2008

Mu Qianji stared, "Cold mix."

In the evening, Omi and Belinda Ma left, while Omi's relatives continued their cultivation.

On the way back, Belinda Ma was preoccupied.

"Why don't you talk."

"No."

"Still saying no, it's been weird all day today."

"Oh."

Belinda Ma plucked up her courage, "Zhou Mi, I have a question for you."

"Say."

"Did you tell your ladies today that you were because you felt indebted to me?"

"Yes, why else would I be so kind to help you, is it because you're a beautiful woman, how could it be, which one of these ladies of mine has a worse posture than you." First URL [m.kanshu8.net](http://m.kanshu8.net)

"Oh." Belinda Ma was deeply lost inside.

Julie Ma said, "Then I've also become 69th on the genius list now, and any debt you owe me is enough to make up for it."

"Oh, if you think that the hatred I defiled you with before can be offset, then it's considered compensation."

"Of course it can be offset, so what about after me?"

Omi said, "There may not be much that I can continue to help you in the future, but it's mostly up to you."

"I understand." Belinda Ma thought that Omi was going to drive her away and almost didn't cry.

Omi took out an Immortal Pill: "Here you go."

"Ah, I thought I didn't have any?"

"Just kidding, alright, go back and take a nice shower."

"Why?"

"Hehe, the promise we made three years ago, you won't have forgotten, if you can make it to the top eighty, you'll willingly follow me, hehe."

"Ah, there is, is there such a thing?" Julie Ma blushed, hypocritically lowering her head to say that she was, in fact, expecting it last night, which was so hypocritical, but she was a woman, and being reserved was understandable.

"You want to deny it, then forget it." Omi looked as if he wasn't interested.

"Ah." Julie Ma was anxious inside.

"Uh, you remembered?"

Belinda Ma had to nod her head, "I remember."

"Haha, let's go back then."

After going back, Belinda Ma immediately went to take a shower.

And Omi went to Zhou Tie's place.

"Mi'er, what do you want to find me ah, don't worry, I snooped around the court today, the emperor, although unhappy about the royal descendants losing the first place, did not blame it on you, but more so, he punished the royal children. That Yun Zi Princess, who lost to you, was punished as well."

"Uh, I thought that he would kill me, thinking that I was a threat to his empire." Omi said somewhat unexpectedly.

"Mi'er, you're thinking too much of this, no matter how talented you are, you're only a pre-human immortal, if you want to threaten the Dao Yun Gong Immortal Kingdom, you should at least get the Earth Immortal level, you're thinking too highly of yourself."

"Looks like it."

"That Cloud Violet Princess seems to be very resentful towards you after being punished by the emperor, you should be careful lately, in case she does something bad, don't go anywhere at home lately. Also, although the emperor didn't deal with you, he also revealed to the courtiers that you are quite disrespectful in your words to the Immortal Kingdom, and that you don't really consider the Immortal Kingdom as your home inside, and the emperor wants me to discipline you more. I think the emperor is reminding you of that."

"Uh."

That was right, Omi really didn't love and care for this place as his homeland.

Omi took out a few immortal pills.

"Ah, Mi'er, where did you get the immortal pills?"

"Father.

It's an Immortal Pill that I made myself."

"Oh, don't tease me." Zhou Tie laughed, Zhou Tie knew one thing, Omi had gone to plead with Master Chen to accept a disciple and was rejected, did, Omi suffer from delusions because of this?

"Alright, I'll give it to you anyway, take it and give a piece to your stepmother." Omi didn't bother to prove it and quickly left.

Zhou Tie worried, "It's not really delusional, is it? It's not his fault, after all, the Immortal Master's status is too noble, every year there are countless people who want to become Immortal Masters but fail and end up getting delusions, alas."

When Omi returned to his residence, Belinda Ma had been waiting for a long time, and was standing at the door.

"Waiting for me."

"Who's waiting for you." Belinda Ma shyly ran back to her room.

Omi immediately followed her in, then closed the door.

What happened after that was less childish and not to be mentioned for now, the only thing that could be mentioned was that an hour later, Belinda Ma, already felt deeply inseparable from Omi.

On the third day, the Genius Ranking Re-ranking Competition, which was in full swing, was officially over, and Princess Yun Meng, who was in the late Human Immortal stage, won the first place in that level. The top three in the middle Human Immortal stage were still the royal descendants, and only the first place in the early Human Immortal stage was obtained by Omi.

The emperor was slightly less depressed as a result.

"Young Master Zhou Mi, what are your plans for next?"

"Go to Upper Yama Island and assess the title of First Class Immortal Master." Omi said.

"You really have to go."

"Yes."

Just then, the butler came to inform.

"Young Master, the Master wants you to go."

Omi arrived at the hall where Zhou Tie was waiting for Omi.

"Father, what is it?"

"Mi'er, get ready, come with me to the palace, the emperor summons you and me."

"Uh, yeah, okay."

Omi immediately followed Zhou Tie into the Immortal Kingdom Palace.

The Immortal Kingdom Palace was very big, and Omi and the others couldn't fly, they could only walk.

As they were walking on a main road, Omi saw Princess Yun Meng not far away.

Zhou Tie panicked and brought Omi up to pay his respects.

"Paying homage to Princess Yun Meng." Zhou Tie made a slight series.

Princess Yun Meng looked at Omi and Zhou Tie, then said, "There's no need to salute Servant Zhou."

"Thank you, Princess."

Zhou Tie hinted at Omi to pay his respects.

Omi, however, looked at Princess Yun Meng's dress today, which was very beautiful, and looked a bit dazed, really wanting to press her down.

While thinking nonsensically, there was an angry scolding from Princess Yun Meng: "Have you seen enough? Thoughtful."

"Not yet." Don said subconsciously.

"Mi'er." Zhou Tie's face went white.

Omi came back to his senses and said, "It's finished, I've seen too much, I have to blame Princess Yunmeng for being too beautiful, too conquering. After all, a dream lover from a previous life would definitely have a great impact on Omi, making it sound like how long Omi had been admiring her now."

Zhou Tie panicked: "Yun Meng Princess forgiveness, my son has not seen any beautiful woman, so close to see Princess you, can't help but temporarily, look lost, I hope Princess forgiveness ah."

Princess Yun Meng, who was being annoyed, was suddenly a little less angry, and also blamed Zhou Tie for being able to speak, saying that it was hard to be angry.

Omi was depressed, who the hell has never seen a beautiful woman, Omi has slept with an unknown number of beauties.

Princess Yun Meng said, "Servant Zhou, I expect you to go back and discipline Zhou Tie properly, don't think that just because you won a first place, you think you're so great. I, Princess Yun Meng, am not something anyone can delude themselves about."
