

# I FIND YOU MASTER CHAPTER 271–290

## Chapter 271

“f\*ck you, you don’t get along with me, I’ll get along with you!”

Finn copied up the unfinished cool skin on the table and smashed it directly out, banging the little youth’s head, a hole in his forehead, and blood moistening out.

Seven days of training, Finn’s body has more than doubled compared to seven days ago, not to mention that now Finn is very capable of fighting, in exchange for seven days ago, to this kind of wine hollowed out of the body of a small youth, Finn is also a fist is not a problem.

Just now He Mengmeng to protect him, he is completely in his eyes, even if the little youth did not insult him, simply insulting He Mengmeng, Finn will neither spare these two little youths lightly.

Full of obscenities, he really thought of himself as an onion!

The little youth held his head and screamed, not expecting that it was Finn who struck first, and reacted by taking a chair and running to Finn, but he saw that Finn had already rushed out of the shop.

The little youth burst out laughing: “Beat me up and still want to run, you’re dead!”

The reason why Finn ran out wasn’t because he was scared, but because this was He Mengmeng’s shop. In other people’s homes, smashed to pay for it is, but the bits and pieces here are He Mengmeng’s hard work to get out, even if the big spend to decorate better, but also less of He Mengmeng’s flavor.

The hard work that He Mengmeng put in was far more valuable than this stinking money.

“Little Fan, you should run!”

He Mengmeng chased after him and poured this time still discouraged Finn to leave.

Finn was touched, but at the same time, he saw a customer who just ate the cold skin without paying and left.

Only He Mengmeng was worried but completely unable to care.

“Damn, there’s still a rogue!”

Finn is also not stupid, look at this, this boss is always rogue run single eat tyrannical meals, this escape path is so familiar, are He Mengmeng location dead end.

Finn secretly remembered in his heart, but even more guessed that there were also troublemakers in the past.

I really don't know how He Mengmeng were solved in the past, but it was too late for Finn to think about it, two youngsters had already rushed out of the shop, copied the chair and smashed into Finn .

Finn was not willing to show weakness, the seven days of training did have an effect, just the movements of the two little youths had a lot of flaws, if they were grappling, one was accurate, these were the grappling techniques given to him by Luo Lan. But Finn still had to go after the boss now, so he took the simplest and most brutal method.

Because he knew that the entrance examination of Wood Spirit Villa was mainly weight bearing, so Finn didn't miss weight bearing training. Two youngsters held chairs, while Finn swung a motorcycle at the entrance and directly smashed one youth unconscious on the spot.

The other little youth did not expect Finn 's explosive power to be so strong, turned to run, but which can have after exercise Finn is powerful, only to see Finn three steps and two steps, the blink of an eye to catch the back of the neck of the little youth, the backhand is to lock the neck of the little youth, an over-the-shoulder fall down, on the heavy smashed the little youth on the floor.

Although the floor is not broken, but the little youth's mouth is a mouthful of blood, eyes rolled white, it is also on the spot fainting.

He Mengmuang's father, who had been a member of the family for more than 20 years, said: "I'm not sure if this is the case.

But preventing the two little youths from waking up, Finn picked up a stone from the ground and directly smashed it on the knees of the two little youths, along with two clicks, the kneecaps of the little youths were cracked by Finn .

"You won't be able to escape this time!"

Finn snorted coldly, but Finn was not halfhearted about this kind of nuisance spirit boy.

If it wasn't for Finn 's good skills, I'm afraid that the current outcome would be him learning how to bark and crawling the crotch of the little youths, and He Mengmeng would be taken to play with them. Thinking of that kind of consequence, Finn was angry again and kicked at the jaws of the two little youths, one of them coming up with a kick that was full of blood.

Finn from the action to the end is only half a minute, just from the shop door to sneak out of the old man scared stunned in place shivering, mouth open so much that you can stuff two eggs, jaw not dislocated are powerful.

Finn You You have the past, one hand in the pants pocket, one hand to the boss waved: "Hurry up."

"Yo, I just remembered, I haven't paid yet, you see uncle I'm old and my memory is not very good, come come come, a bowl of cold skin and a bottle of iced tea, thirteen yuan, a minute not less." The old man scratched his head and quickly handed the money to Finn respectfully.

And then there was a floundering, bragging, "It's really a hero, your two moves are really great, I can't see such a strong explosive power in your little body, tell the master, how did you train this?"

"That's easy, give me the money from the previous run-ups as well." Finn waved his hand again, with an expression like he had already seen through it.

The boss's face was red: "That, young man is really great, this can be seen, the specific master also do not remember, but a hundred yuan tube enough, you take it, now can teach me."

The boss from his pocket are all feel out a wrinkled hundred yuan bill handed to Finn , full of heartache.

"That's all? You're not sincere in your learning, uncle, but I spent three hundred thousand to learn it." Finn didn't tell a lie, the black card that he went to Arashi for was indeed three hundred thousand.

The boss's face paled: "Young man you don't want to teach even if you don't want to pit me ah."

"It's really so much, but there are also free tutorials, so you can go back and figure it out yourself." Finn 's eyes averted.

"What tutorial? Tell me quickly?" When he heard that he didn't want any money, the eldest man suddenly showed joy.

Finn hehely smiled, "I once saw a trick in the anime, as long as you stick to 100 push-ups, 100 sit-ups, 100 squats, and 10 kilometers of running for a day, when you become bald, you'll become strong!"

"Medium!" The boss was happy and then left quickly, looking like he was going to study.

After doing all this, only then did Finn return to He Mengmeng, looking at the stunned He Mengmeng, Finn stretched out his hand in front of He Mengmeng's eyes and said, "Sister Mengmeng, it's finished."

"Ah!" He Mengmeng came back to her senses and squealed, looking at Finn with eyes full of surprise, "What have you been through all these years, when did you become so strong?"

In the past, Finn also did it, but every time, he was always injured, and Finn who was afraid of being seen by his grandmother, always hid in He Mengmeng's house for several days, waiting for his injuries to heal before coming home.

But now, not only was Finn not injured after doing everything, he didn't even breathe a word of air, this was too big a change.

"Exercised a few days ago." Finn smiled hehely, he didn't believe himself when he said this, but it was true, it was the result of a few days of training.

But this was still due to the fact that these two youngsters themselves were meat worms that were hollowed out by alcohol, otherwise a normal person would have done the usual work.

Finn handed the boss's money to He Mengmeng and changed the subject, "Mengmeng sister, next time you should pay attention, don't get run down again oh!"

272

He Mengmeng lost her mind for a moment before she took the money from Finn's hand and said with some curiosity, "Brother, how did you become so powerful? But even if it's powerful, it's no good, they have big brothers behind them, it's not a force we can mess with."

"It's fine, no fear, I'm not afraid of a dozen or five, I have a group of little brothers too." Finn didn't hide anything, he had always told the truth about He Mengmeng.

And even if he didn't tell the truth, he had to tell He Mengmeng the truth about this matter. He could know He Mengmeng's character, although he didn't say anything on the surface, his mind was very sensitive – sensitive, if he didn't tell the truth, He Mengmeng's heart would definitely be a thousand worries.

And now that Finn's strength was in front of him, it was the best proof.

As it was, after Finn finished speaking, He Mengmeng's face was obviously much better.

"You can go in first, leave this place to me." Finn patted He Mengmeng's shoulder and then pushed He Mengmeng into the shop, after all, the current situation of the two mental youngsters was just too miserable.

However, Finn's subconscious action caused He Mengmeng's body to stiffen.

Indeed, He Mengmeng has no defense against Finn , but He Mengmeng has not been touched by a man for years, and even said that since childhood, no man has touched He Mengmeng except her father.

Finn 's push was physical contact, and He Mengmeng's face was red, so he was pushed in like this.

The first thing you need to do is to take a look at the newest version of the newest one. The first website m.

He hurriedly closed the gl A\*\* door of the shop before Evan breathed a sigh of relief.

"What have I gotten myself into."

Finn looked at his hands and was also a little puzzled.

In the past, but he used to blush for a long time when he touched a woman and was very nervous, but now he was so natural.

Could it be that he had experienced too much during this time and had formed an instinct?

Finn didn't know when, but had changed from a dog licker to a great gentleman who now had countless imperial ladies.

Shaking off the thoughts in his head, Finn walked in front of the two spirit lads.

Out leg is two feet, each stepped on the stomach of the two spirit lad, the pain eating spirit lad suddenly woke up from fainting, followed by screams.

The kneecaps were cracked, and no one else could endure the pain.

"Don't show up around here in the future, if you're found har A\*\*ing Moe Moe again, you can guess the consequences, get out!" Finn faintly opened his mouth, and the mighty pressure that had been stored up for months on his body completely exploded.

Although it wasn't a substantial pressure like that of a martial artist, it was a pressure that only a superior person had, and it actually made the air lower by several degrees as well.

The two spirit boys were so frightened that they even forgot to scream for a moment.

Hearing that Finn let them go, they didn't even utter a word of hi and hurriedly crawled towards the far side of the street with their hands.

Not to mention, people did indeed explode with potential that normal people wouldn't reach when they were in a dangerous situation.

Even if they crawled with both hands, they were faster than the average person running, and in just half a minute, the two mental boys completely disappeared from Finn's sight.

Seeing the blood trailing out from the ground, Finn shook his head, "Bad luck."

When he returned to the shop Finn went straight to the back kitchen, took a bucket and filled it with water, then went out to flush the blood.

Now the entrance of the hotel were all well covered sewers, with a flush of water, the mixture of blood and water flowed directly down the sewer, and the entrance of the shop returned to normal, leaving no trace of half of it.

After doing everything, Finn wiped a head of some sweat, as for the other shops have just distant onlookers or video, Finn but completely do not care.

Finn knew that the people sent by Charles would handle these things.

Now that Finn had made a lot of progress, so he also saw a few shadows scurrying around, apparently the people sent by Charles to destroy the evidence, after all, Finn's identity still hadn't reached the point where he could be exposed online.

And without these video evidence, Finn is not worried about the presence of the police, after all, there is no evidence, even if the police have witnesses without evidence, it will not be sentenced.

And Finn just so brave, and who would be looking for trouble to call the police.

With the empty bucket, Finn went back to the shop and continued to eat the remaining half bowl of uneaten cold skin, as if nothing had happened.

"Why don't I make you another one." He Mengmeng looked at Finn, who was acting like a normal person, and felt more and more unreadable.

Was this still her childish brother? It's a completely different person!

"It's fine, this is enough to eat." Finn said, and buried his head to deal with the half bowl of cold skin.

Seeing the familiar gobbling, He Mengmeng fell into memories, once Finn was like this, every time he ate as if he was afraid of being robbed, he ate with great effort and a particularly ugly appearance. Seeing this, He Mengmeng couldn't help but feel relieved, it seemed that her brother was still her brother, some things didn't change.

And those that didn't change were enough to ensure the beginning.

He Mengmeng's greatest fear was that Finn would turn out to be a complete stranger to her, then she wouldn't know how to talk to Finn, and for now, He Mengmeng wasn't worried.

Not being rusty was actually the best outcome.

Meng Meng He couldn't help but think about how she had just been touched by Finn and seemed to have touched her shoulder straps, and couldn't help but blush again.

"Meng Meng sister, why are you blushing, are you too hot?" Finn raised his head and saw the redness on He Mengmeng's face and was a little puzzled.

He Mengmeng gave Finn a blank look, not knowing what to say, can't say because the body lifted it.

Fortunately, the shop door was open again, so He Mengmeng took the opportunity to get up and said, "No more talking to you, we have a customer."

Saying that, He Mengmeng walked towards the door, but before taking two steps, He Mengmeng's body was fixed.

Finn clearly saw the trembling of He Mengmeng's body, and couldn't help but also frown and get up, but at this moment, Finn's phone rang.

Finn originally wanted to just hang up, but seeing that it was an incoming call from Muzhu, he thought about it and answered it.

"Ye Shao, your side..."

Before Mu Zhu could even finish his sentence, Finn interrupted, "Mu Zhu, come to the city center, I'll send you a location, there's something over here that needs your help."

"Ah? Okay, okay, then it's okay to meet and talk." After Muzhu promised, Finn hung up the phone.

Putting away the phone, only then did Finn feel completely at ease.

This wasn't Finn's territory after all, and it was quite troublesome to deal with anything, but Finn had to manage He Mengmeng's matter. Before He Mengmeng also said that there was someone behind the spirit boy.

Finn outsiders wanting to root out the problem is still quite troublesome, but calling in Wood Bamboo is different, Wood Bamboo is a local, but also the young master of Wood Spirit Villa, everything is left to Wood Bamboo to handle, it's much simpler.

Finn got up and came to He Mengmeng's side and patted He Mengmeng's shoulder, signaling He Mengmeng to relax.

Although Finn didn't know what had happened to make He Mengmeng so afraid, this pat at least relieved He Mengmeng's tension.

In fact, it wasn't the regular relaxation of He Mengmeng's nervousness, but when Finn patted it down, He Mengmeng was directly aromatic, blushing with shame, and couldn't care less about her nervousness.

But no matter what, He Mengmeng was not nervous.

Only then did Finn look at the door, it was two youths in uniform, and on the left cuff, they still carried a red thing with three big words written on it, Health Bureau.

Finn suddenly suddenly, no wonder He Mengmeng is nervous, it is the Health Bureau also check, but He Mengmeng is not so nervous.

Finn but know that He Mengmeng's shops are very formal, especially with Finn's understanding of He Mengmeng, He Mengmeng idle like to wipe things, everything is very clean, it is impossible that the health failed.

"It's just to inspect it, it's fine." Finn whispered in He Mengmeng's ear.

He Mengmeng cringed, and Finn's breath entered her ear, tickling her.

"It's not like that, they're in cahoots with those two just now, ugh..." He Mengmeng explained. Remember the URL . . . net

Finn didn't frown, not expecting the Health Bureau to still be in cahoots with the hooligans, it was really excessive.

And just rushing to come here at this time, don't even think about it, it must be to take revenge ah.

Finn was lucky that he had just gotten Muzhu to come over, otherwise he wouldn't know how to deal with it, the opposite side was here to take revenge, it would definitely be soft and hard, it would be bad if he made a move to poison the opposite side.

For the hotel, the most terrifying force was the Health Bureau. After all, a word from the Health Bureau could close the hotel, which was a reasonable thing to say.

All the Health Bureau had to do was arrange a trumped-up charge that the hotel was not up to standard in terms of hygiene, and then the hotel would be completely finished.

"Don't worry, I've called the people, you rest first, I'll maneuver around with them." Finn comforted He Mengmeng and sat down and walked up to the two uniformed youths.

"What for?" The uniformed youth shrank back, he could know that Finn had just fought a big fight, it was really unforgiving, they all came down to death, and he was also worried about Finn's sudden attack.

They were here to help the spirit boy take revenge yes, but if it put them in danger, even threatening their lives, they would also scatter their legs and run regardless of anything.

Although Finn didn't know what was in the mind of the uniformed youth, if he did, it would definitely be easier to deal with and just scare them away.

But even if he didn't know, Finn could see the uniformed youth's internal stubble, so he stepped forward and said, "Here for dinner?"

He was knowingly asking if the other man would eat and not wear a uniform, but it was all he could do, so it was more useful to stall for time. Stalling for a minute would buy one more minute anyway.

"Right, for dinner." The two uniformed youths still wimped out, and after finding a table to sit down, they shouted, "Two bowls of cold skin."

"Okay!" When He Mengmeng heard that it wasn't an inspection, she was delighted, and hurriedly went to prepare it.

Because it is cooking for the health bureau, she is also more careful, although usually more careful, but this time is more careful, the bowl are washed three or four times before they are assured to load the cool skin.

Only after making sure that it was correct did He Mengmeng bring out the coolie: "Two coolies."

"No problem, right?" Finn inquired.

He Mengmeng nodded, "No problem, don't you worry about what I've made."

Finn nodded, indeed, there was no need to worry about the hygiene of the things that He Mengmeng made.

Once when He Mengmeng opened a shop in his hometown, the leftover side dishes Finn also suggested leaving them until the next day, but He Mengmeng all said that they were not fresh after a day, so they were just thrown away.

In front of their own families are so sanitary, the throw, not to mention the guests it.

However, what Finn did not expect is that a mouthful of uniformed youth did not eat directly vomited, frowning low drink: "Is this for human food, this is how long it has been put, are sour!"

Finn is somewhat speechless, this uniformed youth is really in charge, even from here to find things.

Go up to Finn explained: "You just want the cool skin is not said to add vinegar it, acid is not normal?"

"Huh?" The uniformed youth snorted, after observing for such a short time and seeing that Finn was no big deal, he felt that the spirit boy was exaggerating, and was not afraid of Finn anymore.

He also began to show his original face, yelling, "No, I say no means no, the hygiene here is not up to standard, the food is not fresh. The tables are also not clean, and inside the trash cans, you have to make sure that the trash is not more than half, or else there are a lot of bacteria accumulated, purpose, this place is very substandard!"

"Are you here for dinner or to check on things so much?" Finn ton frowned.

To get rich by the year is nothing to look for, but also looking for the problem of the trash can, that trash inside the trash can more also did not come out, are guests wipe mouth with paper thrown in the trash can, did not have time to clean up in time are common.

He Mengmeng would have been a person to take care of a store, just after lunch, the trash cans full still can't? That means there's a lot of traffic and they make good cold skin.

The uniformed youths who were so capable of finding fault were obviously just looking for nothing.

Finn couldn't help but have anger building up in his heart, and the more he looked at the two uniformed youths, the more he disliked them.

"With this attitude and still open for business? I think it's better to close the door quickly, just in time to stamp you with a sanitary failure." The uniformed youth sneered.

"Bad attitude? You *fcking deliberately came here looking for trouble, and you want me to put a hot face on my cold A\**?" Finn also sneered more than a little, "If you are able to do so, give me the investigation here, I'll see what you can find out, all of you gather your evidence, and then I'll send my lawyer's letter to your health bureau, I'll see if your evidence is sufficient or not!"

Finn wasn't easy to mess with, even if Muzhu couldn't solve it, Finn had figured out that he had ten thousand ways to solve this matter.

The easiest way was to go to Charles for help, not to mention the two junior employees of the Health Bureau, even if the director of the Health Bureau of Muzhu came, Finn felt that Charles had a solution.

After all, Ye Island was already an independent autonomous region, and to have the country give such a big face, it would be a testament to Ye Island's energy, and the small fish and shrimps in the district of Mundu was just a younger brother to Ye Island.

And Finn is not bullying the small with the big, and can not trouble the family.

Finn said the lawyer letter is to spend a lot of money to hire the best lawyer, not to make trouble, Finn will make trouble in the end, a lawyer can not, find a professional legal team.

274

As long as the money is spent in place, Finn doesn't believe that there is a lawsuit that can't be won.

After all, this matter is Finn reasonable, and the shop is the health standard, although not as star restaurants, but for this kind of stores small shops, can do He Meng Meng so clean, are few.

So Finn is not afraid of a lawsuit, as long as the uniformed youth dare to issue substandard results, Finn will dare to sue to low.

It is not just a trouble, Finn really did not fear, and now he also has a justified, even more not to encourage these two fake uniforms youths.

Finn's voice, the two uniformed youths face is also worse, they also know that Finn accounted for, but now can't get down, uniformed youths are also hard-headed: "Good, then I'll give you a check!"

Saying that, the two uniformed youths began to check.

Finn turned his head to look at He Mengmeng and said, "Sister Mengmeng, you're okay here, right?"

The first thing you need to know is how to get the best out of your shoes," he said.

He Mengmeng nodded and said, "As long as we go through the regular channels, our shop is absolutely qualified and meets all the standards according to the regulations. It is not as good as a star hotel, but for a small shop like ours, the requirements are not too high, so it is absolutely up to standard."

"That's good." A second to remember to read the book

With He Mengmeng's words, Finn was even more at ease, and immediately after, he took out his phone and started recording.

Although there is no fear of two uniformed youths engaging in some fancy little moves, but Finn so video recording also has evidence in hand.

In the past, Finn liked to videotape as evidence, and after a long time, it became a habit.

"Crackle!"

When Finn took the phone, but the two uniformed youths came to the back kitchen first, there was the sound of broken bottles and cans.

Finn secretly said that it was not good, and ran directly to the back kitchen, and saw all the bottles and cans on the table fell on the floor, soy sauce and so on spilled all over the floor, it looked like a mess.

"This is it? Hygienic standards, spice items all over the floor, buried in this state, not up to standard!" The uniformed youths had a sneer on their lips.

Finn hadn't looked like this just now when he came to the back kitchen, so he didn't have to think much, but he knew that the two uniformed youths had slammed something down on the floor and deliberately created it as a proof.

"f\*ck you old mother!" Finn ton cursed furiously, couldn't care about the video, and went forward and kicked over the uniformed youth.

Nima, these two than is really too much, actually do something so desperate.

Just now, Finn went out to fight in order not to damage the inside of the shop, but these two uniformed youths even directly broke things, and it could be seen that every spice product was a different style of bottle, thinking that they were all carefully selected by He Mengmeng, so they were wasted for nothing.

These two than are really not human!

"Ah!" The uniformed youth screamed and became angry as he got up from the ground, "You still dare to openly obstruct our inspection of hygiene, you have failed, your shop has failed, wait for it to close!"

With their goal accomplished, the two uniformed youths were ready to run away, now that they were aware of Finn's force, they didn't dare to resist and snatched the door and ran out.

"Damn it, don't run!"

Finn cursed under his breath and chased after him.

But before he could go out, he heard screams coming from the two uniformed youths.

When Finn went out, he saw that Muzhu was holding the two of them by the neck with one hand, like grabbing a chicklet.

“Ye Shao, what’s going on?” Kizhu heard the sounds of chaos inside, and then just caught the two uniformed youths running out.

“You’re just in time, or else these two than really got away!”

Finn briefly said the cause and effect, Wood Bamboo’s clear and beautiful face also appeared incredulous expression, after entering the shop to see a messy kitchen, also forehead burst veins: “I Cao, these two than really not human ah!”

Seeing the expression on Wood Bamboo’s face, Finn knew that Wood Bamboo was in and out of high class places, and had never seen these dark sides, after all, Wood Bamboo was the young master of Wood Spirit Villa, growing up in a greenhouse, how could he have the opportunity to see these darkness.

This was good, Finn didn’t even have a chance to make a move before Muzhu beat him up, directly knocking out the two uniformed youths.

“Damn it, these two carriers!” Muzhu gasped.

Finn were somewhat speechless, I really didn’t think that there were people in society today who were so jealous of Wood Bamboo.

It really was growing up in a hothouse and had never seen darkness. Other people were also so meddling in other people’s affairs, so that Finn didn’t even get a hit.

Only Finn is still up front, this is the turn of Muzhu some puzzlement: “Ye Shao, what else do you go over, they are fainted, wake up also a few hours it.”

Muzhu just hit no light hand, the two uniformed youths were bruised and swollen.

But what kind of person was Finn, he could see right away that the two uniformed youths were okay.

“You didn’t even bleed and this is called beating? You quickly put away your spot-on gentlemanly behavior.” Evan shook his head and walked over and kicked the uniformed youth directly in the crotch of his pants.

“Ah!”

With a scream, the uniformed youth woke up in pain and curled into a shrimp over his crotch.

“Look, it’s still a fight!”

Finn smiled proudly, but his fist was even harder, but not in a fatal way, but in a soft position.

These locations are not bad, but they can hit the most painful, and Finn’s hand doesn’t hurt.

These places were all honed by Finn’s fights over the past few months, and now he was the one who knew that it wasn’t necessary to hit to kill, the most important thing was to torment the opponent.

If the other side made him angry, he would have to fight back a hundred times more.

Hearing the screams of the uniformed youth, the corner of Muzhu’s mouth twitched, and finally he stuck out his thumb, “Ye Shao, worthy of being you, really high!”

Just listening to the sound, Muzhu felt creepy, but Finn still landed punch after punch, as if it was a perpetual motion machine that never tired.

But Muzhu didn’t stop them, because these two uniformed youths were too desperate to do anything.

When Muzhu turned his head, he saw He Mengmeng frothing at those bottles on the ground, and that pitiful appearance made Muzhu all the more heartbroken, and relatively more angry at the uniformed youths.

Such a pitiful woman, it was already not easy to run a business on her own, not to help even if she came, but also to find trouble, this is what people do?

The more Mu Zhu thought about it, the angrier he became, but he also couldn’t help but rush up again, and kicked out at another fainting person, learning Finn’s posture, and as expected, he directly kicked the other uniformed youth awake.

Before the uniformed youth woke up, Muzhu’s fist came down, this time not using the strength of a martial artist, but learning how to punch like Finn, fist to flesh, hitting the uniformed youth screaming, but not to the intensity of unconsciousness.

At one point, the scene became harmonious, resounding with a screaming duet!

275

Finn’s fist was full of power, while Kizhu’s fist was both full of power and speed.

So the result was that Kizhu, who was obviously the one who did it later, was the first to knock out the uniformed youth, or to be precise, to be painfully unconscious.

"You handle the rest." Finn faintly spoke up, he was tired of fighting.

Although not relieved, but there was no other way, now his most important thing was not to take revenge on the uniformed youth, but to comfort He Mengmeng, after all, it was He Mengmeng's shop that was damaged. If the saddest, it was definitely He Mengmeng.

Arriving at the kitchen and seeing the pitifully weak and helpless He Mengmeng squatting on the floor, Finn squatted down and said, "I'm sorry."

"Huh?" He Mengmeng was awakened by Finn, he even waved his hand, "It's not your problem either, you don't need to apologize, instead I want to thank you for helping me teach them a lesson, it's a pity I can't open my shop, but it's fine, I just want to rest, I'll sell my shop and go out and walk around."

He Mengmeng said this on her lips, but Finn clearly heard the bitterness in He Mengmeng's words.

If she really didn't like the shop, why would He Mengmeng hold on to it for so long, and why would she secretly hurt herself over a few bottles?

He Mengmeng was like this from the past, loving to be strong, burying everything in her heart and taking on everything herself.

Finn has seen it many times before, but at that time, Finn was weak and had no backing, so if he helped, it would just be adding to the mess, but now it's different, Finn is capable of solving problems, so he naturally wants to be a shoulder for He Mengmeng to snuggle on.

"Just leave this matter to me, don't worry, your shop will be absolutely fine." Finn said just with a big wave of his hand, and Muzhu came over.

"Finn, what is it?" Muzhu inquired.

Finn's eyes averted, "The Health Department over there to make connections, no more harassment, there is another group of thugs, you go to find out the nest and swallow it all together."

Finn's request wasn't excessive, ordinary people Finn couldn't manage, or else the store would be out of business then.

And a lot of people who came to eat the cold skin, in fact, they were all colorful and gutsy, if there were no thugs and the Health Bureau to make trouble, the rest of He Mengmeng himself would be able to deal with it, after all, the rest of these were not a big deal.

"Will it be too much trouble?" He Mengmeng worried.

Muzhu waved her hand, "It's not troublesome, sister-in-law just feel at ease to set up shop here."

"Sister-in-law?" He Mengmeng blushed greatly and directly covered his face.

Finn didn't expect Wood Bamboo to say that, and he didn't know if Wood Bamboo was superior or too gossipy, but anyway, Finn's heart was beautiful.

But obviously Finn still didn't show it, but he didn't explain much.

He Mengmeng didn't explain anyway, so why did he need to explain more.

Finn didn't explain because he didn't want He Mengmeng to be embarrassed, otherwise it wouldn't be good to hurt the brother-sister relationship. That's right, Finn wasn't because he was fancying He Mengmeng, that's all.

Finn muttered in his heart and tried to comfort himself.

It was thanks to the fact that his face was big now, otherwise he would have blushed long ago.

Muzhu saw the atmosphere appear ambiguous, not much to say, took out the phone to make a call, and in a short time came three people, or three people who looked the same.

Finn was somewhat blinded: "How did you call them here, Mu Zhu?"

These three people that Finn had an impression of were the triplets that were with Muzhu when he first met her.

Originally, I thought that they were just people that Mu Zhu was casually playing with, but now that they appeared here, it was obvious that they were not just people playing with, but some strength.

Muzhu explained, "These three are the three thousand daughters of the Lord of Mudou, with them sitting here, the other overnighters won't dare to come over and act rashly, so you can say, meet one and fight a nest."

Finn was suddenly surprised and somewhat surprised.

He could know that the biggest in Wood Capital was the Capital Lord, he had never thought before that Wood Bamboo would take the Capital Lord's thousand gold out for a blind stroll, and there were still three of them along with him.

Looking at it this way, Wood Spirit Villa's position in Mudou was even more powerful than he had imagined ah. Otherwise, if it were anyone else, would Lord Mudou still be able to sit idly by? You'd rather have three daughters with one man?

The Three Thousand Jins were Wood Lotus, Wood Tsubaki, and Wood Orchid.

Hearing the Three Thousand Jin's self-introduction, Finn was even more surprised, "Wood Bamboo, their last names are all Wood?"

Finn knew that there was no one surnamed Wood in Mudou, only the people in Mulin Villa were surnamed Wood, and how could the Mudou Lord also be surnamed Wood?

Muzhu explained, "Mudou was originally under the jurisdiction of our Wood Spirit Villa, but now that our family is all reclusive, only the branch family manages Mudou, and each generation of Mudou Lord is not set by the state, but by our Wood Spirit Villa, which is a privilege promised to us by the state, but it must still be small compared to Ye Island. And every generation of Wood Capital Lord is inherited by the Wood Family's split family lord, and the current Wood Capital Lord Mu Zijun is the contemporary Wood Family's split family lord."

"So that's how it is." Finn was suddenly surprised after hearing that, according to what Wood Bamboo said, the Wood Capital Lord was a split family, so that's why Wood Bamboo was able to take Wood Zijun's three daughters out, but then, weren't Wood Bamboo and Wood Family's Three Thousand Jins cousins.

"Grasping gr A\*\*, you guys are brother and sister ah, why are you still going to the hotel?" Finn couldn't help but cry out in shock.

Muzhu waved his hand and said, "This is the tradition of the Wood Family, our family will need to marry the person who splits the family, the first child born will be the heir of our family, and the second child will be the heir of the next head of the family. But we usually pick the ones who are not related by blood, i.e. more than four generations. Unlike the inheritance system of our family, the separation of families is based on ability to inherit the head of the family, in other words, my children may not become the head of the family in the future. For example, my own brother, Mu Hua, is also in a split family now, but there's still no absolute certainty if he can run to become a split family head."

What Mu Zhu said was very specific, and Finn heard it in the clouds, but in a nutshell, Finn still said, "Then you can't marry three at once, right?"

Finn wasn't in a position to say anything about anyone else, after all, he also had a whole bunch of women around him, but all the women didn't come from one family ah.

The practice of having three sisters serve one husband together, Finn could not do it yet.

Without waiting for Muzhu to speak, the three sisters of the Muzhu family said in unison, "We are proud to be Muzhu's wife."

"Er..."

Finn was a bit speechless, but he didn't interject.

Families had a hard way of saying things, and the Wood Bamboo family looked so understanding, but it might be hard to read as well.

Since the parties involved were indifferent, why should Finn have the nosiness of being nosy?

Moreover, the three sisters of the Wood family didn't come here to shock Finn, but to help Finn solve He Mengmeng's problem.

And so, after returning to the main topic, Wood Bamboo arranged for the three sisters of the Wood Family to sit here while Wood Bamboo was to take Finn away.

## Chapter 276

With the three sisters of the Wood Family sitting in town, Finn was also completely relieved, after all, Mudou is clearly the most awesome Mudou Lord, what's not to be worried about.

After explaining the identity of the three sisters of the Wood Family to He Mengmeng, He Mengmeng was also completely relieved.

Finn doesn't have the time to explain his current identity to He Mengmeng now, after all, it's not something that can be explained in just a few words.

The main reason was that he would be participating in the Wood Spirit Villa's Assessment tomorrow, and Finn was also worried about not p Aing, so he would have to discuss with Muzhu, and all other matters could be postponed.

Finn brought Muzhu back to the Old Tree Hotel, only the inside of the Old Tree Hotel was the most private and easy to communicate with.

There were cameras in public places, and this presidential suite in the Old Tree Hotel, which Finn had already let the six vajra look at with professional instruments, had no hidden equipment at all, and there was no possibility of stealing messages.

Although it was useless for an ordinary person to steal the news, but if they could, it would definitely be very useful, which was the reason why Finn had to defend it.

As soon as he entered the presidential suite, Finn couldn't wait to say, "Muzhu, tell me quickly, what's the best way to do it, tomorrow is the Assessment. You called me just now, you should have found a way, right?"

Muzhu nodded, "Indeed, I have found a way, look, what is this."

Saying that, Muzhu took out a small box. The first website m.

Finn was somewhat blinded, receiving the box subconsciously opened it, the aroma was overwhelming, Finn couldn't help but drool when he smelled it, a look at the small black pill in this box was different.

"What is this?" Finn extended his hand to take the black small pill.

But Muzhu hurriedly closed the box and said, "This is for you, but you can't eat it yet, you must eat it tomorrow morning."

Putting away the wooden box, only then did Muzhu explain, "This black pill is a Herculean Pill, specially found for you, the greatest effect of this Herculean Pill is that it can double your strength, this Herculean Pill is the only pill that ordinary people can bear, it is a rare and precious treasure. Our Wood Spirit Villa also produces very little, only one can be produced every year."

"Doubling of strength? So strong?" The more Finn felt the importance of the pills, the more he understood the value.

He had just barely reached the fourth level, and if his strength doubled, it wouldn't be impossible to persevere through the eighth level, wouldn't that mean that he could pass the martial arts assessment as well?

Finn looked surprised and said, "Great, now I have no problem with the assessment."

"Indeed." Muzhu nodded his head and lamented, "Originally, this Power Pill can only double the strength, and it can only be used once, it's useless to take more. But I didn't expect Ye Shao to change so much in these seven days, in my opinion, the four hurdles won't be a problem, and with the Herculean Pill, passing the assessment will be easy."

Finn smiled and said, "Who let me be talented and clever."

But Finn still had a doubt, and had to ask, "But what are you going to do with such a precious thing for me to use, it's definitely worth a lot. And why go to all this trouble, can't I just go in through the back door?"

Finn had been thinking about this problem for a long time, after all, it was a matter of penetrating the question and delivering the medicine, and with so much effort, it would be better to go through the back door quickly, and it would be no trouble for each other.

Wood Bamboo sighed: "It's still not because of the old villa master's letter, right, you still don't know, the old villa master's letter to you is a special paper, using the Wood Spirit Villa's technique can see the words hidden in the letter paper, just like the principle of hiding the watermark to see through light. The letter states that you are the young master of Ye Island, you must not go through the back door, you will leave behind a handle for people to hold on to in the future, that's why it's so troublesome to let you take the examination."

"As for the Power Pill, it's not too precious, it's just precious to ordinary people. Doubling the strength of the Power Pill is just stimulating the cells to stimulate the potential, it is only effective for ordinary people, like us martial artists even if we use it, there is no change. Moreover, the Power Pill is a short-lived enhancement that only lasts for one day, which is why you are told to take it tomorrow. The effect of the Power Pill will gradually fade, only the initial effect is the greatest, and can even reach as much as three times as much, while the more you take it, the less potent it becomes."

"In order to avoid others finding out that you're taking the medicine, so you must take it before you leave on tomorrow morning, which means you won't be able to catch up with the triple efficacy, and I'll also arrange the martial arts Assessment first to put you in front, at least the double efficacy is still achievable, and with luck you'll be able to double and a half, and then your chances of passing the Assessment will become greater."

Finn nodded in a daze, Muzhu's worry was not unreasonable, after all, some of them were also from families, so they might not know the Power Pill, so they had to take it in advance. And Finn's biggest doubt was why the Assessment, also explained by Muzhu.

What Finn never expected was that it wasn't a deliberate attempt to make things difficult for the Wood Spirit Villa, but rather an instruction from Muzhu before she left.

However, Finn also had to say that Mu Ziling's concern was correct, after all, if she really went through the back door, although it was no big deal, it would be Finn's black spot if he was picked out by someone who had a mind to do so.

As the young lord of Ye Island, he must go through regular channels to enter cultivation, so as to appear open and aboveboard, at least so that no one could get a handle on him. Even though Finn also cheated, it was better than going through the back door.

And it was said to be cheating, but Finn also needed to memorize all the questions, and also participate in the martial arts Assessment, overall, Finn also contributed quite a lot, just a little less detours than the others.

Most importantly, there was no point in thinking about it now, Finn might as well hurry up and memorize the questions.

Thinking of this, Finn just sent the guests off: "Muzhu, you go back first, I still need to memorize the questions and prepare for tomorrow's Assessment."

Finn had been training for the past few days, every day after returning to the hotel, he was so tired that he could directly fall asleep as long as he read the questions, in other words, Finn hadn't memorized the questions yet.

But fortunately, memorizing or not memorizing the questions is the same, except for a few big questions that require arguments, most of the questions are

multiple choice and judgment questions, Finn only needs to memorize the answers.

Unlike the betting questions, the test paper in Finn 's hands is the final version of the test paper, and he only needs to memorize the answers in order.

Although Finn wasn't smart, he was still first-rate at memorizing answers.

"Alright then, Ye Shao, cheer up, I'll go back first." Mu Zhu nodded and left straight away, as for the wooden box, it was also handed over to Finn , but with a thousand instructions, telling Finn never to eat it now.

Finn was no fool, and the natural way was to eat it before leaving tomorrow morning.

And after the wooden bamboo left, Finn put down the test paper, clapped his hands and said, " A\*\*emble, raid!"

That's right, Finn was going to give the Six Vajra a surprise inspection!

277

Finn entered the Wood Spirit Villa naturally couldn't study by himself, the main thing was to pull the six vajra.

Finn is not a genius, he still has self-knowledge, his purpose of going to Wood Spirit Villa is very simple, that is, to train until he has the ability to defend himself. But why would he need the Six Vajra when he had the ability to defend himself?

It didn't take long for Finn to figure it out, of course it was going to be a fighter.

He only had the ability to defend himself after his exercise, but he didn't have the ability to attack people, especially since he still had a lofty status, even if he didn't care, but he needed to be careful for the sake of Ye Island's face.

So he still needed the Six Vajra to maintain his safety, and at the moment the Six Vajra was a bit weak, so Finn would have to bring the Six Vajra with him on this trip to the Wood Spirit Villa.

Originally, Finn was only joking about the name of the Six Vajra, but if all six of them really cultivated to become martial artists, then it would be the real Six Vajra.

Now among the Six Great Vajra, Tiger had already reached the sixteenth level and would soon break through all of them, while the other five were at least at the fourteenth level and would soon be able to become martial artists.

Finn reckoned that by the time he had the ability to defend himself, the Six Vajra would have no idea how far they would grow.

The biggest weakness of the Six Vajra was also obvious, they were all very stupid, that is, they had no brains and had never been to school.

So even memorizing the answers was very difficult, especially lifting the pen and forgetting the words was even worse. Therefore, Finn 's daily homework is to A\*\*ess the memorization of the answers of the Six Great Vajra, which incidentally also helps Finn himself to consolidate his impressions. Remember the website . . . net

However, unlike Finn memorizing the answers was still somewhat different, Finn 's A\*\*essment still disrupted the order, and the multiple choice questions also had to memorize what the answers were written.

In fact, it was not that Finn was deliberately making things difficult for the six vajra, but that it had to be done.

The questions in the A\*\*essment were not simple questions where one plus one equals two, all of them had questions about cultivation, and it was necessary to make the Six Vajra remember these things, after all, they would be used in cultivation afterwards, so it would be better to make the Six Vajra remember some of them in advance, which would also be a once and for all thing.

Of course, Finn also had selfish intentions, because the Six Vajra didn't worry about the martial arts A\*\*essment, these days when Finn was training hard, the Six Vajra had actually been playing outside, which was the hardest for Finn , so he also wanted the Six Vajra to suffer hard so that Finn 's heart would be balanced.

But Finn beautifully said that it was to supervise the study....

"Come come come, test me first." Ah Hu took the initiative to rush forward.

Seeing the situation Finn was somewhat speechless, remembering that in the beginning, Ah Hu was hiding at the end, just afraid of being asked questions by Finn , but now he was so tough, it was obvious that he hadn't studied less these days, and it was time to test the results.

Finn can't help but be a little speechless, even someone as stupid as Ah Hu has worked hard and even achieved something, how can Finn not work hard?

With no more reason not to make an effort, Finn began the Aessment, and it was a disrupted order Aessment.

"Please listen to the first question..."

Finn picked up the test paper and started the A\*\*essment.

Ten minutes later, strong applause erupted inside the presidential suite.

"Yay! All right, one right!" Ah Hu shouted excitedly, but on the other hand, Finn looked extremely pale.

Indeed, Ah Hu did try hard, one question to no mistakes.

Finn could actually make things difficult on purpose, but there was no need to, Ah Hu was also the result of hard work, since the test papers were all finished, Finn would continue with the A\*\*essment.

An hour later....

“Grasp the gr A\*\*!” Finn was completely speechless, although the six vajra were not memorized backwards, but surprisingly all of them were answered correctly, just like the standard answers, not a single wrong word, even the punctuation was the same.

The test paper was a total of one hundred questions, forty multiple choice questions, forty judgment questions, and twenty big self-reporting questions.

It’s not just a matter of time, it’s also a matter of time before you get to the bottom of it. Hurry up and go out, don’t delay me to memorize the questions.”

“Then we’re going out to play oh.” Tiger smiled hehehe, and with a wave of his big hand, they all poured out of the room.

Looking at the room with only himself left, Finn couldn’t help but think back to his childhood, when the other students who had completed the A\*\*essment went out to play, and the rest who didn’t answer the questions stayed in the room, how similar was this.

The first thing that you need to do is to take a look at the results.

Now if you understand the memorized questions, Finn can’t memorize them, the point is that many of the cultivation methods Finn is also ignorant. Although I’ve read a lot of fantasy novels, but the cultivation inside the fantasy novels is completely different, where there is no such thing as three flowers gathering the top five qi towards the yuan.

If you want to cultivate, the most basic method is to exercise your body and enhance your physique with the equipment, if you are able to reach the physical limit, you have reached the critical point of a martial artist.

And only after becoming a martial artist, the way of cultivation will be different, and those are not within the scope of the A\*\*essment, so Finn’s test only has questions like the following: one thousand push-ups a day, what kind of warm-ups need to be combined with in order not to tire out the body, and how much water needs to be replenished.

This kind of question is like a biology question, but different, because the biology question will not A\*\*ess such a perverted question either.

There’s also a similar math question: how many times a day does Ming need to squat 30,000 times a month.

This is not a multiple choice question, but a self-referential question.

A normal person's idea should be to squat a thousand times a day, but the answer is different, according to the principle of cultivation, each week squat twice as many times as the previous week, so as to achieve the purpose of exercise, this is not an elementary school question, but the need to solve the equation.

The correct answer also has the solving process: let's say the first week is squatting  $X$  number of times, the second week is  $2X$ , and so on.

The answer then writes out the solving process also needs to be written out who came up with the principle of training, and finally the amount of squatting training needed to be written out every day according to the stats.

Initially when Finn saw this question, he wanted to die, and didn't know who made such a cruel test question. Now that the cultivation test was so difficult, one couldn't even practice without some knowledge.

The only thing that Finn was glad about was that he came from a finance background and was okay with math.

But the most disgusting question came, and it was the last question, the free play question.

Writing a small essay praising the Wood Spirit Mountain Resort must reach 2000 words, and there must be at least ten ancient poems in it.

Although there was a model essay, but Finn was not participating on his own, there were still six vajra, for the small essay, Finn spent a lot of money to hire a writer to write several articles specifically.

The other answers Finn just memorized for an hour, but this essay made it difficult for Finn for a full night, and by the time Finn finished memorizing it, it was dawn.

Having not slept all night, Finn's eyes were filled with blood, and simply, Finn did not sleep.

"Damn, what's the point of sleeping, get up hey, it's an exam later, get up and get ready, morning practice!"

278

The morning exercise was short-lived, and only after the morning exercise did Finn's health improve after he drank a bowl of hot soybean milk in a beautiful way.

He hadn't slept all night, but fortunately he had worked hard these days to exercise his body, so one night wouldn't be much better, so it would be a regular late night in college.

After breakfast, it was already five minutes past seven, and the Assessment of the Wood Spirit Villa only started at eight.

To leave for Wood Spirit Villa now, it would only take seven forty to arrive, which was still early.

But now there is nothing else to do, it would be better to go there directly, but Finn is still worried about falling asleep in the exam later, so let Ah Hu hire a van, Ah Hu will be in charge of driving, while Finn will sleep in the back of the car.

Hiring a car in the morning is quite troublesome, after all, some shops are still open, in fact, to hire a van, Finn is also quite contented.

On the car, Finn did not take the medicine, he was ready to take it after arriving at the place, in order to ensure the maximum effectiveness of the medicine, and with the van, if you take it in the car, you will not be found.

It can be said that hiring a van to sleep as well as take the medicine is really a good solution for multiple purposes.

And Finn, who thought of this solution, had to praise himself as a little genius.

The first time I was in the car, I was in the car, and the second time I was in the car, and the third time I was in the car. The first website m.

Especially after the teacher's experience, now he was thunderstruck, especially after a sleepless night, got on the train and went to sleep, and by the time he was woken up, it was already 7:55, and when he looked outside through the window, he was already at the Wood Spirit Villa.

The purpose of the entry was all kinds of luxury cars, which was rather surprising to Finn.

Didn't it say that the entrance Assessment, how to find so many luxury cars, get such a big row?

As a reclusive sect, Wood Spirit Villa is showing off so much, it doesn't look like it doesn't want to be like a reclusive sect should be at all ah.

Finn was a little curious, but didn't rush to get off the bus, but first ate the Herculean Pill, the Herculean Pill was the most important means of winning.

According to what Muzhu said, there is no need to drink water to eat pills, originally Finn did not believe, but the vigorous pill melted in the mouth and went straight down the throat, then Finn knew the reason why there was no need to drink water.

So smooth, it didn't need to drink water to take it at all.

And after the Herculean Pill entered his body, Finn felt a warm current spreading from his stomach and flowing into his limbs, as if he was in the middle of a hot spring, he was incomparably relaxed.

“Ah!”

Finn couldn't help but cry out, and his heart was pounding, even more powerfully than before, and his malaise was also swept away, becoming extraordinarily energetic.

How can I put this feeling, it was like a cup of coffee on a late night, a pot of cold water on a third-volt day, it was refreshing, as if there was inexhaustible energy.

“Grasping gr A\*\*, I feel like I can fight ten at a time now!”

Finn roared with excitement. With a casual punch, he actually broke the front backrest right away.

“Grasp the gr A\*\*!”

Tiger cried out in pain and turned back to Finn with a grumpy face, “Ye Shao, can we be a little lighter?”

“But I'm not using my strength?” Finn did not expect that he had achieved this effect with a casual punch.

Worthy of being a Power Pill, this effect was really strong!

Pulling the door open, Finn got out of the car, and now the time was almost up to take the A\*\*essment.

Originally, Finn was still a little unsure of himself, but with this arm strength, he was also confident to complete the martial arts A\*\*essment.

Striding towards the mountain gate of the Wood Spirit Villa, the six vajra also got off the car and followed behind Finn .

Only just reached the mountain gate, Finn was blinded, compared to the luxury car that had just entered, but here it was blocked, and it was a double guardrail.

Closest to the guardrail next to the mountain entrance were two old men in white robes, which looked like a fairy-like appearance, a look was not an ordinary person.

And beside the white-robed old men was a sign that read, “Introductory Aessment Instructions, this Aessment is divided into two parts. The first part is the martial Aessment, only those who p A the martial Aessment can go up to the mountain to take the written test, the minimum martial Aessment is to p A\*\* the eighth level of the forge test.”

This rule was the same as what Muzhu had said, and it was also clearly written that the minimum standard was to pass the eighth level, in other words, if you could only pass the eighth level, then you would need to answer all of them correctly to go up to the mountain to take the written test.

And each additional level passed, the written test would also have more error tolerance.

But for someone like Finn, who already had standard answers, passing the eighth level would be enough. But this was also Finn's previous thought, since he ate the Powerball, Finn is extraordinarily confident, how to say this kind of feeling, that is to say, the world is big, I call it-VI also no one dares to call the boss.

Of course, Finn knows that it is the confidence brought by the Powerball, although he is not blindly confident, but in general is more confident that he can pass the eighth, ninth and even further levels.

After all, now that there was a chance, Finn didn't want to reach the passing line to enter the clan, and to go in was to get a high score to go in, so that when discussing it in the future, it wouldn't be discrediting Ye Island.

After looking at the protection leaning inside, Finn will look at the outer layer of a protection, this layer of protection is more interesting, it is the protection to participate in the martial arts assessment.

Previously, Finn had also heard from Muzhu that this layer of protection was the position prepared for the martial assessment, after all, the Wood Spirit Villa was a martial sect, if the physique was not up to standard, it was not qualified to enter the Wood Spirit Villa or even take a look at the Wood Spirit Villa, and most of the people who participated in the assessment every session would be stopped here, so it was also to exclude, so the first level of martial assessment was prepared.

In previous years, the average number of people in the assessment was two hundred, and this year, it looked like there were nearly the same number of people as well.

But the martial arts assessment is only twenty positions, in other words, it needs to be conducted for ten rounds before it is over, and each round on average actually takes two hours to go through, so the assessment is divided into two days.

The reason for this is to ensure the maximum effectiveness of the medicine. Finn also had a deep understanding of this, in just a minute, Finn also felt that the energy in his body was diminishing at a faint rate.

However, at this moment, there were already twenty people inside the protection, and there was no place for them.

And according to the rules, one could actually not officially enter until eight o'clock, so why was the position occupied?

Finn's heart was indignant, for this kind of breaking the rules, Finn really couldn't endure it, and the duration of the effect of the medicine in his body didn't allow Finn to endure it.

Without even thinking about it, Finn rushed out and went straight into the guardrail.

279

When Finn moved, the Six Vajra naturally couldn't just sit there and wait for death, and directly followed Finn and headed straight to the guardrail.

Ah Hu even arrived in front of Finn in a flash, and took the initiative to open the guardrail for Finn.

But just as Ah Hu was about to open the guardrail, two shadows appeared and directly stopped Ah Hu.

Before Ah Hu could react, the two shadows struck together and directly knocked Ah Hu back a few steps.

"Grasp the gr A\*\*!"

Tiger was so angry that there was still someone who dared to lay a finger on him? This was the first time that Ah Hu had encountered since following Finn for so long.

Turning his head, Ah Hu saw two brawny men, brushing up against the guardrail position, clearly not allowing Ah Hu to enter.

"Remove the arm and throw it out." Finn faintly spoke up.

These two brawny men were wearing suits, and they were not from the Wood Spirit Villa at a glance.

And right at this moment, Finn also received a text message from Mu Zhu. Remember the URL . .

"Ye Shao, participating in the A\*\*essment is from eight o'clock, every year before eight o'clock there will be some people who go in early, and our Wood Spirit Mountain Villa actually won't care, in order to see how bold these people are."

Finn read the text message and also understood that daring to drill holes means some strength some background, otherwise facing the big mountain of Wood Spirit Villa, who would dare to casually drill holes.

So Finn 's action is all the more justified.

Anyway, now it's time to fight for hard power, whoever is awesome will be able to A\*\*ess first.

Finn waved his big hand, and the six vajra directly jumped on it, seemingly chaotic, but orderly, and in no more than ten seconds, the five vajra locked up two brawny men.

As for Ah Hu, but a sardonic smile, a fist blast directly on the abdomen of the brawny man, along with the "bang" sound, the brawny man suddenly spurted out blood, eyes rolled over and fainted.

The same brawny man, but Ah Hu obviously more strength, the body of tendon meat is not beauty out, but the actual combat exercise out.

Although it couldn't have the power of killing a bull with a single punch, but after all, it was already at the level of a half-step martial artist, so how could these fancy fists and legs withstand this punch.

As if by magic, Ah Hu beat another brawny man with blood flying everywhere.

"The little brats inside hurry out and make room, or don't blame Master Tiger's fists for being unforgiving!" Tiger revealed a sardonic smile.

Finn couldn't help but look at it with a raised eyebrow, the corners of his eyes filled with black lines.

Ah Hu was really born with the look of a bad guy, but he was a first cl A\*\* master at bluffing people. Just by looking at his appearance, he was indeed able to scare many cowards to death.

But what Finn didn't expect at all was that the people inside didn't move a muscle, as if they hadn't heard anything.

Only one little fatty looked at the brawny man who had been knocked unconscious and snorted, "Rubbish, eating our Li family for so many years for nothing, can't be lined up at critical moments."

Just after saying one sentence, the little fatty closed his eyes again, not paying any attention to Ah Hu's words at all, and there was even less cowardice in his eyes.

Finn even saw some arrogance on Little Fatty's body, at a glance, he was not from an ordinary citizen, but from a big family.

But on this, Finn was even more interested.

After all, no matter what big family it was, could it still be more awesome than Ye Island?

Finn was unable to think of any family that could be so capable, so he spoke, "All of you inside, this young man is really anxious to A\*\*ess, if you all can't do something convenient, then don't blame this young man for being ruthless."

Once this was said, the people inside didn't react in the slightest and seemed to treat Finn as if he was farting.

Finn spit, also put away the light and elegant face, and instead frowned, "Go, if they don't come out, they'll all be crippled and thrown out, we'll be treated equally."

Finn is not a stunned young man who knew nothing back then, in this kind of place, it's actually equivalent to a small society, there are laws that exist, and only by touching the laws can you mix like a fish in water.

And the law here is simple, only one, that is, only the strong deserve to have the right to speak.

The face that should be given has already been given to Finn, if these people don't listen, then don't blame Finn for being ruthless.

Reasoning here, others would only think it's just being obsequious, what kind of place is this, this is a martial arts clan, a place that advocates force, in other words, a big fist is hard truth!

The Six Vajra was not a saver in the first place, and loved nothing more than making trouble.

So when Finn gave the order, the six vajra directly rushed in, like a tiger entering a herd of sheep.

Although those who could participate in the A\*\*essment were all agile and had some means. But for a half-step martial artist like Ah Hu, it was a bunch of stinky younger brothers.

And these people on the other side couldn't imagine that the Six Vajra would make a move, so they were unprepared and threw all twenty of them out like they were carrying a small chicken.

The little fatty from just now was furious and said, "Damn it, if you dare to touch me, you're not putting the Li family in your eyes, boy you're wasted!"

The little fatty did not shout at the six vajra, but at Finn, after all, Finn was the mastermind.

But this in Finn 刊例, as if Finn was the best bully, this made Finn angry, backhanded is a slap, directly slapped down the little fatty, also did not have time to step two more feet, Finn entered the protective area.

Just because his alarm went off, it apparently reached eight o'clock.

And the other nineteen people got up and called their respective house guards, but without waiting to do anything, two white-clothed old men floated to the outside of the guardrail and blocked the way: "Now the Assessment begins, please enter in an orderly manner, all those who make nonsense will be disqualified from the competition!"

As soon as this was said, the people who were thrown out were filled with rage, but no one dared to do anything, after all, they didn't have the ability to do anything against the people of Wood Spirit Villa.

Even if they did, they wouldn't dare, after all, they were here to seek education, could they still have trouble with the Wood Spirit Villa?

"Pfft!"

Finn couldn't help but laugh out loud at the sight of the pig.

Indeed, just like what Muzhu said, it was to let the holes be exploited, but the rules were still rules, and when it was time for the Assessment, there were no holes to be exploited, and at the moment, Finn and the six vajra all entered the Assessment area within the guardrail, as if they had entered a safe area.

The other side was trying to do something but couldn't move, and Finn liked to see how people looked down on him but couldn't beat him up yet.

But before Finn could mock him, a familiar voice sounded beside Finn .

"Okay, don't be skinny, get ready for the Assessment, it's questionable whether you can even hold on to the fifth level now."

When Finn turned his head, he saw the person who spoke, it was none other than Luo Lan.

"Luo Lan?When did you get in?You're good at muddying the waters, we fought hard and you came in by drilling holes..."

Halfway through his speech, Finn didn't squeak when he saw Luo Lan staring.

280

Of course Finn wanted to squeal, but he couldn't afford to offend Luo Lan, after all, it was because of him that Luo Lan was forced to come to the exam, and he was filled with guilt, so he didn't want to mock it.

And he thought that he couldn't beat Luo Lan, even if Ah Hu made a move.

Of course, the main thing was that now that Finn had eaten the Power Pill, he was also afraid of leaking his words, and anyway, he would be able to surprise Luo Lan with practice later.

Thinking that Luo Lan could take a big surprise, Finn couldn't help but sneak a smile.

"The Assessment has officially begun!"

The old man in white's words made Luo Lan return to his position above the corresponding Assessment without continuing to speak.

But what Finn didn't expect was that after the little fatty was knocked down just now, he was still able to sneak in at the last chance, which was also really a bull's eye.

It was just that no matter how Finn looked at it, he didn't feel like Little Fatty had any real ability, so why did he come to the Assessment with such confidence?

However, soon Finn saw Little Fatty's true talent.

Only to see Little Fatty raise his hand and ask for a straightforward 400 pounds, in other words, a challenge from the thirteenth level!

Finn was also furious, he clearly saw the provocation in the little fatty's eyes and also raised his hand, "I'll have 400 pounds too!"

Anyway, there were two chances for the Assessment, and even if you didn't succeed, you'd have the next chance to start from the beginning.

And most importantly, if Little Fatty could hold on to 400 pounds, why shouldn't he?

The thirteenth level is 400 pounds to persist for 5 minutes, the fourteenth level is to persist for 10 minutes, the fifteenth level is to persist for 20 minutes, and the sixteenth level is now the limit of what the Big Five can persist, and only Tiger, the pervert, can persist for 40 minutes of the sixteenth level.

And this also depends on the state, just now Tiger has been shot a few times, also do not know if he can have the patience to finish the sixteenth level.

As long as he could persevere through the sixteenth level, Tiger would be able to get a full score in the martial arts Assessment, and with the answers already memorized for the written test, in other words, Tiger was hopeful of getting a full score.

The other person who had hope of getting a full score was Luo Lan, in Finn's opinion, Luo Lan's true level was above Ah Hu's, and Luo Lan also had the standard answers to the questions, so it would be easier to get a full score than Ah Hu.

Only this is all that Finn thought, when the 400 pound sack buckled on Finn's back, Finn almost fell directly on the ground, fortunately the effects of the medicine permeated out from his limbs and supported Finn.

“Just you two, hurry up and admit defeat, you can’t, hahaha!”

Finn heard the sneering laughter of none other than the little fatty who had just provoked him.

“I can’t? If I can’t do it, you can? You’re nothing!” Finn cursed in his heart, but his mouth didn’t speak, he didn’t even have the strength to speak now that the veins on his forehead were exploding.

Just afraid that if he opened his mouth, he would just fail.

Five minutes was a long time, it was even more tedious than waiting for the end of class, and with so much pressure, Finn had a hard time saying anything, it was like a second.

Silently calculating in his mind, Finn only wanted to finish these five minutes quickly.

“Five minutes!”

A voice that sounded like heavenly music sounded, and Finn’s heart rejoiced as he hurriedly said, “Alright, alright, help me get it down!”

The voice fell, Finn only felt a lightness behind, the sack was taken down by the invigilator.

Seeing the invigilator holding the 400-pound sack as if it was as light as a feather, Finn was also envious, but what made Finn happiest was that he passed the thirteenth hurdle in one go, which was far beyond his previous expectations.

If he got the full thirty points of the written test later without any accidents, then his total score would exceed 80 points, reaching 86.8 points, which for Finn, was an achievement that he didn’t even dare to think of before!

Even though Finn’s entire shirt was now drenched in sweat, as if it was a mess as if it had been splashed with water, Finn’s heart was still unusually happy.

Only before Finn was proud of himself, he heard a sneer, “Oh da, that’s it?”

The most important thing is that Finn found that the little fatty’s forehead didn’t bulge out with veins, obviously he didn’t use his full strength yet.

Of course, there was no guarantee that Little Fatty was so fat that he couldn’t see the veins at all, so maybe Little Fatty’s veins were about to explode now.

“Yoho, still holding on? Are you tired?” Finn didn’t get angry, but came to Little Fatty’s front.

He spun around the little fatty, strolling leisurely.

"What do you want?" Little Fatty's eyebrows furrowed, somewhat dissatisfied.

Finn smiled heavily, "What for? Nothing to do ah. What do you think I can do, I'm just looking at how you're so fat and so strong, I can't believe you're so strong."

"Oh dah, don't lift me up, I'm not going to relax." The little fatty was proud of himself, but not at all fooled.

"Is that so." Finn laughed, then his eyes turned, "Then you must hold on to it, there's still three minutes before you reach level 14, I can see your arms shaking, hold on."

Finn took out his phone and operated it quickly, making the time go a minute faster, then handed it to Little Fatty.

Little Fatty stared at the time dead in the air and stopped talking until the time jumped to ten minutes before Finn clamped his voice behind Little Fatty and shouted, "Ten minutes!"

"sh\*t, get it off me now!"

"Bang!" The invigilator directly threw the sack flying out, still so light, as if it was not four hundred pounds.

Finn is found, the speed of the invigilator is very fast, after all, some people's body to the limit, if not take down easily fatal, this is four hundred pounds of weight, fractures are the lightest.

Without the weight of the sack, the little fatty was lying on the ground breathing heavily and roughly, more than ten seconds passed before he slowed down, and the first sentence was to sneer at Finn: "Look at your virtue, the little master but persevered for fourteen levels, you scum, fourteen levels but 61 points, the little master but safely into the Wood Spirit Villa, don't even need to take the written test."

"Is that so?" Finn smiled and didn't get angry, but put away his phone and started fiddling with it.

Little Fatty was upset, but didn't know what was wrong until the invigilator said after half a minute, "Ten minutes!" Little Fatty only then reacted, it turned out that the voice that shouted ten minutes earlier was wrong.

Finn smiled and took out his cell phone, "Sorry, I forgot that I like to advance the time by one minute, after all, this is how you can advance anything, but I delayed your assessment. Oops, what a sin, you've worked so hard for so long, but you're still just like me, just thirteen levels."

Little Fatty shivered with anger and pointed at Finn and cursed, "Kid, you cheated me!"

## Chapter 281

"I've told you I'm like a minute early, why don't you believe me?" Finn was somewhat speechless.

Little Fatty freaked out, "Believe you? How do you expect me to believe that even if you were a minute early, what did you mean when you shouted ten minutes earlier?"

"What do you mean?" Finn was flabbergasted and couldn't pretend anymore, "So what if I cheated you? If you're able to do it, come back for another challenge, you still have a chance anyway, don't you? Or are you running out of energy too? If you don't have the strength, then you won't blame me."

Finn smiled heedlessly, looking like he had succeeded in his wicked plan.

That's right, he did it on purpose, who let this little fatty deliberately ridicule him and deserved to be cheated.

"You you you you!" The little fatty was so angry that he couldn't catch his breath, and with the intense consumption he had just suffered, he p A\*\*ed out without coming up with a breath.

By the time Little Fatty woke up, it was already the end of the first round of A\*\*essment.

At this moment, Finn and the six vajra had gone up to the Wood Spirit Villa.

Wood Spirit Villa was behind a scenic area, this scenic area had also become the best bunker, as the saying goes, small hidden in the mountains, big hidden in the city, Wood Spirit Villa this wave of operation is still very showy.

The first website m.

And walking here was actually equivalent to walking to the mountainside position, and after another 108 steps, Finn and the others finally arrived at the Wood Spirit Mountain Resort.

The mountain where the Wood Spirit Villa was located was named Wood Spirit Mountain, the total height was 65 meters, although it wasn't high, but it wasn't short either, and it was A\*\*umed that Wood Spirit Mountain was named by the Wood Spirit Villa itself.

After all, this kind of clan are somewhat privileged to exist, and the name of the place was also registered, so what the locals said it was, it was actually what it was.

Reaching the gate, Finn looked down and realized that there were actually two more paths that built the whole thing on the side of Wood Spirit Mountain, both five meters wide around the mountain.

“Damn, so the car can drive up!” Finn thought that going up and down the mountain have to climb the stairs, this if go out to bring something back are inconvenient, unexpectedly there is a driveway.

But a driveway is always good and convenient, so Finn didn’t think too much about it.

Unlike the clan inside the novel, the entrance to the mountain was not two stone lions, nor were they various carvings, but two ancient looking uncles, Finn couldn’t say what the name was, but it looked like it was worth a lot of money, and the age was long, this thing actually best reflected that the clan had signs of age.

The longer the years of the clan’s construction, it also precisely proved that the clan was powerful, after all, a clan that wasn’t powerful couldn’t exist for such a long time.

At the moment, the gate of the mountain was wide open, unlike the scale at the foot of the mountain, the gate of the mountain was bigger, but the sign was no good.

Just now, Finn also sent a text message to Muzhu to inquire, those two fairy-like white-clothed old men were the elders of the outer gate, and although the mountain gate was crowded, there wasn’t a single elder, just a group of young boys and girls who looked about the same age as Finn .

It didn’t take much thinking to know that they were newcomers who had only come in from the last year or the previous year.

It was just like a school, every time the welcome activity was held, it was always the seniors who welcomed the newcomers, there was no way the headmaster director would come to pick them up.

“Welcome seven of you to Wood Spirit Villa, I’m your last year’s senior sister, Li Xiaoxiao.” A woman in white robes slowly stepped forward.

It was just as Finn had thought, the same rules as the school, but instead of a senior sister, she was a senior sister.

It was worthy of being a clan, and the name calling was so retro.

Finn was also not polite, and went forward also smiling, “Meet Senior Sister Li, I am Finn , this is the Six Vajra.”

Finn incidentally introduced the Six Vajra as well.

Even though he had entered the same sect, it wasn’t like Finn would raise the price of the Six Great Vajra, no matter what, the Six Great Vajra was still his bodyguard in the end.

Coming to the sect was merely a way to increase strength, and when the time came, his worth would just be doubled.

This was also Finn 's principle, otherwise in the future all the people who came to hire became powerful, do they all have to be called brother and sister?

Play is play is play, little brother is still little brother, don't mess up the hierarchy.

"The Six Dwarfs?What is this called?"Li Xiaoxiao puffed out a laugh.

Finn couldn't help but exclaim, was it true that all women who practiced martial arts were beautiful?

From the very beginning, Mu Zi Ling, to later Luo Lan, and now Li Xiaoxiao, they could all be one of the top beauties, and there was one thing that the women around Finn said they didn't have, and that was temperament!

It wasn't that the women that Finn knew didn't have temperament, but they were all very common.

And martial arts practitioners all had a heroic temperament, similar to the pressure, which would make people unconsciously take a higher look and create a feeling of incomparability in their hearts.

Especially after becoming a martial artist there was even a unique feeling, like the icy coldness of Mu Zi Ling's body.

Although Luo Lan didn't form independence, it was fast.

According to what Mu Zi Ling said, after becoming a martial artist, one had to practice different techniques, and the techniques would also affect the temperament.

For a brawny man like Ah Hu, there was no doubt that the fierce and evil aura would be even more severe in the future.After all, Ah Hu was a real man who even dared to f\*ck a man.

Before Finn could speak, Ah Hu stepped forward and explained, "Sister Li, the six of us are actually Ye Shao's personal bodyguards."

"Bodyguards are that powerful too?Could it be that Junior Brother Ye's family is a family that cultivates martial arts."Li Xiaoxiao was surprised, not expecting Finn 's family to be so powerful.

Finn also didn't expect Ah Hu to explain himself and found his own way to the stage.It was worthy of being the Gao family that came out to see the world, and it really put its identity in the right place ah.

Finn was a little surprised, but was still very satisfied with Ah Hu's performance.

"I'm just a nobody, there's no family, I just have a little money and hired bodyguards." Finn opened his mouth to explain.

His identity wasn't convenient to reveal yet, and the only family that mentioned the surname Ye was Ye Island. In order to avoid creating unnecessary trouble, so Finn didn't intend to rely on the family's fame and prestige to yell at the Wood Spirit Villa in the first place.

After all, it was pointless, and Finn was only here to learn body protection skills anyway. And informing Muzhu was actually a last resort, the situation was also a bit of a crisis, and Muzhu originally needed to find Muzhu's father to introduce him, so being known by Muzhu's identity was also a matter of course, there was no way to hide, Muzhu could be said to be a member of his own family.

Hearing Finn's words, the corner of Li Xiaoxiao's mouth visibly twitched, but she still smiled and spoke, "Brother Ye is really joking, it's quite an expense to hire such a powerful bodyguard."

But before Finn could open his mouth, a youth came up under the mountain gate and sneered, "He came in a broken van, he has fart money!"

282

Li Xiaoxiao felt that those who could hire such a good bodyguard as the Six King Kong were definitely not something that could be taken for a small amount of money. Ordinary bodyguards were paid more than five thousand, and personal bodyguards were even more expensive, and when they came to a high level bodyguard like the Wood Spirit Villa, that would be in the millions by all accounts, so how could there be a small amount of money.

Although Li Xiaoxiao is from a family, and doesn't look down on the usual rich second generation or whatever, after all, the hidden family itself is richer than the obvious entrepreneurs or whatever, but all in all, it's the younger siblings, in case these people have learned something, it's also good to make a friend.

But when she heard the person who came up from the mountain gate speak, Li Xiaoxiao's expression went cold, and she lost her previous enthusiasm.

Finn also heard the voices, but he didn't offend anyone, after all, this was all coming to the mountain of Wood Spirit Villa.

Thinking, Finn turned his head to look, and it suddenly dawned on him that the person who came was none other than the little fatty who had just mocked him and teased him for only p A\*\*ing the thirteenth level.

"Zhuang Zhuang, how did you do on the test?" Li Xiaoxiao stepped forward and looked concerned towards Little Fatty.

Little Fatty was furious at the news and pointed at Finn, "I was all set to p A\*\* the fourteenth level, but it was this bastard who tricked and framed me, causing me to only p A\*\* the thirteenth level, sister, you can take revenge for me!"

Sister? Was this little fatty the younger brother of Li Xiaoxiao?

Pizzazz? Zhuang Zhuang?

Finn muttered in his heart and understood that this little fatty should be called Li Zhuangzhuang, Finn remembered hearing the little fatty calling out to be a member of the Li family just before the Assessment at the bottom of the mountain. Remember the website .

In order to verify what was in his mind, Finn snorted: "Li Zhuangzhuang, you can't spill blood ah, I didn't harm you, I showed you the time is testing you. Didn't you see the Assessor didn't care about me, it's within the rules, you're on the set that's your brain is not enough....Tsk, tsk, understand the natural understanding."

Finn didn't finish his sentence, but smashed his tongue, deeply sorry ah.

He also wanted to say that Li Zhuangzhuang was stupid and not smart enough, but after all, Li Xiaoxiao was the senior sister here, and he didn't want to make random enemies when Finn didn't have a clear picture of the pattern here.

But if the other party is unforgiving and won't let go, then don't blame Finn for being rude.

Finn however had one last weapon, not the Finger Leaf Island, that one was too big. Finn had a killer weapon in the Wood Spirit Villa, and that was the Wood Bamboo.

After all, Finn was Wood Ling's disciple, the old villa master's disciple, and Wood Bamboo would even call Ye Shao respectfully when he saw Finn, not to mention the district's outer disciple.

"Sister, look at him calling me stupid!" Li Zhuangzhuang was itching with anger.

Li Xiaoxiao didn't expect Finn to be so outrageous, and dared to talk about her brother in front of her, but she was also furious. Adding to the fact that Li Zhuangzhuang had just said that Finn came in a van, she despised this turtle even more.

Adding the two together, Li Xiaoxiao snorted, "Finn is it, I remember you, I advise you, don't ever get into Wood Spirit Villa, or you won't have any good luck!"

After saying that, Li Xiaoxiao left with Li Zhuangzhuang.

After walking far away, Finn also heard Li Zhuangzhuang's complaint: "Sister, why don't you make a move to teach him a lesson?"

Finn was also more sympathetic to this complaint, indeed, Li Zhuangzhuang was right, why didn't he do anything?

Is Li Xiaoxiao deep in the city and knows how to hide it? Or was Li Xiaoxiao really capable of being unkind to him after they entered the clan?

Finn thought about it and couldn't figure it out, and at this moment, a figure jumped down from the tree.

Finn just looked at the tree for half a day, but he didn't even notice that there was someone in the tree, and this person was none other than Wood Bamboo.

"Muzhu, why are you here?" Finn was a little surprised.

The corners of Mu Zhu's mouth hooked up, and he smiled again with the smile that killed thousands of girls and said, "I'm here to see if Ye Shao is confused, I'm here to solve the problem."

Finn's eyebrows raised slightly and said, "Since you've seen it all, then you can tell me."

Muzhu nodded, then explained, "First, our Wood Spirit Villa does not allow private fights, private fights, right or wrong, will be expelled from the mountain; second, Li Xiaoxiao's is just a half-step martial artist, hasn't become a martial artist yet, you're surrounded by six vajra, she can't take advantage of it, but will be humiliated, if you guys are poor, she would have already finished you off quickly; third, she sensing my existence, just now I saw that Li Qishao wanted to make a move, I moved, I don't know whether Li Qishao sensed my Qi Qi or got the news that I would hide in the tree in advance, if it's the former, then Li Qishao's strength will soon be able to become a real martial artist, becoming a martial artist will be more difficult to do."

"How is it difficult to do?" Finn was somewhat puzzled.

Muzhu said, "Naturally, I can't help you out, after all, there are no rules for martial artists in the Wood Spirit Villa, it is possible to fight privately, if she looks for an opportunity to conspire against you I can't arrive in time. And don't look at the Wood Spirit Villa every year to recruit people, but to become a martial artist is very little, every year, although they will appear, but is a kitten two or three, two hundred people each year Assessment, come into the Wood Spirit Villa is only about forty people, and the chances of becoming a martial artist is one in ten, an average of four per year. Things are precious, and for the sake of our Wood Spirit Villa's legacy, it's also not easy to dispose of martial artists, after all, this is our most solid backing, it's not something that money can measure."

"So that's how it is." Finn nodded his head in a daze, indeed, it would be difficult to do anything to Li Xiaoxiao who had become a martial artist according to what Muzhu had said.

After all, a martial artist was worth a thousand gold, and moving a martial artist was equivalent to moving the foundation of the Wood Spirit Villa ah.

"But it's not at all impossible, Li Xiaoxiao is just a foreign name, or a hidden family, and will definitely leave Wood Spirit Villa when the time comes, although

becoming a disciple of Wood Spirit Villa, as long as you become a martial artist you are obligated to stay here for twenty years as compensation, but as long as Li Xiaoxiao decides to leave, and after becoming a martial artist decides to only serve for twenty years, then it will be possible to deal with Li Xiaoxiao."Muzhu faintly spoke up.

Finn also understood the reasoning behind it, after all, it was cultivated by the Wood Spirit Villa, if he directly left, although it could promote the friendship between the Li family and the Wood Spirit Villa, but did the Wood Spirit Villa need such a large clan?

Moreover, one more martial artist from another family was one more threat to the Wood Spirit Villa, and since it was within the jurisdiction, it was bound to move some tricks, at least not to let Li Xiaoxiao leave so intact.

Whether it was for the sake of Wood Spirit Villa, or to prevent Li Xiaoxiao from making a move against Finn , it was all the same.

After Finn understood everything, he couldn't help but sigh, I didn't think that these hidden ones would actually still have so many Ergodic existence, as expected, the ones left behind in the long history are not provincial!

283

"Okay, nothing is happening now anyway, so let's leave it at that, I don't want to expose my identity if there's something cell phone contact."When Finn saw that someone seemed to be coming down the mountain, he hurriedly pushed Muzhu.

Muzhu also knew that Finn 's identity couldn't be exposed, so he also whooshed and scampered back up the tree, thinking that he was on some reconnaissance mission or another A\*\*essment of the new students.

After all, many people met one set of people and one set of people behind their backs.

From the tree, Muzhu could see the newcomers complaining as well as hear the old disciples complaining, which could be considered as observing the daily routine of the disciples.

Finn casually thought about it and came up with the idea that hiding in the tree had a lot of value to refer to.

In the past, Finn wouldn't have thought of such a troublesome thing and couldn't have thought of it, but I have to say that he had slowly grown in the course of the days and months.

After shaking out the thoughts in his head, Finn brought the Six Vajra into the Wood Spirit Villa.

After entering the sect, another senior brother came up to welcome the newcomer, and it was unknown whether this senior brother had been warned by Li Xiaoxiao or was silent himself, but anyway, this senior brother didn't say much and brought Finn and the Six Vajra to the place where the written test was held.

Finn originally wanted to enjoy the beautiful scenery of the Wood Spirit Villa, but before they could see the scenery, they arrived at the written examination area.

This written test area was in the first attic of the entry sect, in other words, if they didn't pass the written test, they wouldn't be able to take another half step into the Wood Spirit Villa.

It had to be said that this approach was still rather cruel, but it was also a way to stir up even more disobedience in people's hearts.

But there were only a few people who didn't think so, and that was Finn's group.

After Finn entered the attic with the six vajra, although he couldn't go anywhere else, it was still fine to walk around inside the attic.

The attic was not big, but the decoration was still the look of an ancient building, it was all made of wood and was very old. But when you touched the wooden pillars, the paint on them was freshly painted not long ago, and they were still greasy and shiny, with no hint of peeling off.

And what surprised Finn the most was that in this attic, it was clearly air conditioned, but there was always a cool breeze blowing, and a closer look was the wooden frame design of the ceiling, there were vents that created an overhead breeze.

"En, this is a good design, when we get back to Ye....When I get back home, I'm going to make one like this too, this is just living, it's so cozy!" Evan was thinking beautifully.

But Finn has never been smooth, and just as he was lamenting, a discordant sound interrupted his beautiful yearning again.

"Just you drive a broken van but also delude yourself to live in such a place, really daydreaming. I don't blame you for not having much insight, I also have time to tell you about it now. This is also a wood material, but it is more expensive than the cement tiles, you see this support with the wooden column, this column is ten meters high, and knock to listen to the echo, you know it is solid wood, not broken wood combinations. Such a large solid wood even the worst wood is thousands, the better ones are hundreds of thousands, even millions, you see there are ten wooden pillars in this building, also millions. The most important thing is that there is still a price without a market, which means that a big family like the Wood Spirit Villa that has its own mountain can get up an attic of this size, you? Just don't think about it, it's laughable!"

Listening to the other party's mocking justification, Finn was actually somewhat unable to refute, after all, such a large tree was now not allowed to be cut

down. Can't explode his identity, said Ye Island above there, can let him just get a bunch of it, it's more than enough.

And turning his head to look, Finn is somewhat speechless, to find fault with the really is no one else, is Li Zhuangzhuang.

Seeing this big fat face of Li Zhuangzhuang, Finn truly regretted, just now Mo not embarrass A\*\*ed Li Zhuangzhuang, let Li Zhuangzhuang directly through the fourteenth level, the score is enough to directly enter the Wood Spirit Villa. It was better than having to look at Li Zhuangzhuang's big face now, it was really obnoxious.

Now Finn is a little too lazy to take care of Li Zhuang Zhuang, this guy is just annoying, and still can't fight to death, no matter how hard he has been hit, he can always come back to life, and come out to continue to be a demon.

Fortunately, the written test came quickly, and every hour was a round.

Finn waited for less than two minutes, and then a new round of A\*\*essment began.

When he arrived at his position, Finn realized that something had gone terribly wrong, he didn't have a pen with him!

"Grasping the gr A\*\*, did you bring a pen?" Finn hurriedly turned back to ask the Six Great Vajra, but saw the Six Great Vajra shaking their heads blankly.

The reaction of the Six Vajra was also understandable, after all, the Six Vajra had left the school for an unknown number of years, where would they have touched a pen. Even if these two days in order to practice answers to write, but would not think about the exam with a pen.

But Finn is different, he is a college student, or a sophomore, at least he knows that you need to take a pen for the exam. Could it be that it's because he's been wandering around for the last half year and didn't go to school to take a proper exam, so he's forgotten even the most basic of bringing a pen for the exam?

Finn was a bit cryptic and didn't know what to do for a while.

After all, the Six Vajra's martial arts Aessment was already past the p Aing line of marks, and now he could p A\*\* directly without taking the written test, but Finn couldn't ah, his martial arts Aessment was only fifty-six points in conversion, and he could only be considered p Aing if he got sixty points, so he had to take the written test, and he had to answer at least four multiple-choice questions right before he was considered p A\*\*ing.

"Damn, day dog." Finn was somewhat speechless and hurriedly raised his hand, "That, can I participate in the next round of the written test ah?"

"Next round?" The old man in the white robe was the A\*\*essor here, and at a glance, he was only dressed as an outer gate elder.

Finn scratched his head and said, "I'm really sorry, I forgot to bring a pen, I'll go out and buy one back, do you think it's a good idea?"

The white-robed elder's eyes glazed over and he hated the iron: "The exam is the battlefield for you, the pen is your gun, do warriors go into battle without a gun?"

"Uh...I was wrong!" Finn was really powerless to argue, this matter was also really wrong of him, never expected that he would forget the most crucial step.

"But the question paper hasn't been handed out either, do you see if you want to replace someone else to take the test first?" Finn had no choice but to scalp him.

The white-robed elder snorted, clearly not wanting to agree, yet at this moment, the nosy Li Zhuangzhuang spoke again, "I think give him a chance to go buy a pen."

Finn was shocked at the words, never would he have thought that the words came from Li Zhuang Zhuang's mouth, had Li Zhuang Zhuang washed his hands of the situation?

But then Finn understood, only to hear Li Zhuangzhuang say, "There are no pens to buy on the mountain either, if he wants to buy one, he can go down to the mountain to buy one, it will take fifty minutes for a round trip, only ten minutes left for his exam, these fifty minutes can be considered as his punishment, grandpa, do you think this is okay?"

The white-robed elder nodded and said, "I see okay, very reasonable, truly worthy of being my grandson!"

Finn was speechless, damn, these two dog smashing seeds, actually still grandparents, playing a mess, can really want to calculate!

284

Finn had never thought that there would be such a brazen person in this world.

And not just one, but a pair.

This pair of grandparents could be considered to be furious with Finn .

If it wasn't for the fact that Finn knew the answer to the question in advance, then a mere ten minutes would definitely not be enough to complete the A\*\*essment.

It would be fine to say that Li Zhuangzhuang was young and small-minded, but this white-robed old man was an Outer Gate Elder, so how could he still be so shady?

This is far beyond Finn 's expectation, is this what the Wood Spirit Villa is like?

What's the difference between that and the old guys at school who pretend to be something they're not?

But it was too late to be indignant, the written test had already started at the moment, and as long as Finn was delayed here because of the strife, not to mention that he would run out of time to answer the questions, he would be used by the white-robed old man to take advantage of the opportunity to drive him out of the examination room.

"Damn it, I remember you guys!"

Finn clenched his fist, but still ran out of the attic to buy a pen, anyway, Li Zhuangzhuang was destined to get into Wood Spirit Villa, so there was no hurry, Finn would have plenty of time to have fun with this pair of grandparents in the future.

That's right, that guy Li Xiaoxiao couldn't be left alone either.

If there was no Li Xiaoxiao to mess things up, normally just now that senior brother would have said about the rules of the exam, and naturally he would have mentioned about bringing paper and pencil, and the current awkward situation wouldn't have happened.

But as soon as he ran out of the examination room, Finn saw people who had just come up from the mountain, and not just one, but a group of people, obviously new students who had just finished their martial arts A\*\*essment.

Finn looked up and down, and quickly noticed that these people had brought pens, and reached out his hand to stop the crowd.

"What for?"The person leading the group was a sturdy bald head, his brows furrowed when he was stopped by Finn .

Finn was embarr A\*\*ed and apologized slightly, "This brother, I'm really sorry, I came out in a hurry and forgot to bring my pen, can you see if you can lend me a pen and I'll return it to you later?"

"Borrow you?So what do I use?"The bald young man frowned, his speech buzzing.

"No, you just came up here you don't know, the exams are held in batches, and our batch has already started the exams.You guys have to wait until we're done with the exams even if you're exams." Finn even explained.

He could see that the bald youth wasn't the kind of person who would play tricks with his heart, how to say this, it was intuition.

The bald youth's eyes were transparent and did not contain a single impurity, he was not a playboy at a glance.

"So that's how it is, then okay, I'll lend you my pen then." The bald youth understood Finn's explanation and was about to lend Finn the pen.

Finn was about to receive the pen as he looked pleasantly surprised.

However, at this time, the bald youth wearing glasses behind the bald youth was the one who stopped him and said, "Big brother, you can't lend him ah, this is all this kid's one-sided words. This kid I can remember, just now in the following when a big fight, all to exploit the gap in the disgraceful behavior, how can easily believe? I think this kid is just swindling you. Mother can say before we left, keep your true heart, don't trust others easily, in case it's a trap it's not good."

Finn was furious, but he was also somewhat speechless, indeed, this bald young man wearing glasses was right, very reasonable, and Finn was somewhat unable to refute it.

Before Finn could come up with a solution, the bald youth wearing glasses said again, "Moreover, the exam started, how can he still be allowed to come out and read the test paper and come out to check the information to penetrate the question? This is clearly a lie."

As soon as this was said, the bald youth also recoiled, "Yeah, I'll tell you what's wrong, kid, you dare to lie to us, do you really think we seven brothers are idiots?"

"Uh..." Finn was a bit speechless, but explained, "As soon as we started the exam, I noticed that I didn't have a pen with me, so I asked the invigilator if I could participate in the next round. But..."

Finn then proceeded to tell what happened with Li Zhuangzhuang and the incident where Li Zhuangzhuang was in a mess with the white-robed elder.

Hearing Finn's words, the seven big bald heads all revealed shock and anger.

"How can there be such a sinister generation!" The bald brother was suddenly furious.

Old Li, who wore glasses, also shot his head in anger, "This is too shameless!"

Saying that, the old Li Li who wore glasses handed the pen to Finn, "Brother, I was wrong to blame you, and to show my apologies, take my pen and go to the exam, don't delay, or else those two bastards will have their way!"

The reaction of the bald brother was expected by Finn, but the old II II who wore gl A\*\*es was even the same, which was something Finn had not expected at all.

The bald brother said, "Brothers, take out your pens, didn't this brother say that there are six more without pens, just take them over and use them."

"How is that a good idea."

Finn scratched his head, he would have wanted to borrow his own, the martial arts scores of all six were already enough to pass the test, even if he didn't write the test, he could have.

After all, this is not to go down to buy a pen but to borrow a pen, all at once to borrow the seven brothers' pens, Finn is not good enough to open this mouth, grams but did not expect the bald brother to take the initiative on collecting the seven brothers' pens, suddenly made Finn touched.

"Brothers, I, Finn, will accept this favor, I will repay you whether or not you are able to take the exam to the Wood Spirit Villa." Finn took the pen and hurriedly ran back to the exam attic.

"Back so soon?" As soon as he entered the attic, the white-robed elder revealed his surprise.

After all, it had only been a mere ten minutes since Finn had come and gone.

"Young master is well-connected and capable, use you to care?" Finn sat down with a cold snort.

This time he didn't believe that the white-robed elder dared to find faults, he had just said that he was given time to go out and buy a pen, now it would be really too much to find faults, Finn could totally go to Muzhu's place to complain about the white-robed elder with this article.

The white-robed elder also knew that he couldn't make things difficult for Finn at the moment, so he stopped talking and gave Finn the test papers.

Finn distributed the pen to the six vajra and then started pounding on the answers.

This test paper was just imported, but with a simple glance, Finn knew that this was the test paper given to him by Muzhu, and with a sudden joy in his heart, he hurriedly began to write the answer.

This writing was really like clouds and flowing water, Finn had never found the exam to be so unrestrained.

It really was the answer in my hand, I have it under the world.

In front of this test paper, Finn is the sky.

Last night's late-night memorization of the answers is indeed useful, Finn finished writing all the answers except the essay in just five minutes.

It was only when he started to write the essay that he realized there was simply not enough time.

There was only one hour for the exam, but the essay alone was two thousand words, and even if you copied the essay, one hour was barely enough time.

No wonder Muzhu dared to purposely open up this section of the written exam, emotionally because it was impossible to complete the entire exam paper except for those with standard answers!

285

Fortunately, Finn was the one who had the standard answers and was able to complete all the other parts of the answers in just five minutes.

But having delayed the ten minutes that he had just borrowed the pen, all that was left for Finn now was forty-five minutes.

Converted into seconds, Finn basically just about needed a word a second, which was still very difficult.

But after all, it was a night of hard work, how could Finn 's efforts be in vain, just at the last minute of the exam, Finn finally finished the essay!

"Shuffle!"

When Finn put down his pen, he only felt relaxed and especially comfortable.

This kind of unhurried feeling of racing against time was simply unimaginable if not actually experienced.

With only a minute left, Finn went back to check the answers again, not to look at the questions, but to scan the answers to see if there were any that had been missed.

After all, as long as it was written down, Finn could be sure that it was the correct answer, it had been rehearsed countless times, and it was impossible to make a mistake.

Although not backwards, but also can silently memorize the entire answer. The first website m.

After making sure there were no problems, Finn put down the exam paper, and it was just at that moment that the bell for the end of the exam rang, and everything was just right.

"The exam is over, the candidates put down their pens and are ready to collect the papers."The white-robed elder said, and then began to collect the papers.

When he arrived in front of Finn , the white-robed elder was a little surprised, "You even wrote the essay?"

"How about that, admiration?" Finn smiled proudly, after all, such a great difficulty, ordinary people could not do it.

In addition to the essay questions can answer all the minority, which involves questions seemingly related to cultivation, but more like math questions physics questions chemistry questions, as well as history questions geography questions as well as biology questions, intricate and complex, just to master these knowledge points are a minority, and in an hour to finish the answer is even more impossible.

Finn was looking forward to the white-robed elder's shock, and Li Zhuangzhuang popped out, "Silly fork, there's still time to write an essay, do you not know any of the questions in front of you, so you start to mask the answers ah?"

The white robed elder nodded his head: "Sun'er is right, but this set of questions was prepared by the Zhuang Master himself, and its difficulty is so high that it can't be finished in an hour, but you still have time to write an essay, and you still want to get full marks?Just delusional and daydreaming!"

The white-robed elder said he went forward to collect the questions again, and then he received Tiger's test paper, but he even wrote the essay as well.The unbelieving white-robed elder went forward to collect the test papers again, and all six vajra even wrote the essays.

"You people are really whimsical!"The white-robed elder shook his head helplessly.

Li Zhuangzhuang, on the other hand, laughed, " Finn , it's true that he's a near-vermillionaire, a bunch of big idiots!"

"sh\*t!" Finn squinted his eyes to hold back his anger, he knew that it was definitely against the rules to do it here, and he couldn't beat the white-robed elders, instead he would let the white-robed elders pretend to be selfish and take the opportunity to beat them up.

With a turn of his eyes, Finn spoke up, "Li Zhuangzhuang, aren't you spouting a lot of nonsense, then do you dare to bet with me!"

"Bet?What's the bet?"Li Zhuangzhuang was a little confused.

Finn smiled and pointed at the test paper, "Just bet on this set of questions, didn't you say we can't."

It dawned on Li Zhuangzhuang, without waiting for Finn to say the rules, Li Zhuangzhuang hurriedly said, "Betting is fine, but betting on all of you, if all of you can score a perfect score, I'll *fcking eat sh\*t* upside down and call you daddy!"

"Call me Dad? Spare me, I don't want you as my son." Finn ton looked disgusted.

Li Zhuangzhuang snorted, "Don't be poor here, just tell me if you dare."

"Why not? Then, as you say, bet upside down and eat sh\*t!" Finn 's chest, this set of questions is impossible to go wrong, besides, even if it's not a perfect score, he can still go to the wood bamboo and adjust it to a perfect score.

Finn had heard that the person in charge of marking the exam paper was Muzhu, and after all, he was the one who proposed the written requirement, so the hard work should be borne by Muzhu.

The company has been in the process of developing the new product for the past two years, and has been working hard to develop the new product. Just don't want to owe more to Muzhu.

But now it's different, as long as he can see Li Zhuangzhuang eat sh\*t upside down, Finn doesn't care about owing an extra favor.

"Fine, this bet is established, and whoever tries to deny it then, don't blame me Old Man for being polite!" The white-robed elder stepped forward and became a witness to the bet.

Finn sneered disdainfully, just in case the white-robed elder didn't take the bait.

Now he didn't dare to do anything to the white-robed elder, before that Wood Bamboo also said that martial artists were important to the Wood Spirit Villa, and the white-robed elder was still here at such an old age, he obviously chose not to leave the Wood Spirit Villa, and Finn was even more helpless to do anything about it. But to be able to see the white-robed elder's grandson, Li Zhuangzhuang, standing upside down and eating sh\*t, that was also considered humiliating to the white-robed elder.

Point blank, that was what was most infuriating.

In exchange for larger stakes, perhaps it would still be a bad debt at that time, but eating sh\*t upside down was still a practicable practice.

Li Zhuangzhuang also had a disdainful sneer, he was also winning. Even if Finn was blindfolded correctly, but with the addition of the six vajra, the chance of all seven people being blindfolded correctly was almost zero, so Li Zhuangzhuang wasn't worried in the slightest, and even started to imagine Finn 's face when the time came to eat sh\*t upside down.

"Go, go back and deliver the pen." Finn got up with a big wave of his hand, and Li Zhuangzhuang's side of things, Finn was considered to have put it aside for the time being, after all, the upside-down sh\*t-eating show was already booked.

It was still imperative to return the pen for the seven bald brothers, otherwise it would be bad to delay the next round of A\*\*essment starting later.

"Wait, those who have completed the A\*\*essment cannot go through the front door, all of them will enter the Wood Hall through the side door." The white-robed elder called out to the crowd as soon as he finished collecting the exam papers.

Finn frowned, "What else is there?"

The white-robed elder coldly snorted, "This is the rule, if you know the topic after the test, and the next round of personnel penetrate the question, you can't guarantee the fairness of the test."

This is very reasonable, Finn was also thinking before, what if there are penetration questions after the test, did not think that the Wood Spirit Villa has all arranged countermeasures, but his pen is borrowed from the bald ah, if you can not let the bald people to participate in the A\*\*essment, this is not a breach of contract.

Thinking, Finn is going to take out his phone to send a text message to Muzhu, let Muzhu come over to help send the pen, but a touch of the pocket but no phone, this time Finn just remembered just before the exam, the phone has been put away.

Finn suddenly fell silent, racking his brain to think of a way, if not to take the last chance to send the pen out, then can really be sorry bald seven brothers!

## Chapter 286

Although Finn wasn't cheating the seven bald brothers, but as long as he didn't return the pen, what was the difference between that and cheating?

The last thing Finn wanted was to disappoint someone's expectations, especially since Finn had also promised something in advance, if he dropped the ball now, Finn wouldn't be able to hold his head up in front of the seven bald brothers in the future.

With his eyes averted, Finn didn't think of anything to do, and at that moment, Ah Hu took the pen over.

"Ah Hu, what are you doing?" Finn frowned, it would be a bit too much for Ah Hu to mess up now.

Ah Hu said, "Ye Shao, I'm returning the pen for you."

"Returning the pen? You can't get out now, can you?" Finn was somewhat speechless.

Tiger explained, "The next batch of appraisers should be waiting outside the attic, as long as I shout loud enough, they will be able to hear me."

Finn's eyes lit up, and he had to say that this was a good idea.

Although this method was dirt cheap, but it was really practical, just like the ancient times before there were no telephones, it was by shouting, the primitive method did work.

Having received Finn's permission, Ah Hu came to the door of the loft and shouted, "Bald brothers, we can't get out of the A\*\*essment finished, the pen is at the door, hear back a message." Remember the website . . . net

But there was no response, but Tiger persevered, and shouted three more times.

Finally, on the third time, a response sounded outside the door, "Okay, I hear you, the door of the room is fine, we'll go in and get it."

Only when he heard the reply did Finn feel relieved, this voice was exactly what Bald Brother said.

After placing the pen at the door, Finn and Six Dajin just now A\*\*uredly followed the troop into the wooden hall.

Entering the Wood Hall Finn didn't have the heart to look everywhere, but worried if the seven bald brothers had gotten the pen.

The white robed elders are big bastards, if they take the opportunity to tamper with things, Finn can't help even if he is angry, after all, if so, delaying the written test of the seven bald brothers would be bad.

It was only after an hour of hard work that Finn saw the familiar seven figures at the entrance of the wooden hall, so he hurriedly welcomed them and apologized, "Brother, I'm sorry, they won't let me go out, I didn't expect this."

The bald brother patted Finn's shoulder and said, "It's fine, anyway, we have p Aed the martial arts Aessment sixteen levels, and are already inwardly set to enter the Wood Spirit Villa, we brothers seven brains were not smart, but we just wanted to come in and try to see how many points we could score. But when we saw the title we brothers seven straight head big, fell back to sleep, did not even open the pen."

Saying that, the bald brother smiled cheerfully and touched his big bald head.

Finn was speechless at the news, really didn't think there was such a person, but simply didn't delay the seven bald brothers to enter the Wood Spirit Villa, and the guilt in Finn's heart disappeared.

**“You guys are really amazing, you all passed the sixteenth level, it’s amazing.” Finn praised with a thumbs up, it really wasn’t a disobliging compliment, but a sincere one, after all, the difficulty was very high, and from the fact that only Ah Hu of the Sixth King Kong had passed the sixteenth level, he knew that it wasn’t that easy to pass.**

And by passing the sixteenth hurdle, in other words, the seven bald brothers would all be half-step martial artists, what a mighty seven brothers.

I really don’t know what kind of mother’s womb can give birth to such awesome seven, could it be a gourd child, growing from a vine?

Ah Hu also stepped forward and said, “Brothers are quite powerful, if you have a chance to cut a couple of points, you can also make progress together.”

The bald brother laughed and nodded, “I’m embarrassed to praise you, brother, I also remember you, you also passed the sixteenth level, let’s work together when we enter the Wood Spirit Villa in the future.”

“Right, I haven’t formally introduced myself yet.” The bald brother was disowned by Old Il before he remembered that he hadn’t introduced himself, so he began to introduce himself, “We seven brothers come from Tianshan Mountain, our names are also easier to remember, I’m Tian Yi, this is Tian Er, Tian San, Tian 4, Tian 5, Tian 6, Tian 7, you can also call us Tiantian brothers.”

“Indeed easy to remember.” Finn was a little sweaty, “My name is Finn, just an ordinary family, these six are my bodyguards, I’ve named them the Six Vajra.”

After Finn finished speaking, the six vajra also introduced themselves one by one.

After getting to know each other, Finn’s hanging heart relaxed.

“If you don’t want to fight, I’ll treat you guys to lunch.” Finn also smiled cheerfully, he just looked around, although the Wood Pavilion was a very elegant name, it was actually a small shopping mall.

A total of five floors, the fifth floor was accommodation, the fourth floor was a food center, the third floor was women’s clothing, the second floor was men’s clothing, and the first floor looked like a supermarket.

Although a mountain there is also a mall this is what Finn did not expect, but the existence is reasonable, after all, the Wood Spirit Villa living are also people, naturally need daily purchases, if there is no these places, the disciples always down the mountain, over time, will also be ordinary people to see the end, exposed Wood Spirit Villa can be bad.

Before Brother Tiantian could speak, Ah Hu suddenly exclaimed, “Grasping grass, isn’t there a pen for sale here.”

Finn also saw a large pile of pens on the bar at the entrance of the supermarket.

And then a brother who was p A\*\*ing by casually struck up a conversation, "Yes, there are pens for sale here, that's where we bought them just now."

"Grasping gr A\*\*, these two dog coins, they cheated us!" Finn was also furious, he didn't expect to still be set upon by Li Zhuangzhuang.

Tianyi also frowned: "This bad old man is indeed not a thing, just now when he handed out the test papers I felt that he didn't have a decent air about him, very uncomfortable, I didn't expect that this kind of thing could be done, really a bastard, just this is worthy of being an elder!?"

Tian Er seemed to have thought of something, so he opened the pen, followed by an angry expression as well, "Damn, brother, our pen really has been tampered with, all the pen beads on it have disappeared, to be able to get rid of the pen beads with such precision, it must be a martial artist's inner breath to be able to be so precise, it must be that bad old man's doing it!"

"sh\*t!"

Finn spat, fortunately only getting rid of the pen bead was proved by the knowledgeable Tian Er to be an internal interest and not by Finn and the others, otherwise they would have to take the blame again, this bad old man really wasn't a thing.

Fortunately, they didn't make any substantial damage, or else Finn would really be ashamed of the Tiantian brothers.

Bidding this thought farewell, Finn couldn't help but inquire, "Brother Tian Er, what is the internal interest you just mentioned? I've read fantasy novels that are all about aura, and I've never really heard of internal breath."

"It's a bit complicated to explain, don't you say treat, then let's eat while we talk." Tian Er said and went straight to the building body.

Finn nodded his head and also brought the Six Vajra to keep up with the Tiantian brothers.

Before, Mu Zi Ling didn't tell him the deeper knowledge of the martial artist, just in case Finn was greedy, but Finn himself was still quite curious.

What exactly was the internal interest?

287

For martial arts, Finn was still very eager.

Although he himself was not gifted with that talent, but the feeling of something from the novel he once read appearing in real life was quite amazing, and this was what Finn found most refreshing.

Even though these martial arts were destined to be something Finn couldn't learn, it didn't matter, after all, he still had six vajra around him that he could practice, and then there was still a ready-made crowd of Ye Island's War God Temple.

I remember when I first came across the Three Kingdoms period in junior high school, Finn especially wished to be like Liu Bei, with a bunch of elite men, even if Liu Bei himself wasn't the strongest, but his men were bullish and invincible as long as they were well commanded.

Of course, the state of Shu ended in tragedy, but Finn will not repeat the mistakes of the past, which is the value of the existence of history, is to prevent the younger generation to follow the old path, but to seek innovation.

By the time he thought of this, Finn had already arrived at the food center with the Six Vajra and the Tiantian brothers.

The name was very popular, and the stuff inside was also very popular, just spicy hot, covered rice fried rice, just snacks from all over the world, there was no difference with the general mall inside.

"Let's eat hot pot, be lively." Finn suggested to.

The best thing here is that there is a submarine fish, everyone eat also lively point.

Anyway, we'll have to stay here until the end of everyone's A\*\*essment tomorrow, so it's better to eat submarine fish and get drunk and sleep for a day. Remember the website . . . net

Finn had stayed up all night without sleep, and even if the car was given half an hour to catch up on sleep, it wouldn't work now.

Naturally, there was no need to say that the six vajra, Finn's words were heaven. And the Tiantian brothers did not refuse, so we found the largest private room to eat.

Waiting for the food to be served, Tian Er also began to explain, "The inner interest is similar in concept to the aura of the novel or something, but it's not absorbed from the world, and now that the Heavenly Dao has disappeared and the aura is depleted, it's impossible to absorb the aura. The main thing is that the intake of food is absorbed by the body after the transformation and storage in the body. Usually people don't transform it and it becomes fat, but martial artists have special cultivation paths that can transform and preserve it, and the inner interest also becomes life energy, which is equivalent to buffing people in the game."

"BUFF? How do you say this?" Finn was somewhat confused.

Tian Er scratched his head and explained after thinking hard, "I'm not a martial artist either, I heard all this from my seniors. For example, if you want to strengthen your strength for a short period of time and increase the power of your fist, you can transform life energy into your hand and the power of your fist will increase several times. For example, if you want to run fast, you can inject life energy into your legs, and you'll be able to turn into a scud. Or if you're injured, you can inject life energy into your wounds, and they'll recover as fast as the naked eye can see."

"My cao, that's really just like a buff!" Finn was shocked beyond words, couldn't imagine that life energy use was so wide, wouldn't that mean that as long as there was a lot of life energy stored, he would be able to be invincible, after all, hitting people is powerful, can't beat them but can also run fast, injured but also able to heal themselves, martial artists are simply against the sky.

Only Finn still had one more doubt, and couldn't help but ask, "I've seen a spacer, but is that considered the use of life energy?"

"What? You've actually encountered a superior person who takes things through the air?" Now it was Tian Er's turn to be shocked.

It was a long time before Tian Er slowed down and said somewhat ashamedly, "I'm really sorry, my mother was afraid that we were greedy and didn't say anything about taking things through the air, so I can't imagine how to take things through the air by relying on life energy, after all, life energy is used for itself in the end, and I can't imagine that kind of operation through the air."

Finn nodded at the words, as if confirming what was in his mind, "It's true that martial artists are still divided into levels, and the abilities of different levels are different. The life energy you just said is just the basic of a martial artist, and then there will definitely be different extensions in different directions, except that neither your mother nor my master will tell us, I feel that it's not that we're afraid of being greedy, but rather afraid of striking our self-confidence, so let's take it one step at a time, and when the time comes, I guess we'll be told more knowledge."

"That's right." Tianji nodded in agreement.

"Then let's eat!" By coincidence, the hot pot was also hot and ready to be served, so Finn waved his hands wide and prepared to get drunk and rest.

However, at this moment, the door of the private room was pushed open.

The one who came in was not a waiter, but Li Zhuangzhuang. Behind Li Zhuangzhuang was a group of people who also looked very young, and all of them had different costumes, and they weren't the exclusive costumes of the Wood Spirit Villa, so unlike thinking much, Finn also knew that this group of people had just participated in the Assessment.

The more you look, the more familiar you are, counting Li Zhuangzhuang in front of a total of twenty people, this is not the beginning of the martial arts

A\*\*essment to exploit the twenty people it, now suddenly come here obviously not the wrong room, should be premeditated revenge.

As soon as his eyes turned, Finn figured it out, now they are not the people of Wood Spirit Villa, private fighting is not considered to be breaking the rules, these people really will drill the loopholes as usual.

Tian Qi was closest to the door, and when he saw a large number of people pouring in, he got up to block them, "You're in the wrong place, this is a private room."

Finn clearly saw the viciousness that flashed across Li Zhuangzhuang's eyes and was suddenly upset, however, before he could speak, Finn saw Li Zhuangzhuang pull out an iron rod from his waist and struck it at Tian Qi's head, cursing at the top of his voice, "Scribbler, can't you see that we are smashing the venue?"

The words fell, Finn couldn't help but close his eyes, and then there was a scream, but different from Finn's suspicions appeared, the one who screamed wasn't Tian Qi, but Li Zhuang Zhuang.

Only then did Finn react, the Tiantian brothers could be half-step martial artists who had p A\*\*ed the sixteen hurdles, compared to Li Zhuangzhuang, Tian Qi was a lot stronger.

"Did you just scold me?" Tian Qi looked at Li Zhuang Zhuang with anger, the reason for the anger was not even because of Li Zhuang Zhuang's sneak attack, but because Li Zhuang Zhuang had cursed.

Seeing Finn's blinded face, Tian Er only said at Finn's side, "We Tiantian brothers are ashamed to say that we haven't been to school for a few days, we can't learn at all, just Old II can learn well, but it's only the third grade of elementary school, so we are all illiterate, the most annoying thing is to be told that we are stupid, this little fatty is looking for death ah!"

Finn was a little sweaty, Tian Er was obviously still wearing gl A\*\*es, but it turned out that he had only been in the third grade

288

Finn couldn't help but say, "Tian Er, why are you wearing gl A\*\*es, are you loaded with knowledge?"

"It's not that I've been playing too many games and my eyes are nearsighted." Tian Er scratched his head awkwardly.

Hearing that, Finn was a little speechless, but it was more understandable, after all, Tiantian Brothers' learning was also traceable. At this age and still listening to his mother and being afraid of being cheated, this image of a mother's treasure was inherently inconsistent with the temperament of the Tiantian brothers who were over one meter and nine meters in front of him.

It's not just a matter of time, it's also a matter of time.

It's not just a matter of time, but it's also a matter of time before you get to the point where you have to listen to your mother's words.

I guess they've been obsessed with martial arts all these years, but the rest of the world is a blank.

What's the word for it? That's right, 'dumb A\*\*'!

The Tiantian brothers in front of him were just silly, simple-minded, with developed limbs.

The only thing that Finn was glad was that he was good friends with the Tiantian Brothers, otherwise these simple-minded people would be compelled by Li Zhuangzhuang, then Finn's life in the Wood Spirit Villa would be hard after that.

Now that the situation was reversed, then the one in danger was Li Zhuangzhuang.

Moreover, Li Zhuangzhuang was still a self-exploding bomb, directly mentioning Tian Qi's pain, and he probably wouldn't even stop until Tian Qi got himself killed.

"Pain! Let go!" Li Zhuangzhuang's shrieking head turned to the nineteen people behind him, "What are you guys still watching, hurry up!"

"It's not our turn to be ordered by you, we don't care if you foolishly mess with this big one, we're here to get revenge on this kid." A young man in a tang suit glanced at Li Zhuangzhuang, not moving at all, just pointing at Finn.

The spearhead that the tang-clad youth recognized was Finn, and not anyone else.

And they are just below the A\*\*essment also know that the Tiantian brothers are strong people through sixteen tubes, and they can't get along with them, so it's not asking for trouble.

The others also understood what the Tang Clad Youth was thinking and nodded, then didn't care about Li Zhuangzhuang, they rushed straight at Finn.

"Deserved it!" Finn also raised a middle finger at Li Zhuangzhuang and then directly hid behind the six vajra.

Now that most of the effects of the Power Pill had p A\*\*ed, his three-legged Kung Fu was really no match for the nineteen people in front of him.

Finn could only hope that the Six Vajra would be able to beat these nineteen guys, and as for the Tiantian brothers, Finn had no hope then. After all, it was just a one-sided encounter, to say that there was no too much friendship, to take the

initiative to ask for help, the other party may not necessarily agree to help, it was better to just stand by.

If Brother Tiantian was willing to help, even if Finn didn't ask for it, Brother Tiantian would still be on board.

Now, Finn already owed Brother Tiantian a favor, but he didn't want to owe him any more, and it was really hard to repay a favor.

But Finn forgot that the biggest character of the Tiantian brothers was straightforward and jealous, seeing that Finn was about to be bullied by a bunch of people, Tian Yi directly stood out and said: "Brother Ye invited us to dinner is to give us face, mother said, others are good to us, we can't be ungrateful, everyone on!"

As soon as this was said, the Tiantian Brothers rushed out before the Six Vajra could make a move.

The joining of the Tiantian Brothers was like a wolf entering a flock of sheep, the battle power was simply disproportionate, and without waiting for Finn to react, the Tiantian Brothers were like beating up little children, punch by punch, and in the blink of an eye, they directly took care of the nineteen people in front of them.

As for Li Zhuangzhuang, he was directly crushed by Tian Qi's hand bones and p A\*\*ed out from the pain.

"Lie....f\*ck" the one who exclaimed was not Finn but Ah Hu.

Finn actually didn't even know about the disparity in strength, he hadn't reached that realm, so it was just that much to see the Tiantian brothers win, he was just a little touched by the Tiantian brothers' shot.

But Tiger was different, he had also p A\*\*ed the 16th level, but it would still be simply impossible to say that he was allowed to defeat one with one punch and achieve this kind of melon cutting effect.

Don't look at the fact that he also p A\*\*ed the sixteenth level, the difference wasn't just a tiny bit. Ah Hu even felt that Tianyi was twice as strong as him, but that was it, he wasn't even a martial artist, so how was a martial artist supposed to achieve it ah.

Ah Hu was a little afraid to think about it, and his original confidence was a little shattered.

Although Finn didn't know what Ah Hu was thinking about, he took the initiative to ask when he saw Ah Hu's bad face. Ah Hu also said what he was thinking, and after hearing Ah Hu's words, Finn also fell into shock, I didn't think that Tiantian Brothers was so strong and still not a martial artist.

Even Ah Hu was so desperate, then wouldn't it be hard for a half-wit like Finn to become a martial artist?

Having just solved twenty troubles in front of him, Finn was quite happy, but thinking about the future path of cultivation, Finn could not help but feel disheartened. His goal was already very low, that was to become a martial artist, it would be good to have the ability to protect himself.

When he heard Tian Er say that a martial artist would be able to repair himself by having internal energy, Finn felt that it was enough. After all, to be able to slip fast and still heal oneself, that was already a skill to protect oneself.

But he never expected that it would be so difficult just to become a martial artist.

No wonder a martial artist was already the mainstay of the Wood Spirit Villa, it would have been very difficult to become a martial artist as well.

"Forget it, why think so much, let's eat and eat!"

Finn threw his head back and after dismissing those thoughts, he patted Ah Hu's shoulder.

Anyway, these are all future things, who can say what will happen in the future, for example, Finn never dreamed that he was not an orphan, but the young lord of Ye Island, maybe there will be some strange encounter to become a martial artist instantly.

The first thing you need to do is to take one step at a time and see what happens next.

Before Finn didn't know the martial artist before, not also as usual live well, martial artist seemingly awesome, but not to become a martial artist is not a sure death, just can't better pretend, after pretending to be guarded point don't be sneak attack just.

However, Finn always believed in one belief, which was personally given to him by his grandmother. Not to actively cause trouble, and not to be afraid of anything in a situation.

Finn didn't believe that if he didn't take the initiative to cause trouble, those martial artists with eyes above his head would take the initiative to find him. For example, when he had met with Wood Bamboo for the first time before, Wood Bamboo had only told Finn to leave, and didn't say that he wanted Finn's life directly.

So it wasn't like a martial artist would drive him to extinction, it was just a matter of fact.

“Ah Hu, you tie up these twenty people and leave them in the corner.” Finn said casually, anyway, the private room was big, there was still room to throw twenty people.

Most importantly, Finn didn't want to let twenty people out.

Although Finn is not afraid of things, but these people out will definitely make a comeback, Finn but hungry, wait until they are full and then let out these twenty people continue to make trouble, just as a seasoning for after dinner.

Avoiding twenty people screaming, Finn asked the waiter for twenty rags to gag twenty people, and I must say, very effective, these people woke up and couldn't scream.

Finn and the people to eat naturally happy leisurely, a meal actually ate a full three hours before the end.

If it wasn't for Finn 's velvety drunkenness, Finn would have been drinking for a few hours.

“Brothers continue to eat, I'm going up to bed first.”

Upstairs was the residence, so Finn didn't need anyone else to help him, and after leaving a golden card for Ah Hu, he left alone, leaving the Tiantian brothers and the Six Vajra to continue drinking against each other.

Finn also saw Ah Hu's mind, the force was incomparable, but this thing of drinking had nothing to do with the force, so the six vajra was trying to f\*ck the Tiantian brothers in terms of drinking.

For this kind of competition, Finn would not participate, anyway, no harm done.

As soon as he reached the floor of his residence, he fell to the ground and fell unconscious.

In his dream, Finn dreamed that he saw the river, he was like a god descending from heaven, he took off his pants and nourished the river into the ocean, it was so refreshing.....

When Finn was awake again, looking through the window, it was already dawn. The first website m.

It was true that he was again and again drinking broken tablets.

The difference from before was still there, however, Evan still had his clothes on and there were no other women around, so he was alone in a single room.

"Who could have helped me in?" Evan rubbed his temples, trying his best to recall yesterday's scene, but there was no memory of it.

"Forget it, don't want to, I guess the six villains saw me fall in the hallway when they came up." Evan threw his head back and was about to get out of bed to wash his face. The taste of waking up from drinking was really unpleasant, not just dry mouth, but also dizzy.

But as soon as he got out of bed, Finn felt his crotch chill, and when he looked down, Finn couldn't help but exclaim, "Damn, who took my pants off!?"

Yes, Finn's clothes were intact, but the pants had disappeared.

Finn even got back inside the nest and looked around for traces of the pants and trousers.

"Could it be that I've been drunk and used five girls?" Finn looked at the backs of his hands and found that there was nothing dirty, and he couldn't think of anything.

However, at this moment, the bathroom door opened and a woman with long hair and a bathrobe came out and it was none other than Lan Luo!

"Luo...Luo Lan, why are you here?" Finn quickly pulled the blanket on the bed, but now he was butt naked, so he couldn't be seen.

Even if Luo Lan is his fiancée, but Luo Lan obviously wants to dissolve the marriage, so Finn has a barrier in his heart and doesn't treat Luo Lan as his woman.

Moreover, even if he was, Finn wouldn't be unashamedly naked, that scene Finn felt ashamed even thinking about it.

"What, you're not going to recognize anyone if you put your pants up?" Lan Luo's eyebrows furrowed, but seemed to have thought of something and then suddenly said, "Right, you're also not wearing pants right now, you're naked."

"You you you, how do you know?" The more Finn listened, the more frightened he became, it was no longer a smell of a story, but a cargo existence story, and the male lead of the story, it was definitely him.

Finn quickly tried to recall what happened last night, but still could not think of the slightest.

But seeing Luo Lan's application, it seemed that he was the one who had misbehaved with Luo Lan, and had probably done something irrevocable like that.

"I'm sorry, I was too drunk to remember, if I did something wrong to you, I hope you don't mind, I'm willing to use the rest of my life to make it up to you."Evan scratched his head, his face serious.

He wasn't one to give up at the beginning, even if he didn't remember, but if he instinctively did something while he wasn't sober, he would have to pay the full responsibility.

Seeing Finn 's serious expression, Luo Lan puffed out a laugh.

Just when Finn was puzzled, Lan Luo explained, "I came out to buy water last night, and when I saw you lying in the corridor, I carried you back to the house, I wanted to help you wipe your body and get rid of the alcohol, but you were good, you directly took off your pants."

Hearing this, Finn knew that he must have done something confused.

But didn't wait for him to apologize, Luo Lan said again: "You take off your pants and want to go to the toilet, you can't drink, don't drink so much, drum panic not to say, but also play alcohol madness everywhere nuisance, if not for me to push you to the toilet, this room are urine smell.If I hadn't pushed you to go to the toilet, this house would have smelled of urine.Do you know how much my clothes cost, you have to compensate me for ten sets of clothes!"

"Huh?" Finn was blinded, but when he saw Luo Lan's staring eyes, he hurriedly agreed evenly, "Alright, alright, don't say ten sets, a hundred sets will do."

Finn didn't expect that the pants were gone but he actually took them off himself, and it was simply to pee, it was really ridiculous enough.

En?

Finn suddenly thought of the dream he had, nourishing the river into a wan – ocean sea, it turned out that he was not doing something bad, it was simply urine suffocation....

While being glad that he didn't lay a hand on Luo Lan, Finn couldn't help but feel a little despondent.

After all, Lan Luo was such a good-looking girl, and her body was full of healthy lines, as well as her charming temperament and incomparable strength, to be able to conquer such a woman, Finn would have a great sense of accomplishment.

The first thing you need to do is to take a look at the newest models, and then you'll see the newest ones.

It's not just the financial aspect, but the emotional responsibility of the spiritual aspect, as well as the physical can't stand it either.

One night Thirteen, I'm afraid, couldn't afford that many girls either.

The thoughts were all in a brief moment, and Evan quickly shrugged them off, dismissing the ridiculous thoughts.

“That, can you turn around for a moment while I go find pants to put on.”

Evan suggested, otherwise he wouldn't be able to get out of the nest like this, and Luo Lan couldn't get in with her towel around her. This is the single room, just a very narrow bed, two people must be stuck together if they lay together.

It's easy for Finn to get drunk, and it's not good if he is stimulated to do bad things.

The first thing you need to know is how to get rid of the problem, and how to get rid of it.

After mumbling three times, Finn scampered into the bathroom to look for the missing pants....

290

“Fine fine.”

Finn shivered and put on his pants, not to mention, Finn felt a sense of security after putting on his pants.

It was only after washing his face that Finn felt clear-headed and went out of the bathroom.

The first thing you need to do is to get out of the bathroom and get into an awkward situation.

The most important thing is that Luo Lan on the bed was just wrapped in a towel, and didn't enter the bed, just sitting there dumbly, looking very aggrieved.

“What's wrong with you, why don't you go in?” Finn found that there was something wrong with the words after he finished speaking.

Now that the lone man and woman were inside a single room, Finn's words were really very ambiguous.

Especially when he saw Luo Lan's exquisite collarbone that couldn't be covered outside of her bath towel and her white thighs, Finn felt his little heart pounding wildly.

“That, I mean it's cold outside, you can still get warm by going inside the nest.”

Finn added to add another sentence. Remember the URL . . . net

But Finn 's words were clearly redundant, he didn't say it was fine, after he said it, Luo Lan's face became more and more red. Without thinking too much, Finn knew that Luo Lan must have been thinking wrongly, so he explained again, "I didn't mean that, what I meant was that this house is a bit cold, you're still wearing little, so you might as well go inside the blanket to get warm."

Luo Lan replied after it dawned on him, "How can I go in? You're all covered up with this blanket, and this is a single room and this is the only blanket."

"You mean you don't like me?" Finn was a bit helpless and angry.

Even though he had drunk too much, his body wasn't dirty, it was just a blanket cover, so how could he be so disliked by Luo Lan?

Only that Luo Lan was unwilling to go in, and there was nothing that Finn could do about it.

"If you don't go in, then I can go in." Saying that Finn was about to enter the den.

However, before Finn could move, Luo Lan got up and pushed Finn out of the room at once, "Now that you're awake, then you can find your own room, why are you still relying on me to stay?"

"It's probably early in the morning and no one's giving rooms, it's still cold outside, so why am I going out?" Finn blocked the door, not wanting to go out, this is not inside the Mudou, but the Mulin Villa, the altitude here is more than a hundred meters, the temperature is not very high, especially still in the morning, and there is still some mist, the air is even cooler.

If he went out right now, plus he had taken the Power Pill earlier, his body was exceptionally weak at the moment, as well as the weakness he had after drinking alcohol. Both together, Finn 's body could be said to be very weak right now, and with such a warm room, he would have to go out to suffer if he didn't stay?

However, no matter what Finn said, he was still pushed out of the room by Luo Lan after all, Finn was rather helpless, but couldn't resist anything, after all, Luo Lan was a single woman, she was in Luo Lan's room for so long, if other people saw her, they would definitely misunderstand, Finn originally said that he wanted to give Luo Lan a clean slate, and also Luo Lan was single.

Now if this is done, don't tell me that when he will talk to his mother about dissolving the marriage, she won't agree. Not to mention that it's not good for Luo Lan's reputation now.

Helplessly, Finn left the room, and without much thought he arrived at the food center.

He actually had one more doubt, that is he fell down here p Aersby wouldn't pick him up, but after the six vajra came up, they would definitely help him inside the room, but why was still found by Luo Lan? It was Aumed that the Six Vajra

should still not have left the wine table. With this thought, Finn pushed open the previously booked compartment.

As expected, just as Finn had predicted, the six vajra were sleeping on the wine table, and the air emitted a somewhat foul smell of alcohol. Looking at the beer bottles all over the floor, Finn didn't even check carefully, roughly sweeping away, there were almost a hundred and eighty beer bottles all over the floor. In addition to these beer bottles on the table there were more than twenty white wine bottles, all of which were filled with one pound.

"How much wine is this f\*cking drink?" Finn was somewhat speechless, although the six vajra wanted to win over the daily brothers with this, but it didn't need to be so raw ah.

Regardless of how well the Six King Kong slept, how well the Daily Brothers slept, what made Finn laugh and cry was that the twenty people tied up inside the corner were actually still inside the corner.

Because previously, Finn had said that only if they all left the private room would the twenty people be released, but what Finn didn't expect was that the six vajra would drink all night, which caused the twenty people to have no chance of being released. When Finn entered the room, in the past the Six Vajra would have gotten up immediately, but now the Six Vajra didn't make the slightest movement, only grunting sounds, thinking that they had already drunk to the point where their minds were not clear, and the Tiantian brothers were the same, also only grunting sounds. But the twenty people huddled inside the corner hadn't eaten anything for a day and a night, not only were they starving, but they also had to endure the grunts of these drunk people, it was simply a great torture.

So after Finn came in, these twenty people howled vigorously, and although there was a rag on their mouths to block it, they were able to make some faint noises.

Finn turned his head to look at Li Zhuangzhuang, Li Zhuangzhuang had long since lost his previous anger and impulsiveness, and there was only praying and pleading in his eyes. It seemed to be asking Finn to quickly let them go, because they really couldn't stay here, this was simply not a place where people could stay. Finn also felt the same way and covered his nose and came to the side of the twenty people.

Although the Tiantian brothers and the six vajra did not show the slightest sign of waking up, but Finn still dared to untie these twenty people for a day and a night, under hunger these twenty people were actually weak and unable to exert any ability, so Finn was also not enough to be afraid of.

After loosening these twenty people, Li Zhuangzhuang rushed out of the room without even the slightest rebuttal, as did the rest of the nineteen people. From Finn's point of view, these twenty people were walking shakily, clearly hungry and sleepy to the point of exhaustion. What made Finn laugh and cry the most was that one of the kids was desperately covering his stomach as he walked,

thinking that he should want to go to the toilet. To be able to hold it all day and night without going to the toilet, these people also have something ah.

Finn shook his head and quickly shook out the thoughts in his head, the smell of the place itself was rather foul, it would be too disgusting to have images in his head.

Hearing the grunts all over the room, Finn pinched his nose and slapped down on the table, "Damn it, all of you wake up!"
