

King of kings

1977

"My former family is definitely not afraid of that Zhennan King, and my former father, Lin Tie, is no less powerful than the Zhennan King, having already reached the Pre-Mortal Immortal stage. Moreover, my father in my previous life was almost at the end of the pre-Mortal Immortal stage, that is, he was about to step into the mid-Mortal Immortal stage. That Zhennan King, on the other hand, is only halfway to the finish line." Omi said.

Little Fire said, "No way, your former father felt like a big man, more powerful ah, how come it's only Mortal Immortal. After Human Immortal, it's Mortal Immortal, that's too small a difference."

Omi said, "Don't use the realm of immortal cultivators to compare, in the immortal realm, human immortals and mortal immortals, that's a world changing difference, almost like the difference between a human and an ant. Moreover, all seedless immortals still have the points of early, middle, and late stages, and then fine again the points of starting, halfway, and ending."

"In short, I don't even know how difficult it is to call yourself a Mortal Immortal."

"Yes, in the Yunluo Immortal Kingdom, if one can reach Mortal Immortal, then one can almost become a great official above the fifth rank."

Saying that, Omi and the others went to another inn, and Omi booked a few upper rooms.

However, the currency that prevailed in the immortal world was spirit crystals, which was something higher than spirit stones, and Omi had no spirit crystals, so he had to go out and get some money later.

Omi said, "You guys wait for me in the inn room, I'll go out and get some money."

"Where are you going to get some money?" Mu Qianji was busy asking.

"Don't worry, after all, this is the place where I lived in my previous life, I hid some money in a secret place, for the Immortal World, it's only been fifty years since I died, I'm sure I won't lose the money if I take it in such a short time."

After saying that, Omi turned around and walked out of the inn room. One second to remember to read the book

"You must be careful."

Omi came to the Yunluo Immortal Country, a bank-like place that the locals called 'Eternal Storage Place', where depositors could store their precious things without worrying about them being stolen, snatched away, murdered or anything like that.

Omi naturally had a storage locker here in his previous life.

Omi entered the Eternal Survival Place, which was deep underground, and among the countless storage compartments, Omi found the storage cabinet from his previous life.

“Open it.”

“Sorry, no authority to open it for you.” Omi said to one of the storage lockers, which was sentient, and although the storage locker was only the size of a palm, the space inside was huge, far more advanced than a storage ring.

“Code word, Yun Meng Yun Meng, I f*ck you.” After Omi said that, the locker emitted a sound: “Code word correct, the locker is open.”

“Get everything out.”

“Okay.”

Soon, all the things stored in the locker came out, and Omi received those things into his spatial ring, then, Omi left the Eternal Survival Place.

After there was nothing left in the locker, the account was automatically cancelled.

Omi returned to the inn.

“Brother Chen, back so soon.”

“Well, it wasn’t too far, I came back after picking up my things.”

“Is the stuff still there?”

“Of course it’s still here, now at least we don’t have to worry about money, my possessions from my previous life are enough to lavish on this place for a long time.”

At this moment, in the Zhennan royal residence.

“Master, it’s bad, something terrible has happened to Young Master.” The butler ran to a study place in a panic.

“Prince Zhennan what’s wrong with him?” A middle-aged man was busy asking, this middle-aged man was the South King of Zhen, his surname was Zhen, and his name was Prince Nan.

His son, whose surname was also Zhen, was called Prince Nan.

Those who didn’t know would have thought it was an official rank, but it was just a rather special name.

“Young Master was at the Rukia Inn today, I don’t know who he clashed with and was beaten up, one of Young Master’s arms turned into a skull and bones.”

“What kind of person is so cruel.”

“I don’t know, our people questioned the innkeeper and they also said they had never seen it before, it was a first time guest. The innkeeper has already drawn that person’s portrait, so please take a look at it, milord.”

A portrait was handed to the King of Zhennan.

“Who is this man and why did he do this to my son?”

"I don't know, we interrogated the incident and learned that the person wanted to eat there at the time, but the inn has been booked for our young master today. Our young master told them to go out, but that person ended up exporting insults."

"Find out for me, I must know who this person is and why he dared to hurt my son."

"Yes, we are investigating."

Similarly, at this moment in the Zhou residence.

"Master Tie, the things in Duke Zhou Mi's locker at the Eternal Survival Place were taken away."

"What? Who took away my dead son's things?" A man with a slightly serious face was busy asking.

"I don't know, I just saw it in the records of the sale of the account in the Eternal Survival Place, the Eternal Survival Place will not sell the account for no reason, it will only sell the account if the contents inside are removed."

"But without the correct code words, I can't remove the things inside, not even if I want to take out the relics inside, I must wait until my son dies for more than a thousand years before I can take out the relics inside, who can take them out?"

"It's possible that once upon a time, our week-old young master, revealed the dark night to someone else, and that person came to retrieve it today."

"Yes?"

"Most likely."

"Go find out, I want to know who took my son's relics."

"Yes."

Omi revealed some clues on only the first day he arrived at Yunluo Immortal City.

Three days later, Omi and a group of others arrived at a not-so-small courtyard.

"Everyone, our home will be here from now on, I've already bought this courtyard. It's not big, but it's enough for us to live in, and there's occasionally immortal energy here that can be cultivated." Omi said.

Everyone walked into the courtyard, it was not big, but it was quite exquisite and beautiful.

Lu Yu Xi said, "After coming to the Immortal World, I feel like I'm all lost."

"What's there to be confused about, the most important thing you guys need to do now is to quickly cultivate to be a parahuman."

"That's right, cultivating to a quasi-immortal, how can you become an immortal without ascending here?" Littlefire asked.

"Little Flame, you're overthinking this. Who told you that you can become an immortal after cultivating to a parahuman."

“Ah, wasn’t it? Then in the Spiritual Realm, those prospective immortals who have ascended, didn’t they become immortals when they arrived in the Immortal Realm?”

“Little Fire, you’re overthinking it, those who reach quasi-immortal in the spirit realm are just able to obey the rules of heaven and earth and are able to ascend to the immortal realm, and when they reach the immortal realm, they are still quasi-immortals. It won’t turn into an immortal, they will not know how many hardships they will have to go through to become a quasi-immortal, even for a lifetime. If every one who cultivates to become a quasi-immortal could become an immortal, wouldn’t the world be stuffed with immortals.”

“Uh, I thought, if you ascend, you’re an Immortal.” Little Fire whipped out a cold sweat, in fact, if Omi didn’t say anything, no one else would know either.
