Ten thousand years later.

Omi let out a heavy breath.

“Finally, I’ve incorporated the essence of these six secret books into the Heavenly Yuan Great Compassion Sword.”

“Now, this Heavenly Yuan Great Compassion Sword of mine has become not a little bit stronger.”

Omi picked up the sword, although he hadn’t sent it out yet, but, Omi had a hidden feeling that he was going to be unable to hold that sword, as if it was filled with violent Qi, of course, only after Omi’s hands were secretly operating the dark energy of the Heavenly Yuan Great Compassion Sword.

“Fine, then I’ll try and see if I can get through the tenth, ultimate level.”

After saying that, Omi arrived at the place where the tenth, ultimate level was located.

Ten thousand savages were waiting there.

Omi rushed down.

“Kill.” Ten thousand savages rushed up.

Omi swung out his sword, from his sword, a purple cold mane was emitted, where the cold mane passed, it was like an icy wind had come, all plants and animals were frozen, this was just the power of the cold mane, it was not yet known how powerful it was on the sword. A second to remember to read the book

“With a “wow” sound, Omi’s sword swept away.

Suddenly, close to a third of the savages, fell to the ground.

“Pffffffffffffff.”

In less than ten seconds, Omi had killed all ten thousand of the savages.

“Phew, so easy.” Omi smiled heedlessly.

The tenth level, the ultimate level, Omi had already passed.

Omi’s realm, however, had yet to reach Xuanxian.

At this moment, in the outside world.

The Three-Eyed War God said in shock, "This Omi, is truly extraordinary, the sword he comprehended on his own is actually so powerful, tsk tsk. It's only been a mere ten thousand years, and he's passed the ultimate level."

At this moment, Omi's ears rang with the voice of the Three-Eyed War God, "Omi, congratulations, you have passed the assessment."

"Thank you, Senior War God, so can I come out now?"

"You've only made it through the ultimate level, but you haven't reached Xuanxian, and if you want to join the Wolf Squad, you must reach Xuanxian or above, as Xuanxian is the minimum condition for the Wolf Squad. Of course, you can also come out and wait in reality."

"Alright then, I'd rather stay here." Omi wasn't short of time to stay and help out Cheng Yu, after all, this girl, had blocked moves for Omi.

Omi immediately went to find Cheng Yu.

The Three-Eyed War God, however, went to report to Princess Nian Tides, greatly praising Omi, and Princess Nian Tides smiled slightly, as if saying in her heart that the Immortal Emperor had acquiesced to their being together, how much worse could it be.

In the Sacred Ancient World, Cheng Yu was still in seclusion.

"Cheng Yu, how's the seclusion going?" Don Omi said.

Cheng Yu opened his eyes.

"Omi, you're finally out of the closed door."

"It's been ten thousand years since this shutdown, how about you?"

"In these ten thousand years, I've already passed the seventh level."

"Wow, only got through the fifth level before, you've improved so fast."

"Not really, there's still the eighth level, the first few levels, the ultimate level, it's going to be a long time after that, how about you? This time out, is it time to challenge the ultimate level?" Cheng Yu asked.

"Haha, I've already passed the ultimate level."

"Ah, passed?"

"Yes."

"Wow, you didn't call me either."

"I'll tell you the same now, how about it, do you have the confidence to pass the eighth hurdle now?"

"Where's that, the seventh level has just recently passed, and I'm afraid it'll take thousands of years to get through the eighth level."

"It's fine, let me help you." Omi said.

"How are you going to help me?"

&n

bsp; "Of course I'm using what I'm good at, your Ouroboros Galaxy spell, the main thing is to create distance between the enemy and you, affecting the enemy's visual nerves right."

"How can it be so simple, the enemy is sending out moves that really can't attack me, it really seems like a galaxy away."

"I understand, but what, I think, something is missing, how about this, I'll help you modify the Ouroboros Galaxy spell and incorporate some other spells into it, maybe, it'll be stronger."

"Uh, really?"

"Yes."

After that, with the help of Omi, in just a few thousand years, Cheng Yu had passed the ninth hurdle.

"Alright, now there's only one last hurdle left, I've done everything I need to do, I'm ready to withdraw." Omi said.

"En En, thank you."

"You're welcome."

Omi contacted the Three-Eyed War God and told the Three-Eyed War God that he wanted to get out.

The Three-Eyed War God didn't say anything, and soon, Omi returned to the palace where he had entered the Sacred Ancient World.

"Omi."

"Paying homage to the Three-Eyed War God."

"Not bad, there aren't many in the entire Sky Wolf Battle Team that can be assessed in ten thousand years."

"Hehe." Omi laughed, but in his heart, it seems that there are still stronger ones than me in the Sky Wolf Battle Team.

However, at this point, the main realm, the same genius, the higher realm is definitely stronger.

"Omi, let's go, Princess Nianzhi wants to see you."

"Oh."

Omi was brought to Princess Nianzhi's house.

"Subordinate pays his respects to the princess."

"You're welcome, get up." Princess Nian Tides said indifferently.

Princess Nianzhi looked at the Three-Eyed War God and said, "Uncle Three-Eyed, go back first, I'll have a few words alone with Omi."

"Okay, I'll go first." The Three-Eyed War God left, but the Three-Eyed War God felt that the princess felt more for Omi than for the other subordinates.

Only Omi and the Three-Eyed War God were left.

"Princess, huh." Omi was a bit embarrassed to see Princess Nianzhi's eyes looking at him all the time.

"Omi, sit down."

"Thank you Princess for the seat."

Omi sat down, the princess gave people a sense of authority without anger and a sense of superiority when she stood there, so Omi was also a bit constrained.

Princess Nian Shi said, "I heard that you did very well in the Sacred Ancient World."

"Fine, it's just a pity that I haven't reached Xuanxian yet and can't enter the Sky Wolf Battle Team yet." Omi said.

The princess said, "That's simple, I still have a fetal pellet here, it was originally a birthday gift from my mother, since you need it, I'll just pass it on to you."

"Don't don't, I can't afford it."

"This kind of fetal pellet of mine is not easy to obtain, even for me, let alone you, if you have the chance, why don't you hurry up and take it."

"This."

Nianzhi Worker handed it to Omi to follow, Omi looked at the green onion-like fingers in front of him, squeezing a pills, always felt that the fingers, was so s\*xy, I really wanted to come with these hands, to cross the fingers, I wonder what kind of feeling that would be.

"Subordinate thank you princess."

"Well, you take it now."

"Ah, take it here?"

"Yes. Then, you'll digest it with me and see how long it will take you to step into Xuanxian." Princess Nian Shi said.

Omi was full of pressure.

What if he didn't become a Xuan Immortal after taking the Fetal Pill? After all, anyone has a 50 percent chance of not making it.
