

chapter 3

So we get on the quinjet and make our way to Sokovia. The ride is pretty shit. The team tries to talk to me to get to know me but I stay quiet. Better than kicking off again like I did to the red head earlier. Once we get off the jet all we see is destruction. There's fire and people screaming. But one thing caught my eye. Some red mist. I decided to follow it and it led me to a little building with the other red head. Apparently she's some kind of magician. Anyway I make my way inside and rest my shoulder on the door.

"Hiding are we?"

She jumps from my intrusion and when she turns around she has a cut on her head and she's bleeding quite a bit.

"I'm sorry I didn't mean for this to happen. Ultron he killed my brother in front of me because I told him I didn't want to hurt people. He's a mad man." She says in some kind of accent. She definitely didn't have that last night.

"Your Sokovia?"

"I know you omg last night i um" "yeh about that was that some kind of set up because I really don't like being used"

"No I had no idea who you were I swear"

"Yeh yeh whatever look darling it's your fault the whole of Sokovia is about to be a floating rock so either get up off your ass and help with your magic finger thing or I'm going to kill you" ³

"You'd kill me? Just like that. Maybe you're worse than Ultron"

"Oh darling I am. But I don't care about taking over the world. I care about my job being an assassin. Now move"

"Okay okay Jesus you were a lot nicer last night" she says then smirks before blasting the door open. Damn that was hot.

"That's because I didn't want to kill you last night. You hate my dad right" I say fighting off these damn robots. I turn to face Wanda and smirk.

"Tony Stark is your dad?" She says her eyes turning red.

"Yup." I say ripping a robot in half.

"Y/n" I hear Tony shout. Oh this will be fun.

"Wanda maximo right? I know you hate me and I know you've been through a lot but I promise you I had no part of what happened to your parents"

"It was your bomb" she says blasting him into a wall. I grab onto her and pin her hands behind her back.

"Okay that's enough of that. Say goodnight princess" I say before wrapping my arm around her neck until she passed out.

"Tony let's get out of here now. I'll carry the girl"

He nods and makes his way to the jet. I drop off the girl and make my way back to make sure Ultron is dead. He wasn't.

There was one left.

"I just wanted peace." He states.

"No you wanted destruction. This is for hurting the girl you son of a bitch you took everything from her" I say before ripping his head off.

Then I hear a slight murmur I look around to find a guy who had been shot multiple times. He was barely alive but I assume it's the girl's brother. I walk over to him and I know it's late but maybe I can bring him to the jet for the girl to say goodbye at least. I pick him up and carry him to the jet where I see the girl begin to break down. ³

"It's time to say goodbye little witch"

"Pietro no I can't I can't lose you. Just hold on a little longer"

"It's okay sis. It doesn't hurt anymore. I'm glad I got to see you one last time"

"No Pietro no" she screams and bursts into tears.

I felt a twist in my heart but I pushed it down I won't care about this girl. I can't.

I turn around and walk towards the rest of the group giving her some privacy.

"So what we going to do with the girl?" I ask.

"Shell stay with us" Tony states.

Fan fucking tastic ³
