

Last Building on Earth Chapter 131-135

Chapter 131

Lu Bingbing said nothing, raised his right hand, stretched out a finger on his left hand, and swiped his fingernail towards the palm of his right hand.

The palm was cut by her sharp left fingernail, showing a line of blood, followed by blood seeping out.

With a wave of her right hand, the flowing blood spilled onto the ground in front of her.

Lin Qingya, who stepped back and looked at her, widened her eyes and saw that the fresh blood was faintly glowing with a faint glow of blood, spilling on the ground, as if a living thing was swimming. Spreading around, an incredible scene appeared.

Lin Qingya saw that this layer of faint blood light quickly covered the floor of the hall, and in this blood light, there were a lot of faint footprints.

She only knows the name of Lu Bingbing, who is a big man in the Rakshasa on the same level as Wang Ziren, but she doesn't know what she is capable of, and she doesn't know what the hatching beast is. It is the first time that she sees such a strange exhibition of her family. Ability.

Can she reappear the footprints that everyone stepped on on the ground?

In her astonishment, she saw Lu Bingbing carefully looking at these messy footprints and walking towards the outside.

There were many people entering and leaving the hall on this day, leaving a lot of footprints. It was not easy to find out Wang Ziren's footprints.

As he walked out of the hall, the faint blood light that originally appeared on the floor of the hall disappeared, and the footprints that emerged were also gone. This layer of faint blood light was centered on Lu Bingbing, and the area that could be covered was limited.

Lu Bingbing walked out of the hall and spilled a few drops of blood again. The faint blood light under her feet moved with her. Wherever it moved, the footprints slowly emerged.

"The three of them went to the Centipede Island outside the South Gate..." Lu Bingbing looked at the faint footprints on the ground, looked in the direction of the South Gate, and walked out of this small building today to the South Gate. It is not difficult to find three pairs of footprints that meet this condition.

She quickly determined the footprints belonging to Wang Ziren, Yao Tiande and Duan Chen.

"Go." Locking the unique footprints belonging to the three of them, Lu Bingbing wrote it down and immediately started walking towards the South Gate Centipede Island.

Li Xing took the other four men and one woman and followed closely behind.

Lin Qingya stared blankly at them leaving, she was lost, her whole body was shaking slightly, her face was blank.

If something happened to Wang Ziren, what should she do?

In the depths of Centipede Island, Wang Xuan looked at the corpses of silver-backed centipedes and giant pincers lying on the ground in front of him, heaved a sigh of relief, and picked up a parchment in his left hand. He finally completed the task of killing 100 silver-backed centipedes.

All the way to kill here, the sky has gradually darkened.

Wang Xuan owns 1,438 small crystal scales.

Gu Manyao, Zhang Haofei, Zhao Lei, Bai Yan and others felt that they had all the energy they needed to break through into adulthood. Like Wang Xuan, although the energy required for breakthrough was enough, they could not successfully break through promotion. No matter how much energy they absorbed, these Any excess energy leaks out.

Watching it was getting late, Wang Xuan put away the parchment.

Although the task of killing 100 silver-backed centipedes was completed, a new task appeared on the parchment that recorded the "centipede hunter".

"Hunt ten six-winged centipedes."

"It's really not easy to complete this centipede hunter mission and get the bronze treasure chest." Wang Xuan could only shake his head.

Chatting during the break, Zhao Lei asked how Yao Tiande and Duan Chen came to this world. After asking, he realized that they were not trapped in the underground parking lot of Longmao Plaza.

"I used to be a university lecturer. More than a month ago, when I was resting in the office, I suddenly felt the house shaking. I thought it was an earthquake at the time, so I ran out in fright. into the bottomless abyss."

Yao Tiande still had lingering fears when talking about what happened that day.

Duan Chen said softly, "I went to a company to apply for a job, and that company was obviously on the third floor, but I went up but didn't see anyone, and then I went down to the hall to find someone to ask what was going on, and found that there were several people in the hall with expressions on their faces. Panicked, looking at the doors and windows closed, it couldn't be destroyed, we were stuck there and couldn't get out."

Yao Tiande and Duan Chen briefly talked about what happened to them. Everyone listened to their ears, and they all showed surprise. They were trapped in the parking lot of Longmao Square. Later, they went all the way up and finally came to this second floor world, while Yao Tiande and Duan Chen's experience was completely different. One was trapped in the school and couldn't escape, and later found the

elevator to go up, and came here, while Duan Chen was trapped in an office building because he was applying for a job, and finally came here. .

"What elevator did you take here?" Wang Xuan asked.

Yao Tiande was talking about elevator No. 7, while Duan Chen was talking about elevator No. 9.

"Sure enough, I'm afraid that each of these ten elevators has a different way of entering. Whether it is a school, an office building or Longmao Plaza, it will eventually lead to this place." Wang Xuan smiled wryly and shook his head.

Yao Tiande said: "Actually, your No. 10 elevator has only opened soon. The further you go, the sooner the elevator will be."

Wang Xuan was stunned: "Is there such a thing? No wonder there were no people in the hall on the first floor before us, and more and more talents after that."

Zhang Haofei suddenly thought of something and said, "It seems that this kind of situation happens everywhere. It can't just happen in our country. What about abroad? If there are also foreigners, why didn't I see foreigners in Worm Town?"

Zhao Lei said: "No one can give you the answer to this. By the way, I feel that the energy I need to break through should be enough, but the excess energy seems to be overflowing. If this goes on, how do I break through?"

Zhang Haofei said: "Yes, I also encountered this situation, Wang Xuan, how about you?"

Wang Xuan nodded slightly and said, "In this situation, we need to communicate with the hatching beast and make it change."

Wang Xuan explained his theory again, with a hint of worry on his face: "Just in this way, the consciousness of the hatching beast will be awakened, and its self-awareness will be greatly enhanced. In short, you have to be more careful, no matter what. To strengthen your willpower, you must at least maintain the will that can suppress the hatching beast at all times."

Zhang Haofei said with a smile, "Don't worry, although this hatchling beast is conscious, its consciousness is extremely weak, and it is impossible to have any effect on us, let alone being a hostile host. After all, hatching beasts are just weapons that we use to fight."

Seeing Zhang Haofei's confident face, Wang Xuan nodded slightly and said, "I hope so."

After the series of fights just now, Wang Xuan faintly felt that the white light in his right hand had gradually filled the gap, and the energy he had just absorbed basically no longer overflowed, which meant that as long as he continued to absorb energy, After reaching the limit that the white light that fills the gap can hold, it can break through the adult body and grow to the fifth form.

Yao Tiande listened to Wang Xuan's theory, and secretly admired: "Wang Xuan, I came more than a month earlier than you, and I can only vaguely feel that if you want to break through, you should need

to sense the hatching beast, but how to sense it, and how to use the change, But you can't always grasp the point, and you can't understand it so thoroughly."

When he said this, he sighed and said, "There is indeed a huge gap between people."

Gu Manyao pondered slightly: "Whether the hatching beast can be successfully awakened has a lot to do with the fit between the human body and the hatching beast. The higher the fit, the easier it should be to wake the hatching beast, and vice versa."

Wang Xuandao: "Yes, there are many reasons, such as the degree of fit you mentioned, such as the strength of our own willpower, and the sensitivity of our sensing ability."

Zhao Lei asked curiously: "Wang Xuan, since you know the essence of breaking through into an adult body, have you awakened your monster consciousness? When will you be able to break through?"

Wang Xuan looked calm, looked at his right hand, and said, "It should be soon."

Hearing this, everyone was stunned. They knew that Wang Xuan was not a person who was full of mouths running trains. Relatively speaking, his personality was relatively low-key. Since he said it was fast, it was really fast.

Everyone had envious expressions on their faces, especially Yao Tiande and Duan Chen, who showed an almost adoring look.

After all, they have been trapped in the adult body for more than a month. They have thought about everything they can think of. They are almost desperate, and they can't break through. Can't think of how long it took Wang Xuan to enter here? Is this going to break through?

Once again, they felt a huge sense of gap.

"Genius and ordinary people... Sure enough..." Yao Tiande smiled bitterly, and had to admit that Wang Xuan was definitely a genius he couldn't reach or imagine.

Wang Xuan encouraged: "Don't be discouraged, calm down, and feel the hatching beasts if you have nothing to do. You can also try to call them in your heart. I think as long as you don't give up and keep your mind on it, there will be echoes."

"Well." Yao Tiande and Duan Chen were encouraged and cheered up again.

"It's getting dark soon, shall we go back to Insect Town to rest, or stay overnight here tonight?" Li Haotian looked at Wang Xuan and Zhao Lei and asked.

The eight of them arrived here at three o'clock in the morning last night, and they haven't slept until now. Although everyone is full of energy, they all feel exhausted after fighting and fighting, and they just want to fall asleep.

Yao Tiande said: "It's better not tonight. Duan Chen and I were at the South Gate with Wang Ziren at the time, and many people saw it on the way. If we go back with you now, and there is no Ziren, we will inevitably be punished. People with a heart are strange, and accidents are easy to occur."

Wang Xuan snorted and said, "Then let's spend the night here tonight and find a relatively safe place to rest."

Zhao Lei said: "Then we need someone on duty. We may have to take turns on duty."

Wang Xuandao: "No, the mechanical beasts are in the same mind with us. In addition to combining and fighting, they also have a purpose of being on duty. If there is danger, Gu Manyao and I will wake up instantly."

Hearing that these two mechanical beasts still have this effect, everyone is a little envious.

Zhao Lei said: "It seems that I also have to get a powertrain, and raise a mechanical beast of my own sooner rather than later."

Wang Xuan stood up and said, "It's not completely dark before the sky, let's kill again."

Zhao Lei didn't want to move anymore, and said, "Wang Xuan, aren't you tired? It's going to get dark soon, take a rest, you're working too hard."

Zhang Haofei said: "Yeah, I guess everyone is tired." Even a militant like him said that he was tired. That was really exhausting.

Wang Xuan is actually very tired and just wants to fall down and rest, but he is more eager to break through. He feels that if he can hunt another wave of silver-backed centipedes or giant pincers for himself, he may be able to break through.

For some reason, he always had some uneasy feeling in his heart, as if there were some hidden dangers that might come at any time.

This kind of inexplicable restlessness made him very uneasy, but he couldn't say why.

Wang Xuan understood that this was a special instinctive sense of danger that was unique to Warcraft because of his assimilation with Warcraft.

Perhaps there is some danger looming, but what could it be?

What danger could there be now?

Although Centipede Island is dangerous, whether it is a silver-backed centipede, a giant pincer centipede, or a stronger centipede, it should not be enough to make oneself so uneasy.

This feeling even surpassed the time when Wang Ziren appeared before.

"Could it be..."

Wang Xuan suddenly thought of something, and said to Yao Tiande: "Yao Tiande, are you sure that the people of the Rakshasa will know about Wang Ziren's murder after two or three days?"

Yao Tiande was stunned before he said, "It shouldn't be wrong, or it will take longer, what's wrong?"

Wang Xuan raised his head and looked into the distance, and saw the majestic and huge high wall of the insect town under the gradually falling night.

"I'm very uneasy. I always feel that something big is going to happen, but it shouldn't be these centipede island monsters that can make me feel this way. The only thing I can think of is Wang Ziren."

Wang Xuan said solemnly: "You said that there are 18 people like Wang Ziren in the Rakshasa, you can all know their specific abilities? Will there be any special abilities such as proficient tracking, or foreknowledge and induction? people?"

"I mean, will someone be able to know that Wang Ziren died here soon, instead of two or three days as you think?"

Yao Tiande was stopped by him, opened his mouth slightly, then shook his head and said: "I really don't know this, these big men are all high above, and they won't show me their hatching beasts or abilities, I can only say that I haven't heard of it. By the way, Wang Xuan, are you... too sensitive? Although there are many powerful people in the Rakshasa, most of them are in Scorpion City, and there are not many who actually stay in Insect Town. Even if there are a few, I will Do you think that no one can be so powerful, with such a long distance, can you feel that Wang Ziren died on Centipede Island directly in Worm Town?"

He shook his head as he spoke, still in disbelief.

The others stopped talking, Zhao Lei stood up and said, "Wang Xuan, do you feel something is wrong?"

When he saw Wang Xuan's appearance, he became a little nervous.

"Maybe I'm thinking too much, but I'd rather think too much than stay here with a fluke, get up, don't rest, come with me, and hold on for a while, we'd rather believe what we have, not Believe it or not."

Wang Xuan's eyes suddenly lit up, swept the crowd, his eyes became very sharp, and said: "The monsters you encounter next, you should protect yourself as much as possible, don't kill them, leave all these monsters to me, I will The fastest time to hit a higher form."

Everyone saw that Wang Xuan suddenly became so solemn, and his tone was unprecedented. Infected by him, they all stood up one after another. Although they were exhausted, they still insisted on nodding one after another.

"Let's go, since Wang Xuan has said so, let's all persevere." Zhao Lei didn't say that he was tired immediately, and he was the first to walk forward.

"Everyone, hurry up and follow, let's go!" Tie Jun also said in a deep voice, following closely.

"Hey, it's rare to see Wang Xuan being so serious. There's nothing to say. No matter how tired we are, we have to grit our teeth and fight again."

Zhang Haofei let out a laugh, twisted his neck, and the sound of skeleton bones sounded all over his body, followed by jumping up and overtaking Tie Jun.

Gu Manyao, Li Haotian, Bai Yan, and Yu Shanshan all rushed towards the depths of Centipede Island, which was getting darker and darker ahead without hesitation.

Yao Tiande and Duan Chen looked at each other and felt a shock in their hearts.

They can see that Wang Xuan is the leader of their small team. Although there are not many people in this team, they are very united. At least from the current point of view, Wang Xuan said a word, although they are exhausted, they do not hesitate to move forward. , no one has a single complaint, and they can see that the performance of these people is from the heart.

Compared to myself, these people are under Wang Ziren's hands, but each of them has their own conceit, but they are afraid of Wang Ziren's strength and power, and they have to obey his orders.

Infected by this kind of emotion, Yao Tiande felt warm in his heart~www.mtlnovel.com~ and also accelerated to follow.

He felt that this was the real team, and he really wanted to fit in and be a part of this team.

He thought that if everyone could see him as a real teammate, he would be proud of that.

Wang Xuan was also moved when he saw everyone's reaction.

Although this team has various flaws and is not perfect, everyone has one or another flaws, such as Zhang Haofei's gangster character, who likes to be flamboyant, easy to cause trouble, cause trouble for them, and For example, Li Haotian likes to back down, and he has a kind of selfishness in his bones, and he has always had the idea of protecting himself.

Another example is that Yu Shanshan actually pulls her hips in actual combat, and usually follows them, like a fuel bottle in the team.

Even Zhao Lei, although he likes to use his brains, most of them are afterthoughts or unreliable speculations. Sometimes, not only can they not help them, but it is easy to lead them into a ditch.

But even if everyone has so many shortcomings and so many shortcomings, it is really dangerous and critical moment, he gave an order, everyone still rushed forward without hesitation, and no one even had the idea of doubting his order.

Including the just joined forces to fight against such a powerful Ziren, and now everyone is obviously exhausted, but just because of their own words, they all rushed forward without any regrets.

No one thought about backing down.

These teammates, who have more or less some shortcomings and small problems, are not perfect, but...
he likes.

He stomped his feet sharply, and with a snap, Wang Xuan rushed up like lightning, and instantly disappeared between the group of strange rocks shrouded in darkness.

Chapter 132

Night fell quietly, and the entire Centipede Island was shrouded in darkness.

At the edge of Centipede Island, a large number of teams that hunted silver-backed centipedes here began to leave one after another and return to Bug Town.

A corpse was placed beside a cave on Centipede Island, surrounded by seven people.

This is the corpse of Wang Ziren who was killed. It was originally thrown into the cave by Wang Xuan, but now it was found and moved out again.

On the surface of Ziren's body, there are faint signs of melting. The ground of this centipede island has the function of self-purification. After the dead body is placed for a long time, it will be slowly purified and returned to nature.

"The leader is really predictable. The leader could have predicted that Wang Ziren was killed on Centipede Island."

Li Xing was deeply moved.

Lu Bingbing didn't speak, just waved his right hand, a drop of blood spilled, and a blood-red light spread out.

As the sky became darker and darker, the blood-red light gradually became brighter. In this light, a large number of faint footprints appeared. Lu Bingbing stared at the footprints with his eyes, and seemed to be able to see them. The trajectory of these footprints.

"There are eight enemies in total. After killing Wang Ziren, they threw him into the cave. These eight people took Duan Chen and Yao Tiande to leave together, um... There are also the footprints of two mechanical beasts."

After reading the footprints, Lu Bingbing said slowly: "This battle is very tragic, the opponents should be eight adults, and Wang Ziren is one to eight."

Li Xing showed a look of surprise and said, "Eight adults can kill Wang Ziren? Impossible."

Lu Bingbing said: "Duan Chen and Yao Tiande, who were with Wang Ziren, didn't die. There is only one reason. They betrayed him. It should be Ziren who was severely injured or killed by them."

Hearing this, Li Xing and the other six all showed shocked expressions.

No matter which power they are in, if their subordinates dare to betray their master, it is a heinous crime.

"Duan Chen, Yao Tiande... these two beasts, for nothing else, just this, I will not let them die happily." Li Xing's face was cold, and he slowly clenched his right hand into a fist.

"Let's go, it's getting dark, these people probably haven't returned to Insect Town, they might just stay here for the night."

Lu Bingbing suddenly quickened her pace, bypassed the cave, and began to run forward. Wherever she went, the piece of blood under her feet moved, and in the blood, footprints continued to emerge.

Li Xing followed closely behind with four other men and one woman.

In the darkness of night, as the teams that entered the insect town left one after another, the surroundings gradually became quiet, and the faint sound of fighting in the depths of Centipede Island became particularly evident.

"There are still people hunting centipedes in the depths of Centipede Island? So hard." Li Xing heard the sound, looked up into the distance, and couldn't help shaking his head.

Lu Bingbing's face was solemn, and she said, "It's these people." Suddenly, his body swayed, speeding up, and shot towards the direction of the sound.

Li Xing was stunned for a moment, then reacted, hurriedly chasing after him.

At this moment, Wang Xuan, Gu Manyao, Zhao Lei, Zhang Haofei, Yao Tiande and a group of ten people, plus two mechanical beasts, were surrounded by more than fifty silver-backed centipedes and giant pincers.

Bai Yan first launched the "Wizard's Blood Jet" to weaken the strength of the giant pincers, and then they formed a small circle, back to back, to resist the crazy attacks of these centipedes.

In order to help Wang Xuan make the final breakthrough, all of them only defended against these centipede attacks, and even if they counterattacked, they would only attack at the tail or footsteps, where the centipedes were not vital, avoiding vital parts such as the head as much as possible.

They want to leave all these centipedes to Wang Xuan to help him break through into adulthood.

Wang Xuan extended the two metal tentacles to the limit of five meters long, like a wandering dragon, interspersed between the centipedes, the two metal tentacles looked like two giant pythons.

Although the task of killing 100 silver-backed centipedes was completed, Wang Xuan's first target to attack was still the silver-backed centipede.

He deliberately did not kill these giant pincer centipedes whose combat power was weakened by the witch blood first, and interspersed between them, using their relatively clumsy and huge bodies as

obstacles, so that the silver-backed centipedes could not complete the true encirclement of themselves. Reduce your stress.

The two metal tentacles were pulled out, and each time they could accurately hit the relatively fragile head of the silver-backed centipede, and with one blow, it would definitely be beaten into meat sauce.

Soon six silver-backed centipedes were killed by him, and six white scales were absorbed. The white light in the right hand fluctuated violently, and the energy inside no longer overflowed and penetrated. The fluctuation of the white light became more and more violent, and there was a faint sign that it was about to expand and explode.

Wang Xuan understands that he is getting closer and closer to the critical point that he will break through.

The others tried their best to resist the crazy attacks of these centipedes, but they couldn't fight back. Everyone was exhausted and under great pressure, but everyone was gritting their teeth and persevering.

Soon, Wang Xuan killed more than a dozen silver-backed centipedes. After that, he started to hunt each other, including the giant pincers.

Compared with the silver-backed centipede, the giant pincer centipede is affected by the witch blood, and its speed is slower, making it easier to kill.

The energy of more than a dozen white scales filled the white light in his right hand, and the feeling of swelling and cracking became stronger and stronger. If he wanted to instantly kill these four-star dangerous centipedes, even Wang Xuan had to go all out in one breath. Even killing a dozen of them was not easy for him.

Of course, it is much easier to control the metal tentacles than the giant arm of the beast. If the giant arm of the beast is used, just killing the dozen or so centipedes will exhaust all his physical strength.

Yu Shanshan constantly activated the giant mask to protect everyone and resist the impact of the centipede.

The giant mask was shattered again and again, and she opened it again and again, and blood slowly seeped out from the corner of her mouth.

Every time the mask is broken, her internal organs are equivalent to a shock. Before she knows it, she has been seriously injured.

However, she gritted her teeth and kept supporting herself without speaking.

She persisted so much, not only for herself, nor for her favorite Bai Yan, but more for Wang Xuan.

Although she lost a lot of memories, she later learned through Gu Manyao that, like Bai Yan, she was once removed from her skull, turned into a clown, and almost died. It was Wang Xuan who was desperate to save her and Bai Yan.

She even remembered that because of her own shot, she disturbed Lan Lan, and Wu Yi succeeded, causing everyone to flee. When she blamed herself, Wang Xuan didn't say a word to her, but comforted and encouraged her.

She kept all this in her heart, and now Wang Xuan finally took the initiative to ask them to help him break through.

Compared with Wang Xuan, she is too weak, almost an existence that can be ignored, but now she can finally help Wang Xuan, which makes her very excited, and now she has no complaints even if she is seriously injured.

Yao Tiande can feel the huge pressure on everyone. If he can kill the attacking centipedes, the pressure on everyone will be much lighter. After all, as the centipedes are killed continuously, the number will become less and less, and the surrounding ground will gradually accumulate. With more and more centipede corpses, it affects their attack movement.

But now they can't. They can only grit their teeth and persevere, stay in place, resist the attack of the centipedes, and share the firepower of the attack for Wang Xuan, but they cannot kill the centipedes.

Although they were under increasing pressure, many people had painful expressions on their faces and cold sweat on their foreheads, but they still held back, no one attacked the vital points of these centipedes, and did not kill a centipede.

"These people..." Yao Tiande said silently in his heart, his right hand was swept out by a metal rod surrounded by electric light, avoiding the vital head of a rushing centipede, and smashing its front legs.

The number of dead silver-backed centipedes and giant pincer centipedes exceeded twenty, and Wang Xuan became more and more crazy. On the surface of the two metal tentacles, there was a faint blue light looming in the gaps between the covered metal pieces.

He fought like crazy. Driven by his instinct to fight, there were actually strands of energy in the blue crystal scales, which were slowly released.

Although this energy release is extremely thin, it has gradually increased his speed and strength, and the power of the metal tentacles has become more and more terrifying.

In the white light of the right hand, the energy is surging, and the energy it absorbs is not only the energy of white scales one after another, but also the energy of the faint blue crystal scales.

As the energy of the blue crystal scales was absorbed and merged, a faint blue light appeared in the white light, but the blue was too weak to be seen in the white light unless carefully observed. arrive.

As the energy of the blue crystal scales merged in, the white light underwent earth-shaking changes. Wang Xuan suddenly felt that his body had changed during the frantic attack, and the faint muscles and bones actually produced a kind of outward swelling. signs of cracking.

A new power is growing in the body.

Feeling the changes in his body, Wang Xuan's speed suddenly increased again, and he rushed out with a loud bang, and the two metal tentacles controlled by his right hand swept out from left and right.

With two crisp sounds, the silver-backed centipede on the left and the giant pincers on the right suddenly shattered their heads, their bodies lifted up in the air, and flew upside down to both sides.

Two white scales emerged from the bodies of the two centipedes and submerged in Wang Xuan's right hand.

As the two white scales entered, Wang Xuan felt that the swelling and tearing sensation of the white light in his right hand had finally reached its limit, and it exploded.

The white light exploded into thousands of tiny fragments of light. From the outside, he did not change in the slightest, but inside his body, it had already caused earth-shaking changes.

Small Book Pavilion

He stopped.

In the white light that exploded, all the energy that the monsters hunted along the way began to flow back and forth, like a flash flood, overwhelmingly sweeping and impacting every inch of his flesh and bones, and even his hair and body hair were watered with energy. , The muscles, bones, and internal organs of the whole body are greedily swallowing up these energy, and every part of his body is strengthening.

The fifth form was finally completed.

This is a real rebirth. The bursting white light will transform into shape again under the catalysis of the new force. This transformed white light will become stronger and stronger, and can hold more energy.

In my mind, a new message appeared.

"Name: Demon, Form: Perfect, Ability: Strangulation, Arm of Demon, Split, Double Arm of Demon, Extension Limit: Six meters.

"New ability comprehension: Spiral Strangulation."

Feeling the changes in the body, the new abilities were being grasped and grasped. The remaining centipedes moved towards them like crazy. Zhao Lei, Gu Manyao and others saw Wang Xuan suddenly stop, and a terrifying force was being released from his body. , immediately understood that he broke through.

Zhao Lei roared excitedly, and rushed out first.

Gu Manyao was faster than him and released the demon chi to protect Wang Xuan from the silver-backed centipede that rushed up.

Everyone rushed up to defend against the surrounding centipedes and protected Wang Xuan who was in the process of breaking through.

Wang Xuan narrowed his eyes slightly, feeling the drastic changes in his body. His body was still strengthening. His strength, speed, physical strength, reaction ability, hearing, vision, perception ability, and various recovery speeds were all increasing wildly.

If there is a huge gap between the adult body and the sub-body, then the gap between the perfect state of the fifth form and the adult body is even greater. A perfect state powerhouse can easily crush a group of adults. Only worthy of being called a strong man in Insect Town.

The two metal tentacles, which were originally five meters long, have now grown by one meter again, and their maximum length has reached six meters, which allows Wang Xuan to have a farther attack distance. The metal tentacles rotate at a high speed, generating a terrifying spiral force, which has extremely powerful penetrating power. Not only that, but the two metal tentacles can also rotate and strangle each other, producing even stronger destructive power.

The astonishing changes in his body were coming to an end. Wang Xuan just thought of it, and his body flashed out of everyone's protective circle, as fast as a ghost. He stretched out his right hand, and two thick metal tentacles began to extend along his right hand. Rotating and twisting, it looks like a giant metal drill bit rotating at high speed.

A giant pincer centipede faced it before it could react, and it was touched by a giant drill, and the outer shell shattered immediately.

The rotating metal tentacles continued to move forward, and soon extended to the limit of six meters away. Wherever they passed, whether it was a silver-backed centipede or a giant pincer centipede, as long as it was touched, it was immediately terrifying. The force generated by the high-speed rotation is pulled in, and the body explodes and smashes in an instant.

Everyone looked towards Wang Xuan, with surprised expressions in their eyes.

With just one blow, at least five silver-backed centipedes and giant pincers were strangled and exploded. Wang Xuan took advantage of the situation and swept the two six-meter-long metal tentacles that were spinning at high speed. All centipedes within a six-meter radius fan that were swept away were instantly killed.

With this single blow, at least six centipedes were smashed to pieces.

At this time, Wang Xuan stopped.

Feeling the great power of this spiral strangulation, a look of joy appeared on his face.

Perhaps they were frightened by the terror of Wang Xuan's attack. Eleven centipedes were killed in just two blows. The remaining silver-backed centipedes and giant pincers scattered in a hurry, and immediately turned around and fled into the surrounding darkness.

When everyone saw Wang Xuan's successful breakthrough, they all relaxed. They only felt exhausted and had no energy to chase after him. Instead, they all moved towards Wang Xuan.

"Wang Xuan, what is the fifth form called?"

"How is it? What does this fifth form feel like?"

"This move was too powerful just now, what's it called?"

Everyone was talking, and Zhao Lei, Gu Manyao, and Zhang Haofei asked questions almost at the same time.

With a smile on Wang Xuan's face, he finally succeeded in breaking through. The feeling of unease and danger in his heart disappeared, and his heart was calm.

"This fifth form is called the perfect state, and the move just now is called the spiral strangulation. As for the feeling, it only feels that the body is half lighter, and it feels like a fairy."

Wang Xuan was in a good mood and answered them one by one.

"Zhen state..." At this time, everyone finally realized that the fifth form after breaking through into an adult body was called the perfect state.

"What does this real state mean?" Zhang Haofei looked puzzled: "It seems that the meaning of real perversion also makes sense. The power just now was quite perverted."

Wang Xuan was a bit dumbfounded when he heard it. Knowing that Zhang Haofei was not very literate, he explained to him that it was true and not true.

Zhang Haofei finally understood and said, "Then what does Zhen mean?"

Wang Xuan said: "The meaning of reaching or coming, such as reaching a certain state."

Zhang Haofei said: "Then I understand it correctly, being in a state of being, reaching a metamorphosis, is similar to a real metamorphosis."

Wang Xuan could not have imagined that he would explain such a result for a long time, and he was speechless, thinking that the guy was really ignorant, and explained to him that it was playing the piano to the cow.

Gu Manyao couldn't help but burst out laughing.

"I'm exhausted, I can finally take a good rest." Zhao Lei let out a long sigh of relief and sat down, feeling so tired that he didn't even want to lift his little finger.

"Let's rest here tonight. It's safe to lean against that big rock." Tie Jun looked at his surroundings and said.

Everyone agreed to come down and look for a suitable and comfortable place to rest.

Wang Xuan asked Xiaojiao to climb on a big rock and keep a watch from a high position. If he finds danger, he needs to inform himself immediately~www.mtlnovel.com~ Xiaojiao nodded in succession, expressing understanding, and then jumped up.

On the other side, Gu Manyao was also instructing Da Guai to patrol the other side.

Everyone was so tired that they didn't even bother to pick up a lot of crystal scales that fell from the ground. They just wanted to fall to the ground and fall asleep.

Wang Xuan was rather excited because of the breakthrough. He was about to re-comprehend and master the spiral strangulation ability he had just mastered. He suddenly felt a sense and raised his head, but he saw that in the direction of Insect Town, there was a dreadful creature in the darkness. Blood red light.

The light moved close to the ground, very quickly, and was approaching them.

Following him, he saw seven people.

At the center of the moving blood-red light is a figure, followed by six people.

There was no uneasy feeling of unease in my heart, but I could feel a vague hostility, as if I was being watched here.

Wang Xuan immediately understood that these seven people came with hostility.

"It seems that my previous sensing did not go wrong. There is an enemy coming. Fortunately... I made a breakthrough first, otherwise the consequences would be disastrous." Wang Xuan thought silently in his heart.

If the other party is really here for Wang Ziren's business, then I'm afraid it's not just a strong person. If they don't break through, they will be in big trouble now.

Chapter 133

It was Lu Bingbing and Li Xing who came. They were all very fast and kept approaching.

Zhao Lei, Gu Manyao and others, who had just sat down and rested, also discovered one after another. Although they were exhausted, they could only rush to stand up again.

Seeing the seven people approaching, Yao Tiande and Duan Chen's expressions changed drastically, and they stepped back abruptly.

"What's the matter? Do you know each other?" After Zhao Lei finished speaking, he suddenly understood: "People from Rakshasa?"

Duan Chen nodded with fear on his face, Yao Tiande was calmer than him, and said, "The woman at the head is called Lu Bingbing, and the one behind her is called Li Xing. We met them once with Wang Ziren.

They were in Luoyang. Shanei's status is the same as Wang Ziren, but why did they suddenly come here?"

When he thought about it, even if Rakshasa knew about Wang Ziren's death, it would still be at least two or three days later. Now that Lu Bingbing and Li Xing appeared, he was completely unexpected.

When everyone heard Yao Tiande's words, they immediately understood that Lu Bingbing and Li Xing were the same level of powerhouses as Wang Ziren.

At this time, everyone looked at Wang Xuan with admiration on their faces. If Wang Xuan insisted on continuing to hunt monsters and break through into the body, they would be finished today.

It's just that Wang Xuan has just broken through to the state, and the other side has two strong men, can they be opponents?

"Wang Xuan, what should I do? Yao Tiande said that the two guys headed by him are the same as Wang Ziren. Are you sure?" Zhao Lei asked in a low voice, he understood that whether he could survive today depends on Wang Xuan. But Wang Xuan has just made a breakthrough, and no one knows how powerful he will be.

Wang Xuan watched Lu Bingbing, who was headed by him, keep approaching, and soon he was within 100 meters of them.

Although he could escape at his current speed, Zhao Lei, Gu Manyao, Zhang Haofei and Yao Tiande could not escape.

Soon, Lu Bingbing slowed down and stopped ten meters away from them.

Followed by Li Xing, who was tall and sturdy like a black bear, the other four men and one woman, who only had adult strength, were now 100 meters away and were running towards here with all their strength.

The layer of blood that appeared under Lu Bingbing's feet slowly subsided, she looked at Wang Xuan and ten people, and finally her eyes fell on Yao Tiande and Duan Chen, saw the red belts around their waists, nodded and said, "As expected. , you really betrayed Rakshasa, betrayed your master."

Yao Tiande and Duan Chen had ugly expressions on their faces. Facing Lu Bing and Li Xing, who were comparable to Wang Ziren, they instinctively felt fear and timidity.

Hearing that Lu Bingbing used the word "master", Zhang Haofei immediately couldn't help shouting: "Where did the master come from in modern society? Do you think you came from ancient society? I'm dying of laughter."

Zhao Lei interlarded: "These people got a little strength, and they floated up. They don't even know what their surnames are, and they still betrayed their masters? Let's just say that we are chaotic ministers and thieves."

He shook his head as he spoke, with a look of disapproval.

Listening to their words, Lu Bingbing's face sank. He glanced at Zhang Haofei and Zhao Lei, and said coldly, "It's a good thing to talk about, I don't know what's dead or alive."

Wang Xuan still looked calm and looked at Lu Bingbing and Li Xing who were approaching within ten meters. At the same time, facing two powerful men who were comparable to Wang Ziren, it was impossible to say that he was not nervous at all.

Li Xing took a step forward, surpassing Lu Bingbing, and said, "Yao Tiande, Duan Chen, you are so brave, Wang Ziren should treat you well, right? How dare you collude with outsiders to kill him?"

In Li Xing's view, no matter how many these adults were, they would not be able to kill Wang Ziren. The only possibility was that Yao Tiande and Duan Chen betrayed and attacked Wang Ziren, injuring him or even killing him by accident.

Duan Chen couldn't help but said, "We didn't collude with outsiders."

In his opinion, it was not that they wanted to kill Wang Ziren at all, but that Wang Ziren wanted to kill them.

Yao Tiande quickly calmed down after a brief period of panic and fear, and said, "Zi Ziren wants to kill us all, but we are also forced to do nothing."

"What nonsense." Lu Bingbing sneered, his eyes fell on Wang Xuan, who was the leader, and said: "The people of the Xuan Gang, even if the leader of the Xuan Gang kills Wang Ziren, he has to consider whether he can bear the consequences, you guys are really big. Brave, dare to collude with two Rakshasa traitors to kill Wang Ziren, do you want to provoke a dispute between the two factions?"

Li Xing stepped forward, like a dragon walking like a tiger. With a height of close to 1.9 meters and a sturdy body, when he walked over, he had a pressing aura. Deterred by his aura.

Wang Xuan immediately took a step and stood in front of everyone.

"Lu Bingbing, stop talking nonsense with them. We all know important people in the Xuan Gang. How can these guys represent the Xuan Gang? It is estimated that they are ordinary members of the Xuan Gang, and killing them will not cause disputes between the two factions. ."

Lu Bingbing nodded slightly.

"Yao Tiande, Duan Chen, don't think about dying happily today. As for the others... no matter which gang you belong to, let's bury them together with Wang Ziren."

"In Worm Town, dare to kill the core staff of our Rakshasa, dare to provoke the authority of our Rakshasa, even if the King of Heaven comes today, I can't save you, you all have to die!"

Li Xing suddenly let out a loud roar and clenched his right hand into a fist. In the darkness, a fiery red flame suddenly rose up. His right hand burned and was enveloped by the fiery red flame. Ruowu roared like a beast.

The fiery red flames spread from his right hand to his right arm and shoulders, and soon even covered half of his body, forming a beast form outside.

This beast, shaped like a male lion, is formed of fiery red flames, and it burns violently, making a "crackling" sound in the air, and a terrifying heat wave swept through, immediately causing the temperature of the air within ten meters to rise violently. .

Almost just stomping his feet, he took a step forward and narrowed the distance between himself and Wang Xuan at the front to within five meters. It swept across several meters of space, and enveloped Wang Xuan along with Zhao Lei, Bai Yan, Gu Manyao, Zhang Haofei and others behind him.

This terrifying momentum and heavy heat waves made everyone change their faces.

Just looking at the power, I am afraid that it will surpass the previous Wang Ziren.

Yu Shanshan, who was standing on the side, propped up her hands, the light mirror was turned on, and a semi-circular light mask immediately protected everyone in it.

Tie Jun raised his right hand, and the diamond shield appeared.

As soon as the semi-circular mask appeared, it was attacked by the beast of flames and instantly shattered. Yu Shanshan groaned and fell back, Wang Xuan stretched out his right hand, and two metal tentacles swung their teeth and claws into the beast of flames that swept in. , rotating with each other, forming a "spiral strangulation".

This was the fifth ability he had just realized when he was promoted to the perfect state. As soon as the "spiral strangulation" was activated, the tearing force formed by the high-speed rotation immediately swept the beast of flames released by Li Xing, tearing and shattering.

"Looking for death!" Li Xing was furious, his eyes shone with terrifying light, and there was a hint of shock in his eyes. He could see that Wang Xuan was a strong man.

In Insect Town, the state of being is the powerhouse who can dominate one side. In the entire Rakshasa, the powerhouse of the state of being is only under the leader of the Rakshasa.

Lu Bingbing was not ready to take action at first, but just swept aside and dealt with ten adults, only Li Xing alone would do.

With Wang Xuan's shot, Lu Bingbing suddenly found out that Wang Xuan is also a strong person.

"Did they really kill Wang Ziren with their real strength?" Lu Bingbing was a little confused. You must know that Wang Ziren is a strong person in his perfect state. If these people can really kill Wang Ziren with their real ability, it will be terrible.

Before she could think about it, she heard Li Xing roar: "Lu Bingbing, let's go together!"

Li Xing thought the same as her, if Wang Xuan and the others really killed Wang Ziren with their strength, Li Xing lost confidence, and only by joining forces with Lu Bingbing could they kill them.

Behind them, the four men and one woman who followed them finally came over and saw Li Xing release the beast of flames to attack Wang Xuan and others, but they didn't want to be torn apart by the two metal tentacles released by Wang Xuan. When they opened, these people were also surprised.

"Go!" Lu Bingbing let out a low shout, and swept up first. The five people showed their respective hatching beasts. Except for Lu Bingbing, they were all adults. They shot together and moved towards Wang Xuanshi. kill people.

In terms of numbers, there were only seven of them, but Li Xing and Lu Bingbing, who were headed by them, were the strongest.

The melee broke out in an instant. Wang Xuan just smashed the beast of flames that Li Xing had summoned. Li Xing clenched his right fist and hit him in the air.

Along with his right hand, there was a giant beast formed of flames.

This giant beast opened its **** mouth, and the body formed by the flames was more substantial. Obviously, compared to the beast of flames just now, the giant beast in front of him was Li Xing's true power.

Wang Xuan turned the six-meter-long metal tentacles and wrapped around the flaming behemoth. The flaming behemoth, like a real flaming beast, opened its **** mouth, frantically biting the metal tentacles wrapped around it, while Li Xing kicked both feet, and the whole portrait A cannonball, burning with fiery red flames all over the body, slammed into it.

On the other side, Lu Bingbing approached silently. Under her feet, the blood-red light reappeared. With her as the center, it radiated in all directions along the ground, and soon included everyone in the area covered by the blood-red light. Inside.

When everyone felt that something was wrong, it was already too late. Everyone felt that the blood-red light on the ground seemed to have a strong stickiness. When they stepped on it, their feet were stuck, let alone moving, it was difficult to even lift their feet. .

Everyone is not stupid, they immediately understand that this Lu Bingbing's ability is similar to Bai Yan's witch blood. The witch blood relies on infiltrating into the human body to interfere with people's balance and thinking, while the blood-red light relies on bringing everyone into the circle. It sticks to the soles of people's feet, making it difficult for people to move.

Bai Yan raised his right hand, and at the same moment launched the "Witch Blood Jet".

With the previous experience, he is now even more proficient in using "Wizard's Blood Jet". Almost at the same time as Lu Bingbing rushed to cast this blood-red light, the blood-curdling jet exploded into a rain of blood, covering everyone.

With a bang, Li Xing and Wang Xuan, who were burning with flames, collided with each other.

Wang Xuan felt that the soles of his feet were stuck and it was difficult for him to move instantaneously. When his body stagnated for a while, he was thrown by Li Xing.

A terrifying flame immediately rolled from Li Xing's body, engulfing his entire body.

A blood-red snake formed of fresh blood appeared on Lu Bingbing's right arm. She opened her right hand, and the blood-red snake flew out and rushed towards Wang Xuan from the other side.

As long as it is attacked by this blood-red snake, it can easily bite through the enemy's defensive armor, burrow into the flesh, enter the human body, and drill all the way to the brain of the human body. .

This blood-red snake is too weird and terrifying. Lu Bingbing wouldn't use it at all unless it was a special situation or the opponent was too strong.

Seeing that the blood-red snake was about to pounce on Wang Xuan from the other side, suddenly a black demon snake much bigger than An appeared, but it was a live demon. Chi, immediately entwined each other and bit.

One is an ancient demon dragon relic, and the other is a strange and terrifying unknown demon snake. In terms of origin, the demon chi is bigger, but in terms of growth, the demon chi is only an adult. This unknown blood-red demon snake is the perfect state.

The blood-red demon snake quickly bit off the black scales covered by the demon chi and drilled into its body.

Gu Manyao was trembling all over and her face was pale. She felt the same way that Yaochi was drilled into her body by this blood-red snake.

This encounter is terrifying.

The other four men and one woman who followed closely behind them all shot and attacked with all their strength. The woman among them held a metal crossbow in her right hand and shot from the air, shooting towards the crowd.

Among the other four men, an inch-haired man held a huge blade about two palms wide.

Another chubby man, holding a metal shield in both hands, charged head-on. He activated a special ability similar to the Iron Army's "savage collision" and rammed towards Gu Manyao.

The remaining two men, a tall and handsome man, held an iron chain in his hand, and a metal hammer was attached to the chain. He swung the metal hammer up and hit Bai Yan in the middle of the crowd. Then retreat to the back of the team for safety.

The last man was holding a sword, covered with faint white light, and rushed up.

Zhao Lei, Zhang Haofei, Tie Jun, Bai Yan, Yao Tiande and others wanted to rush out to fight back, only to find their feet stuck to the ground, making it difficult to move.

This makes them unable to dodge and move, and can only passively defend against each other's attacks.

Although Bai Yan activated Wu Xue, his control over Wu Xue was far less fast than Lu Bingbing's blood-red light.

The soles of Wang Xuan's feet were stuck by Lu Bingbing's blood-red light, and the speed was a little slower, and he was knocked flying by Li Xing, and the terrifying flames swept from Li Xing's body, and his whole body was about to be swallowed by the flames.

Li Xing sneered, he tried out Wang Xuan to be the perfect state, but he should have just been promoted to the perfect state, and he has not yet fully adapted to the power that suddenly became powerful in his body. Who can compare?

However, his smile quickly solidified, and he was shocked to find that his near-substantial flaming beast burst like a bubble.

This is his hatched beast Huo Huo. After it evolved to its perfect state, Huo Huo was born and formed in the raging flames. If it is real, it already has a certain self-awareness. With a volley, it has the terrifying power of burning everything.

I don't want to be entangled in the "spiral strangulation" launched by Wang Xuan.

Huo Huo was entangled with the two metal tentacles that were spinning at a high speed, and he opened his teeth and danced his claws.

At this moment, the two metal tentacles suddenly lit up with a blue dim light. The light appeared from Wang Xuan's right hand, all the way up, and instantly reached the tip of the tentacles. , the violent fire was instantly shattered.

This Huo Huo and Li Xing had their lives crossed, and the Huo Huo suddenly burst. As if he had been severely injured, he groaned, and blood spurted out of his mouth and nose.

Immediately following his waist, he was horrified to find that two huge metal tentacles bound his body from top to bottom.

"impossible--"

Li Xing's mouth and nose were full of blood spurting out, he opened his mouth and let out a roar.

He is a powerhouse in the perfect state, and Huoyu has evolved to a powerful state that is close to the real formation in the flames. If you want to kill it instantly, what kind of power does it need?

Who is this young man wearing the Xuan Gang logo in front of him? Even the big figures in the Xuan Gang he knew had absolutely no such strength.

Li Xing was roaring, his body erupted with all his strength, and the terrifying flames burned outward. He desperately tried to break free the metal tentacles wrapped around his body, hands and feet, but these

metal tentacles seemed to contain endless power, he felt himself like being crushed by Mount Tai, all his efforts are like a mayfly shaking a big tree.

In the next instant, he couldn't even let out a roar. As the metal tentacles shrank violently, the sound of bones shattering and flesh roared, and a large amount of blood spurted out along the gaps of the metal tentacles.

When the metal tentacles were released and retracted, Li Xing, who was originally as strong as a bear, was squeezed like a giant meat ball, and he could no longer look like a humanoid.

Borrowing the energy of the blue crystal scales to kill Li Xing, as soon as Li Xing died, the flames burning all over Wang Xuan immediately extinguished. He turned around, and swung his right hand out into the air. A blue afterimage was drawn in the middle, and its speed was faster than the speed of sound. After the metal tentacles were swept out and hit the target, there was a sound of breaking through the air.

Lu Bingbing cooperated with Li Xing to launch the blood-red light to stick to everyone's actions. She launched the blood-red snake by herself. She originally wanted to attack Wang Xuan from the other side, but was blocked by Gu Manyao's demon chi.

It's just that the adult Yaochi was no match for the perfect blood-red snake, and when it got into the body, Gu Manyao felt the same way and let out a scream, and the blood-red snake broke out of Yaochi's body in an instant.

Gu Manyao shuddered all over~www.mtlnovel.com~ and fell down as if she had collapsed.

The Yaochi was severely injured in an instant, and Lu Bingbing controlled the blood-colored snake to continue attacking Wang Xuan. When she saw that Li Xing successfully hit Wang Xuan, and Wang Xuan was swallowed by the flames of Huo Huo, she immediately understood that Wang Xuan was dead. So he changed the attack target of the blood-red snake and rushed towards Gu Manyao, who was lying on the ground.

She looks very ordinary, and she hates beautiful women in her bones. When she sees Gu Manyao, she is disgusted. Since there is no need to kill Wang Xuan, the first one who wants to kill is Gu Manyao.

Gu Manyao was injured and fell to the ground, how could she dodge the blood-red snake? She didn't want Yu Shanshan to see her danger, but she rushed over, pressed her on top of her, and protected Gu Manyao with her own body.

"Looking for death!" Lu Bingbing showed a vicious look on her face. She wanted to control the blood-red snake and pierce the heads of the two women together.

She didn't want the blood-red snake to attack Yu Shanshan, but a mirror-like luster appeared on the surface of Yu Shanshan's body, and the blood-red snake bounced back in the air.

Yu Shanshan launched a "mirror reflection".

In the "mirror" state, it can reflect all attacks.

Lu Bingbing frowned, took a step forward, and grabbed the blood-red snake that bounced back with his right hand.

In her hands, the little snake immediately began to swell hugely, and instantly turned into a blood-red giant python that was three meters long. Its power was even higher. She didn't want to have a sudden change at this moment, Li Xing's fire burst out, Li Xing Entangled by two metal tentacles, he instantly strangled and exploded into a mass of meat sauce.

When Lu Bingbing saw it, he was horrified. The blood-red giant python in his right hand immediately released it to attack Wang Xuan. He turned around and flew away, trying to escape.

She was so frightened by Li Xing's appearance that she was twisted into a ball of meat sauce.

Chapter 134

Lu Bingbing turned around and wanted to run away, but suddenly she groaned, as if she was severely injured, blood spurted out of her mouth and nose.

She turned her head and was horrified to find that the blood-red giant python that she had released was hit by a metal tentacle that glowed with blue light, and it exploded instantly.

Wang Xuan couldn't see the slightest expression on his face, the demon **** Youruo descended, with two six-meter-long metal tentacles extending from his right hand.

In the dark night, the blue dim light from these two metal tentacles was so dazzling that it illuminated the surroundings like a blue flowing.

After being promoted to the perfect state, all aspects of the body's abilities have been greatly improved, the strength of the body has doubled, and the limit of energy explosion that can be tolerated is several times higher than before.

This allows Wang Xuan to borrow more powerful blue crystal scale energy.

As soon as he stomped his feet, the energy of the blue crystal scales went down through his body. Coupled with the powerful strength of his perfect state, these two forces exploded, instantly tearing the blood-red light under his feet, and he seemed to have wings on his back and rose into the air. Like a goshawk swooping at a rabbit, swooping in the air, the metal tentacle controlled by the right hand shoots out electricity.

Lu Bingbing, who was trying her best to escape, felt her feet tighten suddenly. She lowered her head and was horrified to find that her ankles were entangled by metal tentacles. She pulled back with a strong force, and she fell heavily and threw out.

Between life and death, the survival instinct of a strong person made her twist her waist and roll, and the strongest force in her body burst out. While trying to break free from the metal tentacles wrapped around her legs, she stretched out her left hand and opened it I took out the storage belt and wanted to take out an explosive crystal from it.

This explosive crystal is the reward she got for doing the quest. It is a treasure with great power. She is reluctant to use it at ordinary times. At this moment, she wants to throw the explosive crystal out. Even if Wang Xuan can't be killed, it will definitely be able to blow up the two metal tentacles. .

She just touched the exploding crystal in the storage belt, and suddenly her body flew like a cloud and mist. She flew into the air, looked down in horror, and found that Wang Xuan was controlling two long snake-like metal tentacles. Throw her into the air.

"No, he wants to throw me out!" Lu Bingbing responded quickly, and immediately understood that Wang Xuan wanted to smash the rock she smashed to the side. She took advantage of the moment when he swung himself out to shoot the explosive crystal. She had seen the power of this explosive crystal. As long as it hit Wang Xuan, he would be killed or injured.

All this happened in the blink of an eye, and this thought flashed through Lu Bingbing's mind. She was about to curl up when she was about to curl up when the two metal tentacles wrapped around her legs yanked to both sides.

With a snort, she felt her legs being pulled left and right by an irresistible force, and a severe tearing pain and fear instantly went up from under her body to her brain. The last thought in her mind was, "It turns out that he is not throw me out."

The blood splattered, and the rocks below were dripping with blood. This dignified fifth form of the perfect powerhouse, Lu Bingbing, one of the eighteen great men in the Rakshasa, whose status and power are only below the leader, was captured by Wang Xuan. He wrapped his legs with metal tentacles and tore them apart alive.

The four men and one woman who followed Li Xing and Lu Bingbing were now fighting with everyone.

Although the soles of the crowd were stuck by Lu Bingbing's blood-red rays of light before, it was difficult to move, but they were better than the crowd. Even if they couldn't move to counterattack, but resisted with all their strength, it was difficult for these five people to succeed in one or two face-to-face encounters.

The witch blood controlled by Bai Yan also took effect immediately. Although it was difficult to influence the powerhouse, it was much easier to influence the adult body.

Affected by the witch blood, these five people immediately began to feel that something was wrong.

At this moment, Li Xing was twisted into a ball of meat sauce by Wang Xuan's metal tentacles. Lu Bingbing fled, and everyone regained their freedom of action. They immediately counterattacked with all their strength. How could the reaction of these five people be Lu Bingbing's swiftness, and they didn't even respond at this time? Come to escape.

When Lu Bingbing, who was trying to escape, was torn in half by Wang Xuan's metal tentacles, they were so frightened that they wanted to escape.

Unfortunately, it was too late, Zhao Lei, Zhang Haofei, Bai Yan, Tie Jun, Yao Tiande, Duan Chen and others rushed out and attacked with all their strength.

The inch-haired man wielding a giant blade, swept out the giant blade sideways, and blocked the holy light of the cross that Zhao Lei had just hit from the air. Zhang Haofei jumped up, the whirlwind bone claws hit him on the head, and immediately smashed his head together with the helmet. Crushed together.

The woman who used the metal crossbow reacted smartly. When she saw Lu Bingbing running away, she also turned around and wanted to escape. Wu Xue made an effort. She stepped out in one step, swayed her body and almost fell. A huge arrow with a length of two meters came from behind. It shot out, pierced through her body, and exploded.

The chunky man holding the metal shield collided with the iron army holding the diamond shield. The metal shield and the diamond shield collided with a loud noise. The chunky man staggered and fell back. Shield strike.

The chunky man raised his metal shield to block it, but he didn't want the metal stick held by Yao Tiande to swept over.

He slammed into his waist with a thud, and the electric light caused him to roar and scream. The metal shield in his hand was a step slower, and he was hit in the head by the shield of the Iron Army, and it exploded immediately.

The tall and handsome man was the most clever. He was standing at the back of the crowd, holding a metal hammer with chains and attacking from the air. When he saw that Li Xing was strangled by Wang Xuan, and Lu Bingbing turned around and started to flee, Without hesitation, he took the metal hammer and wanted to escape.

He started faster than Lu Bingbing, but not as fast as Lu Bingbing and Wang Xuan. When Wang Xuan tore Lu Bingbing in half, he had already fled ten meters away.

Wang Xuan took a step and instantly brought the distance between the two sides to five meters. With a wave of his right hand, the metal tentacles volleyed out.

The tall man reluctantly wanted to throw the metal hammer in his hand, but unfortunately only half of the hammer was thrown, and he was hit by the metal tentacles in his chest.

The crisp sound of the sonic boom was followed by the sound of his chest cracking. The broken bones mixed with flesh and blood exploded. His upper body and armor exploded together, leaving most of his body to fall.

In the end, the man holding the long sword covered with white light was killed by Duan Chen and Bai Yan.

By the time Wang Xuan took back the metal tentacles, the seven people who appeared this time had all died.

From Li Xing's start to the last person being killed, the process before and after it took no more than a minute.

Everyone looked at the bodies of these people and gasped violently.

Wang Xuan absorbed the white light energy of the two great powerhouses in a row, and felt the energy of the white light in his right hand fluctuate violently.

However, after being promoted to the perfect state, the energy required by the white light is already unimaginable. Even if the energy of these two perfect state powerhouses is absorbed by him, it is only a drop in the bucket.

Yao Tiande looked at Wang Xuan's back, and then looked at the bodies of Li Xing and Lu Bingbing on the ground with admiration.

He understands that he is betting on the right thing. When Wang Xuan is an adult, he is almost able to fight with the real state, so once he breaks through and gets promoted to the real state, his strength will definitely have an amazing improvement. At that time, I am afraid that ordinary Perfection was no match for him at all.

Although Li Xing and Lu Bingbing were not as strong as Wang Ziren, they were two strong men. They joined forces and were killed by Wang Xuan after being so vulnerable.

In addition to being shocked, Yao Tiande was also glad that he took refuge in the right place.

"Wang Xuan, it's still you who expected things like God, and even knew in advance that they were coming. Fortunately, you have broken through to the perfect state, otherwise we will all be finished today." Zhao Lei sat down on the ground, lying there, as if collapsed, he too tired, but his mouth couldn't help talking.

Looking at the corpse on the ground, and thinking about it now, everyone admires Wang Xuan more and more.

If he hadn't insisted, they would be the corpses lying all over the floor now.

"That's why we have to listen to what Wang Xuan says in the future." Tie Jun showed a slight smile. He was also tired and sat down slowly, leaning on a big rock behind him.

Wang Xuan checked the injury of Gu Manyao who was lying on the ground. The demon chi that she released earlier was bitten by Lu Bingbing's blood-red snake, and she was also affected. She is slowly recovering at this moment, and it is not a big problem.

Hearing what everyone said, he waved his hand and said, "Don't flatter me, everyone, take off the armor of these people first, and then take a good rest."

These corpses are placed on the ground. If the time is long, they will be slowly purified and fused by the ground. If the armor is not peeled off sooner, it is likely to be dissolved together.

"Wang Xuan, you are really too ruthless. This Li Xing is wearing a set of Tier 3 equipment. He was so smashed into a mess by you that he didn't even have a piece of equipment that was in good condition."

Zhao Lei looked at Li Xing's body with regret, and found that not to mention the five-piece third-order equipment, even the storage belt around his waist was damaged.

The real thing is to cut the weeds and remove the roots, leaving nothing behind.

On Lu Bingbing's body, only the alloy armor and alloy knee pads were damaged, of which the alloy helmet, alloy handguards and alloy boots can still be used.

Wang Xuan took off the alloy helmet and put it on his head. Now, he has a complete five-piece set of Tier 3 alloy equipment.

The alloy helmet can improve vision and hearing by 20. Now five pieces of equipment are worn on the body, and the attributes of all equipment have been further improved. The comprehensive improvement has been increased from the original 23 to 24.

The remaining alloy handguards were given to Zhao Lei, and the alloy boots were given to Gu Manyao.

Now, everyone basically has a full set of excellent second-order equipment, not only that, but also the extra second-order equipment, all of which were put into the right pocket of Xumi's belt by Wang Xuan.

In this pocket on the right, he is going to put some materials that are not often used.

Now, in the Xumi mustard seed space on his right, there are a lot of second-order ordinary and sophisticated equipment, as well as some first-order inferior equipment.

In addition to the armor stripped off the corpse, there are two storage belts, one belongs to Lu Bingbing's intermediate storage belt, and the other belongs to the primary storage belt of the inch-haired man.

This inch-haired man's primary storage belt is rather shabby. There are only 142 small crystal scales, 42 bottles of intermediate nutrient solution, a map of insect town and some daily necessities. There is not even a piece of parchment for recording tasks. Wang Xuan was surprised that there was a bottle of primary physical strength water in it.

Except for daily necessities, he took out everything else and put it into his Xumi belt.

The number of small crystal scales he owns has reached 1580, and the number of intermediate nutrient solution has increased to 219 bottles. What makes him a little excited is that he now has three bottles of primary stamina water in storage.

This is a treasure, and it may save lives at critical moments, but he will not use it casually unless it is absolutely necessary.

The crystal scales that hunted monsters on the ground were also collected by Zhao Lei, Tie Jun and others. There were a total of 39 crystal scales, and they were handed over to Wang Xuan.

Wang Xuan continued to check the materials in the intermediate storage belt left by Lu Bingbing. Although they are both in the perfect state, they are all big figures of Rakshasa, but compared with Wang Ziren, the materials in Lu Bingbing's storage belt are of poor grade. some.

Wang Xuan counted, there are 10 medium crystal scales, 216 small crystal scales, 26 bottles of intermediate nutrient solution, 15 bottles of advanced nutrient solution, one piece of parchment, one map each of Bug Town and Scorpion City, explosion One crystal, one smoke crystal, one mechanical beast heart, one mechanical head armor and one mechanical leg armor crystal, as well as several daily necessities.

Seeing this mechanical leg armor, Wang Xuan was overjoyed, took it out immediately, and said to Gu Manyao, "You just regretted that your darling lacked the leg armor, and this armor is here."

"Really?" Gu Manyao was overjoyed, and immediately sat up with the pain in his chest. Wang Xuan threw the leg armor crystal to her.

Gu Manyao summoned Daguy, opened his crystal face list, and installed the mechanical leg armor crystal. Daguy's body changed, and the surface of the four slender legs began to be covered with pieces of metal armor, which soon matched the body armor. The armor is knotted to form a perfect whole.

Gu Manyao looked at the changes of the mechanical fox with joy on his face.

Wang Xuan counted all these materials and put them into his Xumi belt. Now he has 33 medium crystal scales, 1835 small crystal scales, 245 bottles of intermediate nutrient solution, and 47 bottles of advanced nutrient solution. 3 bottles of primary physical strength water, 1 bottle of incorruptible medicine, 2 explosion crystals, 1 smoke crystal, 1 bottle of primary night vision water, 1 mechanical head armor crystal, as for other maps, daily necessities, sheepskin He didn't bother to count the paper, inferior equipment, and second-order equipment.

Pick up the heart of the mechanical beast belonging to Lu Bingbing, open it and see that there are four crystals on the crystal list, including the powertrain and the armor of the head, body and legs. Only then did I know that Lu Bingbing has a mechanical beast. , just didn't start at that time.

Looking at the parchment again, there is a line on it: "Task name: Find the hometown of mechanical beasts, difficulty: unknown."

This was the first time Wang Xuan had seen such a task of unknown difficulty. After reading the content carefully, he found that there was no map on the parchment, but only a line of prompting words.

"Go to Scorpion City and look for a strange statue. It seems that there is something wrong with the statue."

Looking at this prompt, Wang Xuan frowned slightly.

"This task is a bit different. There is no reward and no difficulty."

Shaking his head while talking to himself, he rolled up the parchment and put it into Xumi's belt.

Looking at the storage belt in my hand, I thought that I have collected several storage belts now, so I might as well distribute them to everyone.

Before, he was afraid that everyone wearing a belt would be too conspicuous and cause unnecessary trouble, but now there is no such worry.

Take out the three primary storage belts and two intermediate storage belts that you have, including the mechanical beast heart you just obtained.

Among them, two primary storage belts belonged to Zhao Lei and Zhang Haofei, and they were directly given to them. The remaining four items were left to Gu Manyao and Tie Jun to choose.

Gu Manyao had a mechanical fox, so he voluntarily gave up this time.

Yao Tiande and Duan Chen are self-aware and have just joined, so naturally they don't dare to divide things.

Yu Shanshan is a girl, she prefers mechanical beasts to storage belts, so she chose the heart of mechanical beasts.

She dripped blood on it, activated the heart of the mechanical beast, and quickly turned into a cheetah formed of mechanical metal. The surface of her body was covered with a mechanical shell, and her body became huge, forming a giant cheetah, which looked very mighty.

Yu Shanshan was overjoyed and excited.

Yao Tiande saw it in his eyes and sighed secretly, thinking that the people who can ride the mechanical beasts are usually the big figures in Insect Town. Like him, although he can afford the heart of the mechanical beast, the powertrain and armor need to complete the task. Or hunting monsters can be obtained, it takes some luck, for most adults, it is difficult to collect all four crystals.

But now there are three mechanical beasts in the crowd. If this returns to Insect Town, it will definitely cause quite a stir.

The remaining three belts, two intermediate storage belts, and one junior storage belt, for the sake of fairness, the three decided to make a fist-fight decision. In the end, Bai Yan was a bit unlucky, and they were awarded the junior storage belt. Tie Jun and Li Haotian each got an intermediate storage belt. .

After the allocation was completed, Wang Xuan, Gu Manyao and Yu Shanshan released a mechanical giant dog, a mechanical fox and a mechanical cheetah respectively, and everyone began to rest one after another. Wang Xuan saw Yao Tiande and was sitting not far from him, and suddenly said: "Yao Tiande, before you The people who say that the Rakshasa knows about Wang Ziren's death, at least it will take two or three days, but the fact is that it only came after half a day, can you guess the reason?"

He has been thinking just now, Wang Ziren is dead, how can Lu Bingbing and Li Xing know so quickly?

They can chase here, Wang Xuan already understands~www.mtlnovel.com~ This Lu Bingbing has special abilities, that blood-red light can track footprints, they chased here with footprints, but the key problem is these people How can I quickly get the news of Wang Ziren's death?

Yao Tiande said a little embarrassedly: "It's all my fault for being too arbitrary. If you didn't insist, we would all be dead now."

Zhao Lei just lay down. Hearing this, he sat up again and said: "Yeah, it's too strange to say, how did Lu Bingbing and Li Xing know? This may not be too soon, don't we kill Wang Ziren? When someone saw it? Then went back to tip off?"

Yao Tiande shook his head and said, "This shouldn't be possible, the people who will come to Centipede Island are generally adults, and they won't be people of high status. Even if they see it, they won't be able to contact the Rakshasa leader, but they can order Lu Bingbing and Li Xing to come here. Only the Rakshasa leader."

When he said this, Duan Chen added: "Yes, the relationship between Lu Bingbing and Li Xingshi and Wang Ziren is just like that, even if they know that Wang Ziren is dead, they may not be so persistent in wanting to replace him. Revenge, they can come here, it should be under the order of the Rakshasa leader."

Wang Xuan said: "The leader of the Rakshasa... In this way, the leader of the Rakshasa learned of Wang Ziren's death."

Zhao Lei said: "If no one has tipped off the news, then there is another possibility. This Rakshasa leader has special abilities and can know whether Wang Ziren is dead or alive."

When everyone heard this, they all paled slightly.

Yao Tiande looked at Zhao Lei, his face changed color and said: "If this is true, then Lu Bingbing and Li Xing are dead, and the Rakshasa leader will soon know."

Chapter 135

The people who were lying down and preparing to rest, all sat up again one after another.

Although exhausted, the news made everyone uneasy again.

"How on earth did this Rakshasa leader do it... Can he predict the future?" Zhao Lei touched his nose and muttered.

Gu Manyao's injury has not yet fully recovered, and at this moment she whispered: "If he could really predict the future, he would not let these people come."

Everyone understood what she meant. The leader of the Rakshasa was so powerful that he could predict the future, so he would not send these seven people to die.

Wang Xuandao: "It is impossible to predict the future, but he may have some means or special ability to know the life and death of these people, but it is possible."

Yao Tiande still had an unbelievable look on his face, and said, "Is there really a hatching beast with this ability?"

Wang Xuandao: "It doesn't have to be a hatching beast, it may be some other item or treasure. For example, Wang Ziren can find us with the item that tracks the breath, so it's not surprising that there are some items and treasures that can know whether someone is dead or alive. ."

Yao Tiande nodded slightly when he heard this, feeling that what Wang Xuan said made sense, Zhao Lei sighed and said, "If this is the case, then the Rakshasa leader should already know that these people are dead, this trouble is really one after another, we still not out of danger."

Gu Manyao said softly: "Zi Ziren died, and they sent two real states. If we know that both real states are dead now, I'm afraid that the Rakshasa leader will bring people in person."

Wang Xuan nodded and said, "Yes, even if you don't take action in person, the people who will be sent will definitely far exceed the strength of these two perfect states."

Zhang Haofei said, "Then are we still lying here? Hurry up and change places."

"Since these people have the means to find us, the Rakshasa leader really wants to take action. No matter where we hide, he will definitely be able to find it." Zhao Lei waved his hand and said, "Even if we change places, it will be useless."

Wang Xuan looked at Yao Tiande and Duan Chen and said, "How much do you know about this Rakshasa leader?"

Yao Tiande and Duan Chen looked at each other, and Yao Tiande said: "To be honest, we really don't know anything about the Rakshasa leader. We were only subordinates of Wang Ziren before, and after following him, we have seen some people with similar status as him. such as Lu Bingbing and Li Xing, but they are not qualified to meet the Rakshasa leader."

Duan Chen said: "Only Wang Ziren and Lu Bingbing are qualified to meet the Rakshasa leader. This Rakshasa leader is very mysterious, but even if he has special means to know that Lu Bingbing and these people are dead, he should be able to meet them in a short time. won't appear."

Zhang Haofei asked curiously, "Why?"

Yao Tiande said, "This is a good explanation. Although there are eighteen powerful people in the Rakshasa, most of these people are in Scorpion City, and not many really stay in Insect Town. Wang Ziren is dead, only Lu Bingbing and Li Xing is here, I guess it's not that the Rakshasa leader doesn't pay enough attention to him and doesn't want to send more elites, but because there are only Lu Bingbing and Li Xing in the Rakshasa currently in Wormtown."

"This guess makes sense." Zhao Lei nodded and said, "Otherwise I would be the Rakshasa leader. If you really want to know that Wang Ziren was killed, even if you want to send someone to investigate the cause or help him take revenge, it is still not good to send two Zhenti. Insurance, at least three or more."

Wang Xuan nodded slightly, at least he didn't have the strong uneasy feeling he had before, which meant that they were safe now.

Gu Manyao said: "I don't know what strength this Rakshasa leader is, is he also a powerhouse, or is he above the realm?"

Yao Tiande said: "The leader of the Rakshasa should also be a powerhouse, but he must be one of the best in the realm, and above the realm..."

When he said this, he shook his head and said: "At present, there should be no insect town. I remember hearing Huang Tao said before that the most powerful people in insect town are the powerhouses in the fifth form. As for surpassing the fifth form... you can only go above."

As he spoke, he stretched out his hand and pointed upward, and said, "It is said that there are regulations, and the power beyond the fifth form will be sealed here."

As soon as Wang Xuan's heart moved, he immediately remembered that when he was on the first floor that day, he was promoted to full body, and when he launched an attack, he would be bound by invisible forces. Could it be that the same is true in this insect town. When the strength reaches a certain limit, it will be suppressed and bound by some kind of rule force.

If this is the case, he is not afraid of anyone in the same situation.

"If this Rakshasa leader is also in the perfect state, then we don't have to be afraid of him. Wang Xuan was able to fight this princely man when he was only an adult. Now that he has reached the perfect state, is he still afraid of another perfect state?" Zhao Lei became excited, then let out a long sigh, and finally lay down at ease.

Wang Xuan understands that his body is strengthened by the energy of the blue crystal scales. At the same growth stage, he is much stronger than the average person. In addition, he can borrow the energy of the mysterious blue crystal scales, and his combat power is even greater. It is incalculable, so he was able to kill Li Xing and Lu Bingbing, two powerful men of the same level in a row.

"It turns out that when we break through to the top level, we must go to the upper floor. It seems that the five major forces in this insect town are nothing more than this. If we can all grow to the top level, we can completely form a sixth major force. The strength will not be weaker than these five major forces." Zhang Haofei laughed.

Yao Tiande said: "All of them have broken through to the perfect state?" He shook his head slightly. In his opinion, it is too difficult to break through to the perfect state. In front of him, Wang Xuan has already broken through. The remaining nine of them, according to the probability, are lucky. One can break through, but if they are unlucky, maybe nine can't break through, and the adult body is their limit.

"Let's rest, we'll talk about it tomorrow."

Wang Xuan also sat down and prepared to rest.

The night fell completely, and the entire Centipede Island was exceptionally quiet in the night, and even all kinds of centipede monsters were silent.

Everyone stopped talking, and the three mechanical beasts patrolled around, and everyone formed a circle and began to rest.

Since the leader of the Rakshasa is also in the perfect state, there is nothing to be afraid of, and everyone is at ease.

Except for Yao Tiande and Duan Chen, everyone else was so tired that they almost fell asleep after lying down.

Yao Tiande and Duan Chen couldn't sleep, and they were very worried. They recalled their encounters and experiences that day, and thought of the three great figures of Rakshasa, Wang Ziren, Lu Bingbing, and Li Xing. How powerful they were on weekdays, but today they are all damaged here.

They also understood that Rakshasa would never let them go, and even compared to Wang Xuanba, the two of them were the ones Rakshasa had to get rid of first and then quickly.

Next, what kind of crazy revenge will Rakshasa have?

Nobody knows.

In this kind of anxiety, the two have been sleeping unsteadily, waking up from time to time, listening to the snoring around them, and after an unknown amount of time, they vaguely felt that the sky was getting brighter, and they finally fell asleep.

Wang Xuan slept soundly this time. In his sleep, he only felt warm all over his body, as if he was immersed in a hot spring. Inside his body, there was a faint blue energy in the blue crystal scales. Slowly overflowing, moisturizing every inch of flesh and blood in the body, slowly rising, and continuing to strengthen his body.

As he was promoted to the ultimate state, even in his sleep, his body began to actively absorb the energy of the blue crystal scales, further growing and becoming stronger.

When he opened his eyes, he saw that the sky was bright, and the entire Centipede Island had regained its vitality.

He sat up, and several people woke up, but everyone stayed quiet and didn't wake up those who were still sleeping.

This sleep was so comfortable, Wang Xuan felt a change in his body when he woke up, and the strength in his body increased a little.

Yesterday's exhaustion was swept away, Wang Xuan stood up gently, and looked at the direction of Insect Town. Although it was far away, he could vaguely see a figure approaching the direction of Centipede Island.

Everyone woke up one after another, and after a night of rest, they all recovered their spirits.

Zhang Haofei said loudly, "Today I'm going to try to break through the body too, Zhao Lei, do you want to be first?"

Zhao Lei smiled and said: "Compared, who is afraid of you? It's not faster than anyone to kill monsters, we should have enough energy, and now it depends on whose talent is higher, who can sense and awaken their own hatching first. Beast, compared to talent, compared to brain, I, Zhao Lei, have never lost anyone."

Zhao Lei has always been confident in his own brain.

Tie Jun said: "This time I'm betting on Zhao Lei, Zhao Lei's brain is indeed smart and flexible."

Zhang Haofei glanced at Tie Jun and said, "Do you think he is smart? Why don't I think so?"

Tie Jun said seriously: "Zhao Lei still likes to use his brain. I heard that using his brain often can prevent Alzheimer's."

Gu Manyao couldn't help laughing when she heard this.

Zhao Lei looked at Tie Jun speechlessly and said, "Brother Tie, are you praising me or hurting me?"

"Of course I'm complimenting you, my brain is not good, and I have been bad at reading since I was a child, so I have always admired those of you who like to use their brains." Tie Jun was very emotional.

Wang Xuan took out the parchment that recorded the "Centipede Hunter" mission, looked towards the depths of Centipede Island, and said, "I will try to complete this mission today."

Zhao Lei said with a smile: "You have now broken through to the perfect state, and this five-star difficulty task is not difficult for you."

While everyone was laughing and chatting, they began to prepare to walk forward, and the three mechanical beasts followed their masters like faithful guards.

Continuing to go deeper, this time, I soon encountered a group of silver-backed centipedes and giant pincers, there must be fifty or sixty in number.

With yesterday's experience, when they encountered these centipedes again, everyone came up to them without a hurry.

After Wang Xuan broke through to the perfect state, killing these four-star dangerous silverbacks and giant pincer centipedes would have no effect. He stood in the team and tried his best not to shoot unless he saw who was in danger. Control metal tentacles to attack and save.

The other nine formed a huge circle and slowly advanced forward.

Now everyone is trying to summon the hatching beasts by induction. Zhang Haofei and Zhao Lei made a bet that they want to break through to the perfect state as soon as possible, but Wang Xuan is most optimistic about Gu Manyao.

If you want to break through into the adult body, the most critical point is to wake up your hatching beast, so that it has a certain self-awareness, and then qualitatively changes, and then absorbs enough energy to successfully break through.

This is extremely difficult for some people, but extremely easy for others.

When Gu Manyao's demon chi became an adult, it was already alive, and it even made her feel very uneasy at the time.

It can be said that she does not need to communicate with Yaochi at all, and find a way to wake it up. For her, breaking through the state is like a matter of course. As long as she understands this essence, the Yaochi changes, and the white light in her right hand obtains it. The energy is no longer overflowing, and after drawing enough energy, it can break through.

Except for Gu Manyao, among the remaining eight, it was Zhang Haofei's turn.

After his skeleton has broken through to adulthood, although it is far from being alive like Gu Manyao's Yaochi, there is also a little sign of self-awareness.

In addition, like Yu Shanshan's Light Mirror, Tie Jun's King Kong, Li Haotian's Orion, and even Bai Yan's Wu Xue, there is no sign of coming back to life.

Wang Xuan understood that this might have something to do with the characteristics of hatching beasts. Similar to Duan Chen's earth shield and Yao Tiande's metal stick, it was extremely difficult for them to wake up hatching beasts.

If there are no special circumstances or chance encounters, there is a high probability that the breakthrough will not be possible.

Nearly sixty silver-backed centipedes and giant pincers were killed, and Gu Manyao's face flushed slightly, with a faint hint of excitement.

She began to feel that after drawing energy from the white light in her right hand, it no longer overflowed.

This means that her demon chi has adjusted itself, and the defect of the white light has been repaired. Next, she only needs to hunt more centipedes and absorb enough energy to successfully break through, and the demon chi will grow to the first The perfection of the five forms.

Zhang Haofei's "skeleton" became more and more flexible, and it lived more and more in his body. From time to time, there would be a crisp sound of bones moving. Although he couldn't fully come alive like Yaochi, his signs of self-awareness became more and more obvious.

Zhao Lei is also constantly using the "Sacred Eye". On the back of his right hand, the holy eye is turning around, becoming more and more flexible. It seems that the "first saint" hidden in this right hand is also showing signs of waking up.

Seeing it in their eyes, others began to envy secretly. They understood that Gu Manyao, Zhang Haofei and Zhao Lei all had the hope of awakening the hatchling beasts, especially Gu Manyao, whose monster chi has come to life and has self-awareness, and this self-awareness still exists. It is extremely powerful, which means that it is possible to make a breakthrough in the future, let alone a breakthrough.

Yao Tiande sighed secretly. After being inspired and encouraged by Wang Xuan, he constantly sensed and summoned his hatching beast "Electric Beast" in his heart. Unfortunately, "Electric Beast" was still silent and did not respond. The stick showed no sign of coming back to life.

After harvesting 58 crystal scales, Wang Xuan now has 1,893 small crystal scales.

There was no rest, and everyone continued to move forward. Wang Xuan looked up and looked forward. He felt that the highest point in the central area of Centipede Island was not far away, and they were now really deep in the center of Centipede Island.

At this moment, Wang Xuan suddenly became alert, as if there were a pair of eyes staring at him behind him.

My heart froze, and I looked back suddenly, but there was nothing, and the feeling of being stared at has disappeared.

"Illusion?"

Wang Xuan frowned slightly.

"I have assimilated with Warcraft, and my instinct sense has not gone wrong so far. Since I have this feeling, there must be a reason, it can't be an illusion..."

Wang Xuan quickly denied that it was just an illusion, and was about to observe the surroundings carefully when a "humming" sound suddenly sounded around, followed by centipedes one after another.

The centipede that appeared this time is much smaller than the silver-backed centipede and the giant pincer, with a body length of no more than two meters, and six wings on its back. At this moment, six thin wings vibrate and make a "humming" sound, and they can fly short distances. , the feet on both sides bounced on the rock, and they rose into the air one after another, and surrounded the crowd.

Wang Xuan immediately opened the eyes of the illustrated book, and caught these centipedes that appeared called the six-winged centipede. The danger was higher than that of the silver-backed centipede and the giant pincer centipede, reaching four and a half stars.

"These are called six-winged centipedes, and the danger level is four and a half stars."

Wang Xuan moved his body as he spoke, sprang forward, stretched out his right hand, and two six-meter-long metal tentacles extended out, drawing towards these six-winged centipedes that were swooping down from the air.

In the "Centipede Hunter" task, in addition to hunting a hundred silver-backed centipedes, the second task is to hunt ten six-winged centipedes.

At this moment, there are more than twenty six-winged centipedes appearing around. They fly into the air, attack from the sky, open their mouthparts, and stretch out their two sharp feet. They fly in the air and are very flexible. Said they are extremely dangerous.

Bai Yan launched the "Witching Blood Jet" again, and sprayed a large amount of witch blood at the six-winged centipedes flying around~www.mtlnovel.com~ Yao Tiande drank lowly, and volleyed the metal rod carrying the electric light into the air.

To the current Wang Xuan, whether it is a four-and-half-star six-winged centipede or a four-star dangerous silver-backed centipede, there is no difference. The two metal tentacles are pulled out. Whether it is speed or strength, these six-winged centipedes can't resist at all. or dodge.

With two crisp snaps, the heads of two six-winged centipedes were smashed and fell down.

Wang Xuan's figure was like electricity, and he shot in succession. He needed to complete the task of hunting ten six-winged centipedes first.

Soon Bai Yan's witch blood had an effect. The danger of these six-winged centipedes dropped to about four stars. Wang Xuan easily hunted and killed ten six-winged centipedes, and completed the second task of the centipede hunter. The remaining ten or so six-winged centipedes were given to the crowd to hunt.

He took out the parchment again, and sure enough, the above task showed that he had completed the task of hunting ten six-winged centipedes, and the third and last task appeared.

"Kill the three-eyed centipede and get the bronze treasure chest."

"Finally going out." Wang Xuan regained his spirits, put away the parchment, and heard a faint whistle in the distance. He immediately understood that he had killed ten six-winged centipedes, which triggered the attack. The three-eyed centipede appeared in the final mission of the next "Centipede Hunter".

As the low whistle came here, everyone soon saw that a giant centipede was suddenly erected behind a big rock in the distance, carrying a stench, and was rushing towards everyone.

Those flying six-winged centipedes seemed to feel fear and dodged one after another.

Seeing this giant centipede, everyone couldn't help but take a breath.
