

INVINCIBLE 1959

[Chapter 1959: Dun Ei Rages](#)

“Destroy it?!” A frown formed on Dun Ei’s face. That was the other half of the Radiance Ancestor’s inheritance they were talking about! Even though there was only half of it, it was enough to allow him to enter the Sovereign Realm!

If he lost this chance, he would need god-knew how many years before he found an opportunity to break through?

He wasn’t willing to destroy the inheritance at all!

Dun Ei flew towards the entrance of the Heavenly Hall, and he pressed his hands against it. He tried ways and means to open the entrance, but it still remained shut after a day.

The expression on Dun Ei’s face was ugly to the extreme.

“Senior brother, I received news that Huang Xiaolong has already left the Fortune Emperor Palace. I’m afraid he’s coming to the Radiance World as we speak. If we don’t destroy the Heavenly Hall, it’s going to be too late!”

“Fine! Destroy it!” A sinister light flashed through Dun Ei’s eyes as he gritted his teeth to relay his order. Since he couldn’t obtain it, he wouldn’t allow Huang Xiaolong to receive the inheritance.

After being the Radiance World’s leader for such a long time, he was not a merciful character. Since he couldn’t obtain it, no one would! Destroying the inheritance was better than allowing Huang Xiaolong to obtain it!

If Huang Xiaolong managed to obtain the Radiance Ancestor’s complete inheritance, things wouldn’t end well for them.

“Everyone, use your full strength! We shall destroy the Heavenly Hall!” Dun Ei turned to the pontiffs and instructed.

“We hear Your Majesty’s order!” In an instant, all of them moved as one, and radiance energy filled the heaven and earth. With them in the center, a circle with a radius of several billion miles lit up with radiance energy.

BOOM!

The heavens and earth shook.

Massive waves rose in the sea below, and it seemed as though the entire area was flipped over. Islands scattered around the radius of the explosion crumbled and submerged under the gigantic waves.

As for the massive island that they were on, nothing remained other than the Array of Origin.

After a short while, the light disappeared.

“This... How is this possible?!” One of the pontiffs cried out in shock.

They saw a completely intact Heavenly Hall hovering in the air in front of them, and it seemed to be completely undamaged! Even after taking on a hundred pontiffs' combined might, it emitted a pure and holy radiance.

They couldn't even chip its walls!

Even Dun Ei and Lan Zhi stared at the scene in front of them in shock. Their eyes widened, and a look of disbelief appeared on their faces.

With the combined strength of a hundred pontiffs at the Tenth Order Emperor Realm, even an ordinary Sovereign Realm expert would suffer some injuries!

So what if the Heavenly Hall was a top-grade grandmist artifact?! It shouldn't be able to take on the attacks of a hundred pontiffs without suffering some sort of damage!

That was also the belief Lan Zhi had when he had suggested destroying the Heavenly Hall.

"Use your divine artifacts!" Dun Ei's face sank, and he ordered once again.

He refused to believe that they couldn't destroy a mere Heavenly Hall.

In an instant, all one hundred pontiffs called out their weapons as they started to bombard the Heavenly Hall.

Buzz!

When their attacks landed on the Heavenly Hall, a blinding radiance shot out in all directions. Divine runes started to move about on the body of the structure.

When the attacks landed on the runes, they slid right off.

"This is...!" Everyone stared at the Heavenly Hall in shock.

By this time, Dun Ei's expression was darker than the bottom of the well.

There was no need to think about it. They were definitely facing the defensive restrictions set by the Radiance Ancestor. There was no other explanation that a hundred pontiffs were unable to scratch a mere grandmist artifact.

It was too bad Dun Ei's ambition didn't die there. He retrieved his Divine Radiance Staff and had a go at it.

The Divine Radiance Staff was crafted using the purest radiance divine metal in the Radiance World. He had used several hundred million years to craft it, and even though it wasn't a peak-grade grandmist artifact, it was infinitely close to one. It was a top-grade grandmist spiritual artifact.

Raising the staff, he flew towards the top of the Heavenly Hall. According to his experience, the top of the Heavenly Hall was its weak point.

"Lay down the Ardent Sun Formation! Send me all your radiance energy!" Dun Ei ordered.

In an instant, all the experts he had brought with him, including Lan Zhi, flew over to him. They formed a circle with him in the center and raised their hands. As they formed radiance runes, they fused to form a massive river of light. Radiance energy poured into Dun Ei's body.

Dun Ei became like a massive sun that emitted endless radiance energy.

"Divine Radiance Light God! Endless Explosion!" After gathering everyone's radiance energy, Dun Ei screamed and slammed his staff towards the peak of the Heavenly Hall.

When he slammed his staff into the peak of the Heavenly Hall, streams of radiance energy burst out from the staff and turned into a massive phantom. The staff smashed down with earth crushing might.

BANG!

The Heavenly Hall started to shake as it emitted rays of brilliant light.

It was too bad he only managed to cause the light to falter for a second. The Heavenly Hall returned to its original state.

Once again, the expressions of everyone present sank.

Even that didn't work!

All of a sudden, the one hundred Radiance Divine Stones dulled, and the formation disappeared. The Heavenly Hall that was hovering in the air disappeared.

It sank to the bottom of the sea, disappearing from their eyes.

Everyone was stunned. They realized that the Divine Radiance Stone had exhausted their power, and without the support of the Array of Origin, the Heavenly Hall could only return to the bottom of the sea.

Dun Ei didn't hesitate. His body flashed as he arrived at the bottom of the Sea of Radiance, but no matter how hard he tried, he failed to locate the Heavenly Hall.

"D*mn it!" Dun Ei raged the instant he returned to the surface.

He knew that the Heavenly Hall was hidden somewhere in the folds of space, and they would only be able to summon it with the might of the Radiance Divine Stones. He had obtained those one hundred stones after immense efforts. If he wanted to find another one hundred Radiance Divine Stone, it would take him several years.

Several years!

By that time, even the cows would have gone home.

"Senior brother, since we can't destroy the Heavenly Hall, we can still destroy the Array of Origin!"

Dun Ei's eyes lit up. As long as he destroyed the formation, there would be no way for Huang Xiaolong to obtain the inheritance.

The only problem was that no matter how hard they tried, they failed to scratch the Array of Origin as well!

“Lay down the Formation of Light and Darkness! Seal the Array of Origin!” With no other choice, Dun Ei passed down his order.

.....

After a month, Huang Xiaolong appeared in the space above the Sea of Radiance.

When he saw the boundless sea in front of him, a wave of relief swept past Huang Xiaolong’s heart. In the past month, he had rushed without rest towards the Sea of Radiance.

After stopping for a second, he flew into the skies above the sea.

Under the brilliant sunlight, the sea’s surface reflected off warm rays of light, and they gave Huang Xiaolong a sense of comfort.

However, he soon realized that there were disciples from different sects everywhere.

After asking around, Huang Xiaolong learned that some sort of light covered the sea, and it looked as though a treasure was about to be born. Rumors started to spread, and countless experts were rushing towards the Sea of Radiance.

[Chapter 1960: Ten Winged Pegasus](#)

A weird light flashed through Huang Xiaolong’s eyes.

The birth of a treasure?

Who gave out the news? Was it Dun Ei? Or was it Lan Zhi?

Huang Xiaolong laughed coldly to himself. Were they really trying to stop him by doing something like that?

Circulating the Heavenly Hall’s power in his body, Huang Xiaolong searched for the other half’s location.

Despite having one half of the Heavenly Hall, it would have been challenging if Huang Xiaolong had to look through the boundless Radiance Divine World to locate the other half of the inheritance. Luckily for him, Dun Ei had narrowed down the scope to the Sea of Radiance.

Huang Xiaolong really wanted to thank Dun Ei for his ‘kind gesture.’

Perhaps because too many experts had run all the way to the Sea of Radiance to search for treasures, Huang Xiaolong didn’t run into a single radiance beast while roaming about the Sea.

After an hour of searching, just as Huang Xiaolong passed by a desolate island, a brilliant ray of bright light shot into the sky and charged towards him.

Turning his head, Huang Xiaolong noticed a radiance beast with the head of an iron eagle. It flew towards him, but it was a pity it only possessed the strength of an Ancestor God.

Huang Xiaolong didn’t even bother moving his hands. He activated his Emperor’s will and turned the radiance beast into dust.

Without stopping for a single moment, Huang Xiaolong continued his advance.

The deeper he reached into the Sea of Radiance, the number of radiance beasts he ran into increased. They were getting stronger and stronger. Initially, he only met beasts at the Ancient God or Ancestor God Realm. The deeper he went, the mid-level Ancestor Gods slowly appeared. Their strength increased, and eventually, God King Realm beasts appeared.

Four days later, Huang Xiaolong was attacked by a Sixth Order God King Realm beast.

Right after he killed the beast with his Emperor's will and continued heading forward, a surprised cry sounded out in a distant place.

Applause soon broke out.

"Amazing strength!" A shocked cry came out of the mouth of someone in the approaching group.

Huang Xiaolong turned around, and he saw a group of people wearing radiance battle armor approaching him. There were nearly two hundred of them, and none of them were weak. There were several high-level God King Realm experts and some low-level Heavenly Monarchs among them.

The person leading them was a young man with a headful of dark blue hair. There was an insignia of a knight on his chest.

When Huang Xiaolong looked at the insignia on his chest, he knew that the young man was someone from the Radiance Knight Corp. He was at the peak of the early-First Order Heavenly Monarch Realm, but he wasn't the strongest person present in the group. Despite that, he was the leader of the group.

Huang Xiaolong ignored them and continued flying forward.

When they saw that Huang Xiaolong was ignoring all of them, one of them screamed, "Hold it!" His figure flashed and appeared before Huang Xiaolong, blocking his way.

Huang Xiaolong's eyes narrowed by a single millimeter.

Before he could say anything, the dark blue-haired youngster waved his hand to chase away the person blocking Huang Xiaolong's way.

He personally brought the group over to Huang Xiaolong and chuckled, "I am a captain of the Radiance Knight Corp, Lu Feng. I have no other intentions. Are you also here to search for the treasure? There are too many beasts in the Sea of Radiance, and it will be dangerous for you to go alone. I would like to extend an invitation for you to join our group. After all, it would be easier to move about with others."

"I'm not interested." Huang Xiaolong rejected him without hesitation.

Lu Feng stared at Huang Xiaolong in shock.

After he spoke, Huang Xiaolong didn't bother waiting. He flew across the air and left.

"Young master, that brat doesn't know what's good for him. After learning about your identity as a captain in the Radiance Knight Corp, he still rejected your invitation!" The man, who had blocked Huang Xiaolong's way previously, snorted.

He was at the mid-Third Order Heavenly Monarch Realm, and he was one of the strongest ones in the group.

Lu Feng laughed, and he didn't care about Huang Xiaolong's rejection in the slightest. "If he dares to reject my invitation, he definitely has someone to rely on. He's pretty strong. He should be cultivating some sort of soul skill. To be able to kill a Sixth Order God King Realm beast, that's something even Tenth Order God Kings will find hard to do."

The mid-Third Order Heavenly Monarch continued, "Even so, he should be at the Second Order Heavenly Monarch Realm. With the young master's identity, even high-level Heavenly Monarchs have to bow down to you! If not for young master's interference, I would have taught that kid a lesson!"

Lu Feng's transmissions symbol shook, and the moment he took it out, a look of joy appeared on his face.

"Young master, this is...?" The mid-Third Order Heavenly Monarch asked.

"Someone made a report! A ten-winged pegasus has appeared!"

"What?! Ten-winged pegasus?!"

A Pegasus was the strongest creature in the Radiance Divine World. It was almost impossible to see one, let alone one with ten wings.

A ten-winged pegasus was something even the pontiffs would fight over to obtain!

"It's pretty strong. It should be in the Second Order Emperor Realm or above." Lu Feng said. "I have to contact my father immediately!"

His father was Lu Zhaoming, and he was a bishop in the Radiance Knight Corp. He was a late-Third Order Emperor.

The highest-ranked individual in the Radiance Knight Corp was Elan, and there were several archbishops under him. Bishops ranked lower than that.

As a bishop in the Radiance Knight Corp, he would be able to command a million radiance knights.

A knight in the Radiance Knight Corp wasn't someone that ordinary disciples in the top hundred Emperor Palaces could compare to. Every single one of them passed through countless trials and tests. Only then would they be accepted into the corp. Moreover, only high-level God Kings would be accepted into the army.

One could imagine the might of a million radiance knights!

This time, Lu Feng had come to the Sea of Radiance with his father. Lu Zhaoming could rush towards Lu Feng whenever he received the signal.

Lu Feng hastily sent a message to his father.

By then, Huang Xiaolong had already left, and he charged towards the south. According to his sixth sense, the second half of the inheritance was located in the southern area of the Sea of Radiance.

Several hours passed, and Huang Xiaolong continued to fly forward. All of a sudden, shocking fluctuations slammed into him, and Huang Xiaolong raised his head in shock. He saw a creature in pure

white soaring into the sky. Looking closer, he noticed that it was a white horse with an adorable horn growing out from its forehead. Five pairs of wings hung on its back.

“Pegasus?” Huang Xiaolong was stunned.

There were also ten wings on its back.

Even though it wasn't as precious as the Scarlet Flame Dark Qilin he had bought in Hell, it wasn't too far off.

The ten-winged pegasus was extremely quick, and it quickly flew away from its previous position. A group of experts chased behind it, and if there weren't ten thousand of them, there were definitely eight thousand. It was a sight to behold.

The ten-winged pegasus soon arrived before Huang Xiaolong.
