

## Chapter 931

“Good.” Mu Qianji nodded, stopped opening the wooden box and carried it to the ground.

Old Villa Master said, “Did you take out the Buried Moon Sword so quickly?”

“Yes.”

“Then you can give me the Emperor Worm now.” Old Villa Master said.

Omi nodded his head.

Mu Qianji was busy saying, “Wait, Omi, what if you give him the Emperor Worm and he gets it and snatches the Buried Moon Sword back?”

Omi said, “I believe that Senior is not such a person.”

“But I don’t believe that, so let me take the Burial Moon Sword, and those mercenary friends of yours and leave first, and you can give him the Emperor Worm, so that it can be used just in case.”

“This.”

Old Villa Master said, “Hahaha, young lady, you’re very cautious, I was worried that Omi’s Emperor Worm was fake, what should I do if it’s fake, but you leave with the Burial Moon Sword.”

Omi said, “Senior don’t worry, it’s a thousand times true, besides, after they leave, I’m not still staying here.” First URL [m.kanshu8.net](http://m.kanshu8.net)

“Good, that’s settled then, little girl, you should hurry up and take the Burial Moon Sword with you.”

Mu Qian absolutely said to Omi, “Those friends of yours and I will leave on a flying ship first, we’ll meet up later, let’s not say where exactly we’ll meet up for now, just in case.”

“Alright.” Omi could only nod his head, Mu Qianji was too cautious.

Xiao Meng opened the flying ship and went off with Mu Qianji and the others.

“Now, you can take out the Emperor Worm and take a look at it.”

Omi took out an empty bottle.

When the Old Villa Master saw it was an empty bottle, his eyebrows furrowed, thinking that Omi was playing a trick on him.

Omi busily said, “Senior don’t worry, the Emperor Worm is invisible, it looks like an empty bottle, but it’s actually in the bottle, this is my last Emperor Worm, it’s half a gift and half a deal, senior open your mouth.”

Omi poured out the emperor worm, clamped it onto his finger, and then slapped it into the old banker’s mouth.

“Do you feel something in your mouth?”

The old banker nodded in surprise that it was really invisible, he had just thought that Omi wasn’t playing any tricks, but it turned out that there really was a worm in his mouth.

“Swallow it and then for the next half hour, you will be very comfortable.”

The old banker ate it.

For half an hour after that, Omi had been sitting in Old Villa Master’s room.

Old Villa Master ahhh screamed in waves, and Omi had goosebumps from hearing it.

After half an hour of screaming, he finally finished screaming.

Old Villa Master panted and said, “Old, old, can’t control it, it’s really taking half of my life ah, my bones are crispy.”

“Oh.” Omi chuckled.

“How is Senior feeling now?”

“Well, it’s very comfortable, not only that, the body organs are also strengthening, it’s not at all the same as before, it’s going to stop working at any moment. Hahaha, it looks like the Emperor Worm is real, Omi, thank you, you’ve given me half a life.”

“Senior doesn’t have to be polite, this was traded with the Burial Moon Sword.”

“The Buried Moon Sword is nothing more than a useless object buried in the ground to me, I have no teeth to forget this kindness.”

“Alright, Senior, there’s no need to be polite, it’s nothing, you should rest first, after all, you just took the Emperor Worm and your absorption is still incomplete, it’s better to rest more. In order to completely dispel senior’s suspicions about the Emperor Worm, I will still remain at the Famous Sword Villa within 2 days, farewell.”

“Good, thank you brother Tang, don’t worry, the Famous Sword Villa will definitely

Treat you as the most honored guest.”

Omi left the old villa master’s room, and the old villa master also immediately ordered that Omi was the most honored guest of the Famous Sword Mountain Villa, and no one was to be neglected, or else the family law would be served, including the villa master.

The Master and his wife of the Famous Sword Mountain Villa were also very surprised to receive such an order.

Omi lived alone in Wuling Mountain Villa, everyone else had already left, and it was unknown where the others had gone. Out of caution, Mu Qianji didn’t even say where the rendezvous was.

Omi was secretly wondering where they would go. Whether or not it could be figured out depended on the tacit understanding.

Omi searched the map, the closest place to the Famous Sword Villa was a small country called the Yuan Yue Empire.

Omi immediately said, “With my understanding of Xiao Meng, they will definitely wait for me in this Yuan Yue Empire, and in two days, I will go to the Yuan Yue Empire to meet up with them, hopefully Mu Qianji will really be able to take control of that sword.”

“Omi.” At this moment, a woman’s shout came from outside.

“Speechless Moon, what are you looking for me for?” Omi asked, Omi didn’t need to fake love with Wordsmith now, so there wasn’t the same tone of false affection as before.

“Omi, why have you changed a bit.” Yan Wuyue said as she looked at Omi.

Omi said, “My Three Leaf Love Flower Poison has been resolved.”

“Ah.” Words Wuyue was stunned.

Omi asked, “You told your great-grandfather about me being hit by the March Love Flower Poison, right?”

“He’s the one who asked me.”

“Oh, thank you, it was your great-grandfather who gave me the antidote to this poison.”

Omi smiled, it was better to finish this sinful love with this Love Flower Poison, so that it would also hurt Speechless Moon less.

Words Wuyue smiled bitterly, “Don’t you hate me?”

“No hate.”

“Why? Since you don’t hate me, then is it that through this contact, you have become really loving me.” Speechless Moon’s eyes were full of expectation.

“Not hate, doesn’t mean love, the reason why I don’t hate you is because you like me after all, how could I hate someone who likes me, it’s just a pity that I can only fail you, sorry, Speechless Moon, you will find a better man than me.”

Speechless Moon left her mouth, “A better man than you, you don’t believe it yourself, even my brother’s bride will fall in love with you at first sight at the bridal ceremony, who else under the heavens is better than you.”

“Oh.” Omi was speechless, it seemed that he wasn’t fit to comfort others with that statement, there really might not be a better man under the heavens than him.

“Then we’ve had sex before, are you going to be so irresponsible?” Speechless Moon asked, seemingly the last bit of hope.

“Speechless Moon, I’ll be honest with you, actually, we didn’t have any relationship at all, you’re still a yellow flower girl, you come over here.”

“What for.”

“I’m going to cast a healing spell on you, fix you up, you’re a true yellow flowered lady.”

“I don’t want it, I won’t admit it.”

“Bang.” Omi knocked Speechless Moon unconscious and then administered a healing spell to her.

By the time Speechless Moon woke up, she was already fully repaired.

“Alright, you’re ice-clear now.”

“Did I really put you off that much?”

“Sorry, if there’s nothing wrong, you can go first.”

Speechless left in love and returned to the place where she lived and cried a lot.

And right now, at the place where Speechless lived, Speechless was also carrying a wine jar and was lost in thought.

932

The Master and his wife of the Famous Sword Villa were so depressed when they saw their grandson and granddaughter like this, but the old Villa Master told none of them to slack off on Omi, or else they would really have to have a theory with Omi.

Omi stayed at the Famous Sword Villa for two days, and after two days, the old villa owner personally bid Omi farewell.

“Farewell.”

“Farewell.”

Omi sat on the Fire Devil’s back and rushed off into the distant sky with a whirring sound, disappearing into the sky, speechless moon reluctantly watching the disappearing sky for a long time, unable to come back to his senses.

The entire Famous Sword Villa up and down, deadly, presumably only the old villa master alone, incomparably good mood.

Omi rode the Fire Demon and headed straight to the nearest one, the First Moon Empire.

As soon as Omi entered the capital of the First Moon Empire, a flying ship flew towards Omi.

It was precisely Xiaomeng.

“Brother Omi, I knew you would have guessed that we would be waiting for you here.”.

Omi entered the inside of the flying ship, and the fire demon also quickly became smaller, becoming like a cat and burrowed inside the flying ship. Remember the URL . kanshu8. net

Everyone was in the flying ship, but only Mu Qianji was never seen.

“Where’s Mu Qianjie?”Don Omi asked.

“Ugh, don’t mention it.”

“What’s wrong?”Omi was busy asking.

Long Tianqin said, “Brother Omi, it seems that it was really a mistake for you to help Mu Qianji obtain the Burial Moon Sword over there.”

“Why do you say that.”

Xiao Meng said, "Brother Omi, do you know why that Burial Moon Sword is poisonous?"

"Why?"

"Because that sword, it's a sword made using radioactive materials."

Omi said, "It was made using meteorites."

"That's right, it's not really poisonous, in fact it's not poisonous, it's very radioactive, far worse than poison. What kind of radioactive element is it, this is unknown, we shouldn't have this kind of substance on this planet, did you see the purple light emitted by that sword, that's a visible ray, this kind of ray is extremely harmful to the human body, but it also has the ability to instantly destroy the atomic structure of other substances, so any other substance that comes in contact with that sword can be instantly destroyed, so it's an indestructible and famous sword. However, it can also destroy the cells of the human body, causing them to mutate, and I don't know what will happen in the end. Anyway, I told her that if she didn't want to die, she should throw the sword away, but she didn't listen to me at all, and said that I was lonely and ignorant, and that all great swords are like this, and if ordinary people can't handle it, they will be killed by it instead, and I had nothing to say, and I realized that she didn't have any common sense in physics. Then, she left, and I don't know where she went."

Omi sighed, "I actually don't know much about radiation, and I don't know anything about radioactive elements either, but I do know that those great swords were indeed made with very precious and extraordinary materials. The metals you mentioned that don't have radiation, such as iron, copper, gold, and silver, although they don't have radiation, they can't create truly great swords."

"Brother Omi, even you think so." Xiao Meng was speechless as she looked at Omi.

Omi and Mu Qianji were both from the same place, so naturally they had the same knowledge of some things.

“Brother Omi, just wait if you don’t believe me, Mu Qianji will definitely die, the destructive radiation is so strong, I don’t believe she can still live, getting a terminal illness this is still light, mutating into a monster is not impossible. It’s not even a question of whether to harness it or not, it’s really feudal thinking.”

“Ugh, I hope she’s okay.”

“Don Tzu-Chen could only pray.”

“Alright, Tzu-Chen, now where are we going?” Wanderlust asked.

“Are there any other more famous world holy places, or ancient ruins?” Omi asked.

Yan Qiang said, “Omi, it’s been a long time since we followed you out, and our original purpose was to grow our knowledge and improve our martial arts while touring the world. However, after being out for so long, apart from you and Xiao Meng, no one else has improved in the slightest, and our journey has almost always been focused on sightseeing. I think that the next part of our trip should not be mainly about the excursions.”

“Yeah, it’s not a good idea to keep eating and drinking like this just to increase our knowledge, our purpose is to improve our martial arts skills after all.” Liu Yue also said.

Omi nodded, “That’s reasonable, so let’s focus on training for the rest of our trip, do you have any good ideas? Yan Qiang, since you would propose a calendar training mainly, then, you must have thought about where you want to go.”

Yan Qiang smiled, “Yes, I have already thought about it, in the area north of the Cang Blue Empire, is the Ten Thousand Beast Forest, there are very many powerful beasts there, let’s go to the Ten Thousand Beast Forest to practice, we still need to go to dangerous places to improve, we are not the same as you, you are a genius, your comprehension is so high, while it is hard for us to improve our martial skills if we don’t have a strong crisis to motivate us! The.”

Omi said, "I don't have a problem with that, what about the others?"

"I'm okay with that."

"Me too."

"Good, then let's go to the Forest of Ten Thousand Beasts, I also want to see the so-called Forest of Ten Thousand Beasts."

Omi was no stranger to beasts, he had seen the Demonic Serpent when he was on the Martial Forest Island, but it was only a fourth and fifth grade Demonic Serpent, equivalent to the inner gate level, too weak.

After that, at the bottom of the sea, he had also seen sea beasts.

Then, there are naturally beasts on land as well.

Yan Qiang said, "I heard that many of the beasts of the Ten Thousand Beast Forest have sentience, and that the beasts of the Ten Thousand Beast Forest have formed a country, I don't know if it's true."

"Nonsense, beasts still have countries?"

"What's the point of lying to you, when beasts have sentience, they are naturally just like humans, and slowly, they will set up beast kingdoms and dominate territory and all that, but of course, we won't know all that until we actually see it."

“Let’s hope that out of the sixteen of us that we go, we can all come back intact.”Wee Cherry said prayerfully.

“Don’t talk so horribly.”

Wei Sakura snorted, “In fact, we are not the first to go to the Ten Thousand Beast Forest for training, there are more mercenary groups that go into the Ten Thousand Beast Forest to complete some tasks, such as a hundred years of deer heart and a hundred years of tiger gall, these are very precious medicinal herbs, they are great supplements for those who practice martial arts, of course, they are incomparable to the emperor insect, but if you eat them often, they are also quite profitable. Therefore, there are many people who go to the Forest of Ten Thousand Beasts, and many who go in and can’t get out.”

“Ah.”Yan Qiang was shocked and said, “Hearing you say that, I’m a bit sorry for proposing to go to the Forest of Ten Thousand Beasts, if we really let any of us die there, wouldn’t everyone hate me.”

Wei Sakura said indifferently, “If you want to go on an adventure, which one won’t die, if you’re afraid of death, stay at home and don’t come out.It’s fine to go to the Forest of Ten Thousand Beasts, always go to those holy places that are not dangerous, a certain empire, a certain mountain village, a certain relic and so on, it really doesn’t improve anything for our aptitude deviations.”

Omi smiled, “There’s no need to be too afraid, death is just a normal thing, everyone has to die at some point.Only if you are not afraid of death, you will gain, in short, I will do my best to help you all, let’s go, first stop at the Cang Blue Empire, then enter the Ten Thousand Beast Forest.”

933

After two days of flying, it reached the range of the Cang Blue Empire.

“The Pale Blue Empire is the northernmost country, and further north of the Pale Blue Empire is the Marvelous Forest. This way, we can say that we are from the most south to the most north.” Yi Tianxing’s wife, Yang Huan, said.

“Sister Yang, where is the southernmost?” Xiao Meng asked.

“Oh, the southernmost is the Star Ocean Academy, we haven’t just gone from the southernmost to the northernmost.”

Omi said, “It seems that this world isn’t very big either, Star Ocean Academy is the most southern, and the Longevity Forest is the most northern, we’ve already traveled half of the world.”

“Yeah, say it’s not too big.”

Omi added, “Previously, the president of Star Ocean Academy said that my goal was to walk all over the world, he said that the world would be finished sooner or later, it seems that it hasn’t been long, half of the world has been walked, he was right, as expected. If it takes a few years, I’m afraid that the entire world and every country can be walked once, by then, the entire world will have been walked and the goal of life will have to be changed.”

“Brother Omi, what did that dean say to you.”

“Nothing, he said that in this world, the goal of every strong man is to become an emperor, and I said that I’m not interested in the throne, my goal is to travel all over the world. He said that I’m still young, and that when I’m old and have traveled the entire world, I’ll be able to experience the ambition of wanting to be an emperor. This kind of similar words I actually felt from Yan Long of the Yanhuang Empire, could it be that the ultimate goal of every powerful person in this world is to become an emperor? Do I walk this path?”

Liu Yue said, “Omi, I support you to become an emperor, and then follow you to eat and drink spicy food, and you crown me as a great general.”

Wang Xing also said, "Yes, I also support you to become an emperor, and turn the Yanhuang Empire into your empire, at that time, hehe, my family can also be properly glorious, it's not in vain for me to follow you around." A second to remember to read the book

Yang Yijian also looked at Omi with eyes full of anticipation and smiled, "What a good idea, a goal like being an emperor is not something that can be achieved by ordinary people, but you can, and let us follow you in awe ah, when the time comes, all of us in the mercenary group will be your founding ministers. Mum, it's exciting to think about."

"Yes, you can also have three wives and four concubines, a harem of countless beautiful women, and sleep with the beauty 360 days a year, every day without repeating. Isn't this kind of day the ultimate goal of this world's strongest man? Tzu-Chen, cheer up."

Next to him was Yan Qiang, but there was a silence, he was, after all, the prince of the Yan Huang Empire.

Omi said, "I made peace with Emperor Yan Long, I will never seize his throne, a man should keep his word, how can I go and seize the Yan Huang Empire, besides, so far, I don't have any ambition to become an emperor. In this world, there are already kings in every corner, and if I want to be an emperor, someone is bound to step down."

Wang Xing Dao: "Omi, this world is about strength, what is there to talk about and talk about. I heard that the current Emperor Yan Long, when he was young, he also formed a mercenary group, and later when he became emperor, his mercenary friends all followed him to enjoy glory and wealth. There are so many of us who chose to follow you in the first place, but we also put our future on you, so if you can make a better life for everyone, of course we would be more than happy to do so."

"Uh." Omi looked at everyone.

It seemed that Omi had never thought about this issue, and since Omi had formed a mercenary group, he naturally couldn't just focus on his own

They also had to consider the future of others. These dozen of them, they can't spend their whole lives traveling all over the world, right, in less than ten years, the whole world will have traveled all over, and then it won't be time to settle down, then reproduce their children and grandchildren, and strengthen their families.

Omi said, "But now, we don't worry about food, we don't worry about clothes, we can go anywhere, we can be gloriously wealthy ah."

"Alas, forget it, I won't say it." Wang Xing sighed, Omi had no intention of competing for imperial power, which made Wang Xing a little disappointed, but what about the others?

Xu Mei Qian said, "What's the fun in being an emperor."

"That's right, it's so nice to live an ordinary life."

Omi's several girlfriends, of course, didn't want it, if Omi really became an emperor, sooner or later he would also be a group of harem concubines, they didn't want to share men with so many women.

Omi looked towards Yi Tianxing and smiled, "Big brother Tianxing, tell us your point of view, it's okay, speak boldly."

"Well, actually, when I was at the Star Ocean Academy, I saw that you knew how to absorb power and could open that treasure that the dean said, at that time, I felt that you are a person full of potential, maybe you will have some extraordinary achievements in the future, then I told my wife to pay more attention to you, maybe I can really follow you to achieve some hegemony in the future." Eastman said.

"Oh." Omi smiled bitterly, although Yi Tianxing didn't say it very directly, his meaning was basically the same as Wang Xing and Liu Yue, who wanted to follow Omi to achieve great things.

Yang Huan said, "Omi, do you know what we did before our couple went to Star Ocean Academy?"

"What for?"

"Before we went to Star Ocean Academy as a couple, we were guards of a certain kingdom, and then we had a bad time and left. Actually, it would be quite good if you could achieve greatness in the future, but no matter what, we're following you."

"Oh." Omi took a deep breath.

"Alright, let's not discuss this issue for now, I don't have that strength yet, it's not too late to talk about it when I have strength in the future, when we reach the Cang Blue Empire, let's go down to resupply, find a hotel, take a bath and have a meal."

"Good."

The flying ship descended on the roof of a hotel in the Cang Blue Empire, Omi and the others entered the hotel to go.

Not long after Omi's flying ship had landed, someone had already reported to the king at the Cang Lan Empire's palace.

"Reporting to Your Majesty, a flying ship has arrived at Yi Mu City in the north of our Cang Lan Empire."

"Flying ship, is it another mercenary group that wants to enter the Forest of Ten Thousand Beasts? Flying ships are not uncommon in our Cang Blue Empire, and most of them are just powerful mercenary groups attempting to enter the Beast Forest to plunder the organs of those beasts to replenish themselves. If it wasn't for these mercenary groups that always enter the Beast Forest to hunt beasts, the northern cities of my Beast Forest wouldn't be under constant attack from fierce beasts. I

don't have any good feelings towards these mercenary corps that want to enter the Ten Thousand Beast Forest."

"Your Majesty, are you going to stop them? To be able to fly a ship, it must be a strong man."

"A strong man, is he as strong as me? Do you think every mercenary group is on the world ranking list? Look at this flying ship, does it have a number, is it a flying ship belonging to that mercenary group."

934

"Your Majesty, checked, no number, not a flying ship of any of the mercenary corps on the world ranking list."

"In that case, go and capture them."

"Yes."

Omi had just finished taking a shower and was about to go downstairs to have a meal, after all, after spending two days on the flying ship, he definitely needed to have a good meal.

However, at that moment, Dao said, "Brother Omi, it's bad, someone has seized our flying ship."

"What? Who dares to seize our flying ship." Omi was furious.

Omi immediately flew to the roof.

Sure enough, the rooftop came with a group of strong men, there were more than ten of them, among them, the strongest one was the middle stage of the Unity Realm, in short, it was a group of people that Omi couldn't afford to mess with yet.

“Why are you seizing my flying ship?” Omi asked furiously.

That man who was in the middle stage of the Unity Realm said, “Who are you guys? What are you doing here?”

“You don't care who we are, you're the ones who should report here.” Omi said, though angry inside, he still suppressed his anger, it was better not to mess with this group of people of unknown origin, otherwise they might be annihilated here. First URL [m.kanshu8.net](http://m.kanshu8.net)

“We are a mercenary group belonging to the Pale Blue Empire, my name is Li Qing.”

“A mercenary corps of the Cang Lan Empire? Never heard of it, but I don't care who you are, I'm not messing with you, so it's best if we all just get along.” Omi said.

“Hahaha, how dare you threaten us, you threatening us is the same as threatening the Pale Blue Empire, do you know our mercenary group, who is the leader? It's the Emperor of our Cang Blue Empire, Cang Shirt. Emperor Cang Shifu is our leader, we founded a mercenary group with Emperor Cang Shifu when we were young, when he wasn't the Emperor yet, and now that he is, we, the mercenary group, are the most powerful mercenary group in the entire Cang Blue Empire. It's ridiculous that you, a little pup, are threatening us.”

“But what do you mean by seizing our flying ship? Is it possible that you, the Pale Blue Empire, don't allow outsiders in anymore.”

“No, we're seizing your flying ships because His Majesty has instructed us to take you to him. Don't worry, this mercenary group of yours, at any rate, has a Unity Realm Completion Level, and as long as

you cooperate with us properly, our majesty won't do anything to you. Now, you come with us, or, we'll tow away your flying ships."

Omi was furious, but since it was the emperor's mercenary group from the Canglan Empire that had come to seize them, there was nothing he could do but go with them.

"Fine, I'll cooperate with you, but you better not cause any trouble for us, or I'll never let you go."

"Hahaha, little pup, how old are you this year, cultivating to the completion of the Unity Realm, your real age must not be small, why are you still so angry. Don't be cross with these fellows of mine, I'm afraid you weren't even born when we were crisscrossing the world. Let's go, come with us."

Omi and the others sat on the other party's flying ship, and the other party came in two flying ships.

Omi's flying ship, however, was impounded and towed behind.

In the flying ship, Wanderlust said, "Why did you agree to cooperate with them? What if they are against us?"

"That one called Li Qing just now, he's in the mid stage of the Unity Realm Great Perfection, equivalent to the Emperor of the Yan Huang Empire, unfortunately, I don't have the Emperor Worm anymore, so I can't cast Life Blood Hidden, besides, since he has declared himself as a mercenary group belonging to the Emperor of the Pale Blue Empire, we'd better cooperate, I don't think they'll do anything to us." Omi said.

"But for good reason

s, why are we being detained, we are entering the Forest of Ten Thousand Beasts, just staying here for a night."

Yi Tianxing said, "It's natural to know when you meet the Cang Shirt Emperor, we, the Destined One mercenary group, at any rate, are the head of the group with the complete level of the Unity Realm, we should still have some face, it's not some mercenary group set up by a small cat or puppy."

About an hour later, Omi waited until he reached the capital of the Pale Blue Empire and directly entered the interior of the palace, landing in front of a large hall in a flying ship.

"Here we are, let's all get down."

Omi and the others disembarked from the flying ship.

"Our captain is inside the main hall, which one of you is the captain?"

"Me." Omi said.

"One of you will follow me inside to meet the Sovereign, the others will wait here."

Omi entered the main hall, where a man in a purple pajama was sitting and watching television, with a beautiful palace maid standing on each side of him.

"Your Majesty, the man has brought it."

"Mm." The man watching the TV turned his head and looked at Omi.

The moment he saw Omi, his eyes were clearly shocked.

“It’s you, Omi.”That emperor busily stood up, as if he knew Omi and still had respect for him.

“You know me?”

“Haha, of course I know you, but I saw your power with my own eyes at the Famous Sword Villa.”

The man called Li Qing was busy saying, “Your Majesty, is he the Omi who became famous in the Famous Sword Villa a few days ago?A special genius who’s only 21?”

“Yes, he is, don’t hurry up and serve tea.”

“Ah, so you are Omi, how disrespectful.”The man called Li Qing was busy saying respectfully.

“Oh.”Omi just gave a heh heh.

The emperor was busy saying, “Brother Tang, I didn’t expect it to be a misunderstanding, I hope you will forgive me, sit down and have some tea.”

Omi asked, “Why did you enter your Pale Blue Empire and seize my flying ship?”

“Brother Tang, you don’t know this, our Cang Lan Empire is in the far north, because too many mercenary groups have entered the Ten Thousand Beast Forest to slaughter the beasts, as you know, some of the beasts that are over a thousand years old, their hearts, livers and gall bladders, and even their hair are very valuable, and for any martial arts practitioner, taking them is a great tonic, so too many mercenary groups have entered the Ten Thousand Beast Forest to hunt and kill them.However, they left after killing, leaving the mess to our Pale Blue Empire, many of the beasts in the Beast Forest already had primary intelligence, even the most powerful ones already had not low intelligence, after their relatives were killed, they would come to the northern cities of our Pale Blue Empire and kill humans, those humans were ordinary people, they needed to pay for the hunting crimes committed by those mercenary corps.Therefore, anyone who wants to enter the Forest of Ten Thousand Beasts, I must

do my best to stop them. If it's those mercenary corps on the world ranking list, we don't dare to stop them, but the other miscellaneous ones, we definitely have to stop them and bring them back first, if we are not persuaded to listen, we can only resort to some means."

Omi nodded his head, this reason was quite reasonable.

Omi also knew that the life of some beasts was far longer than that of humans, the longer they lived and were strong, the more their body organs would be a great supplement for martial arts practitioners. For example, taking a hundred year old tiger whip would leave them standing. Not everyone can be so lucky as to take the Emperor Bug.

935

"And your flying ship doesn't have any markings, so we don't know it's yours, Brother Tang, take it easy and have some tea, welcome to our Pale Blue Empire, you're a celebrity in the international scene now." Cale Shirt said politely.

Omi didn't get angry anymore and drank some tea.

Omi said, "Now then, can't we enter the Forest of Ten Thousand Beasts? To be honest, my mercenary group friends and I didn't enter the Ten Thousand Beast Forest for that beast organ, we simply wanted to practice."

Pale Shirt was shocked, "No way, just for practice ah, then your mercenary group is too bold, who doesn't know that too many people have died in the Ten Thousand Beast Forest under the hooves and claws of powerful beasts, yet there are still a large number of people who go in for the beast heart. But you guys, you didn't even go in for this, just to practice, you guys are too bold. Entering the Ten Thousand Beast Forest requires a price of life, when I was young, just like you now, I had a group of brothers, who were also not afraid of death to enter the Ten Thousand Beast Forest at that time, but as a result, eighteen of us went in, and when we came out, there were only eight left."

“What? So many died.”

“Yes, of course, when I was young, I wasn’t as strong as you are now, at that time, my mercenary group was called the Cang Shirt Mercenary Group, I was the leader, and I was only in the middle of the Unity Realm. But that’s not the point, even if I enter the Forest of Ten Thousand Beasts now, I might still die in the Forest of Ten Thousand Beasts.”

Omi said, “Your Majesty Cang Shirt, you’re now at the third level of the Unity Realm, you’re so strong to go in and still die?”

“Of course, there are countless powerful beasts in the Forest of Ten Thousand Beasts, and if it weren’t for the fact that human territory doesn’t fit their habits, those beasts would have rushed out long ago. In our world, we have 30 strong humans at the peak of the Unity Realm, but the strongest ones are not humans, but beasts. Some beasts, with their natural bronze skin and iron bones, can’t be defeated no matter how hard they fight. The 30 peak human strongest of us, the most powerful Tie An Senior, was once even injured by a certain beast in the Forest of Ten Thousand Beasts.”

“Wow, the beast is so strong, how many beasts are there in the Forest of Ten Thousand Beasts.”

“No one knows, the Forest of Ten Thousand Beasts is huge, almost equal to half of our human empire. There are some powerful sky beasts, its claws, and it ripped through the flying ships in one go, so don’t think that it’s fine to drive a flying ship, if you’re unlucky enough to run into one that can’t even beat the 30 strongest peaks of our humans, then prepare for a reunion. Brother Tang, it’s not that I’m scaring you, I’m doing it for your own good, there are so many places to go in the world, why would you choose to go to the Beast Forest to train, it’s like joking with your life. It’s also for their own good that I prevented some weak mercenary groups from entering. Of course, we won’t stop those mercenary corps that are on the world ranking list. As you know, there are some world-class mercenary corps that are very powerful, several Unity Realm Great Perfectionists, and they can go there if they like at this level. However, for such world-class mercenary corps, their flying ships are usually marked.”

“Oh.” Omi was a little hesitant inside, Omi’s Destined One mercenary group, only Omi himself was a little stronger, there was a Unity Realm Perfection, the others, the weakest was only at the Inner Gate Realm, was this good to go in? Remember the URL .kanshu8.net

“By the way, Brother Tang, you’re from the Yan Huang Empire, right.”

“Yes.”

“

Your Inferno Empire has a very powerful mercenary group that is world class, called the ‘King’s Mercenary Group’, their leader is also a late Unity Realm Perfection, and entered the Ten Thousand Beast Forest not long ago. This King’s Mercenary Corps is in the top ten of the world ranking list, and has more than ten strong Unity Realm Perfectionists.”

“Wow, such a powerful mercenary group, wouldn’t this be a complete pinnacle of any country.” Omi was horrified, Omi had heard before that some mercenary corps were extremely powerful, far beyond the average country.

“Hehe, peaking any country is impossible, peaking most countries, that’s for sure, if this King’s Mercenary Corps wanted to peak your Yanhuang Empire, it would be easy. The leader of this king’s mercenary group, he’s still very young, it’s normal that he doesn’t have the ambition to be an emperor yet, but whether he will have the ambition to be an emperor in the future, it’s unknown.”

“Very young? How young?” Omi asked.

“Should be less than forty years old, maybe even thirty-six or thirty-seven years old, the leader of this Destined One mercenary group is also a legend, before he turned thirty, he wasn’t very outstanding, after thirty, just a few years, a sudden rise, that momentum is completely as good as those special geniuses who were outstanding before they turned thirty.”

“Oh, alright, Brother Tang, that’s all I have to say, whether you guys enter the Ten Thousand Beast Forest or not, you decide for yourselves, it’s late today, I’ll have someone arrange for you guys to stay,

and I'll give you a good banquet tomorrow, so don't be in a hurry to go in, think about it before you go in."

"Thank you, Your Majesty Pale Shirt."

"You are a genius extraordinaire, no need to be so polite to me, please."

Omi walked out of the main hall, his siblings were outside with Omi.

"Omi, how is it? Is there any difficulty for you?" Xu Mei Qian was busy asking.

Li Qing behind Omi laughed, "Joking, I didn't expect him to be the Omi who is famous in the Famous Sword Villa, if I had known he was Omi, I wouldn't have seized your flying ship, let's go, His Majesty has ordered to entertain you according to the highest rules."

After that, Omi was arranged to go to a royal garden.

Omi had been thinking about the Cang Shirt Emperor's words, the Forest of Ten Thousand Beasts, whether to go in or not, going in just for the sake of practicing, compared to that risk, it seemed very unprofitable.

Of course, Omi had also thought of that king's mercenary group, this king's mercenary group was also from the Yanhuang Empire, which was very similar to Omi's Destiny's mercenary group.

However, Omi's Destined One's mercenary group was too small compared to his King's Mercenary Group. The King's Mercenary Corps had more than ten Unity Realm Great Perfection powerhouses and was one of the top ten mercenary corps on the world ranking list.

This mercenary corps was enough to peak over half of the world's empires.

What Omi was worried about was that if this King's Mercenary Corps had ambitions to become an emperor, then the first choice would definitely be the Yanhuang Empire, because that head of the group was someone who came from the Yanhuang Empire, a person who was average before the age of thirty, and reached such a powerful level just a few years after the age of thirty. If he really had ambitions, then Emperor Yanlong was going to be a tragedy, Omi who had signed a contract with Emperor Yanlong was obligated to help guard his throne, which was why he was so slightly worried.
