reached one!

Little Ninja in Gold-swallowing Dragon form suddenly lost all his strength and did not resist anymore. He allowed the water pressure to push him down.

At this moment, he even felt that he did not even have time to turn back and fight.

Because when the number reached its end, the dragon was about to die.

At the critical moment, in the eyes of Gold-swallowing Dragon that was falling, a blurry water ball suddenly appeared in the distance.

Little Ninja's dragon eyes lit up as if he had seen a life-saving thing. At this moment, he completely let go of his dignity as a higher void and started to wail as if he was crying.

"Help me, help me!"

"Yama's Water Ghost is chasing me, please help me!"

### **Chapter 1148: Fake Bazhun'an Met Fake Water Ghost (1)**

In the water ball.

The scruffy-looking man, who was leaning on the big sack, looked at the scene in front of him in a daze.

A golden dragon that was more than a thousand feet long was charging in his direction at lightning speed.

However, the terrifying dragon was saying words, help me.

The man fell into deep thought.

“There’s a dragon in the team of trial officers? A dragon in the higher void state?”

“Something’s wrong. If my information is correct, there shouldn’t be a Dragon.”

“It’s being chased? Yama’s Water Ghost? What does that mean?”

“Water Ghost.”

“Why does it sound so familiar?”

After falling into the water, the man did not break out of the water ball. He wanted to see what was going on first.

Therefore, he just waited quietly.

However, it seemed that there wasn’t enough time for him. If he did not stop the dragon, even he would not be able to withstand the force of the collision.

“Stop!”

The man stood up from the water ball and carried the sack on his shoulder. He asked calmly, “Who are you?”

The eyes of Gold-swallowing Dragon burst with joy. Little Ninja did not reply to the man. He immediately turned his head and shouted, “He responded to me. He responded to me. You have to give me another ten breaths!”

The man was confused.

What was going on?

Looking in the direction of Gold-swallowing Dragon’s sight, he could vaguely see a figure hanging behind him.

However, that figure was in the deep sea after all, and the man’s spiritual senses were ineffective. The man could not see the figure clearly.

However, this did not prevent him from feeling angry.

How many years had it been?

Who would ignore his face?

This was a great disrespect!

“Stop!” The man stared at the dragon in front of him.

How could Little Ninja stop? How would he dare to stop?

He finally received a response from a water ball, but this could only give him another ten breaths of time.

If he really stopped and fought with the water ball behind him, he would be killed.

Thus, Gold-swallowing Dragon turned back without any hesitation and was about to run in another direction.

“Ignore me?”

The man narrowed his eyes.

In the next second, his body turned into the transparent state and then he walked out of the water ball.

He was standing in the deep sea. The water pressure that even Gold-swallowing Dragon’s body couldn’t resist didn’t work on him at all!

The man said coldly, “I said stop!”

In the cold current of the deep sea, the terrifying murderous intent seemed to be able to freeze a person’s soul instantly.

Little Ninja’s body trembled. He realized that he failed to see the figure clearly because his spiritual senses had failed.

It seemed that he was also a tyrannical man.

Water Ghost had stopped long ago. It seemed that he had stopped because of that person’s words. This guy was so shocked that he even forgot to count.

Little Ninja’s body slightly trembled.

“How could I be so unlucky?” At this moment, he had no choice but to waste some time. He turned his dragon head and looked at the person behind him.

Little Ninja saw that the guy carrying the sack actually had walked out of the water ball!

He had walked out of the water ball?

“How could it be?”

“Isn’t only Yama’s Water Ghost able to ignore the water pressure?”?

Little Ninja stared at the man with his eyes wide open. He even had an absurd thought. “Is he also a master of Water-type Upanishad?”

The man was naturally not a master of Water-type Upanishad.

Ignoring the water pressure was just the basic use of Swordless Sword Technique.

There were too many things in Spiritual Cultivation world that could be solved by Path of the Ancient Swordsman. This was because Path of the Ancient Swordsman encompassed thousands of Great Paths.

However, it was too difficult to master.

“Get closer.”

The underwater vision was too blurry. The man had never seen a dragon in his entire life. He waved his hand to Little Ninja.

Little Ninja did not have time to waste with this man. He even started cursing inside. However, since that fellow could walk out of the water ball, it meant that his strength was probably above Little Ninja's.

Little Ninja couldn't resist. He could only get closer. He didn't dare to waste even a breath of time.

The closer he got, the more details Little Ninja finally noticed. He had overlooked those details because he was in a hurry and he was panicking.

The man in front of him had a sack on his shoulder, stubble on his chin, eight fingers on his hands, and a sword scar on his neck.

It wasn't difficult for people to wonder about the various symbols.

“Eighth Sword Deity?” Little Ninja cried out in surprise. He simply couldn't believe what he saw.

How did this person fall into the water?

Oh, right. He was also on Lone Cliff earlier.

But that did not seem right. How could Yama's Water Ghost be stronger than Eighth Sword Deity and drag him into the deep sea?

Little Ninja had all sorts of contradictory speculations on his mind.

The man quietly looked at the dragon in front of him.

To be honest, his impression of dragons was still the figure of the Demonic Emperor Black Dragon that occupied the 108 realms of Eastern Region in Yunlun Mountain Range.

Other than that, the man only knew there were dragons in Dragon Cave, one of Seven Breaks. He didn't know anything else.

“What dragon are you? Where are you from? Why are you here? Who is the person chasing after you?” The man asked all the questions on his mind.

What kind of sin did Little Ninja commit? He actually met Water Ghost and the first-in-command saint servant in one day. After Little Ninja heard the series of questions, he closed his eyes.

However, no matter how little time he had, he knew which one of the two was more powerful.

“My name is Little Ninja, and this is my dragon body, Gold-swallowing Dragon. I came here for the secret treasures of Yunlun Mountain Range and the foundational roots of Saint Ascension. The person chasing after me is a man of Yama, codenamed Water Ghost.” Little Ninja told the man everything.

### **Chapter 1149: Fake Bazhun'an Met Fake Water Ghost (2)**

Of course, he couldn't say that he came here to kill Xu Xiaoshou.

In the five domains of the continent, everybody knew that among Saint Servants, there was a genius youth named Xu Xiaoshou.

If he said that he wanted to kill the most outstanding young generation of Saint Servants in front of the first-in-command saint servant, he would probably die here today.

“Little Ninja...” the man muttered.

At this moment, a voice came from afar.

“Little Ninja from Three Incenses, didn’t you tell me just now that you’re here to kill the saint servant, Xu Xiaoshou? So, what are you talking about? Making up a story?”

Hearing this, Little Ninja was stunned. He stayed where he was in a daze in the deep sea.

The man took a glance at the blur in the distance. He couldn’t see the result, so he could only turn his attention back. His expression was also gloomy.

“Xu Xiaoshou... you’re here to kill Xu Xiaoshou?”

This question, which obviously contained murderous intent, really scared Little Ninja. He even felt his legs go numb.

“Sir, I’m not here to kill Xu Xiaoshou. It’s this guy from Yama Organization who wants to kill me. He’s framing me!” Little Ninja suddenly realized that framing Water Ghost would bring his death faster, but at the same time, he knew that other than making up stories, there was no other way.

“Just tell me, who’s framing you?” As expected, Water Ghost’s faint voice faintly came. His figure was like a ghost as he suddenly appeared on Little Ninja’s dragon head. He directly grabbed one of Little Ninja’s dragon horns.

Little Ninja was speechless.

The man finally raised his eyes and saw the figure on Little Ninja’s dragon head.

“It’s you...”

After all, Water Ghost was the person who held the Sea God’s Trident in the Yunlun Mountain Range. He was the one who had pulled him to the deep sea, which was the reason why he recognized him at first glance.

“Yama? Water Ghost?” The man raised his eyebrows and asked.

At this moment, Xu Xiaoshou’s face was hidden under the golden mask. He looked at the familiar figure in front of the dragon and found it amusing.

He was very familiar with this person.

However, Xu Xiaoshou really didn’t expect Little Ninja to be so “lucky”. He originally wanted to use him to spread the bad name of Yama and annoy Water Ghost. At the same time, he also wanted to slander Yama.

He did not expect Little Ninja to find a great helper for him.

“Are you Bazhun’an?” Xu Xiaoshou did not reply. Instead, he asked the man with a teasing look in his eyes.

The man slightly narrowed his eyes. Normally, he would not tolerate anyone who refused to answer his question or questioned him. However, he was in the deep sea, a place he didn’t belong to. He was willing to show him some respect.

“Of course.”

The self-introduction of the real Water Ghost immediately flashed in Xu Xiaoshou’s mind. He could hardly hold back the smile on his face. He asked, “If you are Bazhun’an, why don’t you know me?”

“Why? Should I?” The man frowned, a little stunned. He suddenly found that the name “Water Ghost” was somewhat familiar. It seemed as if he had heard it somewhere before.

Xu Xiaoshou laughed out loud on the spot.

When he was ambushed by Red Dog in Tiansang City and then saved by the man, he firmly believed that this was the Eighth Sword Deity. Later, when the real Bazhun’an appeared, his appearance, behaviors, and purpose of action did not match those of the man at all. Only then did he suspect that the man was just a fanatical imitator of Bazhun’an.

However, all this while, he did not know the true identity of this man.

Now, it seemed that he could use the identity of Water Ghost to find out his identity.

“If I remember correctly, the name Bazhun’an is rarely repeated. Are you the Bazhun’an who is the first-in-command saint servant, the Eighth Sword Deity, the Master of the black and white veins?” Xu Xiaoshou asked with a smile.

Little Ninja didn’t dare to move at this moment. He vaguely felt that something subtle would happen to the two people in front of him, but he couldn’t predict the future at all.

The man knit his brow. He nodded and said, “That’s right. I am Bazhun’an! You are sent here by Yama? If I remember correctly, Yama only wants the Lei Family’s Eyes. Why would he send a troublemaker like you?”

The undertone of his words was referring to Water Ghost’s act of openly provoking the Holy Divine Palace in the Yunlun Mountain Range.

However, Xu Xiaoshou laughed even louder. He did not reply. Instead, he shook his head and said, “Well, well, well. If you are the real Bazhun’an, you can definitely recognize me. I gotta say, you are a ‘genius’! You can even forget your own people! Well, are you suffering from amnesia or something?”

The man didn’t know anything about amnesia. “But...” He pondered. “My own people?”

When the man heard this, he was stunned.

Little Ninja, the Gold-swallowing Dragon under Xu Xiaoshou’s feet, was stunned for a moment. He realized that things were going in a strange and bad direction.

Xu Xiaoshou finally stopped smiling and said seriously, "Nice to see you, Bazhun'an, the first-in-command saint servant. Let me introduce myself. My real identity is the fifth-in-command saint servant, codenamed 'Water Ghost'."

As soon as he finished his sentence, the deep sea fell into dead silence as if it was so cold that it made the two people freeze and turn into two ice sculptures, one in the shape of a human and the other in the shape of a dragon.

"The fifth-in-command saint servant? Water Ghost?"

The man was puzzled.

At this time, if he was not in the deep sea, people with sharp eyes might have seen the sweat on his forehead.

After Little Ninja came to his senses, his body trembled. He cried out, "Impossible! Didn't you say that you are Yama's Water Ghost? How did you become the Saint Servant's Water Ghost?"

"Do you think you're the only person who can do that?" Xu Xiaoshou looked down with a smile. "Keep your mouth shut!"

He spun the Sea God's Trident in his hand. The power of water was used by the imitator.

Little Ninja suddenly felt an even more terrifying water pressure pressing down on his body. His bones cracked and his dragon scales began to crack.

### **Chapter 1150: Fake Bazhun'an Met Fake Water Ghost (3)**

"Cursed, Passive Points + 1."

"Resented, Passive Points + 1."

Saint Servant Water Ghost... The uncle froze for a long time before his eyes regained their spirits.

That was right!

Saint Servant did have a water ghost!

There was such a code name on the list he gave, but this person was too mysterious.

The rest of the Saint Servant Nine Thrones had their respective actions in the five domains of the continent. However, Water Ghost had only attacked in the Yunlun Mountain Range in the past few decades!

The uncle finally remembered something.

As Water Ghost was too mysterious, and also Little Ninja had named Water Ghost "Yama", he couldn't remember it just now.

But when the other party revealed his identity, everything made sense now.

Only the Water Ghost of Saint Servant would attack the Holy Divine Palace in the Yunlun Mountain Range without restraint.

Only Water Ghost would be given such an important mission to hunt down Little Ninja, the Gold-swallowing Dragon, who wanted to kill Xu Xiaoshou in the deep sea, right?

"I..."

The uncle was speechless for a moment.

No doubt he could confirm the identity of the other party quickly...

It was the most embarrassing thing...

As the first-in-command saint servant Bazhun'an, he couldn't recognize his Saint Servant Water Ghost. Wasn't it abnormal in the eyes of others?

"Ahem... So it's you... I haven't seen you for a long time and I didn't recognize you..." The uncle's eyes wandered and he glanced elsewhere. "How... how have you been?"

"Pfft!"

Xu Xiaoshou burst out laughing in his heart.

"Pretending!"

"You're still pretending!"

"With your reaction, if you have really met the real Water Ghost, I'm afraid you have already started fighting!" thought Xu Xiaoshou.

However, the opponent was a fake Bazhun'an. When had Xu Xiaoshou ever been the real Water Ghost?

The corners of his lips twitched. He tried his best to hide his smile and said, "It's been a long time since we last met? Didn't we just meet seven days ago? You were the one who asked me to execute the plan to flood Yunlun!"

"Uh..."

The uncle choked.

"What should I do now? I don't know you. When have I ever given you a plan?"

He tried to avoid looking at him even more. He did not expect that if the other party was really Water Ghost, he would not have such a flirtatious reaction at this moment. He could only agree and said, "Indeed, indeed..."

"Not seeing you a day is like three years apart. These seven days without seeing you are like more than twenty years. Brother Water Ghost... you have been in a good state recently, hehe..."

Brother Water Ghost?

And a day was equivalent to three years? Moreover, twenty or so years passed in the blink of an eye?

This uncle almost made Xu Xiaoshou die laughing. He did not expect the uncle to have such a reaction when his identity was exposed by his own people.

This was too embarrassing!

He stopped teasing him. Xu Xiaoshou's expression changed and he said with a sneer, "Tell me the truth. I have long seen through that you are not Saint Servant. On account that you still have some respect for the Chief, tell me your name... If not, this deep sea will be your burial place!"

The uncle's subconscious reaction was that it was still unknown who would be buried.

But on second thought, this was his friend...

D\*mn it! How did things turn out this way? It was not just a misunderstanding and they couldn't acknowledge each other!

If they really fought, neither side would get injured!

The corners of the uncle's mouth twitched. He wanted to say something but stopped. He glanced at Gold-swallowing Dragon.

"I'm begging you guys. Don't talk anymore..." Little Ninja had been trembling in the deep sea since the beginning. At this moment, he even wished that he was deaf.

However, after hearing so many secrets, would he still have a chance to fly out of the sea alive?

At this moment, he saw the fake Bazhun'an, who had a terrifying cultivation level, look at him coldly as if he was looking at a dead dragon.

Then, he stopped to disguise himself and turned into a graceful gentleman. He slightly bowed to show his respect toward the top of his dragon head.

"Junior, Xiao Kongtong, the hidden tenth-in-command saint servant, greets Senior Water Ghost!"
