

# King of kings

1710

In the crowd of onlookers at the scene, the Yu family's third ancestor was very upset inside when he heard Omi's words, although Omi didn't directly state it, but it was already obvious that it was their Yu family, as if they were being warned in public, the Yu family's third ancestor looked very embarrassed, but Omi's strength had to make him consider it carefully.

Without thinking much about it, the Third Ancestor of the Yu Clan immediately left the scene and rushed back to the family to convene a meeting with all the ancestors of the family to discuss the matter.

Omi, on the other hand, returned to his room at the inn, and since Omi had disguised himself again when he landed in an uninhabited alleyway, no one knew that Omi was in this inn.

Mu Qianji was waiting for Omi at the inn now.

"You're back."

"Qianji, you didn't go to the scene to see? Why are you back so soon?"

"There, I just got back too, so get a drink of water."

"Mm." Omi sipped his water and said, "Now that Ning's matter is settled, the Yu Clan is next."

"Omi, how do you plan to take action against the Yu Clan? Also like the Ning family?"

"That's not so serious, but Yu's pitched me a spirit stone, and there's no way this matter can be stopped. So, I'm going to ask Yu out to negotiate."

"Negotiate? What are your terms?" One second to remember to read the book

"Yu's Auction House screwed me out of 47 spirit stones, so I'm not asking for much, compensating me five times as much, that's 235 sixth grade spirit stones."

"Uh, will they agree?"

"If you don't agree, then don't blame me for being rude, and also, I have a total of six mid-grade superior magic weapons on hand now, I'm going to auction off three of them, so that I can gather another sum of spirit stones and refine them, I think it shouldn't be hard to upgrade to the Exalt 5th or 6th stage, and when that happens, if Yu dared to bounce around, I'll let them die a horrible death."

"Mm." Mu Qianji nodded, although some of Omi's methods might be quite ruthless, Omi usually gave people a chance before he was ruthless, like killing that strong man called Purple Shadow today.

"Right, Omi, you killed the Purple Shadow Family's Second Ancestor Purple Shadow today, the Ziyang Family definitely won't let up on this."

“So what if it won’t stop, if you have the strength, then come kill me, if you don’t have the strength, then fart less.”

Mu Qian would never ask any more questions.

Omi was going to rest for two days and then start negotiating with the Yu Clan again.

And right now, the Yu Clan.

Several out-of-body stage powerhouses were sitting around.

“Everyone, I’m sure you’ve seen Omi’s strength today, we chose to offend him before, now it’s good, he’s bound to retaliate, we underestimated his strength, if he exterminates our family, what should we do?” Yu’s Fourth Ancestor said, sounding a bit like he was complaining about the Third Ancestor.

Ning’s Third Ancestor snorted and did not speak.

“We might as well return the spirit stones that the auction house screwed his cousin with earlier.” An out-of-body old man said.

“I’m afraid that Omi isn’t such an easy person to talk to.”

“What should we do then, Third Ancestor, speak up.”

Yu’s Third Ancestor snorted, “Don’t compare our Yu Clan, to the Ning Clan, our Yu Clan, was able to open an auction house for ten thousand years, do you think we are relying on luck? Returning Don Zixon? Hmph, first ask our Yu Clan’s ancestor and second ancestor if they’ll agree.” The third ancestor of the Yu Clan, still had a very brutal attitude.

A moment of silence from the crowd.

Indeed, the Yu Clan and the Ning Clan, were not comparable, as the Ning Clan was only an eight-out family, while the Yu Clan, they were a combined family, that is, their family’s ancestors and second ancestor, were strong individuals who had reached the combined stage.

A Yu Clan ancestor said, “Even though our family’s ancestor and second ancestor are strong men of the combined body stage, they have entered the five seas and haven’t come home in over thirty years, and most importantly, if Omi wants to exterminate our Yu Clan, we can’t notify our ancestor and second ancestor ah.”

“Yeah, can’t notify, even if our family’s Old Ancestor and Second Ancestor are in the combined stage, it’s still the same as not having one ah.”

That’s right, the Yu Clan, their biggest reliance behind them was Old Ancestor and Second Ancestor, Old Ancestor and Second Ancestor were strong men who had transcended the Exaltation Stage and reached the Merging Stage. What level was the combined body stage, it was an existence that was completely unimaginable at the Exaltation stage, even if even the strongest Exaltation 9th stage, 10,000 of them combined, would not be a match for a combined body 1st stage.

Because, it was the difference between heaven and earth.

It was just a pity that the Yu Clan’s ancestor and second ancestor, after they reached the Combined Body Stage, they entered the Sea of Five Heavens.

Not everyone could enter the Sea of Five Heavens, and they had to have reached the Merging Stage before they could enter the Sea of Five Heavens through the Four Heavens Teleportation Array. If Yu Clan's ancestor and second ancestor didn't come back of their own accord, it would be impossible to know what had happened to the family.

In the hall, everyone looked at the Yu Clan's Third Ancestor.

"Third Ancestor, what should we do now, you decide whether to return the spirit stone to Omi's cousin, or continue to ignore him."

Yu Clan's Third Ancestor said, "You send someone to spread the news that our Yu Clan's ancestor and Second Ancestor will be returning soon. I think Omi will definitely pee out of his pants when he hears this news, and even if Omi is powerful, he'll only be scum in front of a strong man of the Merging Stage."

"Then what?"

"And then, in a few days, when Don Omi gets the news, we'll call Don Omi in and negotiate with him in person."

"We negotiate with him about what?"

"We'll talk about it then, go spread the news."

Yu's several ancestors sighed and could only listen to the Third Ancestor's advice, sending people to spread the false news, hoping that the news would scare Omi.

Omi was at the inn, sacrificing his flying sword for two days and two nights.

"Whew, almost, Thousand Extremes, let's go eat."

"Good." Mu Qianji opened his eyes and said.

Omi and Mu Qianji arrived at the hall of the inn.

There were still many people in the hall of the inn, some drinking tea, some chatting, some eating.

Omi casually sat down at a table and then ordered a table of food.

They basically only ate once every few days, or even half a month now, but of course, they didn't eat to fill their stomachs, just to satisfy their appetites.

As soon as Omi and Mu Qianji sat down, they heard many people in the inn's lobby discussing.

"Real or fake ah? The Yu Clan's ancestor and second ancestor are coming back?"

"Who knows if it's true or not, maybe it's to scare Omi, didn't that Omi say before that after solving the Ning family, it's the next family to offend him. I think that the Yu Clan is throwing out this news at this time, nine times out of ten it's to scare Omi."

"I think so."

The eyes of the melon eaters were shining, and the Yu Clan threw out fake news and was instantly guessed by the melon eaters.
