Chapter 91 The Sponsorship “Don’t worry, I am not as blind as Dayana.”

Galilea took out the card and waved it in front of Wendy. “This, looks familiar?”

“Isn’t this...” Wendy was terrified.

She had stolen this card from the Frankie family before. This card originally belonged to Galilea.

“How much money was originally in there? Give me back everything.” Galilea said each word with certainty.

Wendy couldn’t figure out what Micah had said to her. She also didn’t know how this card had been in her hands. She was in a panic and didn’t dare to look at Galilea.

“Don’t play dumb. I went to the bank to check. There were originally five million yuan in there.”

However, within one month after the Frankie family went bankrupt, most of her money had been taken out.

Her father transferred it to her on her birthday, but for some reason, this card had fallen into Wendy’s hands.

“Galilea, I really didn’t know that there was so much money in it. It was your father who insisted on giving it to me at that time.” Wendy’s face was pale and she trembled as she laughed dryly.

Galilea was too lazy to expose her.

“I’ll give you three days. Otherwise, I’ll turn the Quincy family into the next Frankie family.”

“Galilea, don’t be so ruthless. Dayana and her father did nothing wrong.”

Galilea smirked coldly and stared at Wendy’s fake eyes. She told her word by word, “If you say another word of nonsense, I’ll go in and tell Lachlan what kind of person you were in the past.”

Wendy immediately let go of her hand.

She no longer dared to look at Galilea as she powerlessly retreated.

Galilea turned around and left. If she looked at her more, she would feel that this kind of person would dirty her eyes.

As for the VIP card that could enable her to enter the Great Sea Building, she had borrowed it from Vincent Priestley. After meeting Wendy, she directly returned it to Vincent.

Obviously, he did not expect that Galilea would return it so quickly.

“Miss Frankie can use it for a while longer.” Vincent showed goodwill. “No need, I don’t have the time.” Galilea frowned, then looked at Vincent, “Can you tell me who asked you to give me this job?” She was not sure if Vincent knew that the person who made her enter MON behind the scenes was Micah.

Or, there were other bosses involved.

She considered whether she could negotiate a deal with the other party.

“This is the instructions of the company’s boss. If Miss Frankie has any questions, I can pass them on.” Vincent took out the excuse that he had prepared early on. In fact, Galilea should have asked this question a long time ago.

“Forget it, no need.” Galilea waved her hand, She was not that interested in Micah.

Chapter 91 The Sponsorship Not long after Galilea left, Vincent sent an email with Galilea’s whereabouts for the past week and who she had met.

On his phone, the recipient was ‘the Boss’.

Ding

A computer notification sounded.

The man sitting in front of the desk moved his mouse and glanced at the content on the screen. His eyes darkened a little. At the same time, Keith knocked on the door and walked in. “Mr. Lorenzo, the confirmation contract of the Opple Group has arrived. There is no problem. The project can be officially launched next week.”

Micah did not respond.

After Keith put down the document, he hesitated for a moment and asked for instructions, “It is almost the same as the project of the Lubi Group, but in terms of price, they hope that we can negotiate it again. They also sent an invitation for Mrs. Lubi’s birthday banquet.”

“I’m not going.” Micah did not even look at him.

He never attended such a meaningless banquet. “Understood, Mr. Lorenzo. I’ll reply to them.” Keith quietly left the office.

The man opened the buttons on his collar and lay back in his seat. The white and beautiful face appeared in his mind.

If Galilea touched the Quincy family because of Wendy. Then her next step would be to touch the Frankie Group, right? The man tapped his fingers on the table, picked up the phone receiver, and dialed the number of the inside line. “There is no need to investigate Chen Wu’s car accident anymore. Destroy all the results.” Other than him, there was no need for anyone else to know the truth of the matter. “Yes, Mr. Lorenzo.”

was no ne

He had concealed this matter because he did not want to ruin the relationship with the Wu family. Davis was easily impulsive. If he knew that Chen Wu had gotten into trouble because of Galilea, he would definitely turn the world upside down.

He frowned. He was just too lazy to explain any further.

As soon as Galilea got home, she received a call from Sonny.

“Galilea, if you are not busy, can you come to the race team? Nore has already shut himself up for a day and a night. He won’t open the door for anyone. Now we really have to rely on you.” Sonny sighed.

Galilea scratched her head and was about to speak when a voice came from the other side, “Is it Sister Galilea? I’ll tell her.”

Then, Xu Ya’s voice rang out.

“Sister Galilea, Brother Nore hasn’t eaten for more than a day. I beg you, please persuade him, okay?”

Galilea hung up directly, then opened the door and walked out.

Xu Ya sobbed and said aggrievedly, “Maybe I screwed up. Sister Galilea hung up the phone.”

“No way?” Sonny suddenly realized something and slapped his forehead. “Look at me...”

The surrounding members of the team all shook their heads.

Half an hour later, Galilea walked into the dormitory rented by the race team with two servings of fried sauce noodles. “All of you go out, I’ll try.”

Chapter 91 The Sponsorship Xu Ya saw that she had actually come, and there was no smile on her face at all.

“Sister Galilea, you hung up my phone just now. I thought you were not coming.” Galilea was too lazy to pay attention to her and said nothing. “Let me help you.” Xu Ya took the initiative to go forward and help. With a look from Sonny, someone immediately went over to stop her. “Miss Xu, there is a coffee shop downstairs. Let us treat you to a cup of coffee.” They were all young and handsome young men. They blocked in front of Xu Ya, and she could not resist it and was pulled out. When the door closed, Galilea felt that the whole world was quiet. She walked to the door of the room and shouted, “There is beer and noodles. I can’t finish it all by myself. If you are still breathing, come out and help.”

Then, she did not say anything more. She sat down beside the coffee table, turned on the TV, and ate by herself. When she was halfway through eating, the door opened. Nore lazily leaned against the door. There was no light in his eyes. He had been hungry for more than a day. He was really hungry. Galilea only watched TV and did not look at him. Nore lowered his head and walked over. He picked up his chopsticks and began to eat as well. After a while, Galilea said, “Don’t worry about the funds for the team. I’ve helped you get the sponsorship. Practice it properly and don’t give up.”

Chapter 92 The Invitation

At that moment, Nore suddenly felt that the noodles in his mouth had lost their taste.

“Galilea, I still have money. Take your money to pay off your debts.” Nore lowered his head, his voice carrying a bit of unwillingness.

He had already thought of all the methods he could think of,

But his mother insisted that he get engaged to Xu Ya first, or confirm their relationship before she was willing to continue investing in the race team,

His friends had also been informed.

He put down his chopsticks. "No matter how difficult it is, I won't..."

He wouldn't want Galilea's money,

However, before he could finish his sentence, he met Galilea's clear eyes and swallowed back all the remaining words. "I don't want it," he muttered.

"Sign it. When you have money, you can pay me back. At the very least, you have to make it through the two competitions this month," Galilea said.

Before she came, she had already called Sonny and was very clear about the current situation of the team.

If they couldn't solve the financial problem, the team could only disband.

Suddenly, there was a knock on the door. "Brother Nore, come out quickly. Auntie is here." Xu Ya shouted.

"My mother? How did she know this place?" Nore was stunned.

He suddenly stood up and quickly tidied up the mess on the ground. Galilea took another bite of noodles, calmly carried her bag, and walked out of the balcony door. When Nore came back to his senses, Galilea was no longer in the room, with only the IOU on the table.

Lucy ordered the people in the team to open the door.

As soon as she entered, she saw Nore sitting there eating noodles alone.

"No, Sister Galilea was clearly here." Xu Ya frowned.

"Mom, how did you know that I was here?" Nore swallowed the noodles in his mouth and asked despite knowing the answer.

Xu Ya lowered her head from behind.

Apart from her, no one else present would have reported to Lucy, especially when Galilea and Nore were alone in their room. "I came today to tell you some good news. I am willing to continue investing in your team." She smiled. Nore and the people in the team were stunned.

However, Nore quickly calmed down. "Mom, I can't agree to the matter you mentioned to me."

His gaze rested on Lucy's shoulder and landed on Xu Ya without the slightest emotion.

Xu Ya lowered her head and stopped talking.

"Mom knows who you like in your heart. I have also thought it through. I won't force you. I think this way because Little Ya has persuaded me for a long time. So in the future, don't stay thousands of miles **away from** her. Just treat her as a sister, okay?"

Chapter 92 The Invitation Only by retreating would Xu Ya be able to stay by Nore's side.

"Really?" Nore's eyes lit up.

"Of course, I've brought the money."

Outside the door, Sonny and the others were all excited. "Great!"

"Thank you, Mom!"

Seeing that Nore finally had a smile on his face, Xu Ya pursed her lips tightly. When Lucy was about to leave, she also took the car and left. "Little Ya, your idea is really good. Because of the sponsorship, he has been in a cold war with the family for a long time. I was just worried about how to give him a way out." Lucy held Xu Ya's hand. No matter how she looked at her, she liked her.

He just couldn't figure out why her son had taken a fancy to that divorced woman.

Xu Ya smiled, "Auntie, Brother Nore is also very worried about your and Uncle's health. In fact, a family should talk things out. I know he really likes Sister Galilea. I am willing to bless them."

"That won't do!" When Lucy thought of the Xu family's strength, she held Xu Ya's hand tightly. "The daughter-in-law that I have set my mind on is only you. This time when he invites Galilea to my birthday banquet, I will let that woman understand the gap between her and my son!"

Not to mention the current Galilea, even if the former daughter of the Frankie family stood in front of her, she would have to think about it.

Xu Ya hid the smug look in her eyes. "Thank you for your approval, Auntie. I will work hard."

The more Lucy looked at Xu Ya, the more she liked her. When she thought of that Galilea, she was full of anger.

On the way home, Nore caught up with Galilea in his car.

He directly pulled her out of the taxi and stuffed the IOU back into her hand. "The race team has a sponsor now. Take this money back."

"So fast?" Galilea said this, but her movements were not slow at all, directly taking away the IOU.

"Also, I have good news to tell you." Nore could not help but hold her back. "Treat me to dinner tonight?"

"Is the only thing on your mind about eating?" Nore coughed. "Yes, it is." Galilea looked up at him.

To her, there was nothing else more important.

"What you said makes sense. In a few days, I will invite you to my house to eat and we will have a good meal." Nore said happily.

His mother had already agreed to let him pursue Galilea!

He wanted to take her to the birthday party and let everyone know that Galilea was no longer the ex-wife who was bullied by Micah and Dayana. In the future, she would be his girlfriend.

"No, I am not going." The face of his mother circled in Galilea's mind, and the arrogant look she had when she treated her, she shook her head and refused, "I want to prepare for the design competition. I'm very busy."

"I heard that we will hire a chef from Australia to cook on the anat"

Chapter 92 The Invitation “What time is it? I don’t need to bring a gift, right?” “No need. As long as you are there,” Nore said with a gentle gaze. He would prepare a gift for her. He just hoped that she would stay by his side all that night. The next evening, Galilea dragged her tired footsteps upstairs and saw a big package in front of her door. And Galilea accepted it.

She looked at the box for a long time and remembered the message Nore sent in the morning. Galilea moved over, picked up the package, opened the door, closed the door, threw it casually, and then opened fire to cook. The next day, when Nore came to pick her up, the package was still lying on the ground. “Don’t you want to try the dress I bought for you?” Nore looked at the simple shape of her shirt and jeans and tentatively suggested, “My mom is celebrating her birthday today. There will be a lot of people there.”

“Is there a problem with what I am wearing?” Galilea blinked.

Chapter 93 Jealousy Made People Lose Their Minds "How about I don't go? Don't spoil your mood." Galilea still had this bit of self-awareness. His mother wouldn't like her appearing there.

Knowing what she meant, Nore quickly said, "My mother agreed. When I came to pick you up just now, she asked me to take you there earlier."

“Really?” Galilea was stunned and looked at him doubtfully. “Of course, I won’t joke about such things. Let’s go quickly. If you don’t like that dress, let’s go buy another one.” “Wait for me,” Galilea thought for a moment. She took out an ordinary dress from her suitcase. Although it was a classic style from before, it made her look very attractive. “Let’s go.” Galilea closed the door, thinking that she was only going to have a free meal, and she could leave after eating.

Nore was already very happy in his heart, thinking about how to introduce Galilea to everyone.

When Galilea arrived at the Lubi family, she found that the scene was bigger than she had imagined.

This time, Lucy had invited a lot of Cloud Town’s upper–class people for her birthday.

Countless luxury cars parked outside the Lubi family’s door. Lucy was wearing a traditional cheongsam, standing on the balcony of the second floor with a smile, chatting with several noblewomen.

“I heard that your son is dating the daughter of Xu Group. It seems that Mrs. Lubi will have a grandson soon!” Someone said with a smile,

“The news spread really quickly. The children haven’t officially confirmed it yet. I rarely ask about Nore.”
“Mrs. Lubi is really lucky...”

Just as these flattering words fell, Lucy saw Nore walk in with Galilea. At that moment, Lucy’s smile changed.

“Isn’t she Micah’s ex–wife?” someone asked in surprise.

“Mrs. Lubi, is she trying to seduce your son?”

The news that Nore had proposed to Galilea on the podium had already spread.

“That kind of woman will be doomed no matter who she marries,” Lucy said awkwardly. “She must be sticking to Mr. Lubi and not letting go. She doesn’t even know who she is!” Nore brought Galilea into the living room on the first floor and did not hear the discussion on the second floor.

But at this time, standing not far away from them, Micah, who was discussing business with Hanming Lubi, inadvertently heard these words. Hanming Lubi coughed heavily, “I’m sorry. I don’t know anything about it and have let Mr. Lorenzo see a joke.”

He made a gesture of invitation and led Micah to the restaurant inside. “It doesn’t matter” Micah said indifferently. “Our company will definitely do our best in this cooperation. Thank you very much for not considering the past and being willing to give us this opportunity.” In front of Micah, even an old man like Hanming, who had been in business for a long time had to

Chapter 93 Jealousy Made People Lose Their Minds show humility.

In the past few years, the speed of the Lorenzo group’s development was really amazing. Especially after the Frankie family’s accident, Micah swallowed several medium–sized companies in one go, which made the Lorenzo group almost become a god–like existence in Cloud Town.

As long as he could cooperate with him, all the economic problems of the Lubi family could be solved.

Therefore, Hanming worked very hard to facilitate this cooperation.

“Micah!” Dayana walked over with a cup of coffee and handed it over thoughtfully.

Micah held the cup of coffee and took a sip.

The two of them looked like a perfect match.

Hanming immediately smiled and said, “Let’s talk later. Mr. Lorenzo should enjoy the food first.”

Then, he immediately walked away and found the butler. He ordered, “Go to the young master immediately and tell him that no matter what, he must stay away from that Galilea today. I don’t want to hear any gossip about them!”

Just a moment ago, he had felt that Micah was very concerned about this matter.

After he gave instructions, he went inside to find Lucy Evans.

On this side, Dayana was still flirting with Micah.

She wanted to be a pair with him in public.

This way, she could sit firmly in Mrs. Lorenzo’s position. Moreover, on the way here, she had learned from Xu Ya that Galilea would also come today as Nore’s female companion.

When she thought about how her two weddings had been ruined by Galilea, Dayana gritted her teeth in hatred.

In her opinion, Galilea simply wanted to use Nore to make a comeback, who had even wanted to seduce Micah.

“Micah, there seem to be a lot of your partners downstairs. Can you introduce me to them?” She wanted to quickly integrate into Micah’s circle. She could not let go of such a good opportunity today. Hearing her say this, the man’s expression was a little moved. “You have never liked this kind of occasion.”

He had brought Dayana out once, but because the topic was not suitable, Dayana left very early.

“We are now husband and wife. I hope to help you in your career.” Dayana coughed lightly.

Micah raised his eyebrows and did not say much.

“Let’s go.” Dayana smiled and held his hand.

Galilea was downstairs. Dayana made up her mind that she must beat Galilea today.

Let Galilea be dumped by both Nore and Micah at the same time!

Only in this way could she relieve the anger in her heart.

She held Micah’s arm and was as proud as a peacock. She raised her chin and showed an arrogant look.

However, some of the people present had heard of the rumors from a while ago.

“Has the Quincy family been saved by the Lorenzo group?”

“A while ago, Lachlan borrowed money all over the world to hold his daughter’s wedding two times. They were both ruined by Micah’s ex-wife. It was really embarrassing.” “In other words, the two of them are still not real husband and wife?”

Chapter 93 Jealousy Made People Lose Their Minds These words were a bit harsh to Dayana, but when Galilea heard them, she felt very comfortable. She held a plate and tasted delicious food, wandering between these so-called celebrities and listening to these interesting stories. Of course, she had deliberately ignored some of the gossip, especially the parts related to her. In the crowd, she could feel a slightly heavy gaze following her. She frowned and glared back in annoyance. It was not she who was talking about him and Dayana. Why was Micah staring at her all the time? In the past few years, she had always hoped that the other person would look at her properly. But now that she thought about it, she should have been blinded by lard and her brain should have been flooded

Chapter 94 Fight Head-On!

Micah also wanted to use this banquet to talk to the bosses of several companies, but if everyone’s attention was always on his private life, it would be difficult to start. He watched Galilea’s back and considered how to break the current deadlock.

But he was suddenly glared at by her.

The man pressed his eyebrows down and a touch of heaviness flashed through his eyes.

“Micah, what are you looking at?” Dayana noticed that he had been absent-minded the entire time. She followed his line of sight and looked in the direction where Galilea was standing, which made her very uncomfortable.

“Nothing,” Micah said lightly.

“I want to eat something. Let’s go over there.” Dayana deliberately pointed at the dining table on the other side.

Micah nodded. Just as the two of them turned around, a business partner, Mr. Chen, walked over. “Mr. Lorenzo, about the case we talked about last time at the summit, do you want to deepen it in detail?”

The other party came with sincerity.

Micah also had this intention, and immediately let go of Dayana’s hand. “I’ll go to work first.”

As he spoke, he was about to leave.

However, the direction they were heading to was exactly where Galilea was. Dayana’s heart tightened, and she immediately wrapped her arms around his. “Micah, can you let me accompany you?”

Although they had a close relationship, it was still a business secret.

More importantly, Dayana knew nothing about business sales.

Micah’s eyes were cold. Due to the occasion, he leaned over to her ear and said, “It’s not suitable. I’ll go find you later.”

Dayana could only smile and let go.

“The relationship between the two of you is really good.” Mr. Chen laughed and joked.

Micah did not respond and made a gesture of invitation.

Dayana stood where she was and bit her lips hard. She was only Micah’s female companion! No one called her Mrs. Lorenzo at all. This feeling of being ignored made her feel terrible.

The mobile phone in her handbag vibrated. She looked at the annotation name, Terry.

With a frown, she walked into the bathroom behind.

Dayana told him that she could not join Micah’s circle, and Terry quickly gave her a trick. Moreover, it could also invisibly alienate the relationship between Galilea and Micah.

Ten minutes later.

Nore was called away and Galilea was eating happily alone when she heard someone talking about business on the sofa not far behind.

It was not strange at all on this kind of occasion.

But this person’s voice was particularly harsh as if she had deliberately said it for her to hear. It made her very uncomfortable and the steak in her mouth instantly lost its taste. “Micah, I know about this product. The Frankie Group had done a patent case before, but their company’s technology was too poor. In less than a month, they were sued by their partners. It seems that they lost several million yuan.”

Chapter 94 Fight Head–On! Galilea’s eyes darkened, her fingers tightly clasped her palms.

That was not the case at all!

It was that cooperation party who had gone too far. Not only did they take away the funds, but they also deceived her father. Later, the court had already re–judged and returned the remaining money to the Frankie family.

At that time, not many people knew about this matter.

Micah was one of them who did know.

Was he the one who had told Dayana?

Galilea’s eyes were as cold as ice. *Was* it not enough for him to have destroyed her family? Had he told Dayana the story of her family too? No matter how calm Galilea was, she could not suppress the anger in her heart and turned to walk **over**.

Dayana continued to say. “I think the Frankie Group should have closed down long ago and given up the market share to a more capable company.”

She completely repeated what Terry told her.

She was happy that she had remembered so many ‘lines’ for the first time.

She did not notice the expression of Micah and Mr. Chen at all. Originally, the cooperation between the two of them had been very smooth, but after being stirred up by Dayana and mentioning the bankrupt Frankie Group, Mr. Chen's expression changed again and again.

Now, the scale of his company was not as big as the previous Frankie Group. Was Dayana implying that Micah did not like a cooperative partner like him at all?

Moreover, Mr. Chen had a good relationship with Onyx before, so he could not laugh at this time.

"It seems that Mrs. Lorenzo has some understanding about the business world."

This sentence directly made Dayana's cheekbone rise to the sky. She was stunned and held Micah's arm with a smile. "This is because Micah..." Before she could finish her words, she was interrupted. "The business world is always changing. There are countless successful companies which went bankrupt overnight." Galilea's light words attracted everyone's attention. On such an occasion, no one dared to confront Micah face to face. She just had to be the first. When Nore heard the news, he immediately ran over, but halfway, he was stopped by Xu Ya.

"Brother Nore, if you go now, not only will you not be able to help Sister Galilea, but you will also damage her reputation. I think you should go later."

"Get out of the way." Nore said.

"Today is Aunt's birthday. If you get into a conflict with Micah because of a woman, where will the Lubi family put its face?" Xu Ya pursed her lips and whispered.

Nore had no choice but to stop.

He knew that the company was cooperating with the Lorenzo group recently. If he rushed over like this, it would indeed be difficult for his father. If they misunderstood Galilea because of this, it would be terrible.

Chapter 94 Fight Head-On! Seeing that Nore's movements had slowed down, Xu Ya smiled. "Let's go over there and wait."

Galilea's words successfully made the atmosphere even more awkward.

"Micah, she curses you," Dayana gritted her teeth. "You didn't marry a female star, but a brainless repeater. She was afraid that you wouldn't understand what I said, so she had to translate it for you," Galilea said with a laugh. Micah's expression turned ugly as soon as she finished speaking. "Micah, don't listen to her nonsense. I didn't mean that," Dayana explained. Micah glanced at her and wished he could seal Dayana's mouth. Dayana quickly lowered her head and stopped talking. Unlike her, Galilea was not afraid of Micah at all. She just stood there and stared at Micah's face with her cold eyes. "The Frankie family was falsely accused at that time not because of the quality of the product, but because it was framed. If Mr. Lorenzo didn't even have the ability to distinguish right from wrong, I think the Lorenzo group will repeat the Frankie Group's failure in the future."

Her words had two meanings. On the surface, she was cursing that Micah would go bankrupt sooner or later. Everyone around sucked in a breath of cold air. It seemed that this Galilea was really going to go

all out and fight Micah to the end. However, their identities were too different. Everyone felt that it was easier for Micah to get rid of Galilea than to pinch an ant to death.

Chapter 95 Comparing However, no one could explain why Micah did not do so. They were no longer husband and wife, but they always appeared in everyone's sight together, not as a couple, though. Therefore, many discussions appeared among the surrounding guests.

"I think that Galilea is more suitable for Mr. Lorenzo. That Dayana is like a flower vase. She is a lot worse than Galilea."

"Sigh, if not for the fact that the Frankie family fell, the two of them would really be a good couple."

"Just now, why did Dayana mention the Frankie family for no reason? It must be because she knew clearly in her heart that she couldn't compare to Galilea. That's why she played such a small trick. I really don't know why Mr. Lorenzo would like her."

"She knows how to act like a spoiled child..."

Everyone watched helplessly as Dayana nestled in Micah's arms as if she had no bones.

"Micah, I really didn't mean it that way. Don't listen to her."

At this time, Micah swept his cold eyes over, and his gaze was gloomy.

With a look, Dayana bit the corner of her lips gloomily and did not dare to make a sound.

Galilea chuckled and turned to look at Mr. Chen, who had just chatted with Micah about business. Her attitude was neither humble nor arrogant. "If the two of you discuss other aspects of cooperation, I may not have the right to speak. But if it is about the few cargo ships parked at the ferry, I happen to have some information."

She had previously called the Lorenzo group anonymously and claimed that she was a reporter who wanted to interview Micah. Of course, she was rejected.

However, she had finally managed to find this clue.

It was a batch of goods that the Lorenzo group's vice president, Terry, had imported from overseas. There was no problem with the source of the goods, no problem with the channels, but there was a problem with the goods.

Micah should not know about this matter yet.

Otherwise, he would never have talked about this matter in public.

"That batch of goods, Mr. Lorenzo didn't personally manage it, right? So, he probably doesn't know either. The components have long been out of date, and they are k type that is prohibited from being used by the industry."

"What? Mr. Lorenzo, is what she said true?" Mr. Chen was stunned.

Not long ago, Cloud Town had issued a ban on it. If Micah knew that there was something wrong with those goods and still wanted to cooperate with him in such a grand manner, wouldn't it be clear that he was trying to trick him?

Micah pressed his eyebrows down, and a trace of coldness flashed in his eyes.

In front of Mr. Chen and everyone else, he could only clarify immediately, "Of course not. We, the Lorenzo group, never do a one-time deal."

There was still some hesitation in Mr. Chen's heart when he saw the Lorenzo group's golden signboard. However, he looked at Micah and coughed. "Mr. Lorenzo, I'm going to the bathroom."

This was the most euphemistic rejection.

Chapter 95 Comparing "Miss Frankie's moves are really unexpected." "Thank you for your praise, Mr. Lorenzo. I don't have any strong points. I just like to tell the truth and can't stand others being deceived." She smiled. She was not arrogant, but he could clearly feel that she was very happy.

She was happy to see Micah's face darken.

In the distance, Nore breathed a sigh of relief, but seeing that Micah and Galilea were still talking, he couldn't help but shake Xu Ya off and walk over quickly.

"Galilea, I've been looking for you for a long time. Let me take you around." He directly grabbed her wrist.

Galilea hesitated for a moment. Micah narrowed his eyes.

At this moment, Dayana held his arms, "Micah, I feel a little uncomfortable. Can you accompany me to have a rest?" she asked.

After all, she was a pregnant woman.

Galilea listened to this sticky voice and felt a little nauseous. She directly agreed to Nore's invitation. "I just saw a pond behind?"

"En..."

Nore introduced as he led her to the back.

Micah retracted his gaze. "Micah, don't you think that Galilea is quite pitiful? She has just divorced you and is about to be abandoned again."

Micah did not say anything.

"How can the Lubi family let their only son marry someone like her? When I passed by the back, I heard a few wives saying that Nore is already engaged to the Xu family's daughter."

Then it was only a matter of time before he abandoned Galilea.

At that time, Galilea would have nothing left. She would see if she still had the face to stay in Cloud Town.

When Dayana thought of this, she felt very comfortable, but after she finished speaking, she found that Micah's reaction was very strange. "Micah, are you not happy?"

The man turned to look at her, his eyes slightly heavy, "You came here to listen to the gossip?"

"I... I only heard it by chance. I said it because it has something to do with you." Dayana did not understand what she had done wrong.

She was a woman, so it was normal for her to care about his love rival's situation. But Micah was different. For him, such an occasion should be used to talk about business. If not for his identity, he would not have brought Dayana here today.

In less than half an hour, he was deeply aware that Dayana was not suitable for his circle.

To be precise, he could not agree with her various performances.

Micah frowned and did not say a word.

His calm eyes were filled with complicated emotions. "Guests, please come over here."

Soon, Lucy's birthday banquet officially began. The couple stood side by side, raising their glasses to

Chapter 95 Comparing thank all the guests present.

The guests below the stage were very cooperative as if they had forgotten the little episode just now.

Until Lucy smiled and said, "Some time ago, my son won a small competition. The situation was quite complicated at that time. He did some inappropriate actions. I hope everyone doesn't take it to heart." These words were vague. But the listeners were interested. For a moment, many people began to whisper.

"It seems that the Lubi family does not agree with Nore to pursue Galilea."

"Of course, that is a woman that Micah does not want. The Lubi family can't afford to reduce itself to such a level." Nore and Galilea, who just came back from the back, also heard this. Xu Ya appeared on the other side of Nore at the right time and pulled him, "Brother Nore, you'd better come with me to toast to aunt. There are so many people here, don't let her lose face." Galilea's heart skipped a beat. "I'm not going." Nore frowned.

Chapter 96 Make Her Disappear from Cloud Town

Nore frowned and did not want to cooperate with Xu Ya.

"Then I'll go first." Xu Ya was neither anxious nor angry.

Then she walked over and gave Lucy a birthday blessing in public, as well as a carefully selected jade necklace as a gift.

"Thank you, Little Ya. I really like it. Come on, help me put it on now." Lucy smiled and held Xu Ya tightly. Anyone with a discerning eye could tell that the Lubi family had chosen Xu Ya as their daughter-in-law.

For a moment, some people actually looked at Galilea who was standing next to Nore with sympathy.

Although she was once the daughter of a wealthy family, now the time had changed.

Nore suppressed his temper and said firmly to Galilea, "Come with me. With me here, my mom won't..."

"Nore, I'm not feeling too well. I want to leave first. Thank you for having invited me over. I'm almost done eating too. It's not suitable for me to stay." She had not attended such an occasion for a long time and did not want to be discussed by others at this time.

"I'm sorry. I didn't expect things to turn out this way. Can you give me some more time?" Nore asked anxiously.

Galilea didn't say anything more and walked out.

It wasn't that she didn't have the courage to stay and face those rumors, but that she didn't want to do that at all.

As she passed through the guests, she saw Dayana holding Micah's arm and the two of them giving Lucy a birthday present.

"Mr. Lorenzo, Mrs. Lorenzo, thank you."

Lucy smiled with her eyes curved. She had deliberately replied loudly to make Galilea lose face.

She actually dared to come to her birthday party with her son?

Lucy still remembered how Galilea had refused her money. She was just pretending to be lofty. Now, she was still pestering her son. That kind of fox would never enter the Lubi family's door.

Because of this title, Dayana was so happy that she couldn't close her mouth.

She began to chat with Lucy as if she had already entered the upper circle of Cloud Town.

Micah had no intention of befriending the Lubi family, just for business. He stood there with his hands folded, his gaze glancing at the other side of the crowd, locking onto that figure.

His footsteps did not listen to him and unexpectedly he chased after her.

When he went out, the sky darkened and it began to drizzle.

Galilea stood there with her back to him, ready to take a taxi to leave. However, this was a high-end villa area, and if she wanted to take a taxi, she had to go further out.

Galilea looked down at her high heels and was a little embarrassed.

"The Frankie family is no longer here. No matter how brightly you dress, it is useless. The Lubi family will not agree to you being with Nore."

"Does it have anything to do with you?" Galilea retorted without turning her head.

She was too familiar with his voice.

Lucy's attitude towards Xu Ya just now had already explained everything.

Chapter 96 **Make Her Disappear** from Cloud Town She didn't really care, but she was indeed unhappy in her heart. If she had known earlier, she wouldn't have come. Micah looked at her, his eyes a little cold. "Even if you divorced me, you don't have to do this to yourself."

This sentence was said without any emotion. However, Galilea felt as if someone had dug a hole in her heart. "Don't think so highly of yourself. Divorcing you is the most correct decision I have made in my life." Galilea turned around, her eyes cold as she looked at the familiar and clear face in front of her. At that moment, an idea came to her mind.

She wanted to find a man who was a hundred times stronger than Micah!

In terms of both family background and personality, she needed a guy better than this cold-blooded man.

Nore?

Galilea hesitated for a few seconds.

"And then? You have become the topic of conversation after dinner for the whole of Cloud Town. If I were you, I wouldn't have done such a stupid thing." Micah suddenly took half a step forward and approached Galilea.

He stared at her red lips, his eyes filled with complicated emotions.

"Heh, people who don't know the truth will think that you are concerned about me. Don't worry, I will make you worse than I am," Galilea said with a cold smile.

In Galilea's opinion, Micah warned her only to keep her away from Cloud Town's upper-class circle.

She wouldn't.

She wanted Galilea's ex-husband to be a label that he could not remove.

In the distance, the two had fallen into the eyes of a guest, and then it quickly spread in the hall.

Dayana chased out with her skirt and saw them standing outside with her own eyes.

She immediately gnashed her teeth in anger.

"Mrs. Lubi, how can you let that kind of person enter and leave your house at will? It's too degrading."

Lucy glanced outside and did not take it seriously.

As long as Galilea did not get entangled with her son, she would not care.

But the next second, she saw Nore run out with an umbrella...

Lucy suddenly stood up, her nails on the windowsill, "That bitch!"

Galilea also did not expect Nore to chase after her. She subconsciously looked in the direction of the Lubi family.

"Take my car."

Nore stuffed the umbrella into her hand, his face full of guilt. "If I had not insisted on you coming, you would not have been talked about like this. It is all my fault."

He clearly cared for her more than anyone else.

However, she had suffered such a grievance. Nore regretted it just thinking about it.

Galilea wanted to say that she was fine, but there was still a figure standing next to her. She had to take the umbrella first. "Alright, let's go first."

Micah was left to the side. His gaze gradually sank as he watched Galilea get into Nore's car.

Chapter 96 Make Her Disappear from Cloud Town There was a hint of a disdainful smile on his cold face. "The banquet is not over yet. What are you doing here? Let's go in!" Dayana chased after him and said coquettishly. Seeing that she was about to pull his wrist, Micah retracted his hand. "Micah?" Dayana frowned. "I still have things to do at the company. I'll be leaving first." He had already talked to Mr. Chen. What was more important now was not to deal with those people, but to go back to the company to investigate that batch of goods. Dayana opened her eyes wide. "But... are you going to leave me here alone?" "I will ask the driver to pick you up." He had been watching for a long time. Dayana liked to be flattered and was very happy inside. As he spoke, he pushed away Dayana's hand. A few minutes later, Dayana could only suppress her anger and force a smile as she returned to the Lubi family's banquet. They had clearly come together, but now, she was the only one left. No matter how Dayana thought about it, she felt that something was wrong.

What if Micah went to look for Galilea? She rolled her eyes and went directly to look for Lucy. She pulled her to an empty corner. "Mrs. Lubi, I think you saw it today. Young Master Lubi has long been fascinated by Galilea. If you don't think of something, I'm afraid that your son will not listen to you in the future." "What do you mean?" Lucy was not very happy. "I want to join hands with you and make Galilea disappear from Cloud Town!"

Chapter 97 Can You Give Me All of them? Of course, Lucy also had the intention. However, with Mrs. Lubi's status, Lucy immediately pulled a long face. "Although I don't agree with the two of them, I won't do that kind of shady business. You've found the wrong person."

Dayana's face froze, and she quickly changed her words. "Then shouldn't you teach her a lesson? Are you going to just watch her hang out with Mr. Lubi? At this rate, when can you have a grandson?"

"Moreover, if the two of them are entangled all the way, the Williams family won't be waiting all the time!"

"This is not the place to talk. Come with me." Lucy raised her eyebrows.

Dayana thought to herself, 'Galilea dared to seduce my man. See how I play her to death.'

Just as Galilea was sent downstairs by Nore, she saw her neighbors fighting in front of them.

Moreover, the security in the vicinity was very poor, and there were often cases of theft.

Nore turned the steering wheel. "I'll send you..."

"No need, I'll go up first." Galilea smiled and then walked into the community without looking back.

She didn't want to stay for another second. She was afraid that she would vent her frustration in front of Nore. She had been talked about and slandered, but it had nothing to do with him.

Bang. Galilea closed the door and looked at the quiet hut. Her lips tightened bit by bit. She was not sad, but a little helpless. But on second thought, even without these obstacles, she would not accept Nore's pursuit.

Galilea looked at the time, took out her mobile phone, and began to browse the news, waiting to see a good show.

Fifteen minutes later, there was no movement yet.

Thirty minutes later, the Lorenzo group released an emergency statement, saying that they had dealt with the two batches of stock in the dock warehouse, and destroyed them all on the spot.

Galilea looked at the pictures of the instant news and smiled.

She understood Micah's personality too well. With such a big mistake in the company, he would definitely give up a rook to save the king.

Moreover, he would also do a bold and decisive reorganization inside the Lorenzo group.

This would inevitably touch the interests of some people.

Galilea got up and pushed open the door of the small bedroom. Inside, there was a whole photo wall. It was full of people and things related to Micah. She walked to the wall, picked up a pen, and made a red cross on the dock.

Then she connected a line to a photo. It was the Lorenzo group's vice president, Terry, who had cooperated with Micah to establish the Lorenzo group.

He was also a business elite who had returned from studying abroad, but he had no connections in Cloud Town. The two people contributed equally to the company. But because Micah's ability and spirit were more outstanding, although Terry had real power in the company, he was far less influential than Micah.

Chapter 97 Can You Give Me All of them? "There can't be two swords in one sheath. Micah, the game still has to continue."

Micah's actions had led to a lot of complaints in the Lorenzo group, because the interests of these people had been touched.

Among them, there were a few high-level managers.

They ran to Terry's residence overnight. Seeing Terry wearing a bathrobe and holding a red wine glass, they were a little embarrassed. "I'm sorry, Mr. Xiao, for disturbing at this hour."

As they apologized, they took a glance at Terry's villa.

They had never heard that Terry had a girlfriend, but he looked like he had just done something.

“Because Mr. Lorenzo cleared out the warehouse? I can’t help you with this. Don’t drag me into it.” Terry’s narrow eyes were filled with calculations.

“Don’t, Mr. Xiao. You were the one who signed the agreement to buy in the batch of goods. Now that Mr. Lorenzo is blaming us, we can’t bear this responsibility.”

The source of this matter was Terry.

As soon as they finished speaking, the smile on Terry’s face completely disappeared. “I said it had nothing to do with me. Get lost.”

He slammed the door, and the next second, the wine glass in his hand was also smashed to the ground by him. The fragments cut through the smooth floor tiles, making a harsh sound.

Dayana had just finished taking a shower inside and was shocked when she saw this scene.”

“What’s wrong?”

Terry turned around and stared at her fiercely. He rushed straight over and pulled her into his arms without hesitation. He pulled off Dayana’s bathrobe and kissed her.

“Don’t...”

Dayana was worried about her body, but Terry acted like he was crazy and did not pity her at all.

After a fierce fight, her body was full of scars.

There were bruises on her hands and legs, and the pain made Dayana tear up. She was completely forced just now.

“Why are you doing this to me? I came to accompany you out of kindness. You made me like this. What if Micah finds out?” Dayana complained, holding the quilt and crying.

She could feel that Terry was using her as a vent.

“Will he touch you? Also, the baby in your tummy is mine. I can do whatever I want. Do you understand?” Terry lit a cigarette.

Dayana furrowed her brows tightly. She was frightened by his gaze.

After Terry finished smoking the cigarette, he bent Dayana’s chin and kissed her a few times.

“Remember, when I need you, you have to be at my beck and call. Otherwise, I will let Micah know that you are not with his child at all. Get lost.”

Dayana was so angry that her hands trembled. She picked up her clothes one by one from the ground and quickly left.

Terry picked up the camera in the room, pulled out the memory card, and threw it into the drawer, “Micah, sooner or later, everything you have is mine.

His woman, company, and assets.

Terry took out his phone and dialed a number. “Recently, the company has been targeted. All

Chapter 97 Can You Give Me All of them? transactions are temporarily suspended. Don't let that kid find anything." "Understood, Mr. Xiao."

Because Galilea won first place in the design competition and was designated to be able to directly enter MON without participating in the finals.

As soon as she went to the company, she attracted a lot of envious eyes.

"Galilea, I heard that the company assigned you an office. I envy you." MON was different from other small companies in the industry. Because of its powerful strength and background, every designer who joined had their own office space. This was also to protect their original design. Galilea nodded lightly. She had already received a call last night, so she was not surprised. But looking at her calm appearance, everyone else felt that she was pretending to be cold and aloof. Two figures rushed over, and Liu Yuanyuan shouted, "Galilea!" Kai Forrest followed closely behind her and also waved at Galilea with a smile.

Galilea looked up and pressed the lift button to wait for them.

"Good morning, I brought you something to eat." Liu Yuanyuan knew that Galilea often went to the tea room in the company to make do with breakfast, so she had especially brought something for her.

"I made small biscuits myself. This is Apricot taste, and this is strawberry."

Galilea's eyes lit up. She had been worrying about what to eat ever since she entered the company!

She was already sick of the tea room. She looked at Liu Yuanyuan, not hiding her greed. "Can you give me all of them?"

Chapter 98 Draw Lots

Liu Yuanyuan smiled and nodded. "Of course, these are all for you." The lift door opened and they walked out together. The several interns behind them gathered together. "She just became an official designer and she already has followers. Liu Yuanyuan and Kai Forrest are really disgusting. When they see that she is powerful, they shamelessly stick to her."

"Be quiet. Don't let her hear it. Zhang Ying had a conflict with her before and was directly driven home."

"It's different to have a background. But her ex-husband has divorced her, and why should he help her?" "We don't understand the thoughts of rich people."

Their voices were not light or heavy, and Galilea and the other two heard some of it.

Kai Forrest's face was cold, and he did not say much.

Liu Yuanyuan said angrily, "I'll go to argue with them."

Just as she was about to go over, her wrist was grabbed by someone. She turned her head and saw Galilea holding a small bottle of dry water in one hand and holding her in the other. "Would you like to have a look at my new office?" Galilea turned her head, and her eyes suddenly lit up like stars.

It was as if she had not heard those criticisms at all.

“Galilea...” Liu Yuanyuan’s eyes were a little red. She felt sorry for Galilea. She had clearly fought her way over one step at a time, but she was slandered like this.

At the same time, she also admired Galilea.

How many people could have such strong endurance?

“They can’t affect me. On the contrary, they make me feel that I should go higher and further.” Galilea smiled indifferently.

She felt good that she could look down on these insignificant characters.

Pushing open the office, the three people were shocked by the scenery in front of them.

Galilea could no longer remember how long she had not stood in a place with such a good view. The floor-to-ceiling windows matched with the beige gauze curtain, and the air was permeated with a faint fragrance.

For a moment, she felt like she had returned to her past life.

Liu Yuanyuan ran to the window excitedly. “This is too great. Is the office of a MON designer so good?”

Kai Forrest shook his head in envy. “My room is inside. I can only see the CBD building. I can’t see such a good city view.”

Then, the two of them looked at Galilea at the same time and said in unison, “Can we come to you often in the future?”

“Of course.” Galilea looked at the spacious sofa and coffee table.

As she spoke, she hugged the biscuits and ate happily.

That afternoon, MON gathered the designers for an internal meeting. Liu Yuanyuan was still an intern, so she could not participate.

When Galilea and Kai Forrest arrived, they saw many people.

Kai Forrest whispered to her, “The first row is reserved for the chief designers. MON’s four chiefs includes Dongfang Lin and Yun Xi. They came back today to shoot the front cover of the fashion magazine next week”

Chapter 98 Draw Lots “Magazine?”

“Yes, the top Evelyn magazine in the industry. It wants to invite twelve stars to be models and shoot a special jewelry clip.” Kai Forrest was not stingy with sharing the information with Galilea, “The four chief seats should be responsible for three episodes respectively, but they must **need** assistants.”

Galilea’s eyes lit up.

She liked this kind of opportunity.

She followed everyone’s line of sight. Apart from Hansen and Susan who she had seen before, the person wearing a black suit dress should be Dongfang Lin, and the one next to her was Yun Xi.

Galilea had had some dealings with this person. Back then, when she submitted her application to study abroad, she and Yun Xi were under the same design teacher. Yun Xi could be considered her senior brother.

However, Galilea's trip to study abroad had failed, and she could not be cheeky enough to get close to him. Yun Xi was now the most powerful and influential among the four chiefs, who had won countless awards internationally.

Someone went over and said a few words to the four of them.

Galilea narrowed her eyes and watched the man walk up to the stage, picking up the microphone.

"Everyone, please be quiet. We are going to carry out the jewelry shooting event of Evelyn magazine. We have to choose twenty people from you. All designers are qualified to compete." Qi Xinglang said in a gentle voice.

"That's great. It would be great if I could learn from Mr. Yun Xi."

"I want to be Mr. Hansen's assistant."

Everyone's interest was piqued.

Only Galilea was very calm throughout the whole process because Qi Xinglang had a very important thing that he had yet to say.

How to choose!

This circle was not a place to talk about fairness. Every designer had their own ideas and styles. What they needed were obedient and capable assistants. They did not need the assistant's opinion and vision.

Galilea did not reject this point. Compared to most people, she could clearly recognize her current position. She was no longer the arrogant young miss from the past.

However, the others could not hold back their excitement at this time. One or two of them had looks of joy in their eyes as if they would definitely get the twenty spots.

"Mr. Hansen even greeted me this morning." "Last year, I was in Mr. Yun Xi's group. This time, I will definitely." These discussions rose and fell one after another.

Kai Forrest silently lowered his head and remained silent.

"What's wrong?" Galilea glanced at him.

He smiled bitterly. "I have never been selected before. These chiefs all have special personalities. I definitely won't have a chance this time. This is not a place where fairness is important."

Galilea agreed.

However, she would not give up on herself before it even started.

Galilea looked away and stopped talking to him. In front of her, Qi Xinglang began to announce the rules, "It's very simple. Draw lots."

Chapter 98 Draw Lots What kind of method was this? Galilea frowned slightly.

When it was her turn to draw lots on the stage, she inexplicably felt that Qi Xinglang's smile was very strange. Before she could react, she touched a stick. "Congratulations, you can be Mr. Yun Xi's assistant." Qi Xinglang announced loudly. This luck was completely beyond Galilea's expectations. There was also a *wave* of envious sighs below the stage. Only she felt that this luck was especially unreal. She glanced at Yun Xi and then looked at Susan next to her. If she could choose, she would rather go to Susan. "Go." Susan silently reminded her.

Galilea hurriedly moved and sat behind Yun Xi. "You don't seem to be very happy to come to my side? If you want to go to another group, I can help you." Yun Xi had a faint expression, unable to distinguish between joy and anger.

Galilea hurriedly shook her head.

"You are my first choice."

These words sounded a little ambiguous.

Yun Xi was stunned at first, but then he saw the serious expression on Galilea's face. A trace of surprise flashed in his eyes. "Have we met somewhere before?"

Chapter 99 Unable to Bear It

This time, it was Galilea's turn to be surprised.

They had indeed met, but that was two years ago. Moreover, they had not talked at that time. They had only gone to visit a teacher's house together.

"**Yes, about** two years ago."

Galilea only spoke truthfully, but Yun Xi did not seem to have any memory, who only nodded.

It seemed that he did not remember at all.

Galilea lowered her head and did not say a word.

Galilea had already been considered to be relying on others in the company. She did not want to attract some more criticism for no reason.

Soon, the grouping was finished.

The other four people in her group were all MON's designers, and it could be seen that they were very familiar with Yun Xi. However, they had one thing in common, which was that they were all very afraid of Yun Xi.

Galilea was a newcomer.

Therefore, the heaviest physical work fell on her.

"Tomorrow, you go to the venue to move the props over. Is it okay?" The one who directed her was called He Xiao. She was not old, but her words carried a lot of weight.

Galilea glanced at the name tag on her chest. She was from the design department. She should be very experienced in this area, so Galilea nodded. "Got it."

Then the four of them gathered together again and began to discuss the selection and pairing. Obviously, Galilea had become the one doing the odd jobs.

The other groups were in similar situations.

Those who were engaged in design were normally a bit arrogant, and no one was convinced by each other.

When Galilea was in school before, she had been used to this. She wanted to be quiet, sitting at the side thinking about things, and then she accidentally felt a gaze.

Looking in that direction, it was Qi Xinglang.

He was talking to Yun Xi in the corridor outside. The door was closed, and the two of them could only be seen through the glass. She suddenly remembered Qi Xinglang's smile just now, and her eyebrows slowly wrinkled. After that, they returned to their respective offices.

When Galilea pushed the door open, Kai Forrest and Liu Yuanyuan were waiting for her.

"Galilea, congratulations. It's great to be selected." Liu Yuanyuan said excitedly, "Can I send you food over tomorrow? I want to see how they shoot it. Maybe I can meet a star!"

Galilea could see that she was really happy for herself.

"I will send you the shooting site later. If there is a lunch break, I will tell you in advance. Don't run away for nothing." Galilea said and took out her mobile phone.

A message showed that someone had sent her money.

She narrowed her eyes. Wendy's movements were quite fast, but the number was not right. On the other side, Kai Forrest looked at Galilea with eyes full of envy, "The people brought by Mr. Yun Xi

Chapter 99 Unable to Bear It will soon be able to take over the design case. Perhaps it won't be long before you can be independent." Galilea sent a position to Liu Yuanyuan, put away her phone, and packed her things to get off work. "Are you very envious?" She asked without even raising her head.

"Of course," Kai Forrest was stunned.

"Then you shouldn't be cowering and waiting for an opportunity to find you. Do you really think that the draw just now was based on luck?" Galilea said with a calm expression.

After saying that, Galilea left alone.

Liu Yuanyuan did not go to the scene and did not know the specific situation. At the moment, she could only comfort Kai Forrest first, "Galilea's character is like that. Don't think too much about it." Kai Forrest frowned, and after a while, he suddenly realized, "I'll go first." He ran all the way to Hansen's office.

Galilea was right, he could not just wait passively.

The people who had been selected today were all capable and experienced designers in the company, except Galilea.

Was it really just a coincidence?

Ten minutes later, Kai Forrest left Hansen's office. However, there was no longer any tension on his face, because all the powerful designers had gone to be assistants. A few small goods cases were left. He had found Hansen and recommended himself, successfully getting a small brand design case. Although the commission was not much, this was the first time he had the qualifications to design independently.

When Kai Forrest walked out of the company, his hands were trembling.

Liu Yuanyuan was still waiting for him at the door. "Are you alright? Did you get stimulated by Galilea?"

"I'm fine! When Galilea is finished, I'll treat the two of you to a meal, and treat you for a week."

Liu Yuanyuan did not react to the reason he said this, but she still smiled and agreed, "If Galilea knew that she could save a week's meal expenses, she would be very happy."

On the other side, before Galilea left the company, she met Qi Xinglang.

She slowly stopped and asked directly, "Why did you assign me to Yun Xi's team?"

She was not a fool. Those four people were obviously Yun Xi's former assistants. They cooperated very well and did not even need to divide the work in advance. They just listened to He Xiao's instructions. Moreover, He Xiao had decided on the general direction of the shooting without asking Yun Xi for instructions

Either they just happened to lack someone to do odd jobs.

Or Galilea had joined in by kicking someone away.

No matter what, Galilea felt like she was being watched and manipulated, which made her very unhappy, especially when the person who manipulated her was Qi Xinglang.

"No wonder the professors liked you very much when you were in college. You are indeed very smart." Qi Xinglang's narrow eyes revealed a few bits of calculations.

"Just say it. What do you want to do?" Galilea did not have much patience.

She did not want to waste time on meaningless matters. "Since you do not accept my proposal, I can only do as I say."

Chapter 99 Unable to Bear It "You are just an intern trainer. Don't force me. Otherwise, I will expose your secret operation." Galilea frowned.

When the time came, even if MON's higher-ups did not deal with him, the designers who were eager to rise up would not let him go.

Galilea said and took a few steps forward. "Don't mess with me. I don't have time to play this boring game with you."

After she finished speaking, she walked straight into the lift.

She had thought that Qi Xinglang would not be so overconfident, but she did not expect him to rush over and block the lift. He directly squeezed in and stared at Galilea. "I already said that I want to cooperate with you. Didn't you enter MON just to return to your original world and take revenge on Micah?"

"I can help you achieve your goal in the shortest time possible."

"Even if you don't trust me, you can trust the Qi family behind me. No matter what, it should be a hundred times better than your current situation, right?" The corners of his lips curled up as if he was certain that Galilea would cooperate with him.

That kind of gaze made people feel very uncomfortable. "I don't want to repeat what I said a third time." Galilea gritted her teeth. Qi Xinglang frowned and looked at her for a while. Suddenly, he seemed to understand something. "You don't think that you alone can shake Micah's position, do you?"

What did Galilea have now?

She had nothing, and even her residence was in such a remote place. "With just one word from Micah, you could enter MON. What do you have to fight with him? Even if you use your body, you can't attract him."

Bang. Galilea did not hesitate and kicked him.

Then, an ear-piercing scream came from the lift. When someone heard the news and rushed over, they only saw Qi Xinglang curled up in the corner with a pale face, so painful that he could not stand up.

Chapter 100 She Could Apologize

Half an hour later.

At President's Office in the Lorenzo group. Micah had just finished dealing with the batch of goods and destroyed all of them, leaving nothing behind. "Mr. Lorenzo, the board of directors have a huge reaction. They think that we shouldn't waste so much. Who should fill up this gap?" Micah lowered his eyes and tapped his fingers on the table.

"Are you sure this batch of goods was purchased by Terry?"

"It was personally purchased by him from abroad. The price is also much lower than before," Keith reported truthfully.

After a long time, Micah said in a deep voice, "This matter will end here."

Keith raised his eyebrows slightly, but he still continued to listen.

Micah made a decision after a long time, then slowly said, "She wants to see the Lorenzo group's internal strife? What a joke."

With him here, he definitely would not let that happen.

"Mr. Lorenzo, there was news from MON just now. Miss Frankie hit someone in the company." Keith asked hesitantly.

“She hit someone?” Micah asked.

In his impression, Galilea would not do such an outrageous thing.

“The other party was rude and mentioned your relationship with Miss Frankie. That’s why she acted.” Keith said. At least, this was the information he had received.

As soon as he finished speaking, Micah’s expression became even uglier. “Deal with it immediately. The Opple Group will send people over next week. I don’t want them to hear any bad news.” “Yes, Mr. Lorenzo.”

On the other side, at MON Group.

Galilea sat on the sofa. No matter what Anna and Hansen asked, she did not speak.

“You have just become a designer, yet you have created such a scandal. You even beat up your intern trainer. What do you want to do?”

Anna widened her eyes and walked around with her fat body. She pointed at Galilea’s face with a look of disappointment. “Mr. Yun Xi has also received the news. Just you wait. You won’t have a good end.”

“Alright, it’s useless to say anything now. Qi Xinglang has already gone to the hospital to check his injuries. I think it’s not a big problem.”

:

“Mr. Hansen, you know that Qi Xinglang... is the only son of the Qi family. If he is injured, who can take responsibility?”

When Anna heard this news, she knew that Galilea was definitely in the wrong.

She had provoked the young lady of the Xu family first and now the young master of the Qi family.

Hansen frowned. In fact, the surveillance equipment in the corridor had recorded the audio of their conversation.

I was indeed Of Xinglang who had provoked her first

No one would have been able to tolerate this

He looked at Galies and hesnated for a moment in a while, go to the hospital and apolog je to turn.”

Galilea’s eyes were deep and she did not refuse

It was very simple to apologize

But if anything happened again, they had better not blame het

This happened in MON, so she had to be restrained by them But if she was in the hospital sorry, it was a public place, and she could be responsible for her actions

Galilea directly walked out with her bag,

“Mr. Hansen, do you feel that her expression just now was very strange? Why was she so obedient?” Anna blinked.

She shouldn't have been.

When Galilea was on a business trip abroad, she often caused trouble, and her attitude was very tough. Why so obedient today?

Anna felt her right eyelid twitch, and she had a very bad feeling.

Hansen, on the other hand, casually reminded her, “Although Qi Xinglang is the young master of the Qi family, his words not only insulted Galilea but also damaged Mr. Lorenzo's reputation. You weigh it up yourself.

Anna was suddenly enlightened. “Yes, yes, yes. Mr. Lorenzo can not be offended!”

Moreover, Galilea had already gone to the hospital to apologize to Qi Xinglang. This matter would end here. Otherwise, if too many people interfered, it would make the matter bigger.

Of course, their idea was to minimize the consequence.

However, the Qi Family did not think so.

Qi Xinglang was sent to the various examination rooms and did a full body examination.

After receiving the report, Mrs. Qi asked the doctor again and again, “My son is not married yet. Are you sure it won't affect his fecundity?”

“He is really fine. You can rest assured.” The doctor smiled helplessly.

However, Mrs. Qi still felt uneasy. As soon as she returned to the ward, she saw Galilea walking over.

She immediately pulled a long face. “People nowadays are really shameless. Why don't you let others say after you're shamelessly sticking to a man?”

These words were clearly meant for Galilea to hear.

Galilea glanced over indifferently, her gaze filled with warning.

“My son has been beaten like this by you, and the examination report hasn't come out yet. We won't let this go.”

At the same time, Qi Xinglang just lay there, not saying a word.

“It doesn't hurt anymore?” Galilea chuckled.

She was asking Qi Xinglang.

Qi Xinglang's eyes, which had always been gloomy, now had a bit of hesitation, because the kick just now was really too painful, and he really felt that he almost fainted.

Chapter 100 She could Apologize He gnashed his teeth, “I didn't expect this to be the Frankie family's upbringing.” To hit people? How could a rich family's daughter do such a thing? No wonder the public had such a bad opinion of Galilea. She was hopeless, and no wonder Micah had abandoned her. “I didn't

expect the Qi family to be so despicable.” She coldly said, “You wanted to borrow my hand to let the Qi Group replace the Lorenzo group’s market. How could you use such a dirty trick?” “If you want to be successful, you can rely on your own brain. Not on women!” When Qi Xinglang was exposed, his face froze. “What? Do you think I’m blind or a fool? When you first came to me, I already told you that I wouldn’t cooperate with you. But you kept looking for trouble with me and even put me in Mr. Yun Xi’s group. Do you really think I don’t know what you are thinking about?” “Qi Xinglang, this is the last time I’m warning you. Get lost, or I’ll castrate you.”

Bang.

After she finished speaking, she slammed the door and left.

Keith was standing at the door. If he had not dodged in time, he would have been discovered by Galilea. He had already asked the doctor about the results of the examination. When he returned, he happened to hear Galilea’s words.

The purpose of the Qi family was the Lorenzo group? Keith immediately called the principal of this private hospital. “Keith, what can I do for you?” a very friendly voice came from the other side.

“Is Qi Xinglang a patient of your hospital?”

“Yes, he just went through the hospitalization procedures today.” Because the Qi family was also a big client, the principal was very clear about it.

However, with the status of the Qi family, he, the principal, did not have to personally come forward. In a private hospital of this level, at most, he could send a director to take a look.

But Micah would be different!
