

King of kings

2199

"Alright, Miss Tang Huan, Nong Yao has been executed by the academy, and later on I will send a letter to Nong Yao's family in the name of Immortal Academy, informing them that Nong Yao has been executed for harming the lives of others while at school."

"Thank you, Grandpa Right."

"You're welcome."

"Then we'll leave first."

"Okay, I'll report to your grandfather when he comes later."

"Thank you."

omi and Tang Huan quickly left the dean's house.

"Nong Yao died so easily ah, thought."

"Oh, that right grandfather is very crisp in his work, and he trusts me, I can't possibly lie, I can just execute Nong Yao without investigating."

"Haha, good to die, let's go then."

omi stayed at Gutta's house for one night, and the next day, omi left. Remember the website .kanshu8.net

omi went back to the Air Tearing Department, and disguised himself, using a fake identity, and casually entered an instructional class, he gave Xian coins, and then had the instructional class rehearse it all over again.

And so, practice and practice all the way.

90 years later.

"Hahaha." omi laughed out loud.

"Sun and Moon Divine Sword, I've practiced to the 41st floor."

"Shura Divine Sword, I've also practiced to the 40th level."

"The Sun Shooting Divine Arrow, I've also practiced to the 39th level."

"Heaven and Earth divine Hammer, I've even practiced to the 42nd level."

"Hahaha."

That's right, during these ninety years, omi spent all the remaining immortal coins he had, going to training courses time and time again, and as long as he paid, there were more people willing to rehearse it once to show him. Others didn't know that omi could learn by watching it once as a template, and thought that omi watched it once to see how others practiced it.

In this way, omi practiced the Four Great Empty Tearing Techniques up to about forty layers.

However, above the fortieth level, omi could not learn any more because the instruction class had no one stronger to guide him. Unless he went to a tutor, but tutors usually wouldn't take care of omi.

Most of the instructors in the Empty Tearing Department of Immortal Academy had only practiced these four types of Empty Tearing Techniques between the forty and fifty levels as well.

"Now, all the students of the Air Tearing Department, the level is below me, it's just that some of the instructors are just a little above me, I've reached the standard to open a training course, I don't know, how about those twelve people helping me promote it, I'm going to test it."

omi casually came to a place, and when he saw a passerby, he asked, "Hello, classmate, there are so many training course guidance classes now, do you know, when did this thing pop up ah? Who invented it?"

The man who was questioned by omi said, "I don't even know about this, it's really backward, this was invented a million years ago by a genius named omi from the Empty Tearing Department Sun and Moon Divine Sword Mansion, I heard that that omi made 2,000 Xian coins in three days, after that it was constantly imitated, so it had its current scale."

omi pretended to be surprised and said, "Wow, that omi, I'm really impressed."

"Oh, okay." That passerby said.

omi really wanted to chop him to death, but he said okay.

"Don't you think, that omi has a good brain? Oh yeah, is Don omi still running classes? I wanted to go to him, he was the first one to open, I thought, surely it's best."

"Oh come on, that Don didn't open for two shows, and then the whole thing disappeared and no one knows where he is."

"What a pity."

"What's the pity, even if he continues to open later, he'll definitely go out of business, so many instructors behind him

He also runs workshops, how does he compare to those instructors when he's a student."

"That's not necessarily so."

"It would have been."

omi hurried away, really afraid that he couldn't help but cleave to the person who had just dared to look down on omi.

omi came to another place and found another stranger to ask, "Do you know, who was the first to come up with the training course? Do you want me to tell you?"

That passerby gave omi a blank stare and grunted, *"You fcking thought you were the only one who knew about this?It's already fcking not a secret, okay."*

"Uh, no, everyone knows about it."

"Nonsense."

omi had tested the various classes of the Four Great Air Tearing Techniques no less than thirty times, and almost every time, others knew it like the back of their hand.

"Haha, looks like they've done a good job of propagating these past ninety years. Then, it's time for me to return." Saying that, omi resumed his original appearance.

omi found Fatty.

"Fatty."

"Big brother, you're back?"

"Yes. Where are the others?"

"Everyone else is at headquarters."

"Headquarters?"

"Yes, we've set up a headquarters to make it easier to advertise, so let's go, I'll take you to the headquarters."

"Good."

omi came to a certain valley, a remote place, there was a cave, inside the cave, there were more than a dozen people at the moment.

"Big brother is back." Fatty shouted.

Everyone in the cave ran out.

"Brother Tang."

"omi."

"Big brother."

Everyone called out.

omi swept a glance, Yun Xiaoyao, Bai Hanyan, Johnny, Lin Huajun, Ah Shan, Ah Liao, Mei Fu, Su Xiao Qiao, Shi Haoxiang, Zi Ling, several people were here.

"Everyone, I'm back."

"It's good to have you back."

omi said, "Everyone, you have worked tirelessly to promote me all these years, I am very grateful to you all. I just came back and tested it, and asked no less than thirty people, and they all knew about me, I think the entire Air Tear Department, and now I'm afraid my popularity is not low, thanks to you all."

"omi, you're too kind, we also want to believe that you can lead us to make a name for yourself in the Academy of Immortality."

"Of course."

Shi Haoxiang asked, "omi, I was very displeased with you before, but I still did my best to help promote you, now that you've been gone for ninety years, you said you went to the Spell Department, go ahead, show me what you've accomplished in these ninety years, if you haven't accomplished much in these ninety years, I'm sorry, I'll probably leave, showing that you're nothing more than that."

omi harrumphed, "That's so direct, but I like it, and I believe that's the problem for everyone. Then I'll tell everyone what I've been doing for the past ninety years. In these ninety years, I didn't choose to practice spells because I thought that the Air Tearing Technique was already strong enough and there was no need to waste time practicing spells, so I closed the door to practice the Air Tearing Technique."

"Yeah, then may I ask, what's your current level of the Air Tearing Technique, how many levels have you practiced?"

omi said, "Sun and Moon Divine Sword, I've practiced to the 41st level; Shura Divine Saber, I've also practiced to the 40th level; Sun Shooting Divine Arrow, I've also practiced to the 39th level; Heaven and Earth Divine Hammer, I've even practiced to the 42nd level."

"What? You've practiced all four."
