

# King of kings

2013

Omi was in the same place, guiding the town's people in cultivation for a day.

Yun Zi and the others were very resentful and had nowhere to do anything.

However, half a day later, they found a solution.

"Princess, I've thought of a solution."

"What solution?"

"Princess, Omi can instruct others in cultivation, why can't we? We can also instruct the people here in another part of town, day and night, in cultivation. Omi is only a pre-Human Immortal, while we, a late Human Immortal, will then have people running to our side."

"Huh, right, a strong person guiding a late stage Human Immortal will definitely draw the people here over, and then, when there's no one here for Omi, we'll be able to do it."

"Haha, you're so smart, just do it."

And so, within half a day, an even more shocking news came from the town: on the other side of the town, there was also an Immortal guiding, and that Immortal was a late stage Human Immortal, who also made no distinction between day and night.

When they got this news, suddenly, the people lining up on Omi's side of the line turned to the other side, and there were fewer and fewer people on Omi's side.

"I'm going." Omi was depressed, this tactic, it was really a way to deal with his own people. One second to remember to read the book

Omi had to think of something quickly, if this continued, soon he would have no one here, and once there was no one, Cloud Violet's would immediately do it.

"Fuck." Omi was on fire.

Just then, the Devil King's immortal thoughts contacted Omi.

"Senior Demon King, you're just in time."

"What's wrong?"

"Senior Demon King, they're going to make an early move."

"Ugh, I thought you said that you had a way to make it impossible for them to do it."

"I didn't expect them to use my method to deal with me, but now I have fewer and fewer people around me."

A few seconds later, the Demon King said, "I've sensed their location, just a few kilometers east of you, and they're watching you."

"Damn, this is to force me."

"Omi, this is all I can do to help you."The Devil King was regretful.

Omi was busy saying, "Senior Devil King, I've obtained a magic treasure in the Spirit Realm, help me look at this treasure."

"Eh."

Omi immediately took out the Past Life Mirror.

The Devil King immediately recognized it and said, "This is the Past Life Mirror, I used it back then.If it has immortal energy, it can make a powerful opponent's body regress, and as for how much it regresses, the difference in strength between the opponent and you.The bigger the strength gap, the smaller the regression, and the smaller the strength gap, the bigger the regression.For example, regressing back to when you were young, or even regressing to a drop of liquid."

"There I go, a drop of liquid."

Omi thought it was mysterious, but it turned out that the Devil King had used it and even knew no less than Omi about the former mirror.

The Devil King said, "I never thought that it would be in your hands now."

Omi said, "Senior devil king, since you used this past life mirror in your previous life, why is it in my hands?"

"Back then, when I ascended, I had no choice but to stay behind, you should know that I ascended on my own, and before I ascended on my own, I couldn't take it with me, no matter if it was a pseudo-immortal artifact or anything else."

Omi remembered that the five pseudo-immortal weapons in the spirit world were just passed down from one generation to the next, because every owner couldn't take them with them.

Omi was able to bring the former mirror with him because Omi was not the

Ascended by regular channels, but instead, Bimon tore through space to bring him up.

"Senior Demon King, then this former World Mirror can deal with my enemies?What level of immortal artifact does this front world mirror belong to?"

The Devil King said, "You don't need to get too excited, lest you be disappointed, this former life mirror is just a low-grade immortal artifact, but you're also lucky that it's not an ordinary low-grade immortal artifact, this former life mirror, I don't know what origin it has, the age is probably very old, at least over 100 billion years old.Therefore, it gradually degraded."

"What if it wasn't degraded before?"Omi was busy asking.

"Before it was degraded, this Immortal Artifact was at least a top-grade Immortal Artifact, possibly even a supreme grade."

"Ah, so strong."

"There's no point in asking, it's already degraded, unless you have the ability to repair it, but that's impossible because even I can't do it, degradation is irreversible."

"Oh." Don was both disappointed and depressed.

"That means that I can't even use it against my enemies now."

The Devil King said, "You can only try, weaken your opponent's strength as much as you can, even if you can set your opponent back a hundred years, that's still better than nothing. You should also know that between immortals, each layer of cultivation is difficult, which means that the gap between each layer is very large, and with a large gap, the former mirror plays a small role."

"Mm." Omi could only nod, channeling his Immortal Qi into the Existence Mirror and making an attack at any time.

What made Omi other than that was that after he became an immortal and filled the former world mirror with his immortal Qi, his body did not have much less immortal Qi, which meant that Omi could use the former world mirror almost continuously without restriction.

Soon, on Omi's side, there was no one left for him to guide his cultivation.

Omi smiled bitterly.

At this moment, Yun Zi from afar gave a command, "Go up and capture him, don't kill him yet, I want to torture him personally."

"Yes, princess, we'll just subdue him."

In the next second, two mid Human Immortal powerhouses surrounded Omi.

These two mid-Human Immortal strongmen were not far from cultivating, and were just starting out on the path of mid-Human Immortal. Omi, relaxed a little inside.

"Zhou Mi, your end has come." One of them said.

Omi said, "Who are you guys and why are you trying to kill me?"

"There's no harm in telling you, you're going to die anyway, and our master, Princess Yun Zi, wants you to die."

"Hmph, this bitch."

"How dare you, you dare to insult the princess."

"Fuck you, you're going to kill me, and I don't even dare to insult her?"

"Cut the crap with him and capture him."

Omi immediately ex-worldly mirror swept, taking advantage of the fact that they were not paying attention and were completely unaware of the situation.

"Swoosh." It was like two intense lasers that swept over them.

Those two mid-Human Immortal powerhouses never expected Omi to have immortal artifacts.

Immortal artifacts were something that no ordinary immortal deserved to have, especially a weak person at the Human Immortal level. Even Princess Yun Zi hadn't had a single Immortal Artifact until now, and in the entire Yun Luo Immortal Kingdom, only the Emperor possessed a primary Immortal Artifact, and after that, there were five other Mortal Immortals who possessed a low-grade Immortal Artifact, which meant that in the entire Yun Luo Immortal Kingdom, only six people possessed Immortal Artifacts.

Therefore, Omi's sudden appearance of an Immortal Artifact in his hands had blinded them all.
