“Brother Tang, although you are now at the Merging Stage, the Merging Stage is easier to cultivate compared to the Divide Stage, so why don’t you take this opportunity now to take some pills and elixirs that are suitable for the Divide Stage, or even the Mahayana Stage? Instead, isn’t it a bit of a wasted opportunity to focus on the seventh grade spirit stones?”

Wang Pi was right, Omi had to look far enough to only take things that were suitable for the closing stage.

Unfortunately, how could Wang Pi know that Omi needed only spirit stones.

“Senior, pills suitable for the Separation Stage and even the Mahayana Stage, spirit medicines, these are even more precious, so I won’t take them. If Senior is really willing to share some, why don’t you grant me some seventh grade spirit stones.”

“Hahaha, Brother Tang, you’re too polite.” Wang Pi was touched, thinking to himself that Omi was really a good man, other people would love to take better ones.

Wang Pi was in a good mood, since Omi was so polite, he couldn’t be stingy, and waved his big hand, “In that case, you can take half of this pile of seventh grade spirit stones.”

“Ah, really?”

“Of course, but I’d like to remind you that although the seventh grade spirit stone is precious, it’s only suitable for Body Closing Stage Immortals, and once you go beyond the Body Closing Stage in the future, this seventh grade spirit stone will be chicken ribs. Are you really sure?”

“OK.”

“Okay then, you’re welcome to take half of it yourself.”

“Okay Le.” Remember the URL [.kanshu8.net](http://kanshu8.net)

Omi quickly took half of it.

Half was also enough, and these seventh grade spirit stones, which were obviously not divided, should have just been dug out from somewhere, one whole piece at a time, back then, the aura would be more sufficient.

“Thank you, Senior.” Omi said with a smile.

Half of the seventh grade spirit stones that Omi took away was enough to elevate even Mu Qianji, Tang Huan, Lu Yuxi, and Yan Xingyi to the Divide Stage. There was even enough left over, and perhaps, Omi could cultivate a few more Distraction Stages.

However, once Omi reached the Distraction Stage, the seventh grade spirit stone would be useless, what was needed was an eighth grade spirit stone, and how rare the eighth grade spirit stone was, it wasn’t even in Wang Shura’s treasure, Omi really didn’t know where he could find another eighth

grade spirit stone in the future. Omi could only hope that the future Nine Daoist Demon King's spirit stone cave had any spirit stones of eighth grade or higher.

Wang Pi put everything in the treasure into his storage bag.

"Haha, let's go." Wang Pi said.

"Good."

Omi said in his heart, "Anyone who kills Wang Pi at this moment will be rich."

However, killing a strong Four Thunderer was no small feat.

Soon, Omi returned to the Shura Clan's home base.

"Brother Tang, make yourself at home, I won't entertain you." Wang Pi smiled, he was definitely in a hurry to sort out the treasure, where would he have the time to gossip with Omi.

"No need to be polite, you're busy, I'm also going to find those friends of mine."

"Good, if you need anything, just tell me. By the way, from what I heard yesterday, you guys also want to go to the Jedi Sea Valley in six months?"

"Of course, since you're here and have heard the news, why not go along for the ride."

"Then you'll stay with us, and I'll come with you then and have a care."

"Thank you, Senior."

"You're welcome, make yourself at home."

Wang Pi left in a panic, and Omi returned to their residence.

Lu Yuxi and Tang Huan were chasing and playing on the lawn.

"Omi, you're back." Mu Qianji was the first to see Omi and came up in a panic.

"Right."

Everyone gathered around.

Asking, "Have you opened King Solo's treasure?"

"Crap."

"Can you tell me what happened? What treasures are there?" Everyone was curious to pursue the matter.

Omi said, "I don't know the specifics, I only saw that there were three heavenly flying swords, in addition, there were several boxes of pills, I don't know what kind of pills they were, but they must all be extremely precious. There are also seventh grade spirit stones piled up in a corner, in short, a lot of stuff."

“Then, did Senior Wang Pi share something with you?”

“There, that pile of seventh-grade spirit stones, split half of it for me.”

“Ah, really.”

“Yes, now, we can refine it properly, and I’d like to congratulate all of you on the fact that you’re about to be gloriously promoted to the distinction stage.”

“Uh, there’s that much?”

“Alright, enough gossip, I’ll go refine it first, then I’ll help you guys.”

Omi entered the room and went.

Everyone looked at Omi’s back for a moment of excitement.

Mu Qianji sighed and said, “Nowadays, we can’t get back that striving spirit we once had, we’re all focused on the spirit stones instead of thinking about how to cultivate.”

“Haha, it would be foolish not to take such a good shortcut, why should we struggle to think about cultivating on our own when we can obviously rely on spirit stones to do so.”Tang Huan said.

Mu Qianji laughed, “We can only say that we’re all thanks to Omi’s blessing, otherwise, we wouldn’t know which corner nook we’re hanging around in right now.”

“Hehe.”

Omi took out a whole piece, about the size of a cow, and then began to refine it.

In less than half an hour, Omi finished refining it.

Omi’s realm soared straight up.

From the second stage of the Merging Stage, it soared to the first stage of the Divide Stage.

“Yay, finally the Divide Stage.”

Omi had gone through a lot of hardships over the past year or so in order to achieve this Divide Divinity Stage.

“Alright, I’ve finished refining, whoever’s next, come in yourself.”

Mu Qianji entered the house second.

About an hour later, Mu Qianji soared straight up to the first stage of the Distraction Stage

Tang Huan was third, Yan Xinyi was third, and Lu Yuxi was fifth.

Just like that, by the afternoon, everyone had ascended to the first stage of the Separation Stage.

Except for Light Water, who was at the first stage of Mahayana because she had fused with Blue Fox Lily's infant, she was at the first stage of Mahayana, but she hadn't fully fused and controlled it yet, otherwise she was much stronger than Omi and the others.

"Congratulations guys." Light Water congratulated, what she saw today, Light Water was also incredible, they used to say how hard it was to cultivate, but seeing them soar like this, how it felt like it was hard.

Omi said, "Light Water, I'll ask Senior Wang Pi later to see if there are any pills in that treasure of his that will help you fuse with your infant and thoroughly blend the soul of the Blue Fox Lily."

"Thank you, Tang Shao." Light Water was delighted, if there was, that would be great, otherwise, Light Water would probably need at least eighty or ninety years, or even a hundred years, before he could bring out the strength of the Blue Fox Lily and become a true first stage of the Mahayana stage.

Omi smiled heedlessly and said, "This trip to the Sea of Death, we finally didn't come in vain, we're all at the First Order of Separation. Moreover, I still have some of my Seventh Grade Spirit Stones left over, so I can still speed into a few more divisions when I have the chance in the future."

Mu Qianji said, "You can consider saving some for Xia Xiaoxin, she is the mother of the Little White Dragon after all."

"For the sake of her taking care of the Little White Dragon for me, the next time you see her, give her this opportunity, hahaha. Who else do you guys have to recommend? I can probably recreate about five more distractions."
