

Last Building on Earth Chapter 13

Gu Manyao glanced at Wang Qin's body not far away, her heart was sad, and she sighed: "Qianwen, we are trapped here now, we can't find an exit, and we don't know the regularity of the appearance of these monsters, stay here and leave here. In fact, there is not much difference, Wang Xuan, what should we do next?"

Zhang Haofei strode towards the car on the side and said, "The next thing is of course to eat, drink, and keep your spirits up so that you can kill more monsters."

As he spoke, he took out the bag of bread that Gu Manyao had just found from the car, tore it apart, and took out a piece of bread and stuffed it into his mouth.

Wang Xuan, Zhao Lei, and Gu Manyao also walked over and took a piece of bread each.

Wang Xuan ate two pieces of bread in a row and drank a bottle of mineral water, which quenched his thirst.

In the blink of an eye, the bag of bread was gone. Zhang Haofei was about to get another bag of egg yolk pie, but was stopped by Gu Manyao.

"The food is too little. We need to eat it sparingly. This bag of egg yolk pie is reserved for the next meal. Now everyone should not eat it."

Zhang Haofei looked at Gu Manyao, he didn't seem to have thought that she would dare to stop him from eating. He was originally a chaotic character, and when he stared, he was about to have a seizure, but when he came into contact with Gu Manyao's black and white

eyes, he didn't know why, but he couldn't. Can only shrug and turn around.

Zhao Lei said: "Manyao, you're right. Now we don't know how long we will be trapped here. We not only need to continue to find food, but also make proper planning, and we must not waste it casually."

Zhang Haofei pouted and glanced at Zhao Lei with disdain in his eyes, feeling that he was holding chicken feathers as an arrow.

Zhang Qianwen glanced at the corpses of Wang Qin and the two monsters on the ground, her face full of unease: "Are we going to continue to stay here? Will this corpse and the smell of blood attract other monsters?"

Zhao Lei said: "If these monsters are ordinary beasts, they will definitely be, but the existence of these monsters is against common sense. For example, the general hunting of beasts is mainly for food, but these monsters seem to just want to kill, kill for the sake of killing, at all. Not for prey, I think we'd better not use common sense to guess about these monsters."

Wang Xuan looked around and said, "Have you noticed that it's getting darker and darker here?"

Gu Manyao sighed: "Yes, the light is getting worse and worse. If it is completely dark, it will be troublesome. What should we do next? Let's talk about what you think."

Zhang Qianwen whispered, "I think it's too dangerous here, we should find a way to get out of this parking lot."

Wang Xuan glanced at Zhang Qianwen, thinking that what she said was nonsense, who wouldn't want to leave if there was a way to get out of this ghost place?

Zhao Lei said: "I think we should continue to find more food and water." The box of mineral water in the van just now had been drunk by most of them, and there was not much left.

Zhang Haofei yawned and said, "Don't you feel tired? My opinion is that it doesn't matter what kind of monster or food, first sleep for a while to refresh yourself, and then talk about the rest when you wake up."

Just as Zhao Lei was about to refute, Wang Xuan suddenly said, "I agree, we've been trapped here for a long time, it's time to take a good rest."

As he spoke, he yawned, thinking that Zhang Haofei and himself were the only ones who were particularly sleepy. It might have something to do with the energy from the white scales that had just been used. Although the body exploded with great power, the physical strength was not small, and it was necessary to have enough energy. Sleep replenishes energy.

When Zhao Lei saw Wang Xuan said the same, he originally wanted to refute Zhang Haofei's words and swallowed them back. Gu Manyao nodded and said, "Okay, then let's rest for a while."

For safety's sake, the five of them got into the van with the windows intact, and locked the doors tightly, leaving a gap in the window glass for ventilation.

Wang Xuan felt too sleepy. He sat in the co-pilot's seat with only heavy eyelids. He closed his eyes and fell asleep quickly.

I don't know how long I slept, when Wang Xuan was suddenly awakened by a faint roar.

Opening his eyes, through the windshield in front of him, he felt that the surroundings were getting darker and darker. Only an emergency light in the distance was still on, emitting a faint glow.

Under the faint light, there were several cars parked. Between the cars, there were blurry shadows flashing, and the faint low roar came from there.

"Is it a monster?" Wang Xuan was startled and completely awake. Seeing Zhang Haofei in the driver's seat open his eyes, he was obviously also awakened.

The distance is far, and the light is dim. Wang Xuan is sitting in the car, and he can't see it clearly. He can only see some black shadows that look like monsters flashing between the cars and a load-bearing wall. The number of black shadows, at least five or six, or even more.

"So many monsters?" Wang Xuan's scalp was slightly numb, and Zhang Haofei, who was on the side, also opened his eyes wide and did not dare to speak, for fear of attracting those monsters from afar.

Although they have obtained white scales, they are not as frightened as before when encountering monsters, but if they encounter a group of monsters, the consequences are still life-threatening.

Another low-pitched roar came. It was a roar from a monster. Wang Xuan noticed a flash of white light. UU read [www.uukanshu](http://www.uukanshu.com). A shadow fell down.

"This is..." Wang Xuan's heart moved, his eyes narrowed slightly.

"What happened?" Zhao Lei, who was sleeping in the back, woke up, stretched his neck and looked forward, asking in a low voice.

Zhang Haofei stopped him as soon as he made a sound, glared at Zhao Lei and made a gesture to shut him up.

Zhao Lei was unhappy and Zhang Haofei pointed at him, but he was not stupid, he knew something must have happened, and immediately stopped talking.

Gu Manyao and Zhang Qianwen also woke up. The two girls saw Zhang Haofei's gesture to shut Zhao Lei up, and then heard the faint roar of the monster, but they didn't speak. Zhang Qianwen trembled slightly.

Wang Xuan looked into the distance with all his attention, and heard three roars of monsters in a row. Following the roars, three black shadows fell down, stopped moving, and seemed to be dead.

Immediately after, a figure jumped up and landed on the trunk of one of the cars.

Perhaps the force of the pedaling was too great, and the car sank.

"Is this a person?"

Wang Xuan's eyes widened, but he saw two monsters following the figure jumping up and rushing towards the figure.

"This person is in danger." This thought flashed through Wang Xuan's mind, and suddenly a white light swept across the sky, the heads of the two monsters flew out, and blood rose from their necks.

Two corpses of monsters who lost their heads fell down and fell to the ground.

Seeing this scene from a distance, Wang Xuan and Zhang Haofei both gasped.

"Amazing!" Zhang Haofei almost blurted out a low voice.

When Wang Xuan saw the figure standing on the trunk folded his right arm and held a sword-shaped weapon in his right hand, he immediately understood that the heads of these two monsters were cut off by this sword-shaped weapon.
