

King of kings

2040

Omi took the remaining two immortal pills and then entered the closed door.

Omi immediately sensed the accumulated Immortal Qi in his body.

"580?"

Omi was a little surprised, not long after the Immortal Pill had been consumed, the Immortal Machine had accumulated a value of 580, of course, this value was not a specific value, it was what Omi had approximately felt.

When Omi felt it again, he had already stepped into the middle stage of Human Immortal.

Moreover, Omi had reached the halfway point in the middle Human Immortal stage.

"Two Immortal Pills to raise me to halfway to the mid Human Immortal stage is not bad at all."

Omi felt that as long as his Immortal Machine accumulated to 1000 again, he could step into the late stage of Human Immortal.

Only, it was very difficult to accumulate from 580 Immortal Machine values to 1000. Without any Immortal Pills, it could take tens of thousands of years just by Omi himself.

Don't think that this was a joke, Immortal upgrades were easily 100,000 or a million years, and 10,000 years was already very short.

"Yun Zi." Three days later, Omi walked out of the cultivation room. One second to remember to read the book

"Zhou Mi, are you out so soon, my father said that in order to maximize the effect of the Immortal Pill, it must be thoroughly digested before the retreat can end." Yun Zi was busy.

Omi smiled, "I've thoroughly digested it, look at my realm."

"Ah, mid Human Immortal stage, you've even stepped into the mid Human Immortal stage." Yun Zi was incredulous.

"Yes, but there's nothing to be happy about, I was also more than halfway to pre-Human Immortal cultivation before." Omi said.

Yun Zi said, "Do you know that my father's highest expectation for you is to be able to let you cultivate to the end of Pre-Human Immortal, but my father said that it's difficult with only three 100 million year old Immortal Pills. However, I never expected that you would directly enter the middle stage of Human Immortal." Yun Zi seemed to feel beyond imagination.

"Hehe." Omi knew that that was without the Immortal Machine Spitting Technique, Omi had the Immortal Machine Spitting Technique, and any bit of Immortal Machine would accumulate without causing a single bit of waste or loss, which was incomparable.

"Quick, come with me to see my father, my father would be shocked if he knew, this means, you are very genius. The better the effect, the higher the Immortal Fate, i.e. the higher the talent."

"Oh, good."

At this moment, in the palace hall.

The emperor contemplatively said to his close retainer, "Guess how much Zhou Mi advanced after taking three Immortal Pills?"

"Sovereign, I don't think there's much progress, after all, it still takes time for immortals to settle down when they upgrade, and no amount of immortal pills taken in a short period of time will improve it much."

Just at this moment, Yun Zi and Omi walked in from outside.

"Father."

"What are you guys doing here, Zhou Mi, didn't you just take the Immortal Pill? Why don't you close the door properly." At this point, the emperor's eyebrows furrowed in shock as he said, "You've stepped into the middle Human Immortal stage?"

"Exactly, I have come to pay my respects to His Majesty, but if it wasn't for His Majesty's grace, I wouldn't have been able to step into the middle Human Immortal stage so quickly." Omi bowed.

The emperor, however, was startled there.

The effect of Omi's use of immortal pills greatly exceeded the emperor's expectations, thinking that it would be good for Omi to be able to cultivate to the end of the pre-human immortal stage.

Yun Zi was also busy saying, "Thank you, Father, for your kindness to my husband."

The emperor smiled, "Zhou Mi, it seems that you are indeed extraordinary, with an extremely deep immortal fate, otherwise, it is impossible for you to become a middle stage Human Immortal so quickly. One level at a time, you are now looking back at the Human Immortal stage, all of them are ants, congratulations. I expect you to treat Yun Zi well, don't let down my king's good intentions." The emperor spoke in a somewhat sour tone.

"Yes, humble servant will definitely love Yun Zi more than love

Himself."

Cloud Violet sounded sweet.

"Go down."

Only then did Omi and Yun Zi left.

Inside the emperor's heart, he wasn't really happy for Omi.

It was a very complicated feeling, human nature was all selfish and complicated.

The emperor thought of himself, in the pre-Earth Immortal stage, I don't know how many years, has been unable to go up to the middle Earth Immortal stage, one layer a day, he really wanted to become the middle Earth Immortal stage, right now see Omi so easily enter the middle Human Immortal stage, how could he not be sour.

After Omi left, he said, "Your father doesn't seem to be very happy."

"Uh, does he."

"Oh, I should be mistaken." Omi laughed, but Omi had an extra piece of mind inside, it was better not to be too piercing in the future, it was very scary when people got jealous.

After that, the emperor issued an order, Zhou Xianma stepped into the middle stage of Human Immortal, and the whole country went on vacation for three days.

Omi was somewhat speechless, making such a big battle.

In fact, it wasn't an exaggeration, a member of the royal family upgrading, that was such a big deal.

After the national celebrations ended, Omi came to the Dan Room again.

Omi was brimming with springtime, while Master Chen was still painstakingly concocting pills.

"Master Chen." Omi called out.

"What are you doing here." Grandmaster Chen snorted.

That Ah Miao was busy begging Omi, "Greetings to Zhou, congratulations to Zhou on stepping into the middle stage of Human Immortal."

Omi said, "Yo, even you can tell my realm?"

"What did Zhou prince-in-law say, you stepped into the middle stage of Human Immortal, the country took a three-day vacation, and we also had a rare three-day break."

"So that's it."

Omi looked at Master Chen and said, "Master Chen, how well did you consider my proposal last time?"

"Hmph, if you want me to guide you in alchemy, fine, but what guarantee do you have that the Emperor can release me?"

Omi said, "I can't guarantee it, but since I, Zhou, have made a promise, I will find a way."

"You're clearly trying to cheat."

"It seems that you don't believe me, so forget it, goodbye." Omi didn't bother to say anything more, anyway, this Master Chen was also an extremely poor level Second Grade Immortal Pill Master, so don't let him teach you badly.

Omi thought about it, it was better not to rush, take it one step at a time, he still had a long life ahead of him anyway.

Omi walked away.

Master Chen's heart, however, was filled with regret, his only chance was gone.

Omi arrived at the palace, and as soon as he entered Yun Zi's courtyard, he saw Yun Zi and Yun Meng inside.

"Husband, you're back." Yun Zi happily came up.

Yun Meng also looked to Omi and smiled at him, "Congratulations, Zhou Mi."

"Thank you." Omi nodded, looking at Yun Meng's eyes, both of them were a bit strange.

However, Yun Zi didn't see it.

Yun Zi said, "We're going to sweep the graves, do you want to come with us?"

"Grave-cleaning? Whose grave to sweep?"

Cloud Violet said, "Brother Cloudfall's grave."

"Yunluo?" Omi immediately said in his mind, searching the memories of his past life.

Omi immediately knew.

Yun Luo was a very talented prince of the Yun Luo Immortal Kingdom in the past, but unfortunately, he was later killed.
