

# King of kings

1973

Bimon said, "If we ascend, it will be fast, but unfortunately, we can't compare to Ascension, I can only barely tear apart space, whereas with traditional Ascension, they are following the heavenly path and can cross the void almost in the blink of an eye to reach the Immortal Realm."

Omi asked, "About how long will it take us to reach the Immortal Realm?"

"I don't know, I can only slowly move forward, I think we'll get there eventually, provided that we keep everyone safe."

After about a few hours, finally, Omi and the others felt a small gap above their heads, and from that small gap, a strong light shot down, this feeling was like being in a very, very deep well.

"We're almost there," said Beamon happily.

Ten minutes later, finally, they reached the small gap they had seen before, only, they had seen the small gap before, but when they really got to this small gap, they realized that it wasn't a small gap, it was an open hole.

"Wow." As they flew into the hole, an attraction instantly sucked them away, and in the next second, they appeared in a place with a beautiful view.

"Guys, this is the Immortal Realm, to be precise, I don't know where in the Earth Immortal Realm this is." Beamon said.

Omi immediately looked around, and when he saw the terrain around him, Omi was busy saying, "I think I know where this place is."

"Uh, Chen, where is this place?"

Omi smiled, "If I'm not wrong, that ten-thousand-foot wall ahead is the Valley of Ten Thousand Flowers." Remember the URL . kanshu8 . net

"What is the Valley of a Thousand Flowers?" Little Fire asked.

Omi smiled apologetically, "In my previous life, I came here, the owner of the Valley of Ten Thousand Flowers, he has a daughter, I heard that she is very beautiful, I came here in my previous life to force pieces of her."

"I sweat." Little Fire sweat cold sweat, the Omi from his previous life was really a character who dared to do anything.

Omi said, "Unfortunately, it didn't work, and I was almost killed by the Ten Thousand Flowers Valley Master, that Ten Thousand Flowers Valley Master, was a strong late stage Human Immortal, while I was in the mid stage of early stage Human Immortal, I thought that I had a chance to succeed by relying on my family's magic."

“What happened later?” Littlefire asked.

“Then my father from my previous life appeared and saved one of my lives. My father from my previous life, he was an Advanced Mortal Immortal.” Omi said.

Mu Qianji said, “By the way, can you tell us a little bit about the Immortal Realm, like what kind of Immortal.”

“Of course, the Immortal Realm is divided into the Earth Immortal Realm and the Heavenly Immortal Realm, ninety percent of the entire Immortal Realm, live in the Earth Immortal Realm, and only one percent, live in the Heavenly Immortal Realm. So, one should imagine how powerful that one percent must be. The ranks of Immortals are divided into Human Immortals, Mortal Immortals, Earth Immortals, Upper Immortals, and Celestial Immortals. Each Immortal, in turn, has three stages: early, middle, and late.”

“There are only so many realm divisions.”

Bimon said, “Don’t look at the fact that there are only so many, but in fact, the cultivation of Immortals is extremely difficult, tens of millions of years, and it is estimated that only one realm can be crossed. Those who are strong enough to reach Earth Immortals and Upper Immortals have all cultivated for hundreds of millions of years, and with the speed of time in the Immortal Realm, what concept is hundreds of millions of years? If it were to be the Spiritual Realm, there’s no telling how many celestial beings would have lived and died.”

Omi nodded, “That’s right, not to mention the crossing of a realm, even a small realm is very difficult. Like in my previous life, I started from the pre-Human Immortal stage and cultivated to the pre-Human Immortal halfway point, I don’t know how much energy and heavenly treasures I consumed, in my previous life if my family wasn’t in its prime, it would have been difficult for me to cultivate to the pre-Human Immortal halfway point.”

Bimon said, “In the immortal world, there is a common understanding that everyone knows, that is, once any immortal, once they reach immortality, they should not think about how strong they can cultivate, but how they will live in the future, because it’s useless to think about it, immortals want to move up one level.

It’s too difficult, it’s going to take an extraordinary amount of chance.”

“Alright, enough of the nonsense, we’re almost leaving, this is the Valley of Ten Thousand Flowers after all, in case I’m recognized as Zhou Mi in my previous life, I’m afraid it might be dangerous.” Omi said.

As soon as Omi’s voice fell, in the distant sky, a girl in a flowery dress, flew in Xu Xu.

“Get down.” Omi shouted.

“Who is it?”

“Motherf\*cker, it’s the daughter of the owner of the Valley of Ten Thousand Flowers.” Omi said.

“Ugh.”

Everyone looked towards the woman who flew in, she really was incomparably beautiful, and Mu Qianji and the others felt that they were a bit inferior in front of her.

It wasn't that Mu Qianji and the others were really that ugly, but the daughter of that Lord of the Valley of Ten Thousand Flowers, she was an immortal, and she carried an aura, to compare, how could one use the term 'immortal descending' to describe a beautiful woman, precisely because of the immortal, had an irresistible aura, so with the same face, the beauty that the immortal gave was more than a hundred times stronger than an ordinary person. The reason why the former Half Immortal Princess Ayala was beautiful might also be related to her Half Immortal physique, which more or less carried a fairy aura, so it had an irresistible allure.

Omi looked at the fairy flying away from the sky, that figure really needless to say, no wonder he had ventured to this strong her in his previous life.

The fairy in the sky, flew not too far away, suddenly turned back and looked at the ground.

"Hmm?" The fairy's brows furrowed and she immediately rushed down.

"Who are you guys? Why are you appearing within the boundaries of my Ten Thousand Flowers Valley." That fairy shouted.

Omi smiled heedlessly, "Paying respects to the fairy, I am courteous this way, we are just passing through."

At that moment, that fairy's brows furrowed, seeing Omi, she suddenly felt, a bit like someone.

The fairy pinched her finger and was shocked, "It's you."

Omi secretly said badly, he was recognized, he almost forced her in his previous life ah, if this is caught, he will surely die, Omi only came to the fairy world, but he didn't want to die so early.

"Fairy, I just came up from the spirit world, I didn't know the landing point would be here."

"Hmph, lecher, you must be the reincarnation of Zhou Mi, I'm going to kill you."

"Hey, hey, hey, are you saying that I'm just a reincarnation of Zhou Mi? What evidence do you have? Could it be that you guys in the Valley of Ten Thousand Flowers can kill whoever you want? This is within the boundaries of the Yunluo Immortal Kingdom, not a place where you Ten Thousand Flower Valley can act recklessly." Omi was busy.

That fairy snorted, "Fine, my cultivation is low, I really can't confirm that you are the reincarnation of Zhou Mi, I'll capture you back and let my father perform the calculations, I'm sure I can deduce who you were in your past life, if your past life was really the lecherous Zhou Mi, then I'll be blamed for being rude. Come with me immediately."

"Are you just going to leave?"

"If you don't leave, then don't blame me for chasing you away, you alone are still not capable of escaping."

Indeed, Omi and the other group of people were all immortal cultivators, except for Bimun who was an elementary Human Immortal, and this daughter of the owner of the Ten Thousand Flowers Valley, although she was also an early Human Immortal, she was obviously much stronger than Bimun.

Although they were in the same realm, there would be a huge difference, as they were both pre-Human Immortal, and some of them, had only just stepped in, while others, had already taken half a step towards the mid-Human Immortal stage.

Therefore, depending on the degree of steps taken, they can be divided into smaller realms. For example, pre-Human Immortal start, pre-Human Immortal halfway, and pre-Human Immortal end. This is used to distinguish between different levels of the same realm.

Beamon is now, just starting out at the pre-Human Immortal stage, while the daughter of the owner of the Valley of Ten Thousand Flowers is now at least halfway to the pre-Human Immortal stage. One was halfway there and the other was just starting out, so could the difference not be great.
