

King of kings

2220

And so, the game is over and it's late.

Whether this event was effective or not, it would depend on tomorrow.

Back at his residence, Tang Huan was puzzled and asked, "Husband, why did you give those people so much endorsement money, especially those ten spell geniuses, one million ah, that's too much."

Omi smiled, "You don't know that, I'm creating a market."

"I don't understand."

"Huanhuan, you have to understand one thing, the money in the whole world can't be earned by one person or a few, if you only think of earning it all by yourself, then you will end up earning nothing. I have created a market where everyone knows that the person who becomes the first place winner of the spell competition can earn over a million dollars. In the entire spell department, everyone who sees this money will be jealous, and anyone who is jealous will indicate that they have entered within the market that I have created, and they will definitely follow me to maintain this market. Just ask, if Tang's guidance goes out of business, is all this bonus money and endorsement money gone?"

"That's for sure."

"So, those who want my bonuses will definitely not want Tang's Guidance to go out of business, and indirectly, I can also say that my Tang's Guidance shop is not only a shop where I make money alone, but also a shop where many people make money."

"I see, Husband, your brain is really too good, why didn't I think of that?"

"If this brain of yours can think of it, then wouldn't everyone learn this trick of mine?"

Tang Huan said, "Then what if, the other guidance classes also learn from us?" Remember the URL .kanshu8.net

Omi said, "Now that the ten geniuses, the ten beauties, and the ten handsome men have all been signed by me, they won't be able to find anyone even if they want to learn from me. Don't underestimate these thirty people, these thirty people, their fans encompass almost eighty percent of the spell department. Alright, we'll know tomorrow if this event is effective or not."

The next evening, Fatty came to report.

"Big brother, big brother."

"Fatty, so excited, do you have something good to report to me?" Omi was busy asking.

Fatty laughed, "Brother, you're really God, the number of students coming to our Tang's guidance today is ten times more than before."

"Hahaha, it seems that the event was a success."

"Big brother, you really have foresight, I didn't think that you could really make business better by doing this a few days ago."

In the blink of an eye, two months had passed.

At this moment, at a certain mentoring shop.

"Mentor, it's not good, in these two months, our business, it's dropped ten times."

"Bang, why is this happening."

"Mentor, people are running away to Tang's Guidance, I sent someone to Tang's Guidance to look at the number of students they have there, it's ten times more. It's not just us, the other dozens of guidance classes have all been hit as well, the number of people is ten times less, Mentor, if this continues, we'll be less and less people. We must quickly think of a countermeasure ah."

"Omi, what kind of magic did he cast."

"Mentor, you don't know, two months ago, that Omi made an event, held a beauty contest and spell competition, and, gave the top ten high prizes, so

, now many people are heading their way."

"Then what are we waiting for, let's hurry up and hold a similar event, we'll give as much prize money as Omi gives us, it's not like we don't have any money."

"Good."

And so, the other thirty or forty guidance shops in the Department of Spells also started to hold activities one after another, and also, beauty pageants, and spell competitions.

However, they had beauty pageants, but there were no beautiful and handsome men to participate in them, at least the top ten wouldn't go to them, because the top ten were all contracted with Omi, and they were doing this kind of activity in dozens of them, where in the spell department would there be so many beautiful women and handsome men, and in the end, the so-called ten beautiful and handsome men selected were ordinary as hell, such ordinary girls, they had no appeal at all, but instead became a laughingstock."

Guidance at Don's.

"Brother, what should we do about the other guidance stores that are starting to do activities too? In the past two days, the business of our Tang guidance has obviously fallen back a bit, indicating that they are having an impact on us by engaging in activities."

Omi smiled, "There's no need to rush, the impact will definitely be felt, but it's all within expectation. Now, you listen to my command, we'll start the second wave of marketing immediately. Fatty, starting tomorrow, you tell all the students who come to instruct, let's say that after instructing, every student will be eligible to win a lottery, and the prizes drawn will be first prize, second prize, third prize, fourth prize, fifth prize, and sixth prize."

"And the prizes?"

"The first prize will be, one thousand cents; the second prize will be, five hundred cents; the third prize will be, one hundred cents; the fourth prize will be, fifty cents; the fifth prize will be, ten cents; and the sixth prize will be one cent. Also, make sure that fifty percent of the people are allowed to win at least the sixth class prize. Thirty percent of the people can win at least a fifth-class prize, five thousand percent can win at least a fourth-class prize, one thousandth of the people can win at least a third-class prize, and one thousandth of the people can win at least a second-class prize. One in ten thousand will get a first prize. Go quickly."

"Ah, so many? It's not like we're losing money."

"Losing the old money? That's not going to happen, I've done all the math, and I'm making a lot less money, but I'm still making money. And, out of 100 people, at least half of them will get the sixth prize, which is like, half of them, for free. So, I'm sure everyone will come running right away, and even, some people who didn't want to guide in order to draw a prize, will come to guide, just in the hope of drawing a first or second prize. In that case, you understand, hahaha."

"Brother, you're really fine as a monkey." Fatty said admiringly.

"You're the monkey, so go."

"Yes yes yes."

Fatty immediately went to do it.

A few days later, Fatty was happy to report again.

"Brother, great, now, our numbers, again, have risen several times over the last few days, that is, many who heard the news, immediately came running to us. Moreover, some people, who instruct several times a day for the sake of the raffle, are simply using the raffle as a gamble, they don't really want to instruct at all anymore. You said a few days ago that half of the hundred people who drew the sixth prize, that is, half of them were free, but this half of them, after drawing a piece of celestial coin, didn't leave immediately, but thought that it was free anyway, and then asked for another guidance, then drew again, and finally stiffly sent the money back to us."

"Hahaha." Omi let out a loud laugh.
