"If not, you can't possibly measure such a high score, because the talent sensing stone, can't sense so far, the weaker the test, the lower the value, the talent sensing stone is an assessment of your future potential, when still very weak, the talent sensing stone can't sense so far. No matter how talented a person is, when they're still weak, they won't be able to score this high. Omi, you definitely have a secret on you." Lu Yuxi said.

Omi snorted, "Lv Yuxi, your vision is too short-sighted and your insight is too little. Do I have to tell you that the value of my talent that is so strong is related to my bloodline?"

"What? Bloodline." At that moment, Lu Yuxi's body shook, as if she had thought of something.

Omi was just making up words, could it be that there was really some kind of correspondence on it?

Lu Yu Xi asked in shock, "Omi, you're not, like, a celestial, are you?"

"Huh." Omi just snorted.

"Oh my god, are you really a celestial? Legend has it that the Celestials possess a half-spirit, half-immortal physique, only the Celestials can test that high."

"Alright, Lu Yuxi, it's for your own good to ponder less about my origins."

"Yes, minister young." Lu Yuxi nodded her head obediently, right now, she no longer had any doubts about Omi and worshipped him, because, the Celestial Race was simply unimaginable.

It was just a pity that Omi had nothing to do with the celestial race fart.

Omi said to Lu Yuxi, "Regarding the matter of my bloodline, you should chew less." One second to remember to read the book

"Okay, I won't." Lv Yuxi was busy assuring.

Lv Yuxi thought that Omi was low-key and didn't want to take such a high status out to scare people to death, little did she know that Omi didn't let her talk nonsense because he wasn't any celestial race at all, and talking nonsense everywhere, in case the real celestial race knew about it, it wouldn't put Omi out of business.

Looking at Lu Yuxi's shocked appearance, I'm sure the Celestial Race, extraordinary, in front of this level, Omi should just keep a low profile.

After that, Omi came to the first floor of the inspection tower, and at this moment, there were already people coming to inspect it, wanting to refresh the ranking.

The elder of the inspection tower asked Omi, "Are you here to inspect? You are in the First Order of Open Light, and after you test, your name will be ranked in this column of the First Order of Open Light, and as long as you can enter the top 100 of the First Order of Open Light, you will have great fame in the Flying Cloud Sect."

Omi ohmed.

Lu Yuxi busily said, "Young Minister, test it quickly."

"How do I test it?"

The elder of the inspection tower said, "There is a puppet martial stage inside, you only need to put out your full strength to defeat the puppet, and the puppet will be able to draw your combat power. Of course, the combat power here is only your own combat power, and does not include taking pills, or using aids such as spirit talismans."

"Understood, I'll give it a try then." Omi said with his sleeves rolled up.

Thus, Omi immediately entered the Puppet Martial Stage.

There was already a puppet standing on the Puppet Martial Stage, and the puppet was black and strange.

The elder of the inspection tower said, "Just put out your full strength, don't worry, the puppet will put out the strength according to your strength, it won't kill you, of course, injuries are inevitable."

At that moment, the puppet rushed towards Omi.

Omi hadn't refined any higher level martial skills recently, so Omi still used the outer disciple's Heavenly Thunder Fist.

"Boom." Omi struck the Heavenly Thunder Fist to kill the puppet.

The puppet suddenly killed Omi with even more power.

Omi was shocked and didn't dare to hold back at all, the puppet seemed to be deliberately stimulating Omi's strongest strength.

The speed of the puppet was so fast that Omi was almost as if he couldn't react.

Omi subconsciously turned on his Life Blood Hidden state, and suddenly, the puppet's speed in Omi's eyes slowed down just as much.

Omi suddenly turned sideways on the ground, avoiding the puppet's move, while at the same time, Omi attempted to grab the puppet's arm and knock the puppet down.

However, what Omi didn't expect was that the puppet, seeing that Omi had dodged his strike, came up with an even stronger force.

Each time the puppet took out a higher strength based on the opponent's strength and was always on the stronger side.

Omi's attempt to twist Guilt's arm was foiled, as the puppet suddenly killed Omi's neck with an elbow strike move.

Omi's first time fighting such a strong puppet was a real scare, luckily the guilt didn't kill anyone, otherwise it was finished.

Omi turned on his Life Blood Hidden state, once again, he couldn't be a puppet opponent, and Omi, there was no more strength, unless, Omi cast the Shura First Blade, but now he didn't have a blade in his hand, or, Omi canceled the hidden realm. Omi's combat strength just now was all based on the first stage of opening light.

"Bang." In the next second, Omi flew out of the Puppet Martial Stage.

Omi felt like his neck was going to be broken.

"Omi, how are you." Lu Yuxi was busy pouncing on him.

"Damn, this puppet is too strong."

The Inspection Elder came up and smiled, "The puppet will instantly increase its strength based on the strength of the opponent, so anyone who fights against the puppet will lose, unless the opponent's strength exceeds the puppet's maximum combat value. What is your name?"

"My name is Omi."

"Omi, huh, congratulations." Elder Test said.

"Congratulate me even though I lost."

"I'm congratulating you because, the Feiyun Sect Earth Ranking, the first place on the Open Light First Ranking List, has changed, yes, Omi, your first time on the Puppet Martial Stage Inspection, you tested your strength enough to become the first place."

"Hehe." Omi didn't have any doubts at all, after all, Omi's true realm was the eighth stage of Open Light, and now that he had taken first place in the first stage of Open Light, what was there to be proud of?

"What? You're not excited at all?" The Inspection Elder saw Omi's calm face and couldn't help but ask.

Omi snorted, "What's there to be excited about, it's just a first place in the first rank of Open Light."

"Damn." The Inspection Elder couldn't help but explode, never seen such a person before, could it be, Omi didn't know what first place meant?

"Don Omi, do you not know what first place, means? Is that why you're not excited? Okay, so I'll popularize it with you, and you'll get excited when you hear it."

"Say."

"Omi, the fact that you are now number one in the First Order of Enlightenment means that you are number one in strength among all the disciples of the First Order of Enlightenment in the Flying Cloud Sect; it also means that when you advance to the Second, Third, Fourth, or Fifth Order of Enlightenment, you will still most likely be number one, or in the top few. What does this mean? This means that your battle talent is ranked among the best in the entire Flying Cloud Sect, no matter what realm you are in. For example, if a ninth stage of Enlightenment is standing in front of you, this ninth stage of Enlightenment is ranked 100th in the Earth Ranking, and you, although your realm is lower than his, you are more brilliant than him, and others respect you more, do you understand this concept?"

Omi trailed off, "Is that it? Does this turn me on? You're thinking too low about my excitement."
