

Chapter 936

Omi and the others stayed at the royal gardens of the Pale Blue Empire.

“Omi, why don’t you look well? Didn’t you say that that emperor knew you and didn’t give us a hard time?” Yan Qiang asked.

“It was not difficult for us, but he also told us the true situation, the Forest of Ten Thousand Beasts, very dangerous, so many of us, and so many of them are incomparably weak, going into the Forest of Ten Thousand Beasts, I think that by the time we come out, half of us will probably be dead.”

“What.” Everyone was shocked, entering a Ten Thousand Beast Forest and coming out half of them dead, this was too terrifying.

“Yes, half dead, because, we, the Destined One Mercenary Group, out of the sixteen of us, only five of us have combat power that reaches the Unity Realm, and two of them are also Spiritual Enchanter and Poisoner. With such a weak team as ours, entering the Ten Thousand Beast Forest and still having half of them come out alive is already a miracle.”

“Ah.”

Yan Qiang slapped himself and scolded, “It’s all because of my mouth, if it wasn’t for my mouth being cheap, we wouldn’t have thought of going to the Ten Thousand Beast Forest, now that I think about it, I’m really an ignorant person, with someone like me who doesn’t even know when the Unity Realm can be reached, I’m actually thinking of going to the Ten Thousand Beast Forest.”

“Yan Yu, why beat yourself up, the worst that can happen is that you don’t go.”

“Then now we really won’t go to the Ten Thousand Beast Forest?”

Omi shook his head, “I don’t know, that’s why I need to discuss this with you guys, if so many people enter the Ten Thousand Beast Forest together, I’m sure I won’t be able to protect it no matter how

strong I am by myself, if we encounter a beast that even I can't win, then we'll only have the consequence of annihilation. Everyone, what do you guys think?"

"Since the Forest of Ten Thousand Beasts isn't even accessible to mercenaries of our level, then let's not go there." A second to remember to read the book

"But we're all here, how about this, we don't want everyone to go in and choose the weak ones."

After the discussion between Omi and the others, it was finally decided that Omi, Yi Tianxing, Wanderlust, Yang Huan, Wei Sakura, and Xiao Meng, six of them would enter the Ten Thousand Beast Forest, while the rest of them would cultivate in the Cang Blue Empire.

Of the six people who entered, three men and three women, only Wei Sakura and Xiaomeng were at the Innate Realm.

As such, six people entered, and only then did Omi have a little confidence.

Early the next morning, Omi's six people opened their flying ships and flew away towards the entrance of the Ten Thousand Beast Forest.

The rest of them could only sigh and live helplessly in the Cang Blue Empire.

Soon, Omi's flying ship arrived at the edge of the Ten Thousand Beast Forest.

"Brother Omi, are we going to open our flying ship to go in? There's no satellite signal inside the Forest of Ten Thousand Beasts, so I'm afraid I can't control it remotely even if I drive in, I might even lose my navigation, and if I hide in the forest, I'll be broken by the beasts." ..

“Then don’t drive in, hide the flying ship in a nearby place where there are no beast infestations, then enter the Forest of Ten Thousand Beasts on foot.”

Xiao Meng drove the flying ship to the entrance of the Ten Thousand Beasts Forest, a place where no beasts were infested, and hid the flying ship there, then the six of them entered the Ten Thousand Beasts Forest on foot.

The moment Omi entered the Forest of Ten Thousand Beasts, there was always a bad feeling inside.

“Why are my eyelids fluttering, is there something ominous going on?” Omi said.

“Don’t scare yourself, the six of us going in, plus the fire beasts, are still considered to have

A little self-preservation is in order, and besides, we’re not going into too deep.” Wanderlust said.

Omi nodded his head.

Right now, in the depths of the Ten Thousand Beasts Forest, a team of eighteen people were walking in the primeval forest.

In this team of eighteen people, the most powerful one among them was at the third level of the Unity Realm Great Perfection, and he was the leader of the King’s Mercenary Group.

Apart from him, there were ten other people who were strong at the first and second levels of the Unity Realm Great Perfection.

Eleven of their team of eighteen people were Unity Realm Great Perfection.

It was worthy of being one of the top ten mercenary groups in the world, but of course, top ten in a year, not necessarily now.

At this moment, a five-meter long beast jumped out from the nearby forest and opened its bloody mouth.

“Puff.” Without looking, that headmaster threw out a knife in his hand, and the huge beast was cut in half.

“Wow, the captain’s Heaven Breaking Knife has increased in power again, throwing out a knife, no matter what you throw, it can cut him in half. The head of the regiment’s Broken Sky Blade can already fight with the thirty strongest peaks of the Unity Realm, it’s too powerful, it hasn’t reached its peak yet, with the Broken Sky Blade, you can fight with the thirty strongest peaks in the world.” A man behind him said full of admiration.

The head of that group said with no fluctuation on his face, “Old Jia, don’t talk nonsense, although I’m only one realm away from those thirty old monsters at the pinnacle of the Unity Realm in the world, I’m not even as easy to defeat them as you say. I’m only saying that I’m confident that I can fight against the last ranked one among those thirty peaks.”

“Out of the thirty pinnacles, the one ranked last, isn’t that the old master of the Famous Sword Villa?”

“Yes, I’m sure I can fight him but not sure I can win him, I’ll challenge him when I go out this time.”

“Wow, Captain, if you defeat him, you’ll be a world sensation, tsk, this is the first person ever to defeat a peak powerhouse before he’s even at the pinnacle.”

“He’s just the weakest of the thirty pinnacles, besides, I may not be able to beat him.”

“Captain, your Heaven Breaking Blade is so powerful, it simply possesses the power to open the heavens and the earth, you can definitely defeat him, and then you’ll be famous in the world and become the first person in history.”

“Yes, Headmaster, it’s so exciting to think about, in this world, there are not many people who can reach the peak of the Unity Realm Great Perfection, and once they do, their strength is so strong that it is completely different from the third level of the Unity Realm Great Perfection, there is no one in history who can defeat the peak with the third level of the Unity Realm Great Perfection.”

“Alright, stop bragging, how do you guys know there’s no history.”

At this time, a man said, “Right, Head of Mission, speaking of the Famous Sword Villa, when we entered the Ten Thousand Beast Forest, didn’t we hear about a young man named Omi, who defeated that special genius of the Famous Sword Villa, Words of Intent, and I also heard that he reached special genius at only 21 years old, and he was also from the Yan Huang Empire. Head Captain, he’s from the same place as you ah.”

“Headmaster, you’re already so awesome, you’re one step away from being a world sensation, I never thought that a young man from the same place as you, such a genius, would pop up, Headmaster, what’s your opinion on this matter ah?”

The leader of the King’s Mercenary Corps only gave a slight snort.

937

“Headmaster, don’t hum, tell me about it, at 21 years of age, reaching special genius, this kind of person is definitely not an ordinary person in the future, maybe he can be as powerful as you, headmaster.”

Everyone looked at the Head of the King’s Mercenary Group curiously, seemingly curious as to how the Head evaluated this person who also came from the Yan Huang Empire.

The head of the King's Mercenary Corps said with a blank expression, "Since he comes from the same place as me, if you see him, kill him."

"Ah, why? What a pity to kill it, maybe you can even become your right-hand assistant in the future."

"Someone who reached the Special Genius level at the age of 21 would willingly become my assistant? Since we come from the same place, one mountain does not allow two tigers, in the future, when I take control of the Yan Huang Empire, I will definitely still confront this person, so it's better to behead him than to do so. Of course, if we don't encounter him, count him lucky, if we do, it's his misfortune."

At this moment, Omi and the others had already entered the Forest of Ten Thousand Beasts for a long time, and as expected, there were too many powerful beasts in the Forest of Ten Thousand Beasts.

However, Omi and the others weren't weak, and they had killed several powerful beasts that they had encountered.

Only, the deeper Omi went, the more he felt an uneasiness inside.

This uneasiness made him feel scared inside.

The day passed quickly and the sky darkened.

Omi and the others found a cave on the spot and brought the meat of some of the beasts they had killed during the day to barbecue and eat. The first website m.kanshu8.net

"I'll do the vigil tonight, you guys rest well in the cave." Omi said.

"It's better that we all take turns at the vigil." Yi Tianxing said.

“No, I’ll come alone.” Omi insisted he come alone for the night vigil, because Omi had an uneasy feeling inside, so he couldn’t relax at all.

Late at night, Xiaomeng, Yi Tianxing and his wife, Long Tianya, Wei Cherry, were all sleeping in the cave, the beasts that Omi had encountered during the day today, Omi let them kill them first, if they really couldn’t kill them, at the moment of a thousand gold, Omi would make another move, so they expended a lot of physical strength, at the same time, they also got a huge exercise, if this continued, they would definitely stimulate their potential and their martial skills would advance by leaps and bounds. Of course, there were both dangers and opportunities, and in a place like the Ten Thousand Beast Forest, who knew what would happen next as they practiced.

Omi sat at the entrance of the cave, always vigilant of his surroundings, and Fire Demon lay beside Omi, keeping vigil with him.

Fire Demon said to Omi, “Brother Chen, why don’t you go to sleep, I’ll do the vigil, I’m not weak, and beasts under the completion of the Unity Realm are no match for me.”

“No need, it’s better to be cautious in all things, besides, during the daytime I only attacked at critical moments in order to let them practice, I didn’t expend much energy.”

“Alright then, I’ll squint for a while.”

“Mm.”

Not long after, the Fire Demon Earth Beast snored as well.

After a night of silent vigil, Omi didn’t feel the slightest bit of fatigue, and nothing happened in one night.

Just like this, Omi and the others were in the Forest of Ten Thousand Beasts, and in a blink of an eye, they had spent 30 days, or a month.

During this month, Xiao Meng stood out the most, surprisingly breaking through to Innate Great Perfection, and, reaching the peak of Innate Great Perfection, just one step away from stepping into the Unity Realm.

Such talent, Omi also had to admire it.

Wei Sakura wasn't bad either, she was already Innate Perfection before, after this month of training, she had broken through to the second level of Innate Perfection, originally she was higher than Xiaomeng!

of the world, but now it was two realms lower than Xiao Meng.

Yi Tianxing and Long Tianya, on the other hand, had broken through to the second level of the late Unity Realm, and their progress was only slight compared to Xiaomeng and Wei Sakura's, as it was the Unity Realm.

Yi Tianxing's wife, Yang Huan, had also finally broken through to the late stage of the Unity Realm.

Everyone had gained a lot from this month's training, but Omi, was the only one who had locked his eyebrows.

This was because, Omi had already found out a month ago that there was no change in his Sucking Spirit Method, which meant that he had sucked in the spiritual energy of many beasts, with no change in the results.

Omi began to believe Mu Qianji's words, and Mu Qianji advised him to dissipate this power before the Sucking Spirit Great Law had backfired, or else he would be brain dead if it began to seriously backfire.

Therefore, Omi had been locked in a frown for the past month, should he dissipate the God-sucking Great Law or not?

Originally, Omi had hoped that it would suck all the way up, but unfortunately, it was so flawed.

If it was dispersed, it meant that Omi would have to rely entirely on himself for future martial arts cultivation.

Omi was making a difficult decision.

After a month of practice, it was proven that Mu Qianji hadn't lied to him, the late stage of the Sucking God Law would really backfire, and the more you sucked in the early stages, the worse the backfire would be.

Anyone must understand that cultivation is like building a house. Building one floor is simple, building ten floors is even more difficult, a hundred floors, a thousand floors, ten thousand floors, or even a hundred thousand floors, the later you get, the more careful you have to be with every step, and any mistakes made in the early stages could lead to a total collapse in the later stages.

After a difficult decision, Omi still chose to disperse the God-sucking Great Law.

Because, Omi's path in life wasn't just to build a hundred storeys so high, Omi was going to build a thousand storeys, or even ten thousand storeys, so don't lose a lot for a small loss.

"Drink." Omi's body shook and scattered the power of the God Sucking Great Law.

From then on, he didn't have the God-sucking Great Law.

Since everyone else could rely on themselves and cultivate to become strong, did Omi become mediocre without the God-sucking Great Law?

“Phew, it’s good that it’s scattered, thanks to Mu Qianji reminding me, otherwise if I go on like this, I’m bound to suffer a backlash, the result of which, is too terrible.”Omi said inwardly.

“Roar.”Just at this moment, a beast’s roar came out from the side.

“Brother Omi, it’s bad, there’s a beast.”Xiao Meng shouted.

Omi immediately flew up, and a turtle-like beast, like a lawnmower, rushed in from not far away.

“Wow shit, what beast, it looks so scary.”

Omi said, “This beast should have the strength of the Unity Realm or higher, none of you are a match, leave it to me.”

Fire Demon said, “Brother Chen, let me try.”

After saying that, Fire Demonton sprayed a mouthful of flames on it.

However, the flames sprayed onto the beast’s turtle shell without the slightest change, and his turtle shell was able to perfectly block the fire demon’s flames.

“Brother Chen, my flames can’t even deal with this beast, leave it to you.”Fire Demon said.

The beast had already pounced on him, and the moment it pounced on him, it spewed out a lot of green venom from its mouth.

“Yes, there is severe poison.” Omi shouted, but fortunately, the others had already retreated far away.

938

The green venom sprayed onto the tree, and within half a minute, the tree was corroded and collapsed.

Omi gathered his full strength.

Omi could only use Hercules.

“Drink.” Omi punched the turtle shell holding the beast from high to low.

“Boom.” The entire beast was blown into the ground by Omi, but the great strength, just being blown into the ground, didn’t hurt him.

“Damn.” Omi was horrified that it was able to resist his Hercules power.

Omi had used his Herculean Divine Power once, and half of his internal strength had already been consumed.

Omi could only use the sword technique.

The sword technique Omi used was the Dragon Descending Sword Technique, of course, this was the Dragon Descending Sword Technique that had been upgraded several times by Omi, and after simplifying it, it was much more powerful than before.

However, it still couldn't harm the beast, it was completely a small and strong beast that couldn't be beaten, but the venom he sprayed out almost caused Omi to get hit several times, if Omi hadn't used his Ghost Wheel Dueling Lightness, he would have been corroded into bones.

"Brother Omi, if you can't beat him, run, don't waste your energy." In the distance, Xiao Meng shouted. Remember the URL .kanshu8.net

Omi thought for a moment, there was indeed no need to die to the ground with this beast, the beast's tortoise shell was too hard to break through.

It was just a matter of time, Omi retreated.

The beast wanted to catch up, but unfortunately, his defense was invincible, but his speed was hard, so he couldn't catch up at all, and lost Omi and the others in no time.

Omi and the others continued to move forward, running when they encountered one they couldn't defeat, preserving their stamina so that they wouldn't die in battle when they encountered a stronger beast because they had no internal strength.

And so, in the blink of an eye, another month passed.

Up to this point, it had been two months since Omi and the others had entered the Forest of Ten Thousand Beasts.

Xiaomeng completely broke through to the early second level of the Unity Realm.

Wei Sakura also broke through to the peak of Innate Perfection, half a foot into the Unity Realm, Wei Sakura was incomparably excited at the thought of half a foot into the Unity Realm, Innate to Unity Realm, this was a huge hurdle, not an ordinary person couldn't cross this hurdle, besides, Wei Sakura wasn't even thirty years old, wouldn't this mean that she could possibly become an international standard super genius?

Yi Tianxing, Long Tianya, Yang Huan, the three of them didn't improve at all in the month behind, after all, they were in the late stage of the Unity Realm, and it was already very difficult to improve any further.

Omi was the same, the realm had not improved at all, not that Omi's talent had become worse, but because, Omi was incomparably depressed this month.

It was because, Omi discovered that the God-sucking power that he had already dispersed was, surprisingly, still retained in his body.

In other words, Omi's God-sucking Great Law power could not be scattered at all.

Therefore, Omi was always depressed that once this dog's skin was put on, it couldn't be torn off. Omi always had to worry about a huge backlash one day.

Omi hadn't had much of a look all day, thinking about how to tear off that dogskin plaster.

"Brother Omi, I'm afraid we're going to die." Suddenly, Xiaomeng's voice sounded in his ears.

Omi was busy looking up, only to see a huge python is looking ahead at Omi and the others, this huge python, has cultivated scaled armor, cultivated to this extent, I'm afraid that this python has at least a thousand years of life, the adult python.

; “Hmph, how dare you enter my territory, damned human, humble human.” The python’s gaze was eerie as it looked at Omi and the others, it was exactly like a human, it was a python with a very high IQ. Judging from the momentum on its body, this python was afraid that it had already reached the Unity Realm Great Perfection.

No wonder, I’m afraid that I’m going to die today, because, the momentum emitted by the python made Xiaomeng and the others, including Yi Tianxing, Lang Tianya, and Yang Huan, not dare to move, as if whoever dared to move would die in the next second, the feeling of being on the verge of death was like a gun to the head.

The Fire Devil beside Omi was busy saying, “Brother Snake, I am the King of the Underground, Fire Devil, we were just passing by, we didn’t know that Brother Snake was here, we have disturbed you, we hope that Brother Snake will forgive us.”

The python looked at the fire devil and very despicably sent out a mental fluctuation message, “King of the Underground?”

“Yes.”

“Hahaha, King of the Underground, why are you still the dog of humble humans? You’re not a good earth beast, you’re a human dog.”

“Roar.” The Fire Demon also roared in anger, actually saying that it was a human dog, it was just unwilling to be lonely and follow Omi to have fun.

“What? There’s still anger.” The python was very disdainful.

“Roar.”The Fire Demon was so angry that it was desperate, and a mouthful of flames sprayed up at the python.

The python didn't dodge at all, letting the flames spray, its body had grown scaly armor, and I'm afraid that its defensive ability was not at all weaker than the turtle-like beast it had encountered before.

“Looking for death.”Suddenly, the python opened its mouth, a shadow so fast that it flew out, and in the next second, even Omi hadn't how to see it, the fire demon let out a scream and was thrown thousands of meters into the sky in the blink of an eye, completely unaware of whether it was alive or dead.

Such a powerful python, Omi thought himself to be no match, this python, I'm afraid that it had already reached the third level of the Unity Realm Great Perfection, I'm afraid that the only ones who could defeat it were the 30 old ghosts of humans who had reached the peak of the Unity Realm Great Perfection.

“Phew.”Omi exhaled deeply, originally expecting the fire demon to be able to rely on flight and carry them away at a critical moment, but now it was good that the fire demons were thrown to the sky, not knowing whether they were dead or alive.

Just as Omi and the others were at a loss for words, suddenly, a shadow flashed in the distance.

“Boom.”In the next second, the python, was split in two, intact, by a knife, which was still chopped into two halves, and the knife, which was still chopped into a tree, was a thick kitchen knife, five times thicker than the one used to chop bones.

“Ah.”Omi and the others were astonished, who was so powerful that a knife flew out and broke into two halves, this python was only defeated by the thirty peak old ghosts of humans, could it be that one of the thirty old ghosts who had stepped into the peak of the Unity Realm Great Perfection had also come to the Forest of Ten Thousand Beasts?

“Brother Omi, the python is dead, we’re saved, it’s human.”Xiao Meng shouted excitedly, the rest of the people, all of them appeared to have a hint of a robbed feeling.

Omi looked back behind him, more than a dozen people appeared in the forest behind him, the one at the forefront of which was the one who had just thrown that knife.

The person who threw that knife had no look on his face, and no one could see through him, as if he was a person without an inner heart.

Behind this person, a few people cheered, “Yay, the Head is so awesome, this kind of python, we heard about it a long time ago, killed an unknown number of strong human unity realm completion, in the entire human world, the only ones who can defeat this python are those thirty peak old ghosts, but I didn’t expect that today, we ran into it, the Head slaughtered it with a single slash, tsk tsk, the Head is so awesome .I see that the Head really does possess the strength to challenge that old lord of the Famous Sword Villa.”

939

Omi looked at the man, listening to the others call him the head of the group, and then looking at his looks, he really did have the appearance of someone from the Yan Huang Empire.

Omi seemed to have guessed that he must be the head of the King’s Mercenary Corps, the king of the Canglan Empire had previously said that the head of the King’s Mercenary Corps had also entered the Forest of Ten Thousand Beasts.

Omi looked at that head of the group, a slight sense of caution rose within him, for some reason, Omi couldn’t feel friendly from him.

At this time, that head of the group’s eyes looked over at Omi, and Omi felt a chill all over his body.

Xiao Meng was busy saying, "Thank you, a few seniors."

A group of people on the other side suddenly turned their gazes from the python corpse, to Omi and the others, especially on the three beauties, Xiaomeng, Wei Sakura, and Yang Huan.

"Wow, what beautiful women, we've been running around in the primeval forest for two months and we're about to lose control when we see a sow, suddenly seeing three beauties, what a snowy gift." A man smiled hehehe.

All of the people in the King's Mercenary Group were men, no women.

Xiao Meng and Yang Huan, as well as Wei Sakura, were all nervous.

Omi busily said, "A few seniors, they are all my friends, why bother, might as well let us go today, I will definitely remember your kindness today."

"Hahaha, how old are you." A man with a long beard said. One second to remember to read the book

The opposing head, on the other hand, hadn't said a word throughout.

If the other party's headmaster was a decent person, he should not have allowed his members to do such a thing, but he didn't say anything, his face remained gloomy, as if he had been born with such a face all his life.

Omi was also filled with tension inside, there were eighteen people on the other side, eleven of them were Unity Realm Perfection, and that head of the group was even more unfathomable, from the words of the other member, it was almost as if he could fight the old lord of the Famous Sword Villa.

Omi was only at the second level of Unity Realm Perfection, and no matter what, he could not be a match for that Head of House, even if Omi were to display Life Blood Concealment.

Omi's Life Blood Invisibility was only at the same level of power as Goma Star, and Goma Star was in no way a match for this Headmaster, who was a figure that could compete with the Old Master of the Famous Sword Villa.

Omi felt that this was the biggest crisis in his life.

Omi said, "I see that this headmaster is also the face of the Yanhuang Empire, here, most of us are Yanhuang Empire people, I still hope that this headmaster, be accommodating and give us a way out." Omi's tone was already low enough, and facing such an unrivaled existence, Omi also completely lowered his stance.

That head of the other side, still didn't say anything, his eyes staring at Omi. A man beside him was busy saying, "Captain, this they are your hometown, how to deal with ah, eighteen of us brothers, we have been running around here for two months, we can't control it when we see a sow ah, the other side has three beauties, how about you keep one, the remaining two for our buddies to play."

Everyone on the other side looked at that head of the group.

On Omi's side, everyone also looked at that head of the group as well, as if, everything depended on that head of the group's words.

After a minute, that captain finally spoke up, he asked, "Are you Omi?"

Omi's heart thudded, and Omi had an intuition within him, such as

If the fruit let him know that he was Omi, I'm afraid no good would come of it.

The people behind Omi, Wanderlust and the others, however, did not have this intuition, they thought that if they heard about Omi, they might be able to be as friendly to them as the King of the Pale Blue Empire.

Therefore, Wanderlust was about to answer for Omi when Omi snapped and said, "Who is Omi? I don't know it."

Wanderlust was stunned, Omi actually denied himself, why was that? Omi's reputation should have made many people give face, but when they saw Omi deny it, they didn't make a sound.

That head of the other side, still with a sunken face, looked at Omi for another minute before saying, "The six of you, the men can go, the women, stay."

"Boom." When Omi and the others heard his words, their insides boomed.

"Yay, hahaha." The group of people on the other side burst into laughter.

"Brother Omi, what should we do?" Xiao Meng was anxious, she was still a yellow-flowered lady, only seventeen years old, while Wei Sakura, also twenty-one years old, was also a yellow-flowered lady. As for Yang Huan, although she was forty or fifty years old, she was young in appearance and was Yi Tianxing's wife.

Omi said, "Senior, can you be a little more accommodating and give a way out." Omi was close to praying.

The other captain still said without any expression, "Seeing that you are also from the Yan Huang Empire and are pleading with me, I'll let you three men go, if you don't know better, you'll go to hell."

Omi knew that no matter how much he pleaded, the other party would not be able to relax their tone. After walking in the primeval forest for two months, it was hard to see a woman, and a beautiful woman at that, I'm afraid the vast majority of people in the world couldn't do anything to let a beautiful woman drift away.

The rage in Omi's eyes had burned, and even though Omi was vulnerable, Omi would never allow the woman behind him to be bullied, even if Omi died.

Omi was ready to use Life Blood Hidden, killing as many as he could, and there was no time to think about what to do without the Emperor Worm after the meridians shattered again.

"Captain, they don't seem to be leaving yet, so let's kill them, people with such a lack of self-awareness don't deserve to live in the world." One of the Unity Realm Great Perfection strongmen said, this Unity Realm Great Perfection strongman was estimated to be over a hundred years old.

Omi saw that there was no way back, so he said, "Even if I die, I won't let them be bullied by you."

"Hahaha." The other group of people laughed in disdain.

Yi Tianxing also raged, "You bunch of bastards, I won't let my wife be insulted even if I have to fight to the death." Yi Tianxing was furious, he had no sexual function for the previous twenty years, and had already caused his wife suffering, but now he was still not easily cured by Omi, and hadn't given her happiness properly, but he had to face these people's humiliation.

The other head of the party's gaze chilled and said, "Then I'll kill you first."

"Don't."

In the next second, a shadow flashed, and just like earlier, a thick kitchen knife split Yi Tianxing's body, in half.

“No.” Yang Huan shouted.

Too fast, Omi only had time to say the word no, Yi Tianxing was already in two halves.

“Oooh.” Yang Huan cried out, looking at the two halves of the body, unable to hold it up even if he wanted to.

940

Lang Tianya, Wei Sakura, Xiaomeng, they were also silly, too fast, they didn't expect that it was only a blink of an eye, with Big Brother Yi Tianxing, they were already separated by yin and yang.

“Big Brother Tian Xing.” Omi plopped down on his knees, Omi also did not expect to enter the Ten Thousand Beast Forest and really lose a brother, and die so miserably.

“Hahaha, see, this is what happens when you don't know what's good for you, you group of people, knowing that you can't resist but still resisting, this shows that you yourselves don't take your own lives seriously, so death is the best outcome for you.” A man on the other side said. And that head of the other side, his hand sucked hard, and the thick kitchen knives over there were suddenly sucked into his hand, and similar kitchen knives, he carried three more on his person, two on each side of his waist with a cowhide holster inserted.

Omi's heart was bleeding as he looked at Yi Tianxing's corpse, this was his brother, but he died a horrible death here today.

At this moment, Omi's ear heard Yang Huan's voice, “You must live and avenge our deaths.”

“Sister Yang Huan, don't.” Xiaomeng shouted.

Omi immediately jumped on it as well.

But, it was too late, Yang Huan plunged a knife into his neck, half of his neck had left his body.

Yang Huan, committed suicide, her husband was dead, she didn't want to live, and, she didn't want to be defiled by that group of people either.

Omi's body trembled as he looked at Yang Huan's corpse.

A group of people on the other side saw Yang Huan's death and were chagrined, "Three women, turned into two, what a pity." First URL m.kanshu8.net

"There are two left, we must not let them die."

At that moment, the other two men from the other side, who were at the completion of the Unity Realm, rushed up towards Xiao Meng and Wei Sakura respectively, attempting to control them, lest they commit suicide again.

"Ahhhh." Omi shouted, Omi's eyes were blood red, and in an instant, Omi recklessly used Life Blood Hidden again.

The Omi who used Life Blood Hidden was already at that level of Goma Star, and although he was still not at the same level as the opposing Head, the two who rushed up to catch Xiaomeng and Wei Sakura's Unity Realm Grand Perfection were more than enough.

"Puff, puff." In just a few fractions of a second, those two Unity Realm Grand Perfectionists on the other side stagnated and immediately lost their life traits, while Omi, who was displaying Life Blood Hidden, fought for his last bit of energy to kill the head of the other side.

The head of the other party seemed to sense a slight threat, or a great threat, and his face changed, and his left and right hands simultaneously pulled out two kitchen knives from his waist at both sides, quickly.

“Wow.”The two kitchen knives came out together, doubling their power compared to just one, which was a clear indication of their fear of Omi’s sudden outburst.

“Boom.”Omi had transformed into a bloody shadow figure, and suddenly blasted with those two kitchen knives, which twisted and distorted at once, falling to the ground with a loud thud.

Omi really couldn’t injure this Head of Mission, even though he had cast Life Blood Hidden, he could only draw even with his two kitchen knives.The strength of this Head was too strong, no, his clever skills were too strong, too strong.

Omi who fell to the ground, his meridians shattered and countless spider veins, it was already difficult to even move a finger.

That captain on the other side, looked at Omi with a hint of fear, because, he found that not only had Omi’s strength suddenly skyrocketed, but he also fought against his two choppers in unison, and in the end, he was still alive.

And at this time, a group of people from the other side had a big

Shouting, “A blast, Eugene.”The people on the other side, who had just gone up to grab Moe and Wei Sakura’s Unity Realm, then noticed that their bodies had fallen down and died.

“Head, A-Bomb and Eugene are dead.”

The head of the other side, immediately looked at the two brothers whose bodies had fallen down, and sure enough, A-Bomb and Eugene, were both dead, but their bodies were intact.

Everyone on the other side was shocked, and the head of the other side was equally shocked, as the side that was absolutely strong, the side that had crushed Omi and the other six people regardless of their numbers or strength, two brothers had died.

The head of the other party immediately looked angrily at Omi and said, "You, you must be Omi."

"Captain, our brothers Ah Bang and Eugene are dead, kill them all." A bearded man on the other side roared with grief, they had lost two brothers, and suddenly a group of people were filled with pathos.

And the other leader's eyes were cold.

Omi was already powerless, his meridians were shattered, and although they weren't as thoroughly shattered as when he first cast Life Blood Hidden, he couldn't move his fingers anymore.

"Don't." Xiao Meng immediately ran to Omi's body.

Wei Sakura and Wanderlust were also guarding on either side of Omi, even though they knew that it was completely mantis.

Just when they were nearly desperate already, suddenly, a rapid shadow rushed in from the woods.

"Brother Chen, go quickly."

"It's Fire Demon."

“The fire demon isn’t dead.”

The fire demon that suddenly rushed out of the woods wasn’t killed by the python, but it had also suffered extremely serious internal injuries, and the fire demon was now rushing out regardless of everything.

The Fire Demon’s tail rolled up and swept Omi and the other four onto its back.

“Grab it.”

The person on the other side shouted, “Captain, they’re trying to escape, what kind of lion is that?”

That head of the other side’s gaze was filled with disdain, he didn’t seem to have thought that this was a flying earth beast.

The Fire Demon carried the four people of Omi and quickly rushed into the sky, but unfortunately, it was already severely injured, and with four people on its back, it wasn’t as fast as it thought it would be.

“Buzz.” Just at this moment, there was a compelling blade Qi from behind, the blade Qi was chilling.

They were helpless as they watched a knife fly by, but there was nothing they could do, the fire demon would definitely be split in half by this knife, and even everyone on the fire demon’s back would be split in half, either way, Omi and the others would surely die.

Therefore, at this moment, one of them would definitely have to go out and use their own flesh to block that blade.

Just at this moment of a thousand golden moments, Wei Sakura, who was sitting at the end, fiercely went to meet that flying knife.

“Don’t.”

Wei Sakura’s final voice sounded in the ears of Omi and the others, “Goodbye, brothers and sisters, and Omi, actually, I like you a lot.”

As soon as Wei Sakura’s voice trailed off, the mortal blade split her in two.

It was because Wei Sakura used her own flesh to block that knife, so the Fire Demon, as well as the others on the Fire Demon’s back, was able to escape, and in the next second had rushed into the middle of the sky, the group on the ground no matter how strong they were, there was no way they could do anything about it, even if that person sent another knife, they simply lost their chance.

“Ah.”Rapidly flying on the back of the fire demon, Omi hissed.
