

King of kings

1712

Yu's Third Ancestor said, "Omi, I am inviting you out today to have a good talk, after all, the grudge between us and you really needs to be made clear, so as not to cause unnecessary damage to everyone."

Omi said, "It's rare that you guys have this heart, good, if it can be peaceful, I don't want war either, tell me, how do you want to settle the grudges with me?"

"It's simple, we didn't trap your cousin before, but your cousin was just imagining things. So, we implore you to invite your cousin out and tell us face to face where we have pitted him."

Omi said angrily, "You F*cking asked me out to say this to me? You didn't screw my cousin? Is that what I need from you guys?"

"Omi, please show some respect, I'm at least the Third Ancestor of the Yu Clan." Yu Clan's Third Ancestor said in anger.

"Hahaha, look at the shape of my mouth, Fart Ancestor."

"You." The Yu Clan's several ancestors were furious, not expecting Omi to put Yu Clan so little in his eyes.

"Omi, don't you know that our Yu Clan ancestors and the Second Ancestor, they are in the combined stage, went to the Five Seas and are coming back soon." One of Yu's ancestors said, he was afraid that Omi hadn't heard about it yet, so he reminded him.

Omi sneered, "This is just a scare, if they really come back and let them come here, I promise not to break their legs."

"Omi, please show some respect to our Yu ancestor."

"Look at my mouth shape, fart ancestor." Remember the URL .kanshu8.net

"You you you." Yu's group of ancestors were furious with Omi.

The Third Ancestor, in particular, had the appearance of being unable to help but fight.

Omi said, "You guys asked me out to tell me that you didn't pit my cousin's spirit stone, right? Well then, I'll tell you what I mean as well. What I mean is, to make peace with you, then compensate me five times how many sixth grade spirit stones you screwed me with, you screwed me with 47 sixth grade spirit stones, five times that is 235."

"You're dreaming, what a foolish dream, you're crazy for wanting spirit stones." Yu Clan's Third Ancestor scoffed, while flaming, he had asked Omi to negotiate today, originally thinking that Omi must have learned that his clan's ancestor would be back soon and was jealous of the clan, then wanted to settle without a dime to scare Omi off. But who knows, Omi is not afraid of scare in the slightest, and scolded them fart ancestor, really angry with them.

Omi said, "Don't be in a hurry to state your position, I haven't finished yet, in addition to compensating me with 235 pieces of sixth grade spirit stones, you must also execute the person in charge of the auction house. Alright, I won't make any more demands, just two."

The ancestors of the Yu Clan who were seated across the room looked extremely ugly.

Omi snorted disdainfully, "Don't force me, or else the Ning family will be the end of you."

"Omi, it's you who's forcing me."

"What? You want to fight? Do you believe that I can behead one of them out of the trance before you say the next word?" Omi said.

Yu's Third Ancestor gritted his teeth, "Don't you dare try anything."

"Puff." As soon as Yu Clan's Third Ancestor's words fell, that third stage out of the box ancestor of their family was cut down in one fell swoop, without even taking off his infant body.

"You." Yu Clan's Third Ancestor's body trembled, not expecting Omi to actually do what he said he would do, and do it right under his nose while he couldn't prevent it in the slightest.

This was mainly because, Omi could use all of his mind with one mind, so when he was talking to Yu's Third Ancestor, he was ready to kill the old ancestor who was at the third stage of the out-of-body stage with a single move.

"Yu Battle." The remaining few Yu Clan ancestors stood up and looked at an ancestor who had suddenly died tragically, simply without any expectation.

This just-dead third stage out-of-consciousness ancestor was called Yu Zhan.

Yu's Third Ancestor's eyes were blood red as he looked at Omi.

Omi said, "Did you see that?"

"If you want to force me, I can continue to kill the few remaining ancestors right under your nose."

"Omi, I'll exterminate you." Yu's Third Ancestor Ton offered his magic weapon, a tiger-headed mask.

I saw Yu's Third Ancestor put the tiger head mask on his face, and suddenly, his mask glowed blue.

"Roar." A powerful, tiger head with a face as big as a mountain bit down on Omi.

Omi trembled, this was a powerful eighth stage out of the box.

Omi immediately sacrificed his flying sword, a strong man of the eighth stage of Exaltation, Omi did not dare to take the enemy lightly.

"Celestial Luo Earth."

"Celestial Furnace Mirror."

"Steel Cable Giant."

Omi's mind moved, and the three magic weapons killed Yu's Third Ancestor at the same time.

"Boom." The entire Hongyan Building turned into shards shooting everywhere.

"Ah." Many of the guests at the scene immediately scattered and fled in all directions to avoid being calamitized.

The one who had just shattered the Hong Banquet Building with a single punch was Omi's Steel Cable Giant.

Omi's three magic weapons were fighting with Yu's Three Ancestors, and it was hard to tell them apart.

Omi's single-minded use, his body went directly to kill those ancestors of Yu's.

"Ah, Third Ancestor save me."

"Pfft."

"Pfftch."

Omi killed the three Yu's ancestors at once, but unfortunately, the three Yu's ancestors were entangled in Omi's three magic weapons and couldn't be saved.

Soon, the surrounding sky was filled with people, all of whom never expected such a massive fight to occur during the negotiations.

Omi also shocked everyone once again, because in addition to controlling the three magic weapons to entangle with Yu's Third Ancestor, the original body could also go and kill others, which was simply 4 in 1.

If it were anyone else, it would be four people fighting, Omi's mental strength was really too strong.

Just like this, after a tea time, the Yu Clan's ancestors were left with only three and four ancestors, and five ancestors.

Because the Fourth and Fifth Ancestors were stronger and had reached the seventh stage of the sixth stage of Exaltation, it was difficult for Omi to kill them, and in the end, Omi alone was equal to the three of them.

Just as Omi was about to engage in a great prolonged battle with them, Yu's Third Ancestor stopped and shouted, "Retreat first." Then, the Third Ancestor of Yu's ignored the Fourth Ancestor and the Fifth Ancestor and immediately fled into the distance, panting as if he was extremely depleted, if he continued to fight, he would suffer a loss, he couldn't care less now, it was fundamental that he save his own life first.

Omi snorted, "No more spiritual energy? Then don't think about leaving."

Since it had come to this, Omi could simply kill them all, but if he didn't, he was already at odds with Yu's anyway.

Omi sacrificed his flying sword and immediately chased after them towards the Third Ancestor of the Yu Clan.

Behind, Yu's Fourth and Fifth Ancestors, didn't follow, looking at the seven or eight dead ancestors, and the Hongyan Building that had turned into ruins, seemingly unable to regain consciousness, incredulous as to why it had become like this all of a sudden. The family, only three out-of-body ancestors were left, and, three of them had escaped and were being chased by Omi unrelentingly.

Inside their hearts, they seemed to be regretting that if they had known this, why didn't they just compensate Omi that is, now that so many ancestors had died, no amount of spirit stones could compensate them back.

"Ahhhh." Yu's fourth and fifth ancestors, in full view of the onlookers, let out a roar.

As for Omi, who was now chasing after Yu's Third Ancestor as he disappeared into the sky, Omi's spiritual energy was almost infinite and incessant, so how could Yu's Third Ancestor consume more than Omi, once he ran out of spiritual energy, Omi had the absolute upper hand.
