

Chapter 987

“Good, then let’s go prepare now, we’ll go find the Emperor Worm tomorrow.”

Omi asked, “Island Master, you said you know the Underground City, where is it?”

“There’s an underground city right underneath Martial Island.”

“Uh, this underground city, has anyone ever noticed it before?”

“Of course, but it’s been thousands of years, so very few people know about it now.”

“Island Master, with all due respect, in this case, if the Emperor Worm has ever been captured, then I’m afraid it’s gone, and if it hasn’t been captured before, there might still be the Emperor Worm.”

“Don’t worry, history records that no one has ever been caught, and if you don’t tell me, even I don’t know that emperor worms grow in underground cities.”

“Good, then, let’s have someone prepare a bowl and a bottle of chicken blood, and the necessary equipment to enter the underground, such as lighting.”

“Good.”

The Island Lord immediately ordered a disciple to do it.

“Omi, then, the wine and food are ready, I’ll have them serve it.” One second to remember to read the book

“Thank you.”

A few ordinary village women entered the pavilion with sumptuous wine and food, and Omi and the Wulin Island Master drank against each other.

Omi asked, "Island Master, your master said that there is a passage to another world, he has searched for so long, did he find some clues ah?"

"Omi, when I find the Emperor Worm and my life is extended, I'll join you in searching for clues."

"Didn't your master leave any clues? It saves us a lot of trouble too."

"Sorry, I was weaker back then and everyone thought my master was insane and didn't take it seriously or care if my master actually found some clues."

"So."

"But back then, my master accompanied my master all over the world, searching for a passage, but unfortunately, my master has also died long ago. However, we can go to my master-mother's family, perhaps my master-mother left some clues with the descendants of her family before she died. My master-mother's family is Yin Yue Villa, nowadays Yin Yue Villa has fallen, but it hasn't died out yet, I remember that my master and my master-mother had a daughter, I just don't know if their daughter is still alive, she should be dead, after all, my master's daughter is far older than me, even I am, huh?"

"Senior, then let's help you find the Empyrean Worm Queen, let's go look for clues to the other world, I'll also go along for the ride, after all, I'm going to duel with Wang Qi in three years."

"You're only at the first level of the Unity Realm Great Perfection, while Wang Qi is already at the third level of the Unity Realm Great Perfection and is still very strong, how can you be his opponent in three years."

“I’ve already made a promise with him, after three years, I’ll go to Wangjing City and kill him, there’s no way I’m going to break my promise. I’m just lacking in terms of realm right now, but in the rest, I guess I’m not weaker than him, I came to visit you senior this time, I actually want to ask senior to guide me a bit so that I can break through the realm.”

The Island Lord frowned and said, “Omi, I’m happy to help you, but you’ve already reached the Unity Realm Great Perfection, at this level, if you’re not fortunate, no matter how hard you try, you won’t progress any further, if you’re fortunate, don’t try very hard, you’ll also slowly come to understand, to be honest, you asked me to guide you, I’m at a bit of a loss as to where to start.”

“Senior just tell me what you were

After reaching the Unity Realm Grand Perfection, how did you step onto the peak.”

The Martial Island Lord recalled and said, “At first, I don’t really remember the details, I only remember that it took me about ten years, but of course, ten years is already very, very fast. The reason why I stepped into the pinnacle from the first level of the Unity Realm Great Perfection within ten years at first was because, I met my first love, she was already over eighty years old at the time, and I was still very young in appearance, and I stayed with him for those ten years, watching her age a little bit, and in the end, she died and I buried him with my own hands. Yes, that’s the one thing I did.”

Omi wondered, “Senior, I don’t seem to understand too well, didn’t you go on an adventure or something?”

“Oh, Omi, Unity Realm Grand Perfection, already standing at the pinnacle of this world, what else is there to practice, at this time, practice is the mind, go to the heart to comprehend life, maybe you will find something, the mind gets some sublimation, maybe, it will become, otherwise, it will be difficult to go up for the rest of your life. I took care of my already aged first love for those first ten years, so that my mind could get a bit of insight, and then I quickly rushed to the top.”

“Well, I kind of understand, thank you for your senior’s guidance.”

Omi and the Martial Forest Island Lord chatted freely for the rest of the afternoon until dusk, when Omi walked out of the pavilion.

The Martial Island Master had already arranged a place for Omi and the others to stay, so there was no need to return to the Martial Academy.

Late at night, perhaps everyone was asleep.

Omi lay on the roof of the thatched cottage, looking at the stars in the sky.

“How do I have to comprehend life? What other aspect of my life do I need to get to grips with?”

Omi thought about it all night, but nothing came to mind.

The next morning, Omi was called up by the Martial Island Lord.

“Omi, after breakfast, let’s go.”

“Good.” Omi didn’t say anything.

After breakfast, Omi and the two of them set off with the Martial Forest Island Master.

This matter was also not known by a third person, none of the others knew where Omi and the Island Lord had gone, the less people knew the better, and for the future safety of Martial Island.

Below a mountain cliff, there was a huge waterfall there, it was very beautiful.

“Senior, where is the entrance to the Underground City?”

The Island Lord pointed at the waterfall and said, “Just behind the waterfall, there is a cave behind the waterfall, there is a huge crack in that cave, fly down the crack and you can see the underground city, you follow me behind.”

The island master was the first to rush into the waterfall, and sure enough there was a cave behind it, but it was blocked by the waterfall, so those who didn't know couldn't see it at all.

“Wow, the cave inside is pretty big.” Omi said as he flew in.

“Omi, let's go, see that huge crack in front of you, that crack is very long and deep, if you fly down from that crack, you can see a stone city buried under the ground, that underground city is the underground city, but because of the age, the whole city has turned into fossils.”

“Island Lord, why is there such a big crack? Is it possible that this whole mountain is a rock?”

“You're right, this whole mountain is actually one rock.”

“Wow, that's a huge rock too, nature is amazing.”

988

The island master led the way, leaping from the crack inside the cave and flying down the crack.

The crack was about three meters wide, so it was very magnificent.

After flying about a few hundred meters deep, you really saw a city, and everything in the city was stone, far more massive and spectacular than the underground city in the Gomorrah Empire. However, this underground city also clearly had signs of artificial excavation. The Wulin Island Lord said that it was excavated by humans thousands of years ago, and after excavating this underground city back then, nothing was found, and after that, it was left alone, and not many people in the world knew that there was an underground city here.

“Omi, can we capture the Emperor Worm now?”

“Mm.” Omi nodded and poured out a bowl of chicken blood and placed it on one of the streets of the Dungeon, because having had one experience, Omi was handy this time.

Just like that, Omi and the two Martial Islanders began to put the chicken blood in one place at a time.

“What’s taking so long.”

“Island Lord, what’s the hurry, it took me half a month in the Gomorrah Empire.”

“Ah, so long.”

Omi was busy asking, “By the way, Island Master, does this underground city have any earth beasts? When I was in the underground city of the Gomorrah Empire, but I encountered very many Earth Beasts.”

The Martial Islander was suddenly stunned by the question. The first website m.kanshu8.net

“What do you mean you suddenly froze, Islander? Don’t tell me that there are really any earth beasts here that are so powerful that even you are afraid of them ah.”

The Martial Islander was a bit embarrassed and said, "Omi, I'm really sorry, I was in a hurry so I forgot to tell you something."

"What is it?"

"There's something odd about this underground city, and our master used to tell me not to come in here if nothing happens."

"Why?"

The Martial Island Lord was filled with embarrassment, "Because, because often, when people enter this underground city, they disappear for no apparent reason, never to be found again."

"Ah, you, why didn't you say so earlier."

"I'm sorry, I really wanted to catch the Emperor Worm so badly that I didn't tell you, I'm sorry."

"I go, Island Master, so the two of us are coming in now and will somehow disappear?"

"This, Omi, it's not necessarily la, it's not that everyone who comes in will disappear, some unlucky people are the only ones who will somehow disappear. That's why this place is an odd place, unlucky place. That's why I didn't tell my disciples, because I didn't want anyone from future generations to come back in. Back then, when my master brought a few of us in a few times, one of my senior brothers disappeared for no apparent reason."

"What happened later?"

"Uh, and then, like, he just disappeared from this world."

“Geez, Island Master, you’re too sneaky, aren’t you pushing me to my death?”

“Omi, I’m really sorry, I forgot about it too.”

Omi said in his heart, it’s strange that he forgot, he must be afraid that if he said it in advance, Omi wouldn’t come. It seemed that human nature was selfish, and the Island Lord didn’t care about anything for the Emperor Bug.

The Martial Island Lord smiled apologetically, “Brother Tang, you don’t have to worry so much, I think you’re so lucky, you wouldn’t run into this kind of bad luck, besides, the probability of encountering such a sudden disappearance is only a few hundredths or even one in a thousand, I don’t believe that our luck would be so bad.”

“Damn, not afraid of ten thousand.

Just in case. By the way, how did the sudden disappearance happen?”

“I don’t know, back then I came in with my brothers and sisters, and we were all walking, and then we suddenly realized that one of the brothers who had been following along with us was suddenly nowhere to be seen.”

“Tragic, hopefully it won’t be so unlucky, never mind, it’s all in already.” Omi also had no choice but to continue searching for the Emperor Worm, since the probability was so small, Omi didn’t believe he was so unlucky.

And so, in the blink of an eye, ten days passed.

At a certain moment after ten days, Omi suddenly felt movement in his bowl.

Omi immediately knew that there was an emperor worm, and Omi immediately covered the bowl with his palm.

That's right, an invisible worm was bouncing around in the bowl, and Omi immediately caught it with his fingers.

"Did you catch it?"The Martial Island Lord was busy asking.

Omi smiled, "Island Master, congratulations, the Emperor Worm has caught one, but it's a bit small, this Emperor Worm is estimated to be only a few thousand years old.It seems that when this place was excavated back then, it destroyed the ecological balance of the original Emperor Insects here, and the original Emperor Insects all died.Then within these thousands of years, new emperor worms were born, and they were still so small."

"No matter if it's big or small, it's better than nothing, so give it to me to take."

Omi immediately gave the Emperor Worm to the Martial Forest Islander to take.

For half an hour afterwards, the Wulin Island Master also felt dead comfortable after taking it.

"Ah, ah."

Omi said speechlessly, "Island Master, can you stop screaming."

"Haha, there are no outsiders here anyway, it's really comfortable, it reminds me of when I was in my first love, like, when I slept with the woman I first fell in love with, that's what it felt like, I haven't experienced this feeling in a long time.Ahhhh, so wonderful."

Omi got goosebumps and said, "Don't tell me you haven't touched a woman in a long time."

"Yes, I haven't touched a woman for more than fifty years, no, more than a hundred years to be precise, and I haven't touched a woman since I separated from my first love, and when I met her again after that, she was already gray-haired, so naturally she couldn't that. Ahhhh, what a wonderful feeling."

Omi felt tragedy for the Martial Islander, in this life, he had only ever had one woman, but inside, Omi felt a great longing, this feeling of loving only one person for the rest of his life, even if he was separated and died, he would no longer love anyone else, this kind of love, I guess it was wonderful. Unfortunately, Omi has deviated from his original intention and will never be able to experience this kind of love again.

After that, Omi and the Martial Island Lord continued to search for the Emperor Insect, but after nearly a month of searching, they didn't find any more Emperor Insects.

"Island Lord, we can't look any further, there won't be any more, we've been missing for a month, if we don't go back, I'm afraid my girlfriends will be anxious."

"Alright, then go back." The Island Lord said rather regretfully.

Omi and the Island Lord prepared to withdraw.

The Island Lord leapt to the top of the crack and flew to the top of the crack, and Omi followed suit.

Soon, the Island Lord reached the stone cave behind the waterfall, jumped onto the floor of the cave and said, "Omi, thank you for your help over the past month, although it's just a small emperor insect, I think it should also be of some use, I myself clearly feel that my vitality has grown a lot, I guess it won't be a problem to live for another ten or eight years, thank you, let's go back now," Go back and properly toast you two glasses."

When the Island Lord saw that Omi didn't answer, he was busy looking back to see where he still had Omi.
