"Alas, Elder Ping, I also want to put in a good word for you, but if you anger Minister Shao, won't that even get me into trouble, I've had a hard time getting to this point in my relationship with Minister Shao. Besides, I've already warned you, you're the one who doesn't believe in it."

"Nong Xiaotian, then at least give me a solution, how about I send spirit stones to Omi to make amends?" Elder Ping said.

Nong Xiaotian snorted, "Spiritual Stone Compensation? Do you think that someone of Omi's level would lack spirit stones?"

"Ah, what about that." Elder Ping was in a hurry, Nong Xiao Tian was somewhat reasonable.

"There's no way out, what's a treasure in our eyes is just a very ordinary thing in Minister Young's eyes, if you want to take something to make amends, I'm afraid if you take out your most precious thing, people will think you're not sincere enough. Elder Ping, go back and think about it first, tomorrow we'll work together to figure out what to do, minister young just didn't take care of you, that means there's still a chance for a change."

"Woo." Elder Ping walked away with a sad face, should have known, tonight killed not to come to Nong Xiaotian, and ended up in this kind of bad luck.

Omi walked out of Nong Xiaotian's mansion.

Tang Huan looked behind him from time to time, fearing that that Elder Ping would follow, but in the end, Tang Huan was only slightly relieved when he walked very far away and Elder Ping didn't follow him.

Finally, Omi returned to the Light Cloud Alliance.

Lu Yuxi didn't say anything all the way back, and once she returned, she entered her room.

Not long after, there was a knock on the door, Lu Yuxi opened the door and saw that it was Omi.

"What for?"

Walking into Lu Yuxi's room, Omi asked, "What did you say to Elder Ping when you left just now at Nong Tsuntian's residence? What else did you show him?"

"I just showed him my family token, and when he found out that my family token was real, Elder Ping's face went white. Omi, Elder Ping is convinced of you at this moment."

"Lu Yuxi, why did you help me convince him?" Don Omi asked.

"Isn't it bad enough that I help you?"

"I don't need your help at all," Omi said.

Lu Yuxi looked at Omi for several seconds and said, "Omi, answer me honestly."

"Say."

"Are you really from some powerful immortal cultivation family or not?"

"Do you doubt me?"

"Can't even I tell the truth, Don Omi?! I've just taken out my family token, but I'm actually afraid that Elder Ping still has doubts about you, which means that I'm sincere in my kindness to you. Couldn't you be more sincere with me and tell me the truth."

"Lu Yuxi, early tomorrow morning, you come with me to a place."

"What place?"

"Testing Tower, didn't you say earlier that you wanted to see what my talent score was, exactly? Tomorrow, I'll let you know."

"Well, I'd like to know if you're really a genius, too."

"Go to bed early." Omi turned around and left.

Lu Yuxi pursed her lips and closed the door, saying in her heart, "Little bastard, even I have to hide it, acting like you're so crazy, are you from the Great Immortal Family or not."

It had to be said that Lu Yuxi had done Omi a great favor by taking out his family token tonight, convincing Elder Ping of this and causing him to lose sleep overnight.

Early the next morning, Omi and Lu Yuxi left the Light Cloud Alliance and headed to the Inspection Tower.

On one of the floors of the Inspection Tower, there was a talent sensing stone.

Omi and Lu Yuxi went directly to this floor of the Talent Sensing Stone.

It just so happened that very few people usually came here, after all, talent sensing stones were rarely tested, and so early.

Omi said, "Lu Yuxi, open your eyes and see clearly, I'll measure it for you now."

"Fine, you measure it, I'd like to see if your talent score is really over 1000."

Omi said, "I purposely brought you here to prove it, if I prove it, do you want to pay something, otherwise why would I be so bored to measure it for you."

"What price do you want me to pay?"

Omi looked at Lu Yuxi's increasingly wonderful body and said, "If my talent score exceeds 1000, you will sleep with me tonight."

Lv Yuxi blushed and huffed, "At a young age, what not to learn."

"That's all I want, what."

Lv Yu Xi snorted, "How old are you, even if I sleep with you, will you do adult things?" Lu Yuxi that morning saw Omi pee into the mouth of Lie Yueye, Omi's younger brother looked like he was still young.

Omi said: "I didn't say I wanted to do anything with you, I simply asked you to accompany me, do you accept or not."

"Hmph, little brat, just accompany me." Lu Yuxi snorted with a red face.

Only then did Omi press his hand on the Talent Sensing Stone.

This time, Omi surged his entire body's Immortal Qi onto the surface, and Omi himself wanted to know how strong his talent was for possessing a spirit body with Immortal Qi.

Lu Yuxi looked incredulously at the brightness of the induction stone, then cast her eyes to the reference table beside her.

The brightness was mentioning all the time.

200, 500, 800, 1000. only all of a sudden, the brightness mentioned the reference table's figure of 1000, and the color also changed.

Lu Yuxi was shocked, not expecting that Omi's talent really had 1000, no, more than 1000, because the brightness was still enhancing.

1200, 1600, 2000, 2500, 3000, 4000, 5000.

"Ah." Lu Yuxi was shocked, the highest value of the talent sensing stone was 5000, Omi had actually capped it.

In other words, Omi's talent, the sensing stone was simply not enough to measure.

Omi let go of his hand and hummed, "What kind of broken stone, not enough for me to measure."

Lu Yuxi was now, looking at Omi dead in the face.

"Why are you looking at me like that, now believe it, my talent, not to mention 1000, capping 5000 is not enough for me to measure." Omi didn't know in the slightest how shocked he was by this data.

Only then did Lu Yuxi said in shock, "Omi, do you know that in the history of our spirit world since ancient times, the highest value ever recorded was only 3800."

"Uh," Omi was shocked, sis, the highest value since ancient times is only 3800, then wouldn't Omi be.

Lu Yuxi added, "Those who can exceed 1000 can't even find one in the Four Seas, those who exceed 2000 have not been found for hundreds of years, and those who exceed 3000 have been counted on two hands since ancient times. Omi, you actually reached 5000, gosh, that's really impossible."

"Why is it impossible?"

“Because, the ones I just mentioned that tested over 3000 were almost always measured after they reached a very strong realm, and you’re only at the Enlightenment stage now, and you’re measuring such values. Omi, do you have something extraordinary on you? Like a very strong magic treasure, so that’s why the sensory stone is judged so highly?” Lu Yu Xi asked.

“What if I say no?”
