

King of kings

Chapter 2016

The Devil King immediately informed that woman called Star Luo.

That woman called Star Luo was also a little surprised to learn that Omi had actually solved it by himself, and in her place, if someone two realms stronger than her killed her, she didn't know if she could avoid it.

In that forest, after Yun Zi walked out of the cave, her eyes were dull and kept walking forward.

Omi lived up and said, "The direction is reversed, it's the direction of the Upper Fey Yan Continent, not the direction of the Yun Luo Immortal Kingdom."

However, Yun Zi seemed not to listen to Omi's words at all and still went in the direction of home.

Omi went up to her and hoisted her up. Omi had to give her some color, otherwise even if he took her as a slave, but she was still grippy and useless.

"Yun Zi, you are now my slave, you need to figure out your identity, understand?"

"Let go of me." Yun Zi said with a grim gaze.

"If you still dare to talk to me like that, then I'll make you feel the pain."

After saying that, Omi immediately moved his mind.

"Ah." Yun Zidun emitted pain from the depths of her soul. One second to remember to read the book

"Ah." Yun Zi fell to the ground and rolled over, holding her head in her hands.

The wild moth rushed up and said angrily, "Zhou Mi, what have you done to the princess, don't stop right now, or I'll kill you."

Omi snorted, "Kill me? That would be like killing her."

"You."

"Noddy, instead of threatening me, why don't you talk to your master properly about what it means to offer your soul to me."

Yun Zi said painfully, "Zhou Mi, please stop, I was wrong."

"It's easy to stop, but I'm afraid that you still won't recognize the mistake, and still I'm doing what I'm doing."

"I really know, I won't dare to do it again, please stop, ahhh."

Omi looked at Yun ZiChen a girl, tumbling on the ground in pain, her clothes were torn by thorns, somewhat compassionate.

Only then did Omi stop.

Cloud Violet's soul no longer hurt.

"Oooh." Yun Ziwei cried as she looked at Omi in horror.

Omi said, "Listen carefully, I'm going to Upper Wilderness now, you guys are coming with me, and you, Wild Moth, you are in charge of protecting my safety. And you, Yun Zi, are in charge of my living issues. Understood?"

"Yes." Yun Zi nodded painfully, like how proud and domineering she was, but now she was being packed by Omi and didn't dare to resist.

And that wild worm gritted his teeth, but he had to nod his head.

Omi returned to the town first, where Belinda Ma was still in the town.

"Zhou Mi, where have you been." Belinda Ma asked anxiously when she saw Omi return.

"Nothing, go get ready and leave right away."

"Ah, Princess Yun Zi." Belinda Ma immediately saw Yun Zi and went up to pay her respects in a panic.

"Pay your respects to the princess." Belinda Ma didn't know how it could be such a coincidence.

Omi said, "Yun Zi is also going to Upper Feyama, accompany me."

"Ah, why?" Belinda Ma was puzzled.

Omi couldn't talk nonsense about his soul being taken away by him for fear of people spreading the word, so he casually said, "Yun Zi worshipped me too much and followed me all the way here."

"Oh." Belinda Ma looked half-hearted, because, Yun Zi's nose and face was swollen and anyone could see it.

Omi added, "She almost had an accident just now when she ran into the enemies of the Sunless True Kingdom, but fortunately, I saved her, only then did I realize that Yun Zi worshipped me so much, and followed me here."

"Oh." Belinda Ma was a little lost inside, she didn't expect that Omi would even worship him as a princess.

Yun Zi didn't have any cunning, but her eyes didn't have any radiance.

Omi immediately set off and headed straight to Upper Feyama Continent.

There was still ten days and half a month's journey to Upper Fey Yan Continent, and if the sun and moon made the journey, they might be able to get there in six or seven days, or even earlier, but Omi couldn't be in such a hurry.

A day later, the four of us, Omi, entered the border of the No Shangzhen Kingdom.

"There's a city ahead, let's stop for a rest and have lunch before setting off again." Omi said.

They entered the city, found an inn, and ate lunch.

Just like that, twelve days later, Omi finally arrived at Upper Fei Yan Continent.

Upper Fellows Yan Continent, which commanded all the immortal kingdoms, and all the immortal kingdoms were under the jurisdiction of Upper Fellows Yan Continent.

It was Omi's first time here, and he had never been here before in his previous life, but Yun Zi, who seemed to be quite familiar with this place, had come here at least more than once or twice.

After these ten days of calm, Yun Zi was in a much better mood.

"Zhou Mi, where exactly are you going? What are you doing here?" Yun Zi asked cautiously, she was afraid that Omi would get angry again and make her feel pain.

"I'm going to the Great Hall of Immortal Pill, to assess the first class Immortal Pill Master."

"You?" Cloud Violet wondered if she had misheard.

"Nonsense, it's hard to be you."

"Do you know how to make pills?"

"I can even clean up after you, what is a mere alchemy dan. I see you seem to be no stranger to this place, where is the Great Hall of Immortal Pills, not leading the way yet."

"Oh."

Under Yun Zi's guidance, he soon arrived at a magnificent palace.

There were many Xiantian masters in this hall right now, this was the union of Xiantian masters, all the Xiantian masters in the entire Upper Fertilization Yan Continent were registered here, without the certification of the Xiantian Grand Hall, the status of Xiantian masters would not be recognized.

Julie Ma said, "How strong is the strongest Immortal Dane Master in Upper Fey Yan Continent?"

"I don't know," Omi said.

Yun Zi said, "Fourth-grade Immortal Pill masters, but there are only two of them."

"Wow, rank four, how impressive." Belinda Ma exclaimed for a moment.

Omi didn't say anything, after all, Omi didn't dare to say that he could become a rank four in the future.

"What do you guys do?" Entering the Great Hall of Immortal Pills, an old man asked.

"Hello, I'm here to assess my status as a first level Immortal Pill Master." Omi said.

"Who is your master?" The man asked.

Omi shook his head and said, "Does it have to be a master without a master?"

"Without a master, then who taught you how to make immortal pills?"

"Does someone have to teach it? Can't I learn on my own?"

"Hahaha, what a joke, making Immortal Pills is the hardest thing in the world, you actually say self-learning, are you insulting us Immortal Pill masters?" That old man actually got angry.

Omi looked at that old man's chest, and there was an identity marker hanging on his chest, a Second Grade Immortal Pill Master.

Omi burst into shame and said, "A rank two Xian Dan Master actually dares to be so angry."

"What?"

"No offense, you're just a Level 2 Xiantian, don't act like you're so powerful. Alright, I'm going to register."

"Hmph, you brat, how dare you be so arrogant, get out of here, you don't want to have the assessment without my permission, even if you really are a Level 1 Xian Dan Master, you don't want to have this status."
