

King of kings

Chapter 1591

Omi picked up the flying sword and then tried it in front of Elder Ping.

Omi used his body's Immortal Qi to urge it.

The flying sword was prompted by Omi, and Omi leapt to stand on the flying sword.

"Rise."The flying sword suddenly carried Omi floating to the roof.

"Ah."Elder Ping was shocked, how could Omi drive the flying sword?

"Min-san, how are you?"Elder Ping was shocked and asked.

Omi snorted, "Is it to ask how I can drive a flying sword?"

"Yes, young minister you are only at the first stage of opening light, how can you drive flying swords, flying swords and other magic treasures must be at least above the realm of Spiritual Harmony before you can urge them ah."

Omi said, "A frog at the bottom of a well is a frog at the bottom of a well."

"Uh."Elder Ping saw Omi address him as the Frog at the Bottom of the Well and was startled, Young Minister was really not giving face at all ah, calling someone a Frog at the Bottom of the Well to his face.

Omi said, "Elder Ping, don't treat the world, there are still too many things you don't know about this world, understand?The sky you've seen is only as big as the wellhead, follow me from now on and do well, do you hear me." First URL m.kanshu8.net

"Yes, Minister Shao."Elder Ping nodded his head in excitement, he doubted if he had heard correctly, Minister Shao said, follow him and mix well?Are you trying to take him in?

The Tang Huan on the ground was really speechless, her younger brother was too good at pretending, pretending that even she was about to think it was real.

Elder Ping was now seeing Omi, who could drive a flying sword at the District Light Opening Realm, and was completely convinced of Omi inside.In other people's shoes, who would have such skills, this shows that young minister really has a great history ah.

Omi waved his hand, "Alright, Elder Ping, you can leave now."

Elder Ping, however, was reluctant to leave like that.

"What?Still not leaving, do you want me to slap you again?"

"No, no, no, Min-san, didn't you just say that you wanted me to follow you?"

Omi said, "You think I'm going to break my word? Don't worry, since I said that I'll let you follow me, I'll naturally take it seriously."

Omi fell from mid-air, then picked a leaf, Omi used his Immortal Qi and made a spiritual imprint on the leaf, then handed it to Elder Ping.

"Young Minister, what is this leaf?"

Omi said, "This is a magic treasure I casually made, I only need to blow a whistle and this leaf will tremble, if anything happens in the future, I'll use this to notify you."

"Ah, Young Minister, you can refine magic treasures at such a young age? And it's still a mind magic, it's a magical ability only for strong people above the YuanYing stage." Elder Ping said in great shock.

Omi snorted, "Do I have to tell you that the YuanYing stage is an ass in front of me? Get out yet."

"Yes yes yes." Elder Ping panicked and left, Omi had become a god-like figure in his heart. Driving flying swords again, refining magic treasures at will, gosh, this was simply no one else.

Tang Huan was also full of doubts at the moment, how did his younger brother suddenly become so powerful, not only driving flying swords, but also refining magic treasures.

As for Lu Yuxi, at the moment, she had already worshipped Omi to no one else, her two eyes were shining with that idiotic light, her eyes seemed to be saying: minister Shuai, there is no one else in the world. Lv Yuxi was deeply honored to have accompanied her to sleep last night.

Omi waved his hand and let Lv Yuxi go out first.

Lv Yuxi busily turned around and walked out of the back hall.

Tang Huan was busy saying, "Brother, what's going on? Why would you?"

To drive a flying sword?"

"Oh, it's just a flying sword, what's so hard about driving it."

"Brother, they don't know the details of you, but I know, and I still don't tell my sister, also, what's up with that leaf you just had."

Omi had a headache, Omi couldn't say that he had the Nine Demons' Immortal Qi in his body, driving the flying sword and faithfully refining the magic weapon were all due to Immortal Qi.

"Sister, it's because, I have a secret method."

"Again, it's a secret method, you were refining spirit stones so quickly before."

"Of course, you can call me a secret method minister from now on."

"Speechless." Tang Huan puffed out a laugh.

Omi arrived alone in a forest behind the Flying Cloud Sect.

Omi wanted to try out his flying sword.

"Up." Omi stood on his flying sword and it floated.

Omi was like a person learning to ride a bicycle, slowly testing how to flexibly test this flying sword.

After getting familiar with it for half a day, Omi could already use the flying sword with ease and comfort.

"Swoosh." The flying sword flew in the sky at an extremely fast speed.

"Haha, I can use the flying sword when I travel in the future." Omi was happy inside, in the spirit world, it was difficult to fly without the help of external objects, unlike the mortal world, where one could fly in mid-air, the spirit world had a different air density and everything.

Omi drove his flying sword and soon arrived at the True Beast Forest.

Omi didn't know how far into the True Beast Forest, in short, many beasts above open light.

Omi was in mid-air, controlling the flying sword.

"Boom." The ground cut out a trench hundreds of meters long, like a trench, and dozens of magical beasts were beheaded by Omi to ashes.

Omi said, "It seems that these open light stage beasts are no match for my flying sword, I will proceed to find the beasts until I determine my strongest strength after using my flying sword."

Thus, Omi continued to fly deeper into the True Beast Forest.

Soon, Omi had reached the core edge of the True Beast Forest.

A heart shining ninth stage sky beast saw Omi.

"Roar." The huge sky beast roared at Omi, then its mouth opened and a green mass of air shot towards Omi.

"Decapitate." Omi cut off at once.

"Wow." The air was like breaking the surface of water, and with a clatter, in the blink of an eye, the beast of the ninth stage of heart illumination was beheaded into two pieces.

However, after Omi killed the heart-illuminating ninth-order beast, Omi's entire spirit emptied, as if he had taken off his strength, and then the flying sword gradually landed weakly from mid-air.

Omi secretly said, "It seems that when I use this flying sword, my combat power will be at the ninth step of heart illumination, although my combat power didn't reach within the Spiritual Harmony Realm, it's enough to reach the ninth step of heart illumination, it's a whole domain stronger than my true realm."

Omi's true realm was the eighth step of opening light, and now with the use of a flying sword, he could kill the ninth step of heart illumination, an entire domain stronger ah.

In Tian Bao City, the Tang family's head, Tang Hu Lai, was only at the seventh stage of Heart Illumination, and now, Omi could kill Tang Hu Lai in seconds. Even Omi's strength could be ranked among the top of all the strongest of the four families in Tianbao City.

Omi picked up a magic core that had fallen in mid-air.
