"Why always you want to oppose me?" He screamed in anger

"Sorry to spoil your mood but please this is not my place"

Manik looked at her with anger but he know she will be stubborn, her blood

shows stubbornness. He hurriedly wrapped her dupatta around her shoulders

picked her and placed her on his one shoulder and with long steps reached

room and thrown her on bed she jumped once by the force. he locked the

door removed lower dress and about to tear her dress she removed her

dupatta took his hand placed it on her boobs to calm him down he instantly

started pressing them hardly she bit her lips in pain and pleasure she

removed the knot of lehenga he lifted her by waist which made her get away

from her clothes. He took her boob in his mouth started sucking it. He made

legs wrap around his waist and started exploring her neck while lifting her

slightly and placing her on his dick which in a moment disappeared into her

pussy she hissed and moaned as he bite her neck then sucked it kissed it

while she is slowly moving up and down on his dick

"This is so good go on keep moving let your tits jump and pussy lips suck my

dick"

Nandini blushed and dogged her face in his chest

He smiled for her shyness and so he played with her earlobe and said "move

stop it and move"

She so he moved he relaxed keeping his hand back neck leaned back "it's so

his bare chest he groaned in pleasure she started giving butterfly kisses on

his neck and started moving little fast "bite me" she nodded no "bite me

Nandini" he said in husky voice she gave a bite while moving little bit faster

"Bite me again hard one" she started kissing him madly and giving hard bites

while jumping very fast she is near her orgasm he too he took her waist and

under him "you are looking most beautiful when you released I will make

sure every time you have your climax" seeing her blushing and shy face

Manik made her sleep on his stomach while playing with her body. He asked

"did they touched you?"

She knew what he is talking about

"They teared my dress with knife"

"As I did on our first night"

"Yes"

"Then why didn't you stop me?"

"I came for you so how can I stop you?"

"Can you say how they look?"

"They are killed then and there"

"If not I would have killed them"

She smiled

"Say something"

"Can I ask you something Yuvaraj"
