

# King of kings 1121-1122

## Chapter 1121

The Fire Demon Beast snorted, "Big Brother Black, please don't talk about my friends like that, they are my friends, especially this one, he is my big brother. It was the one who took me out of that underground in the first place, otherwise, I would have always thought that we were creatures who had lived underground for generations, and I wouldn't have been able to evolve into what my ancestors did."

"Hmph." The jiao snorted coldly, Omi couldn't stand the sight of its arrogant eyes, he really thought he was a dragon, if he was a dragon, the dragon looked at humans with the eyes of a higher species, Omi could still accept it, as if humans looked at animals with the same eyes.

"Black Jiao, if you keep humming and hawing and looking at me with high eyes, don't blame me for hitting you again."

"Yah yah." The Jiao's angry claws danced around.

Omi said to the fire beast, "Little fire, come home with me, everyone's waiting for you."

"Uh-huh."

The jiao was busy shouting, "Hey, hey, little lion, what do you mean? A few days ago, you said you were befriending me, and now you're running away with someone, you're too much of a thing, forget all these years, brother, have I been good to you?"

"Uh, I." Fire Demon Beast hesitated for a while, yeah, Jiao has been pretty good to him all these years."

"Brother Black, but, Brother Chen is my friend, I still want to go with him, it's definitely more fun to go with Brother Chen."

"Yah yah yah, little lion, you're so not something, thanks to Brother Black I used to treat you like this."

"Big Brother Black, I'm sorry." Remember the website .kanshu8.net

At that moment, Omi said, "Hey, Jiao, haven't you had enough of being the king of a bunch of low-level creatures in this Forest of Ten Thousand Beasts?"

"Huh? What do you mean?"

"I mean, you don't even look down on people on our same species level, yet you're here every day being the king of a bunch of lower level creatures, are you interesting you. I'm giving you a chance now, come with me."

"Hahaha, ridiculous, my noble dragon, how can I go with you, a lowly human."

"Forget it then, Little Fire, Thousand Splendors, let's go." Omi said.

Dao: "Brother Chen, you guys can sit on my back."

"No, we came in a flying ship, so you get smaller."

"Good." The Fire Demon Beast immediately shrank to the size of a cat and followed Omi and Mu Qianji, flying into the sky.

That Jiao was incomparably depressed, the Fire Demon Beast was a peer species that he had a hard time meeting, able to speak to, ah, although he boasted of being a dragon, he actually understood that he was only a Jiao, wanting to evolve into a dragon, this was simply a delusion, a step to the top. Now that the Fire Demon Beast had left with Omi, in the future, he would be lonely again, staying with a bunch of low-level creatures every day, it was so boring.

Omi entered the flying ship and immediately opened it to go.

Not long after he left, suddenly, a jiao was chasing after him.

"Uh, the jiao is catching up?" Omi saw the jiao behind him and was alarmed.

However, the speed of the jiao was obviously not as fast as the flying ship, and all of a sudden, the jiao could not be seen.

At this moment, in the distant sky behind, the auger said in frustration, "Alas, I'm left to go again, it's so lonely, I'm so damned, why don't I let go of my pride, in fact, I really want to go with them inside. It's fine now, let the loneliness completely surround me."

In the flying ship, the Fire Demon Beast said, "Brother Chen, let's go backwards, maybe Brother Black is trying to go with us."

Mu Qianji laughed, "This proud augur, surely Little Fire has left without a companion."

Omi took control of the flying ship and reversed back.

At this moment, the jiao was flying back in frustration, and suddenly, Omi's flying ship stopped beside him.

Omi pulled open the hatch and said, "What are we catching up to?"

The jiao was pleasantly surprised and said, "Okay, I lose.

, defeated by my loneliness, you take me away."

"Hahaha, you want to come with me."

"Yes." The augur hung his head and said.

"But don't you think that you are more advanced than us?"

"I, I was just kidding."

Omi said, "If you want to come with me, you can also, later, like Little Fire, call me brother."

"That's impossible, Little Flame is going to call me brother, how can I call you brother again, or I'll call you brother."

"Heh, what are you kidding, call me brother, no way."

Jiao looked like he was embarrassed and said, "But I, after all, am an honorable dragon."

"I pooh, still a dragon ah you, Jiao and dragon, still a hundred thousand miles away, if you really evolved into a dragon, then I call you brother."

"Okay, you said it, then I'll go with you, brother minister."

"Good boy, let's go then."

"But your flying ship is so fast, I can't keep up." Jiao said depressedly.

Omi said, "Let's slow down, you follow slowly behind, or, you lie on top of the flying ship and grab it."

"Good."

"But don't scratch the flying shuttle."

"Understood, brother."

The auger immediately circled around on top of the flying ship.

The flying ship flew away with the augmentation.

However, the speed was obviously down, but it didn't drop too much, by about twenty percent, and Omi wasn't in a hurry anyway.

"Omi, you're amazing, now that the jiao are following you around, there's also a fire beast, they're not ordinary creatures." Mu Qianji said enviously.

"Hehe, if you hang around with me, doesn't that mean you hang around with me, because, you're my wife."

"Go." Mu Qianji blushed with a glare.

"Where are we going now?" Mu Qianji asked.

"The Water Ape Empire."

"What's the point of going to the Water Ape Empire, no matter how powerful the Water Ape is, it's definitely not our opponent, after all, the Water Ape isn't a second level creature, but it's an ape with an incomplete and unsuccessful evolution, no matter what, it's still a first level species." Mu Qianji said.

Omi laughed, "Do you know the five wondrous treasures of the world, the ancient sacred brain? I'm going to get this thing."

"Uh, the Swallowed Sacred Brain, I was planning to take you there to steal it in the first place, the world's five greatest treasures, we have obtained the other four, only this Swallowed Sacred Brain has yet to be obtained. Fine, let's go there then, I don't know what this Swallowed Sacred Brain is and why it's a Swallowed Sacred Brain."

Omi said, "I heard that it's the brain of an ancestor of the Water Ape Clan, a long time ago, because this ancestor was very powerful, he might even be almost at the human level, so after he died, its brain was collected, but whether it still exists today, I don't know about that."

"Then let's take a look, the water ape is after all a species one level lower than humans, but this water ape's ancestor, hardened by cultivation, reached the level of fast human, it's also really powerful, and his brain is indeed considered a treasure."

Omi said, "The top five wondrous treasures in the world is the Swallowed Sacred Brain, don't you think?"

"Mm." Mu Qianji nodded his head in excitement.

Omi asked, "Little Fire, how does your strength compare to Jiao?"

The Fire Demon Beast said, "Brother Chen, I'm not even close to Big Brother Black compared to him, actually Big Brother Black is very powerful, he's already close to the level of the Ancestor Realm."

Omi nodded, it seemed that he defeated Jiao all because of that sword technique, otherwise, like Mu Qianji, he definitely couldn't beat Jiao.

1122

It took half a month for Omi and the others to finally reach the range of the Water Ape Empire.

The Water Ape Empire was one of the strongest beastly places in this world, other than the Ten Thousand Beast Forest.

I heard that the Water Ape Empire, with an old ape, was very powerful, and its fame had spread to many human strongmen.

Omi and the others were standing in the sky, and the Water Ape Empire was underwater.

Omi said, "Let's dash down together and capture the old ape first, then we'll look for the Swift Sacred Brain."

"Good."

"Charge." The four of them rushed into the sea together. Since the Jiao and the Fire Demon Beast were now on the same level as humans at the species level, they were called 'humans' here, no longer beasts.

After rushing into the bottom of the sea, they soon found a submarine kingdom, of course, not a palace at the bottom of the sea, the water ape was always a beast, not comparable to a human, but the water ape had piled up many boulders at the bottom of the sea, like an ant's nest, which was intricate and had passages everywhere.

Jiao's size was too large to enter the water ape's huge nest.

"Little Black, you guard outside, we'll go in."

"Good." A second to remember to read the book

Omi, Mu Qianji, and the Fire Demon Beast, entered the Water Ape's nest. Omi felt that the Water Ape's nest was a bit like the savage tribe of the Liuli Kingdom.

At this time, Omi, the three of them, suddenly felt a spiritual fluctuation in the air, as if saying, "What do the three of you intend to do when you come to my Water Ape Empire." The voice was filled with fury.

Omi's three men stopped, not long after, a rapid shadow flew in, this shadow was very fast and arrived in front of Omi's three men in the blink of an eye.

It was a water ape with white hair, looking very old.

The water ape held a stick made of unknown material in its hand, it looked like this water ape was very good at using sticks, this beast also had no special

martial arts skills, usually just one or two strokes, practiced until death. However, often these one or two moves were practiced for a lifetime, but instead they were endlessly powerful.

"You are the Water Ape Empire, the famous Old Ape." Omi said.

"Hmph, have you come to my place to seek death?" The old ape seemed to sense the strength of Omi's three men and didn't dare to act rashly.

Omi said, "I heard that your Water Ape Empire, has a treasure called the Sacred Brain of the Archaic, I came here today, just to see what it is, don't worry, just to see it."

"Hmph, daring to hit on our holy object, looking for death." The Water Ape grimaced, his IQ was estimated to be at the level of a human fifteen or sixteen years old, low level creatures normally did not have autonomous thinking, but for it to reach such an IQ, it was evident that it had been cultivating for a very long time.

Omi snorted, "You are still not my opponent, besides, none of the three people standing in front of you today are your opponent."

"Three people? Is this beast human too?" The old ape looked at that Fire Demon Beast.

Omi said, "He's different from you low-level beasts, he's a species one level higher than you, on the same level as us humans. Alright, don't talk nonsense, I can sense that your heart is full of scruples."

"Yah yah." The water ape grimaced at Omi's trio.

Omi said, "Thousand Jie, Little Fire, who's up?"

"I'll do it," Mu Qianji said.

At that moment, the old ape pounced, it wanted to gain the initiative and attack first.

Mu Qianji sliced out with his sword, and the volleying waves of Qi suddenly gave the old ape a

Defeat.

With just one sword, Mu Qianji defeated the Water Ape.

Mu Qianji discovered that his Burial Moon Sword was able to exert much more power under water than on the ground, and he didn't know how.

Mu Qianji put his sword against the old ape's neck and said, "Hand over the Swift Sacred Brain, or I'll kill you."

"Yah yah."The old ape kept showing its teeth in anger.

Omi said, "Not only will we kill you, we will destroy the Water Ape Empire."

The old ape's body trembled and let out a cry of sorrow.

The three strong men in front of it were too powerful, it was the number one strongest man in the Water Ape Empire, but it was as weak as an ant before them.

The old ape couldn't believe it, when did humans possess such powerful people?It had the impression, no, the impression of its ancestors, that the strongest of humans had always been weaker than the strongest of beasts.

"How much longer do you have to think about it?Do I really have to exterminate you water apes before you tell me?"Omi.

The Water Ape gave a sad cry and sent out a mental wave, "I can tell you the information about the Swift Sacred Brain, but you won't get it."

"We just want to take a look, tell us, where is the Swift Sacred Brain?"

"Come with me."

Omi followed the old ape and actually left the water ape's nest, and the auger guarding the outside was busy welcoming him, "What's going on?Out?"

Omi asked Old Ape, "Didn't you take us to the Sacred Brain of the Sword?Why are you out?"

The old ape grimaced and sent out a mental wave, "The creature is not in the Water Ape Palace, it's somewhere else."

"Good, you better not play tricks, or else the Water Ape clan won't even know how to destroy you."

"Yah yah."The Water Ape showed its teeth again.

Omi and the others continued to follow the old ape, about half an hour later, they came to the depths of the sea next to a huge boulder, this boulder was so huge that many whales swam by it, in front of this boulder, the whales all felt like small shrimps.

The old ape emitted spiritual fluctuations, "About the holy relic, we have never seen it either, only the clan chief can know that we have been sealed here since ancient times, at the center of this boulder, this boulder is very hard and huge, no

weapon can break it, even if we can break some stones, we can't enter the core of the huge stone. In the past, there have been humans who have beaten the holy relic, our ancestor brought him here and allowed him to knock on it, but in the end, he gave up without success."

Omi looked at the huge and incomparable stone in front of him, and a human standing in front of this huge stone was like a speck of dust.

"How could there be such a large rock at the bottom of the sea." Mu Qianji said.

Omi said to Old Ape, "Old Ape, are you lying to me?"

"I'm not lying to you, about the sacred objects sealed in the center of this stone, our Water Ape Clan, only the past generations of clan leaders know about it."

"Hahaha, what the hell, you're really good at trapping, such a big stone, let's knock on it no matter how hard we knock on it, it can't get to the center, and it's incredibly hard, in fact, there's nothing in it at all, what a good trap." Omi said.

Mu Qianji said, "Omi, do you really think it's lying to us? With the intelligence of a beast, it's not necessarily that cunning."

"I'm not sure, but such a huge rock, already taller than the sea and at least tens of thousands of meters in length and width, knocked to the center? How is this possible, the stone is so hard that it may not be possible to knock it open in a lifetime."
