

INVINCIBLE 1401

[Chapter 1401: Forty Million](#)

Old woman, Old Tong smiled amiably. "Fine, fine, fine, as long as you like it, my little princess."

The pretty young lady flashed her a brilliant smile. She sounded innocent as she said, "I know Old Tong loves me the most." Her eyes bent into crescents as she pouted. "Let's see who dares to fight with me."

The two women chuckled warmly.

Then, Huang Xiaolong's voice sounded from private room number six, "Twelve million high grade-seven spirit stones!"

Twelve million!

The crowd below was in an uproar.

Inside private room number five, Gudu Yue was beaming with confidence up until now as he had ten million high grade-seven spirit stones in his pocket. But the bid of twelve million made him feel humiliated and extremely hateful.

Also, inside private room number seven, the pretty young lady's mouth pouted higher when she heard Huang Xiaolong bid of twelve million. She called out, "Thirteen million high grade-seven spirit stones!"

Thirteen million!

Gasps of shock and disbelief echoed through the auction hall once more.

Inside private room number six, Huang Xiaolong was frowning. Although the Flaming White Phoenix Divine Fruit ranked third amongst the world's seven wonder fruits, it was not as effective for a God King Realm master. Thus, it shouldn't be this expensive. He had estimated to win these fruits by closing the bid at around seven to eight million high grade-seven spirit stones, but this person had actually raised the price to thirteen million!

Judging from the person's voice, she would continue to raise the price and won't give up.

Huang Xiaolong considered for a moment then called out, "Fourteen million high grade-seven spirit stones."

"Fifteen million high grade-seven spirit stones!"

As expected, the moment Huang Xiaolong made a bid, the young lady's voice followed to raise the bid.

"Just learn from me, and bid twenty million!" The little cow said to Huang Xiaolong. "You won't be able to bid for the Thunderstorm Divine Robe, but those Flaming White Phoenix Divine Fruits are very important to you."

Huang Xiaolong nodded.

His priority was to grow stronger. Therefore, no matter what, he needed to win the bid for these Flaming White Phoenix Divine Fruits.

"Twenty million high grade-seven spirit stones!" Huang Xiaolong stopped hesitating and shouted twenty million, as per the little cow's advice.

Twenty million!

The crowd below exploded. This was frightening, even for the first-rank forces' Grand Elders and Elders, and even their Patriarchs and Sect Chiefs were shaking.

Chairs tumbled to the floor out of order.

Luo Fan was trying his best to hold onto the edge of the table to avoid tumbling down in shock.

The pretty young lady in private room number seven was smiling, and her eyes bent into crescents. Just as she was about to raise the bid again, Old Tong stopped her. "Miss, we've brought forty million high grade-seven spirit stones. If we keep insisting on buying these Flaming White Phoenix Divine Fruits, we might not be able to get the Thunderstorm Divine Robe."

They were specifically attending this auction for the Thunderstorm Divine Robe.

The pretty young lady blanked for a second, but she relented in the end. "Alright then." Then she let out a grumpy harrumph and ordered, "Who's that jerk next door? Send someone to find out, he actually dared to compete with me for the Flaming White Phoenix Divine Fruits!"

Old Tong smiled helplessly but agreed, "Alright, Miss. I'll send someone to find out more information about the person next door."

In the end, Huang Xiaolong successfully won the bid for the eighteen Flaming White Phoenix Divine Fruits at twenty million high grade-seven spirit stones.

Huang Xiaolong inwardly sighed in relief after securing the Flaming White Phoenix Divine Fruits.

The auction's supervisor personally sent the crystal box containing eighteen Flaming White Phoenix Divine Fruits to Huang Xiaolong, after he made the payment of million high grade-seven spirit stones.

Delight rushed to Huang Xiaolong's chest as he received the crystal box from the auction supervisor. After the supervisor left, Huang Xiaolong placed all eighteen fruits into his Golden Dragon Lightning Pool's space, as he planned to refine them later.

"Congratulations to the honored guest in private room number six for successfully bidding for the Flaming White Phoenix Divine Fruits. Our next auction item is our final auction item. It's a low-grade grandmist spiritual artifact, the Thunderstorm Divine Robe!" Luo Fan's voice reverberated in the hall.

The auction supervisor stepped up to the auction stage and placed a crystal box on the table.

No one could see the Thunderstorm Divine Robe inside the crystal box, but could feel a raging tempest!

That raging tempest inside the crystal box collided against the walls of the crystal box as it unleashed its destructive power within the crystal box.

Luo Fan smiled widely as he began, "I believe everyone can already guess that this raging tempest is the manifestation of the Thunderstorm Divine Robe. A low-grade grandmist spiritual artifact, the Thunderstorm Divine Robe can transform into a tempestuous wind form, and could be attached to any part of the body. It could be soft and gentle, but also vigorous and violent. It can both attack and defend. On top of that, if you're powerful enough, you can cover a hundred thousand li radius area with unimaginably destructive thunderstorms!"

Luo Fan introduced the Thunderstorm Divine Robe's power and usage with a lot of vigor to the audience.

The crowd looked at the crystal box with feverish eyes.

"Of course, in addition to these benefits, you can borrow the wind element power of the robe to increase your flying speed when you wear the Thunderstorm Divine Robe. But that depends on the individual's situation, therefore, the increased speed varies from person to person. Nonetheless if they are strong enough it could double a person's flying speed!"

Increase flying speed!

Listening to this, all eyes in the hall shone brighter than before. Even Huang Xiaolong couldn't help feeling tempted.

Speed was one of the essential things when facing an enemy., Overall Huang Xiaolong's speed was faster than average, but with the additional boost from the Thunderstorm Divine Robe, his speed would be even more shocking.

"Now then, we will start the auction for Thunderstorm Divine Robe. The starting price is ten million low grade-seven spirit stones." Luo Fan concluded.

The noisy auction hall suddenly quieted down.

"11 million low grade-seven spirit stones!" The guest from private room number one called out.

"13 million low grade-seven spirit stones!"

In the blink of an eye, the price was gone up to twenty million low grade-seven spirit stones.

Twenty million low grade-seven spirit stones was equivalent to five million high grade-seven spirit stones.

Inside private room number five, Gudu Yue shouted, "Six million high grade-seven spirit stones."

Huang Xiaolong who had been silent until now sneered at Gudu Yue's bid, "Ten million high grade-seven spirit stones!"

Ten million! High grade-seven spirit stones!

The moment Huang Xiaolong acted, the lively auction hall turned cold.

Gudu Yue immediately turned scarlet with bloodthirst upon hearing Huang Xiaolong's voice. He spat through gritted teeth, "I must tear that scum with my own hands!"

“Twenty million high grade-seven spirit stones!” It seemed like the young lady from private room number seven was adamant to compete with Huang Xiaolong, therefore she instantly raised the price up to twenty million high grade-seven spirit stones, after hearing Huang Xiaolong’s bid!

The people below felt their limbs go cold.

Huang Xiaolong frowned, with a slight displeasure. Even though he had condensed quite a lot of high grade-seven spirit stones, he was left with a little over thirty million high grade-seven spirit stones, after purchasing the space velocity stones and Flaming White Phoenix Divine Fruits.

After a brief pause, Huang Xiaolong shouted, “Thirty million high grade-seven spirit stones!”

Thirty million!

There was an uproar in the auction hall once more. Some families’ Patriarchs felt heaviness in their chests. A pile of thirty million high-grade spirit stones rivaled a thousand zhang tall mountain that could squash a person to death.

The pretty young lady from private room number seven sonorously shouted, “Forty million high grade-seven spirit stones!”

Several guests in the auction hall below had an impulse to faint and never wake up.

Luo Fan wanted to hold onto the table with both of his hands, but he barely managed to do so, as his knees nearly buckled. He had initially thought it was already a good harvest if the Thunderstorm Divine Robe could fetch ten million high grade-seven spirit stones...

[Chapter 1402: Young Lady Fang Xuanxuan](#)

Huang Xiaolong shook his head after hearing the bid for ‘forty million’ from private room number seven.

“The woman next door is really merciless, as she has the essence of this cow’s domineering style from the past!” The little cow praised unabashedly.

Huang Xiaolong rolled his eyes, which clearly meant, ‘your style is not domineering, that’s cow-mineering.’

In the end, the Thunderstorm Divine Robe was bought by the pretty young lady from private room number seven for forty million high grade-seven spirit stones.

With that, the curtains fell on the auction.

Moments later, Huang Xiaolong, Xiang Xun, and the rest stepped out from their private room.

Just as Huang Xiaolong stepped out of the door, he came across Song Rui and Gudu Yue who were coming out of private room number five. Murderous cold gleams flickered across their eyes when both of them saw Huang Xiaolong. According to Gudu Yue, those space velocity stones and Flaming White Phoenix Divine Fruits would have been his, if it wasn’t for Huang Xiaolong!

Not just that, but Gudu Yue had also believed that he could have bought the space velocity stones with five hundred thousand high grade-seven spirit stones. But Huang Xiaolong had obviously spoiled his plan.

Gudu Yue strode towards Huang Xiaolong with a menacing gaze. “Kid, don’t think that you’re great for getting those space velocity stones and Flaming White Phoenix Divine Fruits. Everything will depend on whether you live to refine them!”

Huang Xiaolong replied indifferently, “That’s not for you to worry about.”

Anger exploded in Gudu Yue’s eyes as he spat, “Let’s hope you that can hide inside the Martial Dragon City forever!”

The Martial Dragon City was the Longwu Clan’s territory, thus, Gudu Yue did not dare to attack Huang Xiaolong blatantly inside the Martial Dragon City. However, things would be different once Huang Xiaolong were to step outside of the Martial Dragon City.

“Go!” Gudu Yue harrumphed coldly as he turned around and left.

Song Rui glared daggers at Huang Xiaolong before leaving.

“Xiaolong, do you want me to go up and directly resolve that fella?” The little cow grumbled at Huang Xiaolong, while her gaze was fixed on Gudu Yue.

Huang Xiaolong was speechless but retorted, “We’re in Martial Dragon City.”

The little cow snickered, “Don’t worry! Even if I smashed the whole Martial Dragon City, the Longwu Clan’s Patriarch won’t dare to let out a fart, given my younger generation grand-disciple’s relation with the Longwu Clan’s Old Ancestor.”

Huang Xiaolong was surprised, but he shook his head and said, “Forget it.”

Even though the little cow might have been telling the truth, Huang Xiaolong didn’t want any trouble.

It was more urgent to repair the Giant Shark Flying Ship in order to reach the Royal Buddha Great Worlds as soon as possible. He had already overstayed in the High Martial World.

Huang Xiaolong had barely taken two steps when a young lady walked out from private room number seven and demanded, “You’re the one who won the bid for the Flaming White Phoenix Divine Fruits, right?” In the next second, her demeanor changed, and she looking a little shy as she asked, “Erm, could you sell one of them to me? I want to know the taste of the Flaming White Phoenix Divine Fruit...”

Feng Er, Gui Yi, Gui Er, and Gui San looked at her agape.

The pretty young lady was wearing an innocent and naive expression as she looked at Huang Xiaolong, and her eyes were shining in anticipation. Anyone would have found it difficult to refuse her due to her expression.

Huang Xiaolong’s brows creased slightly, but he shook his head and replied, “I don’t lack money.”

Yes, what he lacked at that moment was strength.

He could condense as many spirit stones as he wanted. Moreover, once he would break through to Fourth Order Ancestor God Realm, he would be able to condense low grade-eight spirit stones. Money was going to be less of a problem once he entered the mid-level Ancestor God Realm.

As Huang Xiaolong refused her request, the young lady stamped her feet and complained, "Why are you so stingy? Fine then, this Miss doesn't want it anymore. I've already checked you out, you're Huang Xiaolong, am I right? You are our Fortune Emperor Palace's Vientiane World branch's disciple, and you're planning to register for the Fortune Emperor Palace."

Huang Xiaolong and the rest of his group were stunned. Even the little cow was surprised. This young lady must have had Huang Xiaolong investigated in the midst of the auction, in less than half a day's time, her people had already managed to investigate Huang Xiaolong's background.

It was not an easy task to investigate a stranger's background in the vast Divine World in half a day's time. It seems this young lady's quite powerful, at the very least, she was able to use the influence of a powerful background.

Moreover, the little cow had noticed that the young lady had mentioned 'Fortune Emperor Palace.' Did that mean that this young lady was the Fortune Gate headquarters' disciple?

"Wait till you come to the Fortune Emperor Palace, you won't know what hit you!" The young lady wrinkled her small nose and announced, "Remember, my name is Fang Xuanxuan!"

"Old Tong, we're leaving!" The young lady Fang Xuanxuan said to the two old women.

Huang Xiaolong's mouth opened to say something, but in the end, he silently watched the young lady's group leave without saying a word.

"Fang Xuanxuan?" Huang Xiaolong repeated under his breath. He remembered that Golden Brow Ancestor had once mentioned that surname of the Fortune Emperor Palace's Gate Chief was Fang. Is that young lady related to the Fortune Emperor Palace? And was she the Emperor's disciple or related in anyway?

"Heihei..., Xiaolong, you've provoked trouble this time." The little cow was clearly gloating. "It looks like that girl is a Fortune Emperor Palace's disciple, with a very high status. She'll probably make your life miserable when you reach the Fortune Emperor Palace. If I were you, I would have definitely agreed to such a pretty girl's small request. Isn't it just one Flaming White Phoenix Divine Fruit?"

Huang Xiaolong glared at the little cow. "I remember that it was you who had told me to get the Flaming White Phoenix Divine Fruit, even if it meant forgoing the Thunderstorm Divine Robe."

The little cow chuckled in embarrassment, and shook her head. "Did I? This cow's memory has always been bad. Can't remember it."

Huang Xiaolong felt an impulse to kick her after hearing her explanation.

"Those two old women are quite strong. Although their strength couldn't be compared to my peak strength, their strength is still not far away from it." Xiang Xun said suddenly, as he had been paying attention to the two old women.

His words astonished Huang Xiaolong, Feng Er, and the others, and they stared at the two old women, who were following behind Fang Xuanxuan. These two old women are very powerful experts!

Once again, this proved that the young lady's status was high in the Fortune Emperor Palace.

Huang Xiaolong felt an onslaught of headaches. At a glance, it was obvious to him that the young lady was mischievous and playful. Huang Xiaolong could see dark clouds in his future as he would be targeted by her.

He turned and saw the little cow's gloating expression. In the next second, his palm struck the little cow's forehead and he ordered, "Go back!"

Now, there was only one thing he could do—go back and repair the Giant Shark Flying Ship.

Roughly an hour later, Huang Xiaolong's group was back at the residence.

The moment they were all inside the residence, Huang Xiaolong activated all the attack and defensive formations of the residence. He then ordered Xiang Xun, void devil beast Xu Baisheng, and the little cow to further strengthen their defenses by using a few more layers of defensive formations.

Repairing the Giant Shark Flying Ship was not an easy task, and it was going to take a long time. Therefore, Huang Xiaolong did not want anyone interrupting their progress.

Even though they were inside the Martial Dragon City, it was better to be safe than sorry. Caution was a good habit.

It turned out that Huang Xiaolong's strength was weak for repairing a top-grade chaos spiritual artifact, like the Giant Shark Flying Ship. Therefore, at the end of the day, the task fell on Xiang Xun and void devil beast Xu Baisheng's shoulders.

After learning that Xiang Xun and void devil beast Xu Baisheng would need three to four months to repair the Giant Shark Flying Ship, Huang Xiaolong decisively entered his room and began cultivating.

Huang Xiaolong sat cross-legged inside his room and called out his three avatars. They positioned themselves into a four-colored spiritual energy gathering formation, and Huang Xiaolong took out one of the Flaming White Phoenix Divine Fruits.

[Chapter 1403: Refining the Flaming White Phoenix Divine Fruit](#)

As one of the world's seven wonder fruits at the third rank, the Flaming White Phoenix Divine Fruits naturally contained a shocking amount of energy. Taking this into consideration, Huang Xiaolong practiced caution and did not refine too many of these fruits simultaneously, like he usually did with other things.

Huang Xiaolong watched the flaming fruit floating in front of him. It was surrounded by a hundred small fire phoenixes. He took a deep breath to calm himself, and after a few minutes he and his three avatars started circulating their godforce according to the Grandmist Parasitic Medium.

Flames around the Flaming White Phoenix Divine Fruit danced wildly as if it was doused with oil, and when Huang Xiaolong and his three avatars swallowed it, there was a sea of flames around them.

Huang Xiaolong felt like his body was being incinerated within the Flaming White Phoenix Divine Fruit's sea of flames.

Hot!

This was his first sensation.

Scorching hot!

This was his second feeling.

At one point, there was nothing but heat and pain.

Pain, excruciating pain!

Huang Xiaolong felt pain from the Flaming White Phoenix Divine Fruit's burning flames even with his strong true dragon physique, not mere pain, but excruciating pain. One could imagine how powerful the flames were.

Enduring the scorching heat from the flames, Huang Xiaolong pulled himself together and focused to persistently circulate his godforce according to the Grandmist Parasitic Medium cycle after cycle.

Waves of vigorous fire element energy from the enshrouding flames surged into every corner of Huang Xiaolong's body through his pores, nostrils, and even through the orifice of his ears.

When this fire element energy entered Huang Xiaolong's body, Huang Xiaolong felt like his internal organs were being roasted over fire, and it intensified his pain.

In his consciousness, his three supreme godheads were greedily absorbing the incoming fire element energy.

And his three supreme godheads were vibrating and emitting rings of radiant lights, as if they were stimulated by this fire element energy.

These radiant ripples of light were bathing Huang Xiaolong in a great halo.

Fortunately, before Huang Xiaolong had begun cultivating, he had activated the room's defensive formation, or else, this radiant light would have alarmed the whole Martial Dragon City.

As a large amount of vigorous fire element energy drilled into his body and his three supreme godheads, Huang Xiaolong's consciousness began to blur. After this, he continued circulating the Grandmist Parasitic Medium by instinct.

...

One hour passed, two hours...

Ten days went by.

The fire element energy continued to flow out from the Flaming White Phoenix Divine Fruits into Huang Xiaolong's body.

Soon, a month came and went by.

After a month of continuous absorption, Huang Xiaolong's three supreme godheads and True Dragon Physique gradually adapted to the overwhelming amounts of fire element energy from the Flaming White Phoenix Divine Fruit.

Thus, the pain assaulting Huang Xiaolong weakened and gradually disappeared.

Two months later, an unprecedented comfortable feeling filled Huang Xiaolong as warm energy flowed throughout his body. Wherever this warm energy passed through his body, it gave him an indescribably comforting feeling, almost making him groan.

Few more days passed...

The one hundred fire phoenixes around the Flaming White Phoenix Divine Fruit seemed to be attracted by some kind of power within Huang Xiaolong and his three avatars. Due to this, they actually flew into Huang Xiaolong and his three avatars' bodies.

It started with one fire phoenix spirit entering Huang Xiaolong's body.

Half a day later, it was another fire phoenix.

Huang Xiaolong's three avatars were also absorbing the fire phoenix spirits.

In less than half a month, these one hundred fire phoenix spirits were completely absorbed by Huang Xiaolong and his three avatars.

Huang Xiaolong was still bathed by a radiant fiery light.

Five days later, the Flaming White Phoenix Divine Fruit seemed to have exhausted all of its fire element energy, and it combusted into flames then vanished from the world.

The next day, Huang Xiaolong opened his eyes and exhaled a breath of foul qi like a dragon spewing fire.

Huang Xiaolong immediately noticed his cultivation had risen to late-Third Order Ancestor God Realm, and he was already close to entering peak late-Third Order Ancestor God Realm. If refining a Flaming White Phoenix Divine Fire fruit for three to four months could yield this result, then he could break through to Fourth Order Ancestor God Realm in less than a year!

But the repair progress of the Giant Shark Flying Ship had been hanging at the back of his mind, therefore he stopped cultivating and stepped out of his room.

He saw Xiang Xun and void devil beast Xu Baisheng were still repairing the Giant Shark Flying Ship, but were already in the last stages of repairs. Probably, the repair would be done in the next ten days or so.

Even though ten days weren't much, Huang Xiaolong didn't waste time idling around, instead, he resumed his cultivation. However, ten days weren't enough for him to refine one Flaming White Phoenix Divine Fruit, therefore, he resorted to swallowing a few top-grade chaos spiritual pills and cultivated.

He took out five hundred top-grade chaos spiritual pills and swallowed them all at once.

Although five hundred top-grade chaos spiritual pills could make Huang Xiaolong feel a bit bloated, his current True Dragon Physique had no problem handling the sudden vast energy.

After refining five hundred top-grade chaos spiritual pills, Huang Xiaolong consumed another five hundred top-grade chaos spiritual pills the next day.

Ten days later, Huang Xiaolong had refined five thousand top-grade chaos spiritual pills.

Five thousand top-grade chaos spiritual pills in ten days!

Had it been another late-Third Order Ancestor God Realm cultivator with a high emperor rank godhead, refining one top-grade chaos spiritual pill would have taken at least half a year. Accordingly, refining five thousand top-grade chaos spiritual pills would have taken more than two thousand years!

But Huang Xiaolong had merely used ten days!

This speed was unprecedented, and never heard before.

When Huang Xiaolong once again stepped out from his room after ten days, Xiang Xun and void devil beast Xu Baisheng had finished repairing the Giant Shark Flying Ship.

Huang Xiaolong asked them the condition of the newly repaired Giant Shark Flying Ship. Xiang Xun respectfully replied, "To answer Master's question, in addition to fixing the Giant Shark Flying Ship, we also refined a new core formation with the extra space velocity stones. Due to this, the current Giant Shark Flying Ship is much faster compared to other top-grade chaos flying ships."

Huang Xiaolong smiled happily at Xiang Xun's report, but he said to reconfirm, "You mean the current Giant Shark Flying Ship's speed is not far from a low-grade grandmist flying ship... is that right?"

Xiang Xun solemnly answered, "More or less."

That's excellent! Huang Xiaolong's eyes were sparkling with ecstasy.

In that case, will the Giant Shark Flying Ship take less than seven or eight years to reach the Royal Buddha Great Worlds? Maybe, six years, or even five years would do.

"Everyone get ready, we'll leave Martial Dragon City in two hours!" Huang Xiaolong said to Xiang Xun and the rest.

Xiang Xun and the rest complied respectfully and went off to pack their belongings.

At this time, Gudu Yue and Song Rui were watching Huang Xiaolong's residence from a balcony not far across from Huang Xiaolong's residence.

"That kid has been hiding inside his residence ever since he came out from the auction?" Gudu Yue asked one of his subordinates.

"Yes, Young Master. We have been watching the residence night and day. We have not seen anyone leaving the residence." The subordinate answered respectfully.

"We can't do anything to that kid if he decides to hide inside until God knows when!" Song Rui snarled.

Gudu Yue was frowning with displeasure. "Wait for another two months. If they still continue staying inside after two months, I'll think of a way to make it difficult for them to stay inside the Martial Dragon City, and they would have no choice but to leave!"

Based on his association with Longwu Clan's core disciples, Gudu Yue believed that he could force someone out of the city without exerting much effort, if it came to that.

Right at this time, a subordinate by Gudu Yue's side was agape with shock as he stared dumbly at the airspace above Huang Xiaolong's residence.

[Chapter 1404: Must Not Let Him Escape](#)

Gudu Yue and Song Rui were confused by the subordinate's reaction. They also turned to look across the street, and were shocked to see the giant flying ship in the airspace above Huang Xiaolong's residence that had appeared out of nowhere.

The giant flying ship was resembling an ancient Giant Shark, and the long sharp fin was reflecting a cold light under the sunlight.

In the next second, right in front of Gudu Yue and Song Rui's shocked faces, that giant shark flying ship emitted a blue water-like rippling light and shot forwards, tearing through space and disappearing from the Martial Dragon City.

Gudu Yue blanked momentarily, but he reacted quickly. He jumped in anger while bellowing, "That kid's fleeing! Chase—! Block him!"

At the same time, he and Song Rui tore space and went after Huang Xiaolong's flying ship.

Song Rui also reacted quickly, and threw out his Blood Wolf Flying Ship almost immediately. He and Gudu Yue jumped aboard the ship and began chasing after Huang Xiaolong. Meanwhile, Gudu Yue took out his communication talisman and contacted four of the Gudu Clan's Grand Elders.

Gudu Yue had already paved the road with these four Gudu Clan's Grand Elders earlier. Moreover, these four Grand Elders were quite close to Gudu Yue, as they were Gudu Yue's elders.

Of course, they had agreed to help Gudu Yue by making a deal with him. He had promised to give them all the spirit stones on Huang Xiaolong's body, whereas Gudu Yue could keep the Flaming White Phoenix Divine Fruits.

Soon after receiving Gudu Yue's message, the four Gudu Clan's Grand Elders tore space and entered the void. They were directly headed towards Huang Xiaolong's flying ship.

The moment Huang Xiaolong's flying ship had departed from the Martial Dragon City, other families' forces had also been on his trail along with Gudu Yue's group. A total of several hundred experts were chasing after Huang Xiaolong.

Huang Xiaolong was well aware of his pursuers as he stood inside the Giant Shark Flying Ship's hall. A cold sneer rose at the corner of his lips as he thought, 'looks like more than a few people were yearning for his Flaming White Phoenix Divine Fruits and high grade-seven spirit stones.'

Then, they would have to bear the consequences! They can't blame him!

People die for wealth, so these people must be prepared to die!

"Decrease speed, and turn around!" Huang Xiaolong commanded Xiang Xun and Xu Baisheng.

Xiang Xun, Xu Baisheng, and the others were taken aback by Huang Xiaolong's order. But on second thought, they seemed to understand Huang Xiaolong's intention and complied respectfully.

Gudu Yue and Song Rui who were at the front of the pack dazed for a moment when they saw that Huang Xiaolong's Giant Shark Flying Ship was turned around to face them. In the next moment, they saw giant sword wings extending out from the sides of Huang Xiaolong's flying ship. There was a low humming noise as the flying ship flew towards them like a ferocious water beast.

Gudu Yue and Song Rui's expressions froze.

"Out of the way!" Song Rui literally roared the words. He grabbed Gudu Yue and leaped off the Blood Wolf Flying Ship. Almost at the same instant the two of them leaped off the Blood Wolf Flying Ship, and a space-shaking boom thundered as the Giant Shark Flying Ship rammed into the Blood Wolf Flying Ship.

The Giant Shark Flying Ship's head pierced into the high chaos-grade Blood Wolf Flying Ship like knife cutting through butter, but it did not stop there. It smashed the Blood Wolf Flying Ship down from high air into the mountain range below.

Gudu Yue and Song Rui had just leaped off but were immediately struck in the back by the Blood Wolf Flying Ship's body. The two plummeted from high up in the air, uncontrollably vomiting blood.

After ramming the Blood Wolf Flying Ship into the mountain range, the Giant Shark Flying Ship rushed onwards to the hundred experts at the back.

Bang! Bang! Bang!

These forces' experts were knocked away like flies by the Giant Shark Flying Ship. Those below God King Realm cultivation exploded to their deaths from the impact, and their blood splattered to the ground.

Even low-level God King Realm masters' physique couldn't withstand the collision with the Giant Shark Flying Ship.

After all, the Giant Shark Flying Ship was a top grade-chaos spiritual artifact, and it regained its ferocious beast nature after it was repaired.

Among the group of pursuers, there were only two mid-level God Realm masters, who managed to dodge the Giant Shark Flying Ship, but their backs were dampened from cold sweat.

"Top, top-grade chaos flying ship!" One of them stammered.

Top grade-chaos flying ships were rare in the Divine World, this grade of flying ship has not appeared in the High Martial World for more than ten thousand years. But they had just seen one, moreover, that top grade-chaos flying ship belonged to the same fat-sheep who had bought the Flaming White Phoenix Divine Fruits!

"Stop, how dare you...!"

Right at this time, four figures accelerated forward while attacking Huang Xiaolong. Four giant palm prints landed on the Giant Shark Flying Ship.

The four people were none other than the Gudu Clan's four Grand Elders.

Inside the Giant Shark Flying Ship's control hall, Xiang Xun harrumphed with disdain. He then let out a bellow, and his godforce surged outwards and his trunk swept at the four incoming palm prints.

Rumble~!

A resounding boom ensued. The four Gudu Clan's Grand Elders wailed in pain as their bodies staggered backwards as they lost their balance and smashed into the land below.

The land cracked open with the impact.

It was one against four, but still all four of the Gudu Clan's Grand Elders were repelled by Xiang Xun.

Xiang Xun was a powerful existence that had lived for more several billion years, although his current strength was suppressed to God King Realm by the petrification seals, still, his strength was far above the Gudu Clan's four Grand Elders who had advanced to God King Realm for merely tens of thousands of years.

The two God King Realm masters who had dodged the Giant Shark Flying Ship's attack were deathly pale after witnessing this scene, and their horror-struck eyes were fixed in the Giant Shark Flying Ship.

Xiang Xun looked towards the two God King Realm masters, as he raised his leg and kicked at them from across the space.

The two God King Realm masters crashed to the ground like meteors, as if they were hit by the weight of a divine mountain.

"Let's go!"

Huang Xiaolong ordered and manipulated the core formation. The Giant Shark Flying Ship burst forth at full speed and vanished in the blink of an eye.

As Huang Xiaolong took over the flying ship's control and sped away, numerous figures flew up to the sky from the Martial Dragon City and its neighboring cities. Among them were Longwu Ling Er and Gudu Man.

They saw the numerous corpses scattered on the ground as well as the miserable remnants of the Blood Wolf Flying Ship, and paled.

"Second Brother!" Gudu Man screamed and hastened to Gudu Yue's side.

"What happened?!" Longwu Ling Er couldn't help asking after seeing the blood-stained Gudu Yue.

Gudu Yue couldn't speak due to his severe injuries. It was Song Rui who answered, "It's that kid who bid the Flaming White Phoenix Divine Fruits! He suddenly went amok and hit the Martial Dragon City's experts. Brother Gudu and I were affected by his attack!"

He naturally glazed over the fact that he and Gudu Yue had planned to rob Huang Xiaolong's Flaming White Phoenix Divine Fruits, and turned the story to make it look like Huang Xiaolong had gone amok and attacked them instead.

Longwu Ling Er and Gudu Man's faces were clearly full of shock.

"Top grade-chaos flying ship!"

"Him!"

Longwu Ling Er remembered the face of the young man who had won the Flaming White Phoenix Divine Fruits from the auction.

Gudu Man was shrieking, "That person is simply abhorrent. He attacked the people of Martial Dragon City indiscriminately because he has a top grade-chaos flying ship! Sister Ling Er, your Longwu Clan absolutely must not let him escape!"

[Chapter 1405: Fourth Order Ancestor God Realm](#)

Longwu Ling Er's brows creased slightly at Gudu Man's words. She was not going to rely on Song Rui's words like Gudu Man, and assume that Huang Xiaolong had really gone amok to attack the Martial Dragon City's people indiscriminately.

There were too many loopholes in Song Rui's explanation.

Thus, Longwu Ling Er did not respond to Gudu Man's words. She looked away and her eyes caught sight of the four Gudu Clan's Grand Elders. She exclaimed in surprise. "He has a high-level God King Realm master by his side?"

Gudu Man noticed the four Gudu Clan's Grand Elders at Longwu Ling Er's exclamation, and was equally shocked.

"Yes, that big elephant by his side is an Eighth Order God King Realm master!" Song Rui confirmed.

In Song Rui's opinion, only an Eighth Order God King Realm master could parry the Gudu Clan's four God King Realm Grand Elders' attacks in a single strike.

Longwu Ling Er and Gudu Man nearly staggered at his words.

Eighth Order God King Realm Master!

The fact that Xiang Xun was an Eighth Order God King Realm master did not shock them as much as the fact that Huang Xiaolong actually had an Eighth Order God King Realm mount!

What is that black-haired young man's identity? Both of them wondered about the same thing.

Longwu Ling Er looked in the direction in which Huang Xiaolong's Giant Shark Flying Ship had left, and she had a feeling that she and that black-haired young man would be meeting again!

On the other hand, Huang Xiaolong was completely unaware of what was going on in these two women's minds. By this time, the Giant Shark Flying Ship had traveled through the High Martial World's outer space barrier, and was speeding away in the dark space.

The repaired Giant Shark Flying Ship was twice faster than before, and it was barely raising any ripples or sound as it moved.

After setting the flying ship's destination to the Royal Buddha Great Worlds, Huang Xiaolong left the core formation's control to Xiang Xun and void devil beast Xu Baisheng, increasing the Giant Shark Flying Ship's speed.

Whereas he went inside a cultivation room and began cultivating.

Since Huang Xiaolong's cultivation had reached late-Third Order Ancestor God Realm, he was aiming to break through to Fourth Order Ancestor God Realm. This would allow him to condense low-grade eight spirit stones.

Using low grade-eight spirit stones to fuel the Giant Shark Flying Ship's core formation would further raise the flying ship's speed. Even though this increase in the speed was not as significant, it might still enable him to return to the Vientiane World one or two years earlier.

Huang Xiaolong sat down cross-legged, upon entering the cultivation room number one. He summoned his three avatars and formed the four-colored spiritual energy gathering formation.

Subsequently, a spark of lightning appeared on Huang Xiaolong's forehead as a Flaming White Phoenix Divine Fruit flew out.

Like before, Huang Xiaolong and his three avatars began cultivating with the Grandmist Parasitic Medium. The Flaming White Phoenix Divine Fruit's fire element energy roiled, and filled the whole cultivation room in a sea of flames.

Huang Xiaolong and his three avatars were submerged under the roiling flames.

Huang Xiaolong's consciousness slowly slipped away due to the waves of scorching pain. He continued to absorb the Flaming White Phoenix Divine Fruit's fire element energy purely based on his instincts.

The first time Huang Xiaolong had refined a Flaming White Phoenix Divine Fruit, the scorching pain had lasted for a month, before diminishing gradually. This time around, it subsided in twenty days; the time had greatly shortened.

As the pain diminished, Huang Xiaolong was once again enveloped inside a cocoon of comfortable warm feeling.

Huang Xiaolong felt completely relaxed. So did his three avatars.

A month later, the one hundred fire phoenixes' spirits around the Flaming White Phoenix Divine Fruit entered Huang Xiaolong and his three avatars' bodies one by one.

Two months later, the Flaming White Phoenix Divine Fruit's fire element energy was completely absorbed by Huang Xiaolong and his three avatars, while the fruit turned into ashes and disappeared from the world.

Huang Xiaolong had taken more than three months to refine the first Flaming White Phoenix Divine Fruit, but for the second Flaming White Phoenix Divine Fruit, it had taken him a little over two months.

As Huang Xiaolong's strength kept improving, so did his refining speed.

Huang Xiaolong did not stop after he finished refining the second Flaming White Phoenix Divine Fruit. Another spark of lightning flashed from Huang Xiaolong's forehead and the third Flaming White Phoenix Divine Fruit appeared in front of him.

Subsequently, when the third Flaming White Phoenix Divine Fruit disappeared from the world, Huang Xiaolong took out the fourth one.

Likewise he moved from the fourth to the fifth Flaming White Phoenix Divine Fruit.

Nine months later, Huang Xiaolong had finished refining the fifth Flaming White Phoenix Divine Fruit. During this time a light suddenly shone out of Huang Xiaolong's body, accompanied by muffled crackling noises.

Huang Xiaolong's various elements godforce lit up every corner of the cultivation room. It glimmered like waves, and whispered an unidentifiable music that resembled ancient drums, or the roars of a thousand divine beasts. It was also accompanied by the long cries of the phoenixes, and the clashes of swords from an ancient battlefield.

This went on for days.

However, Huang Xiaolong and his three avatars were still submerged in the waves of lights.

A surreal blue dragon coiled in the air; archdevils gathered; and meditating golden Buddhas appeared behind Huang Xiaolong. Primordial divine dragon, archdevil, and golden Buddha appeared behind his respective avatars.

The three avatars' primordial divine dragon, archdevil, and golden Buddha had the same aura as Huang Xiaolong's main body, yet they were slightly different at the same time. It was as if the three avatars' manifestations were still in their infancy, but would surpass the main body's once they matured...

Another ten days passed before Huang Xiaolong opened his eyes and stood up. Popping noises came from his bones, and it resembled the rumbling divine thunder shaking the world.

Finally, he had broken through to Fourth Order Ancestor God Realm!

Even though it was only Fourth Order Ancestor God Realm, Huang Xiaolong couldn't help feeling a little excited.

Was his current strength four to five times stronger than the time he had left the High Martial World?

Huang Xiaolong's three supreme godheads spun at high speed, and godforce roared throughout his body as he punched out. Fist force passed through the Giant Shark Flying Ship's body towards the vast space outside, forming a river of energy fluctuations. The fist force struck an uninhabited planet in the far distance, and then rumbled—! A big pit appeared on the surface of the uninhabited planet.

This pit was bottomless, with spider-web crack lines at its edges.

Huang Xiaolong retrieved his fist, and nodded with satisfaction at the result.

With his current power he could now defeat anyone under Seventh Order Ancestor God Realm.

After this, Huang Xiaolong headed to the flying ship's control hall.

"Congratulations, Master!" Since Huang Xiaolong had not concealed his cultivation, Xiang Xun, and void devil beast Xu Baisheng could tell that Huang Xiaolong had broken through to Fourth Order Ancestor God Realm.

One could imagine their astonishment at Huang Xiaolong's break through to Fourth Order Ancestor God Realm.

How long has it been since Huang Xiaolong broke through to Ancestor God Realm? It seems... less than a decade!

A decade!

Now, Huang Xiaolong's already Fourth Order Ancestor God Realm!

Even though Xiang Xun was astounded, excitement and hope sprouted in his heart. If Master's cultivation speed continues at this rate, it won't be long before he breaks through God King Realm. At that time, he can resolve the petrification seals inside my body!

Huang Xiaolong asked the two of them, "What is our current location?"

"Master, we have reached the Fire and Ice World. We can reach the Royal Buddha Great Worlds in roughly four years with this speed!" Xiang Xun replied respectfully.

Huang Xiaolong said with a little bit disappointment, "Roughly four years? That's still too slow." Subsequently, he twirled his fingers in the air, and Xiang Xun and void devil beast Xu Baisheng saw spirit stones raining down from the void. All these spirit stones were low grade-eight spirit stones!

[Chapter 1406: It's Disciple of My Clan](#)

"Eight... Low grade-eight spirit stones!" Xiang Xun and void devil beast Xu Baisheng exclaimed as they stared at the pile of several thousand low grade-eight spirit stones, and their eyeballs nearly dropped out of their sockets.

Up until now, only the little cow had been aware of the fact that Huang Xiaolong could condense spirit stones through spiritual energy from the void. Therefore, Xiang Xun and Xu Baisheng were dumbstruck as they watched a pile of low-grade eight spirit stones appear out of nowhere.

"Don't use high grade-seven spirit stones to fuel the Giant Shark Flying Ship anymore. Instead, use these low grade-eight spirit stones!" Huang Xiaolong said to both of them.

Both were dumbstruck once again.

"Mas-Master, did you say, u-use these low grade-eight spirit stones to fuel the Giant Shark Flying Ship's core formation?!" Void devil beast Xu Baisheng gulped loudly and asked for confirmation.

These were low grade-eight spirit stones ahh——!

Needless to say, grade-eight spirit stones were rare in the Divine World. Even big families' God King Realm masters would keep any grade-eight spirit stones for cultivation, rarely willing to spend them.

On the other hand, Huang Xiaolong was actually asking them to use grade-eight spirit stones to fuel the flying ship!

What a waste!

What extravagance!

This was it! This was wasteful! This was extravagant!!

Even Xiang Xun couldn't help having the same feeling.

Huang Xiaolong grinned seeing Xiang Xun and Xu Baisheng's dumbstruck expressions, and said, "In the future, you can tell me how many low grade-eight spirit stones you need, and don't worry about them running out of supply!" As he said this, he reached out into the void once again, and pieces of low grade-eight spirit stones rained down from the void.

Huang Xiaolong's continued to condense low grade-eight spirit stones, and they kept raining down from the void.

A few hours later...

Almost every corner of the flying ship's control hall was filled with low grade-eight spirit stones before Huang Xiaolong stopped.

Xiang Xun and void devil beast Xu Baisheng were agape staring at their surrounding low grade-spirit stones.

Void devil beast Xu Baisheng's heart quivered nonstop.

Huang Xiaolong said to the two of them, "Take half of these low grade-eight spirit stones for your own use, and use the rest to fuel the flying ship."

Take half of them to use!

At this point, even Xiang Xun was trembling uncontrollably.

"Mas-Master, are you giving half of these for our use?" Xiang Xun asked.

Huang Xiaolong laughed seeing the expressions on their faces and said, "You two heard right, you can take half of these for your use, and use the other half to fuel the flying ship. Half of the low grade-eight spirit stones here should be enough to last us until the Royal Buddha Great Worlds, right?"

"Definitely enough to reach the Royal Buddha Great Worlds!" Xiang Xun replied with confidence.

Huang Xiaolong added, "Wait until we've reached the Royal Buddha Great Worlds; I will give both of you higher grade spirit stones for cultivation. So, there is no need to worry about running out of these spirit stones."

Higher grade spirit stones!

The two God King Realm masters were stupefied as they thought to themselves, 'could it, be mid-grade eight spirit stones!'

Huang Xiaolong turned and left the control hall.

The little cow, Feng Er, and others were each cultivating inside respective cultivation rooms, thus Huang Xiaolong did not interrupt their cultivation. He returned to his cultivation room and continued cultivating.

Huang Xiaolong released the one thousand plus magic beasts, ghosts, and evil spirits that he had subjugated at the Extraterritorial Devil Battlefield to let them cultivate inside the remaining cultivation rooms. After all, there were a lot of cultivation rooms left inside the Giant Shark Flying Ship.

The Giant Shark Flying Ship was a top-grade chaos flying ship, and cultivating inside the flying ship yielded better results as compared to the Xumi Temple.

Sitting cross-legged inside cultivation room number one, Huang Xiaolong once again summoned his three avatars and formed a four-colored spiritual energy gathering formation. Then, he took out his sixth Flaming White Phoenix Divine Fruit and began refining it.

By the time Huang Xiaolong and his three avatars circulated their godforce according to the Grandmist Parasitic Medium to refine the Flaming White Phoenix Divine Fruit's fire element energy, Xiang Xun and void devil beast Xu Baisheng finally recovered their senses in the control hall.

"This, is this real?" Void devil beast Xu Baisheng stared at the piles of low grade-eight spirit stones around him and asked Xiang Xun, still doubting that he was dreaming.

Xiang Xun stepped up with doubt in his eyes, and raised one foot and stepped onto one of the low grade-eight spirit stones. Noises came from under Xiang Xun's foot, but the stones were still intact when he lifted his foot.

"It's real!" Xiang Xun sucked in a breath of cold air, then answered.

The hall fell into silence.... A dozen minutes later...

Fueled by low grade-eight spirit stones, the Giant Shark Flying Ship's speed increased further. It turned into a streak of light across the space, carrying Huang Xiaolong and the others towards the Royal Buddha Great Worlds.

In the vast starry space, the Giant Shark Flying Ship continued to fly onwards; leaving one world surface after another behind them, and these world surfaces grew smaller than a grain of sand with the distance.

Inside cultivation room number one, Huang Xiaolong and his three avatars were devouring the Flaming White Phoenix Divine Fruit's fire element energy every second, every minute.

By the time Huang Xiaolong refined his eighth Flaming White Phoenix Divine Fruit, he could no longer feel any scorching pain and adapt to the fire element energy right away. This was perhaps due to the accumulated fire phoenix spirits' fire element energy inside his body.

...

Two years passed by in the blink of an eye.

On this day, inside cultivation room number one, the fiery Flaming White Phoenix Divine Fruit in front of Huang Xiaolong and his three avatars dimmed gradually, and finally the whole fruit disappeared from the world.

Several hours later, Huang Xiaolong stopped cultivating.

Close to two years of cultivation, he and his three avatars had finally finished refining the remaining thirteen Flaming White Phoenix Divine Fruits.

He had won eighteen Flaming White Phoenix Divine Fruits from the auction, but now, they were consumed completely and not even their skins remained.

Huang Xiaolong used his divine sense check internally and found that after refining eighteen Flaming White Phoenix Divine Fruits, whether it were his internal organs, three supreme godheads, or his True Dragon Physique, all had strengthened significantly. There was also a faint flow of fire element energy throughout his body.

This was the phoenix power that had emerged in Huang Xiaolong's body after refining eighteen Flaming White Phoenix Divine Fruits, and it could increase the power of Huang Xiaolong's attack and defense to a certain degree.

And his cultivation had risen from the initial Fourth Order Ancestor God Realm to peak late-Fourth Order Ancestor God Realm, however, Huang Xiaolong felt pity that he had not managed to advance to Fifth Order Ancestor God Realm.

'The next question is, where are we right now?' Huang Xiaolong thought to himself. Just as he was about to step out of the cultivation room, a powerful energy fluctuation came from the front of the Giant Shark Flying Ship. Alarmed, Huang Xiaolong jumped to his feet and strode to the control hall. At the same time, the little cow, Feng Er, Gui Yi, Gui Er, and Gui San also came out from their respective cultivation rooms.

"Master!" Xiang Xun and void devil beast Xu Baisheng quickly went up to Huang Xiaolong upon seeing him.

"What's going on?" Huang Xiaolong demanded.

"There are people fighting ahead of us, and there are quite a lot of people. Judging from the energy fluctuations, they are probably God King Realm masters." Xiang Xun answered.

Huang Xiaolong's heart eased slightly.

Suddenly, the echoes of a wail reached their ears, seemingly, there was a demonic beast injured.

At the same time, void devil beast Xu Baisheng cried out, "It's a disciple of my clan!" He was excited, agitated, and anxious all at once.

The Void Devil Beast Clan's disciple?! The others were a little surprised at Xu Baisheng's words

[Chapter 1407: Greetings to the Lord Envoy](#)

Huang Xiaolong was genuinely surprised by Xu Baisheng's sudden exclamation. They had actually bumped into a Void Devil Beast Clan's disciple there, in the middle of nowhere?

The Void Devil Beast Clan had always lived in Hell's Asura World, and rarely appeared in the Divine World.

"Go check it out!" Huang Xiaolong said solemnly. Since it was related to Xu Baisheng's clan's disciple, he couldn't ignore the matter and leave with ease.

"Yes!" Everyone respectfully complied.

Void devil beast Xu Baisheng looked gratefully at Huang Xiaolong and thanked him, “Thank you, Master.”

Huang Xiaolong shook his head, indicating it was alright.

Thus, Xiang Xun directed the Giant Shark Flying Ship towards the source of the energy fluctuations. As a precaution, Xiang Xun activated the flying ship’s defensive formation. At the same time, dim ripples of light spread from the head to the tail of the flying ship, and it quietly vanished from sight.

If no expert was specifically using his divine sense to examine the surroundings, he probably wouldn’t be able to detect the Giant Shark Flying Shark’s presence.

The Giant Shark Flying Ship soon reached the source of the energy fluctuations.

When they came upon the battle scene, everyone inside the Giant Shark Flying Ship’s control hall was astonished—there were more than ten sect’s experts besieging three magical beasts!

Three blood-drenched magic beasts were laden with various sword cuts, blade slashes, and axe marks on their bodies. There were also irregular claw marks, fist and palm imprints on them. Their condition looked tragic.

These three magical beasts were the disciples of the Void Devil Beast Clan.

Xu Baisheng was furious and anxious at the same time, as he saw the miserable conditions of his clan’s disciples, but without Huang Xiaolong’s order, he couldn’t act recklessly.

“Master, what do we do?” Xu Baisheng asked Huang Xiaolong.

Huang Xiaolong gave Xu Baisheng a reassuring look, and said, “Don’t worry, they will be fine.”

Xu Baisheng nodded heavily.

“Xiang Xun, check if there are any experts hiding in the surroundings?” Huang Xiaolong commanded Xiang Xun.

Xiang Xun complied and spread out his divine sense to survey the surroundings.

At the same time, Huang Xiaolong’s gaze fell onto the group of sect’s experts.

He noticed an emblem consisting of nine dragons on two people’s robes, and his eyes narrowed. “The Nine Dragons Emperor Palace!”

These two people’s attires were similar to that of the Nine Dragons Emperor Palace’s special envoy, whom Huang Xiaolong had seen before. Thus, he was certain that these two were the Nine Dragons Emperor Palace’s disciples.

The little cow added, “Other than the Nine Dragons Emperor Palace, there’s also experts from the Solitude Emperor Palace, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace!”

Four of the Emperor Palaces!

Feng Er, Gui Yi, and the others sucked in a breath of cold air.

Inevitably, they would have to offend these four Emperor Palaces' experts in order to save the three void devil beasts.

Even the existence who would have surpassed God King Realm cultivation, would have the guts to become enemies with four Emperor Palaces simultaneously.

As if she was afraid that Huang Xiaolong was ignorant about the Thousand Venoms Emperor Palace and Flying Blossoms Emperor Palace, the little cow quickly explained, "Although the Thousand Venoms Emperor Palace and Flying Blossoms Emperor Palace cannot be compared to the Nine Dragons Emperor Palace or Solitude Emperor Palace, both of them are still Emperor Palace forces within the top one hundred rankings."

Even though the Thousand Venoms Emperor Palace and Flying Blossoms Emperor Palace were weaker in comparison to the former two forces, they were still considered giants in the Divine World.

Huang Xiaolong frowned at the little cow's words.

"Master, there are no hidden experts in the surroundings." At this point, Xiang Xun retrieved his divine sense and reported to Huang Xiaolong.

Huang Xiaolong nodded and a gleam of cold light flickered in his eyes as he ordered, "Get ready to rescue those beasts at my command!"

Everyone complied with hesitation, but there was obvious gratefulness in Xu Baisheng's eyes.

In less than a minute, Huang Xiaolong suddenly let out a low bellow, "Attack—!"

As soon as Huang Xiaolong's voice rang, Xiang Xun and void devil beast Xu Baisheng who had been waiting for Huang Xiaolong's order made their moves. Both of them exerted their most powerful attacks right from the beginning.

Xiang Xun's godforce and Xu Baisheng's corrosive devil qi rushed out like a deathly tsunami from the Giant Shark Flying Ship, and swept towards the Nine Dragons Emperor Palace and the other three Emperor Palaces' experts.

The four Emperor Palaces' experts were completely taken by surprise! Not to mention Xiang Xun and Xu Baisheng's strength overwhelmed them to the point of rendering them powerless, even to escape. All of them were struck by Xiang Xun and Xu Baisheng's attacks in the blink of an eye.

Boom! Bang! Explosions rang consecutively.

The four Emperor Palaces' experts exploded.

However, after the four Emperor Palaces' experts exploded, their scattered pieces of flesh, bones, and blood actually reconverged, squirming together as if a person was about to grow out.

Xiang Xun snorted disdainfully. Then, his mouth opened wide and blew out Black Infernal Divine Fire, wrapping around the scattered flesh and everything else that remained.

Xu Baisheng too opened his mouth wide and spat out a grayish-green fireball.

This grayish-green fire was one of Xu Baisheng's divine arts that was more powerful than the average God King Realm master's internal fire.

In a second, the four Emperor Palaces' experts' converging pieces of flesh exploded again, whining in agony.

"Who the hell are you all?! We are disciples of Solitude Emperor Palace! If you dare to kill us, you won't have a single place to hide in the Divine World!"

"We're disciples of Nine Dragons Emperor Palace!"

The Nine Dragons Emperor Palace, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace's disciples shouted angrily as well. Their tones were equally threatening to that of the Solitude Emperor Palace's disciples, as they warned Huang Xiaolong about the consequences of killing them; there would be no place in the Divine World for him to hide.

Huang Xiaolong watched silently.

"The Nine Dragons' Epoch Body!"

One of the Nine Dragons Emperor Palace's peak late-Third Order God King Realm disciples made a last, desperate attempt, and executed the Nine Dragons Emperor's unique technique.

Overwhelming dragon force surged out from Nine Dragons Emperor Palace's disciple's body, shaking the encirclement of Xiang Xun's Black Infernal Divine Fire.

Xiang Xun snorted coldly. He let out a heaven-shaking roar, and the surrounding energy bubbled up like boiling water as soundwaves shot straight at the four Emperor Palaces' disciples.

Then again, even though Xiang Xun was a great master since the desolate era, and Xu Baisheng was helping him, it took them a good half an hour to thoroughly annihilate the four Emperor Palaces' disciples.

Things happened too suddenly for the three void devil beasts to react. For a moment, they were unsure of how to react, but in the end, they decided to stay instead of running away.

After Xiang Xun annihilated the disciples from the four Emperor Palaces, Huang Xiaolong casually waved his hand and collected their spatial rings and divine artifacts, whereas the little cow hurriedly collected the godheads with a gleeful expression.

"Kiddo Xiang Xun, good job, now this cow has godheads to munch on." The little cow generously praised Xiang Xun.

Xiang Xun was a little shy from her praise.

"Let us go out to meet them." Huang Xiaolong said as he put away the spatial rings into his Ghost Buddha Ring. He flew out from the flying ship, while the little cow followed right behind him.

When the three void devil beasts saw Xu Baisheng coming out with Huang Xiaolong, all three were stunned. Excitement rose to their faces, and they took a few steps in Xu Baisheng's direction, "You, you are...?!"

Xu Baisheng raised a claw and made a gesture towards the void, an ancient and mysterious emblem flew out.

When the three void devil beasts saw the emblem flying out from the void, they quivered with excitement, then immediately knelt down before Xu Baisheng, greeting him loudly, "Greetings to the Lord Envoy!"

Before Xu Baisheng was suppressed and sealed under the Devil Prison Mountain, he had been the Void Devil Beast Clan's envoy. He held a very high identity and status in the clan.

[Chapter 1408: The Void Devil Beast Clan Was Wiped Out](#)

"All rise!" Xu Baisheng could barely contain his excitement when he met the three disciples of Void Devil Beast Clan. After being suppressed under the Devil Prison Mountain he was meeting them after several billion years as he had been suppressed under the Devil Prison Mountain for a very long time.

The three void devil beasts complied respectfully before coming to a stand.

Just as Xu Baisheng was going to ask why the three of them were besieged by the Nine Dragons Emperor Palace, Solitude Emperor Palace, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace, roaring soundwaves and overwhelming pressure suddenly roiled towards them from the distant starry space.

Everyone's nerves were stretched taut by the sudden assault.

"It's the Nine Dragons Emperor Palace's experts!" The three void devil beasts shouted in unison, with horror-struck expressions.

"Get back inside the flying ship and leave this place right away!" Huang Xiaolong ordered swiftly.

The rest responded, and hastened into the Giant Shark Flying Ship. The three void devil beasts followed closely behind Xu Baisheng.

"Push the flying ship's core formation to the limit!" Huang Xiaolong barked an order.

Through the days spent together, Xiang Xun and void devil beast Xu Baisheng had developed a tacit understanding. They cooperated seamlessly and raised the flying ship's speed to the limit. The Giant Shark Flying Ship shuttled forward, and disappeared from the spot in a split second.

Xiang Xun and Xu Baisheng activated all of the Giant Shark Flying Ship's defensive formations as it turned invisible and merged with the space.

Not long after the Giant Shark Flying Ship left, four figures arrived at the scene with wind whistling on their tails.

As soon as these four people arrived, they could smell the faint rusty blood-scent and the four Emperor Palaces' experts' remnant auras; their faces darkened with fury.

"Damn!" One of them swore.

"Someone actually dared to kill our Nine Dragons Emperor Palace's disciples! Die, die, die!"

“Issue an order to lockdown the surrounding space. The murderer must be found!”

“Once we catch that person, I’ll make that person understand the terrifying consequences of killing my Solitude Emperor Palace’s disciples! I’m going to annihilate his whole tribe!”

The four experts’ angry swearing seemed endless.

The four Emperor Palaces’ disciples that Xiang Xun had annihilated were all respective Emperor Palaces’ genius disciples, and each one was related to the four Emperor Palaces’ Elders in one way or the other. They were bound to be punished if they failed in finding the murderers!

The four figures flickered into a blur, chasing after Huang Xiaolong.

However, half a day later, they failed to find any clues of Huang Xiaolong’s whereabouts.

.....

The Giant Shark Flying Ship continued to fly forward in the vast space towards the Royal Buddha Great Worlds.

The flying ship’s core formation was going through low grade-eight spirit stones at an alarming speed. Maintaining a top-grade chaos flying ship at its fastest speed at all times naturally consumed a shocking amount of spirit stones with every passing second.

However, Huang Xiaolong wasn’t concerned about this.

The three void devil beasts stared dumbfoundedly at the rapidly disappearing piles of low grade-eight spirit stones, feeling dryness in their throats.

“Xu Baisheng, lead them to the cultivation rooms. The spiritual energy gathering formations inside these rooms will help heal their injuries faster.” Huang Xiaolong said to Xu Baisheng.

“Yes, Master!” Xu Baisheng choked slightly, as he was extremely grateful to Huang Xiaolong.

Master...?!

The three void devil beasts looked at Huang Xiaolong, clearly astounded by what they heard.

However, the three of them wisely did not ask any questions and obediently followed Xu Baisheng. Each chose a cultivation room and entered them respectively. Then swallowed the chaos healing pills that Xu Baisheng had given them to start the healing process.

The Giant Shark Flying Ship flew onwards at high speed.

Roughly two weeks later, the Giant Shark Flying Ship passed by a deserted planet. Huang Xiaolong and the others could finally sighed in relief, as no one was chasing them.

They had successfully broken away from the four Emperor Palaces’ forces’ lockdown and pursuit by flying at a high speed in the Giant Shark Flying Ship.

As they had maneuvered their way out, they had seen the four Emperor Palaces’ flying ships patrolling and searching for them along the way.

A day had passed since they had seen any of the four Emperor Palaces' flying ships. Therefore, they could dare to assume that they were safe.

However, as a precaution, Huang Xiaolong had Xiang Xun fly the ship at the fastest speed.

Another ten days passed when the Giant Shark Flying Ship stopped above an uninhabited planet.

The three void devil beasts injuries had healed significantly after almost a month of healing inside the cultivation room, along with using the chaos grade healing pills. At least, they no longer looked miserable from the outside.

"Master!" Xu Baisheng led the three void devil beasts and saluted Huang Xiaolong respectfully.

Huang Xiaolong nodded at Xu Baisheng, then looked at the three void devil beasts standing behind Xu Baisheng. He asked their names and why the four Emperor Palaces' experts were besieging them.

All three hesitated and looked at Xu Baisheng for help.

Xu Baisheng strongly replied, "What the Master asks, you answer, no need to conceal anything."

The three of them complied at Xu Baisheng's command.

The three introduced themselves to Huang Xiaolong, the little cow, and the others. Their names were Xu Ying, Xu Jiang, and Xu Shi. They also recounted all the details about why the four Emperor Palaces' experts were besieging them...

Several million years ago, the Void Devil Beast Clan's Old Ancestor had suddenly left the clan, claiming that he had wanted to go look for something in the Divine World's Devil Abyss.

But the Void Devil Beast Clan's Old Ancestor had sunk into the Devil Abyss without any news for several million years.

Following this tragedy, a rumor had circulated in Hell's Aura World that the Void Devil Beast Clan's Old Ancestor had fallen into the Devil Abyss.

Due to this, the Void Devil Beast Clan was repeatedly harassed by its enemies, weakening the clan over time. In several million years, the clan was stripped down from a hegemon force in the Hell's Asura World to a second-rank force.

However, not long ago, two of Void Devil Beast Clan's powerful enemies, Black Ant Clan and Demonic Bone Clan had joined forces to attack the Void Devil Beast Clan, to completely wipe them out.

The Void Devil Beast Clan that was reduced to a second-rank force was unable to withstand the Black Ants Clan and Demonic Bone Clan's attacks. Numerous Void Devil Beast Clan's disciples were injured and had died, while only a handful of disciples had managed to escape. But these disciples could no longer stay in Hell's Asura World, thus they had to leave and find refuge in another world.

The three of them and quite a few of the Void Devil Beast Clan's disciples had fled to the Divine World.

They originally had planned to migrate in order to improve their cultivation, and find an opportunity to avenge their clan. But not long after they had come to the Divine World, disciples of the Nine Dragons

Emperor Palace, Solitude Emperor Palace, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace found them.

Every part of a void devil beast was a treasure; their blood and the beast core could be used to refine top-grade chaos spiritual pills. Their skin and bones were rare materials to forge top-grade chaos spiritual armors, therefore, they were hunted by the four Emperor Palaces' experts.

As the three went on, their voices choked intermittently. Tears were running down from Xu Baisheng's eyes.

Xu Baisheng clenched his paws, a violent murderous aura surged from his body as he bellowed to vent the angst in his heart.

Black Ant Clan!

Demonic Bone Clan!

Also the Solitude Emperor Palace, Nine Dragons Emperor Palace, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace!

It was hard to control the storm of emotions for Xu Baisheng after learning that his clan was annihilated.

Huang Xiaolong, the little cow, Xiang Xun, Feng Er, and the others were dismayed and despondent. A heavy silence filled the hall.

One of the three void devil beasts, Xu Yong cried woefully, "In the beginning, there were still more than three hundred of us, but in the last few years, the four Emperor Palaces have killed most of our kins, and now, there's only the three of us left. The others either died at the hands of the four Emperor Palaces' experts or died after they were captured and taken back to the four Emperor Palaces!"

[Chapter 1409: The Void Devil Beast Clan's Debt of Blood](#)

Xu Baisheng's eyes were red-rimmed with tears as he asked Xu Yong's group, "Do you know Xu Baiqiang, Xu Baifeng, and Xu Huanying?"

Xu Yong and the other two void devil beasts were surprised by Xu Baisheng's question. Xu Yong answered, "Lord Envoy knows our Grandfather Xu Baiqiang and Xu Baifeng? Xu Huanying is my Great-grandfather!"

"What?! Big brother and Second Brother are your grandfathers?" Xu Baisheng asked excitedly. "Xu Baiqiang and Xi Baifeng are my Big Brother and Second Brother, and Xu Huanying is my father!"

Xu Yong, Xu Jiang, and Xu Shi looked at Xu Baisheng with disbelief and excitement as they hesitated, and asked, "Then... Lord Envoy, y-you are?"

"My name is Xu Baisheng. I entered the Divine World several hundred years ago, but I was sealed within one of the world surfaces in the Divine World. I was rescued by Senior Xiaoniu some years back!" Xu Baisheng briefly explained.

"You, you are our Granduncle?!" Xu Yong, Xu Jiang, and Xu Shi blurted out in astonishment.

The Void Devil Beast Clan's old records had mentioned Xu Baisheng as one of the rare geniuses of the Void Devil Beast Clan, but Xu Baisheng had suddenly disappeared several hundred million years ago. In truth, Xu Baisheng was sealed within one of the Divine World's world surfaces.

"Yes, I am Xu Baisheng." Void devil beast Xu Baisheng confirmed, ecstatic as he continued, "I had not expected you to be Big Brother and Second Brother's younger generations!"

Even Huang Xiaolong, Xiang Xun, Feng Er, and the rest were amazed by the coincidence.

Xu Yong, Xu Jiang, and Xu Shi suddenly plopped down on their knees before Xu Baisheng, and cried loudly.

"Granduncle, Grandfather and the rest, the rest...!" Xu Yong's voice choked, "Grandfather and the others had fled to the Divine World with us, but one year ago, when we are chased by the four Emperor Palaces' experts, Grandfather and Great-grandfather fought with the four Emperor Palaces' experts to save us!"

At this point, there was no need to say anything further.

Xu Baisheng's face turned pale as he tried I say, "You're saying... that my Big brother, Second brother, and my Father, they, they...!" He was afraid to complete the sentence.

"Since then we've lost contact with Grandfather and Great-grandfather. We don't know what happened to Grandfather and Great-grandfather, but it is likely that they..." Xu Jiang said despondently, and his face was filled with grief.

Most likely, their Grandfather and Great-grandfather had fallen!

The worst ending was they were killed by the four Emperor Palaces' experts. A little better was they were captured by the four Emperor Palaces' experts, but the chances of them escaping were very slim.

Hatred and wrath roiled in Xu Baisheng's eyes as he roared loudly, "I want revenge, I want revenge!" His breathing became heavy and tumultuous.

But, right at this time, a hoof smacked heavily on Xu Baisheng's head, and a scolding ensued, "Revenge? Revenge your head!"

Xu Baisheng was dumbstruck on the spot but only for a second. Fury erupted in his heart as he turned around. When he saw who it was, it was like a bucket of ice water was being poured over his head. He felt wronged and cried out sadly, "Senior Xiaoniu."

The one who had smacked his head was none other than the little cow.

Xu Yong, Xu Jiang, and Xu Shi were stupefied as they looked at the little cow. 'Is this cow the 'Senior Xiaoniu' that their Granduncle had mentioned earlier? Had this cow rescued their Granduncle?'

The little cow asked Xu Yong, Xu Jiang, and Xu Shi, "Just now, you three mentioned that Xu Changtian has come to the Divine World's Devil Abyss several million years ago, right?"

Xu Changtian?!

Xu Yong, Xu Jiang, and Xu Shi blanked for a second at her question but soon reacted as they realized that the little cow was using the full name of their Void Devil Beast Clan's Old Ancestor. All three were enraged by the disrespect shown by the little cow.

Their Void Devil Beast Clan's Old Ancestor was a venerable existence in their hearts, but this little azure cow was talking about their old Ancestor by using his name without the honorifics!

Even if you rescued Granduncle, you cannot be so insolent!

Xu Baisheng's heart dropped to his stomach when he noticed the enraged expressions on the three kids' faces. He swiftly snapped at them, "What are you three doing?! Senior Xiaoni is a friend of our Old Ancestor!"

Xu Yong, Xu Jiang, and Xu Shi were dumbfounded. What? What?! For real?!

The little cow looked at the shocked expressions on the three void devil beasts' faces, and harrumphed inwardly. A light glimmered at her neck as a golden ring appeared from the light. It was exuding boundless devil qi from the bell-like black hole that was on top of the golden ring.

Seeing this golden ring, the three Void Devil Beast Clan's juniors trembled, even their words were shaking, "Gold-Golden Void Bell Ring!"

The Golden Void Bell Ring was the Void Devil Beast Clan's supreme artifact. It was also Xu Changtian's most used artifact, as the Void Devil Beast Clan's core disciples, Xu Yong, Xu Jiang, and Xu Shi naturally recognized it.

"Speak, and tell me everything you know in detail." The little cow drawled lazily. "Tell me the situation after Xu Changtian sneaked into the Divine World!"

Huang Xiaolong was speechless looking at the little cow's lazy, nonchalant manner.

This old cow!

Xu Yong, Xu Jiang, and Xu Shi quickly converged their anger and respectfully complied. They quickly recounted what they knew to the little cow without any concealment. Even though the three of them were Void Devil Beast Clan's core disciples, there was a lot that they didn't know about Xu Changtian. In short, they only knew Xu Changtian had sneaked into the Divine World's Devil Abyss to look for some kind of treasure.

Huang Xiaolong and the little cow exchanged a silent glance.

Treasure?

The two thought of the Ancient Heavenly Emperor's treasure - the Ancient Heavenly Court.

The two of them knew the Ancient Heavenly Court treasure was somewhere in the depths of the Devil Abyss, and it was very likely that Xu Changtian has entered the Devil Abyss for the Ancient Heavenly Court.

After all, with Xu Changtian's identity, there was no other treasure that could tempt him into the Devil Abyss regardless of the risks and dangers.

Then again, this was merely Huang Xiaolong's guess. Only Xu Changtian knew if he was searching for the Ancient Heavenly Court in the Devil Abyss or something else.

"But, our Great-grandfather might know what the Old Ancestor was searching for in the Devil Abyss." Xu Yong suddenly added.

"My father might know...?!" Xu Baisheng repeated.

"Yes, Granduncle. Before the Old Ancestor left for the Devil Abyss, he had gathered Great-Grandfather and several others to tell them something, therefore, I think, Great-grandfather should have definitely known." Xu Yong explained.

Huang Xiaolong frowned. He had a feeling that Xu Baisheng's Father was already killed by the four Emperor Palaces' experts. Still, better to make sure.

"Master, I want revenge!" Xu Baisheng said to Huang Xiaolong, and his voice was filled with intense hatred towards the four Emperor Palaces, Black Ant Clan, and the Demonic Bone Clan. "I want to annihilate the four Emperor Palaces, Black Ant Clan, and Demonic Bone Clan!"

Huang Xiaolong spoke with certainty, "Don't worry, we will help you collect the Void Devil Beast Clan's debt of blood!"

Xu Baisheng looked gratefully at Huang Xiaolong and fell to his knees, heavily knocking his forehead against the floor and said, "Thank you, Master!"

Huang Xiaolong told him to stand up.

"It's easier said than done to avenge the Void Devil Beast Clan!" The little cow struck them with reality. "Put aside the Black Ant Clan and Demonic Bone Clan, just the four Emperor Palaces' branch forces would be enough to annihilate you several times repeatedly."

Huang Xiaolong's eyes glimmered, 'right ah, it was easier said than done to annihilate the four Emperor Palaces based on his current strength.'

The four Emperor Palaces were giants that had existed since the desolate era, standing tall for billions of years with their roots deeply entrenched in the Divine World. Even the current Heavenly Court would find it troublesome to uproot the four Emperor Palaces.

[Chapter 1410: Fifth Order Ancestor God Realm](#)

Determination shone within the depths of Huang Xiaolong's eyes, "If we cannot destroy the four Emperor Palaces in ten thousand years, then we will do it in a hundred thousand years. If a hundred thousand years are not enough, then a million years!"

Others might not succeed in undertaking this task, but Huang Xiaolong had the confidence to accomplish it!

He was confident because he had three supreme godheads and the Grandmist Parasitic Medium!

Moreover, he had the chaos Golden Dragon Lightning Pool, the Blood Eye Devil Stele, and the knowledge about the whereabouts of the Ancient Heavenly Court treasure in the Devil Abyss!

However, Xu Yong, Xu Jiang, and Xu Shi were inwardly shaking their heads. All three were thinking that Huang Xiaolong was naive to the point of being ridiculous. The four Emperor Palaces had been in existence for tens of billions of years, and the scope of their power was out of Huang Xiaolong's imagination. How could Huang Xiaolong destroy such an immense existence within a hundred thousand years of effort?

Then again, even though they felt Huang Xiaolong was being naive to the point of sounding ridiculous, none of them dared to show their true feelings. After all, even the little cow and their Granduncle Xu Baisheng we're referring to Huang Xiaolong as their Master.

Still, the three of them were confused and stumped. What did this man do to make the little cow, Xu Baisheng, Xiang Xun, and the others acknowledge him as Master?

They could see that Huang Xiaolong was merely a peak late-Fourth Order Ancestor God Realm junior. In some world surfaces, a peak late-Fourth Order Ancestor God Realms were considered to be powerful experts, however, the same cultivation in the vast Divine World was nothing more than a commoner with a little strength.

They could grab this level of juniors within the Void Devil Beast Clan blindfolded.

In the next second, they saw Huang Xiaolong extend his palm out, and... low grade-eight spirit stones rained down from the void—?!!

"Fly at the ship's fastest speed! Onwards to the Royal Buddha Great Worlds." Huang Xiaolong ordered.

"Yes, Master!" Xiang Xun and Xu Baisheng complied crisply.

Xu Yong and the other two felt a parchiness in their throats.

Fly at the fastest speed?

"Granduncle, does that mean that we're going to use these low grade-eight spirit stones to fuel the flying ship's core formation throughout our journey?" Xu Yong couldn't stop himself from asking.

Their reactions were similar to how Xiang Xun and Xu Baisheng when they had first seen Huang Xiaolong making piles of low grade-eight spirit stones—'simply too wasteful! Too extravagant!'

Not to mention, flying at the fastest speed meant bigger consumption of spirit stones.

"En." Xu Baisheng answered firmly. "You all will get used to it soon, as you keep following Master!"

Get used to it!

In these past years, Xu Baisheng had grown used to a lot of things, since he had started following Huang Xiaolong.

Xu Yong and the other two exchanged silent glances.

"Master has said that we would use even higher grade spirit stones to fuel the flying ship after arriving at the Royal Buddha Great Worlds, therefore, these low grade-eight spirit stones are no big deal." Xu Baisheng added.

Even higher grade spirit stones!

All three Void Devil Beast Clan's juniors were extremely speechless.

In the meantime, Huang Xiaolong had returned to the cultivation room number one and cultivated.

He felt more pressured to raise his strength, strive forward, and cultivate harder, after learning about the Void Devil Beast Clan's genocide.

Since Huang Xiaolong had finished refining all eighteen Flaming White Phoenix Divine Fruits, he could only go back to refining the Sea God's spirits inside the Sea God Tower.

To refine the Sea God's spirit, he needed Xiang Xun on his side to suppress them from resisting.

Huang Xiaolong summoned his three avatars, and all four circulated their godforce according to the Grandmist Parasitic Medium as they began refining the Sea God spirit's pure, and robust energy.

This time around, Huang Xiaolong chose a Sea God's Spirit with a mid-First Order God King Realm strength.

Under the suppression of Xiang Xun's godforce, the mid-First Order God King Realm Sea God spirit's pure energy flowed abundantly into Huang Xiaolong and his three avatars' bodies.

As his strength had increased after refining the Flaming White Phoenix Divine Fruits, his True Dragon Physique and three supreme godheads' endurance had greatly increased as well. Therefore, he and his three avatars were refining the mid-First Order Ancestor God King Realm Sea God's spirit twice as fast, taking no more than a month.

Even though Xiang Xun had already witnessed Huang Xiaolong's cultivation speed, he was still flabbergasted as he watched the mid-First Order God King Realm Sea God's spirit's pure energy rush into Huang Xiaolong's body like tidal waves, while Huang Xiaolong absorbed it entirely without a sliver of waste.

Was Huang Xiaolong merely a peak late-Fourth Order Ancestor God Realm? Since when did a peak late-Fourth Order Ancestor God Realm's cultivation speed become this frightening?

If he hadn't seen it with his own eyes, Xiang Xun would have thought that this speed was only restricted to a God King Realm cultivator.

After Huang Xiaolong finished refining the first mid-First Order Ancestor God Realm Sea God's spirit, he went on to the next one without a break.

This time also, it was a mid-First Order God King Realm Sea God's spirit.

...

Four months later, Huang Xiaolong began refining a late-First Order God King Realm Sea God's spirits.

Seven months later, it was a peak late-First Order God King Realm Sea God's spirits.

When Huang Xiaolong was refining a peak late-First Order God King Realm Sea God's spirit, a light enveloped Huang Xiaolong, as consecutive muffled booms sounded from his body.

Huang Xiaolong's momentum soared, and a robust supreme godforce surged and roiled, crashing against the four walls of the cultivation room. The sturdy Giant Shark Flying Ship's body hummed from the clashes, and even Xiang Xun swayed slightly as he stood inside the cultivation room.

Xiang Xun looked at Huang Xiaolong in astonishment—Fifth Order Ancestor God Realm!

Whereas, Huang Xiaolong who had just broken through to the Fifth Order Ancestor God Realm exuded a pressure stronger than the average Eighth Order Ancestor God Realm cultivators; it was many times stronger.

In that case, did it mean that when it was time for Huang Xiaolong to step into high-level Ancestor God Realm, like Seventh Order Ancestor God Realm, he would?! Xiang Xun was scared thinking of it.

Meanwhile, Huang Xiaolong continued cultivating and absorbing the Sea God's spirit's energy even after he had advanced to Fifth order Ancestor God Realm.

...

The Giant Shark Flying Ship rapidly consumed low grade-eighth spirit stones as it flew towards the Royal Buddha Great Worlds.

The whole journey was smooth and peaceful.

Two years passed unknowingly as everyone was immersed in their cultivation.

During these two years, Huang Xiaolong had remained inside the cultivation room number one for this entire duration, without taking a single step outside. This was because he had completely entered an ethereal state in cultivation.

By this point, Huang Xiaolong had already refined all eight First Order God King Realm Sea Gods' spirits. In fact, he had also refined the six Second Order God King Realm Sea Gods' spirits, and all four Third Order God King Realm Sea Gods' spirits.

Inside the Sea God Tower, there were only four Fourth Order God King Realm Sea Gods' spirits, and two Fifth Order God King Realm Sea Gods' spirits.

Huang Xiaolong stopped cultivating after he finished refining the last Third Order God King Realm Sea God's spirit. He roughly estimated the time, and guessed that they had probably reached the Royal Buddha Great Worlds.

Huang Xiaolong checked his internal condition using his divine sense. A second later, he nodded with satisfaction.

A little over two years of cultivation, and he had broken through to peak mid-Fifth Order Ancestor God Realm; just half a step further, and he would be able to advance to late-Fifth Order Ancestor God Realm. Most of all, Huang Xiaolong had not expected that to encounter abundance of energy from the Third Order God King Realm Sea Gods' spirits.

Huang Xiaolong got up to his feet and stepped out from the cultivation room with Xiang Xun.

There was a complicated expression on Xu Yong, Xu Jiang, and Xu Shi's faces when they saw that Huang Xiaolong had broken through to peak late-Fifth Order Ancestor God Realm, as he came out from his cultivation room.

In the control hall, Huang Xiaolong asked Xu Baisheng about their flight-situation. Xu Baisheng respectfully answered, " Master, if everything goes well, we would arrive at the Royal Buddha Great Worlds in ten days or so."
