

I'm Richer Than My Billionaire Ex-husband Chapter 146

Alina's side of the action is also fast, has sent Andre and Penny to the plane, before boarding the plane, Andre told her a lot of instructions.

Tell her to move fast, Ingford is not the place for her to stay.

After her reassurance, Andre and Penny got on the plane and left!

Just after leaving the airport, she received a phone call from Tomas, who told her that Caleb was in the hospital.

Alina scratched her hair, "I already know that!"

No, this Caleb is in the hospital, what's the point of calling her?

"Do you want me to pick you up?" Tomas on the other side of the phone was quite respectful, but Alina's side was a little more baffled.

"What are you doing here to pick me up?"

During this period of time, probably because of Penny, because of the high level of nervousness, so this Alina's reaction are also slow.

If it was before, it must have jumped up and down and cursed, and then just hung up and said the hell to see him and so on!

And now, it's not at all clear why Tomas called her.

Tomas on the other side of the phone froze for a moment, he had made it so clear, obviously not expecting such a reaction from Alina.

With a dry cough, he said, "Madam! Need I remind you that just a few days ago, you reissued your marriage license with Mr.!"

The word "madam", Tomas, is particularly strong.

At this moment, Alina instantly remembered the marriage certificate

Things!

I have to say, if Tomas didn't say something now, she would have forgotten about this

That damned man, talking about this, Alina had to stabilize a sentence: "Right oh, so when we go to do it?"

“What does the lady want?” Caleb’s harsh voice came over the phone.

Alina: “.....”

Do, do what?

Of course it’s about getting a divorce certificate!

“Caleb, I’m not finished with you.” With these words, Alina hung up the phone in anger.

Does this man really think she’s a monkey?

In such a big thing as remarriage, but also what he said is what, really the more you think about the more angry!

What the hell is this and what the hell is this?

When the marriage is not her own decision, even if it is, it is not easy to be proud of the divorce once.

Now there is silently knocked back by him!

“Buzz!” A vibration, a message.

Clicking on the message, even through the screen, Alina could probably feel the brutal attitude of the man on the other side of the phone.

“Get to Central Hospital now!”

“Why doesn’t your brother beat you to death.” Alina jumped to her feet in anger.

Especially the threat in his tone, as if she did not go today, the dead man will do something terrible.

In fact, Caleb would really do something like that.

Alina is angry, but there is nothing she can do about Caleb.

After a few minutes of anger, she went back to Mulherd Manor and then took a slow trip to the hospital.

Coincidentally, I met Emma in front of the hospital with a thermos bucket in her hand, and it looked like she was visiting Caleb.

When she saw her, Emma naturally did not look good: “What are you doing here?”

Alina regrets it!

It was time to bring Pola with her, and what's worse is that Pola is out and about all the time these days, not to help her!

She still has to look at the grandmother's face.

"Do I need to remind you of my current relationship with Caleb? I seem to have regained an entitlement now!"

"What rights?"

"The right to kick you out of the house!" Alina said in one word.

The last time I was in a hurry to get a divorce, so I ended up pestering Emma about it, and she didn't go through with it.

If this were a person, it would certainly be to tear her hands clean before they would stop.

This woman doesn't stop!

In an instant, Emma's face was blue and white, and she looked at Alina with more resentment, "What do you have to be proud of?"

"....."

"Bring the child to Collins Castle, will you? Even if the whole of the Collins would accept it, he wouldn't accept that bastard!"

"Slap!" With that, Emma was slapped hard on the face.

People come and go in front of the hospital.

All eyes fell on Alina.

Emma saw everyone's eyes falling on this side, and instantly her heart came to a plan, "Alina, how can you hit me."

Her hand over her face, aggrieved look at Alina, under the eyes of Han Lei, more let everyone a burst of sorrow.

Especially since Emma was in a wheelchair, and now that Alina was doing this, everyone started pointing at Alina.

Some people even pulled out their cell phones to take pictures!

“How can you do this to the disabled?” “Yes, who is this woman, how do I look familiar?”

The crowd was already talking, and it was clear that Emma was now on the weak side, gaining sympathetic glances.

Emma heard the crowd talking like this, but even more effort to squeeze out the tears.

When Tomas came down, he saw the two of them in such a scene, and he felt more resentment towards Emma!

She’s got this whole thing going on

“Lady Alina,” Tomas called out respectfully, especially when he saw the crowd, and felt bad.

However, Alina was easily solved in an instant with this Lady Alina.

Looking at Emma’s pitiful look and being pitied by the crowd, he stepped forward and grabbed the thermos bucket from her hand.

That brutal appearance, so that the crowd among the voices of the stronger talk about her, at this moment is therefore a backward breath: “really too much!”

“Yes, so many people are watching, how dare she?” Obviously, everyone present did not expect that Alina would dare to do this to Emma in full view of everyone.

Tomas was also confused by Alina’s actions, and a cold sweat broke out on his back.

However, the crowd’s discussion Alina as if they did not hear the general, looked at the thermos bucket: “for him to make soup?”

“You

“His soup, I as a wife did not send, you are rushing, people who do not know still think you are his wife!”

At the end, the word “wife” was bitten very hard by Alina.

The crowd, which had just been pointing their fingers at Alina, was instantly in an uproar, and some people recognized Alina and Emma at this time.

The original pity for Emma’s eyes, in Alina’s words, instantly turned back.

“It’s a third party after all!”

“Yes, yes, this woman has been so long, how can she still have the face? Really want to break up the marriage?”

“Yes, how can there be such unethical women in this world!” At this point, the crowd basically recognized Alina and Emma.

Emma, on the other hand, turned blue instantly.

Alina threw the thermos into her arms, “It’s fishy and disgusting!”

At this moment, the scene has no sympathy for Emma’s voice and eyes, as Alina that ‘disgusting’, looking at the dirty things in general.
