

King of kings

2188

omi smiled, "How come you're working for someone."

"Of course, I earn immortal coins ah, one immortal coin for ten years, and one thousand immortal coins for ten thousand years. And before me, my family only gave me over a hundred immortal coins for expenses in ten thousand years. And now, with ten times more, I can still subsidize my family."

"So lucrative, I remember, my brother, who was an instructor in the Immortal Pill Department, only had 100 Immortal Coins for ten thousand years, and you worked in a training course for a thousand Immortal Coins for ten thousand years."

"Hehe, so it's really profitable to open a training guide now. This divine guidance I'm working for now is a collaboration between three instructors, and it's been running for almost 700,000 years, do you know, how much Xian coins they've made?"

"How much?"

"I heard that in these seven hundred thousand years, you've earned at least ten million Xian coins."

"Damn, that much."

"Yeah, that's why I feel bad for you, this was the first idea you came up with, and now it's a tool for others to make money. Ten million immortal coins ah, what do you think can be done, to the outside, there are so many things that can be done."

omi was all a bit depressed by what he said.

"However, you're just a student after all, even though the idea was something you came up with, even if you hadn't left and kept opening training courses, you probably would have closed down by now. Most of the training courses that are still able to continue to open now are opened by tutors, the vast majority of students, are more trusting of tutors, and it's hard for students to survive, and even if they do, their business isn't too good."

omi nodded his head. One second to remember to read the book

omi said, "I'm not giving up on this market, I'm starting from scratch, Bai Hanyan, will you work with me?"

"Of course I'm willing, even if I can't earn a single fairy coin, I'm willing to work with you." Bai Hanyan said excitedly.

omi smiled and said, "Good, then you'll be my first partner."

"How do you want to do it? You have no influence here at all now, even if there are still people who knew you in the beginning, but they won't choose you to mentor anymore, they will choose mentors, and mentors are inherently dominant."

omi said, "What's a mentor, I can be a mentor if I want to."

"You?The Sun and Moon Divine Sword must be trained to at least 40 levels, and the realm must also reach Dao Immortal before you can become a tutor of the Air Tearing and Spellcasting Departments.I'm not sure about the Immortal Pill Department."

omi said, "In the Xian Dan Department, as long as the Xian Dan level reaches seven, you can go for an examination to become a Xian Dan tutor.I feel that I need to return to the Xian Dan Department, no one is running a training course yet, and I think that there is a market for Xian Dan instructors."

Bai Hanyan said, "The number of people in the Xiantian Department is small, that's what everyone knows."

"Right, so the market is small."

"The largest number of people is in the Spell Department, where there are at least four or five thousand, if not ten thousand, in each class.However, the Department of Magical Arts already has many training and instruction classes now, too, run by their Magical Arts instructors."

omi asked, "That fatty from the beginning, do you know where he was?"

"Fatty's still here."

"Okay, let's go find Fatty."

In a cave, omi saw Fatty, it's strange that after a million years, Fatty is still as fat as he is, and fairies grow fat too.

"Big brother, it's really you."The fatty looked at omi in surprise.

"Oh, yes, fatty, it's been a million years."

"Big brother, I thought you had disappeared."

"I went to the Xiantian Department."

"Big brother, did you know that

Know, now everyone is imitating you ah, it was your way to make money, now it's someone else's."

"Oh, I'm back from the Xian Dan Department now, don't worry, I'll get back what belongs to me.Isn't it just making money, will I still lose to those instructors."

"Big brother, great, I can finally continue to follow you."

Bai Hanyan said, "Brother Tang, what are you going to do?Open a training shop directly?I don't think anyone will look for you, there used to be many geniuses who tried to open up and ended up pouncing."

omi gazed and smiled, "There's no need to worry, although I'm very much without an advantage, I'm not completely without an advantage.As you guys just said, I was the first one to come up with this idea, and you all pounced for me, right?"

"Yeah, but what's the point of this?"

"That's my advantage, and I'm going to seize the 'founder' advantage now and thus package it."

“Package?”

“Oh, yes, package first, then start.”

Bai Hanyan said, “It’s useless, even if everyone knows you’re the founder, so what, people look at the mentor behind it, besides, those who know you’re the founder are very, very few.”

omi shook his head, “Your thoughts are all narrow-minded. Let me ask you guys, those mentors now open training and guidance shops, is every single one of them going to be personally guided by a mentor? Apparently not, I just went to that Boshi instruction to see if it’s a mid Upper Immortal in there.”

Bai Hanyan said, “Those instructors who run the training, of course they can’t instruct personally, after all, how could they be busy by themselves. However, they will hire people, and the people they do hire are geniuses, and these geniuses have been trained by those mentors. Although they can’t be personally guided by those mentors, they can at least be considered indirectly guided.”

omi said, “Good, now, the first thing I need to do is to find people, opening the shop with only the three of us is not enough, as for the second step, wait until we have all the people first.”

Fatty said, “Brother, is it really okay?”

“Please believe me, to be frank, it’s just business, I’m good at this.” omi said with confidence.

Bai Hanyan said, “If you’re looking for someone, I’ll help you find someone you can trust.”

“Who?”

“That’s the guy who was chasing me, that Johnny.”

“Johnny? Hasn’t he caught up with you yet?”

“How is it possible, I’ve never forgotten you.” Bai Hanyan looked at omi with emotion.

omi said, “I’ve been gone for a million years and I still haven’t forgotten me.”

“I told you, never.”

“Alright, let’s not talk about it, then you go and invite Johnny.”

Ten minutes later, Bai Hanyan came with that Johnny.

“omi, we meet again.” Johnnie said.

“Johnny, I’m back from the Xian Dan Department, and now, I also want to open a training and guidance shop, I wonder if you’d like to work with me.”

Johnny said, “By all means, you are my rival and I won’t work with you, but I admire you for the goddess I can’t desire and you have the courage to deny her, I admire that, so I will work with you.”

“Okay, that’s four now, but it’s still not enough, so let’s go find someone else. Let’s go to the Upper Immortal Middle Class and look for them.”

Next, omi brought Bai Hanyan, Fatty, and Johnny to the valley next door to the Upper Immortal Middle Class.

Here too, the two sides of the valley were filled with flags, in caves.
