

King of kings

1584

Nong Xiao Tian said, "Right, if there is anything that needs to be done, just tell me what to do. Right, Young Minister, the day before yesterday you humiliated Elder Shejun in public, did he seek revenge on you ah?"

"That ugly bastard Shejun, although he didn't do it himself, he sent his disciples to trouble me."

"Ah, so what now? His disciple Yang Qian, but he's a genius, he's already opened the seventh stage of light, are you alright?" Nong Xiaotian was busy asking.

Omi said disdainfully, "Just that Shejun is worthy of fighting me, and those disciples of his have been eating shit in a latrine for two days now."

"What? Minister Young, I don't understand." Nong Xiao Tian and his son were a bit unresponsive.

Omi said, "I threw them into the latrine, come on, I'm still eating, cut the nasty talk."

"Yes yes yes."

Nong Xiaotian and his sons were busy giving Omi food, in his heart, ministering young is ministering young, She Jun elder six disciples, all of them threw them into the latrine pit for ministering young.

Nong Xiaotian said, "Minister young, if Elder Shejun knew about this, he would definitely be furious ah, after all, all six of his disciples are in the latrine pit, he can't hang his face."

Omi said, "Can't hang on to face can go to hell."

"Uh, then he'll definitely come after you," Nong Lingsheng said. One second to remember to read the book

Omi threw a bone he was eating in his hand and said impatiently, "These flies are really annoying, let's say, Tsunami, I'll leave this matter to you, don't let that ugly pervert from Shejun disturb my peace and quiet."

"Good." Nong Xiaotian nodded, to high climb a big family, offending Shejun was nothing.

Just at this moment, a voice sounded from the doorway, "Yo, make Xiaotian, in treat na."

Before the voice finished, a Spiritual Harmony Stage elder walked in, this elder didn't even notice Nong Xiaotian when he came in, indicating that he was more powerful than Nong Xiaotian.

Sure enough, when Nong Tsuntian looked up, his face changed slightly.

Nong Xiaotian scrambled to his feet and paid his respects, "Xiaotian pays his respects to Elder Ping."

"Nong Xiaotian, there's no need to be polite, by the way, who are you inviting to dinner, making it so sumptuous." That man called Elder Ping walked into the hall and said.

At this moment, Tang Huan was moving Omi with his shoes under the table.

Omi seemed to understand what Tang Huan meant, that is, the sudden arrival of an elder with a higher strength than Nong Tsuntian was afraid that he would be dismantled.

Indeed, it would be easy to be dismantled.

Omi was also a bit nervous, if he was debunked, then the result could be imagined, Omi shuddered.

Nong Xiao Tian was busy saying, "Elder Ping, I am entertaining a little kid, where is Omi."

At that moment, that Elder Ping suddenly shot his gaze towards Omi.

Omi was still holding a chicken leg in his hand, eating with an empty eye, acting like he didn't take any elders seriously at all.

It really wasn't that Omi was trying to be arrogant, but that Omi had to act like he came from a huge immortal family, and it would be incredible if Omi was respectful to this Elder Ping.

Elder Ping said, "Nong Xiaotian, you're not mistaken, a teenage boy and you're feasting him so sumptuously? And with such an arrogant stance, I'm here and won't even lift my head."

Nong Xiaotian was about to say something when Omi put down his chicken leg and said, "A mere third stage of the Spiritual Harmony Stage, even if you want me to look up to you, you're not too proud of yourself."

That Ping elder was startled when he saw Omi speak so arrogantly as soon as he spoke out.

&n

bsp;Nong Xiaotian could only laugh bitterly and said to Elder Ping, "Elder Ping, you bear with me a little more."

Nong Xiaotian was not good enough to persuade, one was a mid-level elder of the Flying Cloud Sect, his patron, and the other was a young master from a powerful cultivation family, what did he say.

Elder Ping snorted coldly, "What an arrogant brat, even a mere third stage of Spiritual Harmony would dare to say it."

Omi said, "Isn't it true, this Elder Ping, I have no grudge against you, I advise you not to get into a feud with me over this, otherwise, I don't mind taking care of you one more time."

"Ha." Elder Ping gave a cold cry, but the fact that Omi was so mad like this instead made Elder Ping rethink. "This brat, how dare he speak to me like this? In the face of my pressure, he was not even the slightest bit fearful, even if others were, their hairs would have already stood cold. Could it be that this kid has some kind of origin? Even Nong Xiaotian invited him to dinner so sumptuously." Elder Ping couldn't help but look at Nong Xiaotian.

Nong Xiaotian was now, busy giving Elder Ping a wink.

Elder Ping saw that Nong Xiaotian was making eyes at him, and his inner doubts became even stronger.

Elder Ping said, "Nong Xiaotian, since you have a guest, I'll leave first and come back another day."

Nong Xiaotian busily said, "Elder Ping, I'll see you off."

Thus, Nong Xiaotian sent Elder Ping out of the gate.

As soon as he left the gate, Elder Ping asked, "Nong Xiaotian, what do you mean you just gave me a wink? What's the story of that Omi? How arrogant, and advising me that I better not offend him or I don't mind taking care of me." Elder Ping said with an unhappy face.

Nong Xiao Tian was busy saying, "Elder Ping, I'm giving you a wink just to tell you to stop saying that. If you really offend Young Minister, the consequences will be troublesome."

"Nong Xiaotian, what exactly is his origin?"

"I don't know what exactly, but anyway, he's definitely a big deal."

"What makes you think he's a big deal? With a little arrogance in his tone?"

"Elder Ping, do you think I would be so stupid. Previously, my son Nong Lingsheng had a conflict with him, and Omi could have cleaned up my son with such a low realm, and anytime he took it, it was a stack of talismans, and his stack of talismans were all very high grade and lasted up to ten seconds. Also, haven't you noticed that as soon as he sees you, he says your realm? With his realm, how could he see your realm."

"Didn't you tell him that?"

"Elder Ping, well how could I tell him about you, it's because, Omi has seen too many Spiritual Harmony Stage Immortal cultivators since he was a child, so he guessed it right away, and I also heard him say that there are all the YuanYing stage ones protecting him in secret, and when he blows his whistle, he'll appear."

"YuanYing stage ones are secretly protecting him? Hmph, I don't believe it."

"Elder Ping, I'd rather believe it than not believe it ah, by the way, he also raised a young dragon, tell me, how can an ordinary person raise a dragon."

Elder Ping snorted, "Maybe it's just a dragon he picked up, Nong Xiaotian, I thought that you were making eyes at me because you knew his exact origin, but I didn't expect that it was all your guess."

Elder Ping looked furious, causing him to just quickly withdraw, just in case he really ran into someone he couldn't afford to offend, and as a result, all he? Nong Xiaotian guessed, with no half of the substantive information.

"I." Nong Xiaotian also momentarily stammered, and was reprimanded by Elder Ping with this reprimand, but also could not help but think, could it really be that I guessed? However, Omi's substantial information was really not half of it.

Elder Ping snorted, "I'm going back to find him, I don't believe it, he's really from some big immortal family."

"Ping." Nong Xiao Tian was about to say something when Elder Ping had already disappeared.
