

King of kings

1726

"Thinking about it this way, it's reasonable, each family, on average, has 241 sixth grade spirit stones in savings, it's considered a normal range."

"Hehe, Thousand Extremes, with so many spirit stones, not to mention me upgrading to the Merging Stage, even you, Tang Huan, Yan Xingyi, and Lu Yuxi can do it. And there's still some surplus."

"Tsk tsk." Mu Qianji had to marvel at the luck of Tang Huan, Yan Xingyi, and Lu Yuxi, it was really too good, they were really the happiest to meet Omi in this life, including her, of course. If it wasn't for Omi, Mu Qianji would probably still be in the Spiritual Harmony stage, and definitely wouldn't have formed a yuanying yet.

"Qianji, let's not say anything, let's start upgrading."

"Hehe." Mu Qianji looked very embarrassed.

Omi immediately began to refine the spirit stones.

In less than ten minutes, Omi had refined about three thousand sixth grade spirit stones.

Omi's realm, from the ninth stage of Exaltation, reached the first stage of Merge.

"Thousand Extremes, it's your turn."

Half an hour later, Omi helped Mu Qianji refine three thousand plus hundreds of sixth grade spirit stones, and Mu Qianji soared straight up to the first stage of the combined body.

"Wow." First URL m.kanshu8.net

Omi put the rest away, after he and Mu Qianji finished refining, there were still more than 8,000 sixth grade spirit stones left, going back to give them to Tang Huan, Yan Xingyi, and Lu Yuxi.

"Omi, there's only 8,681 sixth grade spirit stones left, is that enough for the three of them to ascend to the first stage of the combined body?" Mu Qianji asked with some concern.

Omi sighed, "Seems like it's not enough, I thought it was enough. The three of them, all three of them are at the first stage of Exaltation, and in order to ascend to the first stage of Merging, I'm afraid they need at least 4,000 sixth grade spirit stones, and the three of them add up to 12,000."

"So, there's still a shortfall of three thousand pieces."

"Let's look back and see if the Fourfold Sea can continue to scavenge a bit out."

"Scavenging should be able to scavenge a bit more, after all, each family, the second strongest, the third strongest, they have a few to a dozen sixth grade spirit stones on them anyways, it's possible for all the families to scavenge again and gather more than three thousand, but, it's too difficult."

Omi smiled, "Even if the difficulty is too great, we still have to try, tonight, the two of us, let's go scavenge again."

"Ah, go again? Me with you?"

"Of course, you're now at the first stage of the combined body, and I'm also at the first stage of the combined body, so who else is your opponent in the entire Four Seas."

Mu Qianji gave Omi a glance and said, "You're not my opponent even for the difficulty?"

"Uh, I said other than me."

At this time, at a certain inn in the Four Seas Capital.

Lu Yuxi came to look for Tang Huan and Yan Xinyi.

"Tang Huan, Xinyi, are you guys here?"

"Here, Yu Xi, you're here, congratulations on restoring your identity as the eldest miss of the Lu family." Tang Huan said busily opening the door.

"Thank you, I was going to invite you to my house today, but."

"But what?"

"But now a big event has happened in the family, and the whole family is in a bad mood, so it's better not to go for now, I hope you guys understand ah."

"Yu Xi, what big thing has happened to your family?"

Lu Yuxi sighed and said, "Truth be told, last night, a strong man came to my family and hijacked the strongest person in my family, then looted all the sixth grade spirit stones he had on him."

"Ah, robbery, that's too abominable."

"That's right, who's so wretched, playing robberies in this era." Tang Huan cursed.

At this time, Omi's voice came from the door, "Who are you guys talking about."

"Brother, just now Yu Xi said that her family has been looted."

&nbs.

p; "Oh, yeah."

"Yeah."

"Well, since this isn't a good time to visit Lui's house, we'll go another time."

"Mhmm."

That night, Omi and Mu Qianji once again went out in separate directions.

Omi once again went to the strongest family in the Four Seas, the Mo Family.

Of course, this time, Omi was not looking for the strongest, but the second strongest.

“Robbery, hand over all the spirit stones you have on you.”

“Ooh, Senior, you’re the one who looted my Mo Family last night, right?”

“Yes, it’s me.”

“Senior, my family has been ransacked by you.”

“I know, but I don’t believe that you, as the second strongest member of the Mo family, would even have a single sixth-grade spirit stone.”

“Me.”

“Take it out, or die.”

In the end, Omi grabbed 23 sixth-grade spirit stones.

Omi smiled, he just said well, as the second strongest member of the family, it was impossible for him to not have a few sixth grade spirit stones.

After ransacking the second strongest, Omi didn’t leave right away and proceeded to ransack the third and fourth strongest members of the Mo family, striving to keep every single sixth grade spirit stone intact.

Omi wasn’t afraid of being discovered anyway, and robbed them almost openly.

When Omi robbed the fourth strongest member of the Mo Family, the first strongest member of the Mo Family, the second strongest member, and others, had already arrived on the news.

Omi robbed the fourth strongest man almost right under their noses.

“Robbing, take out all the sixth grade spirit stones you have on you.”

“Woo.” The fourth strongest member of the Mo family looked at the first strongest member of the family who had arrived.

The first strongest member of the Mo family was busy saying, “Senior, last night, all my possessions on my body have been looted by you, and you still don’t know enough to rob the rest of my family’s ancestors tonight, the only few sixth grade spirit stones left on my body, senior, you’re like this.”

“What nonsense.”

“Bang.” Omi knocked out the fourth strongest member of the Mo Family with a slap and forcefully stole his storage ring.

“Wait, Senior, just take the sixth grade spirit stones and leave the ring behind, okay?” The first strongest member of the Mo family said in distress.

“If you knew that earlier, why didn’t you honestly take out the spirit stones, save me from taking the ring and losing even more, I only rob spirit stones, I don’t take magic tools or anything like that.” Omi

took out a few sixth grade spirit stones, then threw the ring to the fourth strongest Mo family member who fainted on the ground.

Then, Omi continued on to the next house.

Like this, they kept robbing and robbing until dawn, but there were still more than twenty left to finish.

Omi and Mu Qianji both robbed separately, but they also couldn't finish the robbery in one night.

What to do.

So, with no other choice, Omi and Mu Qianji could only continue robbing in broad daylight.

By the end of the day, it was almost as if they were robbed under the watchful eyes of a large group of clansmen.

Finally, all the clans were finished robbing.

Omi immediately retreated, then changed back to his true appearance in a deserted place.

Mu Qianji also returned to the inn.

"Thousand Jie, how was the harvest?"

"It's not much, each family adds up to a dozen or twenty sixth grade spirit stones, so it looks like there really aren't any."

"Hehe, the entire Four Seas of Sixth Grade Spirit Stones are really scavenged this time." Omi smiled.

"We can't help it, and don't blame us, immortal cultivators can't be saints, we all think for ourselves first."
