1453

“Minister, by the way, this is my wish, I too am from another world, though I have no kind in the other world. Brother Chen, let me accompany you, perhaps this is the last time I will travel with you in this life.”

Omi thought about it and nodded, “Okay, then we, brothers, will set out once again, I will now go and take out my wives’ ashes and take them with me on the road.”

“Well, I’ll also go back there and tell my sons.”

Omi arrived at the Royal Cemetery and first came to Xu Mei Qian’s grave.

Omi looked at Xu Mei Qian’s tombstone and felt listless inside, as if it was a world away, various feelings that only he himself could understand.

Omi looked at the tombstone and said, “Mei Qian, it’s been more than a hundred years since we parted, how are you? Until you died, you were thinking about your loved ones on the other side of the world, and today, I can finally drop everything and go with you without worrying about life expectancy. Mei Qian, I’m taking you home.”

Omi took out Xu Mei Qian’s ashes.

Then, Omi came back to Liu Xiangyun’s grave and smiled bitterly, “Xiang’er, how have you been living down there for the past hundred years, I know that before you died, your biggest worry was that I wouldn’t be able to bear the loss of you. Oh, don’t worry now, I’ve succeeded, I’m only a little bit away from returning to my ancestors, your biggest regret, let’s finish it together today.”

Omi also took out Liu Xiangyun’s ashes and put them together with Xu Mei Qian.

Omi then took out the ashes of Li Xuan’er, Shangguan Rou, Qi Xueyun, everyone’s ashes.

Of course, the ashes of those old friends, Omi also did not forget. The first website [m.kanshu8.net](http://m.kanshu8.net)

All of them, their biggest regret was going home.

Soon, Blackie flew to the cemetery.

Omi tied the ashes of all the brothers, and the wives, to his back, then jumped on, "Mei Qian, Xiangyun, Xuan'er, Xue Yun, Zoe, Xiao Meng, Yu'er, Liu Yue, Wang Xing, Yi Jian, let's go."

Little Black immediately flew off into the distance.

Back then, Omi and a group of them had made their way through the world together, coming from another world to this one, and now, they were finally setting off once again.

This time, they would definitely return to their homeland.

In the Imperial City, many powerful people watched Omi go away and disappear deep into the sky, they didn't know what Omi was going to do.

It was only after Omi left that everyone felt the invisible pressure in the air disappear.

Then the discussion raged.

"Shang Hong Holy Ancestor, I don't know what he's going to do, and whether he'll be able to come back."

"Yeah, he's already two hundred and sixty years old, and although he woke up, he must not be able to live much longer at such an old age."

"It shouldn't be long to live."

Yes, everyone didn't know Omi in that much detail, seeing Omi so old, no one believed that he could still live for a long time, Omi didn't explain the situation, no one knew that after the 9th stage of Return to Void was a return to the ancestors, and what characteristics did the return have.

Omi sat on Little Black's back.

This time, all the original partners were all together, only Little Fire was left.

Of course, Omi's teacher's wife, and brothers, Omi did not take them with him, after all, they were originally from this world, and had no regrets before they died, they all went very openly.

"Brother Chen, how are we supposed to find that passage ah?" Little Black asked.

Omi said, "The more dangerous the place is, the more likely it is that there are passages hidden. Now that I think about it, Ghost Valley, it's very possible that

."

"Kiritsugu?"

"Yes. Unfortunately, I didn't think of it in the first place, but even if I had thought of it in the first place, it wouldn't have been possible, because even I almost died there."

"Then aren't you afraid to go now?"

"Oh, fear not." Omi said without hesitation.

The journey was dusty, and a few months later, he arrived at the Ghost Valley of the Great Precious Empire.

The Great Precious Empire naturally had no acquaintances, and the entire world, all the scenery remained the same, only the people had changed one crop after another.

After arriving at the Valley of Ghosts, Omi looked at the foggy and hazy Valley of Ghosts and said, "Little Fire, wait for me outside first, I'll go in first to explore the situation, if there is a passage, you can come back in, if there is no passage, then we'll go to the next place to look for it."

"Good."

Omi flew into the Valley of Ghosts.

Ghost Valley wasn't big, the fog was hazy, but Omi knew that it wasn't a fog, it was a grievance.

It was because Omi had come in contact with this place that Omi believed that there were actually spirits in this world, so Omi brought his partners back to his hometown, their spirits must have known about it.

Omi stood in the Valley of Ghosts, it's strange to say that the illusion here now could no longer affect Omi.

Omi searched for half a day in the Valley of Ghosts, but unfortunately, there was no sign of any passage.

"It seems that I was overthinking, the passage isn't in the Ghost Valley." Omi smiled bitterly.

However, it wasn't possible to find the passage so easily, this Ghost Valley was just the first place they looked for.

After flying out of the Ghost Valley, Omi said, "Little Blackie, let's go, the Ghost Valley doesn't have any traces of a passage."

"Brother Chen, it's okay, we'll look for it again, we'll definitely find a passage."

"Let's go, now go to the next empire and find out if there are any dangerous places."

A few months later, Omi arrived at another empire, called the Zi Yuan Empire.

Omi first entered a restaurant and stayed there, after all, it had been almost a year of running around.

And Little Black stayed in the sky, because he was too big, which was not as good as Little Fire.

"Guest, what would you like to eat?" A second youngster asked.

Omi said, "Whatever, it's good to fill your stomach."

"Okay Le, wait a moment then."

Ever since Omi entered the restaurant, many people in the restaurant looked at Omi and pointed at him.

"You're out to eat even at this old age."

"Yeah, it must be a hundred and fifty years old."

"Maybe he's dying and came out to eat a meal before he dies, or he won't be able to eat later."

Omi listened to all the discussion, but Omi only smiled slightly, not caring about the discussions of these lower class ordinary people, moreover, Omi gathered his whole body and looked like an ordinary old man, and a very old one at that.

When Xiao Er brought the food up, Omi asked, "Zi Yuan Empire, has there been any danger lately?"

"A dangerous place? How dangerous do you mean?"

"As dangerous as it can be."

"Does the valley of ten thousand feet count? This place is a bottomless cliff and no one knows how deep."

"Thanks." Omi nodded to the Valley of Ten Thousand Feet, and Omi would go check it out.

1454

Omi rested at the inn before setting off, asking around all the way to the Valley of Ten Thousand Feet.

After months of traveling, Omi and Little Black finally arrived at the Valley of Ten Thousand Feet.

Ten Thousand zhang valley was a ten thousand zhang cliff, saying that it was ten thousand zhang, but no one actually knew how many zhang because this cliff was too deep and too deep.

“Brother Chen, could this be the passage?”

“I don’t know, we’ll only know if we jump.”

“What if it’s not? Since the locals say that this place has not returned alive even if the strong jumped off, it must not be an ordinary and dangerous place.”

Omi frowned, but his pale face couldn’t tell much difference between a frown and no frown.

In fact, Omi was also wondering, if this place, really wasn’t a passage, then what was the local people saying, that many strong people jumped down and didn’t see back, what was going on?

“Blackie, just to be on the safe side, wait for me on the cliff and I’ll go down alone.”

“Minister.”

“Little Blackie, listen to me, although I’m now at the 9th stage of Return to Void, I may not be able to come up, in case I’m really so unlucky that I can’t come up, I’ll have to ask you to take my partners back to the Great Martial Empire.”

“Brother Chen, don’t say it’s so tragic okay, it’s a little scary, you’re the 9th stage of Return to the Void, I don’t believe there are places in this world that even you can’t handle.”

“It’s hard to say, alright, I’m going down then.”

After saying that, Omi jumped off the cliff.

Why exactly, this place couldn’t even come up if a strong person jumped off, Omi wanted to find out, or maybe, this really was a passage.

Omi’s body was falling rapidly, and the wind was blowing in his ears.

However, although Omi was falling very fast, the speed of everything was completely under his control, he could freeze his body at any time if he wanted to, if it were anyone else, even a strong person of stage one or two of Return to Void, he might not be able to do it, but Omi returned to the ninth stage of Void, but he was easily able to do it.

A few hours later, Omi has fallen at least tens of thousands of meters, but, still deep and bottomless, and also the fog, around more and more hazy, and the bottom of the cliff, that is completely hidden in the fog, can not be seen at all. The unknown is the most fearful, Omi can not figure out the state of the bottom of the cliff, also dare not relax vigilance.

The fog was already so thick that you couldn't see your fingers.

Omi stopped, seemingly hesitating whether to continue to fall or not, after all, he had been falling for more than half a day, his purpose was to find a passage, not to explore, and if he was sure that it was not a passage, then there was no need to continue.

However, after hesitating for a moment, Omi continued to fall, forget it, since he had already fallen so deep, why not continue.

With that, Omi continued to fall in the dense fog that was out of reach.

"Swoosh." Just at this moment, a shadow suddenly shot out from the cliff rock wall, it was as fast as lightning, even a Returning Void Stage 1 powerhouse might not be able to dodge it.

However, Omi was no ordinary person, he was a Returning Void Stage 9. When the thing shot out at him, Omi quickly reached out his hand, faster than it was, and grabbed it in one go.

When Omi looked at it, it was a flower, pink, somewhat like a petunia after being magnified ten times.

"A flower?" Confused by the flowers grasped in his hands, Omi

Break that flower open, and inside the stamen, there were teeth.

"Eh? Man-eating flowers?" Omi was even more shocked.

No wonder the locals said that even if a strong man came down, he wouldn't see up there, in this fog that couldn't be reached, a flower this powerful would bite out, even a strong man of the first stage of Return to Void would have to be eaten.

Omi secretly said, "Such a powerful man-eating flower, it must not be an ordinary flower, it must be a spirit grass, I never thought that I would catch another spirit grass."

Omi plucked the man-eating flower with a sudden force.

Omi put the man-eating flower away and continued to fall, hoping there were more man-eating flowers.

However, Omi also knew that this possibility was very low, the probability of more than two spirit grasses appearing in one place was very small.

Everything in the world had a spirit, even plants, it was able to evolve just like humans. This spirit grass, presumably countless years ago, was a kind of genius land treasure, then his ancestor had a spirit, then the genes became 'spirit', so the children and grandchildren of this spirit grass were all spirit grasses.

This kind of example is very simple: a dragon begets a dragon, a phoenix begets a phoenix, and a rat begets a son who can make a hole. The son born of a dragon would naturally not turn into a snake and would still be a dragon.

Omi continued to fall for a short time, and finally, he reached the valley bottom of the cliff.

Omi landed at the bottom of the valley, which was a large rock.

And it wasn't very large, about a few thousand square feet.

"Nothing? Is that it?" Omi was speechless.

Omi searched carefully at the bottom of the valley to make sure there were none before he was ready to leave.

However, Omi suddenly discovered that just as he was trying to make an effort to fly upwards, he felt an invisible pressure in the air against you, pressing down on him and forbidding him to go up.

"Strange? Why is there an invisible pressure on me not to get on?"

At this moment, Omi felt a sense of crisis coming from the direction of his head.

"Swoosh." Omi drew his sword at once.

"What is it? I've reached the 9th stage of Return to Void and I can still feel this kind of threat, this must be a strong person, could it be that there are some powerful creatures surviving beneath this ten thousand foot cliff? That oppressive force just now was from it too?"

"Whew!" Omi exhaled deeply, the feeling that was like the sky falling down was even stronger, Omi really didn't expect that in this world, he had reached the 9th stage of Return to Void, but there would still be an existence that made him feel terrifying.

Fortunately, he didn't come here when Omi was weak in the past, or else he would have come here when he was weak in the past, then he would surely be like the locals who said that there was no return.

Just at this moment, a huge head stuck down from above.

Omi gazed at it, it was a terrifying creature that looked very evil, like an earthworm, writhing one section at a time, and at the very end, a mouth full of fangs, and, only the mouth, no other eyes nose or anything else.

The ugly creature made a sound that said, "Put my sister down."

"Your sister?" Omi was a little confused, but immediately remembered, its sister wouldn't be this man-eating flower on Omi, right?

Omi snorted, "What kind of species are you, this ugly creature, that can make me feel threatened, I thought that there was no longer anything in this world that made me afraid."
