

I'm Richer Than My Billionaire Ex-husband Chapter 224

In the sick room.

Emma had woken up, her face pale.

On her forehead, all because of the pain and low sweat, the moment she saw Caleb, she moved away her eyes after a glance at him.

The moment she looked out of the window, all over her body exuded an air of desolation.

"Why did you save me?" In her tone, it was all pain.

Caleb, "Don't do such a foolish thing."

After all, there are some foolish things that once done, there is not even a chance to regret them, and today, it is considered that she is lucky.

Emma, "I no longer have a way out."

When she said this, her tone was even more sorrowful.

She was forced to even have no way out.

"Caleb, I just wanted to be by your side, I didn't expect that..."

Didn't expect to be pushed to such a point by Alina?

The people who knew the former Alina naturally felt that she could not do what she is doing today.

But she changes, and the more she experiences injustice, the more she grows and changes.

The contrast between Alina's experience in the world and the way she grew up was so powerful that it even broke her faith at one point.

"She's totally trying to force me to die." Emma sobbed as she looked at Caleb with endless grief in her eyes.

Caleb frowned.

In his eyes, some unreadable emotions flashed.

No one could see clearly what was going on inside Caleb's mind at the moment.

Whether it was Alina or Chester.

Both of them were now attacking Emma fiercely, as if they were trying to drive her to extinction.

In this instant.

There was a moment of clarity in Caleb's mind.

Emma cried out in a pitiful manner.

Although she had often done those bad things to Alina, she was now telling the truth.

Now Alina, even if she was forced to die, probably wouldn't stop.

.....

On the way back to Werland Villa.

Tomas apprehensively looked at Caleb.

Caleb, "How come Chester hasn't left yet?"

"Master Chester is very tough this time, it seems that he must stay in this city." Tomas had used all the methods he should have used.

However, he didn't expect Chester to be so tough, and now there was no half-hearted response.

Caleb was already full of chills, and now when he heard this, he felt even more that Chester and Alina were bitches.

Especially after he was injured, Alina didn't even come to the hospital once, and she even got so close to Chester time and time again.

During this period of time, he did not believe that they had no news of his injury.

No, they, in fact, all knew.

Even if they knew, they were still so close. Did they really think he was dead?

.....

Emma's mind was in turmoil.

After reading that document, she couldn't sleep even for one night, her mind was full of the fact that Alina would have to get back everything.

Kara came over.

This was the first time Emma had seen Kara since she had moved to Werland Villa.

Kara looked at Emma's medical report and looked at Emma with a not-so-good face, "You're for real.

Emma, "What do you mean?"

Kara looked at the cunning flicker in Emma's eyes, and she was startled by it.

The women around Caleb were more and more theatrical than the others.

"Are you unwilling to return those to Alina?"

"Return to her? How is that possible?" How could she possibly give them back to Alina?

Those things were all things that she had managed to get, especially now that Caleb already knew that the person that night was not her.

Although there was something from two years ago to bond them together, Emma knew very well that this situation they were in now would definitely not be the same as these three years.

In fact, Caleb was a cold person.

Even with that night and the incident from two years ago, his attitude towards her was still so indifferent.

Now that he knew about that night, there was no telling how cold Caleb would be now.

When she thought of that, Emma's heart was very uncomfortable.

"Those are my hard-earned possessions, how can she take them back?" Emma said fiercely.

In her tone, she was full of hatred.

Yes, getting those things from Caleb all these years was actually not easy for her.

So, now Alina wants her to give it back?

Dream on.

"But Alina is pressing you every step of the way." Kara was talking about Alina's tactics.

It was also because of these tactics that Kara couldn't even help but be alarmed.

“Yeah, she’s pushing every step of the way, but I won’t give it back to her.”

Things had come to this point, Caleb always had to find a way to solve it, didn’t he?

Emma naturally knew very well that it was impossible to force Alina back now.

Alina, long ago, was not the same Alina back then.

There was always a sunny feeling about Alina, she was so high and mighty, the only daughter of her family favored by her parents.

Whereas Emma was from the countryside, her mother was still the nanny of Alina’s family.

She remembered that the first time she wore pretty clothes, it was those clothes that Alina didn’t wear anymore that her mother gave her.

Even the clothes she didn’t wear were so pretty and the clothes were so new.

But even if they were that beautiful, she wouldn’t want to wear them, there was always a very inappropriate feeling when someone else’s clothes were worn on her body.

She would rather wear cheap clothes than wear Alina’s new clothes.

But every time, all she got was a curse from her mother, and her mother had to raise both her and Hope.

Therefore, there was no extra money to buy new clothes for them.

Later, her mother managed to secure the opportunity for her and Hope to go to Hughes’ house for dinner together after school.

Usually, they went to the same school as Alina.

At that time, she was exposed to Alina’s world for the first time. Her family’s house was so big and beautiful.

Even the bathroom in her house was bigger than the house her mother rented.

That was when she vowed, definitely, to live a rich life.

Now, she finally got it.

Now Alina wanted her to spit it all out, surely she would not agree.

So now, even if she used all her tricks, she would not spit it all out and return it to Alina.

All of this was hers. What was already in her name was hers, and no one should try to take it away.
