

Chapter 3171: In This Holy World, You Have the Highest Authority?

Huang Peng, Su Yan, Shi Xiaofei, and the others felt horror facing the Chen Family experts' collective killing intent.

Huang Xiaolong looked coldly at the Chen Family Patriarch who was peering down at him and his family condescendingly from midair and uttered three words, "Get down here!"

Get down here!

These three words exploded like ten thousand echoes of thunder.

The entire Deer Spring Holy Land's sky rumbled, frightening many experts that they were kneeling on the ground in reverence.

In the next second, the Chen Family Patriarch crashed to the ground as if he was struck by a great impact, and the several hundred experts with him fell to the ground like drops of rain.

Miserable screams reverberated in the air as if it would never end.

Blood sprayed out from the several hundred Chen Family experts' mouths.

Patriarch Chen's flesh split in various places, and his armor exploded to smithereens, revealing the net-like bloodlines that ran all over his body. His hair was disheveled, and blood flowed out from his eyes, nose, ears, and mouth. He was a stark contrast to his inviolable majestic appearance a moment ago.

Huang Peng, Su Yan, Huang Xiaohai, the little cow, Old Man Grandmist, Shi Xiaofei, Li Lu, and the rest watched with dumbfounded eyes, with disbelief written on their faces as they looked dazedly at the several hundred Chen Family experts and the Chen Family Patriarch.

"This, this is not an illusion, right?" Huang Xiaohai stuttered stupidly.

Huang Xiaolong landed a kick on Huang Xiaohai's backside and snorted. "Illusion your ass*!"

Huang Xiaohai protected his backside, then as he realized something, he yelled loudly in joy, looking especially thrilled, "Big Brother, you, you're really a True Saint expert?!"

He thought that if Huang Xiaolong wasn't a True Saint expert, how could he possibly make the Chen Family Patriarch fall from the air?

Huang Peng, Su Yan, and the others looked at Huang Xiaolong in pleasant surprise.

Huang Xiaolong smiled, "You can say so. I already said it earlier, but no one believed me."

Huang Xiaohai scratched his head, feeling as awkward as the others.

The two Chen Family guards, who had mocked Huang Xiaolong repeatedly, stared at Huang Xiaolong with petrified faces. This, this young man is really a True Saint Realm expert?!

There was ssh'ing sounds from the restaurant staff's pants.

When the others turned to look, they saw a yellow puddle under his feet.

“You—!” The Chen Family Patriarch was terrified as he looked at Huang Xiaolong, and then quickly scrambled to his feet and knelt before Huang Xiaolong. “Lord, have mercy, have mercy!”

He kowtowed incessantly.

In general, not even a peak Ninth Order half-True Saint could exert such might with merely his voice, thus the young man could only be a True Saint Realm expert!

Although the Chen Family was considered as one of the big families in Deer Spring Holy Land, he, the Chen Family Patriarch, could only prostrate humbly in front of a True Saint Realm expert.

Huang Xiaolong’s gaze swept past the Chen Family Patriarch as he reached out and pulled a silver-haired old man out from the void. The old man crashed to the ground, and when the Chen Family Patriarch saw this silver-haired old man, he cried out, “Old Ancestor!”

Huang Peng, Shi Xiafei, and the others were genuinely shocked when they heard the Chen Family Patriarch calling the silver-haired old man old ancestor.

“Lord, please show mercy!” After rolling out from the void, the Chen Family’s old ancestor knelt towards Huang Xiaolong in fear, not knowing what had happened.

“Saint Luquan and I have been friends for many years, and we’re familiar old friends. I beg Lord to please spare the Chen Family looking at the sake of Saint Luquan!” Chen Family’s old ancestor pleaded.

There was no temperature in Huang Xiaolong’s eyes as he listened to the Chen Family’s old ancestor use Saint Luqian to ‘pressure’ him. Huang Xiaolong once again reached to the void and pulled out another person clad in holy robe, and exuded a majestic momentum exceeding the Chen Family old ancestor.

“Saint Luquan!” The Chen Family’s old ancestor and patriarch gasped.

Saint Luquan?! Huang Peng, Su Yan, and the others looked extremely skeptical.

Saint Luquan was terrified half to death after being pulled out from his secret chamber to this place by Huang Xiaolong, and he knelt in salute and asked respectfully, “Lord, you are...?”

“Huang Xiaolong,” Huang Xiaolong stated in a tepid tone.

Chen Family’s old ancestor might have been unaware, but this Saint Luquan had to have heard of him.

As expected, when Saint Luquan heard Huang Xiaolong’s name, he crawled towards Huang Xiaolong with a terrified face, “I, I didn’t know it is the World Master, I beg for the World Master’s pardon!”

World Master!

Not only Huang Peng’s side was dumbfounded, but even the Chen Family’s old ancestor and those that noticed the commotion there were stupefied.

“Go check the matters of the Chen Family, deal with it, and report to the Holy Heavens,” Huang Xiaolong ordered Saint Luquan.

“Yes, Lord World Master!” Saint Luquan kowtowed as he complied.

“Father, Mother, let’s go,” Huang Xiaolong turned around and said to his family. He took out the Purple Lightning Peak, expanded it, and brought everyone inside.

The sky-eclipsing Purple Lightning Peak, and everything that happened that day were too much to take in for Huang Peng, Su Yan, and the others. When they finally reacted, the Purple Lightning Peak had turned into a streak of purple lightning and disappeared from the Deer Spring Holy Land.

“Big Brother, that Saint Luquan calls you Lord World Master?” As usual, Huang Xiaohai was the first to ask questions.

Everyone turned to look at Huang Xiaolong.

Facing the curious and doubtful glances, Huang Xiaolong smiled and admitted, “Yes, I am the World Master for this holy world.”

Although most of them had guessed it, it was still shocking and surprising to hear it straight from Huang Xiaolong.

“Big Brother, does that mean you’re the biggest boss in this holy world?” Huang Xiaohai asked with brightly shining eyes.

Huang Xiaolong could guess what his younger brother was thinking without the need to ask, and he chided good-naturedly, “I am the biggest here, but if you make a mistake, you’ll be punished just the same.”

“Ah!” Huang Xiaohai’s jaw dropped in disbelief, causing others to laugh at him.

Roughly two weeks later, the group reached the Holy Heavens Headquarters.

Huang Xiaolong, and the four ladies took the time to explain about the subsequent cultivation realms, such as the True Saint Realm, Primal Ancestor Realm, Dao Venerable Realm. They also explained what absolute powers were, as well as the various forces of Cangqiong Holy World, Origin Holy World, and Divine Tuo Holy World to the newly ascended group.

Hence, they were repeatedly shocked and amazed.

When they reached the Holy Heavens Headquarters, Cangqiong Old Man, the Heavenly Master, Tyrant Chu, Lord Long, and Elder Crow had already led a large group of experts waiting to welcome them.

That night, there was a large feast at the Holy Heavens Headquarters, and wine flowed endlessly in the merry-making.

For a period of time, Huang Xiaolong remained at the Holy Heavens Headquarters with his family and friends. During the day, he would give guidance in their cultivation, and the night was naturally allocated for his women.

Huang Xiaolong poured all his feelings into action, every night, and amorous noises could be heard.

Several hundred years went by quickly.

In these several hundred years, under various spiritual pills, herbs, and Huang Xiaolong's help, everyone who had ascended broke through to Venerable Sovereign Realm. Huang Xiaolong also used the blood moon, Pure Soil, and absolute powers to strengthen and improve everyone's physique and talent.

Chapter 3172: The Vastness of the Universe

After everyone had successfully broken through to Venerable Sovereign Realm, Huang Xiaolong was not in a hurry to enhance their cultivation further for the time being. He talked about the grand dao with them every day, whilst improving their bloodline, talent, and physical body with his Huang Long Bloodline, the blood moon, and Pure Soil.

If Huang Xiaolong wasn't free, he would send Yuan Tianyi or the ten overlords or the ten beast kings in his place to guide the Huang Family, Shi Xiaofei, and the others.

As someone with experience, Huang Xiaolong was aware how crucial it was to build a solid foundation in Venerable Sovereign Realm. A strong foundation in the Venerable Sovereign Realm was the first step in the successful integration with a high-order Saint Fate, or even more than one high-order Saint Fates. This would then help to forge a stronger body, and condense a higher quality dao soul.

Once one broke through to True Saint Realm, everything would be too late to change.

Therefore, after everyone had broken through to Venerable Sovereign Realm, he was not in a hurry to raise their cultivation further for the time being. Others took one step at a time, whereas, Huang Xiaolong made them take the same step ten times!

Even so, with the superb cultivation surroundings provided by the blood moon, Pure Soil, Huang Long Bloodline, along with endless supply of genesis level pills and herbs, many of them soon advanced to Second Order Venerable Sovereign Realm.

Naturally, while helping everyone to improve, Huang Xiaolong did not let go of his own cultivation. As usual, Huang Xiaolong, Yuan Tianyi, and the others would cultivate under the Tree of Origin, blood moon, and Pure Soil.

Huang Xiaolong also kept up with studying the art of formations.

Thousands of years passed in this seemingly mundane routine.

With the various resources supplied by Huang Xiaolong, in less than a hundred thousand years, Shi Xiaofei who was innately talented was the first to step into half-True Saint Realm, followed by Fang Xuanxuan, Li Lu, Old Man Grandmist, the little cow, Grandmist Emperor, and then Yao Chi.

In the end, except for some of the Thirty-three Heavens' rulers, everyone's cultivation had advanced to the peak late-Ninth Order half-True Saint Realm.

Although Huang Xiaolong also spent time and resources to cultivate the thirty-three rulers, who had ascended with his family, he did not improve their talent using his Huang Long Bloodline. Hence, these people's cultivation speed couldn't catch up with the rest.

When everyone's cultivation had reached the peak of Ninth Order half-True Saint, Huang Xiaolong had everyone compress the energy within their bodies while cultivating under the blood moon, and Pure Soil as they waited for the Saint Fates to appear.

Another several thousand years went by when the time for the Saint Fates to appear arrived again. Unfortunately, there were merely twenty-plus Saint Fates this time, and only ten of them were high-order Saint Fates.

In the end, Huang Xiaolong chose to let his father, mother, young brother, younger sister, Shi Xiaofei, Li Lu, Yao Chi, Fang Xuanxuan, Bei Xiaomei, and Peng Xiao to integrate with high-order Saint Fates and break through to True Saint Realm.

Old Man Grandmist, the little cow, Grandmist Emperor, his father-in-law, Bei Lengyang, and the others could only wait for the next opportunity.

Despite there being mid-order Saint Fates to be chosen from, they were far from comparable to high-order Saint Fates, and Huang Xiaolong did not want his master, Old Man Grandmist, and the others to integrate with mid-order Saint Fates which would limit their future achievements.

After the Huang Family and ladies integrated with their own high-order Saint Fates, and advanced to True Saint Realm, Huang Xiaolong began bringing them around Cangqiong Holy World, World River, and even the Outer World.

Several hundred years passed.

Huang Xiaolong and his family had almost traveled to every corner of Cangqiong Holy World, and the surrounding places before returning to the Holy Heavens Headquarters.

Deep into the quiet night, silvery moonlight was the only source of light.

In the air above the Holy Heavens Headquarters was Huang Xiaolong standing with his hands clasped behind his back, looking at the vast starry space. His bright eyes seemed to see through time and space, through one holy world after another, as well as the Demon World's various regions, and outwards to a vast universe.

Although he had been cultivating steadfastly, assisted by the Tree of Origin, blood moon, Pure Soil, Parasol Tree, Tree of Beginning, as well as Yuan Tianyi and the others' absolute powers, his power of time and space had not improved much. When the Huang Family ascended to the holy world, his power of time and space were close to reaching the peak major completion stage, and it was the same today!

All these years, he had also been searching for Flower of Time and Void Reincarnation Thistle in the Cangqiong Holy World, and the Demon World, but the result was paltry.

'It's time to set off.' Huang Xiaolong thought to himself.

He was planning to leave Huang Long World for the bigger Blazing Dragon World where Huang Rong was!

In the boundless universe, the Blazing Dragon World, where Huang Rong was, was hailed as this universe's most powerful world.

As far as he knew, there were thirty-plus worlds like Huang Long World, and the Blazing Dragon World was the earliest world in the universe. It was also the strongest big world!

No contest!

Whereas, the Pangu World where his father came from ranked fourth.

When morning came, Huang Xiaolong gathered everyone in front of him and told them his plans to head to the Blazing Dragon World.

Everyone was genuinely surprised by Huang Xiaolong's abrupt plan, especially Shi Xiaofei, Li Lu, and Yao Chi. Their crestfallen looks were obvious. Although Huang Xiaolong had accompanied them for more than ten thousand years, who knew how long it would take for him to come back after going to the Blazing Dragon World. This time was different, Huang Xiaolong was leaving Huang Long World instead of ascending, it would be difficult to meet again in the future!

"Big Brother, I want to go with you to the Blazing Dragon World!" Huang Xiaohai suddenly said.

"Sure!" Just when everyone thought Huang Xiaolong would refuse, he actually nodded his head and agreed.

Everyone was too shocked to react.

"Xiaolong, you...?" Huang Peng asked, looking at Huang Xiaolong with a baffled expression.

Huang Xiaolong looked at the others and said, "I've thought it over, and this time, I'll take any one with me to the Blazing Dragon World, as long as they want to come!"

There was a prolonged silence in the hall for about ten seconds, before a cheer erupted as Huang Xiaohai jumped and shrieked, "Long live Big Brother!"

He hugged Huang Xiaolong and jumped around, refusing to let go!

Shi Xiaofei, Li Lu, Yao Chi, Bei Xiaomei, Fang Xuanxuan, Peng Xiao, Lin Xiaoying, Fei Yanzi, Feng Yue, and Yin Yue were just as happy and broke into tears as they hugged each other. Huang Xiaolong felt extremely guilty seeing this, knowing that he wasn't very attentive in the past.

In truth, one of the reasons Huang Xiaolong considered taking everyone with him was because he didn't know when he would come back, and it might be more dangerous to leave them here in the Huang Long World. Who knows when Huang Rong would return to Huang Long World while he was gone?

Although the Blazing Dragon World was the enemy's lair, there was a saying that the most dangerous place is the safest place. In a big world like the Blazing Dragon World, it was a pipe dream if Huang Rong thought he could easily find his family.

Apart from that, it would be easier for him to continue raising their cultivation.

Hence, after considering various aspects, Huang Xiaolong decided to bring everyone. Preparations were swiftly made when it was decided everyone would be going to the Blazing Dragon World.

Chapter 3173: Departing to the Blazing Dragon World

The journey to the Blazing Dragon World was unlike any other journeys he had made in the past, so it was naturally better if they could prepare more resources.

In truth, as early as several hundred years ago, when Huang Xiaolong had brought his family around Cangqiong Holy World, and Demon World, he had begun collecting as many genesis-level pills, herbs, and spiritual veins!

Huang Xiaolong had even collected many high-grade cosmos artifacts! High-grade cosmos flying artifacts and pill furnaces took up a large number.

No matter which world one was in, high-grade flying cosmos artifacts and pill furnaces were rare treasures.

From the Son of Mystic and Huang Shuai's memories, the Blazing Dragon World also used holy coins and dao coins as currency. Still, they were different from the holy coins and dao coins used in the Huang Long World, therefore, Huang Long World's holy coins and dao coins were useless in the Blazing Dragon World.

However, precious resources such as genesis-level pills, herbs, and spiritual veins held their value no matter which world they were in.

This was why Huang Xiaolong did not bring any holy coins or dao coins with him.

On the other hand, the space inside the Sun Moon Furnace was filled with various genesis-level spiritual pills, herbs, spiritual veins, and cosmos artifacts!

One month later, the group set off!

Apart from the Huang Family, Shi Xiaofei, and other ladies, there were Old Man Grandmist, little cow, Grandmist Emperor, Bei Lengyang, Fortune Emperor Fang Qian, and those who ascended from the lower realm following Huang Xiaolong. Cangqiong Old Man, Heavenly Master, Tyrant Chu, Lord Long, and Elder Crow also chose to go to the Blazing Dragon World with Huang Xiaolong.

Of course, there were also Yuan Tianyi, the Origin Lands' ten overlords, Death Beasts Peril Lands' ten beast kings, Lei Yu, Black Shadow Devil, Myriad Formation Devil, Li Shuo, and a few others.

However, before heading to the Blazing Dragon World, Huang Xiaolong made a trip to the Divine Tuo Holy World and Origin Holy World.

They went to the Divine Tuo Holy World so that Feng Yue and Yin Yue could bid farewell to their masters, and if their masters wanted to go to the Blazing Dragon World, Huang Xiaolong would welcome them as well.

However, their masters decided to stay in the Divine Tuo Holy World, to protect the creed.

In the Origin Holy World, Huang Xiaolong met with the Origin Holy World Master, Xiao Tianqi. After exhorting certain matters to Xiao Tianqi, Huang Xiaolong left the Origin Holy World.

The Huang Long World was a big independent space in the universe. The holy worlds, and Demon World existed within the Huang Long World's space. To leave the Huang Long World, Huang Xiaolong needed to traverse numerous holy worlds and Demon World's regions.

When Huang Xiaolong's group reached the boundary of Huang Long World, several hundred years had already passed. They finally entered the vast universe after crossing the Huang Long World's Boundary.

“So beautiful!” The little cow exclaimed in awe.

Others turned to look at the little cow’s exclamation. The vast universe space before them was midnight blue, and boundless, with scattered specks of light, exuding a unique, unfathomable charm.

The moment they crossed over the boundary and entered the vast universe, everyone felt their bodies lighten as if the Huang Long World’s shackles on them had been taken off.

No one had experienced this feeling at all when they were still in the Huang Long World, but now, the feeling was so obvious.

Everyone felt that, even more so, Huang Xiaolong.

Frankly, when Huang Xiaolong’s eleven elements of absolute powers reached perfection level, he had vaguely sensed the limit of Huang Long World’s sky.

Now, upon entering the universe space, even with his thirteen elements energies and three dao souls’ power circulated to the limit, he was unable to sense the limit of the universe.

The universe was bigger than he could imagine, and up until now, no one knew how big the universe was.

Not even the pinnacle of God of Creation.

The Huang Family’s old ancestor, the family to which Huang Rong once belonged to, flew around the Blazing Dragon World’s circumference. It was said that the old ancestor flew for a million years, yet he still did not find where the end of the universe was.

Huang Rong’s old ancestor was the universe’s most powerful expert. Despite that, he didn’t find the universe’s boundary after one million years, thus many people claimed that the universe was boundless! In other words, there was no end! This was something many experts believed.

Huang Xiaolong turned to take another look at the Huang Long World behind him with a complicated gaze. The various experiences ever since he was reborn in the Huang Long World from the Pangu World’s Earth felt like yesterday.

“Earth,” Huang Xiaolong spoke the word like a prayer.

The Pangu World was located on the other side of the Blazing Dragon World, and if he wanted to return to Earth, he would need to cross the Blazing Dragon World.

It was a brief stop after crossing the boundary, and then the Purple Lightning Mountain turned into a streak of light and disappeared into the vast starry space.

In the last twenty to thirty thousand years, Huang Xiaolong had reforged the Purple Lightning Peak and Sun Moon Furnace with the thirteen elements energies and various genesis-level materials. Therefore, the Purple Lightning Peak’s speed had more than doubled compared to the past.

And the Sun Moon Furnace was successfully upgraded to creation artifact. In order for the Sun Moon Furnace to upgrade to creation artifact, Huang Xiaolong had spent a lot of genesis-level treasures and effort.

Still, everything was worth it because after the Sun Moon Furnace was upgraded to creation artifact, it could support the refinement of higher grade pills with a higher chance of pill condensation. Of course, when facing an enemy, the Sun Moon Furnace could be used as a weapon for both defense and attack.

The days ahead would be a long space travel.

Even though the Purple Lightning Peak's speed had doubled, Huang Xiaolong estimated it would take fifty thousand years to reach Blazing Dragon World.

The distance between Huang Long World and Blazing Dragon World was considered short, as some other big worlds would take millions of years of travel to reach the Blazing Dragon World.

Based on the Purple Lightning Peak's speed, it would take at least three to four million years to reach the furthest big world.

Then again, the Purple Lightning Peak's speed would reach another level when it got upgraded to creation artifact.

Traveling in the vast universe space was extremely dangerous. A peak late-Ninth Esteem Dao Venerable would be shredded to pieces if he encountered a cosmic storm, but luckily, Huang Xiaolong's group didn't need to worry about cosmic storms with the quasi-creation artifact, such as the Purple Lightning Peak.

Apart from cosmic storms, there were many unknown dangers in the vast space, thus Huang Xiaolong didn't dare to be careless even for a moment, and reduced the fluctuations caused by the Purple Lightning Peak to the minimum when flying.

There were terrifying giant beasts in the universe space that could swallow ten sacred lands in one go.

Some of these beasts were so powerful that the current Huang Xiaolong was no match against them at all. Still, this level of beasts were few in number, and unless the person was really unlucky to encounter one.

Chapter 3174: Cosmic Dust Starfield

As it would take at least fifty thousand years to reach the Blazing Dragon World, Huang Xiaolong seized the time to raise his cultivation. Hopefully, by the time they reached the Blazing Dragon World, there would be an improvement in his power of time and space.

Huang Xiaolong built several hundred buildings in the belly of the Purple Lightning Peak, there were more than enough rooms for him and everyone onboard to cultivate and live in.

When cultivating, Huang Xiaolong and his ladies would cultivate inside the buildings in the mountain's belly, and at other times, he would bring the ladies up to the peak to enjoy the universe's ever-changing sceneries. The days were idyllic, carefree, and sweet.

"Xiaolong, if days like this can last forever, how wonderful would that be!" Shi Xiaofei said as she leaned in and rested her head on Huang Xiaolong's shoulder with gentleness overflowing from her eyes.

Huang Xiaolong embraced Shi Xiaofei with one arm and promised with a smile, "One day, we will live this kind of life forever. Even if the universe shatters, and the heavens no longer exist, we will still be together!"

Other ladies also leaned towards Huang Xiaolong.

"Xiaolong, look, what's that?" Suddenly Yao Chi pointed towards the front.

Everyone turned to look. In the vast space before them was a huge, suspended starfield of black particles. This starfield was formed from the accumulation of these black particles that were roughly the same size as the Origin Holy World!

In the midst of space, it was right in the Purple Lightning Peak's line of path.

"This is a cosmic dust starfield!" Huang Xiaolong explained with furrowed brows, "In space, experts traveling across space can face the risks of encountering a cosmic storm that can wreck the entire flying ship into pieces, reducing them into black grain-like particles like that!"

Shi Xiaofei, Li Lu, and the others listened with amazement.

"Is the space within this cosmic starfield liveable?" Yao Chi asked.

Other ladies also looked at Huang Xiaolong with anticipation in their eyes, as clearly all of them were interested to take a look around.

Huang Xiaolong said, "The space within this cosmic dust starfield is not easy to enter. Moreover, after those experts died, the particles their bodies turned into carried an astounding amount of spiritual energy. After all, most of these experts were Ninth Esteem Dao Venerable Realm experts and above. Materials used to build those flying ships were definitely genesis-level materials, and even after being pulverized by cosmic storm, the spiritual energy in these particles is comparable to the remains of those experts. That's why the space within this kind of starfield has rich spiritual energy, like those top-tier holy worlds."

All the ladies' eyes lit up.

Seeing that these ladies still had not figured out the cosmic starfield's danger, Huang Xiaolong added, "After those experts' physical bodies were destroyed, their dao souls remained, floating in the vast space, and many of them would choose to hide within starfields like this. The majority of cosmic dust starfields like this are actually particles of corpses, it has a certain amount of death qi and corpse qi, and those wandering dao souls would be affected when they cultivate. Overtime, those dao souls would turn into fierce souls that like to feast on cultivators' flesh!"

The ladies, who were originally interested in exploring the cosmic dust starfield, paled at Huang Xiaolong's words.

Huang Xiaolong went on, "Therefore, generally, experts would avoid cosmic dust starfields. These fierce souls are powerful experts to begin with, and they would only grow stronger as time passed. Once they sense prey approaching the cosmic dust starfield, they come out in droves, and even an Extermination List expert would have a hard time trying to outrun them."

The ladies turned another shade whiter.

A long time had passed since they had ascended to the holy world, and they already knew what an expert on the Extermination List represented.

“Xiaolong, then we should quickly make a detour,” Fang Xuanxuan urged with worry.

Huang Xiaolong smiled reassuringly, “It’s fine, those fierce souls can do nothing to your husband!”

“We’ll just fly through it!” Taking a detour would have greatly increased the distance. With Huang Xiaolong’s current strength, there were very few existences that could threaten his life. More importantly, a cosmic dust starfield like this would have a lot of genesis-level spiritual herbs.

Huang Xiaolong didn't mind exploring inside.

If they encountered suitable fierce souls, Huang Xiaolong might even tame them as guards to protect his family.

Thus Huang Xiaolong directed the Purple Lightning Peak towards the cosmic dust starfield.

Even though they had Huang Xiaolong beside them, the ladies couldn’t help feeling nervous as they got closer to the cosmic dust starfield, including Feng Yue and Yin Yue who were already Dao Venerables. When compared to experts on the Extermination List, they were as insignificant as ants.

Just as the Purple Lightning Peak got close, sharp roars sounded. The roars sounded more like a howl whilst not, neither resembling a beast nor human, causing the ladies to inch closer to Huang Xiaolong in fear, and even more.

In the meantime, Yuan Tianyi, the ten overlords, ten beast kings, Lei Yu, Black Shadow Devil, Myriad Formation Devil, Li Shuo, Old Man Grandmist, Huang Peng, and the rest also came out. Right at this time, a giant black shadow rushed out from the cosmic dust starfield, straight towards them.

This black shadow looked like it was slobbered with a thick layer of black ink, and its eyes were completely crimson-like blood. This was a dao soul corrupted by death qi and corpse qi, a fierce soul.

A dao soul was originally an intangible entity, but after years of consuming the flesh of numerous experts in the universe, these fierce souls had gradually become corporeal over time as their entirety was filled with a black matter which gave them form!

Before the fierce soul arrived, terrifying death qi and corpse qi rolled towards the Purple Lightning Peak, with overwhelming pressure. This fierce soul was not weaker than those on the Mystical List.

Before the fierce soul got anyone, it was zapped by the streaks of purple lightning from the Purple Lightning Peak. The purple lightning penetrated through the rolling death qi and corpse qi, and struck the fierce soul!

The horrifying fierce soul didn’t even have the chance to let out a cry and the purple lightning sent it flying millions of miles away.

The ladies were surprised, as none of them had thought that the Purple Lightning Peak’s lightning could send such a terrifying fierce soul away so easily.

Huang Xiaolong wasn't surprised at all. Not to mention, it was a fierce soul with the strength to enter the Mystical List, so even if it was a hundred times stronger, the result would be the same. Not even an existence on the Extermination List could withstand the Purple Lightning Peak's lightning attack!

Through years of reforging, the Purple Lightning Peak's grade had reached the peak of quasi-creation artifact, and there was no doubt that its attack had also increased significantly.

Second after the fierce soul was sent flying, several fierce souls rushed over from the cosmic dust starfield.

This time, purple lightning qi enveloped the entire Purple Lightning Peak as it accelerated forward, knocking away the several fierce souls in an instant.

The Purple Lightning Peak proceeded unhindered.

Huang Xiaolong didn't even need to move a finger as the lightning qi from the purple Lightning Peak was enough for them to cut into the cosmic dust starfield, and when Huang Xiaolong detected any genesis-level spiritual herbs, he would collect them into the Sun Moon Furnace with a single thought.

Chapter 3175: Arriving in Blazing Dragon World

Originally, Huang Xiaolong had planned to tame some of these fierce souls as bodyguards for his family, and although these fierce souls were strong, it was a pity they did not meet Huang Xiaolong's requirements. Huang Xiaolong passed through the cosmic dust starfield, but he did not tame even one fierce soul.

In the blink of an eye, twenty thousand years had passed.

The Purple Lightning Peak sped ahead in the vast space, passing through numerous cosmic dust starfields, and they encountered even more fierce souls.

They also encountered many universe behemoths along the way.

Twenty thousand years and a little more, Huang Xiaolong saw a few suitable universe behemoths and fierce souls, and these were all tamed by him.

Although not many, in the last twenty thousand years, he had tamed a hundred plus fierce souls. The number of space behemoths was lower, merely twenty-plus.

These fierce souls and universe behemoths' strengths were comparable to the top fifty on the Extermination List. The Golden Fox Region Lord, Jin Hongyuan, was merely in the top sixty on the rankings.

There were a few fierce souls and universe behemoths that could enter the top ten rankings. Even if Lei Yu and the Black Shadow Devil joined hands, they would fail to suppress these few fierce souls and universe behemoths.

It was a pity that he didn't come across any stronger fierce soul or universe behemoths.

These fierce souls and universe behemoths did not originate from the Huang Long World, hence Huang Xiaolong's creation mark was useless on them. After capturing them and suppressing them, Huang

Xiaolong resorted to his old method, the Puppetry Art and also Grandmist Parasitic Medium to control them.

As Huang Xiaolong's strength had risen and his understanding of various energies, his Puppetry Art and Grandmist Parasitic Medium had also become more refined.

Even so, the two couldn't compare to the Huang Long Bloodline's creation mark. Huang Xiaolong had to exert quite some effort to suppress and tame these fierce souls and universe behemoth beasts.

"Your Highness, there's a small world in front!" Huang Xiaolong was studying the art of formations with the Myriad Formation Devil when he heard Li Shuo's report.

In the vast universe space, other than big worlds like the Huang Long World, Pangu World, Blazing Dragon World, there were also many small worlds created by other experts.

A Dao Venerable Realm expert could open a small world of their own, but these small worlds opened by these Dao Venerables could only exist within big worlds like the Huang Long World, Pangu World, and so on. Only experts that had comprehended absolute power to perfection level could open a world of their own in the vast universe space, withstanding the galaxy storm.

In these twenty thousand years, Huang Xiaolong's group had come across several similar small worlds, and they had also stopped in such small worlds before.

"Let's avoid it," Huang Xiaolong said. Generally speaking, this level of small worlds had little resources, and definitely they wouldn't have the things Huang Xiaolong needed.

Li Shuo complied respectfully.

Huang Xiaolong and the ladies entered seclusion, and the Purple Lightning Peak's helm was handed to Li Shuo.

With Li Shuo's comprehension in the power of time and space, he was more sensitive towards the potential dangers around them as they traveled, and he would correct the route whenever necessary.

One of Huang Xiaolong's biggest harvest was the dozen stalks of Flower of Time, and Void Reincarnation Thistles.

Big worlds like the Huang Long World were capable of nurturing treasures such as the Flower of Time and Void Reincarnation Thistle, and it was not strange that the universe space could also nurture similar treasures.

In the vast universe space, one could even find creation-level spiritual herbs. However, it depended on one's luck and fortune.

Fifty thousand years later.

The Purple Lightning Peak stopped moving.

In front of Huang Xiaolong was an indescribable world that exuded layers of fiery light!

They couldn't see the end of this big world, and its fiery light dyed the dark space crimson for millions of miles.

According to Huang Xiaolong's estimation, it would take another ten days to really reach the Blazing Dragon World. Despite the millions of miles distance, everyone felt the overwhelming power that shook them to the core.

Before this power, all of them were so small, and insignificant, and all living beings were akin to dust.

This was what everyone clearly felt.

"This is the Blazing Dragon World?" Yuan Tianyi asked in awe.

If one used a tree as a metaphor, compared to this Blazing Dragon World, the Huang Long World was merely a little more than a seedling.

"This is the Blazing Dragon World." Huang Xiaolong confirmed, staring into the distance.

After a fifty thousand years of journey, the Blazing Dragon World was finally before them.

Still, there were some complex emotions roiling in Huang Xiaolong's heart, looking at the big world in front of him.

His father Huang Long's disappearance was likely to be connected with the Huang Family that Huang Rong belonged to. His father could very well be somewhere within the Blazing Dragon World.

As a precaution, Huang Xiaolong collected the Purple Lightning Peak, and flew towards the Blazing Dragon World with the rest. A little over ten days later, Huang Xiaolong's group passed through the world boundary and entered the Blazing Dragon World.

"Such amazing spiritual energy!" The moment they crossed over, Lei Yu sighed in amazement.

"This Blazing Dragon World's grand dao laws are more compact!" Yua Tianyi pointed out with a solemn expression.

More compact meant that the Blazing Dragon World's grand dao laws were more complete, and the creator of this world had a tighter rein over the living beings of this world! At the same time, everyone could feel that the restraints in Blazing Dragon World were stronger than the Huang Long World.

Even Huang Xiaolong felt a stronger restraint over him. As the Huang Long World's Son of Creation, he could exert his full power anywhere in the Huang Long World, but in the Blazing Dragon World, he could exert ninety percent of his strength, maybe less.

But Huang Xiaolong wasn't overly concerned about this, and at his current strength, even with ninety percent of his full strength, no one was a match for him under the God of Creation Realm.

"Let's settle down in the nearest city," Huang Xiaolong said to everyone as his dao souls spread to find the nearest city.

He wanted to settle down first and plan his next moves. After all, the Blazing Dragon World was not a small place, and it was not a matter of a year or two to locate his father.

A while later, Huang Xiaolong's group flew towards the city closest to them.

Though the Blazing Dragon World was a big world like the Huang Long World, one of the differences between the two was that the Blazing Dragon World did not have a Demon World time and space. It had tens of millions of holy worlds like a chain of pearls, densely scattered through the Blazing Dragon World's space.

Even the Son of Mystic had no idea how many holy worlds there were inside the Blazing Dragon World, and only the God of Creation, who had created the Blazing Dragon World, would know.

Huang Xiaolong and his group soon arrived at megacity.

This megacity was actually a medium-sized city in the Lingchen Sacred Land's territory, as for which creed or which holy world it belonged to, Huang Xiaolong and the others had no idea for now. They could always inquire about it later.

Upon entering the city, Huang Xiaolong's group headed to a large chamber of commerce and traded one of the lowest-grade holy herbs for holy coins that was used to purchase a spacious residence in the city.

Chapter 3176: Targeted

Although the land space of this residence was quite big, in Huang Xiaolong and the other's eyes, it was no different than a hut. Then again, no one minded. They had a lot of spirit stones, spiritual plants, and spiritual veins, so they could redecorate the residence as they desire.

In the next couple of days after moving into the residence, Huang Xiaolong, Yuan Tianyi, Cang Xun, Di Shuang, Lei Yu, and Myriad Formation Devil began reconstructing the entire residence.

Huang Xiaolong had all the garden rocks and spirit stones changed to genesis-level spirit stones and spiritual veins. All the spiritual plants were also changed into genesis-level spiritual plants, the kind that enhanced cultivators' cultivation.

From the outside, it was still the same residence, but inside, it had changed completely. Huang Xiaolong even used genesis-level iron ores to refine the residence's buildings all over.

At the same time, Huang Xiaolong and the Myriad Formation Devil He Zhen cooperated to lay out a grand formation that enveloped the whole residence. Subsequently, Huang Xiaolong and He Zhen laid out a grand formation that enveloped the entire city.

While refurbishing the whole residence, Huang Xiaolong had Li Shuo and Black Shadow Devil gather information. The two went out and returned several days later.

"Your Highness, from the information we've gathered, we're currently in the Fire Cloud Creed's territory, and the Lingchen Sacred Land is one of medium-sized sacred lands. The Fire Cloud Creed is a big creed, the second most powerful force in this Guangzong Heavenly Cave. We still haven't found out which holy world this is," Li Shuo respectfully reported.

The Black Shadow Devil also reported his findings related to the Guangzong Heavenly Cave.

Huang Xiaolong nodded as he listened.

The strength of Guangzong Heavenly Cave's Region Lord was not too bad, and based on the Blazing Dragon World's Extermination List, his strength was comparable to experts in the top thirty. A region

lord with the strength of an expert on the top thirty in the Extermination List was a high praise. On the other hand, the Fire Cloud Creed's patriarch's strength was roughly at par with the top eighty.

Finding out this information merely in a few days was quite a good result.

In the coming years, Huang Xiaolong's group kept a low profile. Most of the time was spent cultivating indoors, and only occasionally, Huang Xiaolong would accompany the ladies outside for a stroll.

Though the Gathering Stars City was merely one of many cities of a sacred land, it was comparable to many main cities of a top-tier creed.

In the last few years, Huang Xiaolong had bought the neighboring residences in the area and expanded the size of his initial residence by several times.

Although the Huang Family had been keeping a low profile, rarely going out, they still attracted the attention from the Gathering Stars City's local forces, and even some neighboring cities' forces.

As the Huang Family's residence expanded over the years, the number of spies stationed around also increased.

Huang Xiaolong naturally knew about these spies, but he was too lazy to deal with them. These spies' average strength was at half-True Saint, and there were a few who were only high-level Venerable Sovereigns.

Because Huang Xiaolong did not give any orders, Yuan Tianyi, Cang Xun, Di Shuang, Lei Yu, and the others too couldn't be bothered to deal with these existences.

Due to the Huang Family's lack of response, over time, the number of spies around the residence increased, and their behavior became unscrupulous. In the beginning, these spies were watching from the dark, but as time passed, these spies began moving about in the broad daylight, and when Huang Xiaolong went out with the ladies, they even dared to follow behind them.

"Everyone, these people are becoming more unscrupulous. Let me do it. I'll pack them up in one go!" On this day, Huang Xiaohai ran in angrily and complained to Huang Xiaolong.

Huang Xiaolong and the ladies were trailed when they went out. Huang Peng and the others were also followed when they stepped out of the residence. Once or twice was nothing, by the third and fourth time, Huang Xiaohai couldn't stand it any longer.

Huang Xiaolong smiled watching Huang Xiaohai fuming in anger. "You lost your patience so fast?!"

Huang Xiaohai scratched his head irritably. "These people are getting more and more arrogant. Clearly, they are coveting our Huang Residence!" He snorted and added, "Can the things of our Huang Residence be taken so easily?"

In these couple of years, due to the Huang Residence's continuous expansion, and the Huang Family going out to exchange holy herbs and other precious treasures intermittently had turned the Huang Family into a fat sheep in the eyes of the local forces and forces from the neighboring cities!

To the Huang Family, holy herbs were similar to rubbish, but to many Gathering Stars City's cultivators, and even the entire Lingchen Sacred Land, these were precious treasures.

Although the supply of holy herbs in most of Blazing Dragon World's sacred lands were not as tight and scarce compared to the Huang Long World, it was a big temptation to many True Saints in the Lingchen Sacred Land.

Huang Xiaolong asked Li Shuo and Black Shadow, "Do you know who sent these spies?"

Li Shuo and Black Shadow Devil were the two main stewards of Huang Residence, handling most of the affairs related to the residence and assisting Huang Peng, the patriarch of Huang Family. On the surface, Huang Peng was the patriarch, and Huang Xiaolong was Huang Peng's eldest son, the eldest young master.

"These spies are sent by the Gathering Stars City's local the Chu Family, and also from the neighboring cities." Li Shuo replied respectfully, and explained to Huang Xiaolong in detail the connections and backings of these forces.

Amongst the forces who sent these spies, the strongest one was the Gathering Stars City's Chu Family.

Chu Family's influence was not limited to the Gathering Stars City, as the Chu Family was also one of the big families in the Lingchen Sacred Land. The Chu Family's patriarch was a Sixth Order True Saint Realm expert, and the Chu Family's old ancestor was a Seventh Order True Saint expert.

Seventh Order True Saint Realm was the pinnacle of such a sacred land.

Moreover, the Chu Family has links to the Fire Cloud Creed as the eldest son of the current Chu Family patriarch was a core disciple of the Fire Cloud Creed, and he was also one of the hall masters' personal disciples.

After hearing the report, Huang Xiaolong said to his younger brother, "Alright, you can go ahead and deal with those spies. Give the Chu Family and those Lingchen Sacred Land's forces a small warning, but you're not allowed to use your fierce soul and Golden-Horned Lizard."

In the fifty thousand years journey to the Blazing Dragon World, Huang Xiaolong had subjugated a hundred plus fierce souls, and almost a hundred universe behemoths. Therefore, the Huang Family and the ladies, even Old Man Grandmist, the little cow, Grandmist Emperor, Fortune Emperor, and others were given a fierce soul and Golden-Horned Lizard as bodyguards.

Hearing that, Huang Xiaohai laughed, "Deal, Big Brother! I'll take care of it myself!"

Huang Xiaolong smiled and nodded as letting Huang Xiaohai deal with the matter was also a form of training in handling various matters. After all, he wouldn't always be there by their side in the future. Therefore, he couldn't resolve everything for them. He hoped his younger brother Huang Xiaohai, and the others would stand on their feet at any time when needed.

Huang Xiaohai left the residence happily and summoned his high-order Saint Fate, instantly suppressing all the spies in the area.

Huang Xiaolong smiled as he watched the progress outside. According to his younger brother's temper, he had definitely given these people a good beating before releasing them.

Huang Xiaolong looked away and continued comprehending the power of time and space.

Huang Xiaolong did not lax on his cultivation in the fifty thousand years of journey. By adding a dozen stalks of Flower of Time and Void Reincarnation Thistles he had found, Huang Xiaolong's power of time and space had improved significantly.

Especially Huang Xiaolong's power of space. He had a feeling that within a hundred years, his power of space could reach the major completion stage.

He decided to leave once his power of space reached the major completion stage, and make his name in the Blazing Dragon World.

Chapter 3177: Three Great Celestial Empires

Huang Xiaolong continued to have Li Shuo and Black Shadow Devil gather information from outside.

The holy world they were currently in was called the Heavenly Sword Holy World.

There were numerous creeds within the Heavenly Sword Holy World, and the Guangzong Heavenly Cave was one of the famous heavenly caves. Huang Xiaolong was currently located in this Heavenly Cave. The Guangzong Heavenly Cave's overall strength ranked high amongst other heavenly caves within the Heavenly Sword Holy World. Moreover, the Guangzong Region Lord was a famous general under the Heavenly Sword World Master.

Through the Son of Mystic Huang Feng, and Huang Shuai's memories, Huang Xiaolong knew a little about the Heavenly Sword Holy World.

The Heavenly Sword World Master was quite famous for his strength.

The Origin Holy World was the strongest holy world within Huang Long World, and the Origin Holy World's World Master, Xiao Tianyi, was ranked third on the Extermination List, and he had comprehended the power of absolute earth, wind, water, and blaze to perfection level. However, the Heavenly Sword World Master had comprehended five absolute powers to perfection level!

Five elements at perfection level!

This was rare even in the entire Blazing Dragon World.

Thus, the Heavenly Sword World Master was a top expert even in the entire Blazing Dragon World.

Then again, compared to the leader of the ten beast kings, Di Shuang, who also had comprehended five elements to perfection level, the Heavenly Sword World Master was slightly weaker.

Di Shuang's five elements at perfection level included the power of darkness, poison, metal, frost, and wind. Whereas the power of his absolute blaze had reached a major completion stage. On the other hand, the Heavenly Sword World Master's five elements at perfection level included the power of darkness, lightning, frost, wood, and earth.

The Heavenly Sword World Master would be much lower on the rung when compared to the ten overlords' leader, Cang Xun. After all, Cang Xun was slightly stronger than Di Shuang.

No doubt, in the Blazing Dragon World where experts were as many as the leaves in a forest, the Heavenly Sword World Master was merely an expert who barely entered the rankings.

The Blazing Dragon World was the oldest world in the universe, and even if a genius in the Blazing Dragon World had the same level of talent as a genius in the Huang Long World, the number of experts who wielded absolute powers in the Blazing Dragon World would be higher than the Huang Long World. It was because they had cultivated for a longer time than experts in the Huang Long World!

In the same sense, the number of experts with perfection level absolute power in Blazing Dragon World exceeded the Huang Long World.

Experts who wielded two, three, four, or even five elements were also more than Huang Long World.

The Blazing Dragon World had three God of Creation Realm experts!

Three Gods of Creation in one world!

This was more than enough to deter the entire universe.

Only when one reached Huang Xiaolong's realm, who had already touched the boundary of the God of Creation Realm, they understood better how terrifying the strength of a God of Creation was.

However, the Blazing Dragon World's three Gods of Creation weren't united!

Moreover, as the strength of the Huang Family's old ancestor, which Huang Rong belonged to, had become stronger, the Blazing Dragon World's three Gods of Creation had become even warier of each other.

On the surface, they were the Blazing Dragon World's three pillars, but underneath, they were surging currents, and it wouldn't take long before war raged in the Blazing Dragon World.

Although the Blazing Dragon World had three Gods of Creation, the God of Creation who had created the Blazing Dragon World was not the Huang Family's old ancestor, where Huang Rong was.

Therefore, even though the Huang Family was powerful, it wasn't to the point that it could cover the sky with one hand.

The Blazing Dragon World's three Gods of Creation had built the three celestial empires!

These three celestial empires resemble the Pangu World's Heavenly Court, and the entire Blazing Dragon World was under these three celestial empires' governance.

The three celestial empires were Blazing Dragon Celestial Empire, Extreme Heaven Celestial Empire, and True Dragon Celestial Empire!

The Blazing Dragon Celestial Empire was the strongest celestial empire in the Blazing Dragon World, and the Blazing Dragon World was created by the Blazing Dragon Celestial Empire's old ancestor. The Extreme Heaven Celestial Empire was the second celestial empire, and the third celestial empire was the True Dragon Celestial Empire, created by Huang Rong's old ancestor.

Although the Huang Family's old ancestor was the last person amongst the three to break through to the God of Creation Realm, his cultivation speed was the fastest amongst the three. Hence, the Huang Family's old ancestor was recognized as the number one expert of Blazing Dragon World. On top of that,

generations of Huang Family's juniors were outstanding, pushing the Huang Family to the top of the Blazing Dragon World.

Huang Family's old ancestor was the number one expert of Blazing Dragon World, still, the Blazing Dragon Celestial Empire's old ancestor was the first person, who had stepped into the God of Creation Realm. His strength was unfathomable. Thus the Blazing Dragon Celestial Empire was not weaker than the True Dragon Celestial Empire.

Instead, it was the Heaven Extreme Celestial Empire that was the weakest one amongst the three.

The Heavenly Sword Holy World, where Huang Xiaolong was currently residing in, was located within the Blazing Dragon World.

The Blazing Dragon Celestial Empire had numerous holy worlds under it. However, the Heavenly Sword Holy World was not far away from the Blazing Dragon Celestial Empire's celestial capital, and it was merely a distance of thirty to forty holy worlds away.

Thirty to forty holy worlds' distance seemed a long way, but how vast was the Blazing Dragon World? Therefore, thirty to forty holy worlds' distance was considered close.

Huang Xiaolong could settle down in peace and cultivate in Lingchen Sacred Land after learning they were in the Blazing Dragon World. Had they been on the Huang Family's True Dragon Celestial Empire, Huang Xiaolong would have fled with his family early on.

While Huang Xiaolong was comprehending the power of time and space, outside the residence, Huang Xiaohai brushed his hands as he appreciated his handiwork on the several spies. He smiled sheepishly and said, "Scram and go back to tell your masters that if you send any more people here, I won't be so nice anymore! At that time, I'll even take care of your masters once and for all!"

These spies from various forces did not dare to talk back, and some had already fled in a sorry state.

In the Gathering Stars City Chu Family's main hall, the Chu Family Patriarch Chu Xingfeng's face was extremely sullen looking at the sorry state of the spy he had sent out.

"First Order True Saint?" Chu Xingfeng asked.

"It is so, Patriarch. The Huang Family's third young master is likely to be a First Order True Saint. Currently, we have yet to find out the Huang Family Patriarch Huang Peng's strength," one of the spies hurriedly answered.

"Tell me what happened in detail," Chu Xingfen ordered.

The several spies complied.

When the several spies finished, Chu Xingfeng's expression was a little ugly. "He really said he'll take care of your masters as well?"

"Yes, Patriarch, we do not dare to exaggerate. Everything we've reported is the truth," one of them answered.

Chu Xingfeng harrumphed coldly, and the several spies below seemed to be struck by a blow, and blood sprayed from their mouths, frightening them to their knees.

“Just a First Order True Saint!” Chu Xingfeng’s gaze was frosty. “Does he think that’s capital to swagger in this Lingchen Sacred Land!”

“Patriarch, why don’t we request Eminent Elder Chu Bi to deal with them?” one of them cautiously raised his head and said.

Chu Bi was the Chu Family’s third strongest expert after Chu Xingfeng, a Fifth Order True Saint.

Chu Xingfeng’s eyes glimmered but he waved his hand, “It’s not necessary for now. Continue to investigate this Huang Family, and find out the strength of their patriarch. If his strength is merely at low-level True Saint, it won’t be too late to make a move then.”

“But, Patriarch, that Huang Family Patriarch rarely comes out, and the residence has a very sophisticated formation surrounding it, so we’re unable to find out his strength,” the same spy said.

Chu Xingfeng was nonchalant. “Don’t worry, that Huang Family Patriarch cannot possibly stay inside forever. He would have to come out one day, so make your move then and check out his strength. Report back to me.”

“Yes, Patriarch.”

Chapter 3178: Heading to the Blazing Dragon Celestial Capital

In the subsequent days, Huang Xiaolong continued to stay inside the residence, comprehending the power of time and space. At the same time, he also continued delving into formation with the Myriad Formation Devil He Zhen.

In these years, while Huang Xiaolong continued to improve his strength, his proficiency in formation had also improved, though not as fast as his cultivation. Even so, his formation skills had almost caught up to He Zhen, and it was only a matter of time before he surpassed He Zhen.

After Huang Xiaohai taught those spies a lesson, calmness returned to the Huang Family, and those arrogant spies were not so unscrupulous anymore.

A month soon passed.

On this day, Huang Xiaolong and He Zhen were studying formations when Li Shuo came in to report that Huang Peng, Su Yan, Huang Min, Huang Xiaohai, Shi Xiaofei, and the others were attacked by a group of half-True Saints when they went outside.

Although none of them was injured, Huang Xiaolong’s face did not look very good as anger and killing intent boiled in his heart.

Everyone has a reverse scale, and the Huang Family and the ladies were Huang Xiaolong’s reverse scale!

Even though those spies loitered around the residence and followed them whenever they went out, they did not attack, so Huang Xiaolong let them be. But now, they dared to attack, this was a different matter altogether!

“Have you found out who did it?” Huang Xiaolong asked Li Shuo.

“The Chu Family!” Li Shuo answered respectfully.

“Chu Family!” Just as Huang Xiaolong was about to take action across the void, Li Shuo quickly said, “Your Highness, the Third Young Master has already rushed to the Chu Family in anger!”

Huang Xiaolong was stunned, and then he chuckled. This brat! His reckless temper will never change.

Then let the third brother deal with the Chu Family.

With a fierce soul and universe behemoth rivaling experts in the top fifty of the Extermination List, his younger brother wouldn't come to much harm, and Huang Xiaolong wasn't worried either.

As for the Fire Cloud Creed backing the Chu Family, if the creed was also involved in this, then he would deal with the creed once and for all. This place wasn't within the True Dragon Celestial Empire, hence Huang Xiaolong didn't need to have so many scruples in his actions.

A hundred years passed in the blink of an eye.

On this day, Huang Xiaolong, who was sitting cross-legged inside the Sun Moon Furnace, absorbing origin qi, suddenly became blurry, and finally, there was only his shadow left! That's right, only Huang Xiaolong's shadow remained, but Huang Xiaolong's body could not be seen.

As time passed, even Huang Xiaolong's shadow turned blurry as if it had seeped into the surrounding space, gradually merging with space, and it completely vanished.

At this time, if there was an expert who wielded the power of space at the Fire Cloud Creed, he would notice that there was a shadow that was continuously teleporting in the air shifting between sacred lands.

At one second, the shadow was above one sacred land, in the next second, the shadow appeared above another sacred land. On top of that, the shadow was moving at a faster speed that one couldn't distinguish if the shadow was real or merely an illusion.

In a few minutes, Huang Xiaolong had gone through every sacred land within the Fire Cloud Creed!

There were tens of thousands of sacred lands under the Fire Cloud Creed, and going through every sacred land in mere minutes was simply unbelievable.

Then, Huang Xiaolong's shadow within the Sun Moon Furnace reappeared clearly, and finally, Huang Xiaolong himself in the flesh, synchronizing with his shadow.

“Finally, the power of time has reached the peak major completion stage.” Huang Xiaolong exhaled in relief.

The Purple Lightning Peak's speed had been raised to another level after he had reforged it. Now, even without the Huang Long Cape, his own speed had surpassed the Purple Lightning Peak.

Now, his power of space was only one step away from attaining perfection level. Though attaining perfection level was harder than one could imagine, Huang Xiaolong could see the light at the end of the tunnel

Unfortunately, there was no improvement in his power of time.

Huang Xiaolong stood up, and now that his power of time had reached the peak major completion stage, it was time for him to make a move.

It was time to go to the Blazing Dragon Celestial Empire's capital!

It was the most prosperous place in the whole Blazing Dragon World!

It was also the gathering place of experts as many as the clouds!

It was also the place that produced many of Blazing Dragon World's treasures.

Although the Flower of Time and Void Reincarnation Thistle were rare, even in the Blazing Dragon World, if one was lucky enough, one could encounter an auction or even trade them.

The Blazing Dragon World had many experts traversing the universe, and finding the Flower of Time and Void Reincarnation Thistle was nothing strange. If they did not need it, the items could be taken to the Blazing Dragon Celestial Empire for auction, or to be traded.

More importantly, as the number one capital of Blazing Dragon World, it would be easier for him to inquire about his father Huang Long.

When the others heard that Huang Xiaolong was going to the Blazing Dragon Celestial Empire, all of them were surprised.

"Big Brother, I want to go with you!" Huang Xiaohai quickly followed up.

Huang Peng, Su Yan, Huang Min, Shi Xiaofei, and the others looked expectantly at Huang Xiaolong.

"Not this time!" Huang Xiaolong refused. It was inconvenient to bring his family to the Blazing Dragon Celestial Capital with him.

Huang Xiaohai and everyone were disappointed, especially the ladies.

Huang Xiaolong said to his family and the ladies, "It's not like I won't come back after going to the celestial capital. Moreover, the celestial capital is not that far away. Don't worry. After I find my father, I will return immediately!"

Everyone nodded in understanding.

In the next few days, Huang Xiaolong spent the day with his family, strolling around the Gathering Stars City and the neighboring cities, while the nights were reserved for the ladies.

In the last one hundred years, the Huang Family had resolved the Chu Family, and the entire Lingchen Sacred Land was under the Huang Family's control.

After dealing with the Chu Family, the Fire Cloud Creed's hall master had wanted to help his disciple avenge his family, but he too was taken care of by the Huang Family. The Fire Cloud Creed Patriarch had personally come to apologize to the Huang Family, and Huang Xiaolong did not make things difficult for him. He merely confiscated half of the Fire Cloud Creed's treasury.

Since then, the Huang Family and Fire Cloud Creed had been coexisting peacefully.

Huang Xiaolong did not want his family to stand out too much and let Huang Rong hear winds of his family's whereabouts in the Fire Cloud Creed because it would be troublesome.

After staying a few days with his family, Huang Xiaolong set off to the Blazing Dragon Celestial Empire. He only brought a few people with him, including Yuan Tianyi, Myriad Formation Devil He Zhen, Li Shuo, and one hundred fierce souls.

The ten overlords, the ten beast kings, Lei Yu, Black Shadow Devil, and the remaining fierce souls and universe behemoths remained at the Gathering Stars City to protect the Huang Manor. With Cang Xun, Di Shuang, and the others, there was nothing to be afraid of even if the Heavenly Sword Army came attacking.

The Huang Family, the ladies, Old Man Grandmist, Bei Lengyang, and the others watched the small group disappear in the horizon.

Huang Xiaolong brought along the Myriad Formation Devil He Zhen because he wanted to continue improving his mastery of formation, whereas having Li Shuo who wielded the power of time and space made things convenient.

Chapter 3179: Robbery

Of course, bringing these one hundred fierce souls was to ensure the 'safety' of Huang Xiaolong and his group.

Huang Rong had seen Yuan Tianyi, Myriad Formation Devil He Zhen, and Li Shuo before. Thus it was better if the three of them did not make any moves that could expose them. If they encountered any ambush, Huang Xiaolong would have the one hundred fierce souls deal with it.

These one hundred fierce souls were powerful, and who knew how long they had been cultivating in space, they could be older than Lei Yu and the Myriad Formation Devil He Zhen. Moreover, these fierce souls existed in their soul form, making them almost indestructible existences, and the weakest among them was comparable to an expert in the top twenty of the Extermination List. The most powerful fierce soul was stronger than the ten overlords' leader, Cang Xun!

Huang Xiaolong exerted quite some effort to suppress this particular fierce soul. After suppressing this fierce soul inside the Sun Moon Furnace, Huang Xiaolong spent several years subjugating it.

Before long, the Purple Lightning Peak left the Fire Cloud Creed behind it.

Letting Li Shuo and He Zhen to helm the Purple Lightning Peak, Huang Xiaolong and Yuan Tianyi cultivated under the Tree of Origin inside the Sun Moon Furnace. With Yuan Tianyi's thirteen elements' interaction, whenever they practiced over the years, had greatly raised Huang Xiaolong's comprehension and mastery of the thirteen elements.

Yuan Tianyi had accompanied the Tree of Origin for half his life and had been cultivating for a very long time. It could be said that Yuan Tianyi was Huang Long World's oldest living creature, and his mastery of the thirteen elements was definitely the best.

Then again, Huang Xiaolong's current mastery of the thirteen elements was not far behind Yuan Tianyi.

Half a month later, when Huang Xiaolong was passing by the Guangzong Region Lord Manor, he stayed there for two days.

Although Huang Xiaolong had a lot of genesis-level spiritual herbs, pills, spiritual veins, and high-grade cosmos artifacts, he lacked Blazing Dragon World's dao coins, and having insufficient dao coins was always an inconvenience.

Hence, when they were passing by the Guangzong Region Lord Manor, Huang Xiaolong visited the Guangzong Heavenly Cave's big chambers of commerce, and traded some of his genesis-level spiritual herbs for traveling expenses.

Huang Xiaolong went to ten chambers of commerce headquarters and traded items worth a hundred billion dao coins!

Ten chambers of commerce, that's one trillion dao coins.

Huang Xiaolong's actions alerted the entire Guangzong Heavenly Cave's super forces and chambers of commerce.

Even the Guangzong Region Lord received a report on the matter, and he was shocked while he listened to the report.

One trillion dao coins? Even he would have a hard time taking out this amount.

"Have you found out that young man's identity?" Guangzong Region Lord asked.

"Not yet." The subordinate shook his head.

"Where is he now?"

"That young man left after trading one trillion dao coins worth of items. He was seemingly in a hurry to go on his way, and judging from the direction he left, he's heading to the Spirit Heavenly Cave!"

The Spirit Heavenly Cave was one of Guangzong Heavenly Cave's neighbors.

"What does that young man want to do with so many dao coins?" Guangzong Region Lord's brows creased as he fell into contemplation.

If he knew that Huang Xiaolong had exchanged so many dao coins for traveling expenses, what would he think?

"That young man has attracted too much attention with his actions. With one trillion dao coins, anyone would be tempted. It is said the Phantom Desire Creed and a dozen other creeds already have their eye on him. Hou Zun's group is already waiting in ambush for him!" The subordinate shook his head. "I don't think that young man would be able to leave!"

The Phantom Desire Creed ranked fourth in the Guangzong Heavenly Cave, and was never one to follow the righteous paths.

Strengths of other creeds that targeted Huang Xiaolong were comparable to the Phantom Desire Creed.

Whereas Hou Zun, he was an infamous bandit that ran rampant in the Guangzong Heavenly Cave and the neighboring heavenly caves. His whereabouts had always been elusive, and robbing was second nature to him. The Guangzong Region Lord and other region lords had no good way to deal with Hou Zun.

Hearing that Hou Zun and his group were already waiting in ambush for Huang Xiaolong, the Guangzong Region Lord lit a candle for Huang Xiaolong in his heart. Hou Zun was not weaker than him, and he wielded the power of radiance and wind at the major completion stage.

However, a day later, shocking news spread through the Guangzong Heavenly Cave.

“What? The Phantom Desire Creed and the dozen creeds’ experts were all annihilated!”

“Hou Zun and his subordinates, the Eighteen Tyrants were all killed!”

When the Guangzong Region Lord heard the news, he was stunned for half a day.

At this time, Li Shuo, and He Zhen were busy tabulating the harvests they had collected from the Phantoms Desire Creed, Hou Zun’s group, and others.

As the fourth-ranked creed in the Guangzong Heavenly Cave, the Phantom Desire Creed’s experts did carry a lot of good stuff on them, even more so Hou Zun’s group of bandits. The harvests from them beat others.

After counting their harvests, Li Shuo reported to Huang Xiaolong, “Your Highness, there’s more than two hundred and thirty billion dao coins, a dozen genesis level spiritual herbs, but no genesis level pills.” He then recited a long list of treasures.

Yuan Tianyi said to Huang Xiaolong, “That’s a big business. From now on, every time we pass by a place, we’ll exchange a large batch of items in a high-profile manner, and then leave. Let them ambush us on the way!”

Huang Xiaolong, He Zhen, and Li Shuo grinned at the thought.

“We’re idle on the way anyways, so let’s do it!” Huang Xiaolong laughingly agreed.

Although two hundred and thirty billion dao coins wasn’t a lot to Huang Xiaolong, the amount would be shocking after passing through thirty to forty heavenly caves.

By the time they reach the Blazing Dragon Celestial Empire, Huang Xiaolong wouldn’t have to worry about food, clothing, and housing.

The Blazing Dragon Celestial Empire was the most prosperous place in the Blazing Dragon World, and everything there was expensive. If an average residence’s cost within an average city started at ten billion dao coins, then how much would the residences in the main cities cost?.

With that decided, every time they passed through a heavenly cave, Huang Xiaolong was bound to head to the chambers of commerce headquarters to trade genesis-level spiritual herbs for dao coins.

By the time Huang Xiaolong reached the Heavenly Sword World Master Manor, just the income from robbing was over a trillion dao coins! Counting the dao coins Huang Xiaolong had traded along the way, he had accumulated five hundred to six hundred trillion dao coins!

Huang Xiaolong had Li Shuo and He Zhen keep the one trillion gained from robbing, so when they went about running errands for him, they could use it wherever necessary.

They did not stop for long at the Heavenly Sword World Master's Manor and were already on their way to the Taichen Holy World a few days later.

Although the Taichen was next to the Heavenly Sword Holy World, in terms of strength, it was at the far bottom of the rung. The Heavenly Sword World Master's strength could barely enter the rankings, but the Taichen World Master's strength was much lower, and amongst his five elements of absolute powers, only three had reached perfection level.

This level of strength was lower than the Origin World Master Xiao Tianqi's in Huang Long World, and it was more at the Myriad Formation Devil He Zhen's level.

After passing through more than thirty holy worlds and four years later, Huang Xiaolong finally arrived at the Blazing Dragon Holy World.

The Blazing Dragon Holy World was the biggest holy world in the Blazing Dragon World with numerous heavenly caves within. The Blazing Dragon Celestial Capital was located in the centermost of Blazing Dragon Holy World. Merely the Blazing Dragon Celestial Capital was as big as several heavenly caves put together.

Chapter 3180: Nether Spirit Palace

Upon entering the Blazing Dragon Holy World, more troops could be seen along the way.

These troops naturally belonged to the Blazing Dragon Celestial Empire's army. Some troops rode on mounts of star behemoths, while others patrolled on flying ships.

These armies consisted of only Dao Venerable experts!

Led by a high-level Dao Venerable, and some generals were Ninth Esteem Dao Venerable.

Star behemoths were all Dao Venerables as well.

And all the flying ships were cosmos artifacts, but most of them were low-grade and mid-grade cosmos artifacts. One rarely saw any high-level cosmos artifact flying ship army.

At a glance, the entire Blazing Dragon Holy World's space was filled with various top creeds and chambers of commerce's flying ships. These flying ships came in various shapes and sizes. Huang Xiaolong's Purple Lightning Peak that took the shape of a mountain could be considered unique, but here, there were even more unique-looking flying ships. There was a flying ship refined from an ancient giant shark, and there were a few desolate giant dragon flying ships, and even the branches of a tree!

Huang Xiaolong even saw a few sword-shaped flying ships!

There was also a genesis level pearl that was refined into a sphere-shaped flying ship!

There were also cultivators, who used a kind of beast that resembled an earthworm to refine their flying ships.

In this eclectic mix of flying ships, Huang Xiaolong's Purple Lightning Peak looked more normal.

Yuan Tianyi, Li Shuo, and He Zhen watched with wide-eyed surprise as the earthworm-shaped flying ship passed by them.

"This hobby is really uncommon." Yuan Tianyi made a rare joke.

Huang Xiaolong chuckled. "The world is so big, and everyone's preference is different, so it's not that strange. Let's head to the Blazing Dragon Celestial Capital first, and then start inquiring for information."

The three complied respectfully.

The Purple Lightning Peak turned into a streak of lightning, flying straight towards the Blazing Dragon Celestial Capital in the central region.

In order to keep a low profile, Huang Xiaolong converged the Purple Lightning Peak's aura, and disguised it as a peak-level cosmos artifact. Even so, the Purple Lightning Peak still attracted many eyes as it zoomed past.

Peak-level cosmos artifact flying ships were rare even in the Blazing Dragon Holy World.

High-grade cosmos artifact flying ships were far from comparable to peak-level cosmos artifact flying ships.

Generally, only the super chambers of commerce or families possessed peak-level cosmos artifact flying ships.

"Who's that young man?! I don't remember hearing about anyone with a giant peak-level cosmos artifact flying ship!" A World Master Manor's young patriarch said as he pointed at Huang Xiaolong who was standing on the peak of Purple Lightning Peak.

This young patriarch was the Purple Vision Holy World Master Manor's eldest young master, Zi Juedao!

The Purple Vision Holy World was a very powerful holy world under the Blazing Dragon Celestial Empire. The Purple Vision World Master was as strong as the Heavenly Sword World Master, or probably slightly stronger.

Zi Juedao was a famous cultivator amongst the Blazing Dragon Celestial Empire's younger generation. His strength was higher than many top-tier creeds' patriarchs, and he wielded major completion stage power of radiance, blaze, and wood.

An elderly man beside Zi Juedao looked at Huang Xiaolong with a serious expression and slowly said, "That young man is not simple!"

Not simple?

Zi Juedao was stunned. Uncle Zheng Long was one of the ten great experts of their Purple Vision World Master Manor. Someone being described as not simple by Uncle Zheng Long had to be extraordinary.

“Does Uncle Zheng Long mean to say that this young man is as good as me?” Zi Juedao looked at Huang Xiaolong with a new perspective.

But the elderly man Zheng Long shook his head and corrected, “No, he’s stronger than me!”

Zi Juedao was shocked. “What?!”

That young man is stronger than Uncle Zheng Long?!

His Uncle Zheng Long had comprehended four elements of absolute powers, and all four elements had reached major completion, especially his power of darkness was only one stop from reaching perfection level.

Another black-haired elderly man beside Zi Juedao chimed in, “Not only is he stronger than you, he’s also stronger than me!”

Zheng Long’s judgment was limited, but he could see that the young man was stronger than that.

Both Zi Juedao and Zheng Long were genuinely flabbergasted.

“Elder Brother, he’s really stronger than you?!” Zheng Long gasped.

His elder brother, Zheng Shifeng’s strength was only under the Purple Vision World Master! And his elder brother was stronger than many World Masters.

But that young man was said to be stronger than his elder brother!

Zheng Shifeng looked extremely solemn as he observed Huang Xiaolong. “Unfathomable!”

He uttered only one word!

But this one word was self-explanatory.

Zi Juedao and Zheng Long sucked in a breath of cold air. They were already shocked when Zheng Shifeng said the young man was stronger than him, but who knew that Zheng Shifeng would actually say that the young man was unfathomable!

Unfathomable and stronger than Zheng Shifeng were two different concepts.

Zi Juedao stared at Huang Xiaolong dazedly. “Does that mean he’s an expert at the same level as my father!”

His father, the Purple Vision World Master, had comprehended six elements of absolute powers with five of them at perfection level.

Zheng Shifeng did not say anymore. In truth, he could only sense that the young man’s strength was unfathomable, but whether the young man’s strength was comparable to their World Master, he couldn’t be certain of it.

By this time, Huang Xiaolong’s Purple Lightning Peak had flown out from everyone’s sight.

On a giant flying ship inscribed with a nether spirit on the sides, stood a group of women in black dresses. Each of the women in this group held a long black sword, and their faces were concealed under

black veils, and even the trinkets on their hands were all black in color. From head to toe, everything on them was black, just like nether spirits in broad daylight, giving others a chilling feeling.

Seeing this flying ship and the women on the flying ship, all nearby flying ships shied far away as if they couldn't get away fast enough. Even Ji Zuedao's face tensed when he saw the black flying ship and quickly ordered his subordinates to steer the Purple Vision World Master Manor's flying ship away.

The leader of this group of women was also staring at Huang Xiaolong's Purple Lightning Peak that had gone out of sight. Her beautiful eyes glimmered. Clearly, she had heard Zo Juedao, Zheng Long, and Zheng Shifeng's conversation. In fact, she had noticed Huang Xiaolong, Yuan Tianyi, Li Shuo, and He Zhen.

"Find out that young man's identity and the place he's staying. As our Nether Spirit Palace appears this time, the Young Palace Master wants to recruit a large number of experts, and that young man's strength could probably enter the Young Palace Master's eyes!" The leader ordered the group of women behind her.

"Yes, Senior Sister Chen!" the female disciples complied with respect.

The Nether Spirit Flying Ship sped away.

When the Nether Spirit Flying Ship had flown out of sight, the various creeds and world manors' experts breathed out in relief.

"The Nether Spirit Palace has appeared again!" Zi Juedao looked in the direction where the Nether Spirit Flying Ship had disappeared in palpitation. How and when did the Nether Spirit Flying Ship appear, and why didn't I discover it?!

The Nether Spirit Flying Ship's movements were really like a nether spirit.

"Every time the Nether Spirit Palace appears, there's bound to be a bloodstorm." Zheng Shifeng stated with a solemn face, "Don't know if the Nether Spirit Palace Master's twelve elements have reached perfection level, but if they have, it would be terrifying!"

"Every time the Nether Spirit Palace appears, they recruit a large batch of experts, and it is obvious the Nether Spirit Palace has taken an interest in that young man. That young man's in trouble. Anyone the Nether Spirit Palace has their eye on, has to either submit to the Nether Spirit Palace or end up miserably!"
