

King of kings 1487

1487

When Omi heard the shouting, he laughed, "It's been two hours before I found out, what a fool, I deserved to be stolen."

Outside, Tang Jingtian shouted, "Omi, don't sleep, get up."

Omi pretended to be sleepy and said, "Fifth Uncle, what is it? It's so noisy, let's not have a pleasant sleep."

"Don't sleep, something big has happened, the Tang family ledger warehouse was stolen."

"Theft it is, what's it to do with me, I don't even get a single microspirit pill, I deserve it." Omi said.

"Omi, don't say such words out, alright, hurry up and gather out."

Omi didn't say anything else, took off his jacket and deliberately went out in his pajamas, making it look like he was hastily climbing up in his bed.

Omi wasn't worried about anyone suspecting him anyway, as he was merely a 12 year old boy in appearance, who would have thought that he was capable of so much.

Omi arrived at the square outside the Tang Family Hall.

When Omi arrived, almost everyone was there.

The master of the Tang family looked at Omi who had arrived late and in his pajamas and shouted in anger, "I told you to assemble quickly, why are you only here now." Remember the website .kanshu8.net

Don said, "I slept too much."

"Don't come stand still."

Omi grunted in his heart and stood in a large group.

The Tang family head said, "Just one hour ago (Note: one hour equals two hours), the Tang family's accounts warehouse was stolen and all the spirit stones were removed."

The crowd was in a frenzy, although they already knew about it, hearing the family head say it with their own ears was another story.

Omi, however, had a slight rise in the corners of his mouth.

The Tang family head followed, "Everyone, listen up, the one who stole the spirit stones must not be an outsider, it must be someone within this family."

"Wow." Once this statement was made, the whole place once again turned over in shock, it was a family thief.

Omi said in his heart, he really had some eyesight, but he knew it was a family thief.

"A total of over a hundred spirit stones, no matter who stole them, they couldn't have been refined in such a short period of time, so the stones must still be hidden within the family. Until it's investigated, everyone is under suspicion, and no one is allowed to leave this place and keep waiting here until it's found."

"How long would that take, in the middle of the night." A man said.

"No matter how long it takes, stand here and don't leave one step. Now, I advise all of you, if anyone knows of a clue, please come out and report it immediately, or, whoever stole the spirit stone, come out and admit it voluntarily, you can be lightly sentenced to fly, otherwise, once it's traced out, the family law will be dealt with."

There was much discussion.

After a while, the bookkeeper's steward said, "Master, I don't know if it counts as a clue, but in these three days, the ninth elder brought back Omi, he has been relying on the bookkeeper every day."

"Omi?" The head of the family focused his gaze on Omi.

Omi snorted, "Did you think I stole it?"

That steward said, "I didn't say that you stole it, I was just reporting this to you, you did indeed rogue in the accounts room for three days."

The head of the family snapped loudly, "Say, why did you spend three days languishing in the accounts room, and what are your intentions?"

Omi said, "The accountant owes me a Micro Spiritual Pill, I'm relying on the accountant, but I want them to give me the Micro Spiritual Pill I deserve."

The head of the family looked at the Ninth Elder and said, "Ninth Elder, I won't listen to what Omi says, I only ask you if you are

What do I have to answer to? Say, did you instruct Omi to rely on the accountant?"

Tang Jingtian said, "Master, what do you mean by that? If you think I've stolen the spirit stone, you can go to my house and search it, otherwise, don't spill blood."

"Tang Jing Tian, Omi is a child, he wouldn't rely on the accounts room for no reason, someone must have ordered him to do something, you still don't tell the truth." The family head yelled.

Tang Jing Tian also burst into a rage, "Tang Hu Lai, I know you've always been displeased with me, if you're intent on framing me, please don't make so many excuses, I even think now that you were the one who was overseeing the theft, and ended up planting the charges on me so that I could be the scapegoat while you fish for profit."

"Bang." Suddenly, the Tang Family Master's sleeve stretched out and a shadow flew out, banging Tang Jing Tian a few dozen meters away.

"Poof." The Tang Family Master landed on the ground and spat out a mouthful of blood heavily.

"Ah, Fifth Uncle." Omi was busy rushing up.

Tang Hu Lai said, "Tang Jing Tian, if you say another word of nonsense, don't blame me for not speaking about fellow clan love, I will investigate this matter, and if I am allowed to investigate and find out that it really has something to do with you, I will definitely exterminate my family."

"You!" Tang Jingtian covered his chest and looked at his master furiously.

Omi helped Tang Jingtian up and also looked at Tang Hu Lai with anger.

Omi was a bit apologetic inside, not expecting to get his fifth uncle involved.

However, Omi swore that one day, he would blow up Tang Hu Lai.

"Someone, immediately take the entire Tang family, up and down, anywhere, even if you dig three feet into the ground, you must find the hidden spirit stones, the spirit stones must still be within the Tang family, because, no one in the Tang family can escape my senses, if anyone leaves the Tang family, they will definitely alert me."

"Yes."

The following day, until noon the next day, the entire Tang family rummaged through the boxes and dug through the floor.

Unfortunately, it was destined to be futile, and after a night plus a morning of tossing and turning, nothing was found.

“Reporting to the master of the house, no clues of spirit stones have been found.”

“Impossible, there must be somewhere you haven’t found it.”Tang Hu Lai yelled.

“Master, the Tang family has been up and down, any place has been turned over, and there really isn’t any trace of a spirit stone.”

Suddenly, Tang Hu Lai laughed, “Good, this means that the spirit stones are not hidden in the Tang Family, but in someone’s storage bag, hahaha.”

It turned out that the reason why the Tang family dug into the ground was to rule out one item first, if the digging didn’t reveal anything, it meant that it was hidden in someone’s body’s storage bag.

“Everyone here, listen up, immediately bring out all the storage bags on your bodies and check them one by one, if anyone doesn’t cooperate, it means that the spirit stone must have been stolen by him.”

Although there were many complaints, everyone had no choice but to take out their storage bags in order not to be suspected.

Tang Hu came to inspect them one by one, pouring out everything in the storage bags.

The result was, again, futile.

“Impossible.”Tang Hu Lai shouted in anger.

“Master, could it be that the one who came to steal the spirit stones is a far more powerful immortal than you?Now that the entire family has searched and found nothing, there’s only one possibility ah.”The second elder said.

Tang Hu Lai’s face was green and blue.

“Ahhhh.”Tang Hu Laie yelled three times.

Only after a long time did Tang Hu Lai announce the dissolution, seemingly forced to accept that the spirit stones were stolen by immortal cultivators more powerful than him.
