

King of kings

1724

Omi returned to the inn.

"You're back so soon, have Lu Yu Xi's parents been rescued?" Tang Huan and the others were busy asking.

"Of course. Alright, next, it's time for me to give you guys the great gift I've prepared."

Omi took out some sixth grade spirit stones and spent a few tens of minutes to raise Tang Huan and Yan Xin Yi's realm, to the Exaltation stage.

"Wow, that's incredible."

"Thank you, brother."

"Thank you, Master." Tang Huan and Yan Xinyi were busy thanking each other, they both felt that it really couldn't have been better to meet Omi in this life.

"Don't be silly, you guys should quickly go to the closed door and digest."

"Mhmm."

After Tang Huan and Yan Xinyi left, Omi and Mu Qianji were left, they looked at each other, then, Omi pounced on them, Mu Qianji also welcomed them, their lips touched each other, after all, they had been apart for more than half a year, a long goodbye was better than a new marriage.

After it was over, Mu Qianji snuggled into Omi's bosom. Remember the URL [.kanshu8.net](http://kanshu8.net)

"Omi, I thought you've been searching for them, but I didn't expect that you've only been waiting in the One Heavy Sea for half a year, why didn't you come back for a trip even though you were waiting there?"

"What? You miss me."

"Don't be ridiculous, you're not coming back for half a year, are you scared?"

"Uh, scared of what?"

"Search the Four Seas and become the enemy of the entire Four Seas."

Omi did not speak.

"You're running away, but actually, you don't want to be the enemy of the entire Four Seas, do you?"

"That's right, I'm escaping."

"But how do you do bad things, how do you raid all the sixth grade spirit stones in the Four Seas, and how do you ascend to the Merging Stage. You've now offended a lot of families that have strong Hope-stages, such as Yu's." Mu Qianji asked.

Omi said, "It's not just Yu's, there's also the Lu family, today when I went to the Lu family, I killed the six ancestors of the Lu family and destroyed the flesh of the five ancestors of the Lu family, the Lu family had four ancestors that went into the five heavy seas."

"So, you don't have a choice, once a certain family's Merging Stage ancestor comes back, we'll be dead for sure. Right now, you shouldn't be able to defeat the Combined Body Stage."

"I can't beat it, no matter how strong I am, I'm only at the Exalt Stage, and the Combined Stage, it's the distance between heaven and earth."

"I'm really afraid now, what if tomorrow, the day after tomorrow, or just these few days, a certain family's Combined Stage ancestor comes back."

"It seems that I have to become the enemy of the entire Four Seas." Omi sighed.

Omi didn't care anymore, let's do it.

Mu Qianji said, "There are now more than sixty families of all sizes in the entire Four Seas."

"Uh, that many."

"Right."

"Then how am I going to scour all the families in the Four Seas?"

"Omi, if you search and people hide it and don't give it to you, it's also equal to useless ah. So, I suggest you, why don't you take advantage of the midnight hour, go one family at a time, find the strongest person in each family and force them to hand over all the sixth grade spirit stones, that way, before you alert the other families, the other families won't prevent it and it will be easier to succeed."

"Okay, I understand, then let's start from tonight."

"Then you be careful."

That night, Omi first came to the largest family in the Four Seas, the Mo Family, which had a total of thirteen ancestors that had reached the Merging Stage. If they hadn't all gone into the Five Heavy Seas, where would Omi be arrogant.

&nbs.

p; Omi stood over the Mo family and instantly sensed the location of the strongest person in the Mo family.

Omi didn't look for anyone else, only the strongest, because only the strongest could have all the family's property hidden on them.

"Bang." Omi entered a house.

"Ah, who are you." The old man who was cultivating in the house was shocked, but he didn't even sense anyone coming. Of course, Omi had changed his face, so no one he didn't know who it was.

Omi made his move in an instant, not giving the other party a chance to react, Omi pinned the other party's head in one fell swoop.

The strongest member of the Mo Family let out a cold sweat in shock, the visitor was so strong, it didn't feel like he was an opponent at all.

"Senior be merciful, I don't know you, why are you like this."

Omi said, "I only seek wealth, not life, if you can satisfy my wealth, I can spare your life."

"Senior, please speak." Because little lives were being pinched, the strongest person in the Mo Family didn't dare to speak up, saving his life was the most important thing now, and money was all outside of his body.

Omi said, "I need five hundred sixth grade spirit stones, if you give them to me, I'll spare you."

"What? Five hundred sixth-grade spirit stones?" The strongest person in the Mo family was shocked, the reason why Omi said 500 was to maximize the other party's ability to take out all of their possessions.

"What? You won't give it to me?"

"Senior, my Mo family only has at most 300 sixth grade spirit stones in savings ah, where do you want me to get them."

"Hmph, the Mo Family is the strongest family, I don't believe in it."

"Senior, if I have half a lie, I shall not die."

Omi believed that this Mo Family's strongest man was definitely not hiding.

"In that case, give me 300 sixth grade spirit stones and I'll spare your life."

"Yes." The strongest person of the Mo Family suffered a physical pain, but inside, he felt anger that he dared to rob their Mo Family.

Omi said, "In case you play tricks, I'll first destroy your flesh so that your infant can't resist."

"Ah, don't ah Senior." The strongest member of the Mo Clan shouted in panic, a little angry just now, but now that he was about to destroy his flesh body, he threw that anger away again.

"Hmph, how do I know you won't play tricks on me."

"Senior, any more spirit stones are already outside of my life, ah, how would I joke with my own little life."

"If that's the case, then immediately give me three hundred sixth grade spirit stones."

"Fine fine."

It just so happened that all the Mo Family's so spirit stones were stored on the strongest person, and that person poured out all the sixth grade spirit stones from the spatial ring on the spot.

Omi's eyes scanned it, about three hundred pieces.

Omi immediately put them into his ring, then leapt and escaped through the window.

“Phew.” The strongest member of the Mo Family was relieved, but then felt anger, the family had lost so many spirit stones, how to explain this.

Omi then proceeded to the next family.

Omi had to ransack all the families within one night, so that other families wouldn't learn the news and then hide the spirit stones.

Omi's second family to go to was the Pill Family.

It wasn't because the Pill Family was second most powerful, but because, the Pill Family was near the Mo Family, so that it would be able to loot the entire Four Seas as fast as possible.

Ten minutes later.

“Ah, Senior spare my life.” The strongest member of the Pill Family, an old man of the eighth stage of Exaltation, trembled his beard and begged for mercy.
