Omi said, "If I didn't know about this, then of course it's just a matter of time, but now that I know you're cursing me behind my back and threatening to kill me and steal my magic weapon, huh, do you F\*cking think that I'm going to pretend that I don't know? I'm just asking you to apologize now. Am I out of line? Everyone here to comment on the situation."

There was a lot of discussion, everyone felt suffocated for Purple Shadow and angry at Ning Fang's despicable and shamelessness.

At that moment, Ning Fang said, "Purple Shadow, I'm sorry, I'm just telling the truth, you did curse Omi behind his back and were very disdainful of him, guess what powerful magic weapon Omi had on him, and you also said that if you were to see Omi, you would definitely kill him to see what powerful magic weapon he had that could kill our Ning Family's out-of-body stage powerhouse. You said this yourself, if I have a false word, I shall not die."

"Ning Fang, you shut up, you despicable and shameless villain, it's a pity that I was friends with you before and regarded you as a friend, but I never thought that you would say what we said in private in order to survive and please Omi, you." Purple Shadow yelled.

Ning Fang was busy saying, "Fellow Daoist Omi, you heard him, he admitted it himself, this is what he said to me in private."

Omi was also laughing and crying, Omi was going to immediately crush Ning Fang, but now that Ning Fang had managed to divert some of his hatred, Omi's heart wasn't as strong as before to kill Ning Fang.

What a cunning plan, to divert Omi's hatred, to please Omi and gain a glimmer of hope.

Omi was now in a dilemma, Purple Shadow wouldn't apologize to him, what the hell was he supposed to do, he was determined not to apologize, that was not giving Omi face, and by killing Purple Shadow, Omi didn't want to create one more incident for no reason.

"Purple Shadow, I really don't have that much time to spend with you blindly, are you going to apologize or not?"

"No way." Purple Shadow shouted.

"Grass you, you're also looking for death." Omi's gaze was cold, Omi had been merciful enough, a mere apology, but he wouldn't even do it. Death, death was his only relief. Remember the URL .kanshu8.net

That purple shadow seemed to have seen that Omi wanted to attack him and immediately offered his flying sword, ready to meet the enemy.

Omi saw that he actually wanted to make a move and became even more fiery.

"You're F\*cking looking for death." Omi's mind moved, and with a clatter, a huge steel rope giant appeared in front of him.

"Roar." The Steel Cable Giant fiercely punched at the purple shadow and killed it.

"Buzz." The enormous power seemed to pull the air.

"Ah." Purple Shadow's face changed, not expecting that Omi still had one magic weapon, and the surrounding crowd of onlookers did not expect that Omi had three magic weapons.

From the looks of it, Omi's three magic artifacts were all of the upper intermediate grade.

Surprised, one person actually had three intermediate superior grade magic weapons, and the gradual quality was all this high.

No, not just three, it was five, because Ning Fang's mid-grade superior flying sword was in Omi's hands just now, and in addition, one of Ning Fang's own from before was definitely going to be in Omi's hands as well.

Damn, five Intermediate Superior Flying Swords for one person forever, that's an amount comparable to a family.

It was only after everyone thought like this that they felt that it was really a wrong decision for Purple Shadow not to apologize.

Purple Shadow had fought back, and his flying sword was also a mid-grade superior, but, not of high quality.

"Boom." A fist smashed down and collided with his flying sword, and Purple Shadow took several steps backwards, before Purple Shadow could stabilize his body.

"Wow." A heavenly sword qi swept over.

"Ah." Purple Shadow hurriedly offered up his sword again.

However, as soon as Purple Shadow hurriedly offered up his flying sword, an extremely strong green light shot up behind him.

"Ah." Purple Shadow felt a heart-rending pain in his back, this pain didn't matter, the Celestial Clatter smashed his flesh, and Purple Shadow's YuanYing took off in time.

Unfortunately, as soon as Purple Shadow's infant was off his body, a burst shot into his infant, controlling his infant so that he couldn't self-destruct.

This was Omi's unique ability, even if others imitated Omi, they couldn't control others to self-destruct.

In a moment, Omi grasped Purple Shadow's infant in his hands.

The crowd was sobbing, and in a single moment, Ning Fang and Purple Shadow's infants were both caught in his hands.

"Ahhhh." Violet Shadow's infant roared in anger, he had been just an onlooker, but now it was good that his flesh was dead and his infant had been caught. The thought of this made him gnash his teeth in hatred, of course, Purple Shadow had completely underestimated Omi's strength, it was really too strong, one person had so many magic weapons and could use them all in one mind n, what kind of pervert was this.

Omi grabbed Purple Shadow's infant and said, "Cursed me behind my back, I asked you to apologize, but you're tough with me, hmm, are you still tough now."

"Omi, I apologize." The Purple Shadow's YuanYing was busy, after all, his little life was in someone's hands, he had to be soft, and couldn't care less about losing face.

"Hahaha, what kind of person do you think I am, Omi, now that I'm holding onto the YuanYing, you're just pretending to apologize? Early in the day, why just now."

"Me." Purple Shadow was depressed.

"What do you want then, Don Omi?" Purple Shadow asked.

"Since you're looking for your own death, then don't blame me." Omi said.

"You really want to kill me? No, it's not fair."

"Anything I, Omi, do is always fair, I just gave you the chance, you're the one who got yourself killed."

"Ahhh, Ning Fang, I hate you." Violet Shadow shrieked, but of course, the infant's voice was limited and shrieking was not very loud.

Ning Fang sighed, he hadn't expected that Purple Shadow was so vulnerable, and thought that by pulling Purple Shadow down, he could fight Omi for a long time, and it would be best if he could kill him.

But he didn't expect that it was no match at all.

Omi grunted and squeezed his hand.

"Ah." Violet Shadow's infant was suddenly crushed to death by Omi, then dissipated into the air.

Ning Fang saw the Purple Shadow die, and his infant trembled violently.

Omi snorted, "Ning Fang, do you think I can let you off the hook just because you shrugged off this little bit of cleverness? No, that's good, hit the road."

"No." Ning Fang shouted, and then, he was mercilessly pinned down by Omi.

Just like that, Ning Fang's efforts to survive failed, but he managed to get his best friend killed, making friends most fearful of running into such people. When nothing happened, they were friendly, but when something happened, friends were used to cushion their backs and betray them.

Omi took away Purple Shadow's storage ring, but of course, Ning Fang's storage ring wasn't spared either.

It was just that the storage rings of the three out-of-body ancestors of the Ning family must have been taken away because they had just been too late to collect them and fell to the ground. Omi had no regrets, and presumably those three Ning family ancestors' rings didn't have anything good in them either.

Omi swept a glance at the crowd and left a message, "Having settled the Ning family, it's time for the next family to offend me." After saying that, Omi rushed into the crowd and entered the ground streets and alleys, losing sight of them all at once.

However, the words Omi left behind caused a certain family on the scene to tighten their chrysanthemums.
