

## Immortal 105

### Chapter 105: black wind poison fire

Koizumi Mountain.

Peak Taoist Temple.

The five-colored clouds are shrouded in mist, making it impossible to see what's going on inside.

The Taoist temple occupies an area of more than ten feet in a circle, with two entrances in the front and the rear. If it is not enough, it can be expanded by itself.

There are distinct classes in the world of immortals, and every time a cultivator rises to a level, he can naturally reduce many restrictions until he can do whatever he wants.

The front yard is used to entertain guests, and the back yard has opened up a practice room, an alchemy room, a medicine field and so on.

The blood vine demon is like a crimson python, lying in twists and turns in the medicine field.

Earth-level spiritual veins, the essence of one continent, even in the marginal area, the spiritual energy is several times that of Xiaodan Mountain.

Zhou Yi sat cross-legged in the practice room, and the mana of the Returning Yuan Jue in his body had been completely transformed, from light blue to five colors.

Since there is no spiritual root, the five elements of Qi cultivation for more than 200 years have been completed, so that the five spiritual scriptures can be cultivated so quickly.

"Try the Five Elements Escape Technique!"

Zhou Yishou pinched the magic art, urging the yellow mana in his dantian, and his figure slowly sank into the ground.

"The speed of travel is slower than that of Tuxingzhu, but with the improvement of proficiency and realm, it will be able to surpass it sooner or later. Moreover, the five elements rotate, and if you encounter gold, iron, and dark rivers blocking the road, you don't need to go around."

After experiencing the Five Elements Escaping Technique one by one, Zhou Yi slowly collected his work, and then it was the water mill work.

Until the mana of the Five Elements changes, follow your heart, like an arm, you can achieve nothing within the Five Elements.

"More than half a month has passed in the blink of an eye, and it's time to pick up the errand in the sect."

Zongmen errands are the only way to stably obtain merits. Other temporary tasks are either difficult or looted by many people. Zhou Yi specified that he would not join in the fun, and maybe someday the task will be released.

Zhou Yi used the method of earth escape and came to the foreign affairs hall.

The dozens or hundreds of Qingpao disciples in the Qi-Refining stage gathered on the first floor were all waiting for a new temporary task, and they might be able to grab a simple and meritorious errand.

For example, a real person or a real monarch needs to take care of the medicine garden. This kind of task is easy, and it can also make friends with elders.

Suddenly seeing someone coming out of the ground, they all showed a surprised look. It was the first time I saw such a monk who didn't care about his image. When he saw the clear blue robe, he quickly bowed and saluted.

"I have seen Uncle Master."

"Um."

Zhou Yi was slightly startled and responded with a smile.

He has been cultivating immortals for nearly three hundred years, and it feels quite good to receive so many cultivators.

He went directly to the third floor of the Foreign Affairs Hall, greeted the three colleagues with a smile, and then said to Li Mu.

"Brother Li, this time, the younger brother is on an errand from the sect leader."

"Good talk, good talk."

With a smile on his face, Li Mu took out a jade slip and said, "The errands that are currently lacking are all in it. Junior and brother choose at will, and choose whichever you like."

"Thank you, brother."

Zhou Yi couldn't figure out the temperament of the three, so he didn't deliberately flatter and give gifts, and his divine sense swept across the jade slip.

The headquarters of Dandingzong is thousands of miles in diameter, and its area is comparable to that of more than a dozen imperial capitals in the previous life. Even if most of the boundaries are mountains, rivers and lakes, there are many places that need to be looked after and taken care of.

Among them, the top errands, such as guarding the palace, guarding the medicine field, alchemy refining, etc., are all marked with full capacity.

Medium errands, such as public speaking, mediating disputes, assigning chores, etc., still have some gaps in errands, but they take up a lot of time, and if they are not handled properly, there will be follow-up troubles.

Low-level errands are basically short of people, or they won't last long, so they look for opportunities to get better errands.

Zhou Yi checked them one by one, and removed those that took a long time, those that dealt a lot with people, and then removed the errands that were jointly managed with several real people.

Adding up these three conditions, basically 90% of the errands were eliminated, and there were not many things for Zhou Yi to choose.

As a new entry-level real person, Dan Dingzong chose a free practice method, which allowed Zhou Yi to see the opportunity of prostitution, so he had to deal with people less, so as not to make acquaintances suspicious.

Zhou Yi glanced over the only remaining errands, and finally settled on one of them.

"Thinking Cliff, Batu Caves..."

Siguo Cliff is located on the shady side of Shenhuo Peak. There is a cliff several hundred feet high, straight up and down.

There is a strange cave in the middle of the cliff leading to the depths of the earth veins. Black wind and poisonous fire spew out all year round. Apart from refining wind and fire instruments, there is no other purpose.

There are many people in the Danding Sect, and there are many people who violate the rules of the sect. For ordinary mistakes, they will be deducted for meritorious deeds. If they are serious, they will be punished by Siguoya Cave Blowing.

"I am on duty at the Batu Cave of Siguoya, and I am responsible for taking care of the punished disciples, so that the black wind and poisonous fire will not enter the body, and it will be too late to save the body and death."

"Affected by the black wind and poisonous fire, the spiritual energy is chaotic and dirty. You can't fish for practice while on duty in the Batu Caves. The sect has repeatedly improved the merit awards, and few people are on duty!"

Zhou Yi stared at this errand for a long time, and was very satisfied in every aspect, so he returned the jade slip.

"Senior Brother Li, I decided to go to Si Kuoya to be on duty."

"Okay, eh?"

Li Mu said stunned, "You can't practice in the Batu Caves, are you sure?"

Xiuxian asked, the first and foremost is cultivation, the cultivation realm has improved, and there is no shortage of merits. Jindan Zhenjun in the sect can earn a lot of merits by preaching and refining alchemy casually.

"Sure."

Zhou Yi sighed and found an excuse: "Four spiritual aptitudes, breaking through the foundation building is a fluke, if you want to have a chance of forming a pill, you can't just rely on hard work."

"I see."

Li Mu nodded in agreement, and entered the sect errand into the identity token.

At the entrance of Batu Caves, there is a formation restriction. Those who have not received the errand cannot open or enter the token, and other errands have similar restrictions.

"Thank you, brother."

Zhou Yi suppressed the joy in his heart, and when he had less contact with people in the Batu Caves, he could easily change his identity and receive a few secret techniques for protecting himself for free.

"Senior Brother Xiao, can you check the foreign affairs of exorcism now?"

"Any time." Xiao Yuan said and handed a jade slip.

Zhou Yi's consciousness swept across the jade slip, and he couldn't help shaking his head slightly. The foreign affairs that can be executed at present are all picked and left by others, and the degree of danger is quite high.

There is a huge gap in the difficulty of exterminating foreign affairs, and the sect is only limited to one piece for ten years.

So the simple tasks were rushed to do, and the difficult tasks were left unfinished, so Xiao Yuan, who knew the tasks in advance, had amazing power.

"Thank you, brother, I will practice for a while."

Zhou Yi returned the jade slip, came to Xuan Yi again, and respectfully said: "Senior brother, can you give me a general list of exercises, Junior Brother Rong will study it carefully, and exchange it when the merits are enough."

Xuan Yi's eyes seemed to be closed, and without speaking, he threw a jade slip directly.

Zhou Yi's divine sense swept over, his face was surprised, and he thanked him: "Thank you, brother, for your suggestion, brother, I won't disturb your rest!"

Wait until Zhou Yi is far away.

Li Mu tsk tsk said, "How did this fellow break through the foundation building, and he doesn't even understand personnel filial piety?"

"You haven't discovered it all these years? There are roughly two types of loose cultivators from outside."

Xiao Yuan said: "Either you are arrogant and arrogant, after all, you have been killed from countless loose cultivators and hold your destiny. Or you are cautious and careful, and you do everything well, lest you be despised by others."

At this time.

Xuan Yi, who was sleepy, suddenly interjected: "Neither of these two things can be achieved, you must be moderate."

When Li and Xiao heard the words~[www.mtnovel.com](http://www.mtnovel.com)~, they echoed.

"Brother is right."

Even if the road is cut off, Xuan Yi is still a strong fake Dan realm, and his strength is second only to Jin Dan Zhenjun.

Xuan Yi glanced at the two of them, and looked at the reminder for the sake of colleagues for many years.

"Don't talk about these words in the future. There are seven elders of loose cultivators on the Sixteen Peaks. It's not a good thing to hear them!"

### **Chapter 106: True Dragon 9 Changes**

, I am immortal in the immortal world

Koizumi Cave House.

After Zhou Yi returned, he immediately checked the jade slips of the exercises.

"Dan Dingzong is worthy of being the overlord of Yunzhou. There are more than 10,000 catalogues that ordinary disciples can exchange."

Roughly scan the catalogue of jade slips, I found that there are not only cultivation methods, but also ancient methods, four arts of immortality, and magical powers. It can be said that as long as the merits are sufficient, it is enough for ordinary disciples to learn for a lifetime.

"It's just the price of merit..."

Zhou Yi looked at the back of the catalog, and there were tens of thousands of values at every turn, while the guard had only 80 points of merit for Si Guoya in one year.

"If there is no foreign affairs to eliminate demons, it would be fine to guard the cliff for a thousand years, but it is not worthwhile to take risks for merit."

Dan Dingzong must have other ways to obtain merits, otherwise only relying on errands and eliminating demons will delay cultivation too much, which will be detrimental to the sect in the long run.

When Zhou Yi first arrived, he planned to observe the situation first, and then make plans after he became familiar with the sect.

"Select the exchange target first."

Zhou Yi pondered for a moment, and still screened according to the conditions. The first one was that the cultivation time exceeded 100 years, and 90% of the categories were immediately excluded.

After checking one by one, the exchange target was quickly selected, and the first one was a spirit refining technique.

"Nine-turn spiritual practice requires 5,000 meritorious deeds, and the price is relatively cheap. Every time you complete one turn, you can condense 10% of the quality of mana and increase the power of the spell. After completing the ninth turn, the mana is almost condensed, and the casting power is doubled!"

"At the same time, one rank will increase the probability of forming a 110th rank, and the ninth rank can increase by 10%."

"This secret technique is like a passive state. After the completion, the power of escape, thunder and other spells will increase greatly."

Zhou Yi nodded with satisfaction. Apart from the long time of cultivation, it was almost a perfect secret technique.

According to the description in the catalog, this method has nothing to do with Linggen's talent.

Many disciples of Dan Dingzong exchanged this method, but few people cultivated to the 9th rank, and most of them only cultivated to the 1st or 2nd rank to enhance the mana, so the exchange price is low.

"Another long-term cultivation practice, the remnants of the ancient practice of True Dragon Nine Transformations!"

"There are two secret techniques in the fragment, one is the escape technique, which is cultivated with the blood of the eagle fairy, and the other is the killing method, which is cultivated with the blood of the tiger fairy. After completion, you can change the form of an eagle or a tiger."

Zhou Yi looked at the introduction of this exercise, and his eyes flashed. This method seems to be the follow-up exercise of the divine cow transformation, or that the real dragon and nine transformations are indistinguishable before and after.

"Nine changes of the real dragon, in this name, there should be complete changes such as deer, rabbits, snakes, etc.?"

Divine Ox Transformation is Zhouyi's strongest killing method at present. It is more inclined to physical cultivation, and its attack and defense have been greatly improved, so Eagle Transformation and Tiger Transformation must not be missed.

"Price... 30,000 meritorious deeds!"

"In the past, I only thought that Senior Brother Li was fooling people, but now it seems that it is really a chance to send in batches!"

Zhou Yi thought about it carefully. The high price is probably due to the characters of ancient times and real dragons. In fact, it is difficult for ordinary monks to cultivate, even if they are real people who build foundations.

Purchasing a large amount of eagle and tiger monster blood essence, not to mention spending a lot of spirit stones, is a time-consuming and cumbersome task in itself.

Raising monsters is even more unreliable. After extracting blood essence, it takes a long time to recover. Who would be willing to feed cattle with a hundred elixir?

"This law should be practiced for me."

"The nine-turn spiritual refining formula is the law, and the real dragon is nine-transformed into a body, and there is still a secret technique for cultivating the soul."

After Zhou Yi broke through the foundation building, the effect of the spiritual cultivation technique was very small, and it may be that the cultivation technique has reached the peak of the cultivation technique for two hundred years.

After careful comparison, another spell called Concentration Art was picked out, which was similar to There are no special spells after completion, but it is easier to get started and cheaper.

"Slow is steady and honest. After hundreds of years of meditation, it is far better than those few fast and partial spiritual refining techniques."

Zhou Yi then changed the conditional query directory to filter the magical powers and secrets that consume Shouyuan.

Immortal Dao Guisheng, most of the spells that consume life essence are outsiders, which are better than others in terms of power and effect.

"There are only a few spells. It seems that even the evil people cherish Shouyuan, and they won't create such spells if they have to."

Zhou Yi checked them one by one, removing those that hurt the foundation, those that sacrificed to living beings, and those that needed special spirits. After careful selection, only one magic trick caught his eye.

Blood Escape.

Burning blood and blessing the escape method instantly doubled the speed, and if burning blood essence, it exploded three times the speed of escape. The disadvantage is that while burning qi and blood, it is also consuming lifespan, ranging from ten or eight years of lifespan to hundreds of years!

"Ten years? A hundred years?"

Zhou Yi shook his head slightly, one day he did not consume a hundred years of lifespan, and it doubled after the foundation was established.

"It's a little troublesome to burn blood essence, and it takes a long time to make up for excessive consumption... There seems to be a solution, such as taking blood spirit fruit!"

The spirit fruit condensed by the blood vine demon is pure qi and blood essence, which can quickly restore the essence and blood after eating.

"So the blood spirit fruit combined with the blood burning escape technique has almost no consumption?"

Zhou Yi rubbed his palms and smiled, when he was about to raise the blood-burning escape technique to the first place, and others such as the Spirit Refining Technique, the True Dragon Nine Transformations, etc.,

The life-saving ability is far less than triple the speed of escape.

"It's really right to join the Dan Ding Sect. Thousands of years of overlord sects have countless secret techniques, and you can benefit a lot from just a few articles."

Set a redemption target and roughly calculate the merits required.

Sixty-four thousand!

Si Guoya is eighty a year, and it takes about eight hundred years!

""

Zhou Yi took back his favor with Dan Dingzong. These secret techniques are hanging carrots, and they can't be eaten by sight. The real person who builds the foundation can't exchange two or three doors for the Zongmen's life.

"First be silent for a few years, learn about the details of the sect, and then plot for merit!"

the next day.

Zhou Yi performed the earthwork technique and went to Siguo Cliff.

Since the cave dwelling is on the Yang side of the mountain and the Siguo Cliff is on the yin side, it is necessary to cross the core area of the Central Mountain Range.

Dan Dingzong had expected this for a long time, and opened up a passage between Mingzhu Peak and Jin Zhongfeng, and they could fly by showing the identity token. The real person who was in charge of checking the token, learned that Zhou Yi had gone to think about the cliff when he was on duty, with a strange and stunned look on his face.

Zhou Yi flew through the passage and entered the shady side of the mountain range.

The temperature of the climate dropped abruptly by dozens of degrees. Frost could be seen on the rocks, and the plants growing on the ground were very different from those in Shannan.

A gust of cold wind blew through the sky, and snowflakes began to fall from the sky.

"The gap between Shannan and Shanbei is so big, it's like changing the world!"

Zhou Yi guessed that it is not only related to spiritual veins and mountains and rivers, but it is very likely that the masters of the sect have set up the prohibition of the formation. After all, many spiritual medicines and exercises require a cold environment.

Follow the token guide to fly away, and soon found Siguo Cliff.

The cliffs are steep, the rocks are rugged, and there is no plant growth.

Zhou Yi flew to the middle of Siguo Cliff and saw the Batu Caves.

A harsh whistling sound came from the cave~[www.mtlnovel.com](http://www.mtlnovel.com)~ Even if there was a ban on the formation, there were still strands of black wind that penetrated, leaving a trail of sword-cutting marks on the Siguo cliff.

Mana infuses the identity token, activates the ban on the sect servants, and the aura falls on the Batu Caves formation, slowly opening a portal.

Zhou Yi entered the cave, the door behind him quickly closed, and he found that the light inside was as bright as day.

There is a stone table and stone bench at the entrance of the cave, as well as a pair of Go, which should be left by the former guard. Walking more than ten feet into the cave, there is another layer of forbidden formation, and behind it is the area where the disciples are imprisoned.

"Empty, yes, it's not a trivial matter to be punished in Batu Caves, few disciples come in on weekdays!"

Zhou Yi cleaned the stone table and bench, put the chess pieces in the storage bag, took out a script and read it carefully. Cliffs, strong winds, reading Spring and Autumn, Ziran is all over the place, happy and happy!
