The next day, the Fa Dynasty's Immortal-level powerhouse led at least two hundred Tai Immortal-level geniuses in a straight line to their destination, the Beginning Ancient Ruins of the End of Heaven.

The End of Heaven, in the very distant west of the Earth Immortal Realm, where there was almost no human population anymore.

The geographical area of the Earth Immortal Realm was incomparably large, but the only ones that were inhabited by humans were the circle in the center, accounting for less than one tenth of the entire Earth Immortal Realm's area, which meant that the places that were currently inhabited by humans, going in the four directions of southeast, northwest, and northwest, were at least ten times more uninhabited.

The End of Heaven was an uninhabited area heading west, and at the speed of the Immortals, it was estimated that it would take more than half a year to reach it.

If it wasn't for the appearance of the Beginning Ancient Ruins, the Immortals wouldn't have gone this far.

Right now, in the Immortal Court.

"Three Eyes, is everyone ready?"

"Back to the Immortal Emperor, prepare to gather a total of 120 members of the Sky Wolf Battle Team as well as retired Sky Wolf veterans."

"Very well, this time, we must enter the ruins and catch that Beginning Ancient level ferocious beast."

"Immortal Emperor, are you sure there really is a Beginning Ancient Grade ferocious beast?"

"Yes. I can't sense it, but my gut tells me yes." The Immortal Emperor nodded his head. Remember the URL .kanshu8.net

The Beginning Ancient level ferocious beasts existed before the Immortal Emperor even took control of the Three Realms, so he couldn't sense it.

The so-called sensing, to put it in layman's terms, was 'counting', the counting of fortunes, but this 'counting' was 100% accurate, unless it was disturbed by someone or something that could not be sensed.

And Divine Sense, to put it plainly, is satellite scanning, the limit of Divine Sense is very large, not only is there a distance limit, if you hide in a cave, or disguised, Divine Sense is often times unrecognizable.

Right now, the Immortal Emperor was freaking out inside at the thought of the word 'sense'.

It had been so long, and not a fart of omi had been found. He couldn't sense omi, he couldn't find it with his divine sense scan, and he couldn't find it even more after sending so many celestial soldiers,

as if it had evaporated from the earth. Not only Omi, even his daughter Nian Shi, he hadn't found it after so long.

The more this happened, the more afraid the Immortal Emperor felt inside.

The Three-Eyed War God seemed to see what the Immortal Emperor was thinking inside and comforted him, "Immortal Emperor, you will always find it, besides, maybe Omi, he ran away to the remote uninhabited area of the Earth Immortal Realm."

"How could that be, the uninhabited area is unpopulated, and there are many things left over from the Beginning Ancient Era that even I can't know about, it's so dangerous, Omi wouldn't go that far."

"Immortal Emperor, this time when we go to that Beginning Ancient Remnant at the End of Heaven, maybe we can try to find if there is a Omi."

"Of course, this person must be eliminated." The Immortal Emperor's gaze was cold, he would personally lead the team to the Ends of Heaven.

Those uninhabited areas, to put it bluntly, were the ones that no one had opened up since the beginning of the heavens and earth, because the Earth Immortal Realm was too large and the number of people so far away was too small to be inhabited. Although the Immortal Emperor was in control of the three realms, he couldn't sense any people or objects from the Beginning of the Ancient Era and before, so those uninhabited areas, the Immortal Emperor didn't dare to wander into. In the unlikely event that he ran into a Beginning Ancient Grade God Demon that he couldn't even sense, he might not be able to carry it.

"Depart." The Immortal Emperor I

Voice Command.

After that, the Three-Eyed War God led the team, and the Immortal Emperor followed suit, heading straight for the End of Heaven.

Of course, it was at the Ten Thousand Purple Mountains at this time.

"Go." The Ten Thousand Violet Great Sage also personally led the group.

Moreover, Mu Qianji also went.

Although Mu Qianji's strength hadn't reached Tai Immortal yet, she had already reached Tai Immortal's fighting strength, so she went along.

Since entering the Ten Thousand Violet Mountain and becoming the disciple of the Ten Thousand Violet Great Sage, Mu Qianji had made very rapid progress, and the Ten Thousand Violet Great Sage predicted that Mu Qianji would definitely become one of his strongest disciples in the future.

"Master, will this trip really take more than half a year?"

"Of course, that's the end of the heavens, no man's land, and that place is just the edge of no man's land, there are deeper and farther no man's land, not to mention us, Immortal Emperors have never entered." The Ten Thousand Violet Great Sage said as he flew.

"Why? Aren't Immortal Emperors fast within the three realms?"

"Yeah, but he's afraid of dying."

"Er." Mu Qianji seemed unable to understand.

The Ten Thousand Violet Great Sage said, "Let me tell you this, after the formation of the heavens and the earth, it was a long, long time since the Immortal Emperor took control of the three realms, and this intervening era was mainly divided into two parts, the first part, the Hong Meng Era, and the second part, the Beginning Ancient Era, these two eras, to say the least, were tens of trillions of years. After the Beginning of the Ancient Era, we entered the third era, which we call the Beginning of the World Era. Why is this era called the Beginning of the World Era? This is because in the Hong Meng Era and the Beginning of the World Era, the heavens and the earth were not completely separated, and in some places, the heavens and the earth were still stuck together. It wasn't until the third era, the era of the beginning of the heavens and the earth, that the entire world almost stabilized, and the heavens and the earth had completely separated, so it was called the era of the beginning of the heavens and the earth. It was also at this time that ten humans first appeared."

"Then what happened?"

"Among these ten humans, the Immortal Emperor was one of them, they were the first humans in this world, no one knows how and who produced this first group of humans, it's like, they appeared out of thin air. The ten of them humans, all of them kept getting stronger afterwards, they all got a divine weapon from before the beginning of the world, the Immortal Emperor got the Heart of Hong Meng, as a result, this Heart of Hong Meng is able to control the three realms."

Mu Qianji felt that that distant era was so mysterious.

The Ten Thousand Violet Great Sage continued, "After the beginning of the world, the first ten humans appeared, after that, the second, third, fourth, and fifth batches of humans appeared, and so, the humans gradually reproduced more and more. And some humans, moreover, were evolved from the afterlife. However, the number of humans was still on the small side compared to the entire area of the earth to begin with, so the humans only gathered in the center of the world, occupying only about one-tenth of the entire world. The other nine-tenths were all uninhabited areas, but just because these so-called uninhabited areas were just areas without human activity, it didn't mean that there weren't any living creatures in these places. These Beginning Ancient Demon Beasts all existed before the Immortal Emperor took control of the Three Realms, the Immortal Emperor couldn't sense them, so the Immortal Emperor didn't dare to go to the uninhabited areas, he was afraid of death."
