Chapter 2076

Omi took a lot of effort to get home.

"Damn, I didn't expect that a perfect score on the exam would make so many people worship me." Omi said with a wipe of cold sweat on his forehead.

"Husband, I also worship you." Yun Zi said happily.

"Worship can be a meal."

At that moment, Xing Luo walked in from outside.

"Omi, you've really surprised me." Star Luo smiled.

"Haha, Miss Xing Luo is over-praised."

"You're overpraised even with a perfect score."

"It's just theory, what's the big deal, there's the practical part next." Omi said modestly, there are some people who understand the theory but the practical part is another thing, when he used to study, wasn't that the case for many students.

"Although it's true, the fact that you were able to get a perfect score in theory shows that you are incredibly talented, I think that Tian Xiang would have to be willing to do the same." Star Luo said.

"Haha, Miss Xing Luo is exaggerating, I'd rather wait until the practical competition is over as well for such words." Remember the URL .kanshu8.net

"Well, I'll be looking forward to your results for the practice portion." Star Luo smiled.

If Omi still received high scores even for the practice part, then Omi was definitely a divine talent.

Star Luo left first, and not long after, Master This Summer also returned.

"Master."

"Disciple, the Immortal Pill Conference, it will continue tomorrow, so hurry up and go review."

"Good. By the way, Master, the practical part of the Immortal Pill Assembly competition, there are results as well?"

"Of course, the comparison is to the potency of the immortal pills, there will be a special immortal potency testing immortal device that emits a colorful light, the brighter the light, the higher the quality and the better the effect of the immortal pills after consumption."

"Understood."

Omi went off to refine the pills.

Of course, there weren't that many immortal grasses to practice with, so the lowest grade of immortal grasses were used purely for practice.

Right now, at a certain mansion.

"Master, the Zhou Mi theory test and got a perfect score, did you know that?" Tian Xiang said to her master.

Grandmaster Green King nodded, "I've already heard about it, I really didn't think, this kid really has some talent. As such, counting him far away, I will allow you to take him as your disciple."

Master Tianxiang said, "Master, I'm afraid I'm not qualified to take him, I think, you can take him as your disciple."

"Joke, you want to accept him with just a perfect score in theory?"

"Master, isn't a perfect score in theory enough? His papers are posted and I've looked at them, and it's true that there are no deductions."

"Tian Xiang, I said that you're simple, and you're still not convinced. What if this is intentional?"

"What do you mean?"

The Green King said, "Tianxiang, you should also know how many people in the entire Upper Fey Yan Continent want to become my disciple, but unfortunately, how many people are seeking to do so. If that Zhou Mi, who colluded with the Immortal Pill Palace, leaked the questions in advance and deliberately made Omi score a perfect score on the exam, then, wouldn't that wish to be accepted as my disciple be fulfilled?"

"Ah, this, it's impossible."

"Tian Xiang, knowing people's faces and hearts, there are all kinds of people in the world, after the practice part, I'll keep an eye on Zhou Mi to see if he really has this talent, if he's so good at the practice part, too, then only then can we be sure that this is true."

"Alright." Tian Xiang nodded.

The next day, Omi went to the Great Hall of Immortal Pills early in the morning.

"Good morning, Master Zhou.

."

"Brother Zhou, you're here so early."

As soon as he entered the main hall, Omi was immediately greeted by many people, a world of difference from his last visit.

"Polite and courteous." Omi also responded politely.

However, there were also people who sneered at Omi and snorted in a small voice, "It's just theory, it's nothing."

There were also some who were very jealous and went so far as to insult, "Trash."

For this kind of people, Omi also really have nothing to say, moving to curse people trash, this kind of talent is the most most trash, heaven and earth all things session useful, nothing is trash. Even if a lump of shit, it can still be used as fertilizer, it's not trash.

Not long after, the sound of booming talk came from the door, Omi looked towards the door, Tianxiang and her master Green King came, many people greeted.

As soon as Tianxiang entered the main hall, she saw Omi.

"Zhou Mi, you're here." Tianxiang came over.

"Meet Master Tianxiang." Omi said respectfully.

"Oh, there's no need to be so polite."

At that moment, Green King also came up and said to Omi, "Zhou Mi, yesterday's theory results were good."

"Thank you, Senior Green King."

"Don't thank me yet, I haven't promised to let you be like my master." Green King said evenly.

Omi was startled, his heart was very unhappy, Mombi, did Omi say he wanted to enter his master's gate? It was just a polite way of saying thank you.

However, Omi didn't bother to offend him, smiled and didn't say anything.

Green King said, "Zhou Mi, the results of the theory are good, but not exactly your own answer, there's a bit of a test on that."

"Does senior think that wasn't my test?"

"It doesn't matter if you took the test or not, it doesn't matter now, the practice competition will start soon, and if your score in the practical part of the test doesn't match your score in the theory, then it will be clear if you did or not," Green King said.

Omi said, "Senior Green King is right."

"Zhou Mi, this time, I came here on purpose to keep an eye on your participation in the practice competition, so that you don't have the slightest chance to cheat, and if you had better indeed deserve the results of the theory test, then I will consider letting you join my master and worship Tian Xiang as your teacher. Alright, you don't need to get too excited, although I have come to inspect you on purpose, you should indeed be excited." After saying that, Senior Green King turned around and walked away.

Omi internally scowled, "What a thing."

In fact, Omi was resisting within, but, a bit of a pity, if he could really worship the Green King, then Omi would almost be able to walk sideways in Upper Fellows Island.

However, this Green King was high and mighty, as if Omi was stubbornly and desperately trying to worship him, which made Omi resentful.

Tian Xiang said to Omi, "Zhou Mi, work hard oh, I'm very optimistic about you."

"I will." Omi didn't bother to say anything to defame her master.

Not long after, the master of the Immortal Pill Conference came.

"Everyone, please be quiet."

Everyone immediately quieted down.

"The theoretical exam is over and everyone knows their respective results, starting from today, we'll be doing live practical alchemy, please be prepared, everyone only has one chance. Next, please level one Xian Dan masters, to the largest hall, level two Xian Dan masters followed by level three Xian Dan masters again."

Tens of thousands of first level Immortal Pill masters came to a largest hall that could hold tens of thousands of people, it was huge. At the moment, there were already tens of thousands of First Grade Immortal Masters standing, but it still appeared to be still very empty.
