

King of kings

2005

At this time, even though Yun Zi was eager to teach Omi a lesson, he had to let the weakest Cloud Leopard take care of Omi.

“Good.” Cloud Leopard jumped out.

“Zhou Mi, this battle is only our battle, it has nothing to do with my identity or yours, if you continue to impose stigmas on the royal family recklessly, don’t blame my father for bringing down the blame on you.”

“That’s best.” Omi snorted.

“Drink.” Yun Bao rushed towards Omi.

“Swoosh.”

“Bang.” Omi easily slapped the cloud leopard and knocked it flying.

“Ah.” Yun Zi and the other three princes and princesses were silly, Omi was seriously beyond Omi’s imagination.

“Yun Lan, you’re on.” Yun Zi shouted.

Yun Lan was the bottom two in strength among them all.

“Bang.” Omi flew away with another palm strike. The first website m.kanshu8.net

“Ah, what.” Everyone was shocked, although Yun Lan was in the bottom two of them, he was also in the top six, but yet, he was no match for Omi.

On the podium, the emperor’s face was slightly moved, in fact he was already having great inner fluctuations.

Princess Yun Meng, who was next to the emperor, was also very shocked at the moment.

On the audience of courtiers, however, Zhou Tie was a little worried, his steps were too big, afraid that he would rip his eggs.

Zhou Tie himself didn’t expect that Omi could be so strong, simply like a step to the heavens, such popularity may not be a good thing, especially, Omi defeated so many princes one after another, the emperor’s face definitely can’t hang.

Zhou Tie sighed, in his previous life, Zhou Mi was too mediocre, but in this life, Zhou Mi was too popular.

In the ring, Princess Yun Zi said, “Zhou Mi, very good, then let me meet you.”

"Please, Princess." Omi politely arched his hand, but Omi's politeness was only external, but inside Omi was not polite anymore.

"Ten Thousand Violet Reds." Yun Zi cast a powerful spell, it was already her strongest spell, because she wanted to defeat Omi as fast as possible, the faster she defeated Omi, the more she could show her strength, the more the royal dignity would be salvaged.

However, Yun Zi Zi was a bit dumbfounded after seeing Omi's return hand.

Only to see Omi's double palm slash, a silent wind blew out, destroying all of her spells and toppling back.

"Ah." Yun Zi was careless, but she was attacked by her own spells that toppled back, and flew back with a scream.

Yun Zi was embarrassed, she was such a genius that she had lost her face right off the bat.

Omi said, "Princess Yun Zi, I hope that you will be careful during the match, although I, Zhou, am indeed very handsome and attract countless young girls who want to marry, I cannot see the distraction."

"What did you say bullshit, I see you dazed, you Dengtong prodigal son, how dare you insult this princess." Yun Zi was furious, especially with those few that led to countless maidens wanting to marry.

Yun Zi killed again, and this time, she lost her mind a bit.

Omi made a virtual grasp gesture in the air, and suddenly, the cold wind was everywhere, and within Omi's gesture, countless knives and shadows were flying like.

"Ah." Yun Zi screamed again, her hair was disheveled, Omi didn't know what kind of spell, making her have no power to fight back.

In the next second, Omi said, "Princess Yun Zixi, I'll take over."

"You." Yun Zi Zi was angry and furious, Omi had insulted her, but she had no way to take revenge and lost without a fight back.

On the podium, the emperor's face sank with disappointment, looking at Omi's strength, he was definitely going to be the first place, and his royal family, he was finally going to give up a first place.

Omi said to the rest, "Do you want to go together, or one by one, or, admit defeat."

The rest of them didn't dare to go up and be abused by Omi, who didn't even have the strength to fight back against Yun Zi, let alone them.

"Since that's the case, I, Zhou, have won ten matches, I, Zhou, have claimed the first place in the pre-human immortal stage, hahaha." Omi laughed out loud.

The judge looked at the emperor, then said, "Zhou Mi, congratulations, alright, the rest of you continue."

More than an hour later, everyone had finished their battles.

Omi had won ten matches and Princess Yun Zi had won nine, losing only to Omi.

However, Yun Zi was not happy at all.

This pre-human immortal ranking competition, the royal family didn't have the limelight either, but instead lost a lot of image.

Yun Zi gnashed her teeth at Omi.

When Omi saw Yun Zi Chen's gaze, there was a bit of fire inside.

If not for the lack of strength, Omi really raped and then killed her, what a thing, Omi just defeated her, did not let the royal family continue to top three just, making it seem as if Omi shit on the royal family's head.

One had to bow under the eaves, Omi also understood this truth.

"I announce that the Human Immortal Pre-Ranking Competition, is officially over, the first place winner is, Zhou Mi, the second place winner is, Yun Zi, and the third place winner is, Yun Chun, congratulations to all three of you."

The entire crowd cheered.

In the crowd, Belinda Ma was also excitedly cheering for Omi.

"Everyone should go home today, tomorrow we will continue with the mid Human Immortal ranking match." The referee shouted.

The crowd dispersed.

The emperor got up to leave with an unhappy face, and Zhou Tie immediately went up and kneeled at the sight of him.

"His Majesty atones for his sins." Zhou Tie kneeled.

The emperor's eyebrows furrowed and hummed, "What sin."

"Sovereign, I have taught my son incompetently and insulted the divine authority."

"Hmph, it's just getting the first place in the pre-human immortal stage, why mess with the Holy Might, when the Holy Might is so easy to mess with?"

"What His Majesty said, I was overly concerned."

The emperor turned around and flew away.

This scene, Omi had seen it all, Omi was very unpleasant inside, the reason why Zhou Tie went up to kneel was because he was afraid that Omi would win the first place and cause the emperor's discontent, afraid that the emperor would be small-minded and intentionally stifle it.

Omi said, "Belinda Ma, go home."

"Yes, young master." Belinda Ma obediently followed Omi back to the Zhou residence.

Not long after Omi returned to the Zhou residence, Zhou Tie also returned.

Omi immediately went to Zhou Tie's study.

"Lord Father."

"Mi'er, good job, you made my father, never dreamed of it, huh." Zhou Tie smiled, but the smile wasn't really happy.

"Is father-sama blaming me for not deliberately draining the water and giving the top three to the royal scion?"

"Alas, it's already done, what's the point of talking about it. It's all because my father didn't tell you beforehand, if my father had known your true strength, I would have warned you to drain the water and give the top three to the royal descendants."

Omi said, "I'm sorry, father-sama, I just wanted to surprise you, so it seems that in the past sessions, it wasn't that no one could win the top three, but rather, even if they had the ability, they deliberately let the water out."

"Although I have to be unsure that it must be, I think that a smart person would choose to drain the water, there is no need to compete with the royal children for the top three. The emperor's face was very unhappy when you won first place today."
